Rodman & Renshaw Global Investment Conference

COEUR MINING®

NYSE: CDE

Bridget Freas, Director, Investor Relations

New York, New York

September 9, 2014

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements regarding anticipated production, costs, expenses, capital and exploration expenditures, amortization, and exploration and development efforts, expectations regarding recovery rates, grade, throughput, crushing rates, margins, cash flow, mine plans, mine life, cost improvements, capital deployment, acquisition pipeline, minimizing and mitigating risks, the Rochester and Palmarejo mines (including the new agreement with Franco-Nevada), the La Preciosa project, and initiatives to maximize cash flow and minimize exposure to declining metal prices. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause Coeur's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), changes in the market prices of gold and silver and a sustained lower price environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions, grade variability, any future labor disputes or work stoppages, the uncertainties inherent in the estimation of gold and silver ore reserves, changes that could result from Coeur's future acquisition of new mining properties or businesses, reliance on third parties to operate certain mines where Coeur owns silver production and reserves and the absence of control over mining operations in which Coeur or its subsidiaries hold royalty or streaming interests and risks related to these mining operations including results of mining and exploration activities, environmental, economic and political risks of the jurisdiction in which the mining operations are located, the loss of any third-party smelter to which Coeur markets silver and gold, the effects of environmental and other governmental regulations, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt, as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Form 10-K and Form 10-Q. Actual results, developments and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward-looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

W. David Tyler, Coeur's Vice President, Technical Services and a qualified person under Canadian National Instrument 43-101, supervised the preparation of the scientific and technical information concerning Coeur's mineral projects in this presentation. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. Insofar as the re-scoped Palmarejo mine plan referenced herein is a preliminary economic assessment that is based, in part, on inferred mineral resources, the re-scoped mine plan does not have as high a level of certainty as would a plan that was based solely on proven and probably reserves. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, please refer to the relevant NI 43-101-compliant Technical Report on file at www.sedar.com and the new Technical Report for the La Preciosa feasibility study to be filed on or prior to September 14, 2014 on www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at http://www.sec.gov.

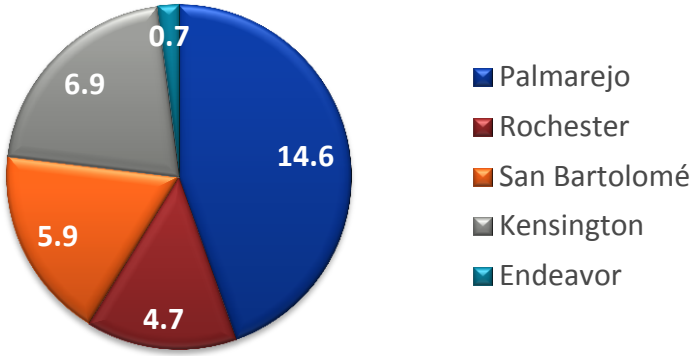

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including adjusted EBITDA, adjusted net loss, all-in sustaining costs, and cost applicable to sales per silver equivalent ounce. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted EBITDA, adjusted net loss, all-in sustaining costs, and costs applicable to sales per silver equivalent ounce are important measures in assessing the Company's overall financial performance. Silver equivalence assumes silver to gold ratio of 60:1.

Key Investment Considerations

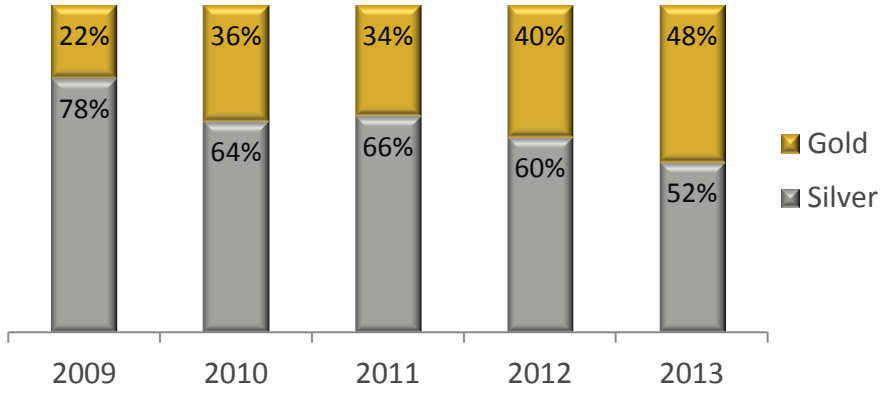

Leading Producer of Silver and Gold

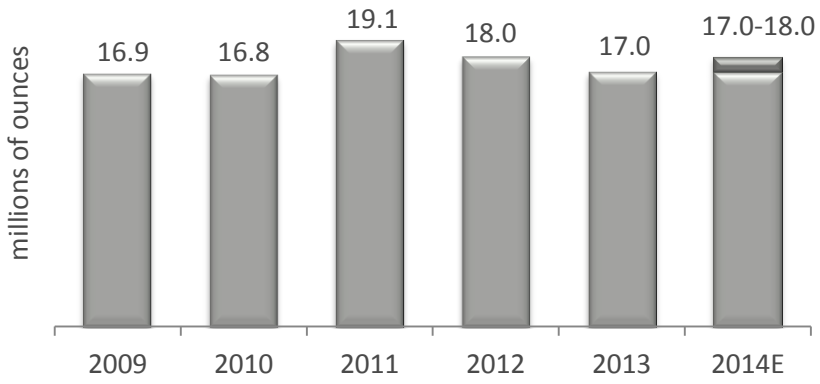

2013 Silver Equivalent Production by Mine
(millions of ounces)

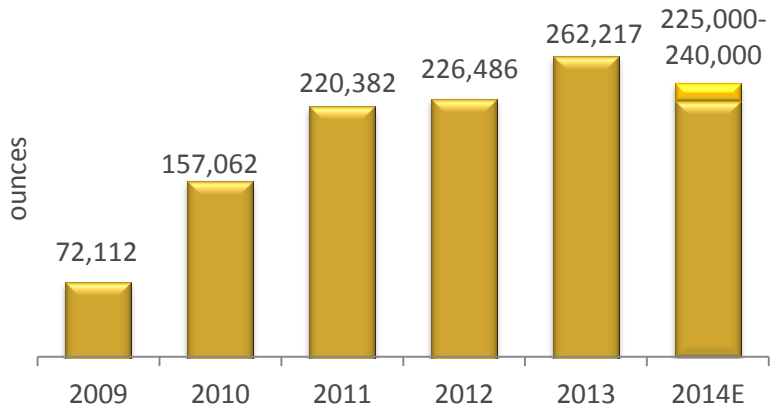

Revenue by Metal

Silver Production

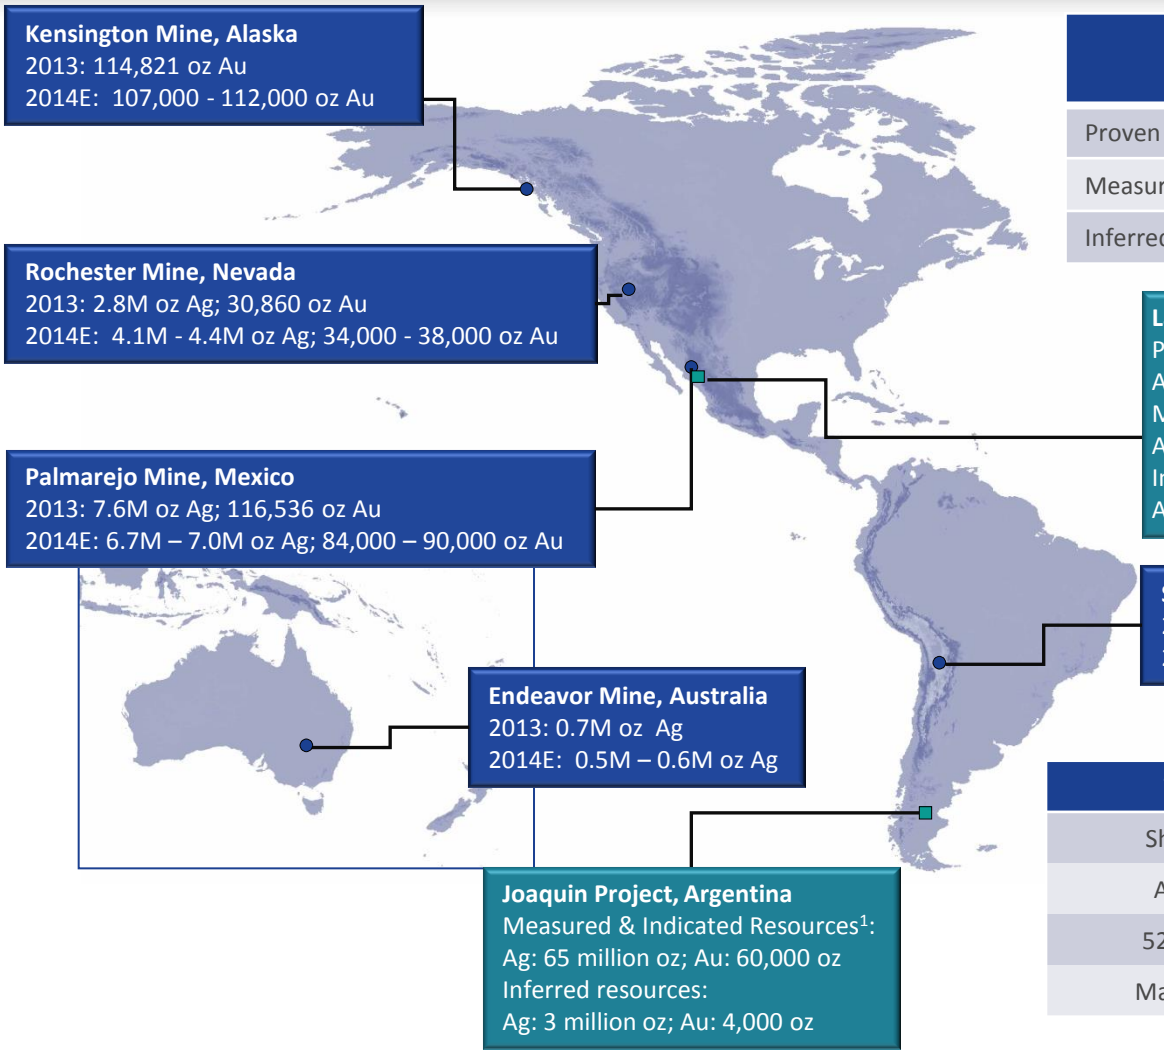

Gold Production

2014 guidance published by Coeur on August 6, 2014.

