IMPORTANT INFORMATION

Forward-Looking Statements

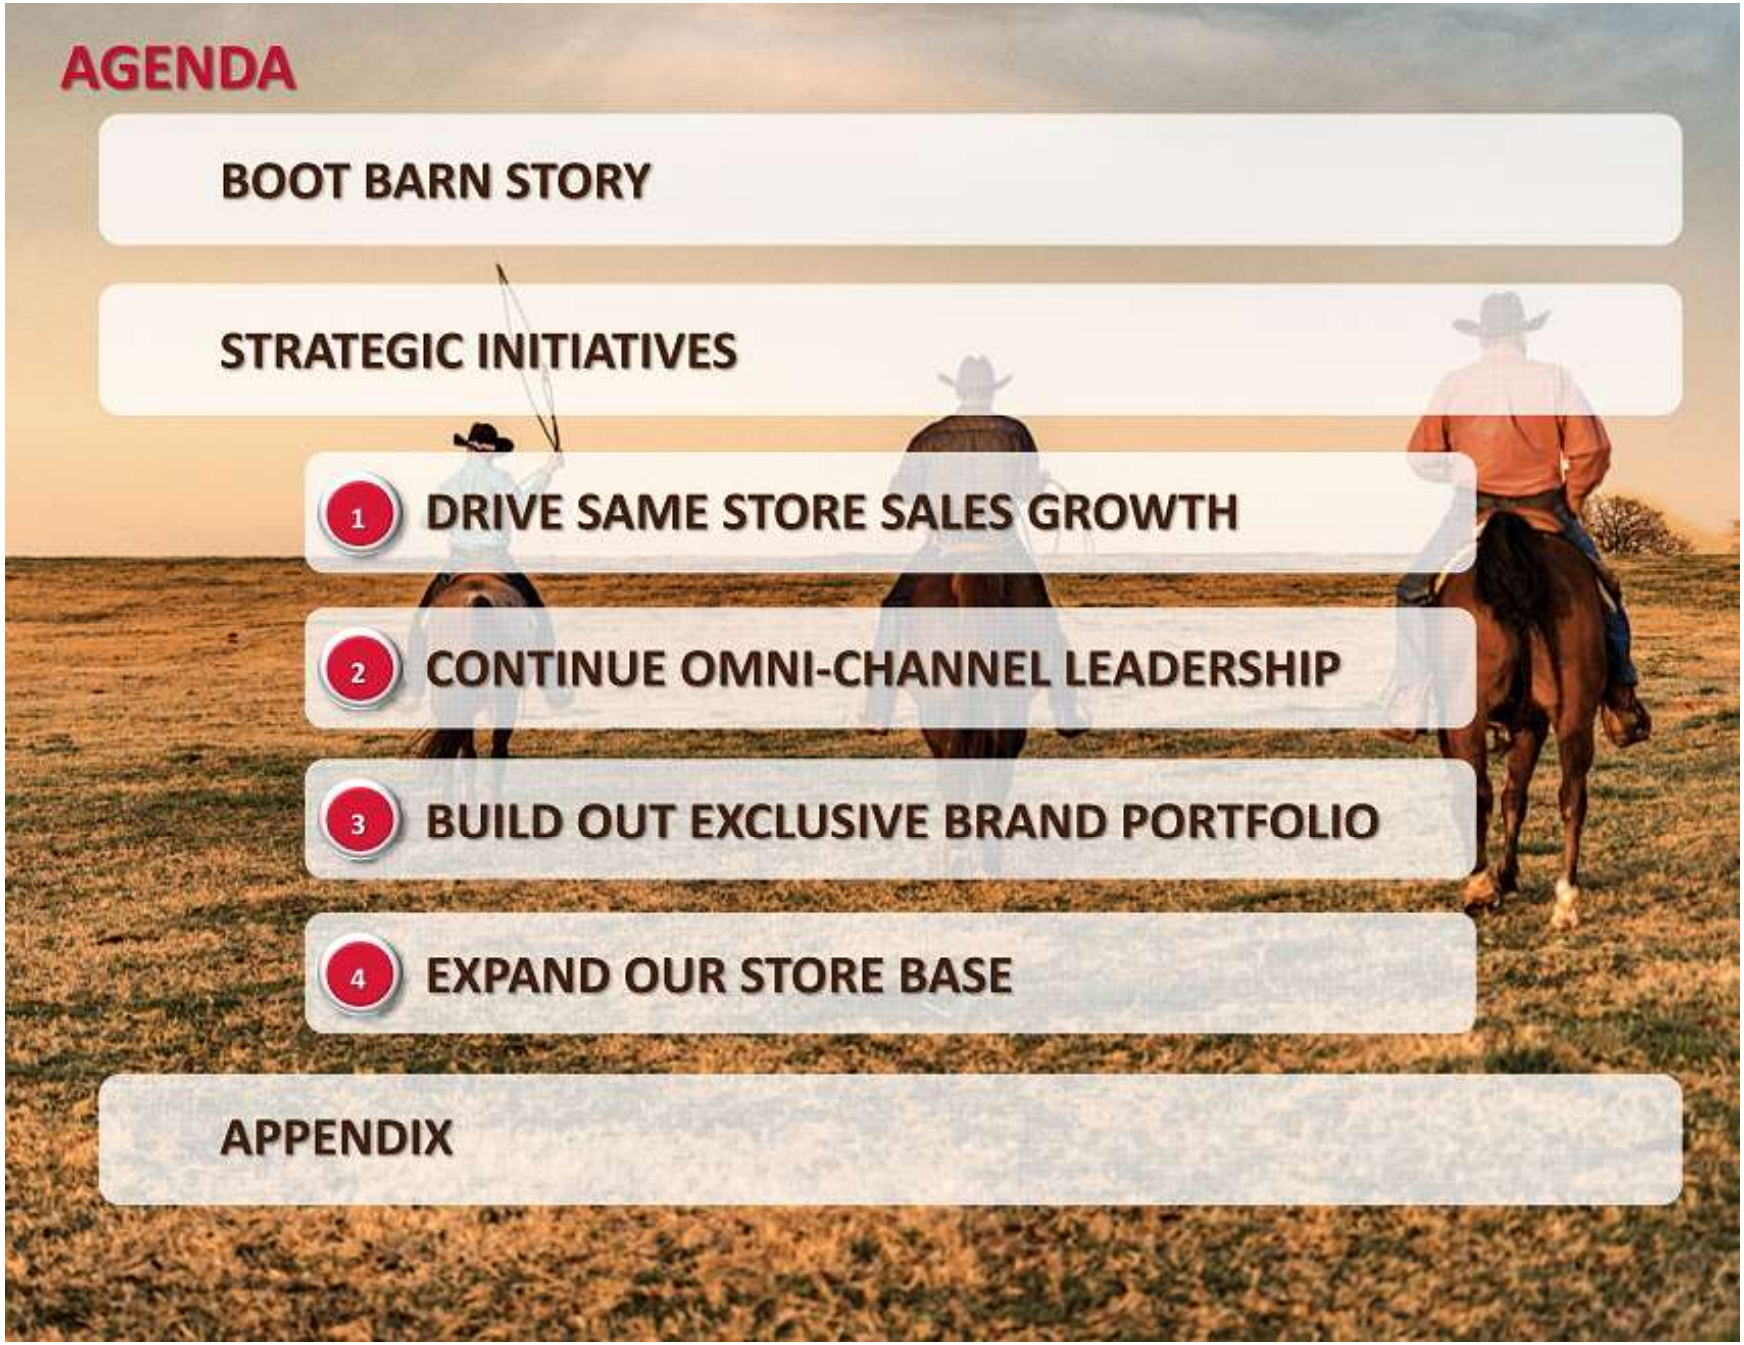

This presentation contains forward-looking statements that are subject to risks and uncertainties. All statements other than statements of historical fact included in this presentation are forward-looking statements. You can identify forward-looking statements by the fact that they generally include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "outlook" and other words of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events but not all forward-looking statements contain these identifying words. These forward-looking statements are based on assumptions that the Company's management has made in light of their industry experience and on their perceptions of historical trends, current conditions, expected future developments and other factors they believe are appropriate under the circumstances. As you consider this presentation, you should understand that these statements are not guarantees of performance or results. They involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. These risks, uncertainties and assumptions include, but are not limited to, the following: decreases in consumer spending due to declines in consumer confidence, local economic conditions or changes in consumer preferences and the Company's ability to effectively: execute on its growth strategy; maintain and enhance its strong brand image; compete effectively; maintain good relationships with its key suppliers; and improve and expand its exclusive product offerings. The Company discusses the foregoing risks and other risks in greater detail under the heading "Risk factors" in the periodic reports filed by the Company with the Securities and Exchange Commission. Although the Company believes that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect the Company's actual financial results and cause them to differ materially from those anticipated in the forward-looking statements. Because of these factors, the Company cautions that you should not place undue reliance on any of these forward-looking