For the transition period from _____ to _____

Commission file number: 001-11001

FRONTIER

FRONTIER COMMUNICATIONS PARENT, INC.
(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

86-2359749

(I.R.S. Employer Identification No.)

1919 McKinney Avenue
Dallas, Texas

(Address of principal executive offices)

75201

(Zip Code)

Registrant's telephone number, including area code: (972) 445-0042

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	FYBR	The NASDAQ Stock Market LLC

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes ☐ No ☒Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definition of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐
Smaller reporting company ☐ Emerging growth company ☐If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act ☐Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The number of shares outstanding of the registrant's common stock as of April 29, 2024 was 248,552,000.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

(1) Summary of Significant Accounting Policies:

a) Description of Business:

Frontier Communications Parent, Inc. is a provider of communications services in the United States, with approximately 3.0 million broadband subscribers and approximately 13,200 employees, operating in 25 states. We were incorporated in 1935, originally under the name of Citizens Utilities Company and known as Citizens Communications Company until July 31, 2008. Frontier and its subsidiaries are referred to herein as “we,” “us,” “our,” “Frontier,” or the “Company” in this report.

b) Basis of Presentation and Use of Estimates:

Our interim unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and should be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2023. The consolidated financial statements include the accounts of Frontier Communications Parent, Inc., all consolidated subsidiaries and variable interest entities of which the Company is the primary beneficiary. All significant intercompany balances and transactions have been eliminated in consolidation. These interim unaudited consolidated financial statements include all adjustments (consisting of normal recurring accruals) considered necessary, in the opinion of Frontier’s management, to present fairly the results for the interim periods shown. Revenues, net income, and cash flows for any interim periods are not necessarily indicative of results that may be expected for the full year.

We operate in one reportable segment. Frontier provides both regulated and unregulated voice, data and video services to consumer, business, and wholesale customers and is typically the incumbent voice services provider in its service areas. Certain reclassifications of prior period balances have been made to conform to the current period presentation. For our interim financial statements as of and for the period ended March 31, 2024, we evaluated subsequent events and transactions for potential recognition or disclosure through the date that we filed this Form 10-Q with the Securities and Exchange Commission (“SEC”).

The preparation of our financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities at the date of the financial statements, (ii) the disclosure of contingent assets and liabilities, and (iii) the reported amounts of revenue and expenses during the reporting period. Actual results may differ from those estimates. Estimates and judgments are used when accounting for the application of allowance for credit losses, asset impairments, indefinite-lived intangibles, depreciation and amortization, income taxes, and pension and other postretirement benefits, among others.

c) Going Concern:

In accordance with the requirements of Accounting Standards Update (“ASU”) 2014-15, “Presentation of Financial Statements Going Concern (ASU 2014-15)”, and ASC 205, “Presentation of Financial Statements”, we have the responsibility to evaluate at each reporting period, including interim periods, whether conditions and/or events raise substantial doubt about our ability to meet our future financial obligations. In its evaluation for this report, management considered our current financial condition and liquidity sources, including current funds available, forecasted future cash flows and our conditional and unconditional obligations due within one year following the date of issuance of this Quarterly Report on Form 10-Q.

We believe we have the ability to meet our obligations for at least one year from the date of issuance of this Form 10-Q. Accordingly, the accompanying consolidated financial statements have been prepared assuming that we will continue as a going concern and contemplate the realization of assets and the satisfaction of liabilities in the normal course business.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

d) Cash Equivalents and Restricted Cash:

We consider all liquid investments with an original maturity of three months or less to be cash equivalents. Restricted cash amounts represent cash collateral required for certain Letter of Credit obligations and utility vendors and collateral for debt arrangements.

At March 31, 2024, the Company had \$41 million in restricted cash. Pursuant to the terms of the Company's securitized financing facility and secured fiber network revenue term notes, as described in Note 8, restricted cash is held in securitization escrow accounts. As of March 31, 2024, approximately \$40 million is current restricted cash held for the purpose of paying interest and certain fees. In addition, as of March 31, 2024, we had approximately \$1 million in noncurrent restricted cash to satisfy a portion of the required liquidity reserve amount, related to the securitization transaction.

e) Investments:

Short-term Investments

Given the long-term nature of our fiber build, we have invested cash into short-term investments to improve interest income while preserving liquidity to fund the investment as required.

As of March 31, 2024, short-term investments of \$225 million are comprised of term deposits earning interest in excess of traditional bank deposit rates, maturing between April 25, 2024, and May 2, 2024, and placed with banks with A-1/P-1 or equivalent credit quality. These short-term investments are in scope of ASC 320, Investments - Debt Securities. The short-term investments' original maturity is greater than 90 days but less than one year, and they are classified as held to maturity, recorded as current assets, and are accounted for at amortized cost.

Other Investments

In connection with the closing of the securitization transaction, approximately \$63 million in the form of U.S. Treasuries was deposited in an escrow account established with a trustee, for the purpose of paying interest and principal on \$47 million in remaining debt of our subsidiary Frontier Southwest Incorporated. As of March 31, 2024, this balance was approximately \$62 million and is included in "Other assets" on our consolidated balance sheets and is restricted. See Note 8 for further details.

f) Revenue Recognition:

Revenue for data and Internet services, voice services, video services, and switched and non-switched access services is recognized as services are provided to customers. Services that are billed in advance include monthly recurring network access services (including data services), special access services, and monthly recurring voice, video, and related charges. Revenue is recognized by measuring progress toward the complete satisfaction of our performance obligations. The unearned portion of these fees is deferred as a component of "Advanced billings" on our consolidated balance sheet and recognized as revenue over the period that the services are provided. Services that are billed in arrears include non-recurring network access services (including data services), switched access services, and non-recurring voice and video services. The earned but unbilled portion of these fees is recognized as revenue in our consolidated statements of income and accrued in "Accounts receivable" on our consolidated balance sheet in the period that services are provided. Excise taxes are recognized as a liability when billed.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Satisfaction of Performance Obligations

We satisfy our obligations to customers by transferring goods and services in exchange for consideration received from the customer. The timing of our satisfaction of the performance obligation may differ from the timing of the customer's payment.

Bundled Service and Allocation of Discounts

When customers purchase more than one service, revenue for each is determined by allocating the total transaction price based upon the relative stand-alone selling price of each service. We frequently offer service discounts as an incentive to customers, which reduce the total transaction price. Any incentives which are considered cash equivalents (e.g. gift cards) that are granted will similarly result in a reduction of the total transaction price. Cash equivalent incentives are accounted for on a portfolio basis and are recognized in the month they are awarded to customers.

Customer Incentives

In the process of acquiring and/or retaining customers, we may issue a variety of incentives aside from service discounts or cash equivalent incentives. Those incentives that have stand-alone value (e.g. gift cards not considered cash equivalents or free goods/services) are considered separate performance obligations. While these incentives are free to the customer, a portion of the consideration received from the customer is ascribed to them based upon their relative stand-alone selling price. These types of incentives are accounted for on a portfolio basis with both revenue and expense recognized in the month they are awarded to the customer. The earned revenue associated with these incentives is reflected in "Other" revenue while the associated costs are reflected in "Cost of Services".

Upfront Fees

All non-refundable upfront fees assessed to our customers provide them with a material right to renew; therefore, they are deferred by creating a contract liability and amortized into "Data and Internet service revenue" for fees charged to our wholesale customers and "Other revenue" for fees charged to all other customers over the average customer life using a portfolio approach.

Customer Acquisition Costs

Sales commission expenses are recognized as incurred. According to ASC 606, incremental costs in obtaining a contract with a customer are deferred and recorded as a contract asset if the period of benefit is expected to be greater than one year. For our retail customers, this period of benefit has been determined to be less than one year. As such, we applied the practical expedient that allows such costs to be expensed as incurred.

Taxes, Surcharges and Subsidies

We collect various taxes, Universal Service Funds ("USF") surcharges (primarily federal USF), and certain other surcharges from our customers and subsequently remits these taxes to governmental authorities.

In June 2015, we accepted the FCC offer of support to price cap carriers under the Connect America Fund ("CAF") Phase II program, which was intended to provide long-term support for broadband build commitments in high cost unserved or underserved areas. The seven-year funding term ended on December 31, 2021. The FCC is reviewing carriers' CAF II program completion data, and if the FCC determines that we did not satisfy certain applicable CAF Phase II requirements, we could be required to return a portion of the funds previously received and may be subject to certain other penalties, requirements and obligations. We have accrued an amount for any potential shortfall in the household build commitment that we deem to be probable and reasonably estimated, and we do not expect that any potential penalties, if ultimately incurred, will be material.

In May 2022, we accepted the FCC offer under the Rural Digital Opportunity Fund ("RDOF") Phase I program, which provides funding over a ten-year period to support the construction of broadband networks in rural communities across the country. We accepted \$37 million in annual support through 2032 in return for our commitment to make broadband available to households within the RDOF eligible areas. We will

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

recognize the FCC's RDOF Phase I subsidies into revenue on a straight-line basis over the ten-year funding term which will end March 31, 2032. We are required to complete the RDOF deployment by December 31, 2028. Thereafter, the FCC will review carriers' RDOF program completion data, and if the FCC determines that we did not satisfy applicable FCC RDOF requirements, we could be required to return a portion of the funds previously received and may be subject to certain other penalties, requirements and obligations. We accrue for any potential shortfall in the household build commitment that we deem to be probable and reasonably estimated.

g) Property, Plant and Equipment:

Property, plant, and equipment are stated at original cost, including capitalized interest, or fair market value as of the date of acquisition for acquired properties. Maintenance and repairs are charged to operating expenses as incurred. The gross book value of routine property, plant and equipment retirements is charged against accumulated depreciation.

h) Definite Lived Intangible Assets:

Intangible assets are initially recorded at estimated fair value. Customer relationship intangibles were established for business and wholesale customers. These intangibles are amortized on a straight-line basis over their assigned useful lives of between 11 and 16 years. Additionally, trademark and tradename assets established upon emergence are amortized on a straight-line basis over 5 years. We review such intangible assets annually, or more often if indicators of impairment arise, to determine whether there is evidence that indicates an impairment condition may exist that would necessitate a change in useful life and a different amortization period.

(i) Impairment of Long-Lived Assets and Long-Lived Assets to Be Disposed Of:

We review long-lived assets to be held and used, including customer lists and property, plant and equipment, and long-lived assets to be disposed of for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of the asset to the future undiscounted net cash flows expected to be generated by the asset. Recoverability of assets held for sale is measured by comparing the carrying amount of the assets to their estimated fair market value. If any assets are considered to be impaired, the impairment is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value. Also, we periodically reassess the useful lives of our long-lived assets to determine whether any changes are required.

j) Lease Accounting:

We determine if an arrangement contains a lease at inception. Right-of-use (ROU) assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating and Finance lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, we use our incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The operating and finance lease ROU asset also includes any lease payments made and excludes lease incentives. Our lease terms used in accounting for leases may reflect options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for operating leases is recognized on a straight-line basis over the lease term. ROU assets for operating leases are recorded to "Other Assets", and the related liabilities recorded to "Other current liabilities", and "Other liabilities" on our consolidated balance sheets. Assets subject to finance leases are included in "Property, Plant & Equipment", with corresponding liabilities recorded to "Other current liabilities", and "Other liabilities" on our consolidated balance sheets.

We assess potential impairments to our leases annually, or as indicators exist, if indicators of impairment arise to determine whether there is evidence that indicate an impairment condition may exist.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

k) Income Taxes and Deferred Income Taxes:

We file a consolidated federal income tax return. We utilize the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred income taxes are recorded for the tax effect of temporary differences between the financial statement basis and the tax basis of assets and liabilities using tax rates expected to be in effect when the temporary differences are expected to reverse.

We recognize deferred tax assets to the extent that we believe that these assets are more likely than not to be realized. In making such a determination, we consider all available positive and negative evidence, including future reversals of existing taxable temporary differences, tax-planning strategies, and results of recent operations. If we determine that we are not able to realize a portion of our net deferred tax assets in the future, we would make an adjustment to the deferred tax asset valuation allowance, which would increase the provision for income taxes.