Portfolio Includes 2 of the Top 15 Largest Primary Silver Mines

Total[1]	Silver Ounces (000s)	Gold Ounces (000s)
Proven & Probable Reserves	381,839	2,361
Measured & Indicated Resources	309,176	2,326
Inferred Resources	69,318	1,017

Ticker: Exchange	CDE: NYSE
Shares Outstanding[2]	103.5M
Avg. Daily Volume[3]	$11.6M
52-week Low – High[3]	$6.62 - $15.83
Market Capitalization[3]	$815M

Guidance as published by Coeur on August 6, 2014.

1. Mineral reserves and resources effective December 31, 2013 except Endeavor, effective June 30, 2013, and La Preciosa, effective July 29, 2014. See slides in the Appendix for tons and grade pertaining to mineral reserves and resources. For details on the estimation of mineral resources and reserves for each property, please refer to the applicable Technical Report on file at www.sedar.com and the Technical Report for the La Preciosa feasibility study to be filed on or prior to September 14, 2014 on www.sedar.com.
2. As of 8/6/14.
3. As of 8/27/14. Based on stock price of $7.87.

Recent Goals and Achievements

Execute Rochester production ramp up	✓ Rochester production increased 48% and 13% for silver and gold, respectively, compared to 1Q 2014
Reduce burden on Palmarejo's cash flow	✓ New stream agreement with Franco-Nevada expected to significantly improve mine's cash flow once the minimum obligation is met under the current agreement
Provide clear long-term plan for Palmarejo	✓ Provided re-scoped, higher-margin, higher-grade mine plan for Palmarejo including development of the Guadalupe underground mine
Complete feasibility study at La Preciosa and make prudent decision	✓ Announced results of La Preciosa feasibility study and decision to defer construction until project demonstrates high return for stockholders

Business Profile and Strategy

Seeking to Create Balanced Pipeline of High-Return, Low-Risk Precious Metals Assets to Supplement Existing Asset Portfolio and Maximize Net Cash Flow

Internal Pipeline

Early Stage Exploration

- Goal of advancing early stage properties to next generation of mines over time
- Source of highest returns for stockholders
- Significant ongoing exploration investment around existing operations
- Recent alliances / lease agreements established in Nevada
- Focus on existing jurisdictions and Peru

Development Projects

- Completing development of Guadalupe deposit at Palmarejo
- Planning for future Rochester expansion
- La Preciosa silver-gold project in Mexico: Announced results of feasibility study, decision to defer construction, and declared reserves
- Joaquin silver-gold project in Argentina: feasibility study on hold until political climate improves

Operating Assets

- Provide consistent and sizeable production profile
- Costs have been declining
- Long mine lives
- Rochester ramp-up proceeding according to plan
- Palmarejo future profile unveiled
- Higher throughput and higher-grade potential are key themes at Kensington

External Pipeline

Acquisition Priorities

- Primary focus on immediate/near-term cash flow generators
- Provide further asset diversification
- Expected returns must exceed cost of capital and improve overall cost profile
- Low-risk jurisdictions

Coeur Capital

- Wholly-owned streaming/royalty company est. in late 2013
- Provides high-margin, stable cash flow to supplement traditional operating business
- Holds strategic investments in a portfolio of earlier-stage precious metals companies
- Expect to add new royalty/streams to the portfolio during 2014

Summary Financial Performance

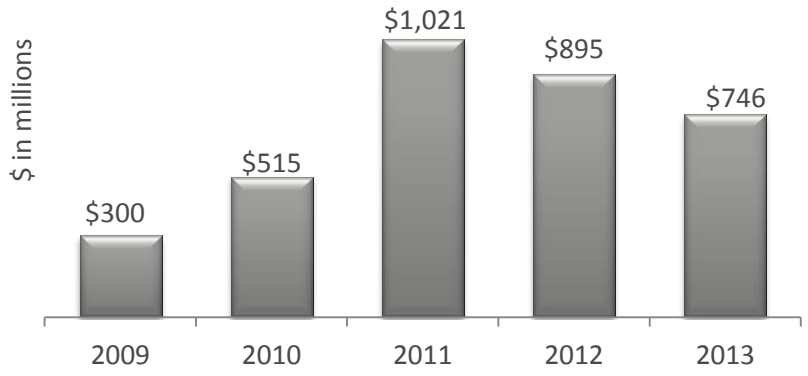

in millions	2011	2012	2013	1Q 2014	**2Q 2014**
Revenue	$1,021.2	$895.5	$746.0	$159.6	**$164.6**
Costs applicable to sales[1]	419.5	454.6	463.7	106.9	**118.7**
Exploration	19.1	26.3	22.4	4.2	**5.2**
General & administrative	31.4	33.0	55.3	13.9	**9.4**
Cash flow from operating activities	416.2	271.6	113.5	(9.6)	**30.5**
Capital expenditures	120.0	115.6	100.8	11.9	**15.4**
Cash, equivalents, & short-term investments	195.3	126.4	206.7	318.6	**316.8**
Total debt	148.5	59.4	308.6	464.2	**480.1**
Net debt	(46.8)	(67.0)	101.9	145.6	**163.3**
Average realized gold price ($/oz)	1,558	1,665	1,387	1,298	**1,277**
Average realized silver price ($/oz)	35.15	30.92	23.14	20.29	**19.60**

- Lower metal prices have impacted revenue and cash flow
- Proactively responded to the market environment by reducing exploration and capex while preserving strong liquidity position and low net debt

1. Excludes amortization.

Financial Performance Highly Dependent on Metal Price

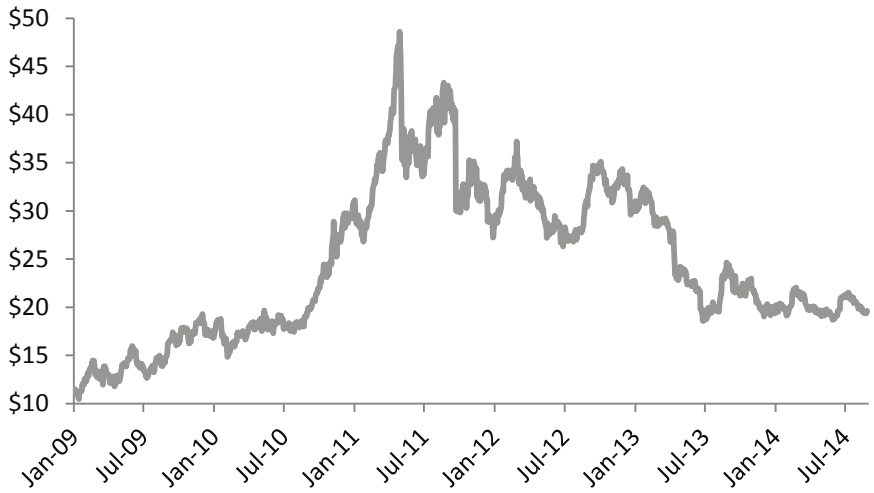

Net Metal Sales

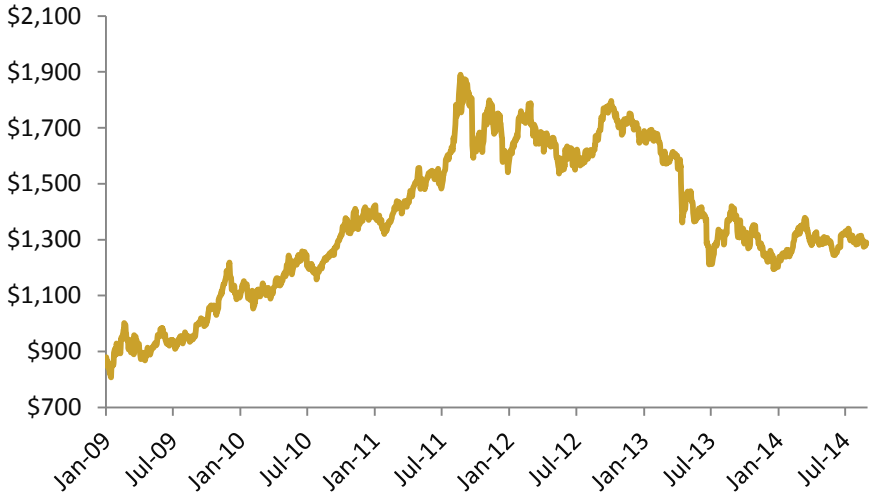

Adjusted EBITDA[1]

