Annual Meeting of Stockholders

COEUR MINING®

NYSE: CDE

Mitchell J. Krebs, President, CEO, & Director

Chicago, IL

May 12, 2015

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements regarding anticipated repositioning, cash flow, returns, value creation, risk mitigation, rates of return, creation of project pipelines, production, costs, grades, margins, the re-scoped mine plan at Kensington and development of the Jualin deposit, the anticipated benefits of the Wharf and Paramount acquisitions, capital expenditures, Guadalupe underground mining rates, POA 10 approval at Rochester, development of the Independencia deposit at Palmarejo, and open-pit and underground mining operations at Palmarejo. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause Coeur's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that some or all of the anticipated benefits of the Wharf and Paramount acquisitions will not be realized, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), changes in the market prices of gold and silver and a sustained lower price environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions, grade variability, any future labor disputes or work stoppages, the uncertainties inherent in the estimation of gold and silver ore reserves, changes that could result from Coeur's future acquisition of new mining properties or businesses, reliance on third parties to operate certain mines where Coeur owns silver production and reserves and the absence of control over mining operations in which Coeur or its subsidiaries hold royalty or streaming interests and risks related to these mining operations including results of mining and exploration activities, environmental, economic and political risks of the jurisdiction in which the mining operations are located, the loss of any third-party smelter to which Coeur markets silver and gold, the effects of environmental and other governmental regulations, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt, as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Form 10-K and Form 10-Q. Actual results, developments and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward-looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

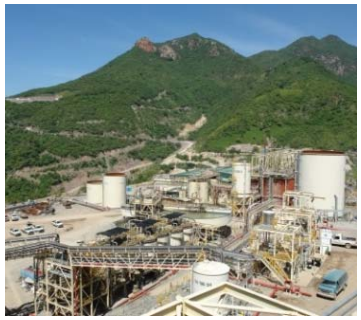

W. David Tyler, Coeur's Vice President, Technical Services and a qualified person under Canadian National Instrument 43-101, supervised the preparation of the scientific and technical information concerning Coeur's mineral projects in this presentation (which, for the avoidance of doubt, excludes the Wharf mine). Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Insofar as the re-scoped mine plan at Kensington described in this presentation is at the level of a preliminary economic assessment, it includes inferred mineral resources and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, Canadian investors should see the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at http://www.sec.gov.

