

NEWS RELEASE

Badger Confirms Release Date for Q3 2026 Results

2026-09-28

Calgary, Alberta--(Newsfile Corp. - September 28, 2026) - Badger Infrastructure Solutions Ltd. (TSX: BDGI) ("Badger") confirms the release date for its Q3 2026 results.

2026 Third Quarter Results and Conference Call

Badger expects to release its Q3 2026 results on Thursday, November 5, 2026, after markets close. A conference call and webcast for investors, analysts and brokers to discuss the Q3 2026 results is scheduled for 9:00 a.m. EST on Friday, November 6, 2026. To join the call and ask a question during the live questions and answers session, or to join the call with audio only, please go to: <https://event.cwebcast.com/ses/axMYP2tU~~>.

A replay of the call will be available and archived on Badger's investor relations website under the Events & Presentations section.

About Badger Infrastructure Solutions Ltd.

Badger is North America's largest provider of non-destructive excavation and related services, serving a broad customer base across a diverse range of construction, utility, transportation, industrial and other critical infrastructure related markets. Badger's customers typically operate near high concentrations of underground power, communication, water, gas and sewer lines, where safety and economic risks are high and where non-destructive excavation provides a safe alternative for certain customer excavation requirements.

Badger's key system is the Badger Hydrovac™, which uses a pressurized water stream to liquify the soil cover, which is then removed with a powerful vacuum and deposited into a storage tank. Badger operates a vertically integrated business model, designing and manufacturing its Badger Hydrovac fleet at its facility in Red Deer,

Alberta, which has an annual production capacity of more than 350 units and enables Badger to produce units at a lower cost compared to purchasing from third parties. This approach provides Badger with direct control over equipment specifications, fleet availability, and lifecycle management, supporting operational consistency across its Canadian and U.S. operations. To complement the Badger Hydrovac and expand Badger's service offerings, Badger has a select number of specialty units, mainly combo trucks, sewer and flusher units, dump trucks, rock slingers, and airvac.