Historic Silver Price[2]

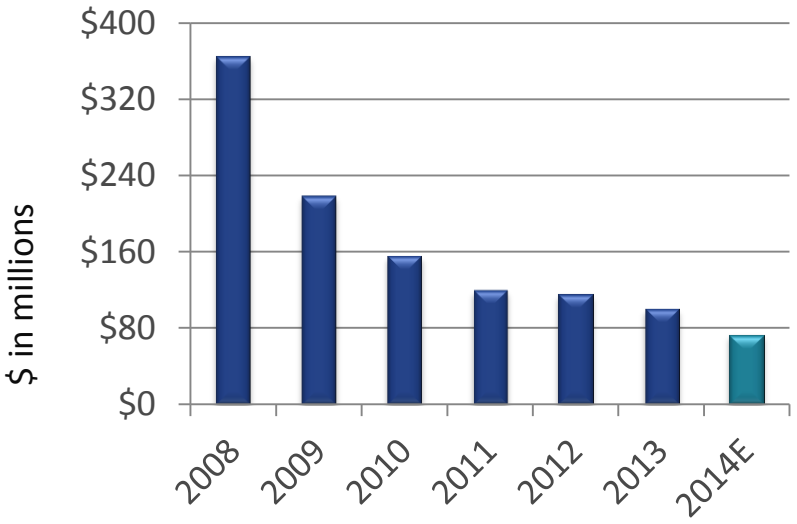

Historic Gold Price[2]

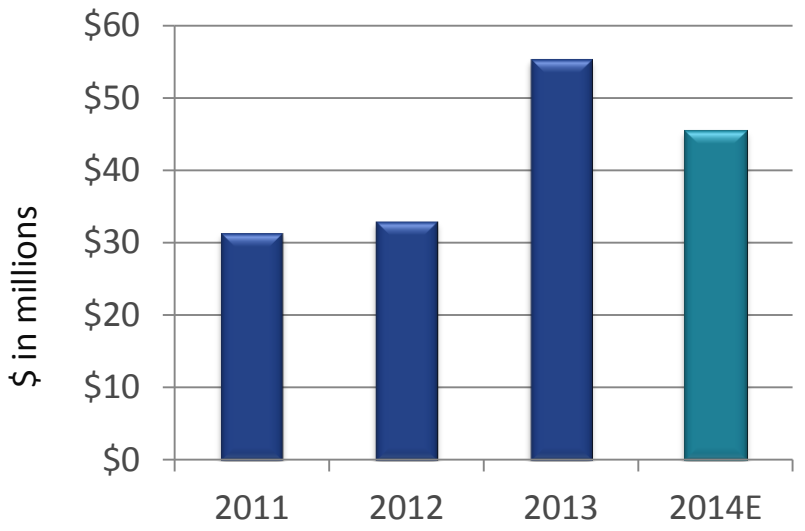

1. Non-GAAP financial measure. See reconciliation table in the appendix.
2. Source: Capital IQ.

Capex Significantly Reduced; G&A Expenses Trending Down

Capital Expenditures

General & Administrative Expenses

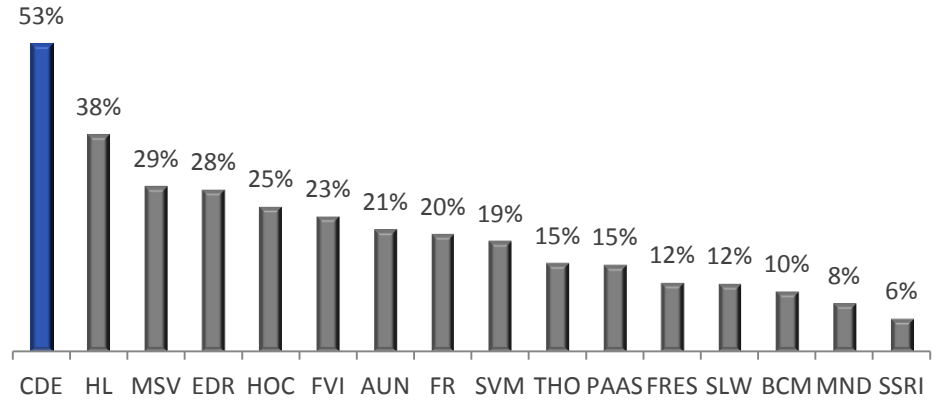

- No major capital projects in progress; 2014 capex forecast is primarily maintenance related
- Investments in administrative infrastructure have increased G&A compared to pre-2013 levels
  - Established capital projects and operations support groups
  - Upgraded information technology systems
  - Developed best practices including a more robust way to centralize our planning, standardize procedures, and capture data to track progress, monitor costs, and identify opportunities to become more efficient
  - Scalable model can better support future growth in the organization

Investments in G&A are key to reducing and managing risk and lowering operating expenses

2014E represents the midpoint of guidance published by Coeur on August 6, 2014.

CDE Provides Superior Leverage to Higher Metal Prices

NPV Sensitivity to 10% Higher Silver Price

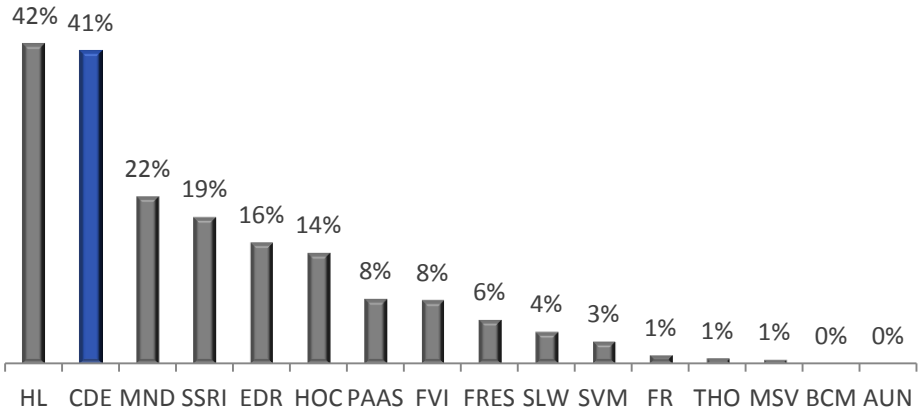

Macro Factors Support Upside Metal Price Potential

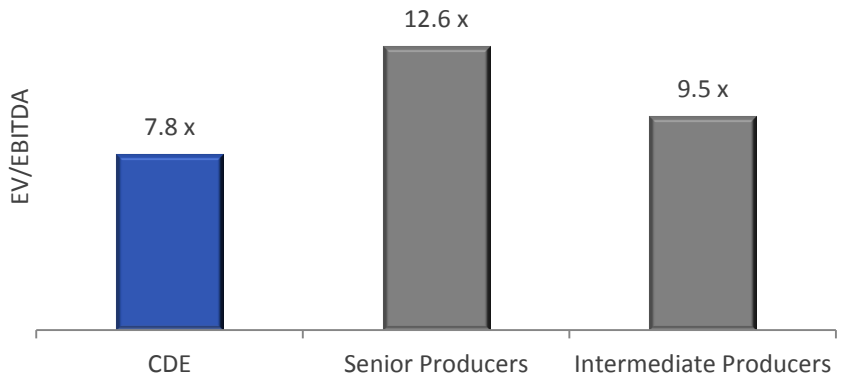

- Inflation concerns; geopolitical tensions
- Rising Asian demand from growing middle class
- Emerging uses for silver:
  - Antimicrobials, mobile devices/laptops, touchscreen technology, automotive, water purification
- Positive supply factors:
  - Declining gold output expected from South America / Oceania
  - Many sizeable silver projects have been recently deferred

Source: Metals Focus.

NPV Sensitivity to 10% Higher Gold Price

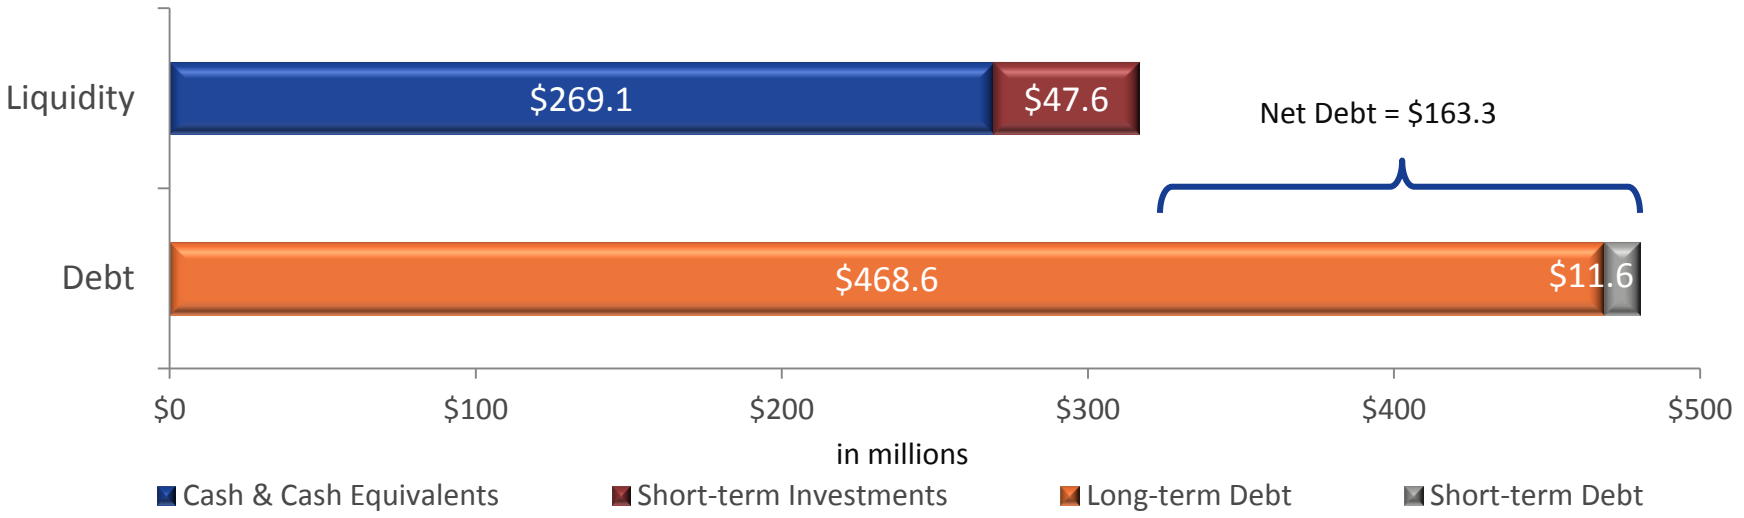

CDE Trades at a Discount to Silver Peers

Source: BMO Capital Markets as of July 2,2014.