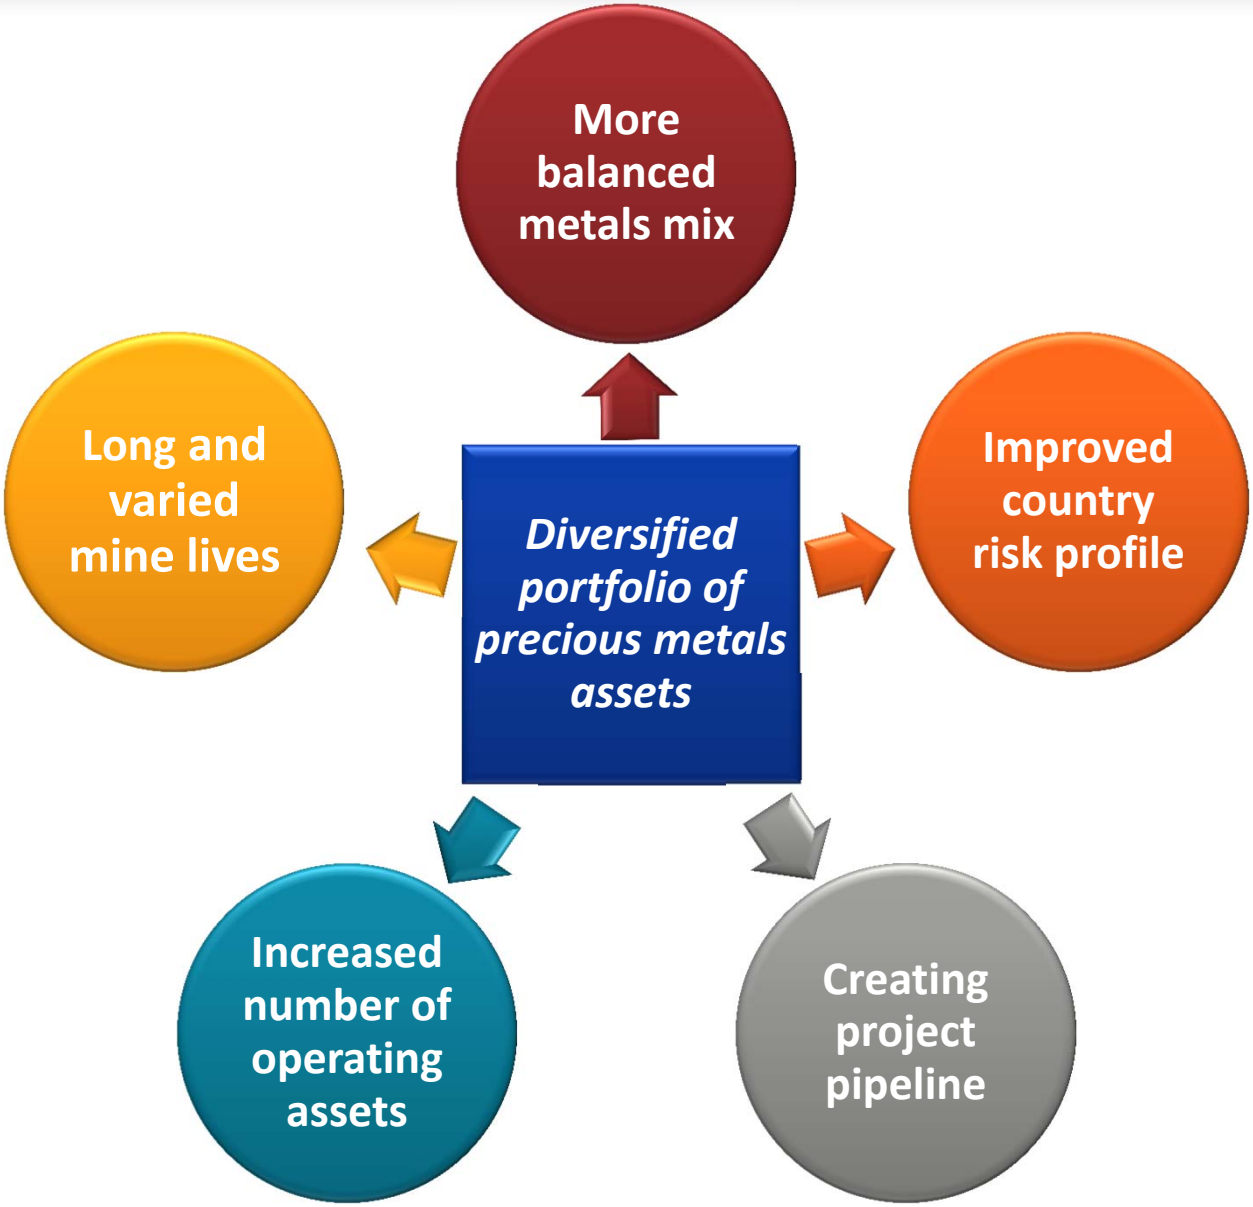

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including adjusted EBITDA, adjusted costs applicable to sales per silver equivalent ounce, and adjusted all-in sustaining costs. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted EBITDA, adjusted costs applicable to sales per silver equivalent ounce, and adjusted all-in sustaining costs are important measures in assessing the Company's overall financial performance. Gold and silver equivalence assumes silver to gold ratio of 60:1.