The tax effect of a change in tax law or rates included in income tax expense from continuing operations includes effect of changes in deferred tax assets and liabilities initially recognized through a charge or credit to other comprehensive income. The residual tax effects typically are released when the item giving rise to the tax effect is disposed of, liquidated, or terminated.

l) Stock Plans:

We have one stock-based compensation plan under which grants are made and awards remain outstanding. Awards under this plan may be made to employees, directors or consultants of the Company or its affiliates, as determined by the Compensation and Human Capital Committee of the Board. Awards may be made in the form of restricted stock, restricted stock units, incentive stock options, non-qualified stock options, stock appreciation rights or other stock-based awards, including awards with performance, market, and time-vesting conditions.

The compensation cost recognized is based on awards ultimately expected to vest. GAAP requires forfeitures to be estimated and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

(2) Recent Accounting Pronouncements:

Financial Accounting Standards Not Yet Adopted

ASU No. 2023-09 – Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The amendments in this Update require that public business entities on an annual basis (1) disclose specific categories in the rate reconciliation and (2) provide additional information for reconciling items that meet a quantitative threshold (if the effect of those reconciling items is equal to or greater than 5 percent of the amount computed by multiplying pretax income [or loss] by the applicable statutory income tax rate). For public business entities, the amendments in this Update are effective for annual periods beginning after December 15, 2024.

ASU No. 2023-07 – Segment Reporting (Topic 280): Improvements to reportable segment disclosures. The amendments in this update improve financial reporting by requiring disclosure of incremental segment information on an annual and interim basis for all public entities to enable investors to develop more decision-useful financial analyses. Currently, Topic 280 requires that a public entity disclose certain information about its reportable segments. For example, a public entity is required to report a measure of segment profit or loss that the CODM uses to assess segment performance and make decisions about allocating resources. Topic 280 also requires other specified segment items and amounts, such as depreciation, amortization, and depletion expense, to be disclosed under certain circumstances. The amendments in this update do not change or remove those disclosure requirements. The amendments in this update also do not change how a public entity identifies its operating segments, aggregates those operating segments, or applies the quantitative thresholds to determine its reportable segments. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted.

FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

(3) Revenue Recognition:

We categorize our products, services and other revenues into the following categories:

Data and Internet services include broadband services for consumer and business customers. We provide data transmission services to high volume business customers and other carriers with dedicated high capacity circuits ("nonswitched access") including services to wireless providers ("wireless backhaul");

Voice services include traditional local and long-distance wireline services, Voice over Internet Protocol (VoIP) services, as well as a number of unified messaging services offered to our consumer and business customers. Voice services also include the long-distance voice origination and termination services that we provide to our business customers and other carriers;

Video services include revenues generated from services provided directly to consumer customers as linear terrestrial television services, through various satellite providers, and through partnerships with over-the-top (OTT) video providers. Video services also includes pay-per-view revenues, video on demand, equipment rentals, and video advertising. We have made the strategic decision to limit sales of new traditional TV services, focusing on our broadband products and OTT video options;

Other customer revenue includes switched access revenue, rents collected for collocation services, and revenue from other services and fees. Switched access revenue includes revenues derived from allowing other carriers to use our network to originate and/or terminate their local and long-distance voice traffic (switched access). These services are primarily billed on a minutes-of-use basis applying tariffed rates filed with the FCC or state agencies; and

Subsidy and other regulatory revenue includes revenues generated from cost subsidies from state and federal authorities, including the CAF II and RDOF.

The following tables provide a summary of revenues, by category.

	For the three months ended March 31,	
	2024	2023
<i>(\$ in millions)</i>		
Data and Internet services	\$ 947	\$ 862
Voice services	321	356
Video services	94	117
Other	84	83
Revenue from contracts with customers ⁽¹⁾	1,446	1,418
Subsidy and other revenue	16	22
Total revenue	\$ 1,462	\$ 1,440

	For the three months ended March 31,	
	2024	2023
<i>(\$ in millions)</i>		
Consumer	\$ 787	\$ 761
Business and wholesale	659	657
Revenue from contracts with customers ⁽¹⁾	1,446	1,418
Subsidy and other revenue	16	22
Total revenue	\$ 1,462	\$ 1,440

⁽¹⁾ Includes lease revenue of \$13 million and \$15 million for the three months ended March 31, 2024 and 2023, respectively.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

The following is a summary of the changes in the contract liabilities:

	Contract Liabilities	
	Current	Noncurrent
(\$ in millions)		
Balance at December 31, 2023	\$ 33	\$ 17
Revenue recognized included in opening contract balance	(8)	(5)
Credits granted, excluding amounts recognized as revenue	8	3
Reclassified between current and noncurrent	-	-
Balance at March 31, 2024	<u>\$ 33</u>	<u>\$ 15</u>

	Contract Liabilities	
	Current	Noncurrent
(\$ in millions)		
Balance at December 31, 2022	\$ 27	\$ 17
Revenue recognized included in opening contract balance	(9)	(3)
Credits granted, excluding amounts recognized as revenue	10	5
Reclassified between current and noncurrent	2	(2)
Balance at March 31, 2023	<u>\$ 30</u>	<u>\$ 17</u>

The unsatisfied obligations for retail customers consist of amounts in advance billings, which are expected to be earned within the following monthly billing cycle. Unsatisfied obligations for wholesale customers are based on a point-in-time calculation and determined by the number of circuits provided and the contractual price. These wholesale customer obligations change from period to period based on new circuits added as well as circuits that are terminated.

The following table includes estimated revenue expected to be recognized in the future related to performance obligations that are unsatisfied (or partially unsatisfied) at the end of the reporting period:

	Revenue from contracts with customers	
(\$ in millions)		
2024 (remaining nine months)	\$	437
2025		202
2026		104
2027		21
2028		11
Thereafter		5
Total	<u>\$</u>	<u>780</u>

(4) Accounts Receivable:

The components of accounts receivable, net at March 31, 2024 and December 31, 2023 are as follows:

	March 31, 2024	December 31, 2023
(\$ in millions)		
Retail and Wholesale	\$ 448	\$ 438
Other	63	61
Less: Allowance for doubtful accounts	(64)	(53)
Accounts receivable, net	<u>\$ 447</u>	<u>\$ 446</u>

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

We maintain an allowance for credit losses based on the estimated ability to collect accounts receivable. The allowance for credit losses is increased by recording an expense for the provision for bad debts for retail customers, and through decreases to revenue at the time of billing for wholesale customers. The allowance is decreased when customer accounts are written off, or when customers are given credits.

The provision for bad debts was \$9 million and \$7 million for the three months ended March 31, 2024 and 2023, respectively.

Approximately \$154 million and \$143 million of credits related to customers are included in other current liabilities on our consolidated balance sheets as of March 31, 2024, and December 31, 2023, respectively.

In accordance with ASC 326, we performed calculations to estimate expected credit losses, utilizing rates that are consistent with our write offs (net of recoveries) because such events affect the entity's loss given default experience.

Activity in the allowance for credit losses for the three months ended March 31, 2024 was as follows:

(\$ in millions)

Balance at December 31, 2023	\$	53
Provision for bad debt		9
Amounts charged to revenue		12
Write offs charged against the allowance		(10)
Balance at March 31, 2024	\$	<u>64</u>

(5) Property, Plant and Equipment:

Property, plant and equipment, net at March 31, 2024 and December 23, 2023 are as follows:

(\$ in millions)

	March 31, 2024	December 31, 2023
Property, plant and equipment	\$ 16,986	\$ 16,324
Less: Accumulated depreciation	(2,690)	(2,391)
Property, plant and equipment, net	<u>\$ 14,296</u>	<u>\$ 13,933</u>

As of March 31, 2024, our materials and supplies were \$549 million, as compared to \$594 million as of December 31, 2023. Components of this include fiber, network electronics, and customer premises equipment.

During the three months ended March 31, 2024, our capital expenditures were \$666 million which included a net decrease of \$156 million due to changes in accounts payable and accrued liabilities from December 31, 2023. In addition, during the three months ended March 31, 2024, our vendor financing payments were \$363 million, a net decrease of \$205 million from December 31, 2023. As of March 31, 2024, there was \$500 million in "Accounts payable and accrued liabilities", for payables associated with capital expenditures, and \$50 million included in "Other current liabilities" for vendor financing payables associated with capital expenditures. For the three months ended March 31, 2024, we had capitalized interest of \$12 million.

Depreciation expense is principally based on the composite group method. Depreciation expense was as follows:

	For the three months ended March 31,	
(\$ in millions)	2024	2023
Depreciation expense	\$ 308	\$ 250

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

(6) Intangibles:

We consider whether the carrying values of finite-lived intangible assets and property plant and equipment may not be recoverable or whether the carrying value of certain indefinite-lived intangible assets were impaired. No impairment was present for either intangibles or property plant and equipment as of March 31, 2024, and 2023.

The balances of these assets as of March 31, 2024 and December 31, 2023 are as follows:

(\$ in millions)	March 31, 2024			December 31, 2023		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Intangibles:						
Customer Relationships - Business	\$ 800	\$ (212)	\$ 588	\$ 800	\$ (194)	\$ 606
Customer Relationships - Wholesale	3,491	(637)	2,854	3,491	(582)	2,909
Trademarks & Tradenames	150	(87)	63	150	(80)	70
Total other intangibles	<u>\$ 4,441</u>	<u>\$ (936)</u>	<u>\$ 3,505</u>	<u>\$ 4,441</u>	<u>\$ (856)</u>	<u>\$ 3,585</u>

Amortization expense was as follows:

(\$ in millions)	For the three months ended	
	March 31,	
	2024	2023
Amortization expense	\$ 80	\$ 80

We amortize our intangible assets on a straight-line basis, over the assigned useful lives of 16 years for our wholesale customer relationships, 11 years for our business customer relationships, and five years for our trademarks and tradenames.

(7) Fair Value of Financial Instruments:

The following table summarizes the carrying amounts and estimated fair values for total long-term debt at March 31, 2024 and December 31, 2023. For the other financial instruments including cash, short-term investments, accounts receivable, accounts payable and other current liabilities, the carrying amounts approximate fair value due to the relatively short maturities of those instruments.

The fair value of our total long-term debt is estimated based upon quoted market prices at the reporting date for those financial instruments.

(\$ in millions)	March 31, 2024		December 31, 2023	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Total debt	\$ 11,227	\$ 10,733	\$ 11,231	\$ 10,712

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

(8) Long-Term Debt:

The activity in long-term debt is summarized as follows:

	For the three months ended March 31, 2024			March 31, 2024
	January 1, 2024	Principal Payments and Retirements	New Borrowings	
<i>(\$ in millions)</i>				
Secured debt issued by Frontier	\$ 8,848	\$ (4)	\$ -	\$ 8,844
Secured debt issued by subsidiaries	1,633	-	-	1,633
Unsecured debt issued by subsidiaries	750	-	-	750
Principal outstanding	<u>\$ 11,231</u>	<u>\$ (4)</u>	<u>\$ -</u>	<u>\$ 11,227</u>
Less: Debt issuance costs	(71)			(68)
Less: Current portion	(15)			(15)
Less: Debt premium / (discount)	(64)			(52)
Plus: Unamortized fair value adjustments ⁽¹⁾	165			148
Total Long-term debt	<u>\$ 11,246</u>			<u>\$ 11,240</u>

- (1) Upon emergence, we adjusted the carrying value of our debt to fair value. The adjustment consisted of the elimination of the existing unamortized debt issuance costs and unamortized discounts and recording a balance of \$236 million as a fair value adjustment. The fair value accounting adjustment is being amortized into interest expense using the effective interest method.

FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Credit Facilities and Term Loans

Revolving Facility

Subject to customary exceptions and thresholds, the security package under the Revolving Facility includes pledges of the equity interests in certain of our subsidiaries, which is currently limited to certain specified pledged entities and substantially all personal property of Frontier Video, which same assets also secure our First Lien Notes. The Revolving Facility is guaranteed by the same subsidiaries that guarantee the First Lien Notes. After giving effect to approximately \$336 million of letters of credit outstanding, we had \$564 million of available borrowing capacity under the Revolving Facility as of March 31, 2024.

