The Search for High Grade

COEUR MINING®

NYSE: CDE

Hans Rasmussen, Vice President, Exploration

Silver Summit 2014, Spokane, Washington

October 23, 2014 at 9:00 a.m. local time

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements regarding anticipated production, costs, expenses, capital and exploration expenditures, amortization, and exploration and development efforts, expectations regarding grade, throughput, margins, cash flow, mine plans, mine life, cost improvements, efficiency gains, capital deployment, acquisition priorities, permitting, investments in infrastructure, reducing and managing risk, and initiatives to minimize exposure to declining metal prices and maximize net cash flow. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause Coeur's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), changes in the market prices of gold and silver and a sustained lower price environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions, grade variability, any future labor disputes or work stoppages, the uncertainties inherent in the estimation of gold and silver ore reserves, changes that could result from Coeur's future acquisition of new mining properties or businesses, reliance on third parties to operate certain mines where Coeur owns silver production and reserves and the absence of control over mining operations in which Coeur or its subsidiaries hold royalty or streaming interests and risks related to these mining operations including results of mining and exploration activities, environmental, economic and political risks of the jurisdiction in which the mining operations are located, the loss of any third-party smelter to which Coeur markets silver and gold, the effects of environmental and other governmental regulations, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt, as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Form 10-K and Form 10-Q. Actual results, developments and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward-looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

W. David Tyler, Coeur's Vice President, Technical Services and a qualified person under Canadian National Instrument 43-101, supervised the preparation of the scientific and technical information concerning Coeur's mineral projects in this presentation. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, please see the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at http://www.sec.gov.

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including EBITDA, all-in sustaining costs, and cost applicable to sales per silver equivalent ounce. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe EBITDA, all-in sustaining costs, and costs applicable to sales per silver equivalent ounce are important measures in assessing the Company's overall financial performance.

Who We Are

Palmarejo, Mexico

Rochester, Nevada, USA

San Bartolomé, Bolivia

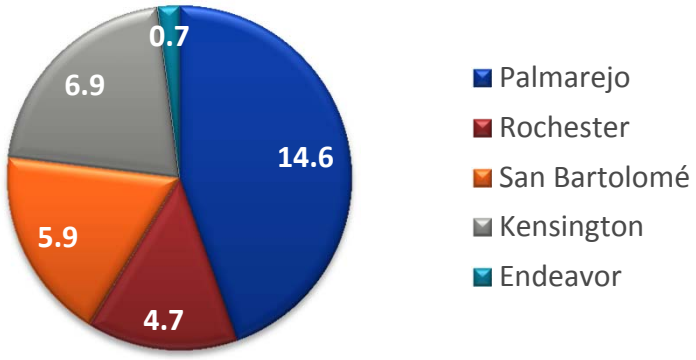

Kensington, Alaska, USA

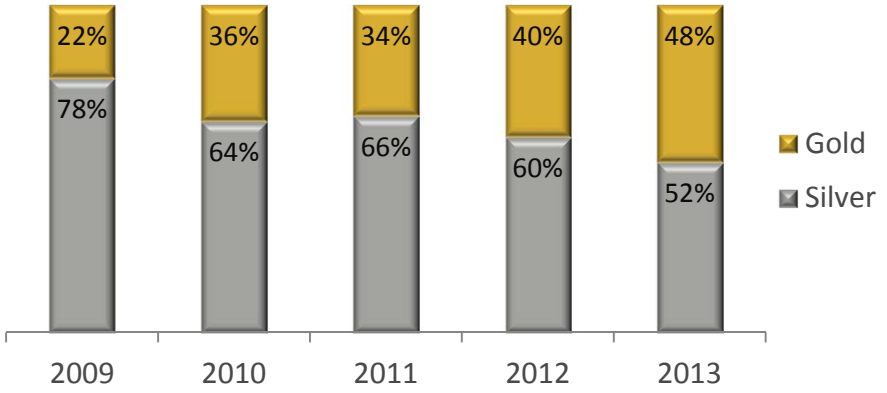

- One of world's largest silver mining companies with diversified portfolio of four mines in three countries
- Approximately half of sales derived from gold production
- Provides superior leverage to both precious metals
- Deploying capital into high-return organic growth opportunities – expected to lead to stronger free cash flow
- Leading corporate governance practices
- Recently improved operational consistency and costs trending down
- Significant corporate upgrades made in the last two years starting to show results:
  - Improved cost measurement, planning and technical capabilities, and safety record

Leading Producer of Silver and Gold

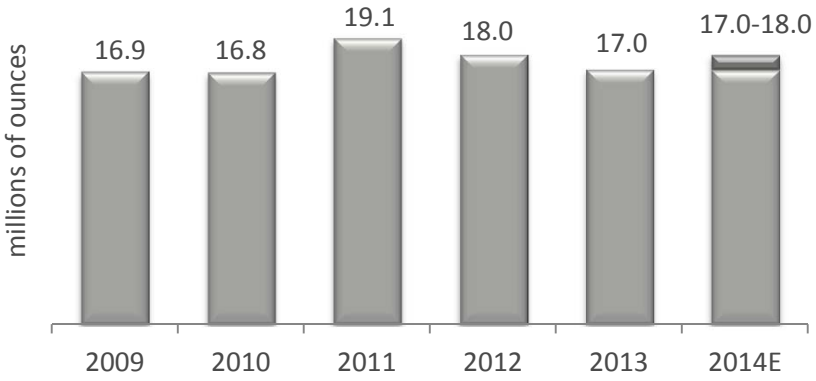

2013 Silver Equivalent Production by Mine
(millions of ounces)

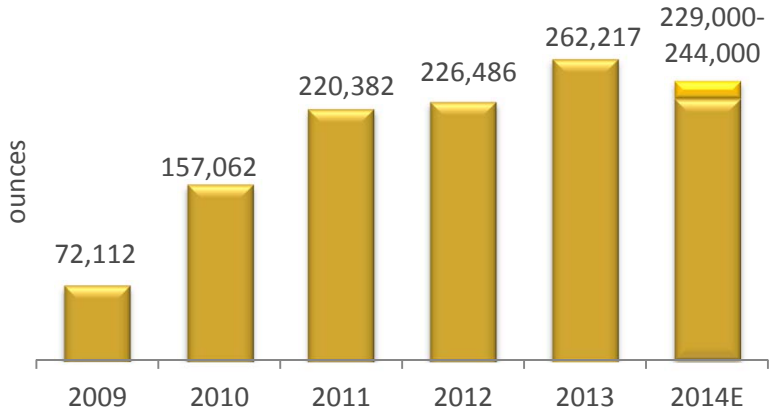

Revenue by Metal

Silver Production

Gold Production

2014 guidance as of October 6, 2014.

Portfolio Includes 2 of the Top 15 Largest Primary Silver Mines

Kensington Mine, Alaska
2013: 114,821 oz Au
2014E: 107,000 - 112,000 oz Au

Rochester Mine, Nevada
2013: 2.8M oz Ag; 30,860 oz Au
2014E: 4.1M - 4.4M oz Ag; 38,000 – 42,000 oz Au

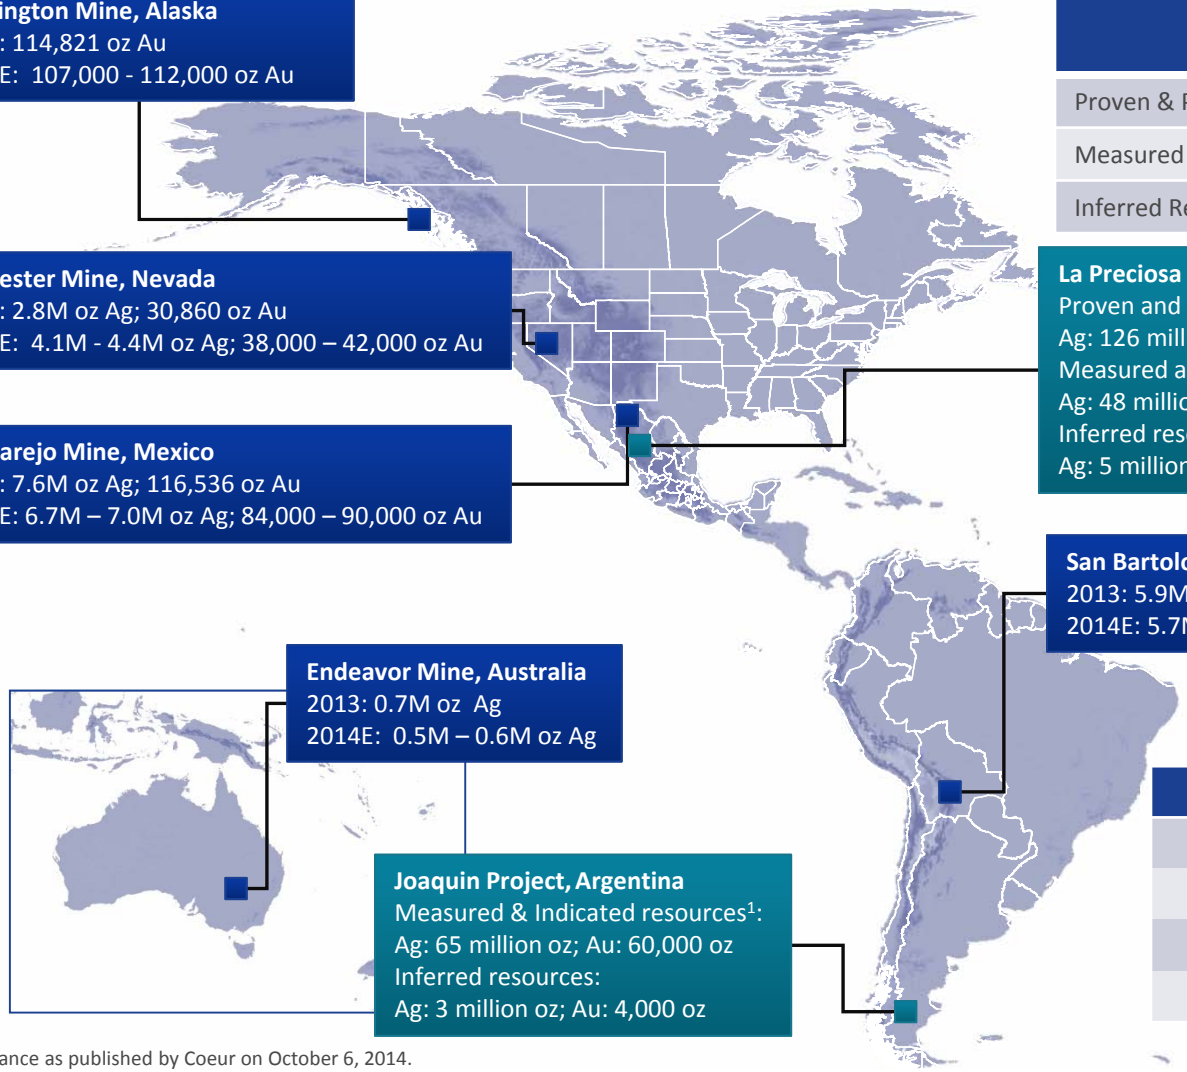

Palmarejo Mine, Mexico
2013: 7.6M oz Ag; 116,536 oz Au
2014E: 6.7M – 7.0M oz Ag; 84,000 – 90,000 oz Au

Endeavor Mine, Australia
2013: 0.7M oz Ag
2014E: 0.5M – 0.6M oz Ag

Joaquin Project, Argentina
Measured & Indicated resources[1]:
Ag: 65 million oz; Au: 60,000 oz
Inferred resources:
Ag: 3 million oz; Au: 4,000 oz

La Preciosa Project, Mexico
Proven and Probable reserves[1]:
Ag: 126 million oz; Au: 209,000 oz
Measured and Indicated resources:
Ag: 48 million oz; Au: 95,000 oz
Inferred resources:
Ag: 5 million oz; Au: 8,000 oz

San Bartolomé Mine, Bolivia
2013: 5.9M oz Ag
2014E: 5.7M – 6.0M oz Ag

- Operation
- Development Project

Total[1]	Silver Ounces (000s)	Gold Ounces (000s)
Proven & Probable Reserves	381,839	2,361
Measured & Indicated Resources	309,176	2,326
Inferred Resources	69,318	1,017