Well-Capitalized with Financial Flexibility and Low Net Debt

As of June 30, 2014.

Summary balance sheet *(in millions)*	Sep 30, 2013	Dec 31, 2013	Mar 31, 2014	June 30, 2014
Cash, cash equivalents, and short-term investments	$211.4	$206.7	$318.6	$316.8
Total debt	$310.2	$308.6	$464.2	$480.1
Net debt	$98.8	$101.9	$145.7	$163.3
LTM Adjusted EBITDA[1]	$231.0	$189.3	$143.8	$142.7
Total Debt / Adjusted EBITDA[1]	1.3x	1.6x	3.2x	3.4x
Net Debt / Adjusted EBITDA[1]	0.4x	0.5x	1.0x	1.1x

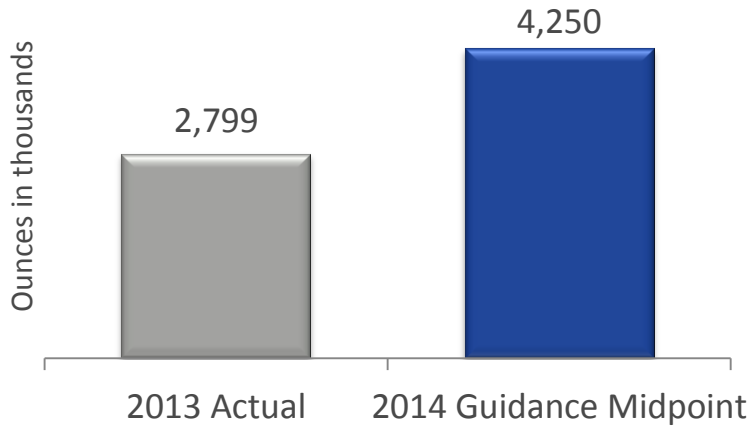

1. See non-GAAP reconciliation tables in the appendix to this presentation.

Rochester Ramp Up Continues at Lower Expected Costs

Recent Accomplishments

- ✓ 126% increase in silver reserves in 2013
- ✓ 121% increase in gold reserves in 2013
- ✓ Completed Stage 3 leach pad expansion
- ✓ Upgraded crusher circuit: commissioned new in-pit crusher and added metal removal system to primary crushing plant
- ✓ Added to the mine fleet to drive efficiencies and lower unit costs
- ✓ Completed process optimization: added 5th filter press and improved solution management
- ✓ Momentum building in 2014 with 1.7 million silver equivalent ounces produced in 2Q, a 34% increase from 1Q 2014

~50% Silver Production Growth Expected in 2014

2014 guidance published by Coeur on August 6, 2014.

Significant Mine Life with Low Capital Required

- ✓ Current reserves imply ~20 year mine-life based on 2014 expected production
- ✓ Permitting in process for further leach pad expansion at low expected capital cost

Path forward for Rochester becoming more visible with fewer uncertainties

Palmarejo Cost Performance and LOM Assumptions

Re-scoped mine plan supports transition to higher-margin, stronger-cash flow operation

	2011	2012	2013	2014E – 2021E
Annual ore tons mined (in thousands)	1,729	2,164	2,323	887
OP mining costs per OP ton mined	$2.54	$1.93	$1.63	$2.10
UG mining costs per UG ton mined	$73	$62	$44	$53[1]
Processing costs per ton processed	$37	$29	$25	$27
G&A per ton processed	$16	$15	$13	$17
CAS per silver equivalent ounce[2]	$11.2	$13.2	**$13.3**	**$11.3**
Annual net cash flow[3]	$134.8	$123.8	**$21.9**	**$29.9**

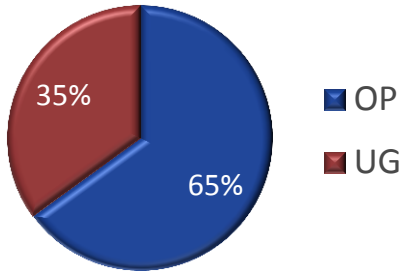

- LOM costs per ton are above historic levels due to the materially reduced throughput, resulting in lower fixed cost absorption
- Higher grades in the re-scoped mine plan are expected to result in declining costs applicable to sales
- Lower capital expenditures and new gold stream agreement expected to result in higher net cash flow at current metal prices, despite lower tons mined

1. Includes $6/ton additional haulage costs to transport ore from Guadalupe.
2. Excludes amortization.
3. In millions. Assumes silver price of $20/oz and gold price of $1,300/oz.

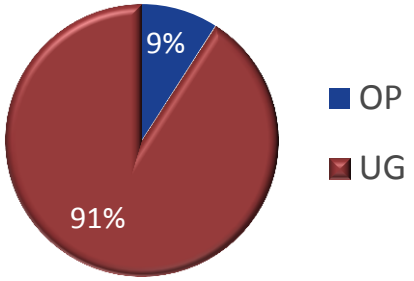

Increasing Underground Ore and New Gold Stream Agreement Expected to Unlock Value at Palmarejo

Higher proportion of underground ore tons expected to increase margins

2014 Expected Tons Milled

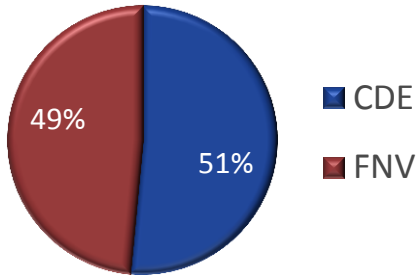

2014 Expected Operating Profit

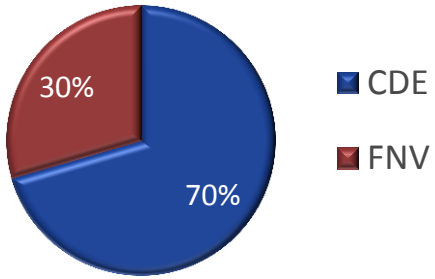

2013 cash flow from operations to Coeur would have been ***$22 million higher*** *if operating under proposed terms of new gold stream agreement*

2013 Cash Flow from Operations Received from Palmarejo

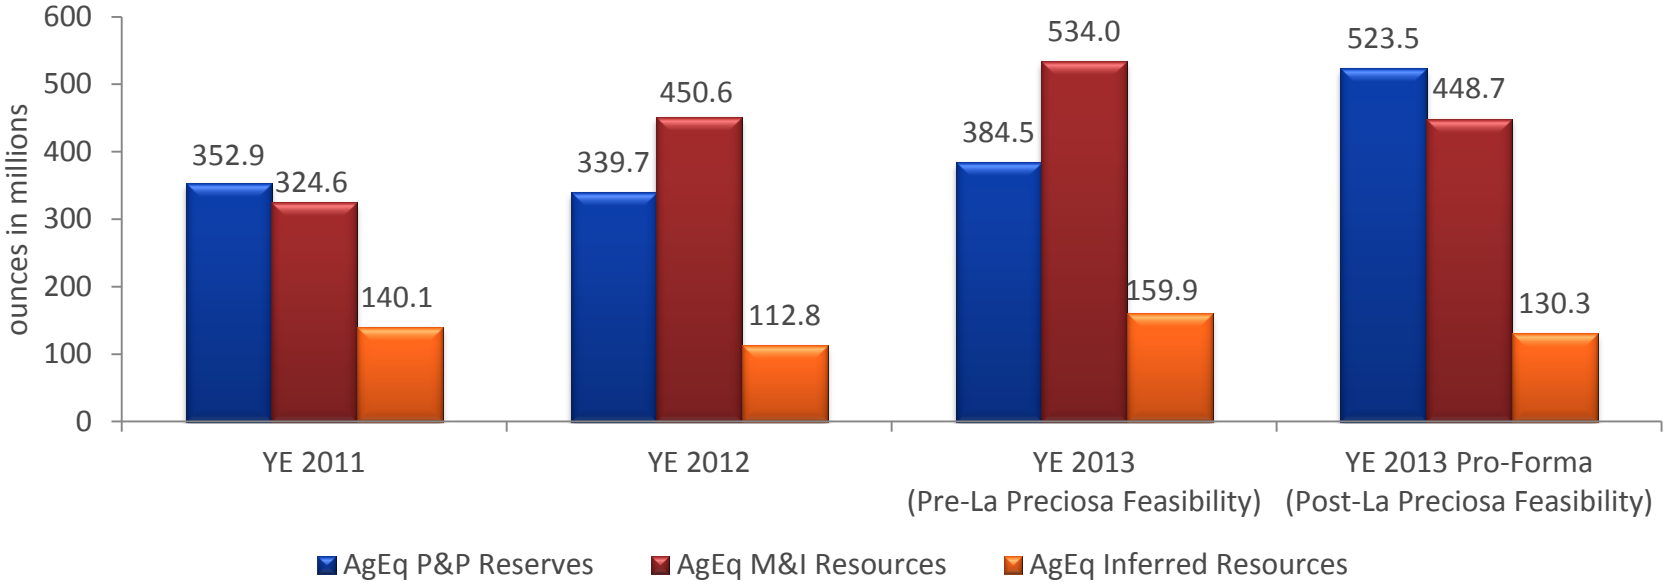

2013 Cash Flow from Operations Received from Palmarejo if New Gold Stream Agreement was in Place[1]

1. Represents pro-forma 2013 cash flow from operations after giving effect to proposed terms of the new gold stream agreement with Franco-Nevada.

