## **Green Plains Renewable Energy, Inc. Prices Offering of \$75 Million 5.75% Convertible Senior Notes Due 2015**

OMAHA, Neb., Oct 29, 2010 (GlobeNewswire via COMTEX News Network) -- Green Plains Renewable Energy, Inc. (Nasdaq:GPPE) (the "Company") announced today the pricing of its offering of \$75 million aggregate principal amount of convertible senior notes due 2015 (the "notes") , which was previously announced as \$60 million aggregate principal amount of notes. The notes will be offered and sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), by the initial purchasers of the notes. The Company has also granted the initial purchasers of the notes a 30-day option to purchase up to an additional \$15 million aggregate principal amount of notes, solely to cover over-allotments.

The Company intends to use the net proceeds of this offering for general corporate purposes. Although the Company does not currently have any binding commitments or definitive agreements to enter into potential acquisitions, it may also use a portion of the net proceeds to acquire or invest in additional facilities, assets or technologies consistent with its growth strategy. The Company does not intend to use any proceeds from this offering to fund the Global Ethanol, LLC acquisition.

The notes will mature on November 1, 2015 and will bear interest at a fixed rate of 5.75% per year, payable on May 1 and November 1 of each year, beginning May 1, 2011. The notes will be general senior, unsecured obligations of the Company. On and after November 1, 2013, and prior to the maturity date, the Company may redeem the notes for cash if the sale price of the Company's common stock equals or exceeds 140% of the applicable conversion price for a specified time period ending on the trading day immediately prior to the date the Company delivers notice of the redemption. The redemption price will equal 100% of the principal amount of the notes to be redeemed, plus any accrued and unpaid interest to, but excluding, the redemption date. In addition, upon the occurrence of a fundamental change, holders of the notes will have the right, at their option, to require the Company to repurchase their notes in cash at a price equal to 100% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest to, but excluding, the fundamental change repurchase date.

The notes will be convertible into shares of the Company's common stock and cash in lieu of fractional shares until the close of business on the business day immediately preceding the maturity date. The initial conversion rate will be 69.7788 shares of the Company's common stock per \$1,000 principal amount of notes (equivalent to an initial conversion price of approximately \$14.33 per share of the Company's common stock), representing a 27.5% conversion premium over the last reported sale price of the Company's common stock on The NASDAQ Global Market on October 28, 2010. The conversion rate will be subject to adjustment upon the occurrence of certain events. In addition, the Company may be obligated to increase the conversion rate in connection with any conversion that occurs in connection with certain corporate events, including the Company's calling the notes for redemption.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the notes or any common stock issuable upon conversion of the notes, in any state or jurisdiction in which such offer, solicitation or sale would be unlawful. Any offers of the notes will be made only by means of a private offering memorandum. The notes and any shares of the Company's common stock issuable upon conversion of the notes have not been registered under the Securities Act or applicable state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state securities laws.
