DALLAS--(BUSINESS WIRE)-- KB Home (NYSE: KBH) today announced the grand opening of The Preserve Estates, a new-home community in Justin. These new homes are designed for the way people live today, with popular features like modern kitchens overlooking large great rooms, two- or three-car garages and outdoor balcony options. The community's one- and two-story floor plans feature up to six bedrooms and five baths on wooded homesites. The master plan will offer a variety of community amenities, including a clubhouse, pool, playground, parks, sports fields and hiking trails, and is zoned for highly rated Northwest Independent School District schools.

What sets KB Home apart is the company's focus on building strong, personal relationships with every customer, so they have a real partner in the homebuying process. Every KB home is uniquely built for each customer, so no two KB homes are the same. Homebuyers have the ability to personalize their new home, from floor plans to exterior styles to where they live in the community. Their home comes to life in the KB Home Design Studio, a one-of-a-kind experience where customers get both expert advice and the opportunity to select from a wide range of design choices that fit their style and their budget. Reflecting the company's commitment to creating an exceptional homebuying experience, KB Home is the #1 customer-ranked national homebuilder based on homebuyer satisfaction surveys from a leading third-party review site.

“We are pleased to offer homebuyers in the Dallas/Fort Worth area spacious new one- and two-story homes on wooded homesites in this beautiful master-planned community, which features a variety of on-site amenities, including a pool, clubhouse, playgrounds and sports fields,” said Marcia Dillon, President of KB Home’s Dallas division. “Families will appreciate the community’s desirable location near highly rated Northwest ISD schools, major employers and outdoor recreation. Innovative design plays an essential role in every home KB builds. The company’s floor plans inspire contemporary living, with a focus on roomy, light-filled spaces that have easy indoor/outdoor flow. KB homes are engineered to be highly energy and water efficient and include features that support healthier indoor environments.