La Preciosa Feasibility Study Adds Significant Reserves per Share

	YE 2011	YE 2012	YE 2013 (pre-LP Feasibility)	YE 2013 Pro-Forma (post-LP Feasibility)
Companywide silver equivalent P&P reserve ounces (in millions)	352.9	339.7	384.5	**523.5**
			+36%	
Companywide silver equivalent P&P reserve ounces/share[1]	3.93	3.76	3.73	**5.08**
			+36%	

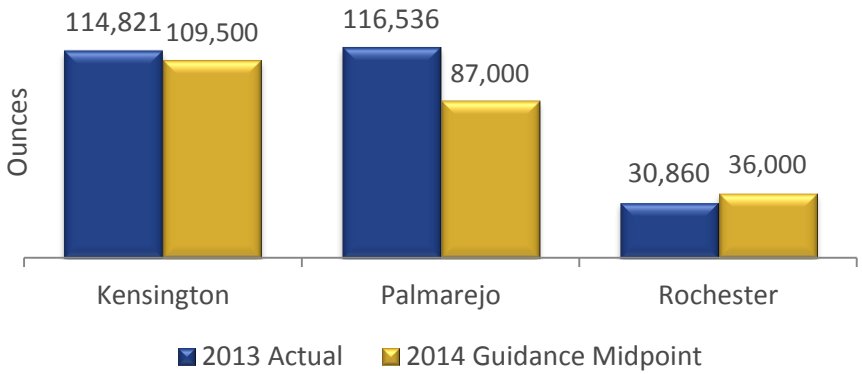

Mineral reserves and resources effective December 31, 2013 except Endeavor, effective June 30, 2013 and La Preciosa effective July 29, 2014. See slides in the Appendix for tons and grade pertaining to mineral reserves and resources. For details on the estimation of mineral resources and reserves for each property, please refer to the Appendix and the applicable Technical Report on file at www.sedar.com and the new Technical Report for the La Preciosa feasibility study to be filed on or prior to September 14, 2014 on www.sedar.com. Per share calculation based on number of shares outstanding on December 31 of the respective year.

2014 Guidance

Silver Production

Gold Production

in millions	2013 Actual	2014 Guidance
Capital expenditures	$101	$65-$80
Production costs applicable to sales	$464	$490-$510
Exploration (expensed and capitalized)	$34	$23-$28
General and administrative	$55	$43-$48
Amortization	$233	$190

Guidance published by Coeur on August 6, 2014.

Key Investment Highlights

Well-capitalized with strong liquidity

Five operating assets in four jurisdictions and growing pipeline

Conservative capital deployment including large exploration program near existing operations

Strong leverage to higher silver and gold prices

Continued strong production and operating cash flow

Appendix

Cash Flow Protection Strategy

- Coeur continues to maintain a targeted cash flow protection program with the following objectives:
  - Maintain simplicity
  - Protect downside metal price exposure while retaining the upside potential
  - Purchase put options to protect some of expected production against a sharp drop in metal prices
  - Sell intra-quarter out-of-the money call options when appropriate to offset the cost of puts
  - Avoid margin agreements
- Hedges in place for each quarter through 1Q 2015 production:
  - Put spreads covering 1.25 million ounces of silver each quarter
    - Buyer of put options with $18/oz strike price
    - Seller of put options with $16/oz strike price
  - Put spreads covering 25,000 ounces of gold each quarter (24,000 for 1Q 2015)
    - Buyer of put options with $1,200/oz strike price
    - Seller of put options with $1,050/oz strike price

Second Quarter 2014 Operational Highlights

Palmarejo

- Cash flow from operating activities 169% higher than prior quarter
- Higher recovery rates and proportionally fewer open-pit tons expected in 2H 2014
- Re-scoped mine plan forecasts lower throughput but at higher grade, higher recovery rates, and lower unit costs

Rochester

- Silver production 48% higher than 1Q 2014
- Gold production 13% higher than 1Q 2014
- Cash flow from operating activities reached highest level in over a year
- Permitting process for POA 10 on track; expected to drive future production growth

San Bartolomé

- Silver production increased 9% over 1Q 2014
- Costs applicable to sales per AgEq ounce[1] slightly below 1Q 2014
- Stable production, grades, and costs expected for remainder of 2014

