Charter of the Science and Technology Committee
of the Board of Directors
of
IQVIA Holdings Inc.
(November 5, 2026)

1. Purpose. The purpose of the Science and Technology Committee ("Committee") of the Board of Directors ("Board") of IQVIA Holdings Inc. (the "Corporation") shall be to advise the Board on, and assist the Board in the oversight of, the significant scientific, medical and technological aspects of the Corporation's business.

2. Composition. The Committee shall consist of at least three directors appointed by the Board on the recommendation of the Nominating and Governance Committee. The Board shall designate one member of the Committee as the Chairperson. The members of the Committee may be removed by the Board in its discretion, and any vacancy on the Committee shall be filled by the Board at the next Board meeting following the occurrence of the vacancy or earlier as determined by the Board.

3. Meetings. The Committee shall hold regularly scheduled meetings at least biannually and such special meetings as circumstances dictate, at which a Secretary, designated by the Committee members, shall keep minutes. The Committee shall meet in executive session at least on an annual basis, or more frequently as the Committee or the Chairperson deems advisable. The Chairman of the Board or any two members of the Committee may call meetings of the Committee upon due notice to each other member at least 24 hours prior to the meeting. The Committee shall report regularly the Committee's activities and actions to the Board. All meetings of the Committee may be held by any means of communication by which all members participating may simultaneously hear each other during the meeting. All independent directors who are not members of the Committee may attend meetings of the Committee, but may not vote. In addition, the Committee may invite to its meetings any director, member of management of the Corporation, and such other persons as it deems appropriate in order to carry out its responsibilities.

4. Responsibilities and Powers. The Committee has direct responsibility and power to perform the following:

- Review and discuss medical, scientific and technological innovations that could impact the Corporation's business and the impact of these innovations on the Corporation's business, strategy and long-term growth.
- Oversee the development of the Corporation's scientific, medical and technology capabilities including infrastructure, strategic partnerships, intellectual property, and other resources or investments necessary to capitalize on the opportunities presented by these innovations.
- Review and discuss significant developments and trends in science, medicine and technology relevant to the Corporation's business, strategy and long-term growth.
- Assist the Board in its oversight of the Corporation's quality assurance function,

including significant quality trends, audit and inspection findings, remediation efforts and other matters relating to the quality and integrity of clinical research activities.

- Assist the Board in its oversight of significant scientific, medical and technological risks and opportunities that may affect the Corporation's business, strategy, innovation priorities or competitive position.
- Report regularly to the Board regarding matters within the Committee's responsibilities.
- Perform any other activities consistent with this Charter, the Corporation's bylaws and governing law or regulation, as the Board or the Committee deems necessary or appropriate.

5. Actions. In order to fulfill its role, the Committee shall be entitled to act in the following manner, to the fullest extent permitted under the Delaware General Corporation Law and in each case in accordance with the Corporation's certificate of incorporation and bylaws:

- Action may be taken by the Committee upon the affirmative vote of a majority of the members present at a meeting.
- A majority of the Committee members shall constitute a quorum. The Board may designate one or more directors as alternate members of the Committee, who may replace any absent or disqualified member at any meeting of the Committee. In the absence or disqualification of a member of the Committee, and in the absence of a designation by the Board of an alternate member to replace the absent or disqualified member, the member or members present at any meeting and not disqualified from voting, whether or not he, she or they constitute a quorum, may unanimously appoint another member of the Board to act at the meeting in the place of any absent or disqualified member, provided that such other member satisfies all applicable criteria for membership on the Committee.
- No action of the Committee shall be void or deemed to be without authority solely because of a failure of any member to meet the qualification requirements set forth in this Charter.
- Action may be taken by the Committee without a meeting if all of the members of the Committee indicate their approval thereof in writing or by electronic transmission.
- The Committee shall have the authority to delegate to subcommittees, comprised of one or more members of the Committee, any of the responsibilities of the full Committee and to officers of the Corporation such responsibilities of the full Committee as may be permitted by applicable laws, rules or regulations.

6. Authority and Resources. The Committee is authorized to conduct those activities necessary to fulfill its Committee responsibilities. The Committee may exercise sole authority to select, retain and terminate its own advisors (at the Corporation's expense) to assist the committee in carrying out its duties, including sole authority to establish the relationship and roles and responsibilities, approve the advisors' fees and other retention terms.

7. Annual Performance Evaluation. The Committee shall perform a review and evaluation (at least annually) of the performance of the Committee, including review of the compliance of

the Committee with this Charter. In addition, the Committee shall review and reassess (at least annually) the adequacy of this Charter and recommend to the Board any improvements to this Charter that the Committee considers necessary or valuable. The Committee shall conduct such evaluations and reviews in such manner as it deems appropriate.