statements. New risks and uncertainties arise from time to time, and it is impossible for the Company to predict those events or how they may affect the Company. Further, any forward-looking statement speaks only as of the date on which it is made. Except as required by law, the Company does not intend to update or revise the forward-looking statements in this presentation after the date of this presentation.

Industry and Market Information

Statements in this presentation concerning our industry and the markets in which we operate, including our general expectations and competitive position, business opportunity and market size, growth and share, are based on information from independent industry organizations and other third-party sources, data from our internal research and management estimates. Management estimates are derived from publicly available information and the information and data referred to above, and are based on assumptions and calculations made by us based upon our interpretation of such information and data. The information and data referred to above are imprecise and may prove to be inaccurate because the information cannot always be verified with complete certainty due to the limitations on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties. As a result, please be aware that the data and statistical information in this presentation may differ from information provided by our competitors or from information found in current or future studies conducted by market research institutes, consultancy firms or independent sources.

Non-GAAP Financial Measures

The Company presents Adjusted EBITDA and Adjusted EBIT because they are important financial measures that its management, board of directors and lenders use to assess the Company's operating performance. However, Adjusted EBITDA and Adjusted EBIT are non-GAAP financial measures and should not be considered in isolation or as an alternative to net income or any other measure of financial performance calculated and presented in accordance with GAAP. The Company defines Adjusted EBITDA as earnings before interest, income