Investment Considerations

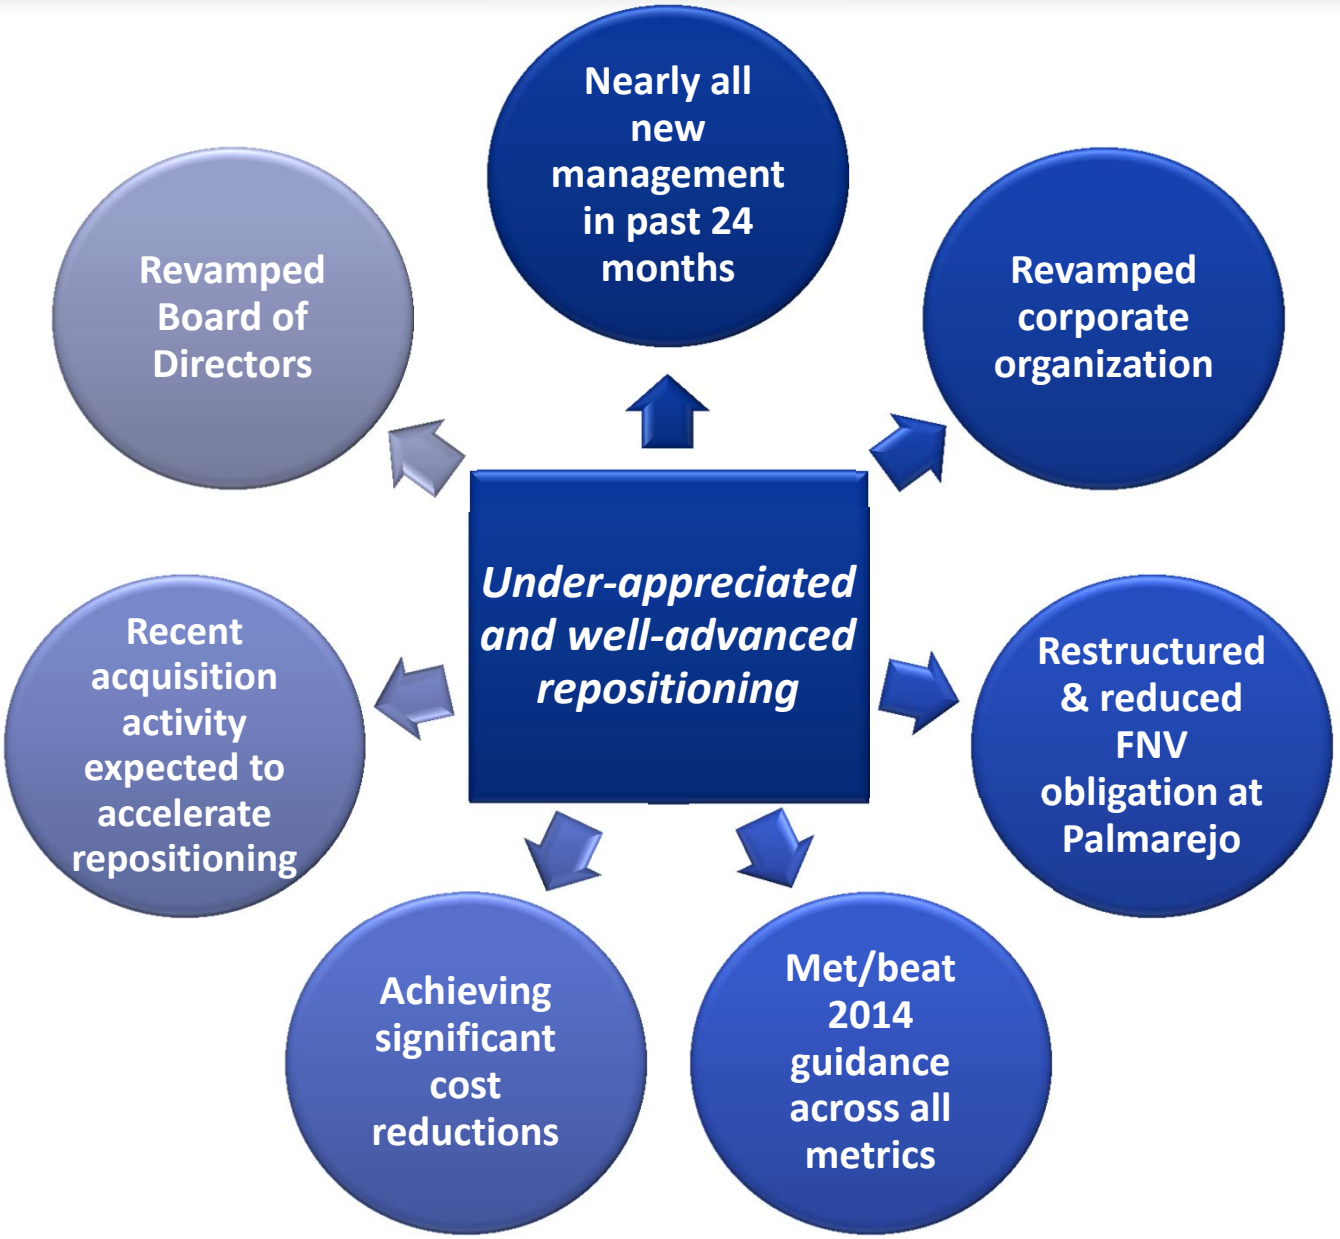

- Diversified portfolio of silver and gold assets
- Well-advanced repositioning which may not be fully appreciated in the market
- Executing strategy to reduce costs, improve returns, and drive significant future free cash flow

