Tyler Technologies Signs Courts & Justice Solution Contract with Bowie County in Texas

Dallas, March 11, 2010 – Tyler Technologies (NYSE: TYL) has reached an agreement with Bowie County, Texas to provide Tyler's integrated court case management software solution. As part of the agreement, Tyler will provide software licenses, professional services, maintenance, and post-implementation support.

The County will implement Tyler's Odyssey® product suite, including Case Manager, Law Enforcement, Jail Manager, Prosecutor, Check Manager, and Supervision—an integrated system that draws everything together in one application to improve efficiencies and eliminate duplicate data entry. The software is designed to simplify the judicial process by automating the tracking and management of information involved in all case types, including criminal, traffic, civil, family, probate, and juvenile courts. Bowie County has been a Tyler Courts & Justice client since 1995.

Bowie County Judge James M. Carlow explained it was the consensus of county court officials that Tyler offered the best product for their employees' use. "As part of our procurement process, we looked at several different systems over the past couple years," said Carlow. "But after performing our due diligence, we ultimately came back to Tyler because no one else has what they have all under one roof. Our department heads concluded Tyler still offered the best solution, with its cutting edge technology, integration, and ease of use. It's an end-to-end solution that manages the data and workflow of each case from beginning to end." More than 200 court employees will be using the products.

"Bowie County has enjoyed a long-term relationship with Tyler and understands Odyssey's singular focus on courts and justice solutions that make county employees' jobs easier and save taxpayer money," stated Bruce Graham, president of Tyler's Courts & Justice Division. "Our emphasis on integrated justice provides customers like Bowie County a unified courts and justice platform that satisfies each department's unique operational needs and facilitates an enterprise view of critical justice information. By implementing Tyler's Odyssey Product Suite across multiple agencies, Bowie will be the largest integrated justice county in East Texas. We look forward to our continued partnership with Bowie County and ensuring their ongoing success."

Bowie County, with a population of approximately 92,240 and a total area of 923 square miles, is located in northeastern Texas on the Arkansas border. Founded in 1840, the county is named for James Bowie,

the legendary pioneer and frontiersman who died at the Battle of the Alamo during the Texas Revolution. Part of the Texarkana Metropolitan Area, the seat of Bowie County is New Boston.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to enable the public sector–cities, counties, schools and other government entities–to become more efficient, more accessible, and more responsive to the needs of citizens. Tyler's client base includes more than 9,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. Tyler has been named one of "America's 200 Best Small Companies" for three consecutive years by *Forbes* Magazine. More information about Tyler Technologies can be found at www.tylertech.com.

This document may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that are not historical in nature and typically address future or anticipated events, trends, expectations or beliefs with respect to our financial condition, results of operations or business. Forward-looking statements often contain words such as "believes," "expects," "anticipates," "foresees," "forecasts," "estimates," "plans," "intends," "continues," "may," "will," "should," "projects," "might," "could" or other similar words or phrases. Similarly, statements that describe our business strategy, outlook, objectives, plans, intentions or goals also are forward-looking statements. We believe there is a reasonable basis for our forward-looking statements, but they are inherently subject to risks and uncertainties and actual results could differ materially from the expectations and beliefs reflected in the forward-looking statements. We presently consider the following to be among the important factors that could cause actual results to differ materially from our expectations and beliefs: (1) economic, political and market conditions, including the recent global economic and financial crisis, and the general tightening of access to debt or equity capital; (2) our ability to achieve our financial forecasts due to various factors, including project delays by our customers, reductions in transaction size, fewer transactions, delays in delivery of new products or releases or a decline in our renewal rates for service agreements; (3) changes in the budgets or regulatory environments of our customers, primarily local and state governments, that could negatively impact information technology spending; (4) technological and market risks associated with the development of new products or services or of new versions of existing or acquired products or services; (5) our ability to successfully complete acquisitions and achieve growth or operational synergies through the integration of acquired businesses, while avoiding unanticipated costs and disruptions to existing operations; (6) competition in the industry in which we conduct business and the impact of competition on pricing, customer retention and pressure for new products or services; (7) the ability to attract and retain qualified personnel and dealing with the loss or retirement of key members of management or other key personnel; and (8) costs of compliance and any failure to comply with government and stock exchange regulations. A detailed discussion of these factors and other risks that affect our business are described in our filings with the Securities and Exchange Commission, including the detailed "Risk Factors" contained in our most recent annual report on Form 10-K. We expressly disclaim any obligation to publicly update or revise our forward-looking statements.