tax, depreciation and amortization, or EBITDA, adjusted to exclude non-cash stock-based compensation, the non-cash accrual for future award redemptions, recapitalization expenses, acquisition-related expenses, acquisition-related integration costs, amortization of inventory fair value adjustment, loss on disposal of assets and contract termination costs, store impairment charges, secondary offering costs, and other due diligence expenses. Adjusted EBIT is defined as Adjusted EBITDA less depreciation and amortization. In addition, for fiscal year 2017, which was a 53-week fiscal year, the Company has made further adjustments to account for the extra week. Since Adjusted EBITDA and Adjusted EBIT are non-GAAP financial measures, they are susceptible to varying calculations and the Company's Adjusted EBITDA and Adjusted EBIT may not be comparable to similarly titled measures of other companies, including companies in its industry. See the Appendix to this presentation for a reconciliation of Adjusted EBITDA and Adjusted EBIT to Net Income.

AGENDA
BOOT BARN STORY
STRATEGIC INITIATIVES
1
DRIVE SAME STORE SALES GROWTH
2
CONTINUE OMNI-CHANNEL LEADERSHIP
3
BUILD OUT EXCLUSIVE BRAND PORTFOLIO
4
EXPAND OUR STORE BASE
APPENDIX

BOOT BARN IS A COMPELLING INVESTMENT STORY

NATIONAL LEADER IN ATTRACTIVE NICHE

- Leader and authority in the western and work industry
- Genuine lifestyle retail brand
- Extremely loyal customers seeking authenticity
- Unique merchandise assortment

STRONG OMNI-CHANNEL BRAND PRESENCE

BOOT BARN COUNTRY OUTFITTER — FIND YOUR COUNTRY — SHEPLERS

- Healthy same store sales growth in stores and online
- Importance of quality and fit
- Lifestyle experience across stores, e-commerce and events
- Significant e-commerce penetration

GROWTH AND PROFIT ENHANCEMENT OPPORTUNITIES

- Proven ability to drive growth and expansion
- Exclusive brand growth
- Economies of scale in purchasing
- Ability to leverage expenses

A TRUE AMERICAN LIFESTYLE

Top 3 vehicles sold in 2018 were pick-up trucks[1]

Country music popularity continues to rise[2]

Hundreds of rodeos held in the U.S.

