Investor Presentation

COEUR MINING®

NYSE: CDE

July 2014

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements regarding anticipated production, costs, expenses, capital and exploration expenditures, amortization, and exploration and development efforts, expectations regarding grade, throughput, margins, cash flow, mine plans, mine life, cost improvements, efficiency gains, capital deployment, acquisition priorities, the Rochester and Palmarejo mines, the La Preciosa project, the new gold stream agreement with Franco-Nevada, share price performance, permitting, investments in infrastructure, reducing and managing risk, and initiatives to minimize exposure to declining metal prices and maximize net cash flow. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause Coeur's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), changes in the market prices of gold and silver and a sustained lower price environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions, grade variability, any future labor disputes or work stoppages, the uncertainties inherent in the estimation of gold and silver ore reserves, changes that could result from Coeur's future acquisition of new mining properties or businesses, reliance on third parties to operate certain mines where Coeur owns silver production and reserves and the absence of control over mining operations in which Coeur or its subsidiaries hold royalty or streaming interests and risks related to these mining operations including results of mining and exploration activities, environmental, economic and political risks of the jurisdiction in which the mining operations are located, the loss of any third-party smelter to which Coeur markets silver and gold, the effects of environmental and other governmental regulations, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt, as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Form 10-K and Form 10-Q. Actual results, developments and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward-looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

W. David Tyler, Coeur's Vice President, Technical Services and a qualified person under Canadian National Instrument 43-101, supervised the preparation of the scientific and technical information concerning Coeur's mineral projects in this presentation. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, please see the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

The La Preciosa PEA referenced in this presentation is preliminary in nature and includes inferred mineral resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be characterized as mineral reserves. There is no certainty that the results reflected in the PEA will be realized. Mineral resources that are not mineral reserves do not have demonstrated economic viability. Mineral resource estimates do not account for minability, selectivity, mining loss and dilution. There is no certainty that the inferred mineral resources will be converted to the measured and indicated categories or that the measured and indicated mineral resources will be converted to the proven and probable mineral reserve categories. There are no mineral reserves at La Preciosa. The Canadian National Instrument 43-101-compliant Technical Report, disclosing results of the PEA, is available on www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at http://www.sec.gov.

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including EBITDA and cost applicable to sales per silver equivalent ounce. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe EBITDA and costs applicable to sales per silver equivalent ounce are important measures in assessing the Company's overall financial performance.

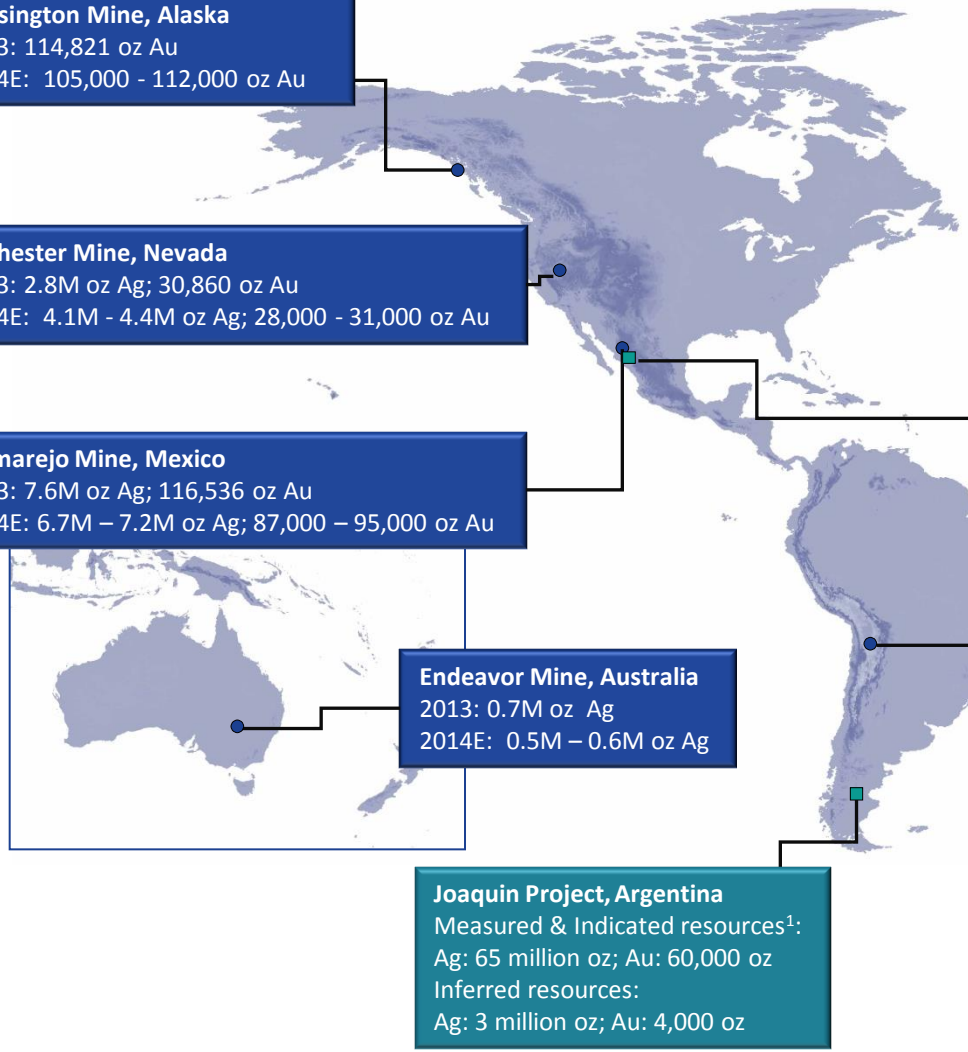

Company Overview

- One of world's largest silver mining companies
- Approximately half of sales derived from gold production
- Provides leading leverage to both precious metals
- Improved results in the wake of investments in new management team and refreshing of Board of Directors
- Improving landscape for precious metals in 2014
- Several near-term catalysts expected

Key Investment Considerations

Portfolio Includes 2 of the Top 15 Largest Primary Silver Mines

Kensington Mine, Alaska
2013: 114,821 oz Au
2014E: 105,000 - 112,000 oz Au

Rochester Mine, Nevada
2013: 2.8M oz Ag; 30,860 oz Au
2014E: 4.1M - 4.4M oz Ag; 28,000 - 31,000 oz Au

Palmarejo Mine, Mexico
2013: 7.6M oz Ag; 116,536 oz Au
2014E: 6.7M – 7.2M oz Ag; 87,000 – 95,000 oz Au

Endeavor Mine, Australia
2013: 0.7M oz Ag
2014E: 0.5M – 0.6M oz Ag

Joaquin Project, Argentina
Measured & Indicated resources[1]:
Ag: 65 million oz; Au: 60,000 oz
Inferred resources:
Ag: 3 million oz; Au: 4,000 oz

La Preciosa Project, Mexico
Measured &Indicated resources[1]:
Ag: 125 million oz; Au: 230,000 oz
Inferred resources:
Ag: 32 million oz; Au: 49,000 oz

San Bartolomé Mine, Bolivia
2013: 5.9M oz Ag
2014E: 5.7M – 6.0M oz Ag

- Operation
- Feasibility stage project

Total[1]	Silver Ounces (000s)	Gold Ounces (000s)
Proven & Probable Reserves	255,396	2,152
Measured & Indicated Resources	386,297	2,461
Inferred Resources	96,423	1,058

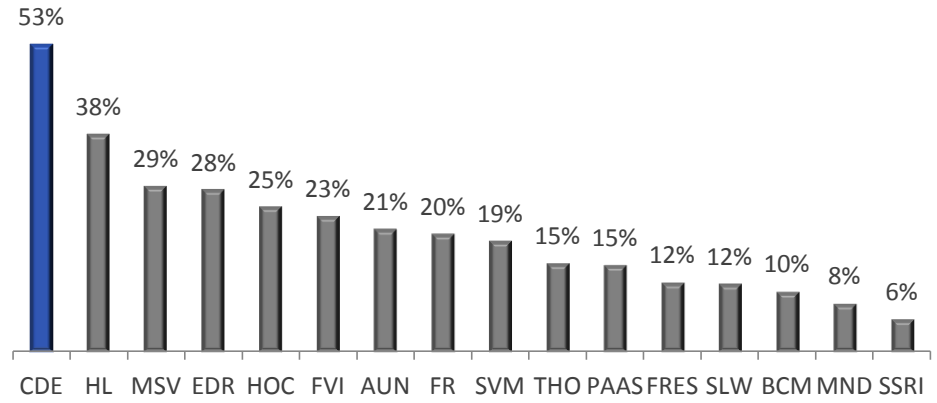

Ticker: Exchange	CDE: NYSE
Shares Outstanding[2]	103.5M
Avg. Daily Volume[3]	$14.4M
52-week Low – High[3]	$6.62 - $16.95
Market Capitalization[3]	$950M

Guidance as published by Coeur on May 7, 2014.