The Revolving Facility includes customary negative covenants for loan agreements of this type, including covenants limiting Frontier and our restricted subsidiaries' (other than certain covenants therein which are limited to subsidiary guarantors) ability to, among other things, incur additional indebtedness, create liens on assets, make investments, loans or advances, engage in mergers, consolidations, sales of assets and acquisitions, pay dividends and distributions and make payments in respect of certain material payment subordinated indebtedness, in each case subject to customary exceptions for loan agreements of this type.

The Revolving Facility also includes certain customary representations and warranties, affirmative covenants, and events of default, including, but not limited to, payment defaults, breaches of representations and warranties, covenant defaults, certain events under ERISA, change of control or damage to a material portion of the collateral.

Term Loan Facility

Subject to certain exceptions and thresholds, the security package under the Term Loan Facility includes pledges of the equity interests in certain of our subsidiaries, which as of the issue date is limited to certain specified pledged entities and substantially all personal property of Frontier Video Services Inc., a Delaware corporation ("Frontier Video"), which same assets also secure the First Lien Notes (as defined below). The Term Loan Facility is guaranteed by the same subsidiaries that guarantee the First Lien Notes.

The Term Loan Facility includes customary negative covenants for loan agreements of this type, including covenants limiting Frontier and our restricted subsidiaries' (other than certain covenants therein which are limited to subsidiary guarantors) ability to, among other things, incur additional indebtedness, create liens on assets, make investments, loans or advances, engage in mergers, consolidations, sales of assets and acquisitions, pay dividends and distributions and make payments in respect of certain material payment subordinated indebtedness, in each case subject to customary exceptions for loan agreements of this type.

The Term Loan Facility also includes certain customary representations and warranties, affirmative covenants and events of default, including, but not limited to, payment defaults, breaches of representations and warranties, covenant defaults, certain events under ERISA, upon the conversion date, unstayed judgments in favor of a third-party involving an aggregate liability in excess of a certain threshold, change of control, upon the conversion date, specified governmental actions having a material adverse effect or condemnation or damage to a material portion of the collateral.

(9) **Restructuring and Other Charges:**

Restructuring and other charges consists of severance and employee costs related to workforce reductions.

During the three month period ended March 31, 2024, we incurred \$34 million in restructuring charges and other costs consisting of \$7 million in pension/OPEB special termination benefit enhancements related to a voluntary separation program, \$12 million of severance and employee costs resulting from workforce reductions, and \$15 million of costs related to other restructuring activities.

During the three month period ended March 31, 2023, we incurred \$8 million in restructuring charges and other costs consisting of \$10 million of severance and employee costs resulting from workforce reductions, and \$2 million of income related to other restructuring activities.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

The following is a summary of the changes in the liabilities established for restructuring and related programs:

(\$ in millions)

Balance at January 1, 2024	\$	10
Severance expense		12
Other costs		22
Cash payments during the period		(30)
Balance at March 31, 2024	\$	14

(10) Investment and Other Income, Net:

The components of investment and other income, net are as follows:

<i>(\$ in millions)</i>	For the three months ended March 31,	
	2024	2023
Interest and dividend income	\$ 18	\$ 21
Pension benefit	12	4
OPEB costs	(1)	(3)
OPEB remeasurement gain (loss)	9	(20)
Pension remeasurement gain	74	-
Total investment and other income, net	\$ 112	\$ 2

As a result of special termination benefit enhancements related to a voluntary separation plan, Frontier remeasured its pension plan and postretirement benefit plan obligations, resulting in remeasurement gains of \$74 million and \$9 million, respectively, for the three months ended March 31, 2024.

In the first quarter of 2023, Frontier amended the medical coverage for certain postretirement benefit plans, which resulted in remeasurement losses of \$20 million, primarily due to discount rate changes.

Pension and OPEB benefit (cost) consists of interest costs, expected return on plan assets, amortization of prior service (costs) and recognition of actuarial (gain) loss. Service cost components of pension and OPEB benefit costs are included in "Selling, general, and administrative expenses" on our consolidated statements of income.

(11) Stock Plans:

Frontier Communications Parent, Inc. has one stock-based compensation plan under which grants are made and awards remain outstanding: the 2021 Management Incentive Plan (the "2021 Incentive Plan"). The 2021 Incentive Plan permits stock-based awards to be made to employees, directors, or consultants of the Company or its affiliates, as determined by the Compensation and Human Capital Committee of the Board. Under the 2021 Incentive Plan, 15,600,000 shares of common stock were reserved for issuance. Equity awards have been issued in the form of time-based restricted stock units (RSUs) and performance-based stock units (PSUs). As of March 31, 2024, approximately 1,134,000 shares were available to grant under the Emergence LTI Program.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Restricted Stock Units

The following summary presents information regarding unvested restricted stock under the 2021 Incentive Plan:

	Number of Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)	Aggregate Fair Value (in millions)
Balance at January 1, 2024	2,468	\$ 24.37	\$ 63
Restricted stock units granted	1,266	\$ 23.29	\$ 31
Restricted stock units vested	(626)	\$ 26.51	\$ (15)
Restricted stock units forfeited	(16)	\$ 24.06	
Balance at March 31, 2024	3,092	\$ 24.65	\$ 76

For purposes of determining compensation expense, the fair value of each restricted stock grant is estimated based on the closing price of our common stock on the date of grant. The non-vested restricted stock units granted in 2022, 2023, and 2024 generally vest, and are expensed, on a ratable basis over three years from the grant date of the award. Total remaining unrecognized compensation cost associated with unvested restricted stock awards that is deferred at March 31, 2024 was \$57 million and the weighted average vesting period over which this cost is expected to be recognized is approximately 1 year.

None of the restricted stock awards may be sold, assigned, pledged, or otherwise transferred, voluntarily or involuntarily, by the employees until the restrictions lapse, subject to limited exceptions. The restrictions are time-based. Compensation expense, recognized in "Selling, general, and administrative expenses", of \$10 million and \$8 million for the three month-periods ended March 31, 2024, and 2023, respectively, has been recorded in connection with restricted stock.

Performance Stock Units

We currently have performance stock units ("PSU") outstanding for the 2022, 2023 and 2024 plans. Under these plans, a target number of PSUs are awarded to each participant with respect to a three-year performance period ("The Measurement Period"). For the 2024 PSU plan, for example, the Measurement Period is from January 1, 2024, through December 31, 2026. The performance metrics under the 2024 PSU plan consist of (1) Adjusted Fiber EBITDA, (2) Fiber Revenue and (3) Relative Total Shareholder Return ("TSR"). Relative TSR is based on our total return to stockholders over the Measurement Period relative to the S&P 400 Mid Cap Index. The metrics under the 2022 and 2023 plans are (1) Adjusted Fiber EBITDA, (2) Fiber Locations Constructed and (3) Expansion Fiber Penetration with an overall relative TSR modifier. For all outstanding plans, each performance metric is weighted 33.3%, and targets for each metric are set for each of the three years during the Measurement Period. Achievement of the metrics will be measured separately, and the number of awards earned will be determined based on actual performance relative to the targets of each performance metric. Achievement is measured on a cumulative basis for each performance metric individually at the end of the three-year Measurement Period with a TSR modifier for the 2022 and 2023 plans. The payout of the 2022, 2023 and 2024 PSUs can range from 0% to a maximum award payout of 200% of the target units. 2021 PSU awards paid out at 126% of target on March 1, 2024.

The number of PSU awards earned at the end of the Measurement Period may be more or less than the number of target PSUs granted as a result of performance. An executive must maintain a satisfactory performance rating during the Measurement Period and, except for limited circumstances, must be employed by Frontier upon determination in order for the award to vest. The Compensation and Human Capital Committee will determine the number of shares earned for the Measurement Period in the first quarter of the year following the end of the Measurement Period. PSUs awards, to the extent earned, will be paid out in the form of common stock on a one-for-one basis.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Under ASC 718, Stock Based Compensation Expense, a grant date, and the fair value of a performance award are determined once the targets are finalized. For the 2022 and 2023 PSU awards, targets for all of the metrics have been fully set for each performance period and the related expense will be amortized over the appropriate performance period. For the 2024 PSU awards, the targets related to two of the three performance metrics have not been established. As a result, as of March 31, 2024, we have recognized associated expense with respect to 1/3 of the aggregate outstanding 2024 PSU awards.

The following summary presents information regarding performance shares and changes during the period with regard to performance shares awarded under the 2021 Incentive Plan:

	Number of Shares (in thousands)	Weighted Average Award Date Fair Value (per share) ⁽¹⁾
Balance at January 1, 2024	4,487	\$ 25.33
Target performance shares awarded, net	1,769	\$ 24.35
Target performance shares vested	(3,898)	\$ 25.62
Target performance shares forfeited	(2)	\$ 26.61
Balance at March 31, 2024	2,356	\$ 25.21

⁽¹⁾ Represents the weighted average of the closing price of our stock on the date of the awards.

For purposes of determining compensation expense, the fair value of each performance share grant is estimated based on the closing price of a share of our common stock on the date of the grant, adjusted to reflect the fair value of the relative TSR metric for the 2024 grant and TSR modifier for previous years. For both the three months ended March 31, 2024, and 2023, we recognized net compensation expense, reflected in "Selling, general, and administrative expenses," of \$16 million, respectively, related to PSU awards.

Non-Employee Directors

Compensation expense related to the board of directors, recognized in "Selling, general, and administrative expenses", was less than \$1 million for the three months ended March 31, 2024.

(12) Income Taxes:

The following is a reconciliation of the provision for income taxes computed at the federal statutory rate to income taxes computed at the effective rates:

	For the three months ended March 31,	
	2024	2023
Consolidated tax provision at federal statutory rate	21.0 %	21.0 %
State income tax provisions, net of federal income tax benefit	12.0	12.5
Federal tax refund true-up	33.2	-
Tax reserve adjustment	(0.4)	(1.9)
Tax Credit	0.7	3.9
Sec.162(m) - nondeductible Executive Compensation	(2.7)	(11.4)
All other, net	(0.1)	(3.4)
Effective tax rate	63.7 %	20.7 %

Frontier considered positive and negative evidence in regard to evaluating certain state deferred tax assets during the first quarter of 2024, including the development of recent years of pre-tax book losses. On the basis of this

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

evaluation, a valuation allowance of \$303 million (\$240 million net of federal benefit) was recorded as of March 31, 2024.

(13) Net Earnings Per Share:

The reconciliation of the net income per common share calculation is as follows:

	For the three months ended March 31,	
	2024	2023
<i>(\$ in millions and shares in thousands, except per share amounts)</i>		
<u>Net income used for basic and diluted earnings per share:</u>		
Total basic net income		
attributable to Frontier common shareholders	\$ 1	\$ 3
Effect of loss related to dilutive stock units	-	-

Effect of dilutive restricted stock awards	667	575
Total weighted average shares outstanding - diluted	247,040	246,425
Diluted net earnings per share		
attributable to Frontier common shareholders	\$ 0.00	\$ 0.01

In calculating diluted net income per common share for the three months ended March 31, 2024 and 2023, the effect of certain outstanding PSUs is included in the computation as their respective performance metrics have been satisfied as of March 31, 2024 and 2023, respectively.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

(14) Comprehensive (loss) Income:

Comprehensive (loss) income consists of net income and other gains and losses affecting shareholders' equity (deficit) and pension/postretirement benefit (OPEB) liabilities that, under GAAP, are excluded from net income.

