TYLER TECHNOLOGIES TO EASE SHARING OF FINANCIAL DATA FOR PEORIA UNIFIED SCHOOLS IN ARIZONA WITH NEW FINANCIAL MANAGEMENT SYSTEM

Dallas, November 24, 2008 -- Tyler Technologies, Inc. (NYSE: TYL) announced today that the Peoria Unified School District #11 (PUSD) will integrate its financial data by implementing Tyler's financial management solution. The contract, which includes software licenses, is valued at over $1 million. Tyler also will provide professional services and ongoing maintenance and support under the agreement.

"Tyler Technologies is pleased to provide the Peoria Unified Schools with a financial management solution that will make data available across departments, simplify reporting and offer Web-enabled applications. Our flexible system is an excellent fit for the District," said Richard Peterson, Jr., president of Tyler's MUNIS Financial Management Solutions.

PUSD will use various applications from Tyler's MUNIS financial and human resource product suites, as well as the Web-enabled Employee Self Service module. The District will simplify reporting with the GASB 34 Reporter application and will improve its handling of documents with Tyler Content Manager Limited Edition. PUSD also has contracted for Tyler's Operating System Database Administration services.

"Tyler's financial management solution will enable the Peoria Unified School District to consolidate several disparate systems. For the first time, we will be able to link our budget, position control, applicant tracking and payroll processes. We will also automate numerous routine—and typically manual—processes, create Web-based employee self-service opportunities and improve the efficiency of day-to-day tasks. By deploying Tyler's system, we will now be able to integrate with additional Web-based application providers for payment and fee collections, as well as our student information system for fees assessment and tracking," explained John R. Jones, finance director for PUSD.

Located in the Phoenix metropolitan area in Peoria/Glendale, Arizona, PUSD educates 37,000 students from pre-kindergarten through grade 12 at 38 schools. It ranks as the third largest school district in Arizona.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to make local government more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes more than 7,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. Tyler has been named one of "America's 200 Best Small Companies" for two
