Sanmina Wins Technology Award from Fujitsu Network Communications

6/21/2018

Company Recognized for Engineering Excellence and Collaboration on Printed Circuit Board Solutions

SAN JOSE, Calif., June 21, 2018 /PRNewswire/ -- Sanmina Corporation (Nasdaq: SANM), a leading integrated manufacturing solutions company that makes some of the world's most complex and innovative electronic, optical and mechanical products, today announced it received the Fujitsu Network Communications Technology Award.

Sanmina received this award for its close collaboration with Fujitsu on the design and engineering of a wide range of printed circuit board (PCB) solutions. Sanmina has been providing Fujitsu with advanced PCB technology for more than 20 years. This award recognizes the close collaboration and early engagement of Sanmina's engineering team with Fujitsu throughout the design process, providing insight and recommendations that help ensure the best possible performance and cost. Fujitsu leverages Sanmina's global PCB footprint, with NPI and design services in San Jose and volume production in Sanmina's PCB facility in Wuxi, China.

"Sanmina is honored to receive the Technology Award from Fujitsu," said Steve Bruton, EVP, Circuit Board Technology, at Sanmina. "We take great pride in the partnership we've developed with Fujitsu over the years and are committed to providing value-added engineering services and technology that help Fujitsu deliver state-of-the-art products."

Sanmina is a recognized leader for the design and manufacturing of advanced PCBs, and also provides comprehensive design and new product introduction (NPI) services. Sanmina operates state of the art PCB and

backplane manufacturing facilities in the U.S. and Asia. The company specializes in high speed, high reliability circuit boards for advanced network communications equipment and applications for the aerospace, medical and industrial markets. As an industry leader, Sanmina uses the latest laminate materials, HDI (high density interconnect), multi-layer via structures, multiple sequential laminations, blind and backdrilled plated-through hole technologies.

Representatives from Sanmina accepted the award at Fujitsu's annual Supplier Appreciation Day that took place in Allen, Texas in May, 2018.

About Sanmina Corporation

Sanmina Corporation is a leading integrated manufacturing solutions provider serving the fastest-growing segments of the global Electronics Manufacturing Services (EMS) market. Recognized as a technology leader, Sanmina provides end-to-end manufacturing solutions, delivering superior quality and support to Original Equipment Manufacturers (OEMs) primarily in the communications networks, storage, industrial, defense, medical, energy and industries that include embedded computing technologies such as, point of sale devices, casino gaming and automotive. Sanmina has facilities strategically located in key regions throughout the world. More information regarding the company is available at <http://www.sanmina.com>.

Sanmina Safe Harbor Statement

The foregoing, including the discussion regarding the Company's future prospects, contains certain forward-looking statements that involve risks and uncertainties, including uncertainties associated with economic conditions in the electronics industry, particularly in the principal industry sectors served by the Company, changes in customer requirements and in the volume of sales principal customers, the ability of Sanmina to effectively assimilate acquired businesses and achieve the anticipated benefits of its acquisitions, and competition and technological change. The Company's actual results of operations may differ significantly from those contemplated by such forward-looking statements as a result of these and other factors, including factors set forth in our Company's Annual and quarterly reports filed with the Securities Exchange Commission.