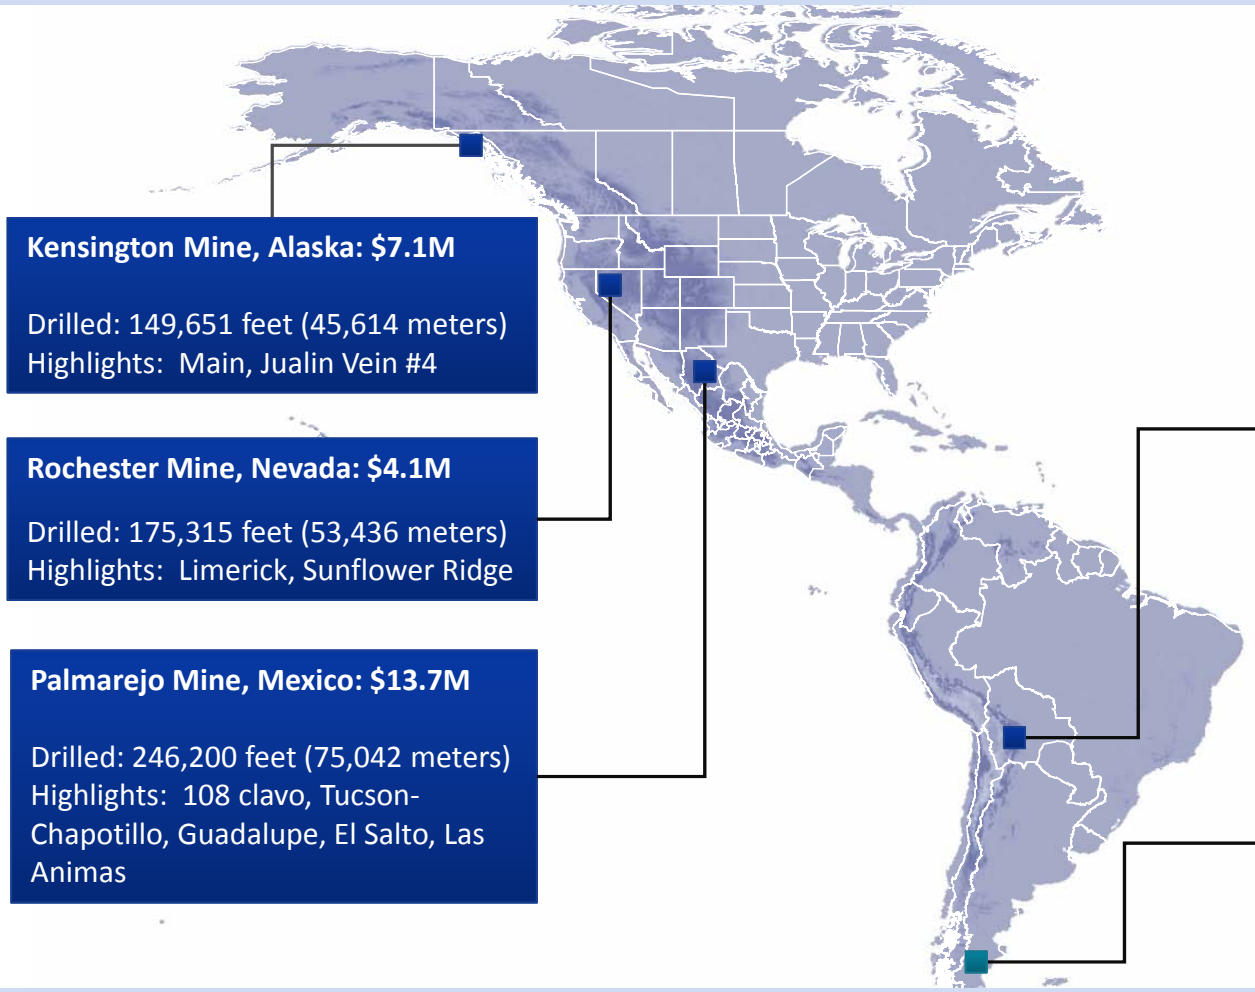

Ticker: Exchange	CDE: NYSE
Shares Outstanding[2]	103.5M
Avg. Daily Volume[3]	$10.1M
52-week Low – High[3]	$4.22 – 13.11
Market Capitalization[3]	$540M

Guidance as published by Coeur on October 6, 2014.

1. Mineral reserves and resources effective December 31, 2013 except Endeavor, effective June 30, 2013 and La Preciosa, effective July 29, 2014. See slides in the Appendix for tons and grade pertaining to mineral reserves and resources. For details on the estimation of mineral resources and reserves for each property, please refer to the applicable Technical Report on file at www.sedar.com.
2. As of 8/5/14.
3. As of 10/17/14. Based on stock price of $5.22.

2013 Exploration Expenditures of $34 Million

2014 Exploration Guidance: $23 - 28 million

- Operation
- Development Project

Kensington Mine, Alaska: $7.1M

Drilled: 149,651 feet (45,614 meters)
Highlights: Main, Jualin Vein #4

Rochester Mine, Nevada: $4.1M

Drilled: 175,315 feet (53,436 meters)
Highlights: Limerick, Sunflower Ridge

Palmarejo Mine, Mexico: $13.7M

Drilled: 246,200 feet (75,042 meters)
Highlights: 108 clavo, Tucson-Chapotillo, Guadalupe, El Salto, Las Animas

San Bartolomé Mine, Bolivia: $0.17M

Highlights: Trenching and bulk sampling

Joaquin and Lejano, Argentina: $4.2M

Focus on resource model with infill drilling, geology, and geophysics

Early stage exploration in USA, Mexico, Chile, Peru and Argentina: $4.7M
(includes $1.6M in corporate overhead)

2014 guidance as of October 6, 2014.

Strategic Plan – Current Pipeline

Early-Stage Exploration

- Storm (NV)
- Wonder (NV)
- Orex (MX)
- Klondyke (NV)