1. Mineral reserves and resources effective December 31, 2013 except Endeavor, effective June 30, 2013. See slides in the Appendix for tons and grade pertaining to mineral reserves and resources. For details on the estimation of mineral resources and reserves for each property, please refer to the applicable Technical Report on file at www.sedar.com.
2. As of 5/6/14.
3. As of 7/2/14. Based on stock price of $9.21.

CDE Provides Superior Leverage to Higher Metal Prices

NPV Sensitivity to 10% Higher Silver Price

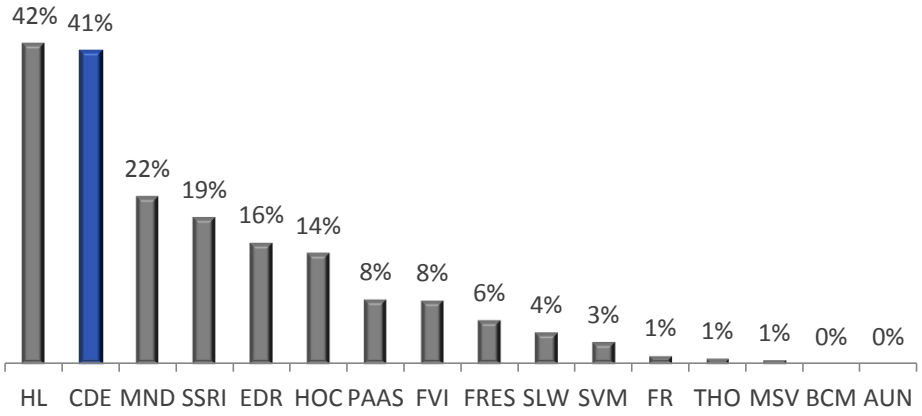

Macro Factors Support Upside Metal Price Potential

- Inflation concerns; geopolitical tensions
- Rising Asian demand from growing middle class
- Emerging uses for silver:
  - Antimicrobials, mobile devices/laptops, touchscreen technology, automotive, water purification
- Positive supply factors:
  - Declining gold output expected from South America / Oceania
  - Many sizeable silver projects have been recently deferred

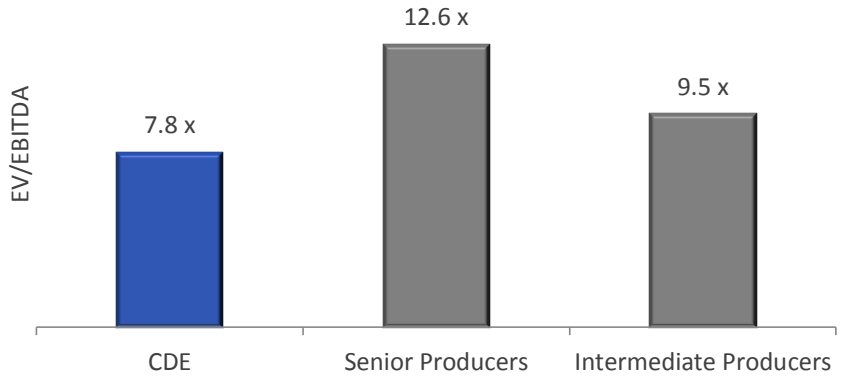

Source: Metals Focus.

NPV Sensitivity to 10% Higher Gold Price

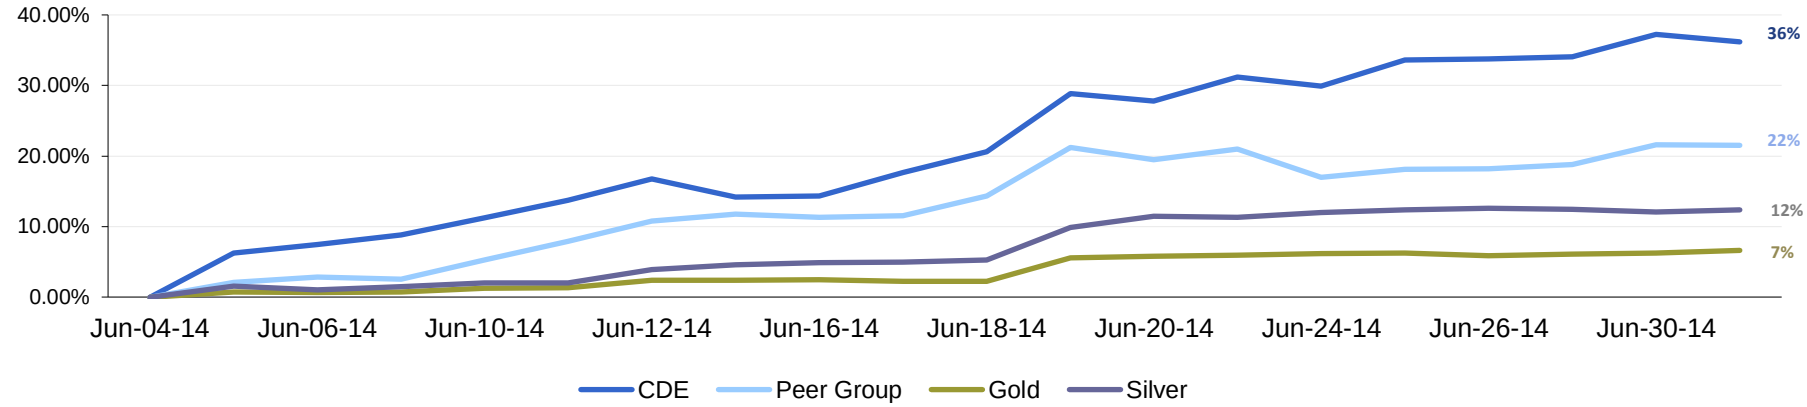

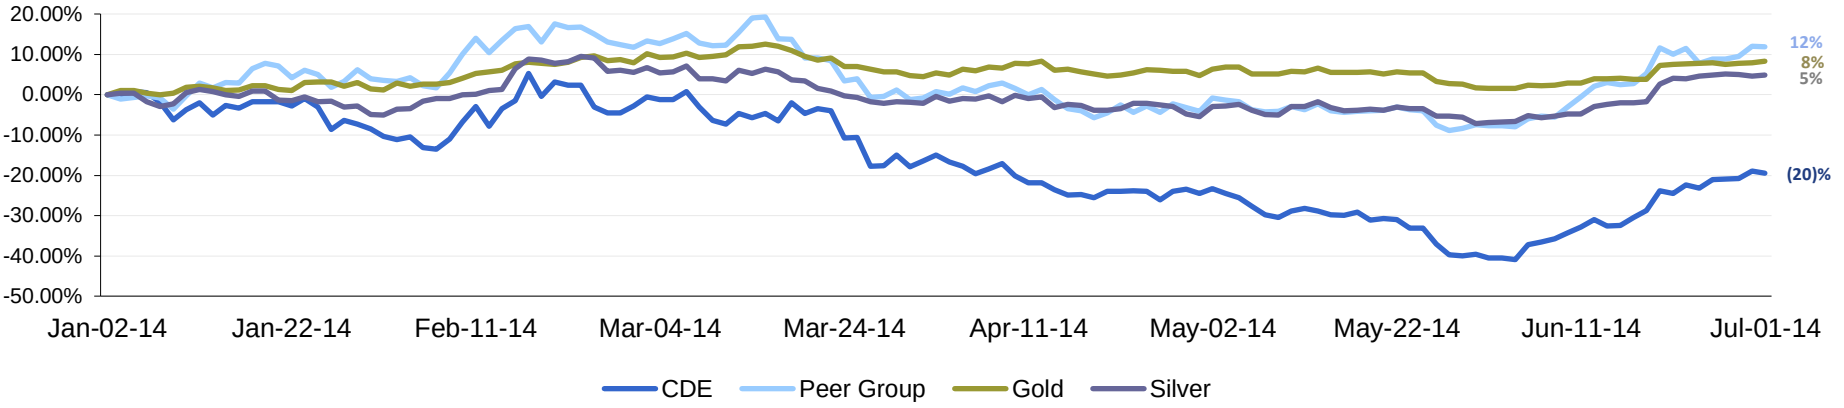

Source: BMO Capital Markets.

