CSG Introduces Groundbreaking Enterprise Security Business

CSG Invotas™ Transforms the Security Landscape with Realtime Orchestration and Automation Solutions

ENGLEWOOD, Colo.--(BUSINESS WIRE)-- [CSG International, Inc. \(NASDAQ: CSGS\)](#), a global provider of interactive transaction-driven solutions and services, today announced the worldwide launch of [CSG Invotas](#), a new software and services business focused on enterprise security solutions designed to help clients combat the increasing frequency, sophistication, and unpredictability of cyber attacks.

CSG Invotas offers CIOs and CISOs a revolutionary approach to threat mitigation and eradication. Instead of simply detecting and analyzing intrusions, Invotas provides proven [automation and orchestration](#) solutions to respond in real time to emerging and ongoing cyber attacks.

For more than 30 years, CSG has been a trusted partner to some of the world's best-known brands in the communications services, financial services, government, transportation, and utilities sectors. CSG Invotas is rooted in the company's DNA and builds on the proven technologies, expertise, and global delivery infrastructure CSG currently provides to more than 500 global clients. It is a natural evolution of CSG's time-tested mediation and activation solutions by adapting the award-winning capabilities that support some of the most complex network operator environments in the world to a best-in-class security offering.

"Our clients have witnessed a staggering rise in the number of cyber attacks and compromised data records, and they need partners that can support real-time security management," said [Peter Kalan, president and chief executive officer of CSG](#). "Attacks unfold in the blink of an eye but can take months to be properly contained and eradicated. CSG Invotas enables our clients to respond to attacks in real time, providing increased levels of business assurance, continuity, efficiency, and risk management; decreased technology operations costs; and the ability to protect mission-critical infrastructure continuously and securely."

CSG Invotas brings CSG's renowned operational excellence to the enterprise security industry. It continues the company's legacy of providing successful management and protection of financial information and sensitive consumer data across communications-carrier-grade networks. Each year, CSG manages eight trillion mediation events, penny-balances more than \$36 billion in revenue, and processes 12 billion transactions on behalf of its clients.

Traditional defense strategies are no longer sufficient to combat the onslaught of cyber threat and attack. CSG Invotas offers security practitioners an innovative alternative that uses adaptive, flexible automation and orchestration solutions to enable real-time responses and scalable change management.

Visit us at Mobile World Congress and RSA!

CSG will be unveiling exciting new offerings and features at two leading industry events February 24th - 27th. Learn more about Invotas and the entire portfolio of CSG solutions in Barcelona during [Mobile World Congress](#) at Hall 5, Stand 5B20, or in San Francisco at [RSA](#) at booth #2400 in the South Expo.