Late-Stage Exploration

- Kensington
- Guadalupe
- Rochester

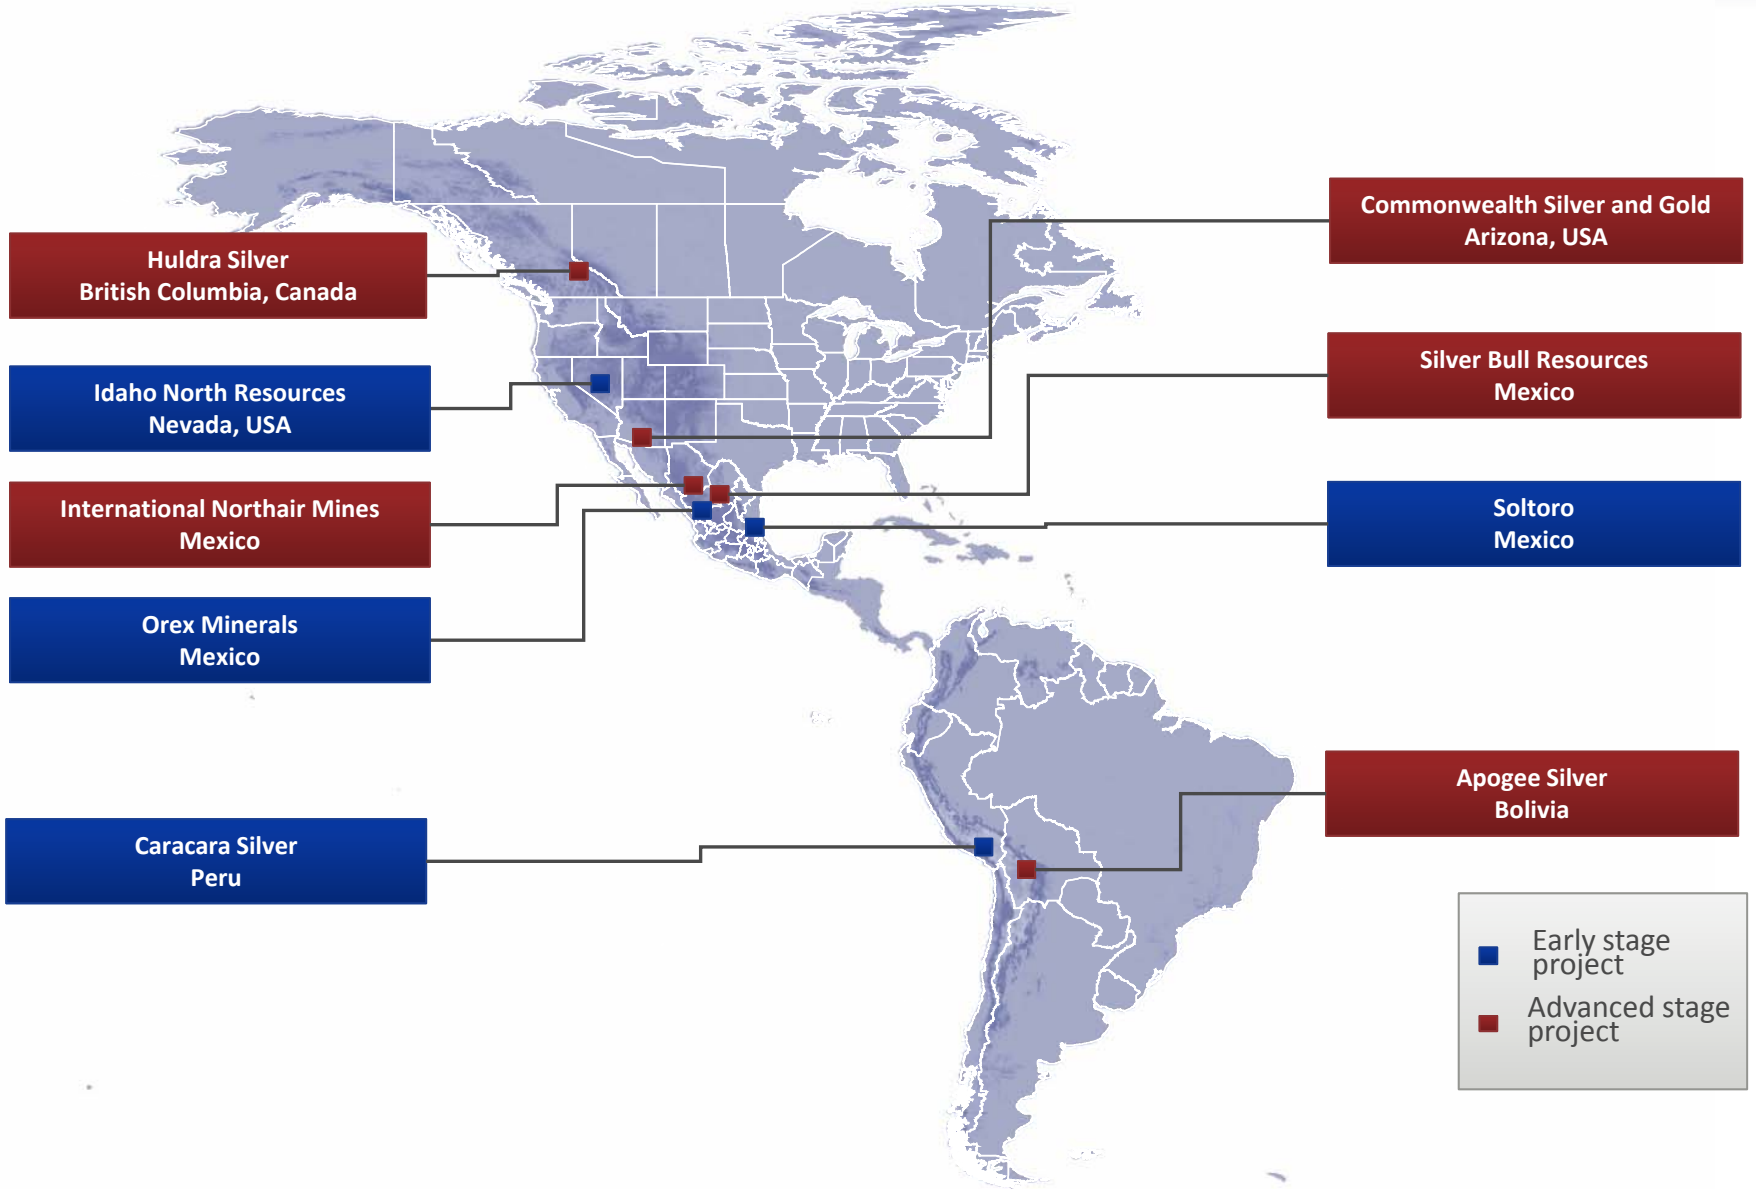

Feasibility/ Development

- Guadalupe
- Jualin
- La Preciosa
- Rochester

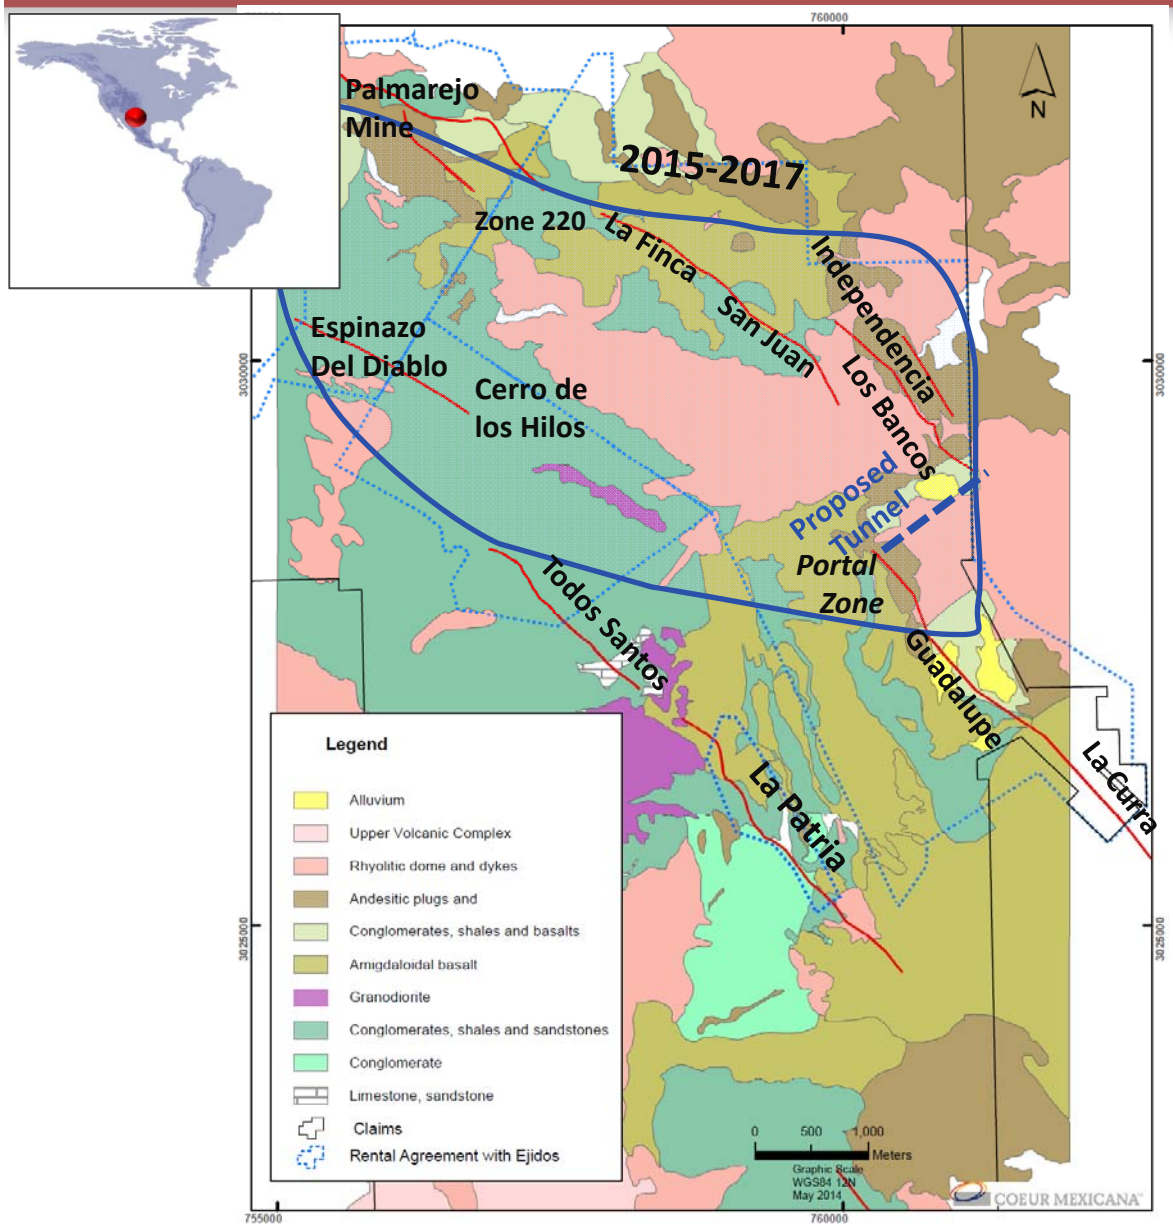

Production

- Palmarejo
- Rochester
- Kensington
- San Bartolomé

Participation in Ownership of Junior Companies

Palmarejo Exploration Program

Further Delineation and Infill Drill Program

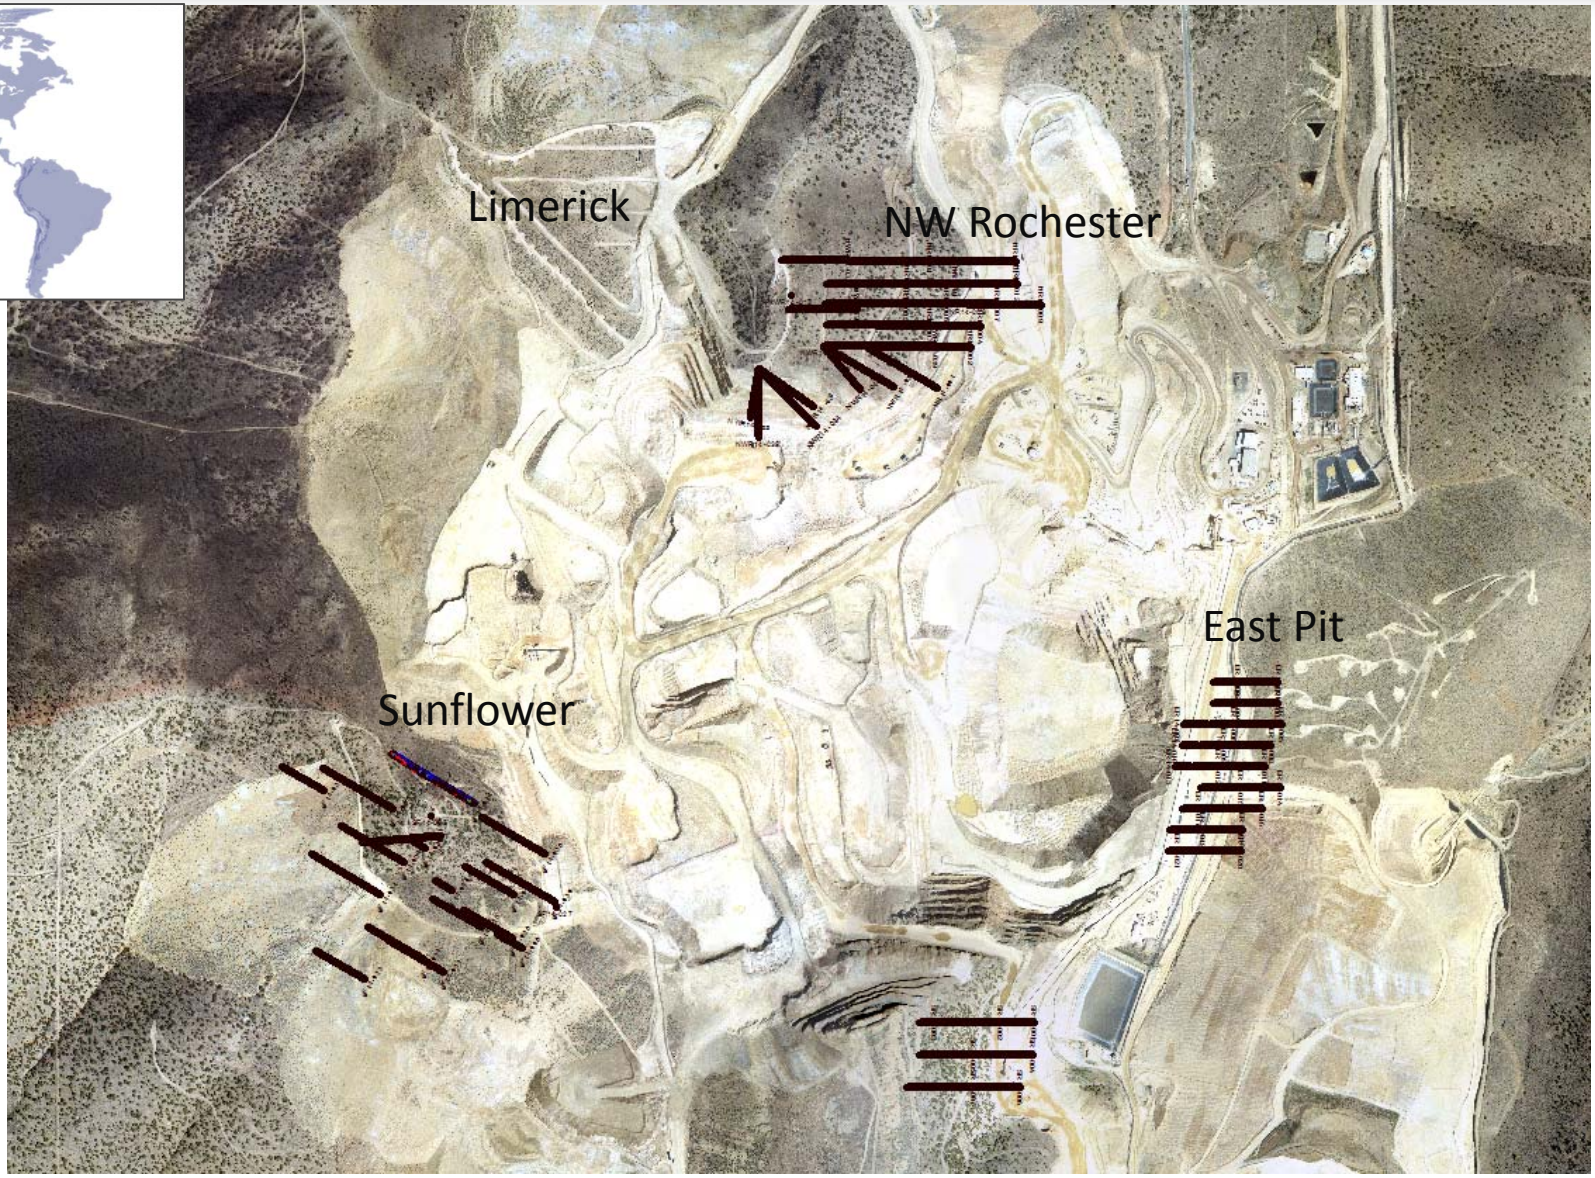

- Priorities:
  1. Guadalupe underground
  2. Independencia underground

Resource Discovery Drill Program

- Priorities:
  1. **Veta Independencia**
  2. **Guadalupe – Independencia tunnel**
  3. Los Bancos
  4. Portal zone
  5. La Curra open pit
  6. Espinazo Del Diablo
  7. La Finca – San Juan