Palmarejo	Rochester	Kensington	San Bartolomé	Wharf
				

Creating Value & Mitigating Risk Through Diversification

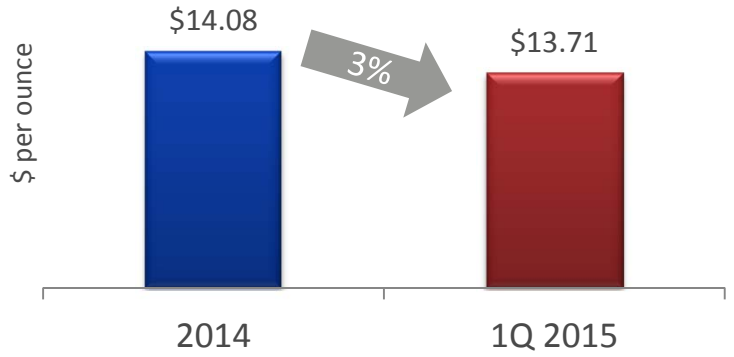

Creating Value Irrespective of Silver & Gold Prices

2. Midpoint of 2015 Guidance as of May 4, 2015.

Coeur's Repositioning is Significant and is Well Underway

Coeur is now positioned to deliver near-term, quality growth in production and free cash flow with costs expected to drop to among the lowest in the industry in 2017

	Coeur 2014	Coeur 2017
Silver Equivalent Production (millions of ounces)	32	40 - 45
Gold Equivalent Production (thousands of ounces)	533	670 - 750
Free Cash Flow (in millions)	($60)	$190 - $200
AISC per AgEq Ounce	$19	$14 - $15

Note: Coeur projections as based on price assumptions of $17.50/oz silver and $1,225/oz gold.

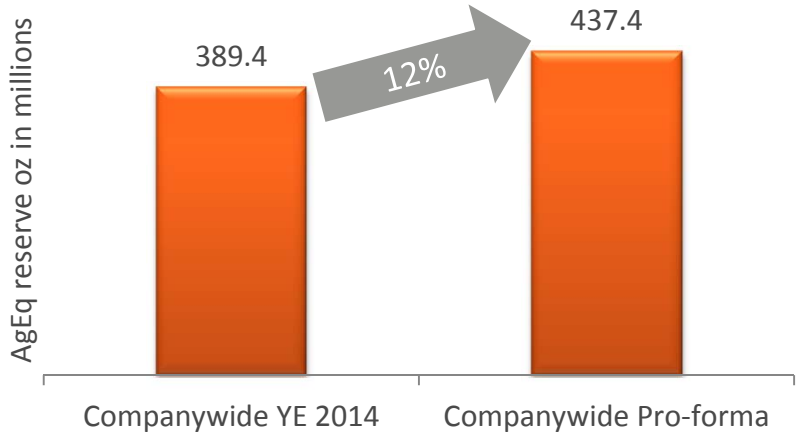

Acquisition of Paramount: What Does it Do for Coeur?

