## Sanmina Expands Its Technology Center in Southern California

6/29/2017

Sanmina Adds Advanced Microelectronics, NPI and System Assembly Capabilities to Its Technology Center in Costa Mesa, CA

SAN JOSE, Calif., June 29, 2017 /PRNewswire/ -- Sanmina Corporation (Nasdaq: SANM), a leading manufacturing solutions company making some of the world's most complex and innovative electronic, optical and mechanical products, today announced the expansion of its technology center in Costa Mesa, California. Sanmina's technology center now offers an end to end solution<sup>TM</sup>, integrating microelectronics, PCB (printed circuit board) fabrication, PCBA (PCB assembly), memory products, quick turn prototyping, NPI (new product introduction) and manufacturing services. This fully integrated capability enables high technology companies in this region to prototype and launch advanced products with complete services in one location.

Sanmina has been operating in Costa Mesa for years, producing high technology PCBs and flex/rigid flex circuits for demanding applications including military, aerospace, semiconductor, oil & gas, medical devices and others. Sanmina has now added advanced microelectronic packaging, surface mount technology and system assembly to its technology center. Sanmina Costa Mesa also provides customers access to Sanmina's design and manufacturing locations in North America and around the world.

Sanmina's memory products, high capacity solid state disk drives and non-volatile memory modules, sold under the Viking Technology<sup>TM</sup> brand, are also developed and produced at this technology center. The Viking Technology<sup>TM</sup> product division brings substantial microelectronic packaging and interconnect technology to this location.

"Sanmina is proud to offer a fully integrated technology and services capability for our customers in Southern California and the southwest," said Marco Gonzalez, EVP and COO of Sanmina's IMS Operations in the Americas. "The complete services offered by our technology center in Costa Mesa improve time to market and simplify the supply chain for our customers in this region."

The Costa Mesa technology center is one of Sanmina's 20 design and manufacturing facilities in the United States. Sanmina provides customers with a complete capability in the U.S., including RF, optical, microelectronics, PCB fabrication, metal fabrication, design and manufacturing. More information can be found at [www.sanmina.com](http://www.sanmina.com).

## About Sanmina Corporation

Sanmina Corporation is a leading integrated manufacturing solutions provider serving the fastest growing segments of the global Electronics Manufacturing Services (EMS) market. Recognized as a technology leader, Sanmina provides end-to-end manufacturing solutions, delivering superior quality and support to Original Equipment Manufacturers (OEMs) primarily in the communications networks, storage, industrial, defense, medical, energy and industries that include embedded computing technologies such as point of sale devices, casino gaming and automotive. Sanmina has facilities strategically located in key regions throughout the world. More information about the Company is available at [www.sanmina.com](http://www.sanmina.com).

## Sanmina Safe Harbor Statement

The foregoing, including the discussion regarding the Company's future prospects, contains certain forward-looking statements that involve risks and uncertainties, including uncertainties associated with economic conditions in the electronics industry, particularly in the principal industry sectors served by the Company, changes in customer requirements and in the volume of sales principal customers, the ability of Sanmina to effectively assimilate acquired businesses and achieve the anticipated benefits of its acquisitions, and competition and technological change. The Company's actual results of operations may differ significantly from those contemplated by such forward-looking statements as a result of these and other factors, including factors set forth in our Company's Annual and quarterly reports filed with the Securities Exchange Commission.