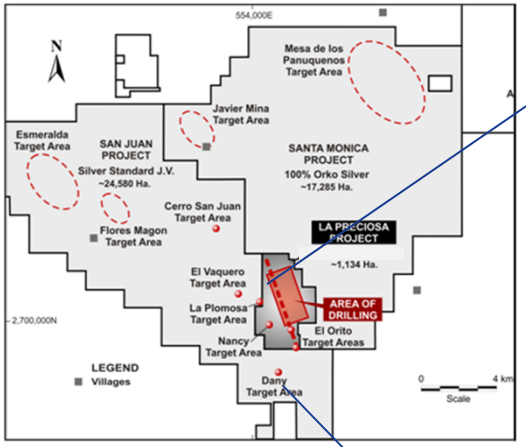

Rochester Target Areas 2014 - 2015

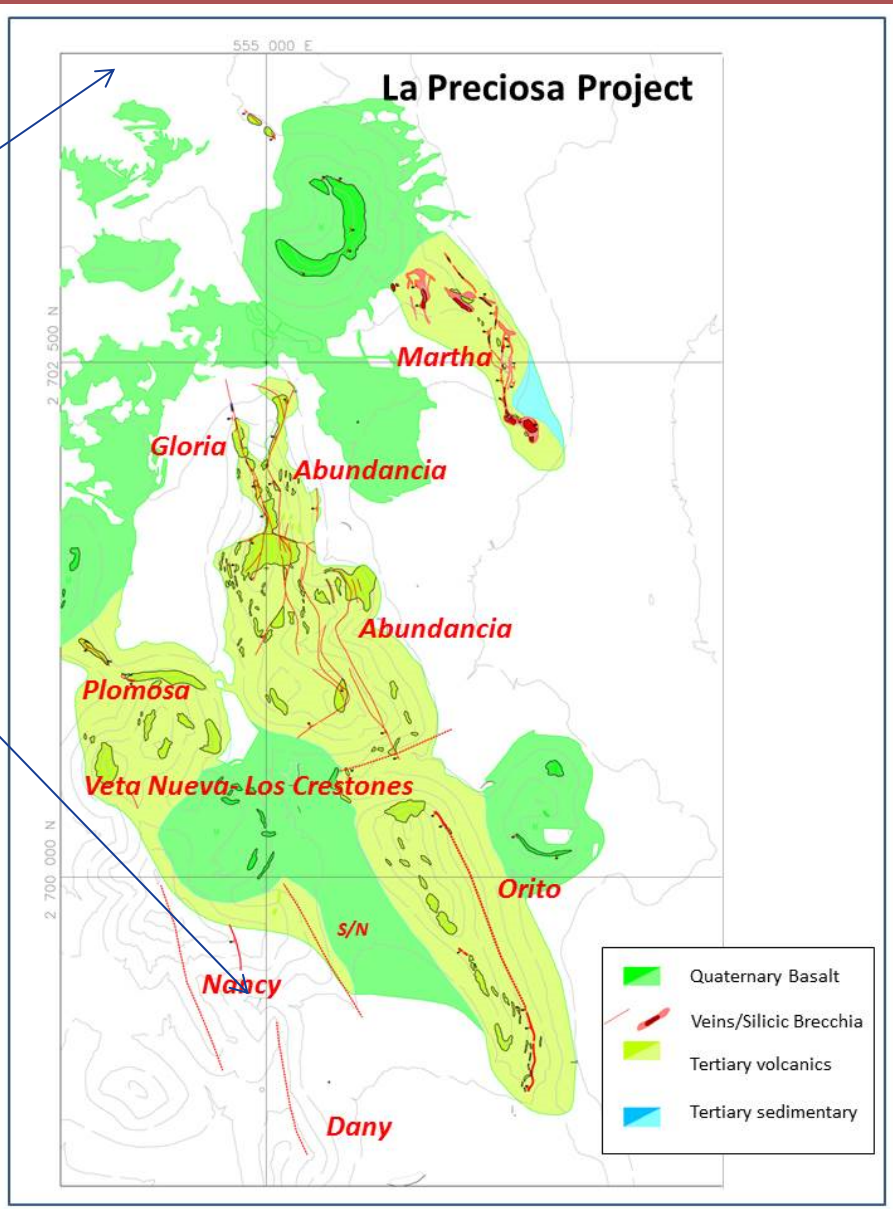

La Preciosa: Exploration Represents Further Optimization Potential

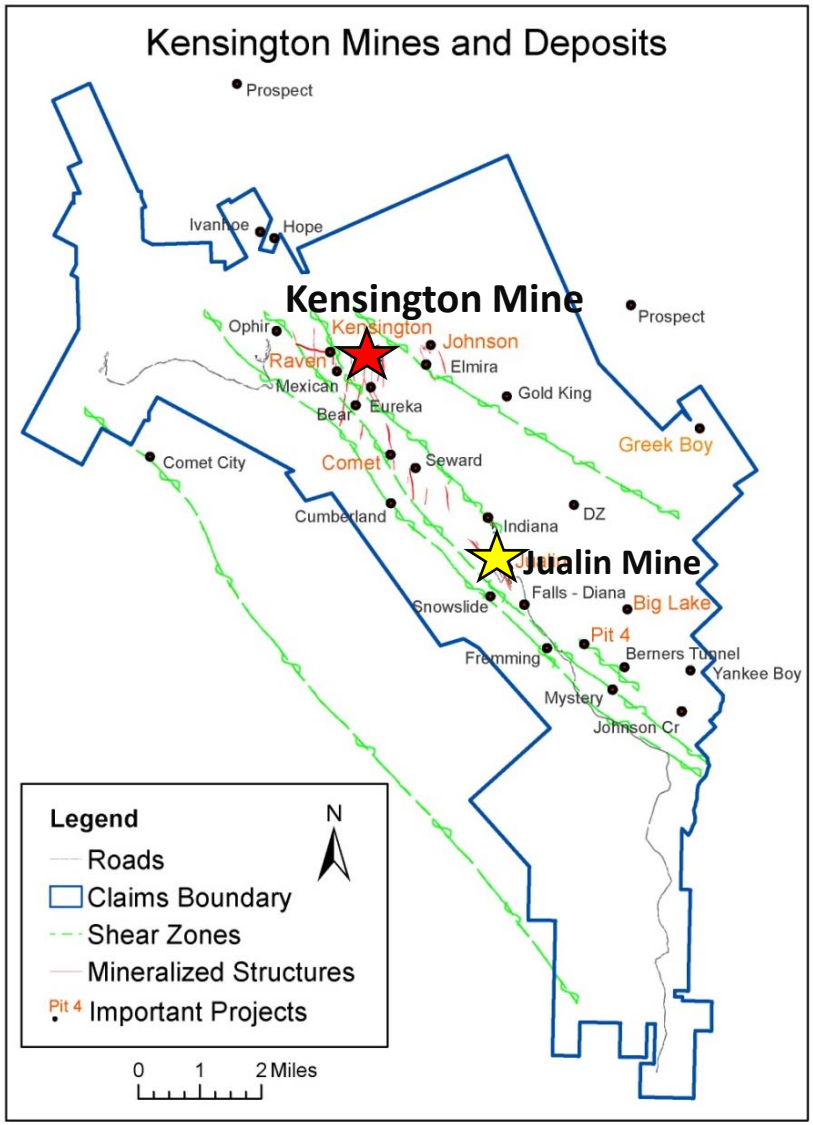

Initiatives Underway

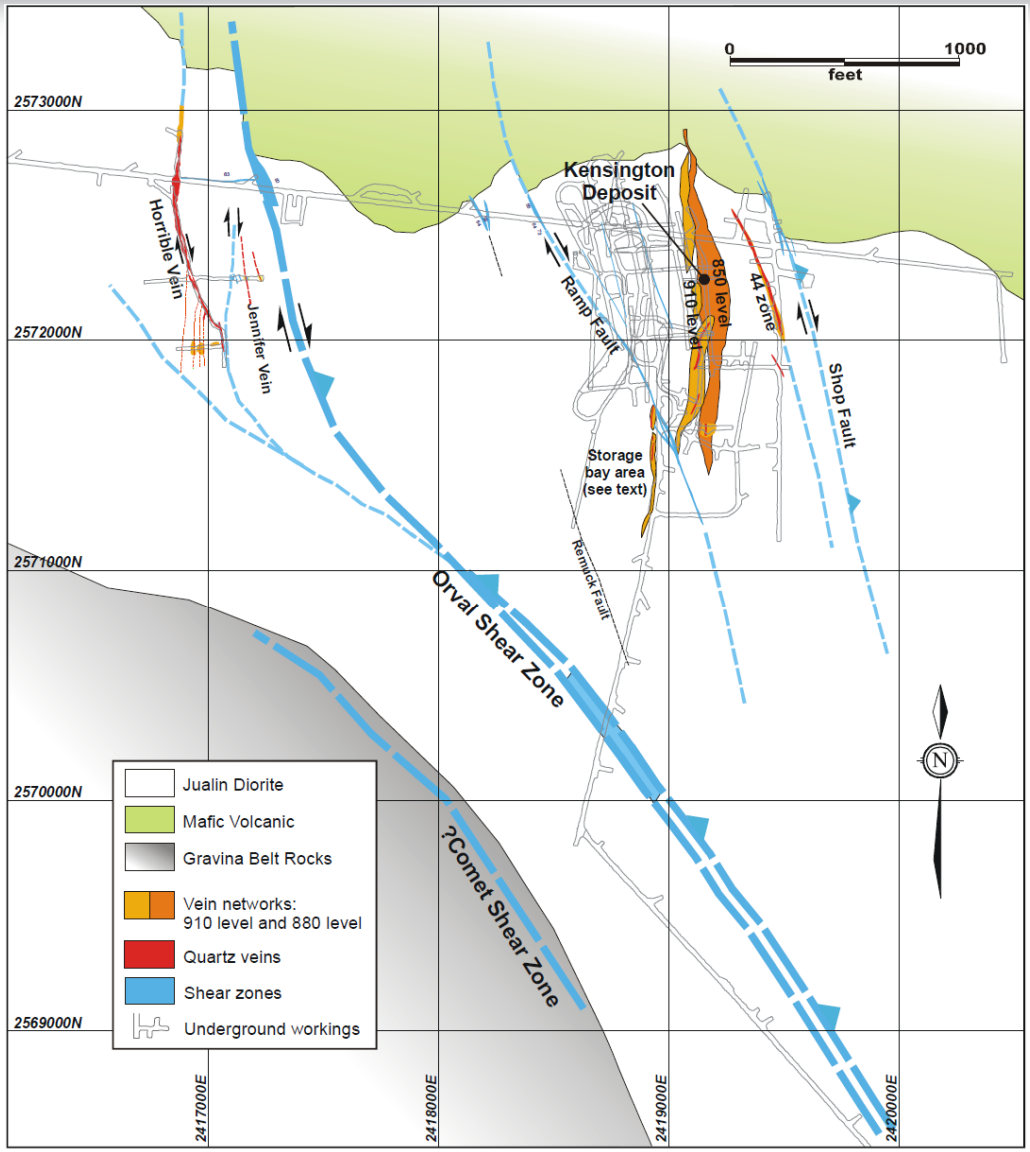

- Sample remaining drilled ore to determine if a heap leach resource is present
  - Metallurgical testwork needed to determine if recoverable
  - Could improve strip ratio
- Deeper drilling to look for higher-grade mineral zones
  - Could enable an improved mine plan

Kensington Exploration

Kensington: Structure and Geology are Key!

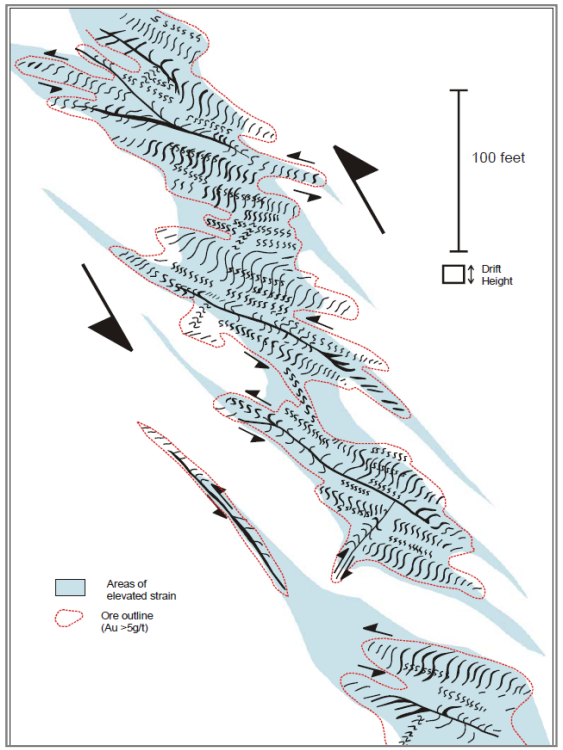

Figure 1: Setting of the Kensington Deposit, showing interpreted shear zone patterns.
Compiled from field observations and mine plans.