The components of accumulated other comprehensive income, net of tax, are as follows:

<i>(\$ in millions)</i>	OPEB Costs
Balance at January 1, 2024 ⁽¹⁾	\$ 96
Other comprehensive income before reclassifications	-
Amounts reclassified from accumulated other comprehensive loss to net loss	(5)
Net current-period other comprehensive loss	(5)
Balance at March 31, 2024 ⁽¹⁾	\$ 91

<i>(\$ in millions)</i>	OPEB Costs
Balance at January 1, 2023 ⁽¹⁾	\$ 79
Other comprehensive income before reclassifications	8
Amounts reclassified from accumulated other comprehensive loss to net income	(4)
Net current-period other comprehensive income	4
Balance at March 31, 2023 ⁽¹⁾	\$ 83

- ⁽¹⁾ OPEB amounts are net of deferred tax balances of \$29 million and \$23 million as of January 1, 2024 and 2023, respectively, and \$27 million and \$25 million as of March 31, 2024 and 2023, respectively.

The significant items reclassified from each component of accumulated other comprehensive loss are as follows:

<i>(\$ in millions)</i>	Amount Reclassified from Accumulated Other Comprehensive Income ⁽¹⁾		Affected Line Item in the Statement Where Net Income (Loss) is Presented
	For the three months ended March 31,		
	2024	2023	
Details about Accumulated Other Comprehensive Loss Components			
Amortization of OPEB Cost Items	\$ 6	\$ 5	Income (loss) before income taxes
Prior-service credits (costs)	(1)	(1)	Income tax benefit
Tax impact	\$ 5	\$ 4	Net income (loss)

- ⁽¹⁾ These accumulated other comprehensive income components are included in the computation of net periodic pension and OPEB costs (see Note 15 - Retirement Plans for additional details).

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

(15) Retirement Plans:

Frontier recognizes actuarial gains (losses) for our pension and postretirement plans in the period they occur. The components of net periodic benefit cost other than the service cost component for our plans as well as any actuarial gains or losses are included in "Investment and other income (loss)" on the consolidated statements of income.

The following tables provide the components of total pension benefit cost:

	Pension Benefits	
	For the three months ended	
	March 31,	
	2024	2023
<u>(\$ in millions).</u>		
<u>Components of total pension benefit cost</u>		
Service cost	\$ 12	\$ 13
Interest cost on projected benefit obligation	30	33
Expected return on plan assets	(42)	(37)
Pension remeasurement (gain)	(74)	-
Net periodic pension (benefit) costs	(74)	9
Pension special termination benefit enhancements	6	-
Total pension (benefit) cost	<u>\$ (68)</u>	<u>\$ 9</u>

The components of net periodic benefit cost other than the service cost component are included in "Investment and other income" on the consolidated statements of income.

The value of our pension plan assets increased \$93 million from \$2,268 million at December 31, 2023 to \$2,361 million at March 31, 2024. This increase primarily resulted from changes in the market value of investments of \$79 million, net of plan expenses, and contributions of \$57 million, offset by benefit payments to participants of \$43 million.

As a result of special termination benefit enhancements related to a voluntary separation plan, Frontier remeasured its pension plan obligations, resulting in a remeasurement gain of \$74 million for the three months ended March 31, 2024.

The pension plan contains provisions that provide certain employees with the option of receiving a lump sum payment upon retirement. Frontier's accounting policy is to record these payments as a settlement only if, in the aggregate, they exceed the sum of the annual service and interest costs for the Pension Plan's net periodic pension benefit cost.

In the first quarter of 2024, the Company recognized a charge of \$6 million to reflect the cost of pension special termination benefit enhancements related to a voluntary separation plan.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

The following table provides the components of total postretirement benefit cost:

(\$ in millions)	Postretirement	
	For the three months ended	
	March 31,	
	2024	2023
<u>Components of net periodic postretirement benefit cost</u>		
Service cost	\$ 1	\$ 2
Interest cost on projected benefit obligation	7	8
Amortization of prior service credit gain recognized	(6)	(5)
OPEB remeasurement (gain) loss	(9)	20
Net periodic postretirement (benefit) cost	(7)	25
OPEB special termination benefit enhancements	1	-
Total periodic postretirement (benefit) cost	<u>\$ (6)</u>	<u>\$ 25</u>

As a result of special termination benefit enhancements related to a voluntary separation plan, Frontier remeasured its postretirement benefit plan, resulting in a remeasurement gain of \$9 million for the three months ended March 31, 2024.

In the first quarter of 2024, the Company recognized a charge of \$1 million to reflect the cost of OPEB special termination benefit enhancements related to a voluntary separation plan.

In the first quarter of 2023, Frontier amended the medical coverage for certain postretirement benefit plans, which resulted in remeasurement losses of \$20 million, primarily due to discount rate changes.

We capitalized \$4 million of pension and OPEB expense for both the three months ended March 31, 2024 and 2023, respectively, into the cost of our capital expenditures, as the costs relate to our engineering and plant construction activities.

(16) Commitments and Contingencies:

We are party to various legal proceedings (including individual actions, class and putative class actions, and governmental investigations) arising in the normal course of our business covering a wide range of matters and types of claims including, but not limited to, general contract disputes, billing disputes, rights of access, taxes and surcharges, consumer protection, advertising, sales and the provision of services, intellectual property, including, trademark, copyright, and patent infringement, employment, regulatory, environmental, tort, claims of competitors and disputes with other carriers. Litigation is subject to uncertainty and the outcome of individual matters is not predictable. However, we believe that the ultimate resolution of all such matters, after considering insurance coverage or other indemnities to which we are entitled, will not have a material adverse effect on our financial position, results of operations, or cash flows.

Frontier has been named as a defendant in various intellectual property disputes. In each case, we have denied the allegations and are mounting a vigorous defense. We have accrued an amount for potential damages that we deem probable and reasonably estimable. We do not expect that any potential damages, if ultimately incurred, will be material.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

On April 14, 2024, we detected that a third party had gained unauthorized access to portions of our information technology environment. Upon detection, we initiated our established cyber incident response protocols and took measures to contain the incident. The containment measures, which included shutting down certain of the Company's systems, resulted in an operational disruption that could be considered material. Based on our investigation, we have determined that the third party was likely a cybercrime group, which gained access to, among other information, personally identifiable information. We believe we have contained the incident and have restored our core information technology environment and normal business operations. While we do not believe the incident is reasonably likely to materially impact our financial condition or results of operations, we continue to investigate the incident, have engaged cybersecurity experts, and have notified law enforcement authorities.

In October 2013, the California Attorney General's Office notified certain Verizon companies, including one of the subsidiaries that we acquired in the CTF transaction, of potential violations of California state hazardous waste statutes primarily arising from the disposal of electronic components, batteries, and aerosol cans at certain California facilities. We are cooperating with this investigation. We have accrued an amount for potential penalties that we deem to be probable and reasonably estimable, and we do not expect that any potential penalties, if ultimately incurred, will be material.

We accrue an expense for pending litigation when we determine that an unfavorable outcome is probable, and the amount of the loss can be reasonably estimated. Legal defense costs are expensed as incurred. None of our existing accruals for pending matters, after considering insurance coverage, is material. We monitor our pending litigation for the purpose of adjusting our accruals and revising our disclosures accordingly, when required. Litigation is, however, subject to uncertainty, and the outcome of any particular matter is not predictable. We will vigorously defend our interests in pending litigation, and as of this date, we believe that the ultimate resolution of all such matters, after considering insurance coverage or other indemnities to which we are entitled, will not have a material adverse effect on our consolidated financial position, results of operations, or our cash flows.

In 2015, Frontier accepted the FCC's CAF Phase II offer, which provided \$313 million in annual support through 2021 in our current 25 states in return for the Company's commitment to make broadband available to households within the CAF II eligible areas. The Company was required to complete the CAF II deployment by December 31, 2021. Thereafter, the FCC has been reviewing carriers' CAF II program completion data, and if the FCC determines that the Company did not satisfy applicable FCC CAF Phase II requirements, Frontier could be required to return a portion of the funds previously received and may be subject to certain fines, requirements and obligations.

On January 30, 2020, the FCC adopted an order establishing the RDOF competitive reverse auction to provide support to serve high-cost areas. Under the FCC's RDOF Phase I auction, we were awarded approximately \$371 million over ten years to build gigabit-capable broadband over a fiber-to-the-premises network to approximately 127,000 locations in eight states (California, Connecticut, Florida, Illinois, New York, Pennsylvania, Texas, and West Virginia). We began receiving RDOF funding in the second quarter of 2022 and we will be required to complete the buildout to the awarded locations by December 31, 2028, with interim target milestones over this period. To the extent Frontier is unable to meet the milestones or construct to all locations by the required deadlines, Frontier could be required to return a portion of funds previously received and may be subject to certain fines, requirements and obligations.

The FCC currently classifies fixed consumer broadband services as information services, subject to light-touch regulation. On April 25, 2024, the FCC approved an order that would reclassify certain retail broadband internet access services as lightly regulated telecommunications services imposing certain network neutrality requirements on the reclassified internet services. Frontier anticipates that the rules will be appealed in court. The reclassification rules would largely take effect 60 days after publication in the Federal Register unless enjoined by the courts. Final adoption of these rules could increase our regulatory and compliance obligations and associated costs.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

On November 15, 2021, President Biden signed the Infrastructure Investment and Jobs Act (IIJA) into law. The legislation appropriated funding for the establishment of the Affordable Connectivity Program (ACP), and FCC-administered monthly, low-income broadband benefit program. The ACP provided qualified customers up to \$30 dollars per month (or \$75 dollars per month for those on Tribal lands) to assist with their internet bill. Funding for the ACP program will be exhausted in mid-May, 2024 and Frontier ceased participation at the end of the last full month of support - April, 2024. Absent additional funding support, Frontier will no longer provide an ACP benefit to customers.

We conduct certain of our operations in leased premises and lease certain equipment and other assets pursuant to operating leases. The lease arrangements have terms ranging from 1 to 99 years and several contain rent escalation clauses providing for increases in monthly rent at specific intervals. When rent escalation clauses exist, we record annual rental expense based on the total expected rent payments on a straight-line basis over the lease term. Certain leases also have renewal options. Renewal options that are reasonably assured are included in determining the lease term.

As of March 31, 2024, we had total "Accounts payable and accrued liabilities" of \$884 million, of which \$672 million is related to accounts payable. As of December 31, 2023, we had total "Accounts payable and accrued liabilities" of \$1.1 billion, of which \$857 million is related to accounts payable.

Although from time to time we make short-term purchasing commitments to vendors with respect to capital expenditures, we generally do not enter into firm, written contracts for such activities. In connection with the fiber expansion build, we have prioritized diversifying our vendor base and solidifying partnership agreements with vendors for relevant labor and materials, to enable our build growth and customer expansion. Some of these key supplier agreements have multi-year terms and purchase commitments as we deem advisable in order to strengthen future supply. In addition, we have negotiated favorable payment terms with some of our vendors that allow for a longer payment period than our normal customary terms (referred to as vendor financing), which are excluded from capital expenditures and reported as financing activities on the statement of cash flows. As of March 31, 2024, we had \$52 million of vendor financing liabilities included in "Other current liabilities" on our consolidated balance sheets, of which \$50 million is associated with capital expenditures. For the three months ended March 31, 2024 we made \$363 million in vendor financing payments related to capital expenditures.

We are party to contracts with several unrelated long-distance carriers. The contracts provide fees based on traffic they carry for us subject to minimum monthly fees.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements," related to future events. Forward-looking statements address our expectations or beliefs concerning future events, including, without limitation, our future operating and financial performance, our ability to implement our growth strategy, our ability to comply with the covenants in the agreements governing our indebtedness, our capital expenditures, the containment of the impact on our operations of the recently disclosed cyber incident, and other matters. These statements are made based on management's views and assumptions, as of the time the statements are made, regarding future events and performance and contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "may," "will," "would," or "target." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. We do not intend, nor do we undertake any duty, to update any forward-looking statements, except as required by law.

