TYLER TECHNOLOGIES UNIT SIGNS NEW INDIANA REASSESSMENT OUTSOURCING CONTRACTS Total Indiana Awards Reach Over $10 Million

Dallas, Texas, November 26, 2001 —Tyler Technologies, Inc. (NYSE: TYL) announced today that its Cole Layer Trumble (CLT) division has entered into contracts to provide reassessment outsourcing services for Allen and Warrick counties in Indiana. The total value of the new contracts is more than $1.7 million, bringing CLT's total contract awards in Indiana for this reassessment cycle to eleven projects valued at over $10 million. The two contracts are expected to be completed in mid-2002.

Allen County, which includes the city of Fort Wayne, will outsource to CLT the tax appraisals for all commercial and industrial property in the county. Under the contract with Warrick County, CLT will appraise all real property in the county. The two counties combined have a population of nearly 400,000.

"We chose Tyler Technologies' CLT division because of its reputation in this industry," said Stacy Lopshire, Allen County Chief Deputy Assessor. "We were also impressed with CLT's commercial and industrial expertise. This project is for commercial / industrial properties and they are highly qualified."

Warrick County Assessor Debbie Hart stated, "CLT was our choice because of its reputation in Southwest Indiana. CLT received an excellent reference from Dubois County, which is a neighboring county of ours."

Tyler's CLT division is the nation's largest provider of mass appraisal and property tax software and business process outsourcing services. Since its founding in 1938, CLT has provided mass appraisal services and property tax administration software to over 1,200 assessing jurisdictions in the United States and Canada

Tony Henderson, Vice President of Marketing for Tyler's CLT division, commented, "We are well-positioned to sign more outsourcing business in Indiana for the 2002 reassessment cycle. The strong reputation that we have built over the years is paying dividends through the loyalty of our existing clients and their references."

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and e-government services to local governments. Tyler partners with clients to make local government more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes nearly 6,000 local government offices in 49 states, Canada and Puerto Rico.