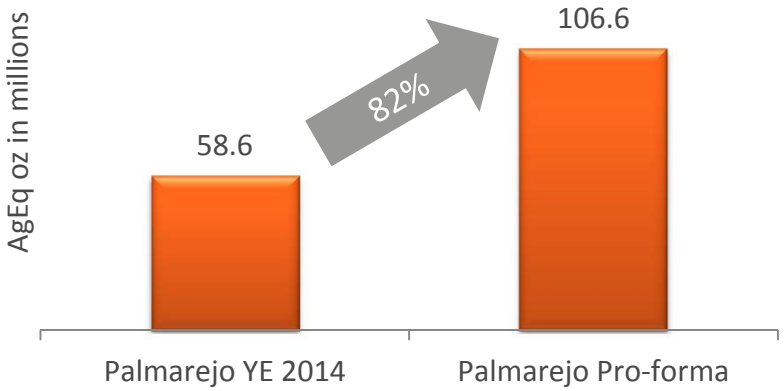

- In April 2015, Coeur acquired Paramount Gold & Silver Corp. in an all-stock transaction
  - Anticipated to be accretive on 2016 and beyond operating cash flow, free cash flow, and to NAV
  - Expected to meaningfully increase Palmarejo's production and reduce Palmarejo's and Coeur's unit costs
- Transaction consolidates a high-grade deposit previously split by a property boundary
  - The combined deposit – called Independencia – will become a second source of high-grade underground ore to supplement rising production from the nearby Guadalupe underground mine
  - Requires minimal capital of $15-$20 million to bring into production early in 2016
  - Production from the portion of the deposit previously owned by Paramount (Independencia Este) free from any non-government royalties or stream obligations
- Also adds six other silver and gold deposits next door to Palmarejo; extensive land package offers considerable upside potential through exploration, including continuation of known structures
- Palmarejo's existing mill removes need to develop stand-alone processing plant for Independencia Este and the other deposits
- Through utilization of excess processing facility capacity, Coeur anticipates the combined Independencia and Guadalupe deposits could produce an average of approximately six million ounces of silver and 110,000 ounces of gold annually over the next eight years

Palmarejo expected to be Coeur's lowest cost and largest mine by the end of 2016

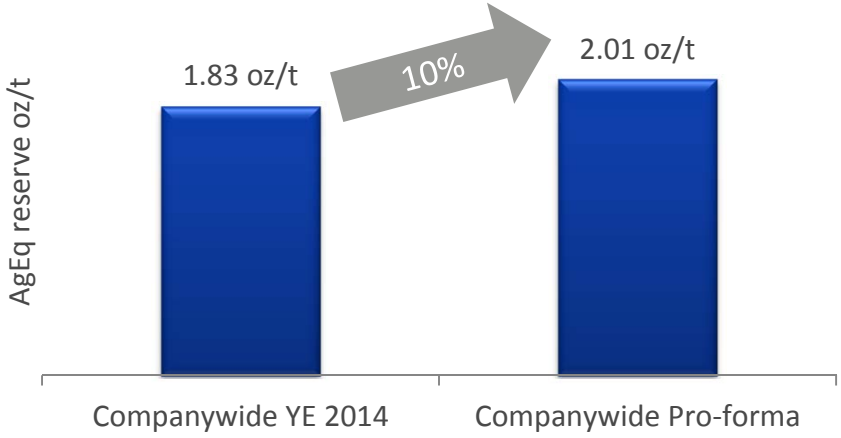

Reserves Nearly Doubled at Palmarejo; Increased Companywide Reserves 12%

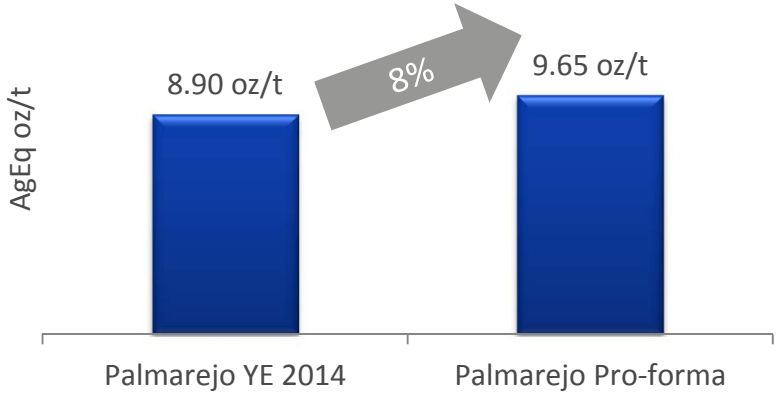

Compared to 15 months ago, Palmarejo's silver reserves have increased 30% and gold reserves have increased 54%

Compared to 15 months ago, Palmarejo's average silver and gold reserve grade has increased 32% and 55%, respectively

Pro-forma reserves represents reserves effective December 31, 2014 except the Independencia deposit at Palmarejo, effective April 23, 2015, and Endeavor, effective June 30, 2014. Does not include historical reserves at Wharf. See slides in the appendix for additional information related to mineral reserves and resources.

Acquisition of Wharf: What Did We Do?

