## CSG Invotas to Participate in GovSec 2014

### *Cyber Experts to Demonstrate Ways to Unify a Security Ecosystem for Faster Defense*

ENGLEWOOD, Colo.--(BUSINESS WIRE)-- [CSG Invotas](#), the exciting enterprise security business from [CSG International, Inc. \(NASDAQ: CSGS\)](#), today announced its participation at [GovSec 2014](#), which will be held May 13-14 in Washington, D.C.

GovSec is the nation's premier event for government, homeland security, and law enforcement professionals looking for proven strategies and cost-effective technology so they can achieve their mission of protecting our critical infrastructures, key assets, communities, and the nation. Executives from CSG Invotas will be on hand to discuss top trends in today's security environments. They will offer demonstrations showing the value of a unified security ecosystem and the ways digital workflows can help improve operational performance by automating repetitive actions. The demonstrations will highlight real-world use-cases that include a coordinated response to phishing attacks, how to address corrupt VPN users in minutes, and the ways threat enrichment can be made relevant to enterprise security environments.

Additionally, Paul Nguyen, president of global security solutions at CSG Invotas, will lead the session, "Don't React - Shift. Transform Your Security Strategy for Speed," on Tuesday, 13 May from 11:15-11:45 a.m. in the Solutions Theater. The session will address the ways orchestrated automation can enhance security defenses and reduce manual processes. Mr. Nguyen will discuss the ways orchestration strategies can meet current government challenges around active defense, advanced incident response, and operations continuity.

**Who:** [Paul Nguyen, president of global security solutions at CSG Invotas](#)

**Where:** GovSec, booth #2030

**When:** 13 - 14 May, at the Walter D Washington Convention Center

**What:** Meet with CSG Invotas executives to learn:

- How automation and orchestration tools can reduce the cybersecurity skills gap
- Why responding to attacks in real time provides increased levels of business assurance, continuity, efficiency, and risk management; decreased technology operations costs; and the ability to protect mission-critical infrastructure continuously and securely
- The importance of choosing innovative solutions that are technology agnostic and able to work with a variety of hardware, software, and implementations
- How to implement a unified threat-response approach that dramatically improves response times, reduces risk exposure, and makes security teams more valuable
- The ways security automation frees important security team professionals from rote tasks
- How the unification of security devices facilitates quick responses to attacks
- The return on investment from properly executed security automation installations

"Holistic security defense means reducing repetitive manual tasks so that highly trained security analysts can focus on more strategic requirements," said Mike Henderson, president at CSG Invotas. "Orchestrated automation that supports business continuity and advanced incident response provides an active, unified security ecosystem that allows government agencies and organizations to defend the frontier and the perimeter with speed, relevancy, and scale."

CSG Invotas representatives will be available to review the current security landscape. They will address the next evolution of defense strategies, the evolving competitive landscape, and the latest innovations in security orchestration, unified architecture, and automation capabilities using best-in-breed technology.

### **About CSG Invotas**

[CSG Invotas](#)<sup>TM</sup> offers security orchestration and automation solutions that provide dynamic, real-time management of large security ecosystems. It enables security professionals to respond effectively to ever-changing cyber threats. Invotas builds

upon CSG's proven solutions and expertise to support the mitigation and eradication of cyber attacks across complex enterprise environments. For more information, please visit [www.csginvotas.com](http://www.csginvotas.com).

## **About CSG International**

[CSG Systems International, Inc. \(NASDAQ:CSGS\)](http://www.csgi.com) is a market-leading business support solutions and services company serving the majority of the top 100 global communications service providers, including leaders in fixed, mobile, and next-generation networks such as AT&T, Comcast, DISH, Orange, Reliance, SingTel Optus, Telecom New Zealand, Telefonica, Time Warner Cable, T-Mobile, Verizon, Vivo, and Vodafone. With more than 30 years of experience and expertise in voice, video, data, and content services, CSG International offers a broad portfolio of licensed and Software-as-a-Service (SaaS)-based products and solutions that help clients compete more effectively, improve business operations and deliver a more impactful customer experience across a variety of touch points.
