Tyler Technologies Awarded New Contract With Dubuque, Iowa; New Services Contract Valued at $1.1 Million

DALLAS, July 25 /PRNewswire/ -- Dallas-based Tyler Technologies, Inc. (NYSE: TYL) announced today that it has entered into a $1.1 million services contract with the Dubuque, Iowa City and County Conference Boards. Under the new contract, Tyler will conduct the Conference Boards' reappraisal of all real property that will be effective as of the January 1, 2004 tax lien date. The term of the agreement runs through December 2003.

"This contract represents a significant addition to our backlog of business in the north central region," stated Bruce F. Nagel, president and CEO of Tyler's Cole Layer Trumble (CLT) division, which will provide the services in Dubuque. "Dubuque is already a user of the CMS tax billing and collection software from Tyler Technologies, and we are pleased to be able to expand that relationship by providing these additional appraisal services," added Mr. Nagel. Tyler's CLT division is the nation's largest provider of mass appraisal and property tax software and services.

"While we have previously completed projects in Iowa for jurisdictions such as Des Moines, Cedar Rapids and Polk County, this latest project is the result of Tyler's coordinated expansion in the local government market," continued Mr. Nagel. "Through its growth over the past two years, Tyler has built a huge customer base and now has what we believe is the industry's broadest array of information management products and services for local governments. The Dubuque contract award is an example of the opportunities created by the complementary software and services capabilities at Tyler Technologies."

Tyler Technologies is a leading provider of end-to-end e-government information management solutions for local government. Tyler partners with clients to make local government more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes over 5,000 local government offices in 49 states, Canada and Puerto Rico.
