Tyler Technologies Signs Odyssey Courts & Justice Solution Contract with City of Nashville and Davidson County, Tennessee

Dallas, June 10, 2009 -- Tyler Technologies, Inc. (NYSE: TYL) announced today that it has reached an agreement to provide the consolidated government of the City of Nashville, Tennessee, and Davidson County, Tennessee, with Tyler's integrated case management software solution. As part of this agreement, Tyler will provide software licenses, as well as professional services, maintenance, and post-implementation support.

The City and County will implement Tyler's Odyssey ® product suite, including Case Manager and Financial Manager applications for civil cases in the Chancery Court Clerk and Master's offices.

"The Office of the Clerk and Master for Davidson County is excited about awarding the contract for case management software to Tyler Technologies," said Cristi Scott, Clerk and Master for the court. "Our office has been searching for a case management system for several years that would require little to no customization while meeting our technical and functional requirements, especially our need for a quality accounting and imaging package. Tyler's proposed solution will allow us to run more efficiently internally as well as provide a web based public access system that will be of great benefit and service to attorneys and the public."

"We are very pleased to have the opportunity to work with the City of Nashville and Davidson County," commented Bruce Graham, president of Tyler's Courts & Justice Solution. "Tyler's web-based, integrated Odyssey Case Manager and Financial Manager applications will increase overall efficiency and organization of their sensitive court data. We are looking forward to this partnership and providing the City and County with industry-leading products and an outstanding customer experience."

A major center for the health care, music, publishing, banking, and transportation industries, Nashville is the state capital, the county seat for Davidson County, and the second most populous city in the state. Nashville has a consolidated city-county government that includes seven smaller municipalities in a two-tier system. The population of the Nashville Metropolitan area is more than 1.5 million people.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to make local government more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes more than 8,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. Tyler has been named one of "America's 200 Best Small Companies" for two consecutive years by *Forbes* Magazine. More information about Tyler Technologies can be found at www.tylertech.com.
