Tyler Technologies and Pennsylvania's North Allegheny School District Sign Agreement for Tyler's Financial Management Software

DALLAS – October 12, 2010 – Tyler Technologies, Inc. (NYSE: TYL) announced today that it has reached an agreement to provide its financial management and student information software to North Allegheny School District in Pennsylvania. North Allegheny is the second school district in Pennsylvania, and the seventh school district nationwide, to purchase a combination of Tyler school solutions that include Tyler's Munis® enterprise resource planning and Tyler's student information software, Tyler SIS.

"Out of all the companies we researched, Tyler had the best products with the features we were looking for," said Sean Flaherty, manager of administrative technology for North Allegheny School District. "Allegheny North will be able to meet the district's goals of going greener using Munis and Tyler SIS, as well as managing complex scheduling and reporting requirements. We look forward to implementing Munis and Tyler SIS."

North Allegheny, located 12 miles north of Pittsburgh, will implement the full Tyler SIS student information system and a variety of products from Tyler's integrated Munis product suite, including financials, human capital management, document management and analytics. The agreement includes software licenses, related professional services, maintenance and support.

"We are building a true partnership with the North Allegheny School District—one that will last far beyond the implementation and training phases," said Richard E. Peterson Jr., president of Tyler's ERP & School Division. "We offer extensive resources with a large staff dedicated solely to our School Solutions, consistent methodologies and a strong integration between functional areas, all of which bring tremendous value to our clients. We're pleased North Allegheny School District chose us as their partner."

About Tyler Technologies, Inc.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector–cities, counties, schools and other government entities–to become more efficient, more accessible, and more responsive to the needs of citizens. Tyler's client base includes more than 9,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. *Forbes* Magazine named Tyler as one of "America's 200 Best Small Companies" for three consecutive years.
