Greenline to Accelerate Asia Pacific Business with Two Senior Appointments

--Fran Thompson, Director of Business Development --Ameesh Kumar, Product Integration Manager

CHICAGO, June 2, 2009 /PRNewswire via COMTEX/ -- Greenline Financial Technologies, Inc., a leading provider of electronic trading marketplace solutions, today announced the appointment of Fran Thompson as Director of Business Development and Ameesh Kumar as Product Integration Manager, to accelerate its Asia Pacific business. Ms. Thompson will be responsible for driving sales in the Asia Pacific region and Mr. Kumar will be responsible for promoting and deploying Greenline's technology solutions and services.

"The appointment of Fran and Ameesh underscores Greenline's commitment to the Asia Pacific region," said Josh Tolman, president of Greenline. "Their combined expertise in trading technology and extensive knowledge of local clients will help drive our expansion into this growing market. Greenline is well-positioned to provide leading solutions and services to optimize our clients' global trading operations."

Ms. Thompson has over 15 years of international management and sales experience, 13 of which has been focused on the Asia Pacific region. She joins Greenline from FTSE Hong Kong where she was the Director of Asia Pacific.

Mr. Kumar has worked extensively in both Japan and India. He comes to Greenline from Morgan Stanley Japan Securities, where he worked in the Client Connectivity and STP Technology departments. Prior to Morgan Stanley, Mr. Kumar worked in information technology for Nikko Citigroup in Japan and Polaris Software Labs in India.

About Greenline Financial Technologies