A wide range of factors could materially affect future developments and performance, including but not limited to:

- our significant indebtedness, our ability to incur substantially more debt in the future, and covenants in the agreements governing our current indebtedness that may reduce our operating and financial flexibility;
- declines in Adjusted EBITDA and revenue relative to historical levels that we are unable to offset;
- economic uncertainty, volatility in financial markets, and rising interest rates could limit our ability to access capital or increase the cost of capital needed to fund business operations, including our fiber expansion plans;
- our ability to successfully implement strategic initiatives, including our fiber buildout and other initiatives to enhance revenue and realize productivity improvements;
- our ability to secure necessary construction resources, materials and permits for our fiber buildout initiative in a timely and cost-effective manner;
- inflationary pressures on costs, including tight labor markets, increased fuel and electricity costs, and potential disruptions in our supply chain, which could adversely impact our financial condition or results of operations and hinder our fiber expansion plans;
- our ability to effectively manage our operations, operating expenses, capital expenditures, debt service requirements and cash paid for income taxes and liquidity;
- the impact of potential information technology or data security breaches or other cyber-attacks or other disruptions, including the recently disclosed unauthorized access by a third party to portions of our information technology environment;
- the impact of laws and regulations relating to the handling of privacy and data protection;
- competition from cable, wireless carriers, satellite providers, wireline carriers, fiber "overbuilders" and Over-the-Top video providers, and the risk that we will not respond on a timely or profitable basis;
- our ability to successfully adjust to changes in the communications industry, including the effects of technological changes and competition on our capital expenditures, products and service offerings;
- our ability to retain or attract new customers and to maintain relationships with existing customers, including wholesale customers;
- our reliance on a limited number of key suppliers and vendors;

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

- declines in revenue from our voice services, switched and nonswitched access and video and data services that we cannot stabilize or offset with increases in revenue from other products and services;
- our ability to secure, continue to use or renew intellectual property and other licenses used in our business;
- our ability to hire or retain key personnel;
- our ability to dispose of certain assets or asset groups or to make acquisition of certain assets on terms that are attractive to us, or at all;
- the effects of changes in the availability of federal and state universal service funding or other subsidies to us and our competitors and our ability to obtain future subsidies;
- our ability to comply with the applicable CAF II and RDOF requirements and the risk of penalties or obligations to return certain CAF II and RDOF funds;
- our ability to defend against litigation or government investigations and potentially unfavorable results from current pending and future litigation or investigations;
- our ability to comply with applicable federal and state consumer protection requirements;
- the effects of governmental legislation and regulation on our business, including costs, disruptions, possible limitations on operating flexibility and changes to the competitive landscape resulting from such legislation or regulation;
- the impact of regulatory, investigative and legal proceedings and legal compliance risks;
- our ability to effectively manage service quality in the states in which we operate and meet mandated service quality metrics or regulatory requirements;
- the effects of changes in income tax rates, tax laws, regulations or rulings, or federal or state tax assessments, including the risk that such changes may benefit our competitors more than us, as well as potential future decreases in the value of our deferred tax assets;
- the effects of changes in accounting policies or practices;
- our ability to successfully renegotiate union contracts;
- the effects of increased medical expenses and pension and postemployment expenses;
- changes in pension plan assumptions, interest rates, discount rates, regulatory rules and/or the value of our pension plan assets;
- the impact of adverse changes in economic, political and market conditions in the areas that we serve, the U.S. and globally, including but not limited to, disruption in our supply chain, inflation in pricing for key materials or labor, or other adverse changes resulting from epidemics, pandemics, and outbreaks of contagious diseases, natural disasters, economic or political instability, terrorist attacks and wars, including the ongoing war in Ukraine and the Israel-Hamas war, or other adverse widespread developments;
- potential adverse impacts of climate change and increasingly stringent environmental laws, rules and regulations, and customer expectations and other environmental liabilities;
- market overhang due to substantial common stock holdings by our former creditors;

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

- certain provisions of Delaware law and our certificate of incorporation that may prevent efforts by our stockholders to change the direction or management of our company; and
- certain other factors set forth in our other filings with the SEC.

This list of factors that may affect future performance and the accuracy of forward-looking statements is illustrative and is not intended to be exhaustive. Any of the foregoing events, or other events, could cause our results to vary from management's forward-looking statements included in this report. You should consider these important factors, as well as the risks contained in our most recent Form 10-K and other filings with the SEC, in evaluating any statement in this report or otherwise made by us or on our behalf.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Frontier Communications Parent, Inc. is a leading communications and technology provider offering gigabit speeds to approximately 3.0 million broadband subscribers, with approximately 13,200 employees, operating in 25 states as of March 31, 2024. We are building critical infrastructure across the country with our fiber-optic network and cloud-based solutions, enabling secure high-speed connections. Driven by our purpose of Building Gigabit AmericaTM, we are focused on supporting a digital society, closing the digital divide, and working toward a more sustainable environment.

Business Overview

In 2020, we began the expansion and transformation of our fiber network to meet the rapidly increasing demand for data from our consumer and business customers. We believe that a fiber network has competitive advantages to be able to meet this growing demand, including faster download speeds, faster upload speeds, and lower latency levels than alternative broadband services.

In August 2021, we announced our plan to pass 10 million total locations with fiber. We are prioritizing our activities to locations that we believe will provide the highest investment returns. Over time, we expect our business mix will shift significantly, with a larger percentage of revenue coming from fiber as we implement our expansion plan.

Our strategy focuses on four strategic priorities: fiber deployment, fiber penetration, improving the customer experience, and operational efficiency. We accomplished the following objectives in the first quarter of 2024:

- We added 322,000 fiber passings. As of March 31, 2024, we had approximately 6.8 million total locations passed with fiber.
- We added 88,000 fiber broadband customer net additions, resulting in fiber broadband customer growth of 18% as compared to the prior year period. Fiber broadband customer net additions continued to outpace copper broadband customer net losses, resulting in 31,000 total broadband customer net additions.
- Fiber revenue growth of 10%, offset copper revenue declines of 7%, resulting in overall positive revenue growth year-over-year.

Our fiber build plans include significant expenditures which could be adversely impacted by supply chain delays, actual or perceived inflation, tight labor markets, increased fuel and electricity costs, increases in the cost of borrowing, and other risks. In addition to higher costs, the availability of building materials and other supply chain risks could negatively impact our ability to achieve the fiber build plans we are executing against. We continue to closely monitor and evaluate the impact these and other factors may have on our business, including demand for our products and services, our ability to execute on our strategic priorities and our financial condition and results of operations.

Cyber Incident

On April 14, 2024, we detected that a third party had gained unauthorized access to portions of our information technology environment. Upon detection, we initiated our established cyber incident response protocols and took measures to contain the incident. The containment measures, which included shutting down certain of the Company's systems, resulted in an operational disruption that could be considered material. Based on our investigation, we have determined that the third party was likely a cybercrime group, which gained access to, among other information, personally identifiable information. We believe we have contained the incident and have restored our core information technology environment and normal business operations. While we do not believe the incident is reasonably likely to materially impact our financial condition or results of operations, we continue to investigate the incident, have engaged cybersecurity experts, and have notified law enforcement authorities.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Financial Overview – Operating Income

We reported operating income of \$90 million and \$143 million for the three months ended March 31, 2024 and 2023, respectively, a decrease of \$53 million.

Operating income decreased primarily due to decreases in revenue from voice and video services, subsidy and other revenue, and increases in depreciation and amortization expenses, restructuring costs and other charges, and selling, general and administrative expenses. These factors were partially offset by an increase in data and internet services, as well as decreases in cost of service expenses, as compared to the corresponding period in 2023.

Presentation of Results of Operations

The sections below include tables that present customer counts, average monthly consumer revenue per customer ("ARPC"), average monthly revenue per unit ("ARPU"), and consumer customer churn. We define churn as the number of consumer customer deactivations during the month divided by the number of consumer customers at the beginning of the month and utilize the average of each monthly churn in the period. Management believes that consumer customer counts, ARPC, ARPU, and consumer customer churn are important factors in evaluating our consumer customer trends. Among the key services we provide to consumer customers are voice service, data service and video service. We continue to explore the potential to provide additional services to our customer base, with the objective of meeting our customers' communications needs.

The following section should be read in conjunction with the unaudited interim consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the year ended December 31, 2023. The following charts present key customer metrics, disaggregation of revenue, and the results of operations of the consolidated company.

(a) Results of Operations

Unless otherwise indicated, the discussion of the customer metrics and components of operating income for the table that follows relates only to the financial results for the three months ended March 31, 2024, as compared to the financial results for the three months ended March 31, 2023.

Other Metrics				
Employees	13,227	14,523		(9)%

(1) Amounts presented exclude related metrics for our wholesale customers.

We provide service and product options in our consumer and business offerings in each of our markets.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Fiber Broadband Customers

Our investment strategy is focused on expanding our fiber network. In conjunction with this strategy, we are also working to improve our product positioning in both existing and new fiber markets.

The quarter ended March 31, 2024 represents the nineteenth consecutive quarter of positive fiber net adds. For the three months ended March 31, 2024, we added approximately 85,000 consumer fiber broadband customers, compared to 84,000 for the three months ended March 31, 2023. Customers who migrated from our copper base constituted a minor portion of these consumer fiber broadband customer net additions in the three months ended March 31, 2024.

For the three months ended March 31, 2024, we added approximately 3,000 business and wholesale fiber broadband customers compared to approximately 4,000 net additions for the three months ended March 31, 2023.

Our focus on expanding and improving our fiber network has contributed to healthy customer retention. Our average monthly consumer fiber broadband churn was 1.24% for the three months ended March 31, 2024, compared to 1.20% for the three months ended March 31, 2023. These consistent results were driven by our increased focus on key customer touchpoints such as installation and first bill as well as retention activities associated with inflation-related pricing actions and promotional pricing expiration.

- The average monthly consumer fiber broadband revenue per customer ("consumer ARPU") increased \$3.74, or 6%, to \$65.18 for the three months ended March 31, 2024, compared to \$61.44 in the prior year period.
- The increase in consumer ARPU for the three months ended March 31, 2024 was due to customer shifts to higher broadband speeds, customers rolling off promotional pricing, inflation-related price increases and lower gift card redemptions, all partially offset by increased retention activity and autopay take rates.

Copper Broadband Customers

For the three months ended March 31, 2024, we lost approximately 51,000 consumer copper broadband customers compared to a loss of approximately 56,000 for the three months ended March 31, 2023.

For the three months ended March 31, 2024, Frontier lost approximately 6,000 business and wholesale copper broadband customers compared to a loss of approximately 6,000 in the three months ended March 31, 2023.

Our average monthly consumer copper broadband churn was 1.93% for the three months ended March 31, 2024, compared to 1.71% in the three months ended March 31, 2023. The increase in consumer copper broadband churn was driven by the impact of inflationary price increases and changes to our copper broadband go to market approach which impacted gross add volume.

Consumer Customers

We experienced an increase in consumer customers of less than 1% as of March 31, 2024, as compared to the prior year period.

Consumer customer gains were driven by net additions of fiber broadband customers, partially offset by reductions in our copper broadband and stand-alone voice customers. Customer preferences as well as our fiber investment initiatives resulted in an increase in the number of our consumer broadband customers and a migration of our customer base to fiber.

- We gained approximately 11,000 consumer customers for the three months ended March 31, 2024, compared to a gain of approximately 7,000 consumer customers for the three months ended March 31, 2023, driven by, growth in fiber broadband customers, offset by losses in copper broadband, voice and video customers.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

- For the three months ended March 31, 2024, we experienced a net gain of consumer broadband customers of approximately 34,000 as compared to a net gain of approximately 28,000 for the three months ended March 31, 2023.
 - The average monthly consumer revenue per customer ("consumer ARPC") increased \$2.78, or 3%, to \$83.65 for the three months ended March 31, 2024, compared to the prior year period. The increase was driven primarily by growth in fiber data and value-added services along with price increases, partially offset by declines in voice and video services. We have de-emphasized the sale of low margin video products, which has historically been a material part of the overall ARPC. Going forward, we expect moderate movements in ARPC as our customer mix becomes more weighted towards broadband services.