CDE Trades at a Discount to Silver Peers

Share Price has Increased Nearly 40% in the Last Month; Relative Performance YTD Suggests Further Upside Potential

We believe several catalysts still remain for further share price gains

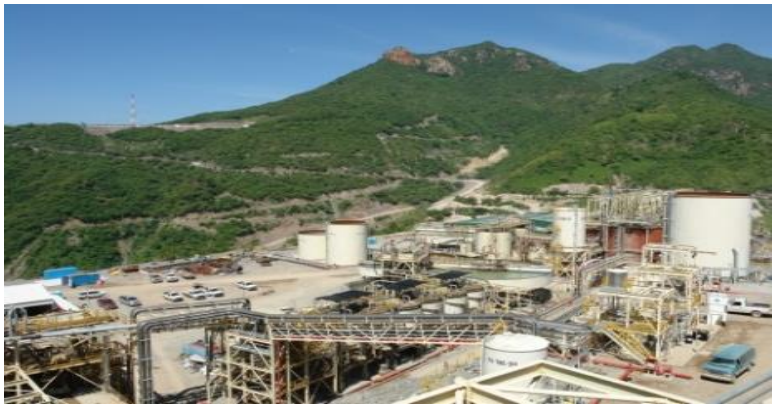

Source: Capital IQ. Peer group includes KGC, AUY, AEM, EGO, PAA, CG, SWC, NGD, HL, AUQ, AGI, ANV, SSRI, AG.

Primary Catalysts Expected During 2014

- New Franco-Nevada gold stream agreement
- Palmarejo operational adjustments, mine life update, and future cash flow profile
- Rochester expansion progress
- Improving cost profile
- Mid-year decision on La Preciosa feasibility-stage project
- Capital deployment philosophy

Business Profile and Strategy

Seeking to Create Balanced Pipeline of High-Return, Low-Risk Precious Metals Assets to Supplement Existing Asset Portfolio and Maximize Net Cash Flow

Internal Pipeline

Early Stage Exploration

- Goal of advancing early stage properties to next generation of mines over time
- Source of highest returns for stockholders
- Significant ongoing exploration investment around existing operations
- Recent alliances / lease agreements established in Nevada
- Focus on existing jurisdictions and Peru

Development Projects

- Completing development of Guadalupe deposit at Palmarejo
- Planning for future Rochester expansion
- La Preciosa silver-gold project in Mexico: feasibility study results expected to be released this month
- Joaquin silver-gold project in Argentina: feasibility study on hold until political climate improves

Operating Assets

- Provide consistent and sizeable production profile
- Costs have been declining
- Long mine lives
- Rochester ramp-up proceeding according to plan
- Palmarejo future profile to be unveiled
- Higher throughput and higher-grade potential are key themes at Kensington

External Pipeline

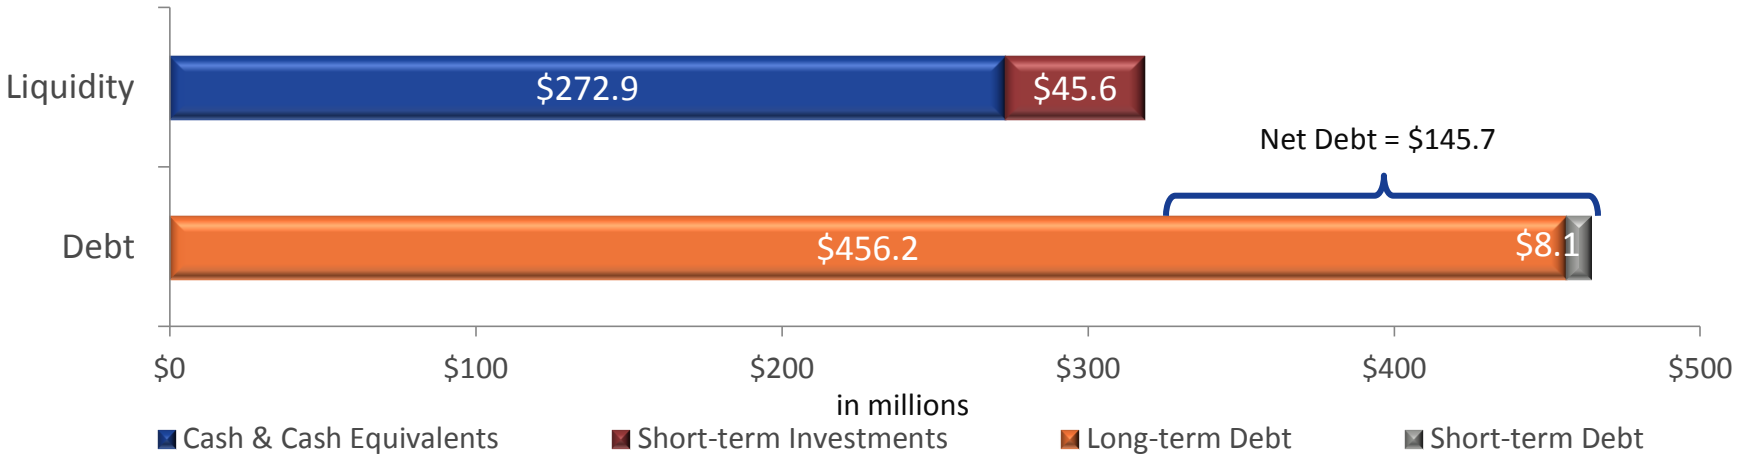

Acquisition Priorities

- Primary focus on immediate/near-term cash flow generators
- Provide further asset diversification
- Expected returns must exceed cost of capital and improve overall cost profile
- Low-risk jurisdictions

Coeur Capital

- Wholly-owned streaming/royalty company est. in late 2013
- Provides high-margin, stable cash flow to supplement traditional operating business
- Holds strategic investments in ten earlier-stage precious metals companies
- Expect to add to the portfolio during 2014

Well-Capitalized with Financial Flexibility and Low Net Debt

As of March 31, 2014.

Summary balance sheet *(in millions)*	Jun 30, 2013	Sep 30, 2013	Dec 31, 2013	Mar 31, 2014
Cash, cash equivalents, and short-term investments	$249.5	$211.4	$206.7	$318.6
Total debt	$312.1	$310.2	$308.6	$464.2
Net debt	$62.5	$98.8	$101.9	$145.7
LTM EBITDA[1]	$274.9	$232.4	$192.8	$147.2
Total Debt / EBITDA[1]	1.1x	1.3x	1.6x	3.2X
Net Debt / EBITDA[1]	0.2x	0.4x	0.5x	1.0x

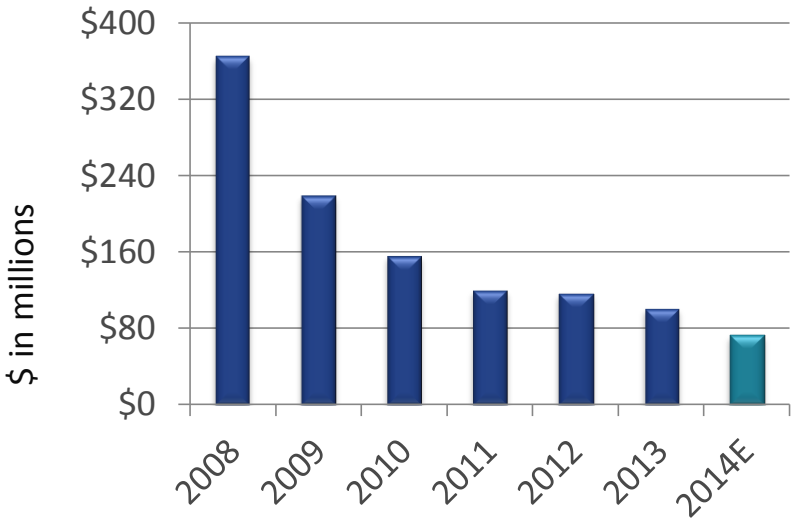

1. See non-GAAP reconciliation tables in the appendix to this presentation.

Cash Flow Protection Strategy

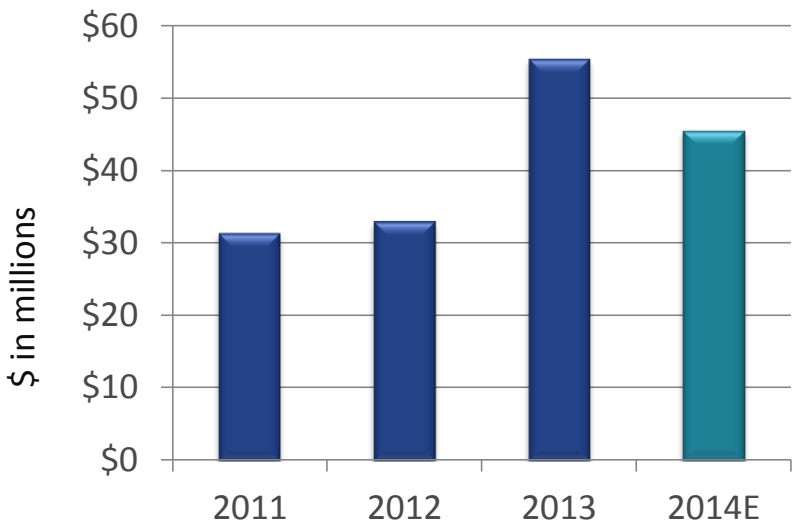

- Coeur continues to maintain a targeted cash flow protection program with the following objectives:
  - Maintain simplicity
  - Protect downside metal price exposure while retaining the upside potential
  - Purchase put options to protect some of expected production against a sharp drop in metal prices
  - Sell intra-quarter out-of-the money call options when appropriate to offset the cost of puts
  - Avoid margin agreements
- Hedges in place for each quarter through 1Q 2015 production:
  - Put spreads covering 1.25 million ounces of silver each quarter
    - Buyer of put options with $18/oz strike price
    - Seller of put options with $16/oz strike price
  - Put spreads covering 25,000 ounces of gold each quarter (24,000 for 1Q 2015)
    - Buyer of put options with $1,200/oz strike price
    - Seller of put options with $1,050/oz strike price

