

Quidel Incident Rates – 2021

Quidel maintains health and safety programs conforming to best practices in the industry. We are focused on minimizing risk and protecting our employees and communities by employing safe technologies and operating procedures, in turn minimizing recordable incidents and improving safety across our organization.

Quidel utilizes a third-party to assist with collection of the following health and safety information:

- LTIR = (Lost Time Incident Rate)
- TRIR = (Total Recordable Cases Incident Rate)
- DART= (Days Away, Restricted or Transferred)

The table below represents Quidel's 2021 Incident Rates Summary (YTD average):

Year	Quidel LTIR	Quidel TRIR	Quidel DART	Industry Avg. TRIR
2021	0.40	0.66	0.40	2.9
