## Viking Technology to Showcase New Optical Capabilities at OFC 2017

3/20/2017

Viking Technology Unveils Optical Capabilities For Next Generation 400G Optical Systems

SAN JOSE, Calif., March 20, 2017 /PRNewswire/ -- Viking Technology, a division of Sanmina Corporation (NASDAQ: SANM), will showcase their advanced optical and RF capabilities at the upcoming Optical Networking and Communication Conference & Exhibition (OFC). OFC takes place on March 21st - 23rd at the Los Angeles Convention Center, with Viking Technology exhibiting in booth 2107.

Viking Technology has been developing some of the most advanced optical design and technology solutions for leading telecommunications and networking companies for over 25 years. With the combination of its optical, RF and microelectronics capabilities, coupled with extensive experience in telecommunications systems, Viking Technology develops next generation optical technologies at both the component and system level. These technologies include advanced modulation 400G modules, next generation highly integrated optical components, and high-speed electro-optical test systems. Viking Technology's business operations include multiple design centers and global manufacturing facilities, providing customers with a complete solution.

Viking Technology is proud to showcase these new capabilities at OFC. In addition to its advanced optical capabilities, Viking Technology is a leader in RF and microelectronics technology, and memory systems.

### About Viking Technology

Viking Technology is a global leader in optical and RF technologies, memory systems and microelectronics. With

over 25 years of experience in design, manufacturing and test systems, Viking Technology leads the industry in providing advanced technology and systems solutions for the telecommunications, medical, embedded, industrial and aerospace markets. Viking Technology is a division of Sanmina Corporation (NASDAQ: SANM). More information is available at: [www.vikingtechnology.com](http://www.vikingtechnology.com), via email at [sales@vikingtechnology.com](mailto:sales@vikingtechnology.com) or by calling (714) 913-2200.

## About Sanmina

Sanmina Corporation is a leading integrated manufacturing solutions provider serving the fastest growing segments of the global Electronics Manufacturing Services (EMS) market. Recognized as a technology leader, Sanmina provides end-to-end manufacturing solutions, delivering superior quality and support to Original Equipment Manufacturers (OEMs) primarily in the communications networks, storage, industrial, defense, medical, automotive and energy industries. Sanmina has facilities strategically located in key regions throughout the world. More information about the company is available at <http://www.sanmina.com>.

## Sanmina Safe Harbor Statement

The foregoing, including the discussion regarding the Company's future prospects, contains certain forward-looking statements that involve risks and uncertainties, including uncertainties associated with economic conditions in the electronics industry, particularly in the principal industry sectors served by the Company, changes in customer requirements and in the volume of sales principal customers, the ability of Sanmina to effectively assimilate acquired businesses and achieve the anticipated benefits of its acquisitions, and competition and technological change. The Company's actual results of operations may differ significantly from those contemplated by such forward-looking statements as a result of these and other factors, including factors set forth in our Company's Annual and quarterly reports filed with the Securities Exchange Commission.