Capex Significantly Reduced; G&A Expenses Trending Down

Capital Expenditures

General & Administrative Expenses

- No major capital projects in progress; 2014 capex forecast is primarily maintenance related
- Investments in administrative infrastructure have increased G&A compared to pre-2013 levels
  - Established capital projects and operations support groups
  - Upgraded information technology systems
  - Developed best practices including a more robust way to centralize our planning, standardize procedures, and capture data to track progress, monitor costs, and identify opportunities to become more efficient
  - Scalable model can better support future growth in the organization

Investments in G&A are key to reducing and managing risk and lowering operating expenses

2014E represents the midpoint of guidance published by Coeur on May 7, 2014.

Existing Assets: Operating Performance and Outlook

Key Focal Points for 2014

Palmarejo

- Transitioning to expected higher-grade, higher-margin operation
- Costs are trending down
- Guadalupe development in progress with selective, high-grade mine plan
- Currently developing new life-of-mine plan
- New FNV gold stream
- Exploration success

San Bartolomé

- Higher production expected in remaining quarters of 2014
- Expect continued stability in grade, recoveries, costs and cash flow

Kensington

- Mill throughput tracking significantly higher than recent quarters by design
- Successfully identifying high-grade mineralization through ongoing exploration programs
- Strong free cash flow generation - highest in three years in 1Q 2014

Rochester

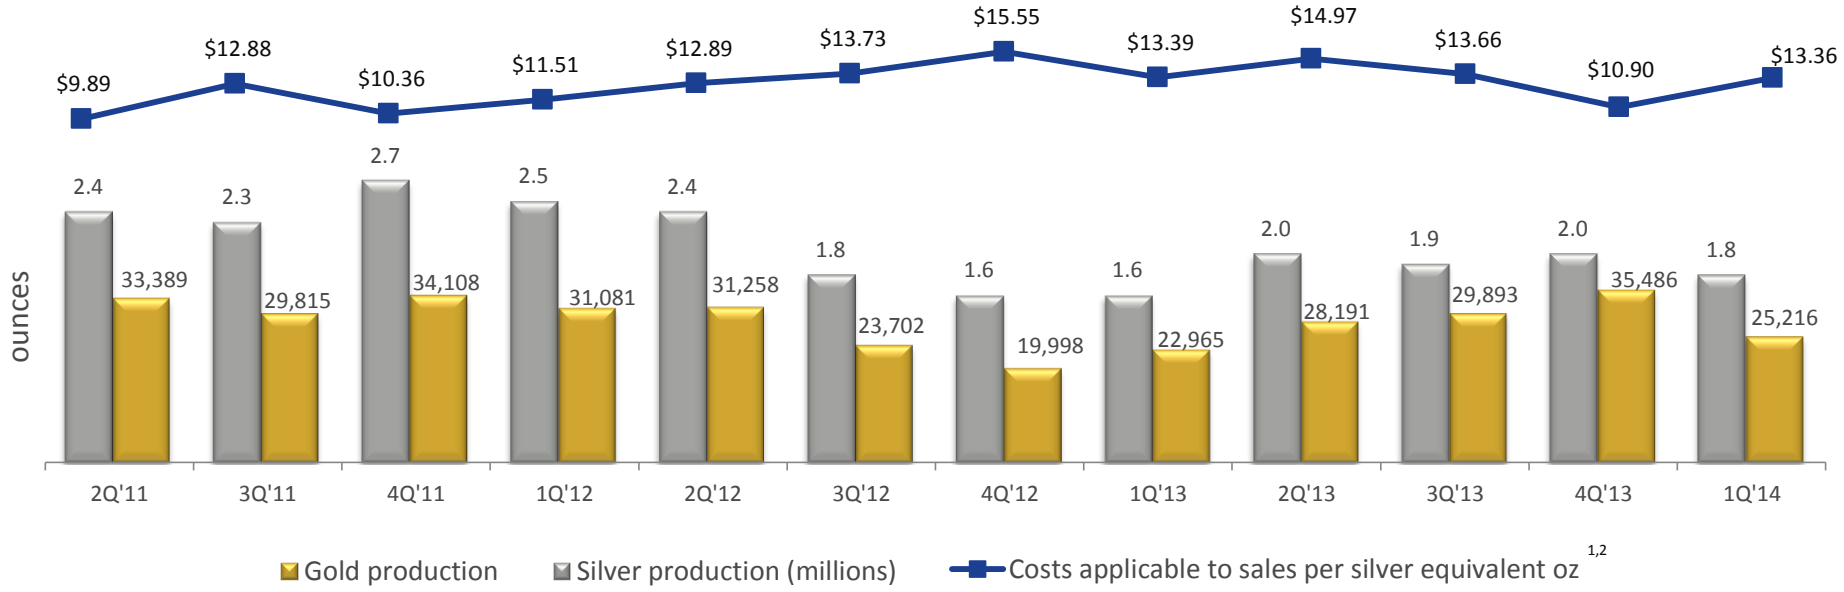

- 2014 silver production expected to increase ~50% over 2013
- 1Q 2014 costs applicable to sales per AgEq ounce[1] 24% lower than 4Q 2013
- Expect continued strong cost performance y-o-y as production ramps up
- Pursuing permits for further expansion and extension of mine life

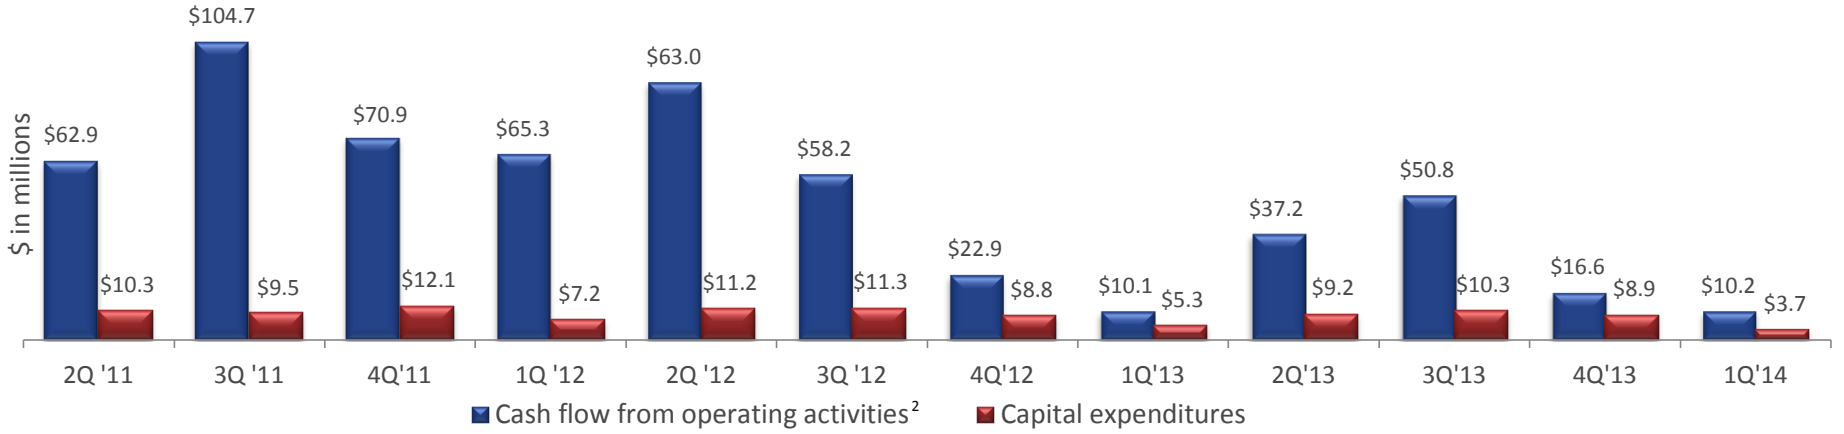

Production guidance as published by Coeur on May 7, 2014.