K14-X05	4.4	3.416

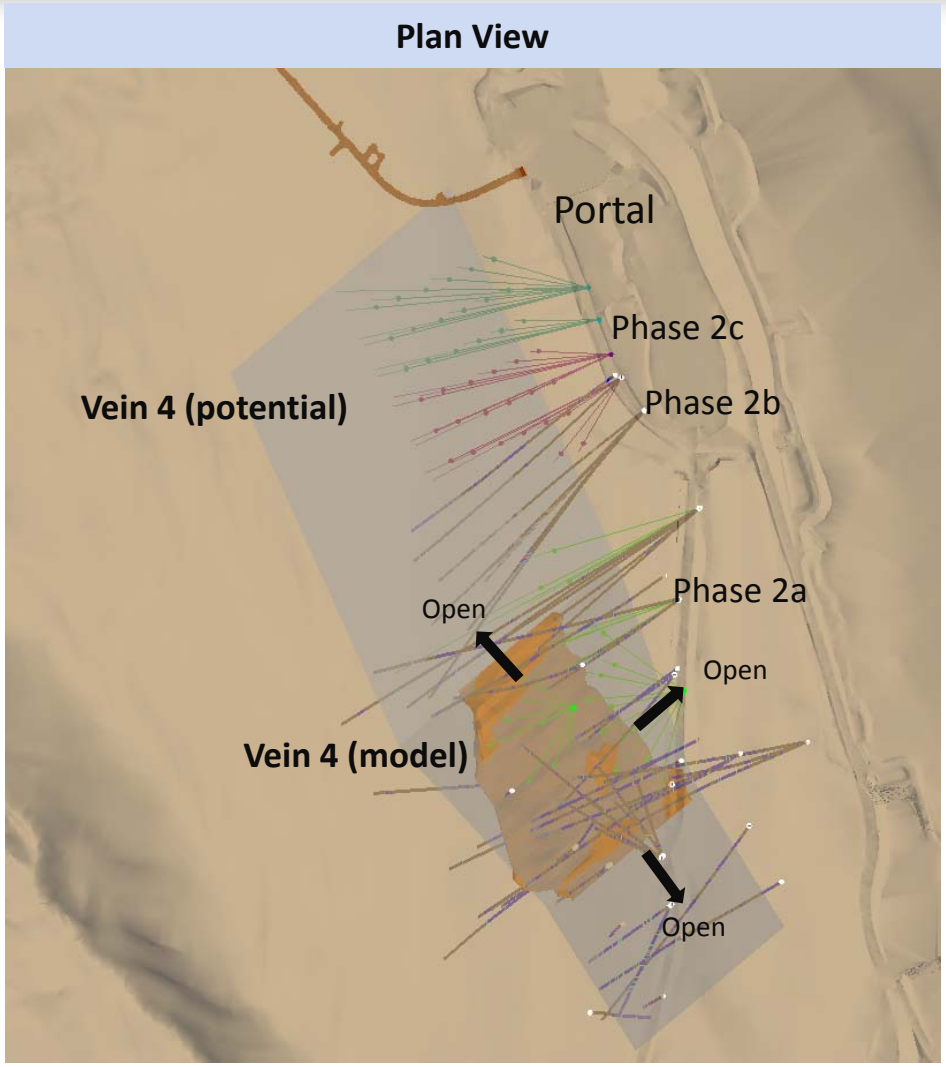

Kensington Long Section - Looking Northwest

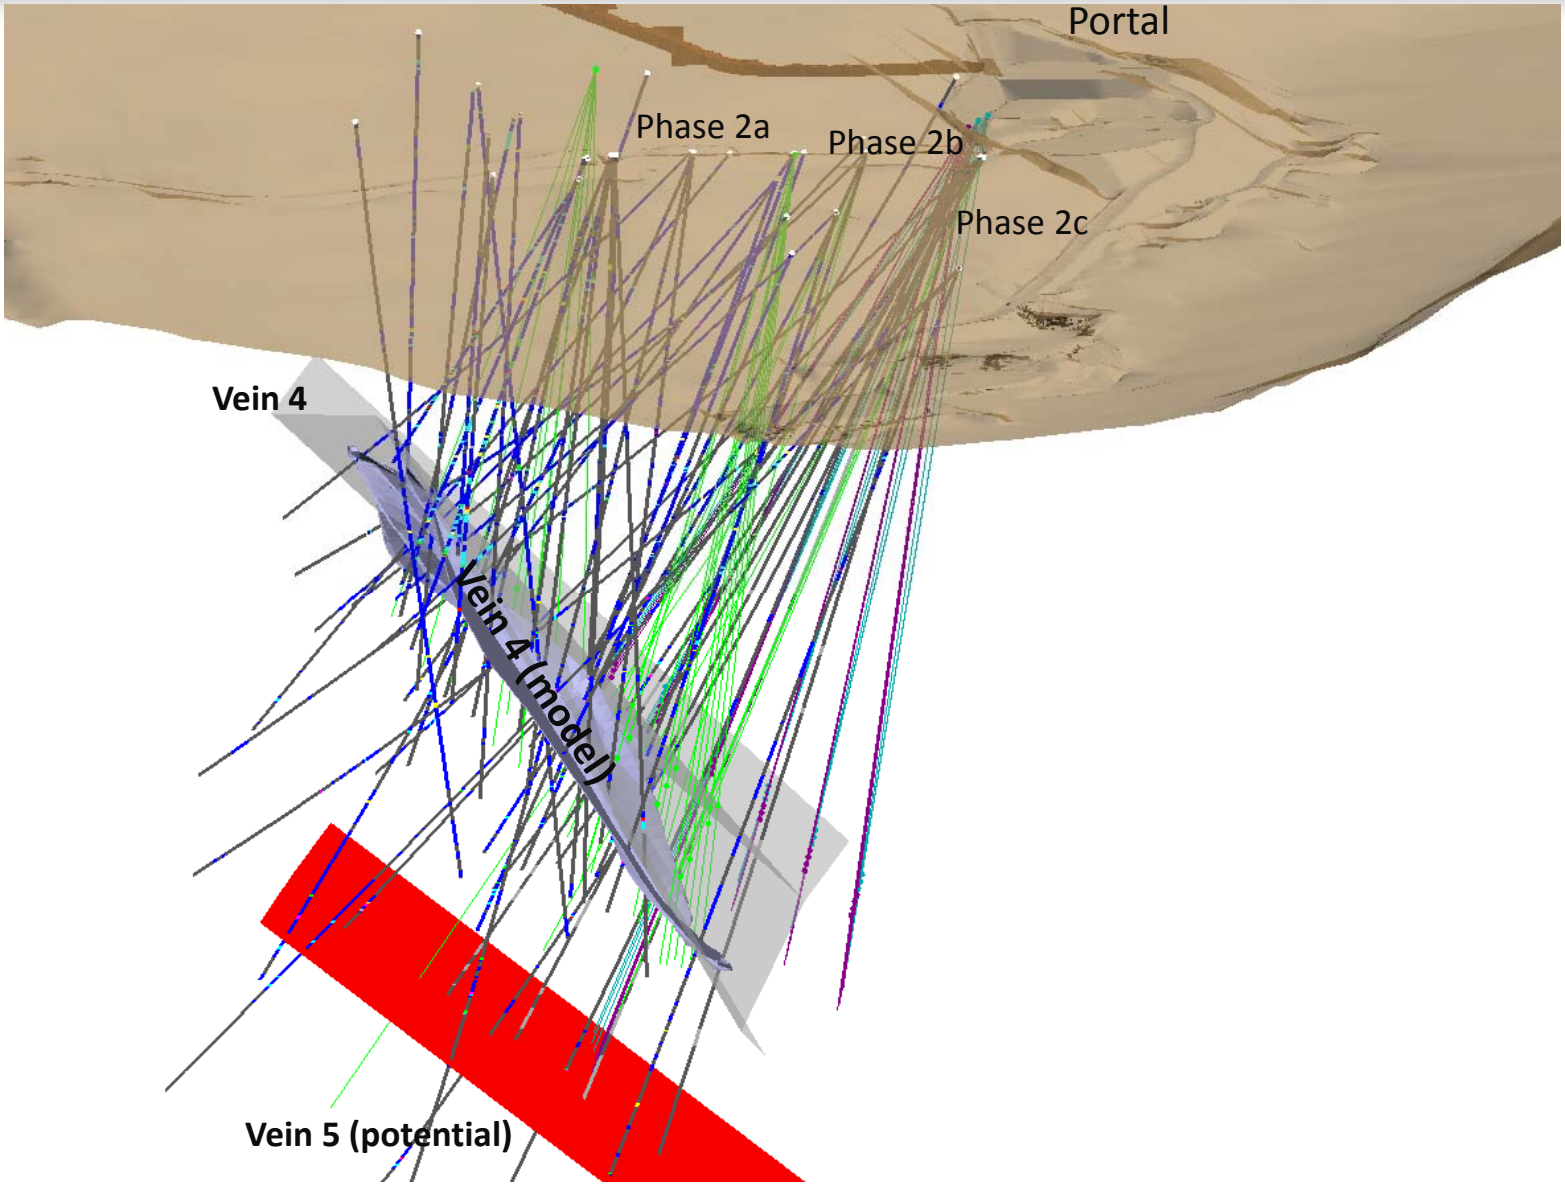

Jualin Vein 4: Targeting Resource Estimate by Year-End 2014

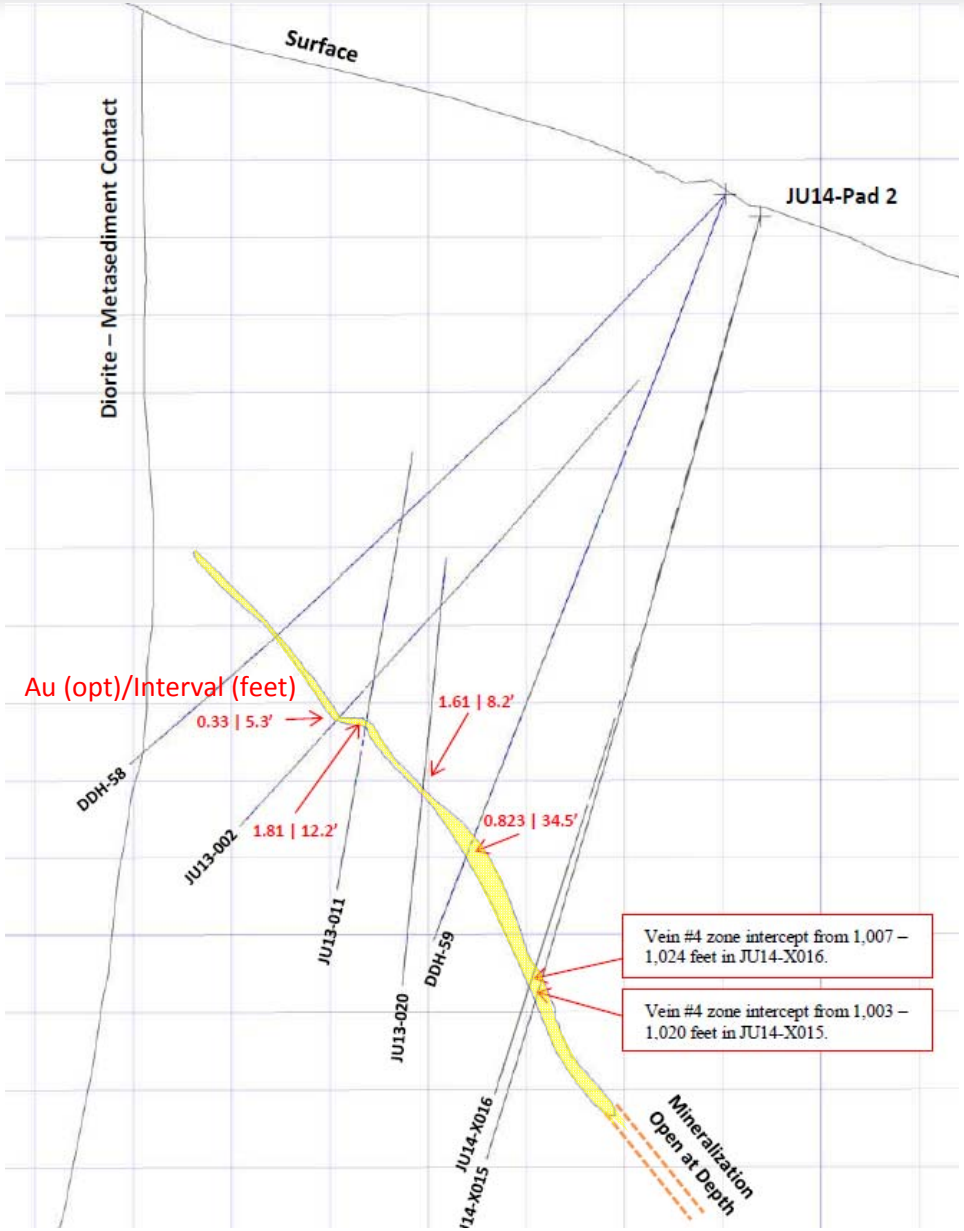

- Drilling is from easily accessible patented ground
- Potential to add quickly to mine reserves
- Coeur believes the average grade at Jualin may be significantly above current average reserve grade at Kensington based on historic estimates and recent drill results
- Targeting development in 2015-2016 and mining in 2017

Jualin Vein 4 and 5: Sub-Surface Section View Looking North

Video: Category 2 Drilling Planned for 2015

Grade is King: Kensington Example

Compared to recent quarters, costs in 4Q 2013 were ~33% lower, attributable to ~50% higher gold grades

	3Q 2014	2Q 2014	1Q 2014	4Q 2013
Tons milled	145,097	163,749	159,697	149,246
Average gold grade (oz/t)	0.23	0.18	0.17	0.26
Gold ounces produced	30,773	28,089	25,428	36,469
Costs applicable to sales per gold ounce[1]	TBA	$1,008	$1,005	$677

- 4Q 2013 performance highlights significant impact higher gold grade has on unit costs
- Substantially higher gold grade drove a 10% sequential increase in gold production in 3Q 2014, despite an 11% decline in tons milled
- Key opportunity to reduce cost per ounce lies in improving the grade of material milled
- **Exploration in recent quarters focused on higher-grade structures including Zones 10/20, Raven, and Jualin**

1. Excludes amortization.

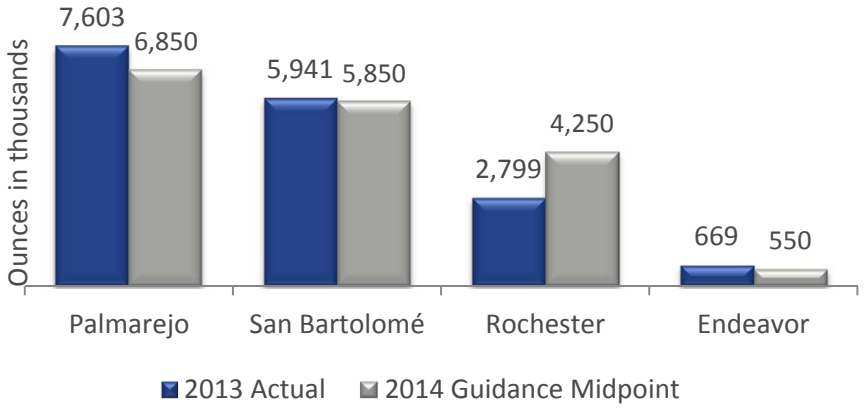

Near-Term Items to Watch……

- Resource estimate for Jualin and new mine plan at Kensington early 2015
- Continued ramp up of production at Rochester and progress of POA 10 expansion plans
- Production start and ramp up at Guadalupe and the transition to an underground-only operation
- Further cost reductions and improved efficiency
- Continued cash conservation while maintaining low net debt

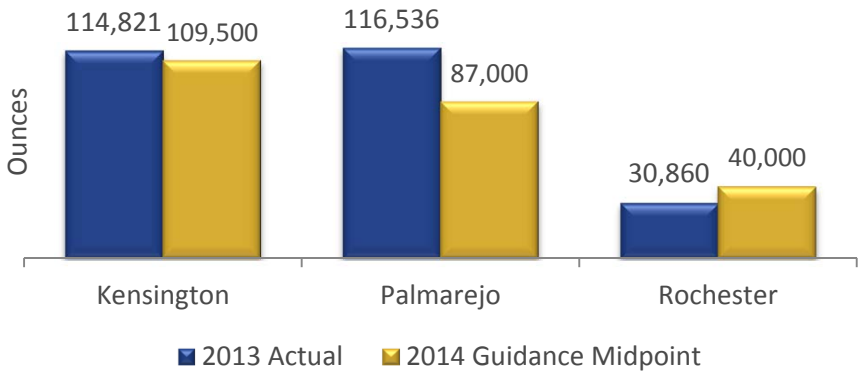

Appendix

2014 Guidance

Silver Production

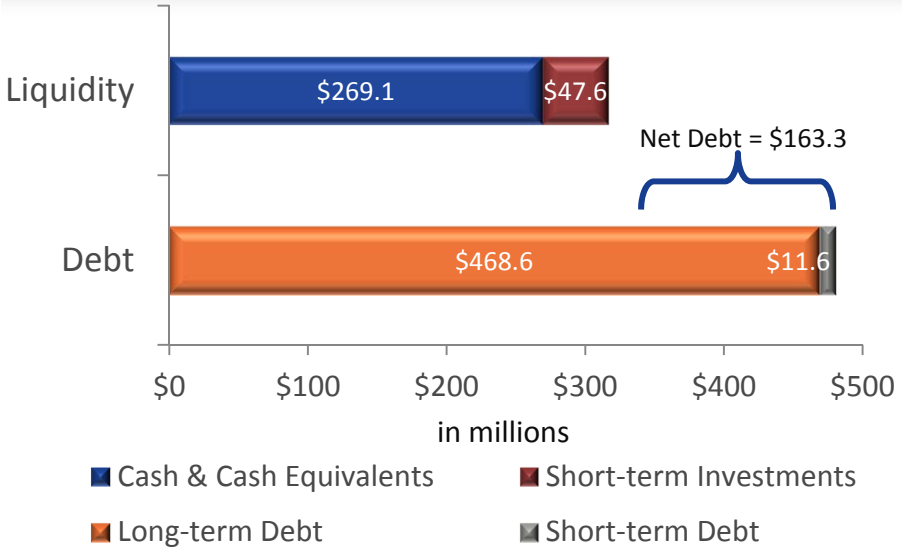

Gold Production

in millions	2013 Actual	2014 Guidance
Capital expenditures	$101	$65-$80
Production costs applicable to sales	$464	$490-$510
Exploration (expensed and capitalized)	$34	$23-$28
General and administrative	$55	$43-$48
Amortization	$233	$190

Guidance as of October 6, 2014.

Well-Capitalized with Financial Flexibility and Low Net Debt

As of June 30, 2014.

