TYLER TECHNOLOGIES EARNS FINANCIAL MANAGEMENT SOFTWARE CONTRACT WITH HAGERSTOWN, MARYLAND

Dallas, April 28, 2008 -- Tyler Technologies, Inc. (NYSE: TYL) announced today that it has signed an agreement with the City of Hagerstown, Maryland to implement Tyler's MUNIS financial management solution. In addition to software licenses, the contract includes related professional services, maintenance and support.

The City of Hagerstown selected a range of applications from Tyler's MUNIS financial and human resource product suites. It also purchased MUNIS revenue modules, including Maryland Tax and Utility Billing. Hagerstown will employ several integrated solutions to optimize reporting and customer service. These include MUNIS Business Objects, Tyler Content Manager for MUNIS, Tyler Forms Processing, and MUNIS Citizen and Business Self Service.

Scott Nicewarner, IT manager for Hagerstown said that the City was in need of an Enterprise Resource Planning (ERP) solution vendor that would partner with the City to meet its current and future needs. "Having used the same mainframe system for over 25 years, we needed to find a software vendor that would be a partner in the process and not just an implementer. We feel that Tyler fit this criterion very well. Tyler's MUNIS system proved to be the most comprehensive integrated financial solution for the City of Hagerstown," he explained.

Nicewarner also noted that Tyler's ability to fulfill the accounting needs of Hagerstown's utility operations and to provide the tools to enable the City to improve service to citizens factored into the decision. "We deal with not only general municipal accounting operations, but also utility operations for water, sewer, and electricity—a requirement that not all local government software providers can satisfy. The ability to be comfortable with the utility side of our operations was key in our decision-making process. Additionally, it is important that we provide our citizens the same relationship benefits with technology that they have come to expect from their bank, retail store, and other companies they do business with both online and in person. Tyler's MUNIS solution positions us to provide these services," he said.

According to Richard Peterson, Jr., president of Tyler's MUNIS Financial Management Solutions, this latest agreement reflects both Tyler's strong presence in the region and Tyler's overall expertise in serving public sector agencies. "Tyler's MUNIS financial management solution has secured a reputation for its ability to satisfy the needs of public sector clients nationwide. Our recent contract with the City of Hagerstown speaks to Tyler's continued growth, as well as our commitment to serving the region. We welcome Hagerstown and look forward to a successful partnership for years to come," he stated.