1. See non-GAAP reconciliation tables in the appendix to this presentation.

Palmarejo: Improving Operational Consistency

1. See non-GAAP reconciliation tables in the appendix to this presentation. Per silver equivalent ounce assumes 60:1 ratio.
2. Excludes gold production royalty payments to Franco Nevada.

New Mine Plan to Rejuvenate Guadalupe

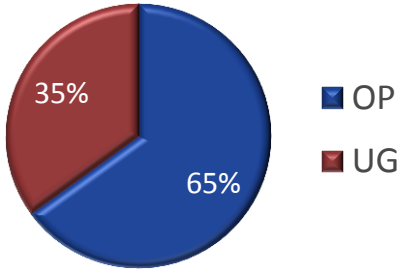

- Coeur announced on June 23 plans to complete development of the nearby Guadalupe deposit based on a selective, high-grade mine plan
  - Reflects Coeur's strategy to transition Palmarejo to a higher-margin, underground operation
  - Guadalupe holds a majority of Palmarejo's underground reserves and resources
  - There is potential for additional mine life at Guadalupe based on high-grade, near-mine inferred resources and recent drill results
- Coeur has entered into letters of intent with Franco-Nevada for a new agreement following the completion of the minimum obligation under the current royalty stream agreement
  - Coeur will pay $2 million to terminate the existing royalty stream agreement
  - The new gold stream agreement provides for a $22 million contribution by Franco-Nevada to help fund development of Guadalupe
  - The cost contribution by Franco-Nevada for 50% of the gold production from Palmarejo will be $800 per ounce, compared to $408 per ounce in the existing agreement
  - The new gold stream agreement is expected to result in increased annual cash flow to Coeur, which facilitates a longer mine life at Palmarejo
- The mine plan for Guadalupe has an expected $NPV_{10\%}$ of $25 million after giving effect to the new Franco-Nevada agreement

Note: Assumes metal prices of $20/ounce for silver and $1,300/ounce for gold.

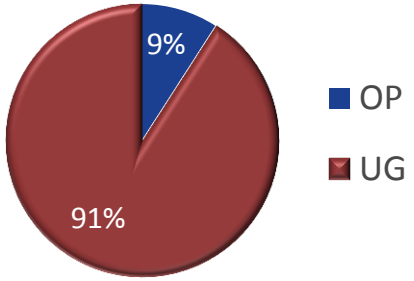

Increasing Underground Ore and New Gold Stream Agreement Expected to Unlock Value at Palmarejo

Higher proportion of underground ore tons expected to increase margins

2014 Expected Tons Milled

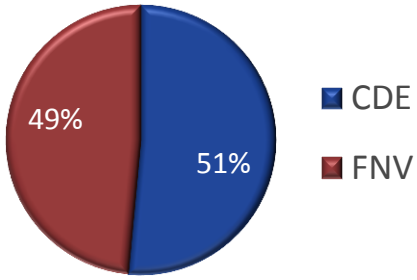

2014 Expected Operating Profit

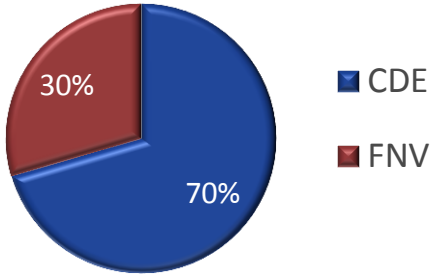

2013 cash flow from operations to Coeur would have been ***$22 million higher*** *if operating under proposed terms of new gold stream agreement*