Balance Sheet Strategy

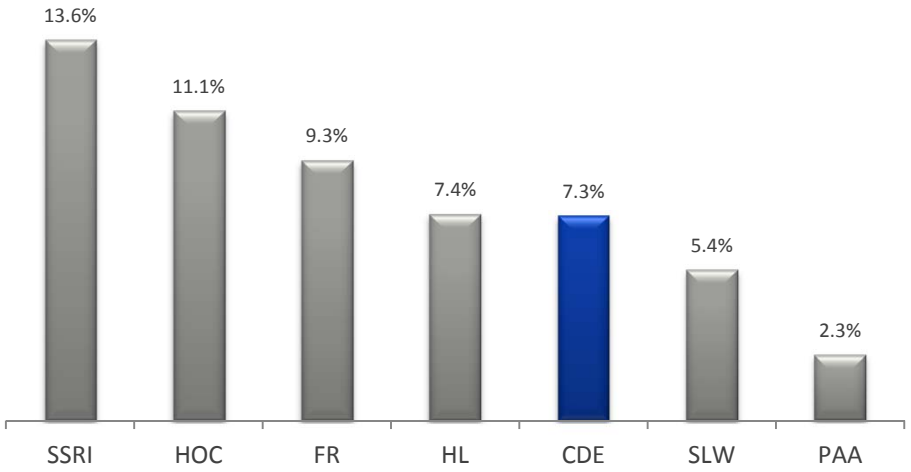

- Flexibility and simplicity
- 3x maximum total debt leverage
- Avoid maintenance covenants/secured financings to the extent possible
- Long-life assets reflect long-term recoverable valuations
- Long-dated maturities
- Utilize balance sheet if/when/as appropriate to achieve best returns for equity
- Provide a basis for improved credit rating over time

Summary balance sheet *(in millions)*	Sep 30, 2013	Dec 31, 2013	Mar 31, 2014	June 30, 2014
Cash, cash equivalents, and short-term investments	$211.4	$206.7	$318.6	$316.8
Total debt	$310.2	$308.6	$464.2	$480.1
Net debt	$98.8	$101.9	$145.7	$163.3
LTM Adjusted EBITDA[1]	$232.4	$192.8	$147.2	$146.1
Total Debt / Adjusted EBITDA[1]	1.3x	1.6x	3.2x	3.3x
Net Debt / Adjusted EBITDA[1]	0.4x	0.5x	1.0x	1.1x

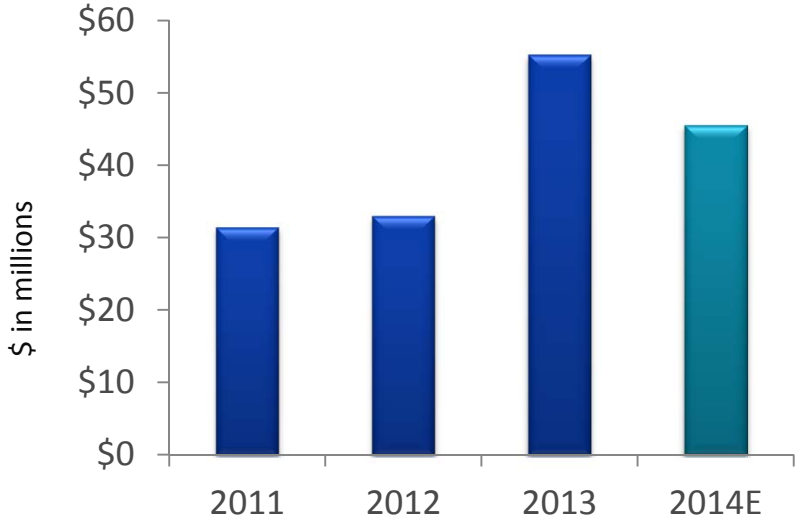

1. See non-GAAP reconciliation tables in the appendix to this presentation.

G&A Expenses Trending Down

G&A as % of Sales: Last 6 Quarters

General & Administrative Expenses

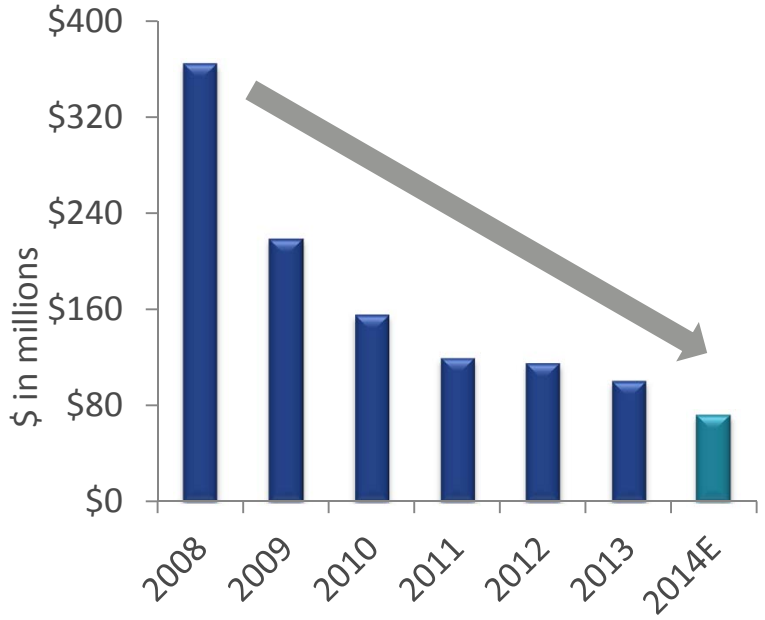

- Investments in administrative infrastructure have increased G&A compared to pre-2013 levels
  - Established capital projects and operations support groups
  - Upgraded information technology systems
  - Developed best practices including a more robust way to centralize our planning, standardize procedures, and capture data to track progress, monitor costs, and identify opportunities to become more efficient
  - Scalable model can better support future growth in the organization

Investments in G&A are key to reducing and managing risk and lowering operating expenses

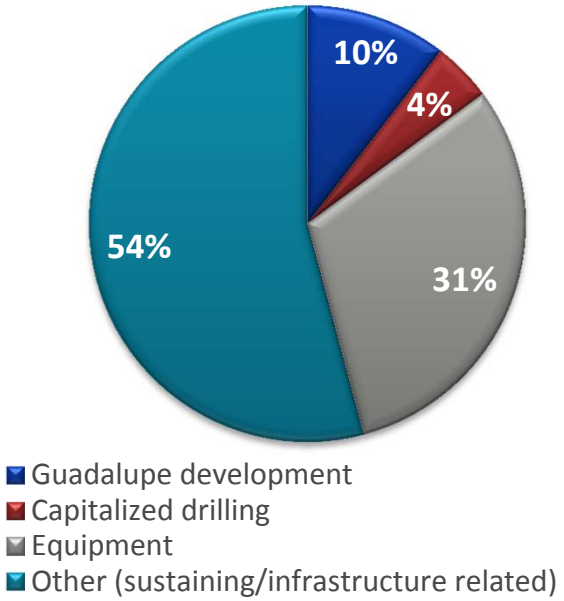

2014E represents the midpoint of guidance as of October 6, 2014.

Capital Expenditures Significantly Reduced

Past and Projected Capital Expenditures

2014E Capital Expenditures Plans

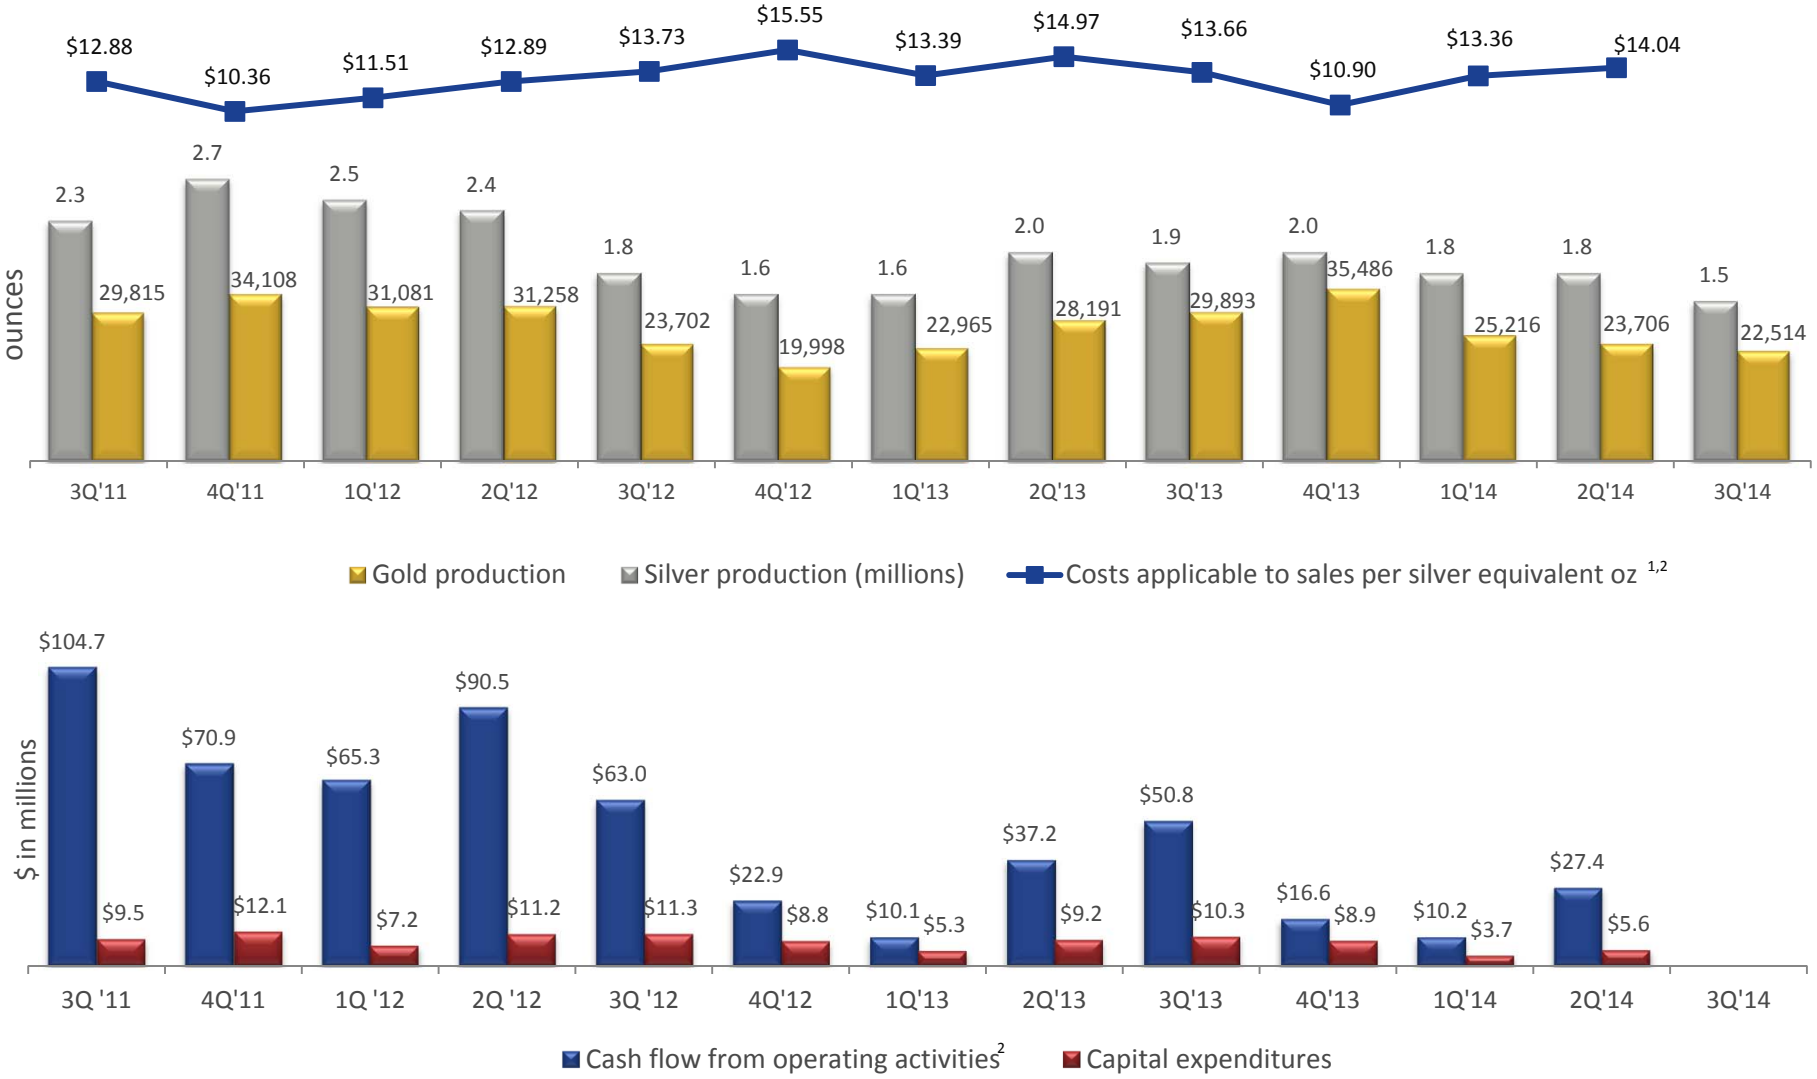

- No major capital projects in progress; 2014 capex forecast is primarily maintenance related

2014E represents the midpoint of guidance as of October 6, 2014.