Financial Results

	For the three months ended March 31,		%
(\$ in millions)	2024	2023	Change
Data and Internet services	\$ 947	\$ 862	10 %
Voice services	321	356	(10) %
Video services	94	117	(20) %
Other	84	83	1 %
Revenue from contracts with customers	1,446	1,418	2 %
Subsidy and other revenue	16	22	(27) %
Revenue	1,462	1,440	2 %
Operating expenses:			
Cost of service	522	542	(4) %

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

REVENUE

The table below presents our revenue by technology for the periods indicated:

(\$ in millions)	For the three months ended March 31,		\$ Increase (Decrease)	% Increase (Decrease)
	2024	2023		
Fiber	\$ 805	\$ 729	\$ 76	10 %
Copper	641	689	(48)	(7)%
Revenue from contracts with customers ⁽¹⁾	1,446	1,418	28	2 %
Subsidy revenue	16	22	(6)	(27)%
Total revenue	<u>\$ 1,462</u>	<u>\$ 1,440</u>	<u>\$ 22</u>	<u>2 %</u>

⁽¹⁾ Includes lease revenue of \$13 million and \$15 million for the three months ended March 31, 2024 and 2023, respectively.

Our revenue streams are primarily a result of recurring data, voice, and video services delivered over our network. Revenues are considered fiber or copper based on the “last-mile” technology used to connect the customer location. With our investment strategy to expand and improve our fiber network and the corresponding fiber focus of our sales and marketing efforts, we are experiencing growth in fiber broadband revenue and a decline in copper revenue. We expect this trend to continue and accelerate due to strong fiber demand and the migration of customers from copper to fiber as we expand our fiber network.

The table below presents our revenue for our consumer and business and wholesale customers for the periods indicated:

(\$ in millions)	For the three months ended March 31,		\$ Increase (Decrease)	% Increase (Decrease)
	2024	2023		
Consumer	\$ 787	\$ 761	\$ 26	3 %
Business and Wholesale	659	657	2	0 %
Revenue from contracts with customers ⁽¹⁾	1,446	1,418	28	2 %
Subsidy and other revenue	16	22	(6)	(27)%
Total revenue	<u>\$ 1,462</u>	<u>\$ 1,440</u>	<u>\$ 22</u>	<u>2 %</u>

⁽¹⁾ Includes lease revenue of \$13 million and \$15 million for the three months ended March 31, 2024 and 2023, respectively.

We conduct business with a range of consumer, business and wholesale customers and we generate both recurring and non-recurring revenues. Recurring revenues are primarily billed at fixed recurring rates, with some services billed based on usage. Revenue recognition is not dependent upon significant judgments by management, with the exception of a determination of the provision for expected credit losses.

Consumer

For the three months ended March 31, 2024, compared to the three months ended March 31, 2023:

- Consumer revenues were up 3% for the three months ended March 31, 2024, as compared to the three months ended March 31, 2023. The revenue growth was the result of growth in fiber data and value-added service revenues along with inflationary price increases, offset by declines in voice, video, and copper broadband.
 - We experienced 26% improvement in consumer fiber broadband revenues for the three months ended March 31, 2024, as compared to the three months ended March 31, 2023.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

- This improvement is a result of higher consumer fiber broadband ARPU as well as increase net adds of consumer fiber broadband customers due to our expanded fiber footprint and continued focus on product positioning in both new and existing markets.
- We experienced a decline of approximately 10% in consumer copper broadband revenues for the three months ended March 31, 2024. As our copper footprint transitions to fiber, we expect fewer copper sales opportunities, and will proactively migrate certain existing broadband customers from copper to fiber, both of which will reduce our copper net adds.

Business and Wholesale

For the three months ended March 31, 2024, our business and wholesale revenues were up less than 1%, as compared to the prior year period. This increase was driven by increases in data and internet services, largely offset by decreases in voice services revenue, predominantly in business. The increase in data and internet services was due to the continued growth of our fiber broadband customer base with a shift towards higher broadband speeds, and unit price increases in network access services. The increase in network access services is due primarily to price adjustments as well as install and upgrade activity.

The table below presents our revenue by product and service type for the periods indicated:

	For the three months ended March 31,		\$ Increase (Decrease)	% Increase (Decrease)
	2024	2023		
<i>(\$ in millions)</i>				
Data and Internet services	\$ 947	\$ 862	\$ 85	10%
Voice services	321	356	(35)	(10)%
Video services	94	117	(23)	(20)%
Other	84	83	1	1%
Revenue from contracts with customers ⁽¹⁾	1,446	1,418	28	2%
Subsidy and other revenue	16	22	(6)	(27)%
Total revenue	<u>\$ 1,462</u>	<u>\$ 1,440</u>	<u>\$ 22</u>	<u>2%</u>

⁽¹⁾ Includes lease revenue of \$13 million and \$15 million for the three months ended March 31, 2024 and 2023, respectively.

We categorize our products, services, and other revenues into the following five categories:

Data and Internet Services

We provide data and Internet services to our consumer, business, and wholesale customers. Data and Internet services consist of fiber broadband services, copper broadband services, and network access revenues (data transmission services and dedicated high-capacity circuits including data services to wireless providers commonly called wireless backhaul). Network access services are provided primarily to our business and wholesale customers, while fiber and copper broadband are provided to all customer segments.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Our fiber expansion strategy is expected to positively impact data and Internet services. This network expansion is designed to provide faster, symmetrical broadband speeds and provide customer and revenue growth opportunities for fiber broadband and certain network access products like ethernet. We believe this initiative will create opportunities for us to provide more fiber-based services to our customers.

(\$ in millions)

	For the three months ended
Data and Internet services revenue, March 31, 2023	\$ 862
Change in fiber broadband revenue	80
Change in copper broadband revenue	(18)
Change in other data and internet services	23
Data and Internet services revenue, March 31, 2024	<u>\$ 947</u>

Data and internet services revenue increased \$85 million, or 10%, to \$947 million, for the three months ended March 31, 2024, respectively, as compared to the prior year period. The increase was driven by growth in the fiber broadband revenue, partly offset by declines in copper broadband revenue.

Voice services

We provide voice services consisting of traditional local and long-distance service and voice over Internet protocol (VoIP) service provided over our fiber and copper broadband products. It also includes enhanced features such as call waiting, caller identification, and voice messaging services.

Voice services revenue declined \$35 million, or 10%, to \$321 million, for the three months ended March 31, 2024, as compared to the prior year period. The decline was primarily due to net losses in business and consumer customers in addition to fewer customers bundling voice services with broadband as compared to the prior year period, all partially offset by higher voice services ARPU.

Video services

Video services include revenues generated from traditional television (TV) services provided directly to consumer customers as well as satellite TV services provided through various satellite providers. Video services also includes pay-per-view revenues, video on demand, equipment rentals, and video advertising. We have made the strategic decision to limit sales of new traditional TV services, focusing on our broadband products and OTT video options. We are partnering with OTT video providers and expect this to grow as OTT options are offered with our broadband products.

Video services revenue declined \$23 million, or 20%, to \$94 million for the three months ended March 31, 2024, as compared to the prior year period. The decline was primarily driven by linear video customer losses, partially offset by price increases as compared to the prior year period.

Other

Other customer revenue includes non-recurring equipment sales, network facility rental income, ancillary customer fees, directory listing services and switched access revenue. Switched access revenue includes revenue derived from allowing other carriers to use our network to originate and/or terminate their local and long-distance voice traffic. These switched access services are primarily billed on a minutes-of-use basis applying tariffed rates filed with the FCC or state agencies.

Other customer services revenue increased \$1 million, or 1%, to \$84 million for the three months March 31, 2024, as compared to the prior year period, driven by increases in pole rentals, related application fees and equipment sales, partially offset by decreases in switched network access revenue.

Subsidy and other revenue

Subsidy and other revenue decreased \$6 million, or 27%, to \$16 million for the three months ended March 31, 2024, compared to the prior year period, primarily due to decreases in subsidies, and other revenue.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

OPERATING EXPENSES

The table below presents our operating expenses for the periods indicated:

(\$ in millions)	For the three months ended March 31,		\$ Increase (Decrease)	% Increase (Decrease)
	2024	2023		
Operating expenses:				
Cost of Service	\$ 522	\$ 542	\$ (20)	(4)%
Selling, general, and administrative expenses	428	417	11	3 %
Depreciation and amortization	388	330	58	18 %
Restructuring costs and other charges	34	8	26	325 %
Total operating expenses	<u>\$ 1,372</u>	<u>\$ 1,297</u>	<u>\$ 75</u>	<u>6 %</u>

Cost of service

Cost of service expenses include access charges and other third-party costs directly attributable to connecting customer locations to our network, and video content costs. Such access charges and other third-party costs exclude depreciation and amortization, and employee related expenses.

Cost of service decreased \$20 million for the three months ended March 31, 2024, as compared to the prior year period. The decrease in cost of service expense was driven by lower video content costs as a result of declines in video customers, non-renewal of certain content agreements, and decreased CPE costs. These decreases more than offset higher benefits costs and outside service rate increases resulting from higher inflation.

Selling, General, and Administrative Expenses

Selling, general, and administrative expenses ("SG&A expenses") include the salaries, wages and related benefits and costs of corporate and sales personnel, travel, insurance, non-network related rent, advertising, and other administrative expenses.

SG&A expenses increased by \$11 million for the three months ended March 31, 2024, as compared to the prior year period. This increase was primarily due to an increase in marketing costs, third party commissions, and property taxes, partially offset by lower compensation and benefit costs, and other fees.

Pension and Other post-employment benefits ("OPEB") costs

We allocate certain pension/OPEB expense to cost of service and SG&A expenses.

Total pension and OPEB service costs, excluding pension/OPEB special termination benefit enhancement were as follows:

(\$ in millions)	For the three months ended March 31,	
	2024	2023
Total pension/OPEB expenses	\$ 13	\$ 15
Less: costs capitalized into capital expenditures	(4)	(4)
Net pension/OPEB expense	<u>\$ 9</u>	<u>\$ 11</u>

Depreciation and Amortization

For the three months ended March 31, 2024, the increased depreciation and amortization expense was driven by higher depreciation expense as a result of higher property, plant and equipment in service.

Restructuring costs and other charges

Restructuring costs and other charges consist of consulting and advisory fees, workforce reductions, transformation initiatives, and other restructuring expenses.

For the three months ended March 31, 2024, restructuring costs and other charges increased \$26 million, as

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

compared to the three months ended March 31, 2023, primarily due to higher severance and employee costs, pension/OPEB special termination benefit enhancement costs related to a voluntary severance program, and other restructuring activities.

OTHER NON-OPERATING INCOME AND EXPENSE

(\$ in millions)	For the three months ended March 31,		\$ Increase (Decrease)	% Increase (Decrease)
	2024	2023		
Investment and other income, net	\$ 112	\$ 2	\$ 110	5,500%
Interest expense	\$ (199)	\$ (141)	\$ (58)	41 %
Income tax expense	\$ 2	\$ 1	\$ 1	100%

Investment and other income, net

Investment and other income, net increased by \$110 million for the three months ended March 31, 2024, as compared to March 31, 2023. This increase was primarily driven by a pension remeasurement gain of \$74 million, along with a post-retirement remeasurement gain of \$9 million for the three months ended March 31, 2024, as compared to a \$20 million loss for the three months ended March 31, 2023.

Interest expense

For the three months ended March 31, 2024, interest expense increased \$58 million, as compared to the same periods in 2023. The increase in interest expense was primarily driven by a higher debt balance, as well as higher interest rates.

Income tax expense

During the three months ended March 31, 2024, we recorded an income tax expense of \$2 million, on pre-tax income of \$3 million. During the three months ended March 31, 2023, we recorded an income tax expense of \$1 million on pre-tax income of \$4 million.

Our effective tax rates for the three months ended March 31, 2024, was 63.7% and for the three months ended March 31, 2023 was 20.7%.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

(b) Liquidity and Capital Resources

As of March 31, 2024, we had liquidity of approximately \$2,585 million, comprised of \$1,296 million of cash and cash equivalents, \$225 million of short-term investments (consisting of term deposits earning interest in excess of traditional bank deposit rates, and placed with banks with A-1/P-1 or equivalent credit quality), \$500 million available Variable Funding Notes capacity, subject to customary conditions to draw, and available capacity on our undrawn revolving credit facility of \$564 million.