2013 Cash Flow from Operations Received from Palmarejo

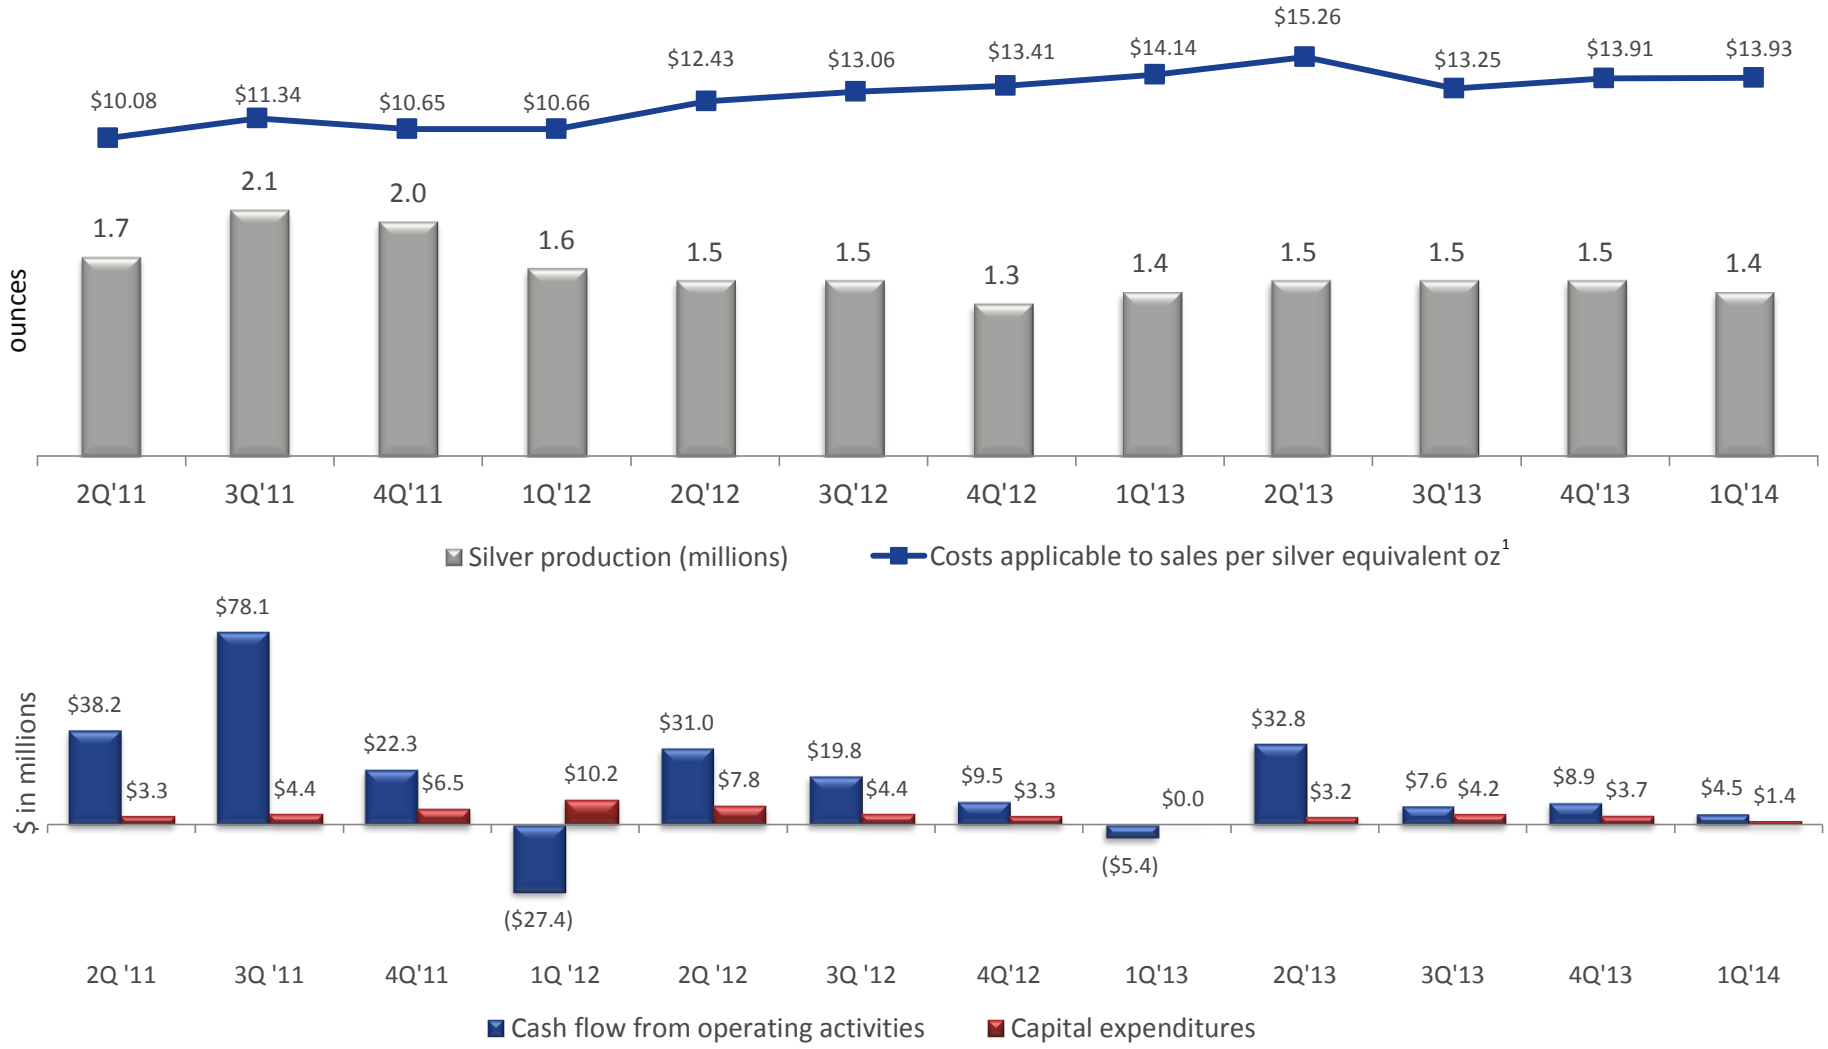

2013 Cash Flow from Operations Received from Palmarejo if New Gold Stream Agreement was in Place[1]

1. Represents 2013 cash flow from operations pro-forma after giving effect to proposed terms of the new gold stream agreement with Franco-Nevada.

San Bartolomé: Expect Continued Stable Production and Costs in 2014

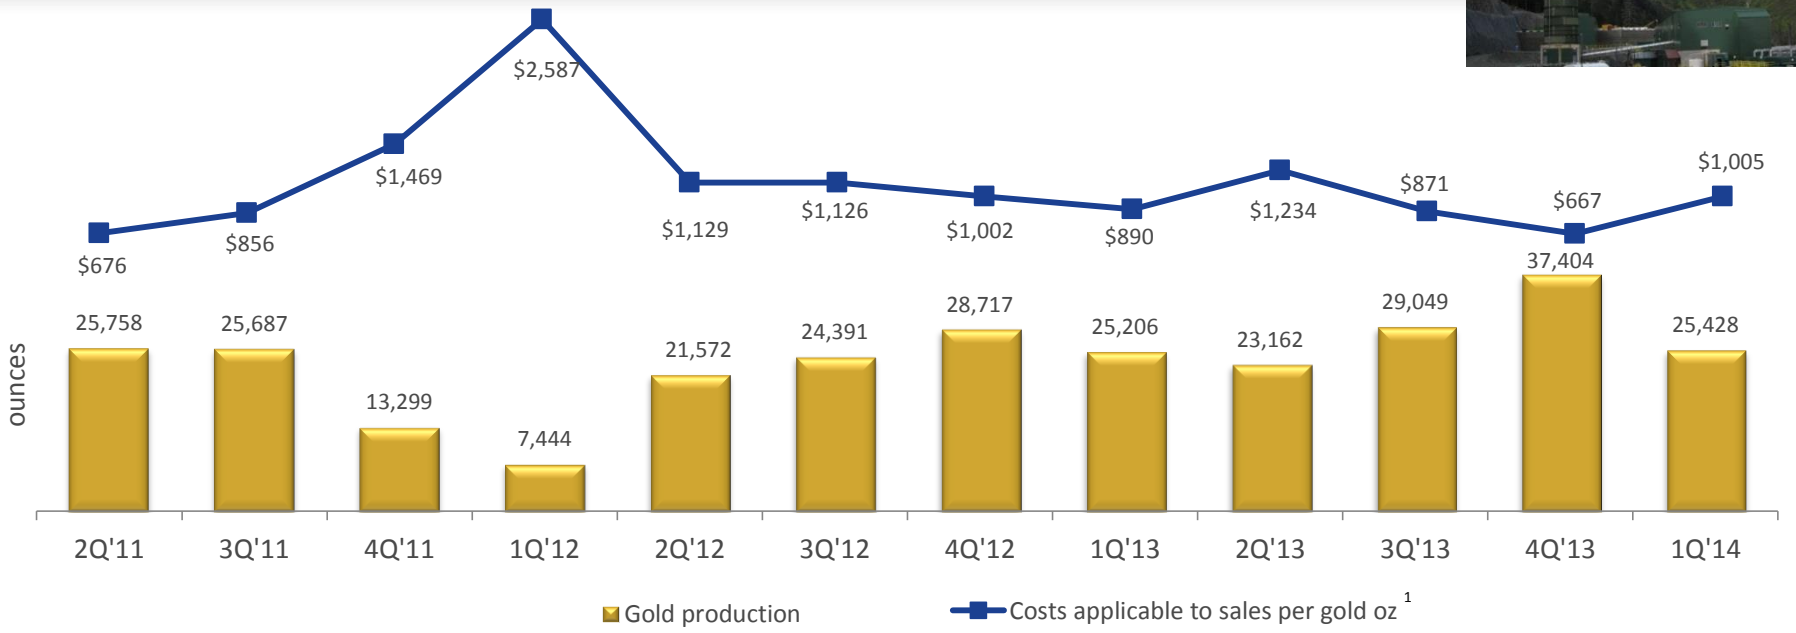

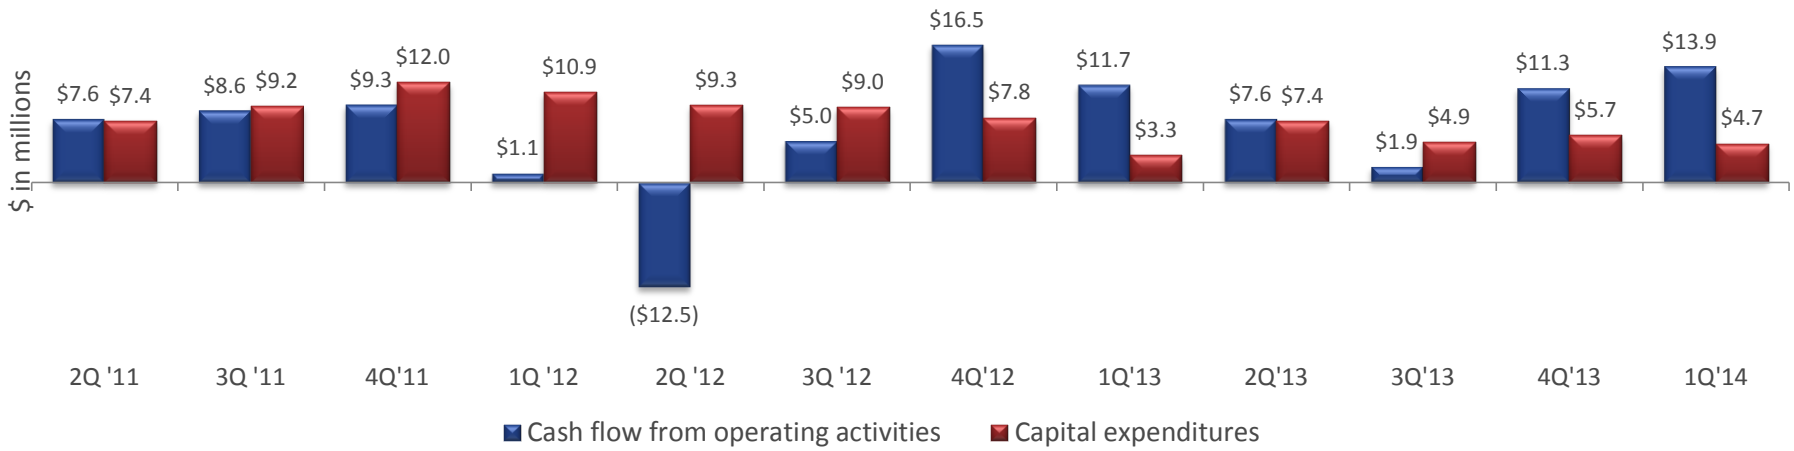

1. See non-GAAP reconciliation tables in the appendix to this presentation. Per silver equivalent ounce assumes 60:1 ratio.