- On February 20, 2015, Coeur closed the acquisition of the Wharf gold mine located near Lead, South Dakota from a subsidiary of Goldcorp, Inc.
- All cash transaction with a purchase price of $103 million
- Open-pit, heap leach gold mine which has produced more than 2 million ounces of gold over 30+ years
- 7 years of mine life based on existing reserves with exploration upside
- Experienced, stable, and dedicated workforce of approximately 190 employees
- Excellent health, safety, and environmental track record, progressive reclamation history, and strong social license

Acquisition of Wharf: What Does it Do for Coeur?

Immediate Boost to Cash Flow and Production	▪ Expected to increase Coeur's 2015 EBITDA by over 30% and boost free cash flow ▪ Expected to increase Coeur's 2015 AgEq production by approximately 15% ▪ Provides opportunity to take advantage of existing U.S. NOLs
Reduces Coeur's Cost Structure	▪ Wharf's costs applicable to sales expected to be $750 - $825 per AuEq ounce[1] in 2015 ▪ Minimal sustaining capital expenditures
Attractively Priced Transaction	▪ Acquisition expected to generate a return in excess of Company's mid-teen hurdle rate based on current metal prices ▪ Accretive on all key metrics ▪ No equity issuance
Improves Risk Profile	▪ Complements Coeur's existing geographic profile ▪ Coeur has a 25-year track record of successfully operating open pit, heap leach mines in the U.S. ▪ Adds stable, established source of production and cash flow to Coeur's existing portfolio ▪ Long history of reserve replacement