Analysis of Cash Flows

As of March 31, 2024, we had unrestricted cash and cash equivalents aggregating \$1,296 million. For the three months ended March 31, 2024, we used cash flow from operations, cash on hand, and cash from borrowings principally to fund our cash investing and financing activities, which were primarily short-term investments and capital expenditures.

As of March 31, 2024, we had a working capital surplus of \$141 million compared to a \$506 million surplus at December 31, 2023. The primary drivers for the change in the working capital surplus at March 31, 2024, were a decrease in short-term investments of \$850 million, a decrease in other current assets of \$22 million, an increase of \$57 million in accrued interest, and an increase of \$14 million in advanced billings; offset by an increase of \$171 million in cash and cash equivalents, and a decrease in accounts payable and accrued liabilities, and other current liabilities of \$410 million as compared to the period ended December 31, 2023.

Cash Flows provided by Operating Activities

Cash flows provided by operating activities decreased \$54 million to \$335 million for the three months ended March 31, 2024, as compared to the three months ended March 31, 2023. The overall decrease in operating cash flows was primarily the result of changes in long-term pension and OPEB liabilities and working capital.

We received \$13 million in tax refunds during the three months ended March 31, 2024 and 2023, respectively. We paid \$5 million in net cash taxes during the three months ended March 31, 2023.

Cash Flows used by Investing Activities

Cash flows provided from investing activities were \$186 million for the three months ended March 31, 2024, compared to cash flows used by investing activities of \$304 million for the prior year period, due to an increase of \$488 million in capital expenditures as compared to the prior year period.

Capital Expenditures

For the three months ended March 31, 2024 and 2023, our capital expenditures were \$666 million and \$1,154 million, respectively. The decrease in capital expenditures is due to lower levels of build prework and inventory purchases in 2024 when compared to the prior year period.

Cash Flows provided from Financing Activities

Cash flows provided from financing activities decreased \$1,148 million to \$423 million for the three months ended March 31, 2024 as compared to the corresponding period in 2023. The decrease in financing activities was primarily driven by the decrease in net proceeds from long-term debt borrowings and vendor financing payments in the first quarter of 2024.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Capital Resources

Our primary anticipated uses of liquidity are to fund the costs of operations, working capital and capital expenditures and to fund interest payments on our long-term debt. Our primary sources of liquidity are cash flows from operations, cash on hand and borrowing capacity under our \$900 million Revolving Facility (as reduced by \$336 million of revolver Letters of Credit). In addition, potential future sources of capital may include debt and equity (or equity-linked) financing and the \$500 million Variable Funding Notes facility.

We have negotiated payment terms with certain of our vendors, (referred to as vendor financing), which are excluded from capital expenditures and reported as financing activities. As of March 31, 2024 we had \$52 million of vendor financing liabilities included in "Other current liabilities" on our consolidated balance sheet. Capital expenditures for the three months ended March 31, 2024 were \$666 million, and when including \$363 million cash paid for vendor financing, capital investment was \$1,029 million.

We have assessed our current and expected funding requirements and our current and expected sources of liquidity, and have determined, based on our forecasted financial results and financial condition as of March 31, 2024, that our operating cash flows and existing cash balances, will be adequate to finance our working capital requirements, fund capital expenditures, make required debt interest and principal payments, pay taxes and make other payments over the next twelve months. A number of factors, including but not limited to, loss of customers, pricing pressure from increased competition, lower subsidy and switched access revenues, and the impact of economic conditions may negatively affect our cash generated from operations.

Debt Covenants and Borrowing Capacity

Our Amended and Restated Credit Agreement includes usual and customary negative covenants for loan agreements of this type, including covenants limiting us and our restricted subsidiaries' (other than certain covenants therein which are limited to subsidiary guarantors) ability to, among other things, incur additional indebtedness, create liens on assets, make investments, loans or advances, engage in mergers, consolidations, sales of assets and acquisitions, pay dividends and distributions and make payments in respect of certain material subordinated indebtedness, in each case subject to customary exceptions for loan agreements of this type.

Our Amended and Restated Credit Agreement also contains a "financial covenant" which provides that our first lien leverage ratio shall not exceed as of the last day of each fiscal quarter 3.50:1.00, with step-downs to: (a) 3.25:1.00 in 2026; and (b) 3.00:1.00 in 2027 and continuing thereafter.

This financial covenant is only applicable for the benefit of the Revolving Lenders (as defined in the Amended and Restated Credit Agreement) thereunder and failure to comply with the financial covenant would not cause an Event of Default with respect to any loans pursuant to our term loan facility unless and until the Required Revolving Lenders (as defined in the Amended and Restated Credit Agreement) have declared all amounts outstanding under the revolving facility to be immediately due and payable and all outstanding commitments under the revolving facility to be immediately terminated.

The indentures governing our First Lien Notes and Second Lien Notes also include usual and customary negative covenants for debt securities of this type, including covenants limiting us and our restricted subsidiaries' (other than certain covenants therein which are limited to subsidiary guarantors) ability to, among other things, incur additional indebtedness, create liens on assets, make investments, loans or advances, engage in mergers, consolidations, sales of assets and acquisitions, pay dividends and distributions and make payments in respect of certain material subordinated indebtedness, in each case subject to customary exceptions for debt securities of this type.

The indentures governing the outstanding subsidiary debentures include covenants that limit such subsidiary's ability to create liens and/or merge or consolidate with other companies. These covenants are subject to important exceptions and qualifications.

The indenture governing Frontier Issuer's Fiber Term Notes includes covenants and restrictions customary for transactions of this type. These covenants and restrictions include (i) that Frontier Issuer maintains a required reserve amount, satisfied either in the form of a letter of credit or cash held in a liquidity reserve account, to be used to make

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

required payments in respect of the Fiber Term Notes, provisions relating to prepayments, required indemnification payments in certain circumstances. The Fiber Term Notes are also subject to rapid amortization in the event of a failure to maintain a stated debt service coverage ratio. A rapid amortization may be cured if the debt service coverage ratio exceeds a certain threshold for a certain period of time, upon which cure, regular amortization, if any, will resume. The Fiber Term Notes are also subject to certain customary events of default, including events relating to non-payment of required interest, principal or other amounts due on or with respect to the Fiber Term Notes, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties, failure of security interests to be effective and certain judgments.

The Fiber Term Notes are subject to covenants and restrictions customary for transactions of this type, including (i) that the Issuer maintains specified reserve accounts to be used to make required payments in respect of the Fiber Term Notes and pay certain reserved fixed costs of the fiber networks, (ii) provisions relating to optional and mandatory prepayments of the Fiber Term Notes and the related payment of specified amounts, including specified make-whole payments in the case of prepayments of the Fiber Term Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, the assets pledged as collateral for the Fiber Term Notes are in stated ways defective or ineffective, and (iv) covenants relating to recordkeeping, access to information and similar matters. In addition, the terms of the indenture governing the Fiber Term Notes provide that a larger portion of Frontier Issuer's available funds will be used towards the repayment of the Fiber Term Notes during a cash sweep period, which period would result from, among other things, the failure to maintain a certain debt service coverage ratio or a certain minimum penetration rate in the markets that were securitized at closing. The Fiber Term Notes are also subject to customary rapid amortization events provided for in the Indenture, including events tied to failure to maintain stated debt service coverage ratios, the acceleration of the maturity of the Fiber Term Notes following the occurrence of an event of default and the failure to repay or refinance on the applicable anticipated repayment date.

The customary events of default to which the Fiber Term Notes are subject include events relating to non-payment of required interest, principal or other amounts due on or with respect to the Fiber Term Notes, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties, failure of security interests to be effective and certain judgments. In addition, the Indenture and the related management agreement contain various covenants that limit the ability of the Company's securitized subsidiaries to engage in specified types of transactions, subject to certain exceptions, including, for example, to incur or guarantee additional indebtedness, sell certain assets, create or incur liens on certain assets to secure indebtedness or consolidate, merge, sell or otherwise dispose of all or substantially all of their assets.

As of March 31, 2024, we were in compliance with all of the covenants under our existing indentures and the Amended and Restated Credit Agreement.

Net Operating Losses

In connection with our emergence from bankruptcy, we consummated a taxable disposition of substantially all of the assets and/or subsidiary stock of the Company. Certain of the net operating losses ("NOLs") were utilized in offsetting gains from the disposition, certain of the NOLs were extinguished as part of attribute reduction and certain subsidiary NOLs were carried over. Under Section 338(h)(10) of the Code, predecessor Frontier Communications Corporation and Frontier made elections to step-up tax basis of certain subsidiary assets. Such Section 338(h)(10) elections will generate depreciation and amortization expense going forward, which may result in NOLs. Such net operating losses would be carried forward indefinitely but would be subject to an 80% limitation on U.S. taxable income.

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities that would be expected to have a material current or future effect upon our financial statements.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Future Contractual Obligations and Commitments

There have been no material changes outside the ordinary course of business to the information provided with respect to our contractual obligations, including indebtedness and purchase and lease obligations, as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2023.

Future Commitments

See “Regulatory Developments” immediately below for information regarding Frontier’s known and potential future commitments related to our participation in the FCC’s CAF Phase II program and RDOF Phase I auction.

Regulatory Developments

Connect America Fund (“CAF”)/ Rural Digital Opportunity Fund (“RDOF”): In 2015, Frontier accepted the FCC’s CAF Phase II offer, which provided \$313 million in annual support through 2021 in return for the Company’s commitment to make broadband available to households within the CAF II areas in our existing 25 states. The Company was required to complete the CAF II deployment by December 31, 2021. Thereafter, the FCC has been reviewing carriers’ CAF II program completion data, and if the FCC determines that the Company did not satisfy certain applicable CAF Phase II requirements, Frontier could be required to return a portion of the funds previously received and may be subject to certain other fines, requirements and obligations.

On January 30, 2020, the FCC adopted an order establishing the RDOF competitive reverse auction to provide support to serve high-cost areas. The FCC announced the results of its RDOF Phase I auction on December 7, 2020. Frontier was awarded approximately \$371 million over ten years to build gigabit-capable broadband over a fiber-to-the-premises network to approximately 127,000 locations in eight states (California, Connecticut, Florida, Illinois, New York, Pennsylvania, Texas, and West Virginia). We began receiving RDOF funding in the second quarter of 2022 and we will be required to complete the buildout to the awarded locations by December 31, 2028, with interim target milestones over this period. To the extent that Frontier is unable to meet the milestones or construct to all locations by the required deadlines, Frontier could be required to return a portion of funds previously received and may be subject to certain fines, requirements and obligations.

As part of its RDOF order, the FCC indicated it would hold a follow-on auction for the unawarded funding following the Phase I auction. However, it remains uncertain whether any such follow-on auction will occur given the recent passage of significant federal funding for broadband infrastructure.

In November 2021, Congress passed the IIJA which provides \$65 billion to fund broadband connectivity programs, including broadband deployment to unserved and underserved locations. The National Telecommunications and Information Administration (NTIA) is administering the principal last mile infrastructure funding program in the amount of \$42.5 billion, the Broadband Equity, Access & Deployment Program (BEAD), and will distribute funding through direct grants to states, who will then award the funds based on competitive grant programs. The NTIA has allocated approximately \$25.5 billion to states in Frontier’s footprint. We are closely tracking implementation of the BEAD program, including state determinations regarding subsidy award criteria. We are actively pursuing awards of these stimulus funds, however, we continue to evaluate our opportunities as the process is complex and any awards that we ultimately receive under the IIJA may require significant up-front capital expenditures or other costs.

Internet: The FCC currently classifies fixed consumer broadband services as information services, subject to light-touch regulation. On April 25, 2024, the FCC approved an order that would reclassify certain retail broadband internet access services as lightly regulated telecommunications services imposing certain network neutrality requirements on the reclassified internet services. Frontier anticipates that the rules will be appealed in court. The reclassification rules would largely take effect 60 days after publication in the Federal Register unless enjoined by the courts. Final adoption of these rules could increase our regulatory and compliance obligations and associated costs.