Kensington: Higher Throughput Expected to Offset Lower Grade in 2014

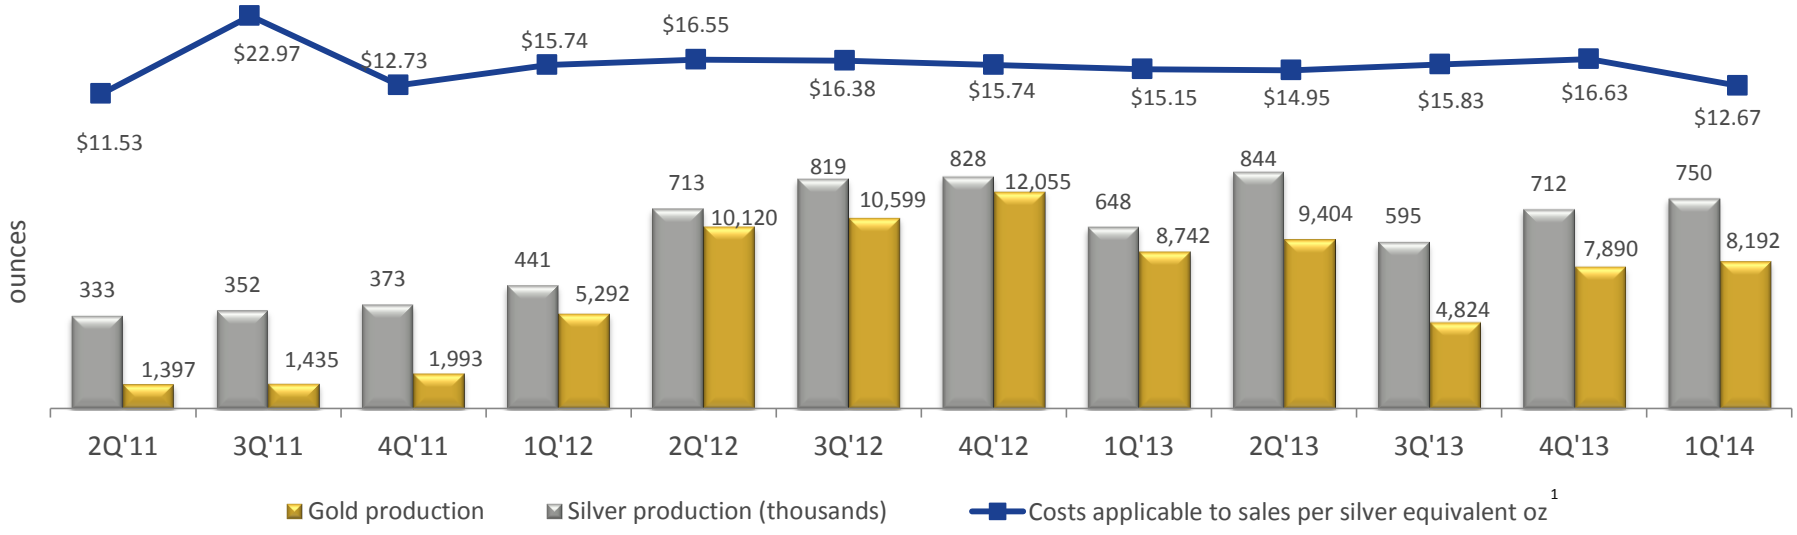

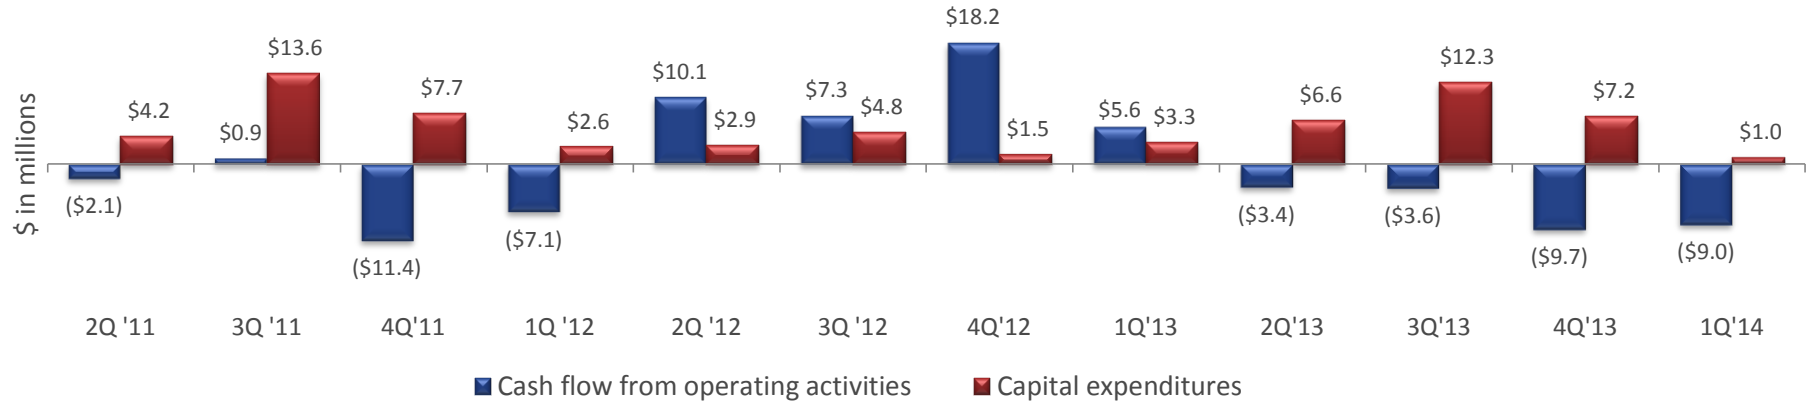

1. See non-GAAP reconciliation tables in the appendix to this presentation.

Rochester: Higher Silver and Gold Production and Lower Costs Expected in 2014

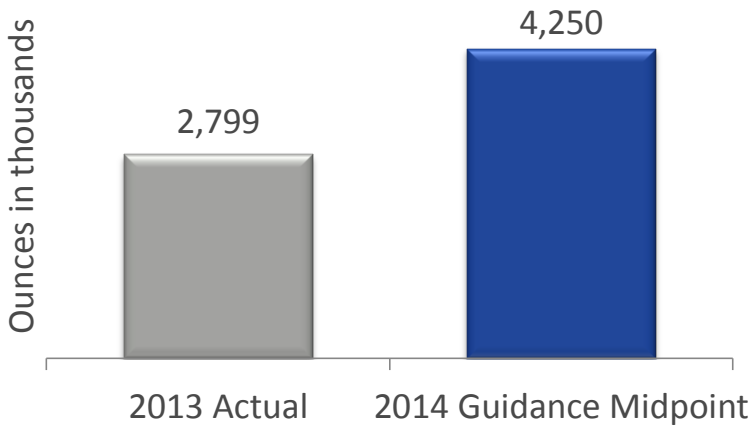

1. See non-GAAP reconciliation tables in the appendix to this presentation. Per silver equivalent ounce assumes 60:1 ratio.

Rochester Ramp Up Continues at Lower Expected Costs

Recent Accomplishments

- ✓ 126% increase in silver reserves in 2013
- ✓ 121% increase in gold reserves in 2013
- ✓ Completed Stage 3 leach pad expansion
- ✓ Upgraded crusher circuit: commissioned new in-pit crusher and added metal removal system to primary crushing plant
- ✓ Added to the mine fleet to drive efficiencies and lower unit costs
- ✓ Completed process optimization: added 5th filter press and improved solution management
- ✓ Momentum building in 2014 with 1Q tons placed up 16% over 4Q; daily silver production reached 13,000 ounces by early April
- ✓ 1Q 2014 costs applicable to sales per AgEq ounce[1] 16% lower than 1Q 2013 and 24% lower than 4Q 2013

~50% Silver Production Growth Expected in 2014

2014 guidance published by Coeur on May 7, 2014.

Significant Mine Life with Low Capital Required

- ✓ Current reserves imply ~20 year mine-life based on 2014 expected production
- ✓ Permitting in process for further leach pad expansion at low expected capital cost

Path forward for Rochester becoming more visible with fewer uncertainties

1. See non-GAAP reconciliation tables in the appendix to this presentation. Per silver equivalent ounce assumes 60:1 ratio.