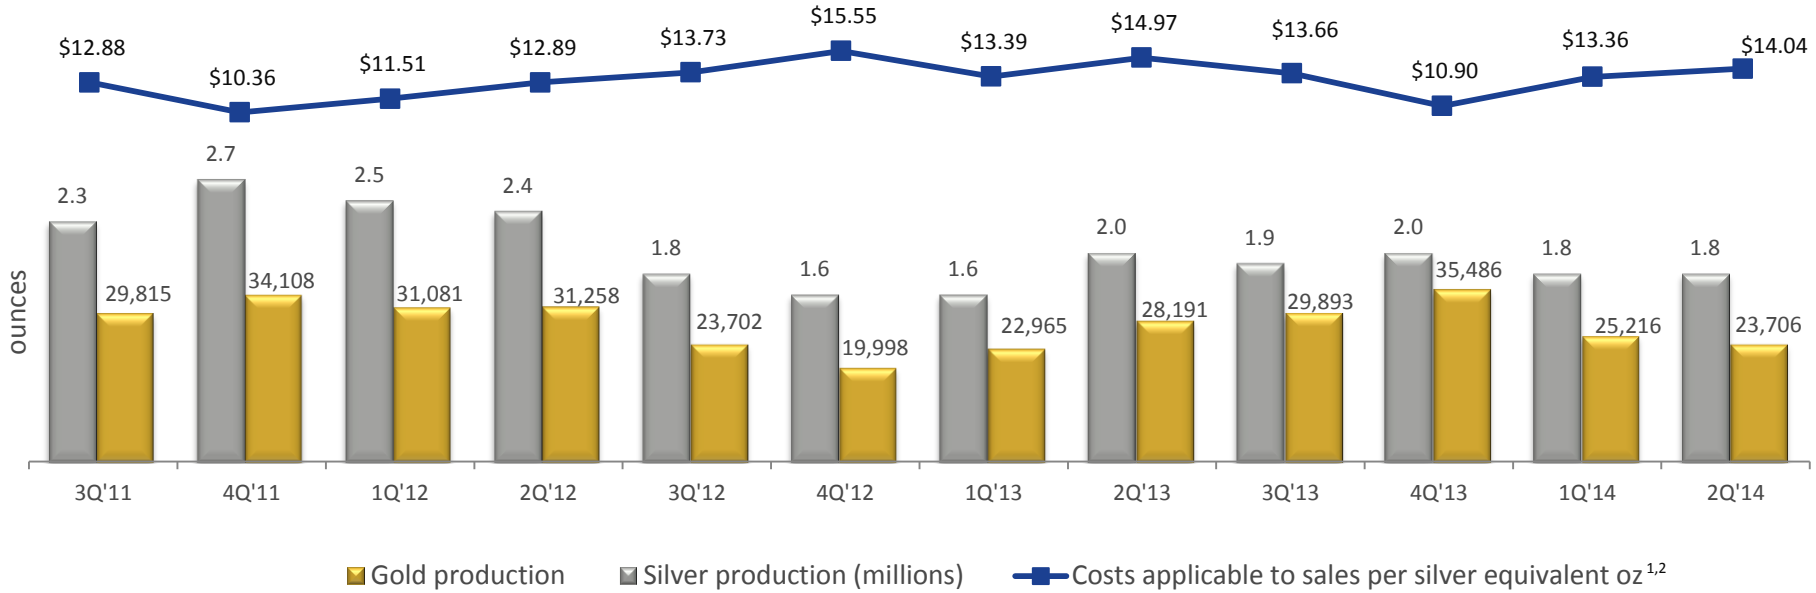

Kensington

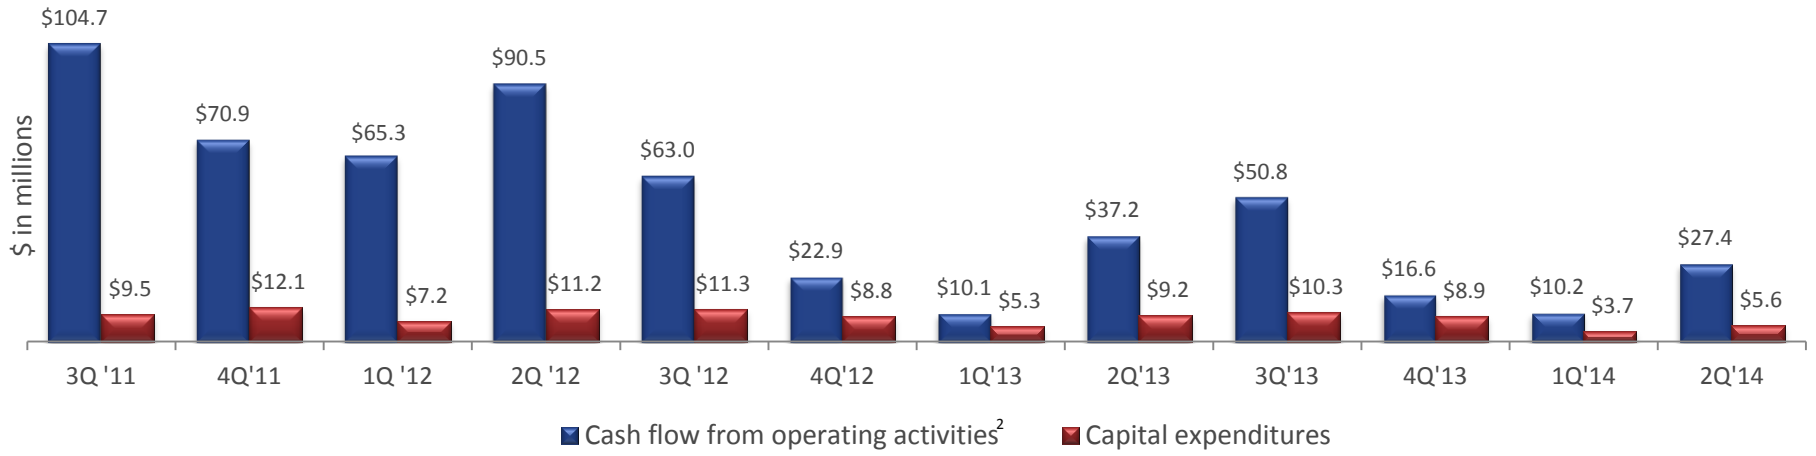

- Gold production 10% higher than 1Q 2014
- Costs applicable to sales per gold ounce[1] in line with prior quarter but down 18% YOY
- Mill throughput significantly higher than recent quarters
- Lower cash flow from operating activities due to timing of concentrate shipments

1. See non-GAAP reconciliation tables in the appendix to this presentation.

Palmarejo: Transitioning to Lower Tonnage, Higher-Grade, Higher-Margin Operation

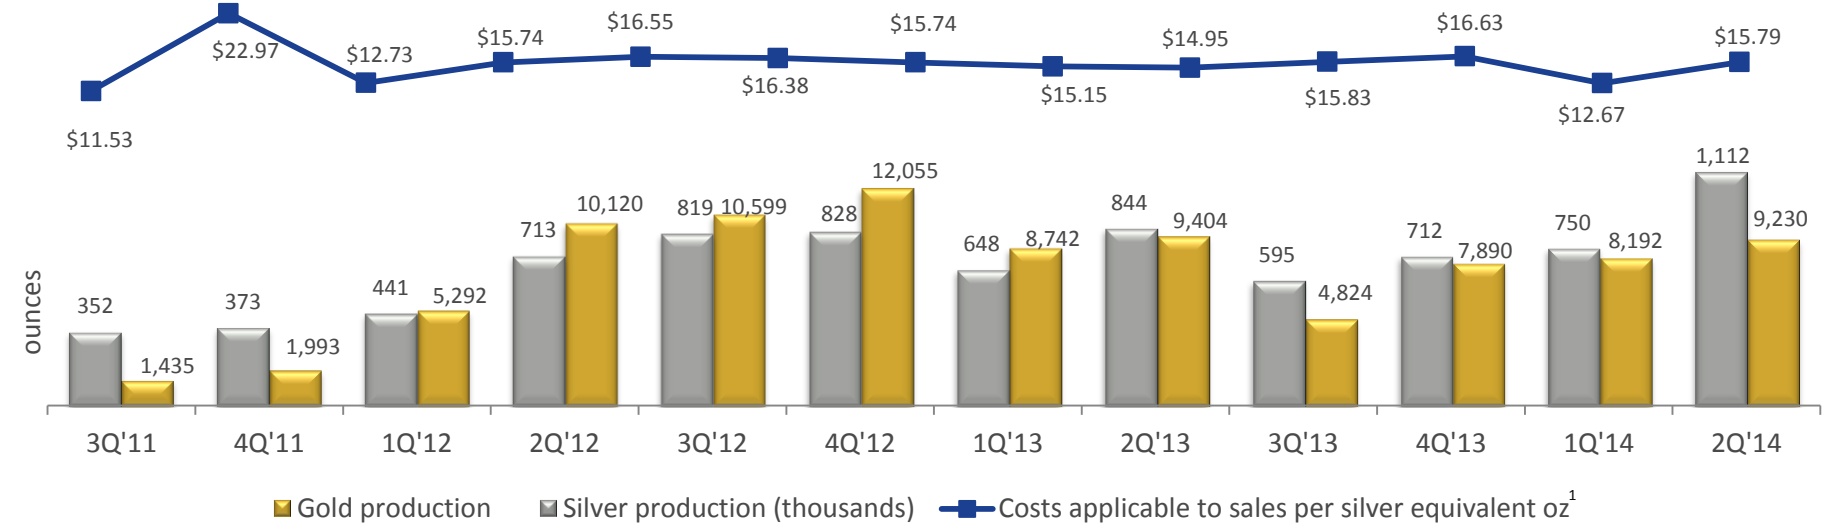

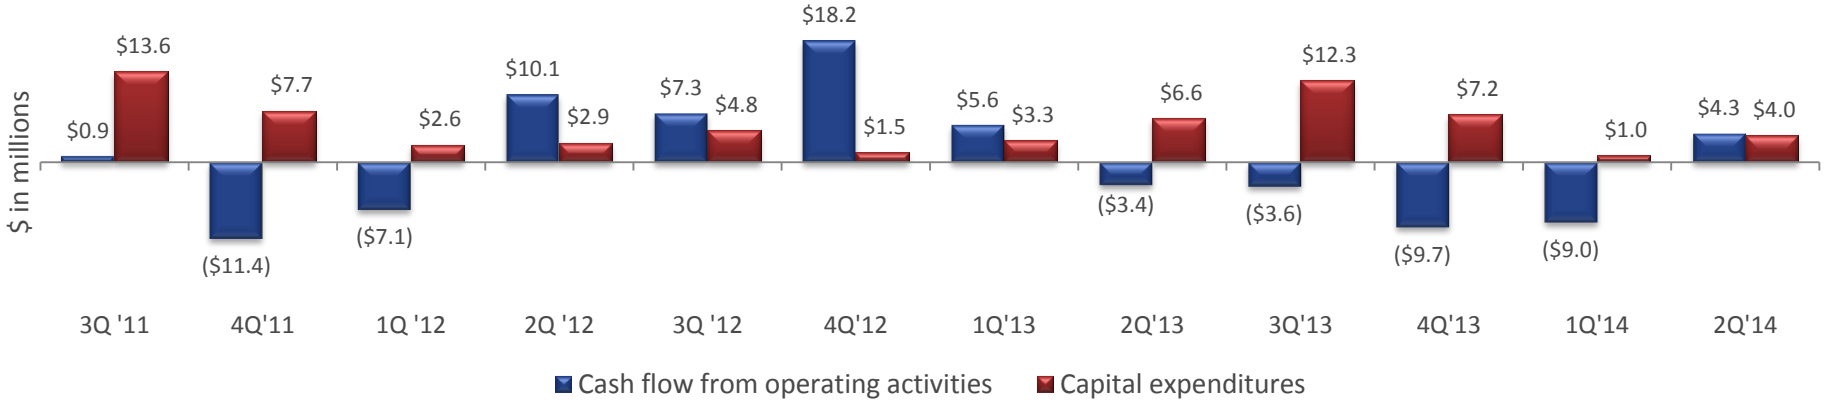

1. See non-GAAP reconciliation tables in the appendix to this presentation.
2. Excludes gold production royalty payments to Franco Nevada.