Cash Flow Protection Strategy

- Coeur maintains a targeted cash flow protection program with the following objectives:
  - Maintain simplicity
  - Protect downside metal price exposure while retaining the upside potential
  - Purchase put options to protect some of expected production against a sharp drop in metal prices
  - Sell intra-quarter out-of-the money call options when appropriate to offset the cost of puts
  - Avoid margin agreements
- Hedges in place for each quarter through 1Q 2015 production:
  - Put spreads covering 1.25 million ounces of silver each quarter
    - Buyer of put options with $18/oz strike price
    - Seller of put options with $16/oz strike price
  - Put spreads covering 25,000 ounces of gold each quarter (24,000 for 1Q 2015)
    - Buyer of put options with $1,200/oz strike price
    - Seller of put options with $1,050/oz strike price
- Coeur also has in place a liquidity and capital preservation strategy in the event of a sustained weaker price environment

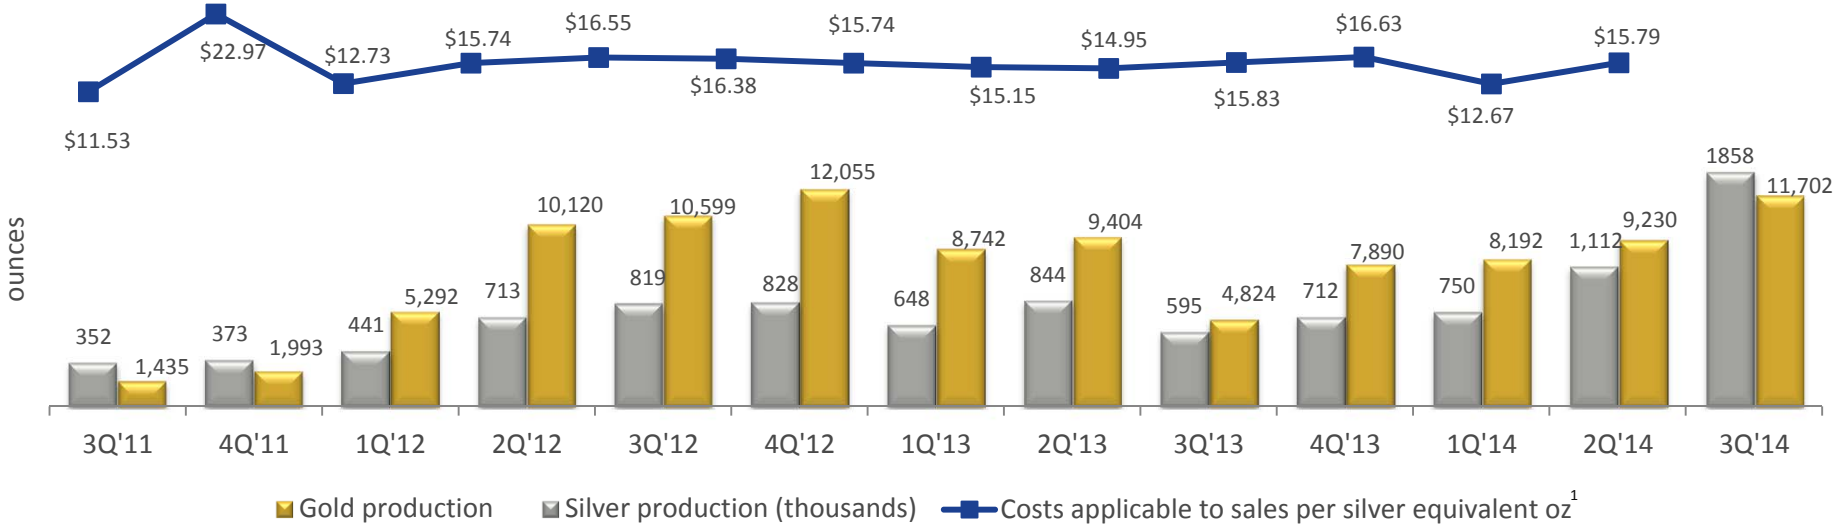

Palmarejo: Transitioning to Lower Tonnage, Higher-Grade, Higher-Margin Operation

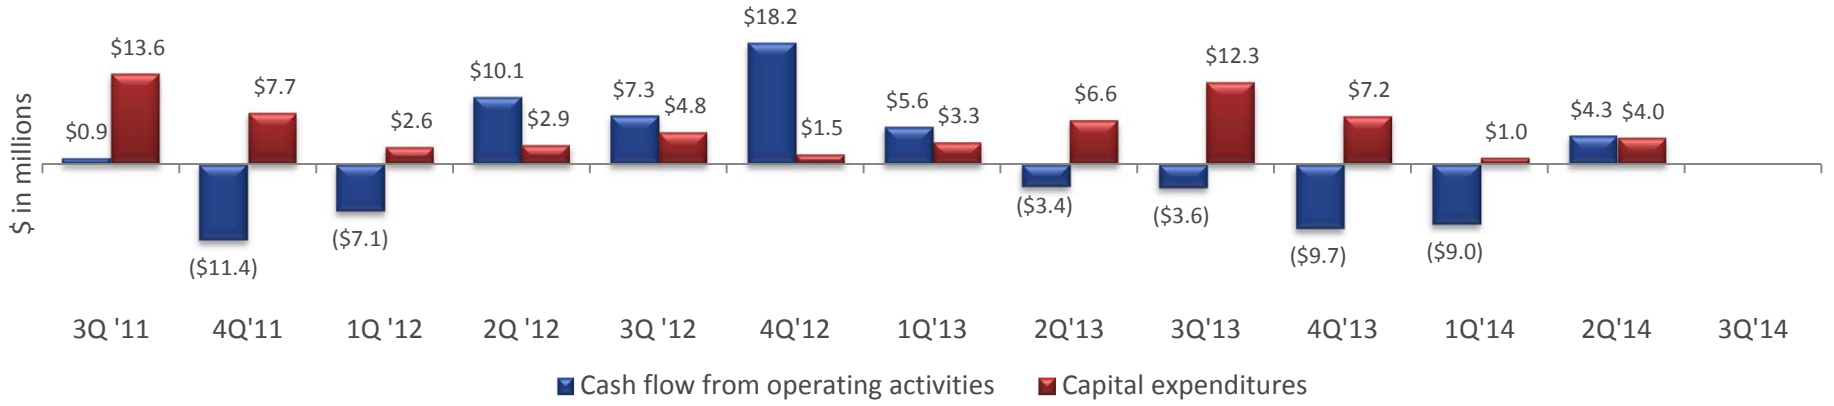

1. See non-GAAP reconciliation tables in the appendix to this presentation.
2. Excludes gold production royalty payments to Franco Nevada.

Rochester: Increased Silver and Gold Production Drives Highest Cash Flow in More than a Year