Rochester LOM Plan Summary

Significant increase in reserves, upgrades in crushing circuit, and expanded leach pad capacity have extended mine life resulting in a 67% increase in projected total net cash flow[1]

tons and oz in thousands, $ in millions	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	Total
Tons Processed	14,235	15,900	15,900	16,520	16,520	20,020	20,020	20,020	20,020	20,020	8,058	187,234

Coeur's Inferred Mineral Resources 2013

Year-end 2013	Location	Short tons	Grade (oz/ton)		Ounces (contained)	
			Silver	Gold	Silver	Gold
Inferred Resources						
Rochester	Nevada, USA	37,365,000	0.62	0.003	23,295,000	101,000
Martha	Argentina	204,000	4.75	0.005	969,000	1,000
San Bartolomé	Bolivia	3,683,000	1.26	—	4,638,000	—
Kensington	Alaska, USA	1,014,000	—	0.259	—	263,000
Endeavor	Australia	1,653,000	2.86	—	4,726,000	—
Palmarejo	Mexico	11,611,000	1.91	0.053	22,188,000	621,000
Joaquin	Argentina	1,022,000	3.02	0.004	3,084,000	4,000
Lejano	Argentina	3,307,000	1.73	0.006	5,713,000	19,000
La Preciosa	Mexico	16,791,000	1.89	0.003	31,810,000	49,000
Total Inferred Resources		**76,650,000**			**96,423,000**	**1,058,000**

Notes to the above mineral reserves and resources:

1. Effective December 31, 2013 except Endeavor, effective June 30, 2013.
2. Metal prices used for mineral reserves were $25.00 per ounce of silver and $1,450 per ounce of gold, except Endeavor, at $2,300 per metric ton of lead, $2,300 per metric ton of zinc, and $34.00 per ounce of silver. Metal prices used for mineral resources were $29.00 per ounce of silver and $1,600 per ounce of gold, except for Endeavor, at $2,300 per metric ton of lead, $2,300 per metric ton of zinc and $34.00 per ounce of silver.
3. Palmarejo mineral resources are the addition of Palmarejo, Guadalupe, and La Patria (measured, indicated, and inferred).
4. Kensington proven and probable reserves adjusted April 2014 to reduce the grade of internal dilution to zero.
5. Mineral resources are in addition to mineral reserves and have not demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves.
6. Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
7. For details on the estimation of mineral resources and reserves for each property, please refer to the relevant NI 43-101-compliant Technical Report on file at www.sedar.com.

Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. Mr. Krebs joined Coeur in 1995 after spending several years in the investment banking industry in New York. Mr. Krebs has held various positions in the corporate development department, including Senior Vice President of Corporate Development. In March, 2008, Mr. Krebs was named Chief Financial Officer, a position he held until being appointed President and CEO in July 2011.

Peter C. Mitchell – Senior Vice President and Chief Financial Officer. Mr. Mitchell came to Coeur from Taseko Mines Limited where he served as Chief Financial Officer, leading Taseko's financial operations, including sourcing strategic capital to fund the company's strategic growth plan. Previously, Mr. Mitchell was involved in leading and managing growth in private equity portfolio companies through acquisitions, integrations and greenfield initiatives.

Frank L. Hanagarne, Jr. – Senior Vice President and Chief Operating Officer. Mr. Hanagarne was most recently Chief Operating Officer of Valcambi, SA, a precious metal refiner in Switzerland. Prior to his appointment as operations head of Valcambi in early 2011, Mr. Hanagarne was a Director of Corporate Development for Newmont Mining Corporation. Mr. Hanagarne's 17 years of service at Newmont has included positions of increasing responsibility within key areas of Newmont's operations and business functions as well as environmental, health and safety.

Joe Phillips – Senior Vice President and Chief Development Officer. Mr. Phillips has extensive experience in mine development and operations and has a proven record of leadership and team building resulting in successfully building mines on time and on budget. Mr. Phillips comes to Coeur from Silver Standard Resources where he served as Senior Vice President of Operations and Development and acting Chief Operating Officer. Prior to that, Mr. Phillips served as Senior Vice President of Project Development at Pan American Silver.

Humberto Rada – President, Coeur South America and of Coeur's Bolivian subsidiary Empresa Minera Manquiri, S.A. Prior to joining Coeur in July 2008, Mr. Rada served as General Manager for Newmont Mining Corporation's Bolivian company Inti Raymi. Mr. Rada is currently President of Bolivia's National Mining Association and has over 23 years of experience in South American mining and finance.

Mike Harrison – Vice President, Business Development. Prior to joining Coeur, Mr. Harrison was Director of Investment Banking for the Mining Group at Cormark Securities Inc. in Toronto, Canada. In addition to seven years of investment banking experience, Mr. Harrison spent eight years in BHP Billiton's Global Exploration Group.

Keagan J. Kerr – Vice President, Human Resources and Communication. Mr. Kerr leads the organization in all aspects of human resource and corporate communication programs across Coeur's operating regions-including employee and public relations, executive compensation, talent attraction, leadership development and strengthening of organization capability. He has a track record of accomplishment in large scale mining operations on multiple continents through various leadership roles with Barrick Gold Corporation.

Casey M. Nault – Vice President, General Counsel and Secretary. Mr. Nault has extensive experience as a corporate and securities lawyer, including prior in-house positions with Starbucks and Washington Mutual and law firm experience with Graham & Dunn in Seattle and Gibson, Dunn & Crutcher in Los Angeles. His experience includes securities compliance and SEC reporting, corporate governance, mergers and acquisitions, public and private securities offerings and other strategic transactions.

Hans Rasmussen – Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco and Quadra Mining. Since 2004, he has been an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia.

Board of Directors

Robert E. Mellor – Former Chairman, Chief Executive Officer and President of Building Materials Holding Corporation (distribution, manufacturing and sales of building materials and component products) from 1997 to January 2010, director from 1991 to January 2010; member of the board of directors of The Ryland Group (national residential home builder) since 1999; member of the board of directors of Monro Muffler Brake, Inc. (auto service provider) since August 2010 and lead independent director since April 2011; and member of the board of directors of Stock Building Supply Holdings, Inc. (lumber and building materials distributor) since March 2010.

Mitchell J. Krebs – President and Chief Executive Officer. (See prior slide)

Linda L. Adamany – Member of the board of directors of Leucadia National Corporation, a diversified holding company engaged in a variety of businesses, since March 2014; member of the board of directors of AMEC, plc, an engineering, project management and consultancy company, since October 2012; member of the board of directors of National Grid plc, an electricity and gas generation, transmission and distribution company, from November 2006 to November 2012. Served at BP plc in several capacities from July 1980 until her retirement in August 2007, most recently from April 2005 to August 2007 as a member of the five-person Refining & Marketing Executive Committee responsible for overseeing the day-to-day operations and human resource management of BP plc's Refining & Marketing segment, a $45 billion business at the time.

Kevin S. Crutchfield –Chairman and Chief Executive Officer of Alpha Natural Resources, Inc. (NYSE:ANR). He has been with Alpha Natural Resources since its formation in 2003, serving as Executive Vice-President, President, Director, Chief Executive Officer and most recently the additional responsibility of Chairman. Mr. Crutchfield is a 25-year coal industry veteran with technical, operating and executive management experience and is currently the Vice Chairman of the National Mining Association and the American Coalition for Clean Coal Electricity.

Sebastian Edwards – Henry Ford II Professor of International Business Economics at the Anderson Graduate School of Management at the University of California, Los Angeles (UCLA) from 1996 to present; Chairman of the Inter American Seminar on Economics from 1987 to present; member of the Scientific Advisory Council of the Kiel Institute of World Economics in Germany from 2002 to present; and research associate at the National Bureau of Economic Research from 1981 to present.

Randolph E. Gress – Chairman, Chief Executive Officer, and Director of Innophos Holdings, Inc., a leading international producer of performance-critical and nutritional specialty ingredients for the food, beverage, dietary supplements, pharmaceutical and industrial end markets. Mr. Gress has been with Innophos since its formation in 2004 when Bain Capital purchased Rhodia SA's North American specialty phosphate business. Prior to his time at Innophos, Mr. Gress was with Rhodia since 1997 and held various positions including Global President of Specialty Phosphates (with two years based in the U.K.) and Vice-President and General Manager of the NA Sulfuric Acid and Regeneration businesses. From 1982 to 1997, Mr. Gress served in various roles at FMC Corporation including Corporate Strategy and various manufacturing, marketing, and supply chain positions.

John H. Robinson – Chairman of Hamilton Ventures LLC (consulting and investment) since founding the firm in 2006. Vice Chairman of Olsson Associates (engineering consultants) from 2004 to 2005. Chairman of EPCglobal Ltd. (professional engineering staffing) and Executive Director of MetiLinx Ltd. (software) from 2003 to 2004. Executive Director of Amey plc (business process outsourcing and construction) from 2000 to 2002.

J. Kenneth Thompson – President and Chief Executive Officer of Pacific Star Energy LLC (private energy investment firm in Alaska) from September 2000 to present, with a principal holding in Alaska Venture Capital Group LLC (private oil and gas exploration company) from December 2004 to present; Executive Vice President of ARCO's Asia Pacific oil and gas operating companies in Alaska, California, Indonesia, China and Singapore from 1998 to 2000.