Rochester: Increased Silver and Gold Production Drives Highest Cash Flow in More than a Year

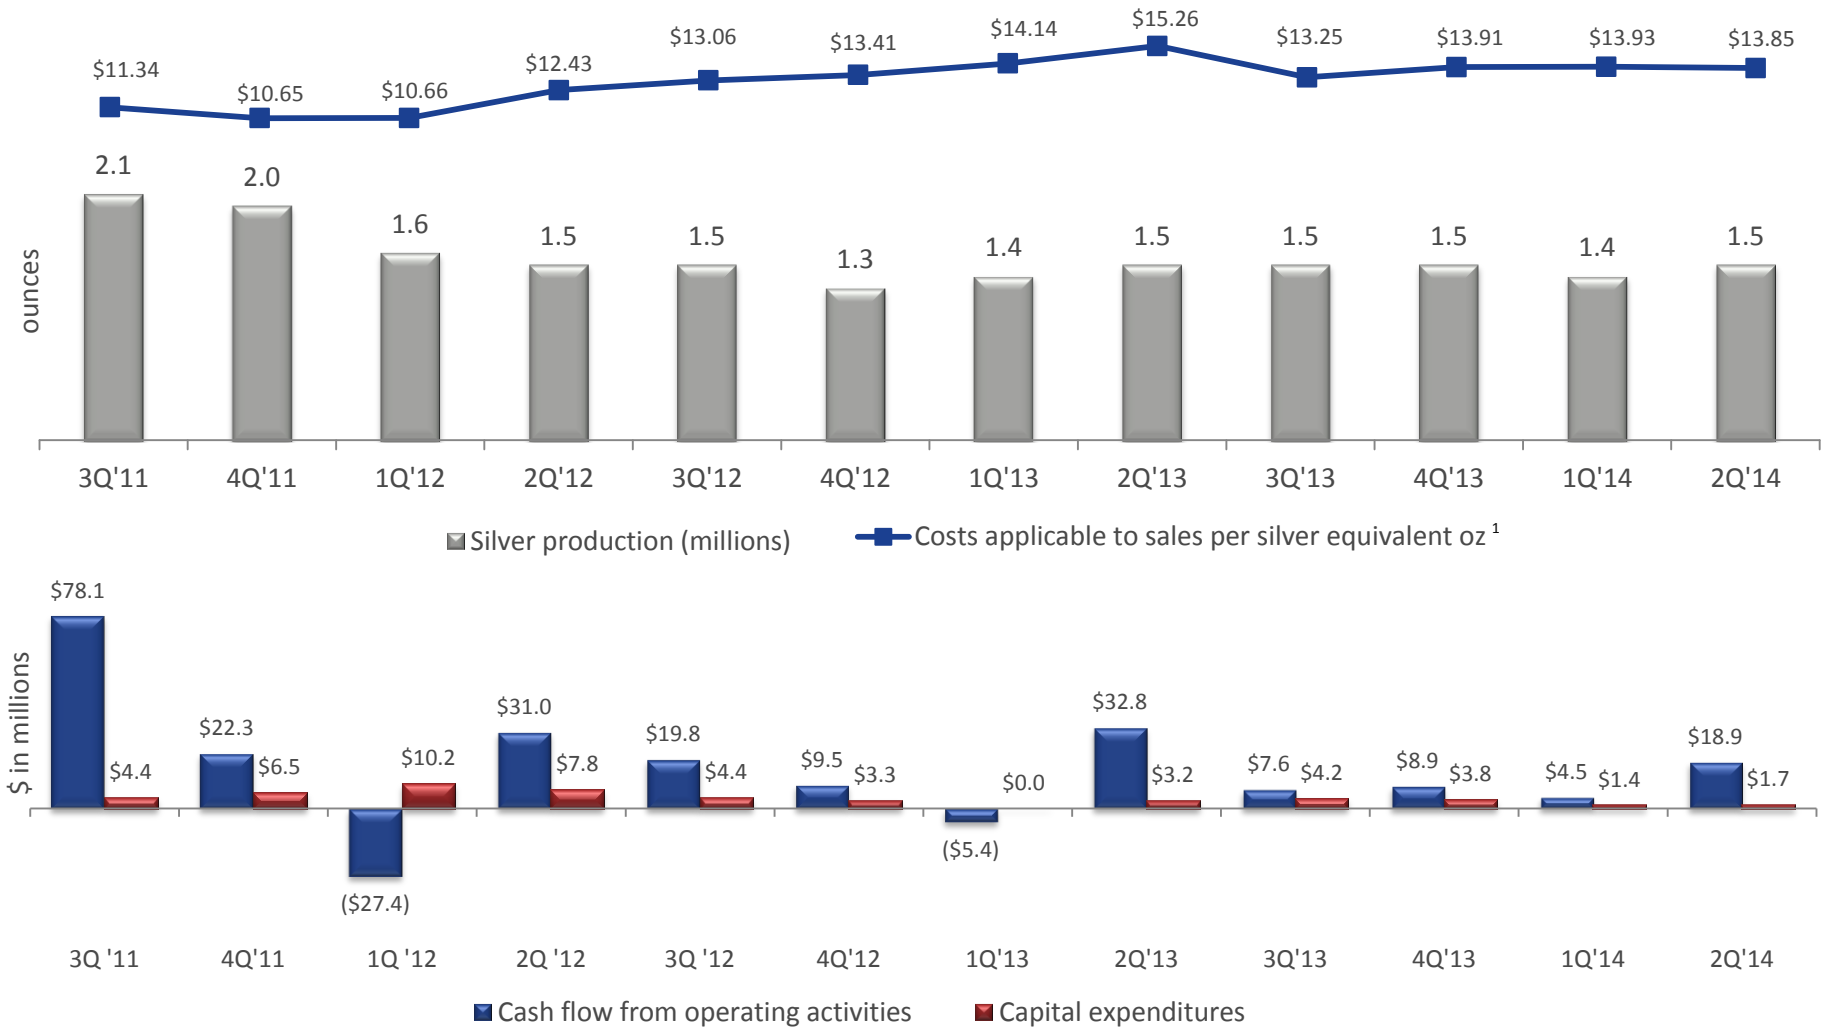

1. See non-GAAP reconciliation tables in the appendix to this presentation.

San Bartolomé: Expect Continued Stable Production and Costs in 2014

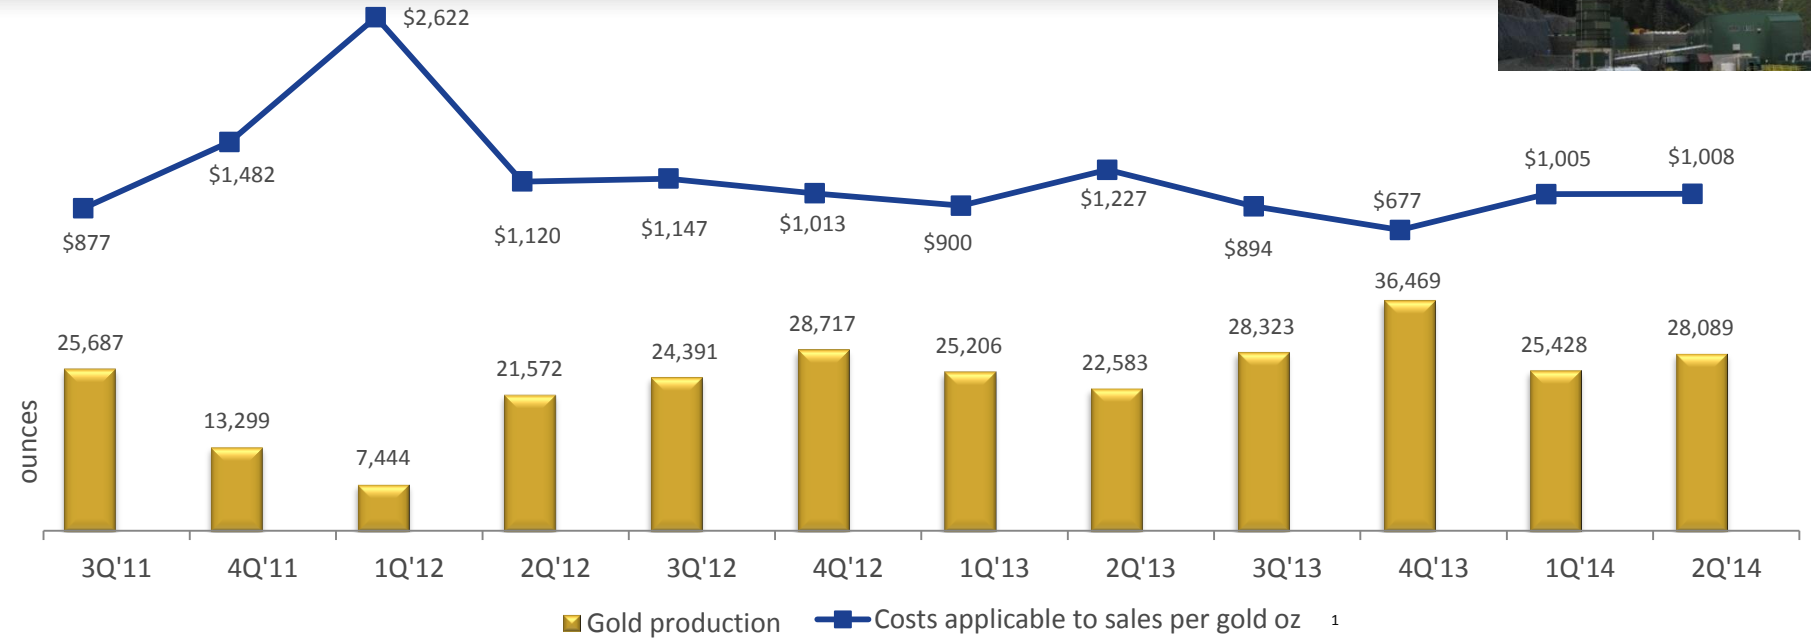

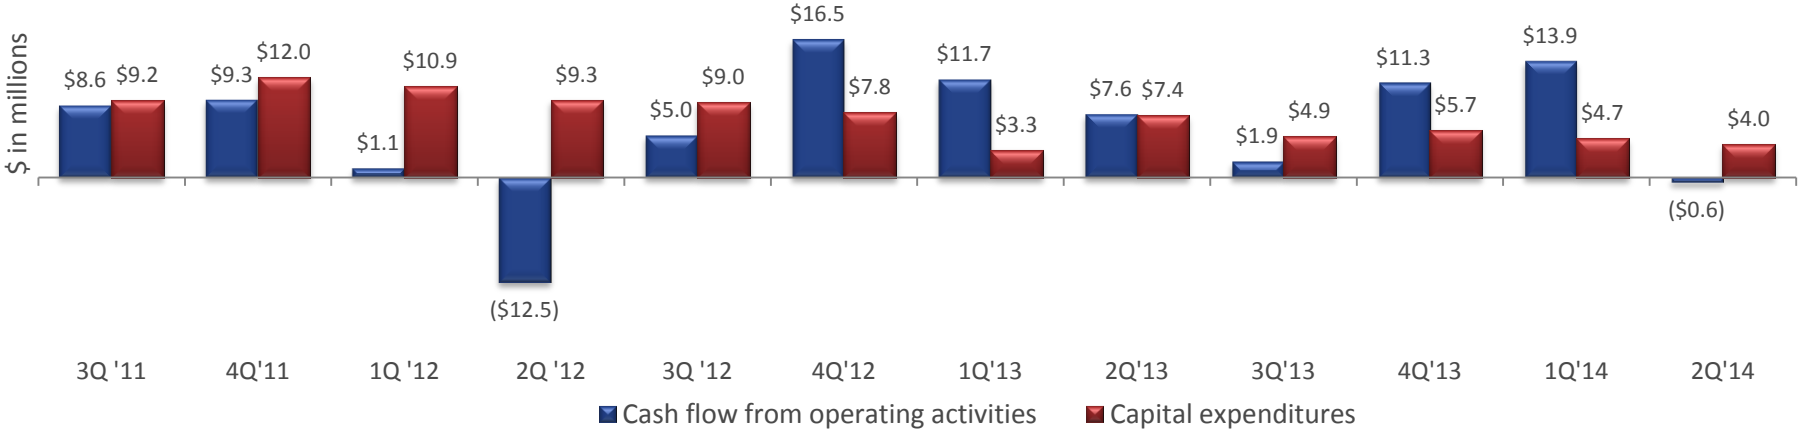

1. See non-GAAP reconciliation tables in the appendix to this presentation.

Kensington: Improving Stability of Production, Cash Flow, and Costs

1. See non-GAAP reconciliation tables in the appendix to this presentation.

External Growth - Strategic Investments

- Apogee Silver (Pulacayo-Paca project, Bolivia and Cachinal project, Chile; 7.6% ownership interest):
  - Environmental Impact Assessment approved by Bolivia's Ministry of Environment and Water
- Caracara Silver (Princesa project, Peru; 3.2% ownership interest):
  - 3,049 meter drill program completed at Princesa; Option agreement terminated
- Commonwealth Silver and Gold (Commonwealth project, Arizona; 6.5% ownership interest):
  - Completed positive Preliminary Economic Assessment
- Huldra Silver (Treasure Mountain project, British Columbia, Canada; 6.8% ownership interest):
  - Entered CCAA protection, obtained DIP Financing and is reviewing strategic options
- Idaho North Resources (Eagleville project, Nevada; 11.3% ownership interest):
  - Newly-listed exploration company with a focus on western Nevada; Divide and Klondike properties located in prolific Tonopah silver-gold district
- International Northair Mines (La Cigarra project, Chihuahua, Mexico; 18.5% ownership interest):
  - Increased land position for continued exploration and possible future development
- Orex Minerals (Los Crestones project, Sinaloa, Mexico; 1.1%):
  - Commenced drilling at Coneto and Jumping Josephine; began geophysics survey on Los Crestones
- Pershing Gold (Relief Canyon project, Nevada; 3.6% ownership interest):
  - Expanded higher-grade mineralization; taking key steps towards resuming production
- Silver Bull Resources (Sierra Mojada project, Coahuila Mexico; 10.9% ownership interest):
  - Completed positive Preliminary Economic Assessment indicating 18 year mine life with 5.5 million ounce per year at cash costs per ounce of $6.58
- Soltoro (El Rayo project, Jalisco, Mexico; 7.5% ownership interest):
  - Continued exploration at Tecolote

Note: The above information and data is from publically available sources.

Coeur's Inferred Mineral Resources

	Location	Short tons	Grade (oz/ton)		Ounces (contained)	
			Silver	Gold	Silver	Gold
Inferred Resources						
Rochester	Nevada, USA	37,365,000	0.62	0.003	23,295,000	101,000
Martha	Argentina	204,000	4.75	0.005	969,000	1,000
San Bartolomé	Bolivia	3,683,000	1.26	—	4,638,000	—
Kensington	Alaska, USA	1,014,000	—	0.259	—	263,000
Endeavor	Australia	1,653,000	2.86	—	4,726,000	—
Palmarejo	Mexico	11,611,000	1.91	0.053	22,188,000	621,000
Joaquin	Argentina	1,022,000	3.02	0.004	3,084,000	4,000
Lejano	Argentina	3,307,000	1.73	0.006	5,713,000	19,000
La Preciosa	Mexico	2,082,000	2.26	0.004	4,705,000	8,000
Total Inferred Resources		**61,941,000**			**69,318,000**	**1,017,000**

Notes to the above mineral reserves and resources:

1. Effective December 31, 2013 except Endeavor, effective June 30, 2013, and La Preciosa effective July 29, 2014.
2. Metal prices used for mineral reserves were $25.00 per ounce of silver and $1,450 per ounce of gold, except Endeavor, at $2,300 per metric ton of lead, $2,300 per metric ton of zinc, and $34.00 per ounce of silver, and La Preciosa at $22.00 per ounce of silver and $1,350 per ounce of gold. Metal prices used for mineral resources were $29.00 per ounce of silver and $1,600 per ounce of gold, except for Endeavor, at $2,300 per metric ton of lead, $2,300 per metric ton of zinc and $34.00 per ounce of silver, and La Preciosa at $25.00 per ounce of silver and $1,400 per ounce of gold.
3. Palmarejo mineral resources (measured, indicated, and inferred) reported above represent the sum of Palmarejo, Guadalupe, and La Patria resources.
4. Kensington proven and probable reserves adjusted April 2014 to reduce the grade of internal dilution to zero.
5. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized.
6. Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
7. For details on the estimation of mineral resources and reserves for each property, please refer to the relevant NI 43-101-compliant Technical Report on file at www.sedar.com and the new Technical Report for the La Preciosa feasibility study to be filed on or prior to September 14, 2014 on www.sedar.com.

Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. Mr. Krebs joined Coeur in 1995 after spending several years in the investment banking industry in New York. Mr. Krebs has held various positions in the corporate development department, including Senior Vice President of Corporate Development. In March, 2008, Mr. Krebs was named Chief Financial Officer, a position he held until being appointed President and CEO in July 2011.

Peter C. Mitchell – Senior Vice President and Chief Financial Officer. Mr. Mitchell came to Coeur from Taseko Mines Limited where he served as Chief Financial Officer, leading Taseko's financial operations, including sourcing strategic capital to fund the company's strategic growth plan. Previously, Mr. Mitchell was involved in leading and managing growth in private equity portfolio companies through acquisitions, integrations and greenfield initiatives.

Frank L. Hanagarne, Jr. – Senior Vice President and Chief Operating Officer. Mr. Hanagarne was most recently Chief Operating Officer of Valcambi, SA, a precious metal refiner in Switzerland. Prior to his appointment as operations head of Valcambi in early 2011, Mr. Hanagarne was a Director of Corporate Development for Newmont Mining Corporation. Mr. Hanagarne's 17 years of service at Newmont has included positions of increasing responsibility within key areas of Newmont's operations and business functions as well as environmental, health and safety.

Joe Phillips – Senior Vice President and Chief Development Officer. Mr. Phillips has extensive experience in mine development and operations and has a proven record of leadership and team building resulting in successfully building mines on time and on budget. Mr. Phillips comes to Coeur from Silver Standard Resources where he served as Senior Vice President of Operations and Development and acting Chief Operating Officer. Prior to that, Mr. Phillips served as Senior Vice President of Project Development at Pan American Silver.

Humberto Rada – President, Coeur South America and of Coeur's Bolivian subsidiary Empresa Minera Manquiri, S.A. Prior to joining Coeur in July 2008, Mr. Rada served as General Manager for Newmont Mining Corporation's Bolivian company Inti Raymi. Mr. Rada is currently President of Bolivia's National Mining Association and has over 23 years of experience in South American mining and finance.

Mike Harrison – Vice President, Business Development. Prior to joining Coeur, Mr. Harrison was Director of Investment Banking for the Mining Group at Cormark Securities Inc. in Toronto, Canada. In addition to seven years of investment banking experience, Mr. Harrison spent eight years in BHP Billiton's Global Exploration Group.

Keagan J. Kerr – Vice President, Human Resources and Communication. Mr. Kerr leads the organization in all aspects of human resource and corporate communication programs across Coeur's operating regions-including employee and public relations, executive compensation, talent attraction, leadership development and strengthening of organization capability. He has a track record of accomplishment in large scale mining operations on multiple continents through various leadership roles with Barrick Gold Corporation.

Casey M. Nault – Vice President, General Counsel and Secretary. Mr. Nault has extensive experience as a corporate and securities lawyer, including prior in-house positions with Starbucks and Washington Mutual and law firm experience with Graham & Dunn in Seattle and Gibson, Dunn & Crutcher in Los Angeles. His experience includes securities compliance and SEC reporting, corporate governance, mergers and acquisitions, public and private securities offerings and other strategic transactions.

Hans Rasmussen – Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco and Quadra Mining. Since 2004, he has been an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia.