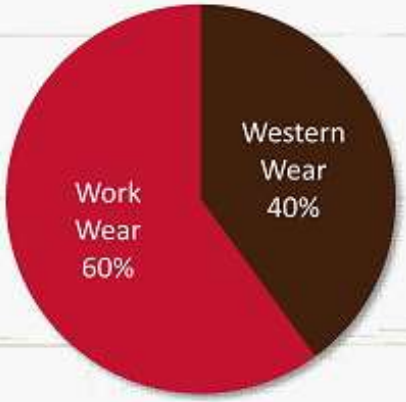

Popular spectator sport

[1] Fox News 1/4/2019, "The 10 best-selling vehicles in the United States in 2018 were mostly trucks and SUVs"; [2] Forbes.com, 10/31/16, "Country Music's Popularity and Influence Continues to Rise"

LARGE $20 BILLION INDUSTRY[1] PROVIDES GROWTH OPPORTUNITY

~$20 BILLION MARKET OPPORTUNITY

ATTRACTIVE DYNAMICS

- Highly fragmented
- Less fashion driven than traditional apparel
- Purchases are often non-discretionary

DRIVERS OF WESTERN WEAR GROWTH

- ✓ Country music
- ✓ Western events
- ✓ Ranching
- ✓ Horse ownership
- ✓ Agriculture

DRIVERS OF WORK WEAR GROWTH

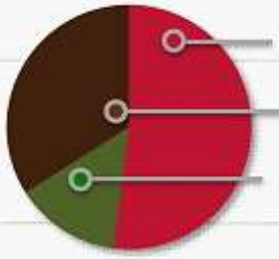

- ✓ Blue collar employment
- ✓ Strength in oil & gas
- ✓ Construction spending
- ✓ Commercial accounts
- ✓ Work safety regulations

Adjusted EBIT	$ 74,522	$ 68,421	$ 48,902	$ 40,806	$ 45,538	$ 39,025	$ 32,142	$ 23,345

[1]The fiscal 2017 column has been adjusted to reflect management's estimated 52-week results as fiscal 2017 was a 53-week year. The Company estimated that included in fiscal 2017 reported earnings per share was $0.03 attributed to the 53rd week. As such, the Company has estimated fiscal 2017 net income, excluding the 53rd week, to be $13.4 million compared to GAAP net income of $14.2 million. In calculating estimated Adjusted EBITDA and Adjusted EBIT on a 52-week basis, the Company also adjusted income tax expense, interest expense, and stock based compensation expense by taking 52/53rds of the GAAP reported fiscal 2017 numbers.

(a) Represents non-cash compensation expenses related to stock options, restricted stock awards and restricted stock units granted to certain of our employees and directors.
(b) Represents the non-cash accrual for future award redemptions in connection with our customer loyalty program.
(c) Includes direct costs and fees related to the acquisitions of RCC, Baskins and Sheplers, which we acquired in August 2012, May 2013 and June 2015, respectively.
(d) Represents certain store integration, remerchandising, inventory obsolescence and corporate consolidation costs incurred in connection with the integration of RCC, Baskins and Sheplers, which we acquired in August 2012, May 2013 and June 2015, respectively. Fiscal 2016 includes an adjustment to normalize the gross margin impact of sales of discontinued inventory from Sheplers, which was sold at a discount or written off. The adjustment assumes such inventory was sold at Sheplers' normalized margin rate.
(e) Represents the amortization of purchase-accounting adjustments that adjusted the value of inventory acquired to its fair value.
(f) Represents loss on disposal of assets and contract termination costs from store closures and unused office and warehouse space.
(g) Represents a gain on adjustment of a ROU asset and liability.
(h) Represents professional fees and expenses incurred in connection with secondary offerings conducted in January 2018, May 2018 and February 2015 and a Form S-1 Registration Statement filed in July 2015 and withdrawn in November 2015.
(i) Represents professional fees and expenses incurred in connection with acquisition activity.
(j) Represents store impairment charges recorded in order to reduce the carrying amount of the assets to their estimated fair values.

POTENTIAL TARIFF EXPOSURE

Approx. % of Total Sales Sourced from China

In order to maintain margin dollars on a $179 pair of boots subsequent to the 10% tariff beginning on Sept. 1st, the new selling price would need to increase to $183, assuming no sharing of tariff with supply chain.