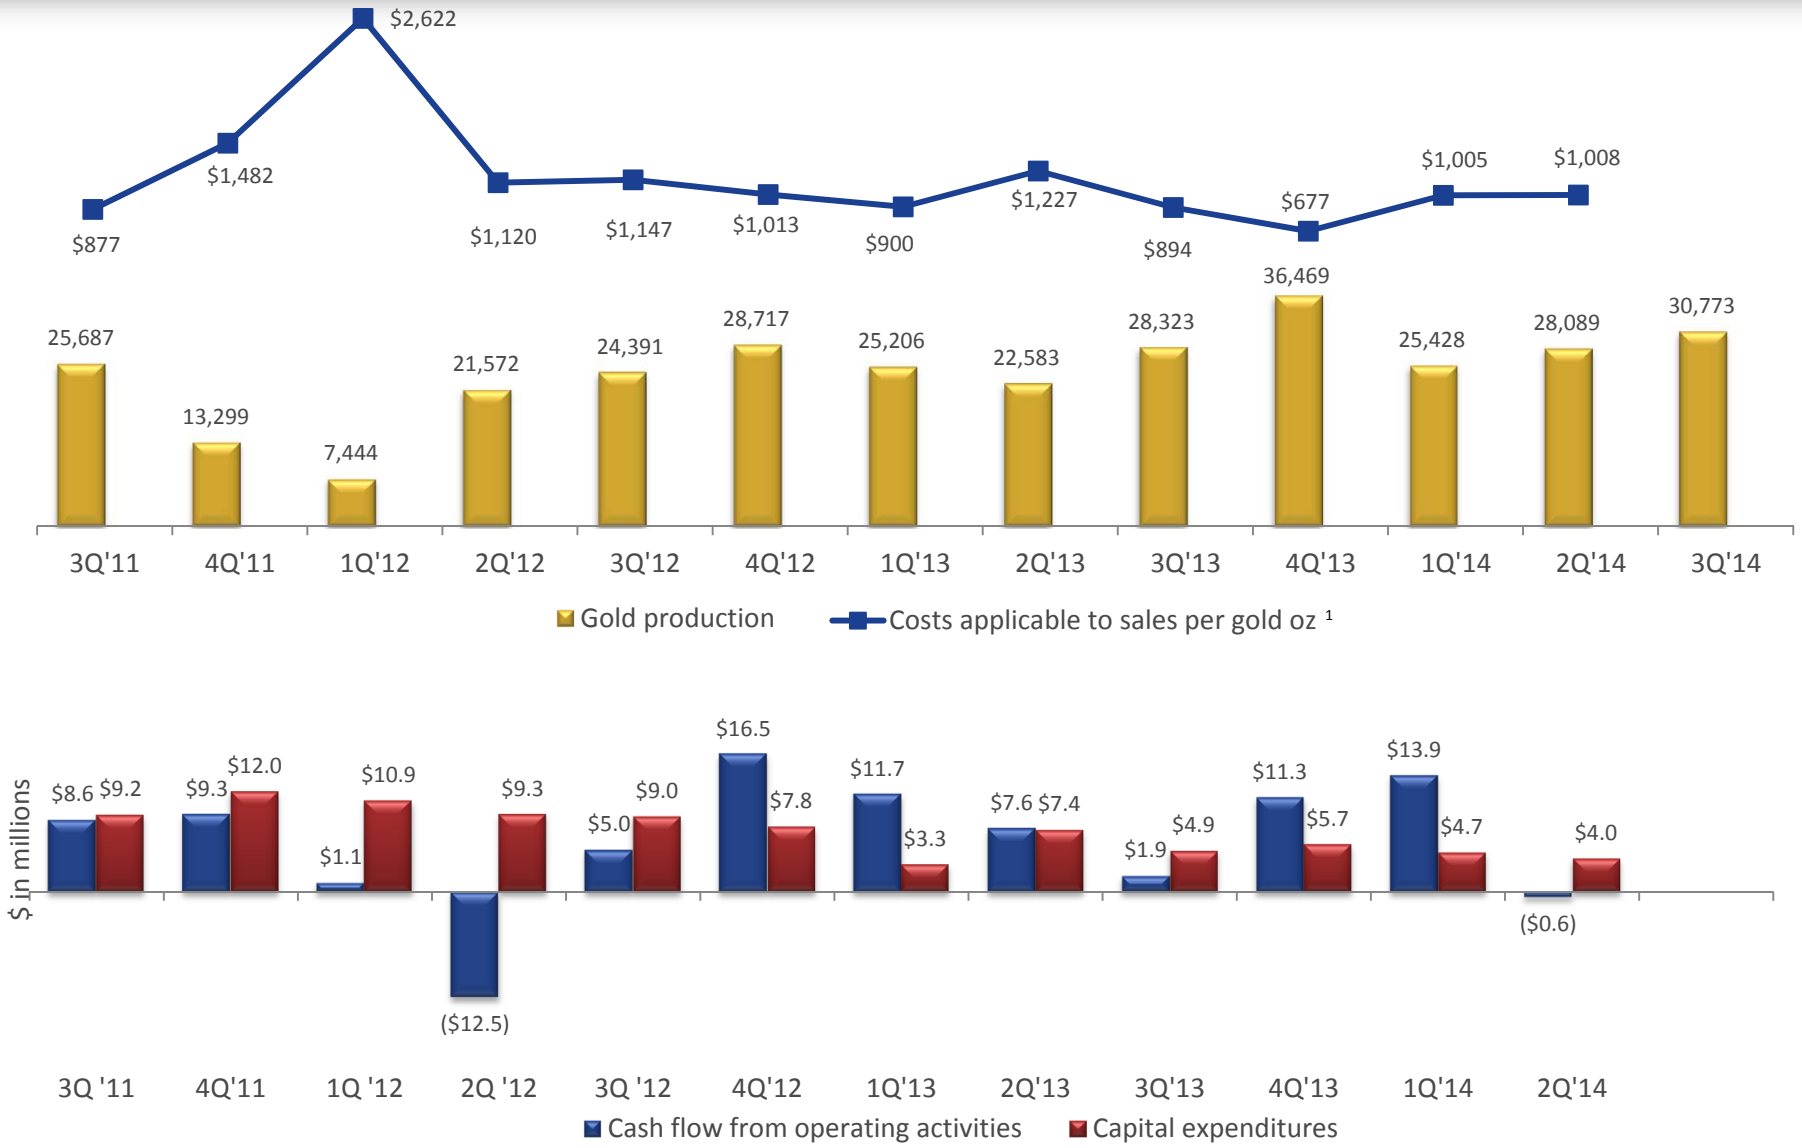

1. See non-GAAP reconciliation tables in the appendix to this presentation.

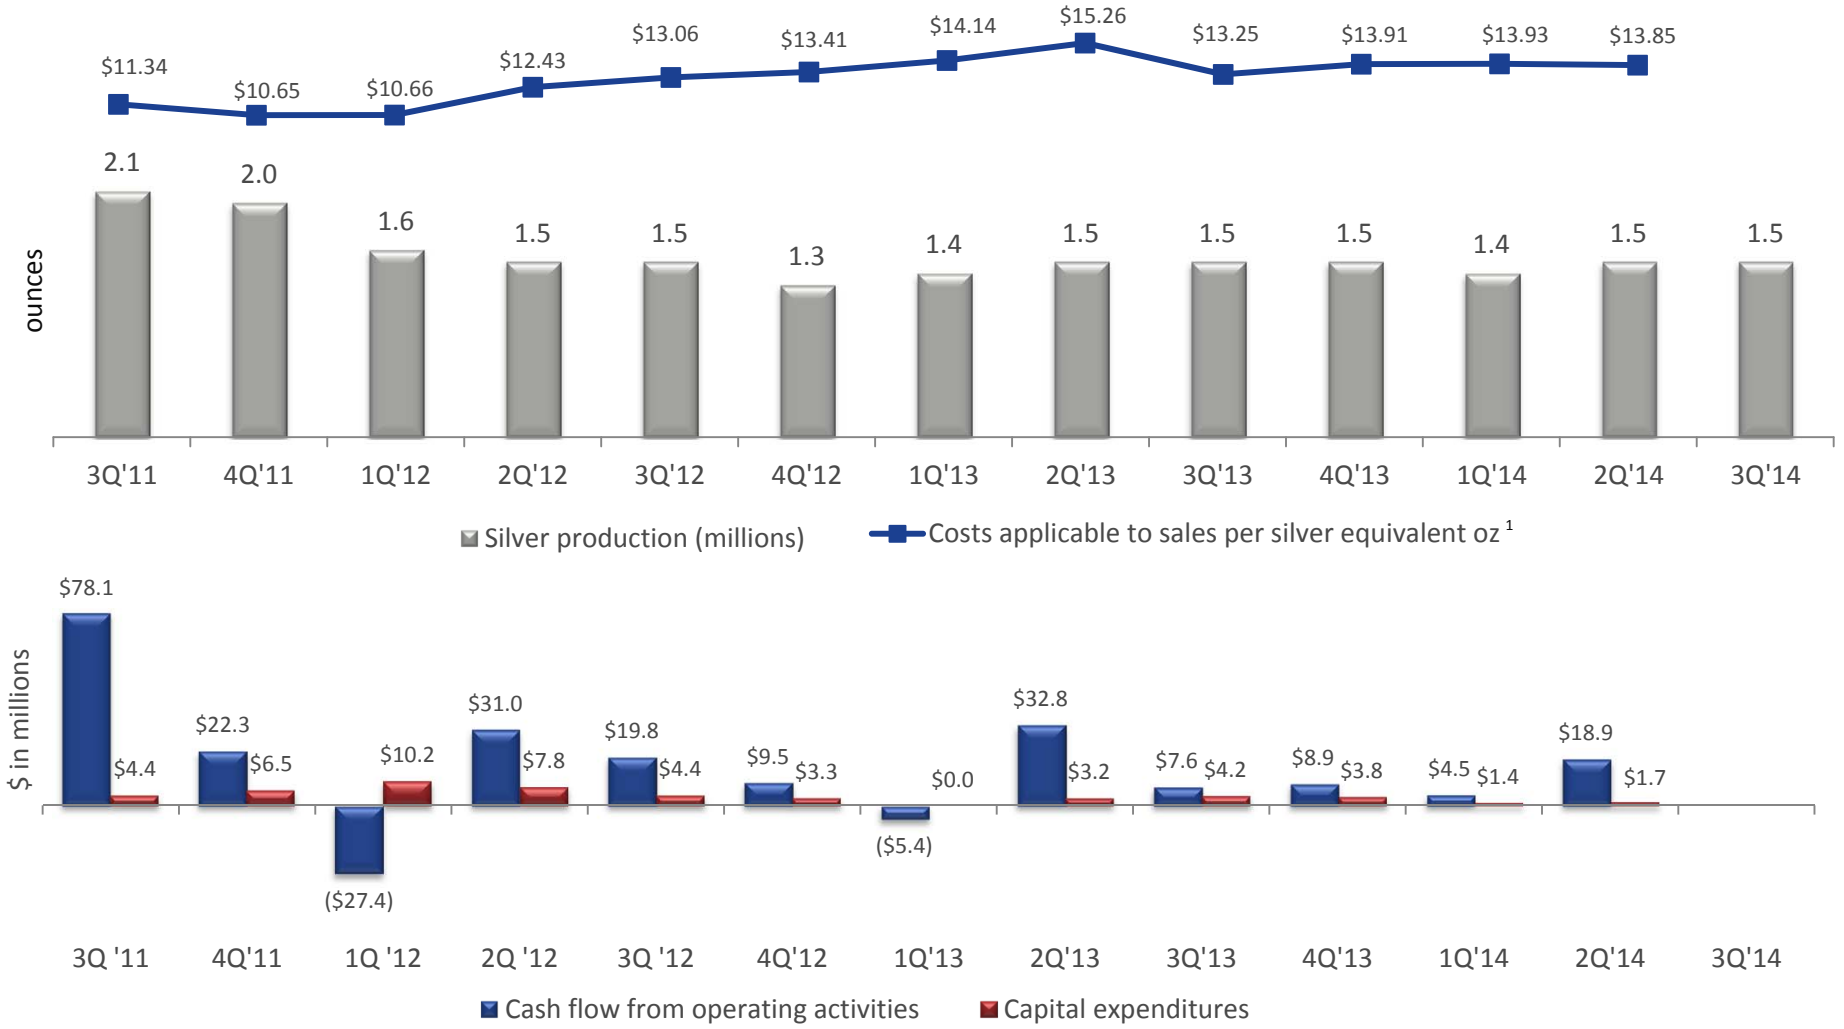

Kensington: Improved Consistency of Production, Cash Flow, and Costs

1. See non-GAAP reconciliation tables in the appendix to this presentation.

San Bartolomé: Expect Continued Stable Production and Costs in 2014

1. See non-GAAP reconciliation tables in the appendix to this presentation.

Notes:

1. Drill intercepts from 5,064 assays from full and half HQ and NQ core for infill holes, samples prepared at Kensington Mine, Juneau, AK, and at ALS-Chemex Labs, Reno, NV with final sample preparation to pulp and analyses at ALS-Chemex Labs, Reno, NV.
2. Samples were analyzed by 30 gram fire assay with atomic absorption finish for Au <1 ppm or by 1000 gram Metallic Screen.
3. Drill intercepts calculated at 0.05 oz/ton Au. Maximum of 5 feet of internal dilution (less than cutoff) permitted in compositing. "Including" calculated at 0.15 cut-off grade.
4. All assays uncapped.
5. External QA/QC checks performed at ALS-Chemex Labs, Reno, NV consisting of 299 duplicates and 313 standards and 313 blanks.
6. External QA/QC checks were sent during June 2014.

Coeur's Inferred Mineral Resources

	Location	Short tons	Grade (oz/ton)		Ounces (contained)	
			Silver	Gold	Silver	Gold
Inferred Resources						
Rochester	Nevada, USA	37,365,000	0.62	0.003	23,295,000	101,000
Martha	Argentina	204,000	4.75	0.005	969,000	1,000
San Bartolomé	Bolivia	3,683,000	1.26	—	4,638,000	—
Kensington	Alaska, USA	1,014,000	—	0.259	—	263,000
Endeavor	Australia	1,653,000	2.86	—	4,726,000	—
Palmarejo	Mexico	11,611,000	1.91	0.053	22,188,000	621,000
Joaquin	Argentina	1,022,000	3.02	0.004	3,084,000	4,000
Lejano	Argentina	3,307,000	1.73	0.006	5,713,000	19,000
La Preciosa	Mexico	2,082,000	2.26	0.004	4,705,000	8,000
Total Inferred Resources		**61,941,000**			**69,318,000**	**1,017,000**

Notes to the above mineral reserves and resources:

1. Effective December 31, 2013 except Endeavor, effective June 30, 2013, and La Preciosa, effective July 29, 2014.
2. Metal prices used for mineral reserves were $25.00 per ounce of silver and $1,450 per ounce of gold, except Endeavor, at $2,300 per metric ton of lead, $2,300 per metric ton of zinc, and $34.00 per ounce of silver, and La Preciosa at $22.00 per ounce of silver and $1,350 per ounce of gold. Metal prices used for mineral resources were $29.00 per ounce of silver and $1,600 per ounce of gold, except for Endeavor, at $2,300 per metric ton of lead, $2,300 per metric ton of zinc and $34.00 per ounce of silver, and La Preciosa at $25.00 per ounce of silver and $1,400 per ounce of gold.
3. Palmarejo mineral resources (measured, indicated, and inferred) reported above represent the sum of Palmarejo, Guadalupe, and La Patria resources.
4. Kensington proven and probable reserves adjusted April 2014 to reduce the grade of internal dilution to zero.
5. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized.
6. Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
7. For details on the estimation of mineral resources and reserves for each property, please refer to the relevant NI 43-101-compliant Technical Report on file at www.sedar.com.

Strategic Investments

- Apogee Silver (Pulacayo-Paca project, Bolivia and Cachinal project, Chile; 6.4% ownership interest):
  - Environmental Impact Assessment approved by Bolivia's Ministry of Environment and Water
- Caracara Silver (Princesa project, Peru; 3.2% ownership interest):
  - 3,049 meter drill program completed at Princesa; Option agreement terminated
- Commonwealth Silver and Gold (Commonwealth project, Arizona; 6.5% ownership interest):
  - Completed positive Preliminary Economic Assessment
- Huldra Silver (Treasure Mountain project, British Columbia, Canada; 7.0% ownership interest):
  - Entered CCAA protection, obtained DIP Financing and is reviewing strategic options
- Idaho North Resources (Eagleville project, Nevada; 11.3% ownership interest):
  - Newly-listed exploration company with a focus on western Nevada; Divide and Klondike properties located in prolific Tonopah silver-gold district
- International Northair Mines (La Cigarra project, Chihuahua, Mexico; 13.6% ownership interest):
  - Increased land position for continued exploration and possible future development
- Orex Minerals (Los Crestones project, Sinaloa, Mexico; 1.6% ownership interest):
  - Commenced drilling at Coneto and Jumping Josephine; began geophysics survey on Los Crestones
- Silver Bull Resources (Sierra Mojada project, Coahuila Mexico; 6.4% ownership interest):
  - Completed positive Preliminary Economic Assessment indicating 18 year mine life with 5.5 million ounce per year at cash costs per ounce of $6.58
- Soltoro (El Rayo project, Jalisco, Mexico; 6.8% ownership interest):
  - Continued exploration at Tecolote

Note: The above information and data is from publically available sources.

Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. Mr. Krebs joined Coeur in 1995 after spending several years in the investment banking industry in New York. Mr. Krebs has held various positions in the corporate development department, including Senior Vice President of Corporate Development. In March, 2008, Mr. Krebs was named Chief Financial Officer, a position he held until being appointed President and CEO in July 2011.

Peter C. Mitchell – Senior Vice President and Chief Financial Officer. Mr. Mitchell came to Coeur from Taseko Mines Limited where he served as Chief Financial Officer, leading Taseko's financial operations, including sourcing strategic capital to fund the company's strategic growth plan. Previously, Mr. Mitchell was involved in leading and managing growth in private equity portfolio companies through acquisitions, integrations and greenfield initiatives.

Frank L. Hanagarne, Jr. – Senior Vice President and Chief Operating Officer. Mr. Hanagarne was most recently Chief Operating Officer of Valcambi, SA, a precious metal refiner in Switzerland. Prior to his appointment as operations head of Valcambi in early 2011, Mr. Hanagarne was a Director of Corporate Development for Newmont Mining Corporation. Mr. Hanagarne's 17 years of service at Newmont has included positions of increasing responsibility within key areas of Newmont's operations and business functions as well as environmental, health and safety.

Joe Phillips – Senior Vice President and Chief Development Officer. Mr. Phillips has extensive experience in mine development and operations and has a proven record of leadership and team building resulting in successfully building mines on time and on budget. Mr. Phillips comes to Coeur from Silver Standard Resources where he served as Senior Vice President of Operations and Development and acting Chief Operating Officer. Prior to that, Mr. Phillips served as Senior Vice President of Project Development at Pan American Silver.

Humberto Rada – President, Coeur South America and of Coeur's Bolivian subsidiary Empresa Minera Manquiri, S.A. Prior to joining Coeur in July 2008, Mr. Rada served as General Manager for Newmont Mining Corporation's Bolivian company Inti Raymi. Mr. Rada is currently President of Bolivia's National Mining Association and has over 23 years of experience in South American mining and finance.

Mike Harrison – Vice President, Corporate Development. Prior to joining Coeur, Mr. Harrison was Director of Investment Banking for the Mining Group at Cormark Securities Inc. in Toronto, Canada. In addition to seven years of investment banking experience, Mr. Harrison spent eight years in BHP Billiton's Global Exploration Group.

Keagan J. Kerr – Vice President, Human Resources and Communication. Mr. Kerr leads the organization in all aspects of human resource and corporate communication programs across Coeur's operating regions-including employee and public relations, executive compensation, talent attraction, leadership development and strengthening of organization capability. He has a track record of accomplishment in large scale mining operations on multiple continents through various leadership roles with Barrick Gold Corporation.

Casey M. Nault – Vice President, General Counsel and Secretary. Mr. Nault has extensive experience as a corporate and securities lawyer, including prior in-house positions with Starbucks and Washington Mutual and law firm experience with Graham & Dunn in Seattle and Gibson, Dunn & Crutcher in Los Angeles. His experience includes securities compliance and SEC reporting, corporate governance, mergers and acquisitions, public and private securities offerings and other strategic transactions.

Hans Rasmussen – Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco and Quadra Mining. Since 2004, he has been an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia.

Board of Directors

Robert E.