On November 15, 2021, President Biden signed the Infrastructure Investment and Jobs Act (IIJA) into law. The legislation appropriated funding for the establishment of the Affordable Connectivity Program (ACP), and FCC-administered monthly, low-income broadband benefit program. The ACP provided qualified customers up to \$30 dollars per month (or \$75 dollars per month for those on Tribal lands) to assist with their internet bill. Funding for the

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

ACP program will be exhausted in mid-May, 2024 and Frontier ceased participation at the end of the last full month of support - April, 2024. Absent additional funding support, Frontier will no longer provide an ACP benefit to customers.
Absent additional funding support, Frontier no longer provides an ACP benefit to customers.

Privacy: Our businesses are subject to federal and state laws and regulations that impose various restrictions and obligations related to privacy and the handling of customers' personal information. Privacy-related legislation has been adopted in a number of states in which we operate. Certain state requirements give consumers increased rights including the right to know what personal information is being collected about them and obtain a copy of such information, opt-out of the sale of personal information or sharing of personal information for purposes of certain targeted advertising, and to request the correction or deletion of this information. Complying with such laws, as well as other legislative and regulatory action related to privacy, could result in increased costs of compliance, claims against the Company or investigations related to compliance, and increased uncertainty in the use and availability of certain consumer data.

Video Programming: Federal, state, and local governments extensively regulate the video services industry. Our linear video services are subject to, among other things: subscriber privacy regulations; requirements that we carry a local broadcast station or obtain consent to carry a local or distant broadcast station; rules for franchise renewals and transfers; the manner in which program packages are marketed to subscribers; and program access requirements.

We provide video programming in some of our markets including California, Connecticut, Florida, Indiana, and Texas pursuant to franchises, permits and similar authorizations issued by state and local franchising authorities. Most franchises require payment of a franchise fee as a requirement to the granting of authority.

Many franchises establish facilities and service requirements, as well as specific customer service standards and monetary penalties for non-compliance. We believe that we are meeting all material standards and requirements. Franchises are generally granted for fixed terms and must be periodically renewed.

Environmental Regulation: The local exchange carrier subsidiaries we operate are subject to federal, state, and local laws, and regulations governing the use, storage, disposal of, and exposure to hazardous materials, the release of pollutants into the environment and the remediation of contamination. As an owner and former owner of property, we are subject to environmental laws that could impose liability for the entire cost of cleanup at contaminated sites, including sites formerly owned by us or our predecessors, regardless of fault or the lawfulness of the activity that resulted in contamination. We believe that our operations are in substantial compliance with applicable environmental laws and regulations.

Critical Accounting Policies and Estimates

The preparation of our financial statements requires management to make estimates and assumptions. There are inherent uncertainties with respect to such estimates and assumptions; accordingly, it is possible that actual results could differ from those estimates and changes to estimates could occur in the near term. These critical accounting estimates have been reviewed with the Audit Committee of our Board of Directors.

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the year ended December 31, 2023.

Recent Accounting Pronouncements

For additional information regarding FASB Accounting Standards Updates ("ASU"s) that have been issued but not yet adopted and that may impact the Company, refer to Note 2 – "Recent Accounting Pronouncements" to the Consolidated Financial Statements included in Part I of this report for additional information related to recent accounting literature.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk in the normal course of our business operations due to ongoing investing and funding activities, including those associated with our pension plan assets. Market risk refers to the potential change in fair

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

value of a financial instrument as a result of fluctuations in interest rates and equity prices. We do not hold or issue derivative instruments, derivative commodity instruments or other financial instruments for trading purposes. As a result, we do not undertake any specific actions to cover our exposure to market risks, and we are not party to any market risk management agreements other than in the normal course of business. Our primary market risk exposures from interest rate risk and equity price risk are as follows:

Interest Rate Exposure

Our exposure to market risk for changes in interest rates relates primarily to the interest-bearing portion of our pension investment portfolio and the related actuarial liability for pension obligations, as well as our floating rate indebtedness. As of March 31, 2024, 87% of our total debt had fixed interest rates. We had no interest rate swap agreements in effect at March 31, 2024. We believe that our currently outstanding obligation exposure to interest rate changes is minimal.

Our objectives in managing our interest rate risk are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, only our \$1.4 billion term loan facility has a floating rate at March 31, 2024. The annual impact of a 100 basis points change in the SOFR would result in approximately \$14 million of additional interest expense, provided that the SOFR rate exceeds the SOFR floor. An adverse change in interest rates would increase the amount that we pay on our variable rate obligations and could result in fluctuations in the fair value of our fixed rate obligations. To date, interest income from cash invested in term deposits has offset the impact of higher interest expense from floating rate debt. Based upon our overall interest rate exposure, a near-term change in interest rates would not materially affect our consolidated financial position, results of operations or cash flows.

At March 31, 2024, the fair value of our debt was estimated to be approximately \$10.7 billion, based on quoted market prices, our overall weighted average borrowing rate was 7.099% and our overall weighted average maturity was approximately 5.2 years.

Our discount rate assumption for our pension benefit obligation is determined at least annually, or whenever required, with assistance from our actuaries. The discount rate is based on the pattern of expected future benefit payments and the prevailing rates available on long-term, high quality corporate bonds with durations approximate to that of our benefit obligation. As of December 31, 2023, the discount rate utilized in calculating our benefit plan obligation was 5.20%. As of March 31, 2024, the discount rate utilized in calculating our benefit plan obligation was 5.40%.

The discount rate assumption for our OPEB obligation is determined in a similar manner to the pension plan. As of December 31, 2023, our discount rate utilized in calculating our benefit plan obligation was 5.20%. As of March 31, 2024, the discount rate utilized in calculating our benefit plan obligation was 5.40%.

PART I. FINANCIAL INFORMATION (Continued)
FRONTIER COMMUNICATIONS PARENT, INC. AND SUBSIDIARIES
(Unaudited)

Equity Price Exposure

Our exposure to market risks for changes in equity security prices as of March 31, 2024 is primarily limited to our pension plan assets. We have no other security investments of any significant amount.

The value of our pension plan assets increased \$93 million from \$2,268 million at December 31, 2023 to \$2,361 million at March 31, 2024. This increase primarily resulted from changes in the market value of investments of \$79 million, net of plan expenses, and contributions of \$57 million, offset by benefit payments to participants of \$43 million.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, regarding the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based upon this evaluation, our principal executive officer and principal financial officer concluded, as of the end of the period covered by this report, March 31, 2024, that our disclosure controls and procedures were effective.

(b) Changes in internal control over financial reporting

There have been no changes to our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) identified in an evaluation thereof that occurred during the first three months of 2024 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are party to various legal proceedings (including individual, class and putative class actions as well as federal and state governmental investigations) arising in the normal course of our business covering a wide range of matters and types of claims including, but not limited to, general contracts, billing disputes, rights of access, taxes and surcharges, consumer protection, trademark, copyright and patent infringement, employment, regulatory, tort, claims of competitors and disputes with other carriers. Such matters are subject to uncertainty and the outcome of individual matters is not predictable. However, we believe that the ultimate resolution of these matters, after considering insurance coverage or other indemnities to which we are entitled, will not have a material adverse effect on our financial position, results of operations, or cash flows. For more information regarding pending and threatened legal actions and proceedings see Note 16 - "Commitments and Contingencies" to the Consolidated Financial Statements included in Part I of this report.

Item 1A. Risk Factors

The following risk factor updates and replaces the risk factor entitled "We rely on network and information systems and other technology, and a breach, disruption or failure of such networks, systems or technology as a result of cyber-attacks, malware, misappropriation of data or other malfeasance, as well as outages, accidental releases of information or similar events, may disrupt our business and materially impact our results of operations, financial condition and cash flows." disclosed under the caption "Risk Factors", in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K"). There have been no other material changes to the Risk Factors in our 2023 Form 10-K.

We rely on network and information systems and other technology, and a breach, disruption or failure of such networks, systems or technology as a result of cyber-attacks, malware, misappropriation of data or other malfeasance, as well as outages, accidental releases of information or similar events, may disrupt our business and materially impact our results of operations, financial condition and cash flows.

Our business involves the receipt, storage, and transmission of confidential information about our customers and others, including sensitive personal, account and payment card information, confidential information about our employees and suppliers, and other sensitive information about our company, such as our business plans, transactions, financial information, and intellectual property. Cyberattacks against companies like ours have increased in frequency and potential harm over time, and the methods used to gain unauthorized access constantly evolve, making it increasingly difficult to anticipate, prevent, and/or detect incidents successfully in every instance. Likewise, our information technology, networks, and infrastructure may be subject to damage, disruptions, or shutdowns due to cyber-attacks, malware, including ransomware or other information security breaches, employee or third-party error or malfeasance, power outages, communication or utility failures, systems failures, natural disasters, or other catastrophic events.

Further, our network and information systems are subject to various risks related to our vendors, third parties and other parties we may not fully control. We use encryption and authentication technology licensed from third parties to provide secure transmission of confidential information, including our business data and customer information. Similarly, we rely on employees in our network operations centers, data centers and call centers to follow our procedures when handling sensitive information. Use of vendors and third-party technologies could also expose us to supply chain cybersecurity risks, and we may not have accurate or complete information about the risks that third-party service providers face or the security of their systems. While we select our employees and third-party business partners carefully, our ability to monitor these third parties is limited, which could expose us to cyber-security and other risks. In addition, our customers using our network to access the Internet may become victim to malicious and abusive internet activities, such as unsolicited mass advertising (or spam), peer-to-peer file sharing, distribution of viruses, worms and other destructive or disruptive software; these activities could adversely affect our network, result in excessive call volume at our call centers and damage our or our customers' equipment and data.

PART II. OTHER INFORMATION

While we maintain security measures, disaster recovery plans and business continuity plans and work to upgrade our existing technology systems and provide employee training around the cyber risks we face, these risks are constantly evolving and are challenging to mitigate. Like many companies, we and our third party service providers are the subject of increasingly frequent cyber-attacks. Security incidents result from the actions of a wide variety of actors with a wide range of motives and expertise, such as traditional hackers, personnel or the personnel of third parties, sophisticated nation-states and nation-state-supported actors. For example, on April 14, 2024, we detected that a third party had gained unauthorized access to portions of our information technology environment. Upon detection, we initiated our established cyber incident response protocols and took measures to contain the incident. The containment measures, which included shutting down certain of the Company's systems, resulted in an operational disruption that could be considered material. Based on our investigation, we have determined that the third party was likely a cybercrime group, which gained access to, among other information, personally identifiable information. While we do not believe the incident is reasonably likely to materially impact our financial condition or results of operations, we continue to investigate the incident, have engaged cybersecurity experts, and have notified law enforcement authorities.

We are required to expend significant resources in an effort to protect against security incidents and may be required or choose to spend additional resources or modify our business activities, particularly where required by applicable data privacy and security laws or regulations or industry standards. While we have developed systems and processes designed to protect the integrity, confidentiality and security of the confidential and personal information under our control, we cannot assure you that any security measures that we or our third-party service providers implement will be effective in preventing security incidents, disruptions, cyberattacks, or other similar events. Any unauthorized access, computer viruses, ransomware attacks, accidental or intentional release of confidential information or other disruptions could result in misappropriation of our or our customers' sensitive information; financial loss; reputational harm; increased costs, such as those relating to remediation or future protection; customer dissatisfaction, which could lead to a decline in customers and revenue; changes to insurance premiums or coverage; government investigations and legal claims or proceedings, fines and other liabilities. There can be no assurance that the impact of such incidents would not be material to our results of operations, financial condition, or cash flows.

CERTIFICATIONS

I, Nick Jeffery, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Frontier Communications Parent, Inc.;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
-

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Frontier Communications Parent, Inc. (the "Company") on Form 10-Q for the period ended March 31, 2024 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), we, Nick Jeffery, President and Chief Executive Officer and Scott Beasley, Executive Vice President, Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