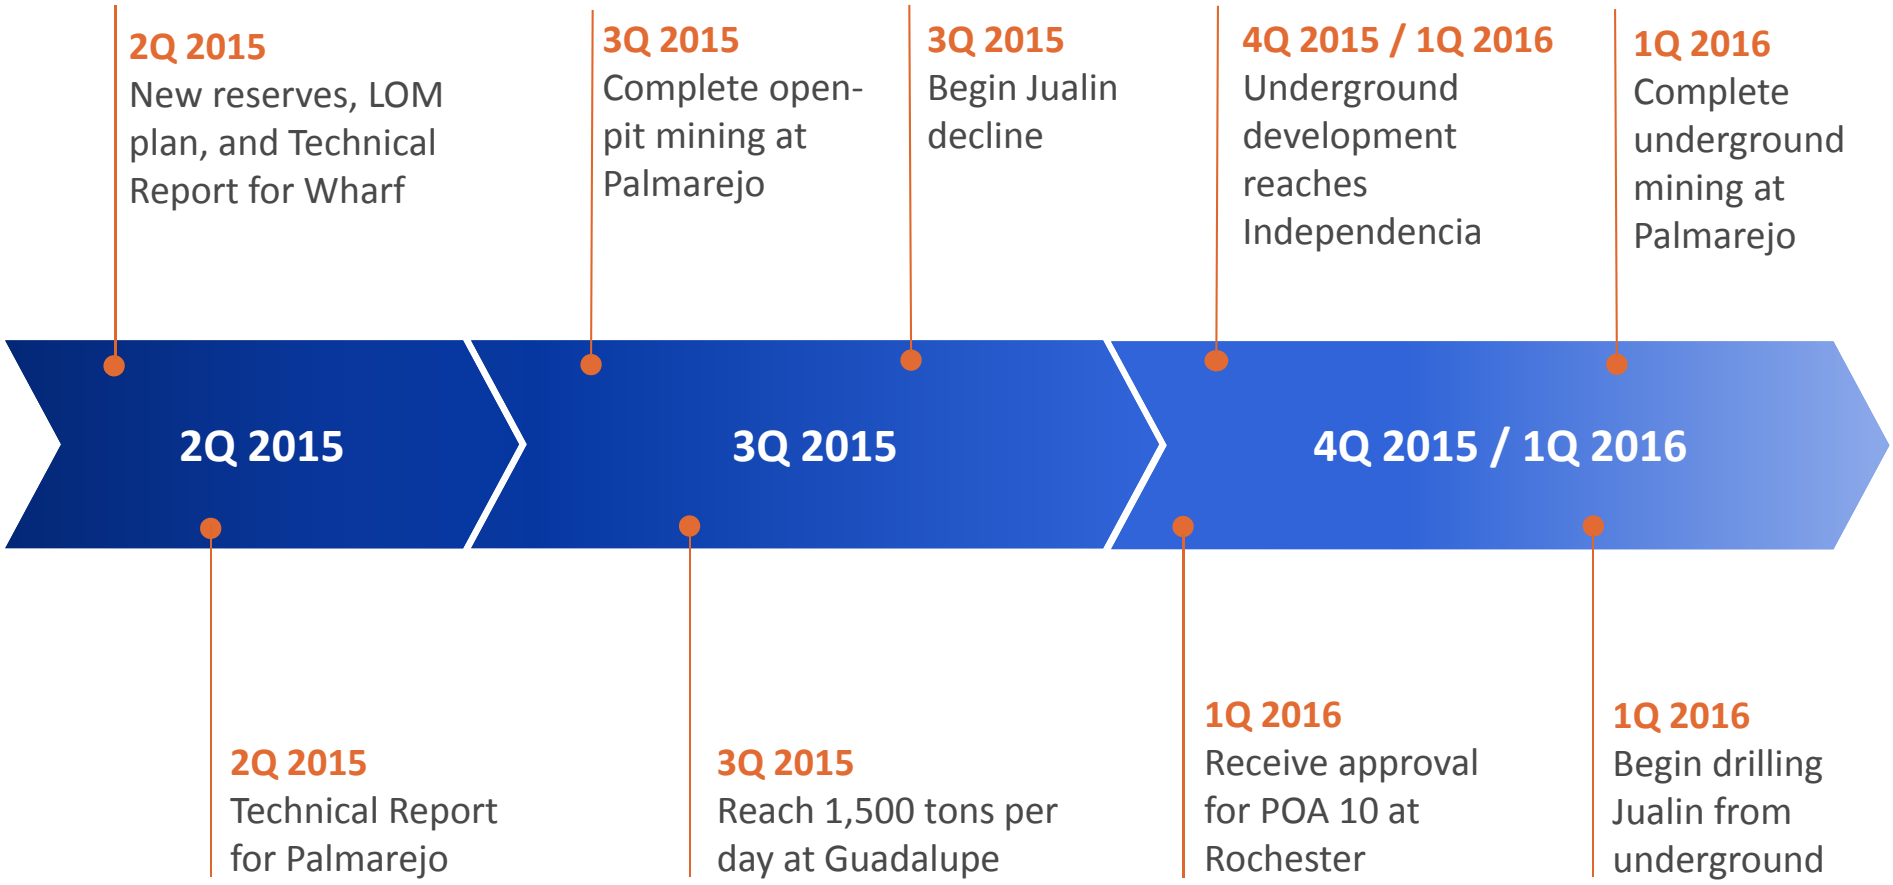

1. Guidance provided by Coeur on May 4, 2015.

Re-Scoped High-Grade Mine Plan for Kensington

- Reflects impact of new high-grade mineralization (Jualin deposit) from ongoing exploration success
  - Demonstrates strategy to source ore from higher-grade areas over the life of the mine
    - Jualin grade 3x higher than average reserve grade at Kensington
  - Prioritizes cash flow over production ounces
- Highlights of the re-scoped mine plan:
  - $30 million in expected capital expenditures to bring Jualin into production by mid-2017, representing an expected IRR of around 70%
  - By 2018 when Jualin is fully ramped up, Kensington is expected to produce 149,000 gold ounces at costs applicable to sales of $732 per ounce, down 23% from 2014 driven by 25% higher grade
  - Increases total expected net cash flow fourfold to $199 million compared to latest mine plan[1]
- Coeur expects to further expand and extend the mine plan through continued exploration activities focused on higher-grade, higher-margin production
  - Jualin production included in the mine plan represents only a portion of one vein out of five known structures stacked on top of each other

1. Based on the mine plan in the Technical Report filed February 18, 2015 on www.sedar.com and assuming gold price of $1,275 per ounce

Anticipated Milestones and Upcoming News Flow

Notes to the above mineral reserves and resources:

1. Effective December 31, 2014 except the Independencia deposit at Palmarejo, effective April 23, 2015, and Endeavor, effective June 30, 2014. Guadalupe reserves and resources adjusted April 23, 2015.
2. Assumed metal prices for estimated Mineral Reserves were $19.00 per ounce of silver and $1,275 per ounce of gold, except Endeavor at $2,200 per metric ton of lead, $2,400 per metric ton of zinc and $20 per ounce of silver.
3. Assumed metal prices for estimated Mineral Resources were $22.00 per ounce of silver and $1,350 per ounce of gold except Endeavor at $2,200 per metric ton of lead, $2,400 per metric ton of zinc and $20 per ounce of silver.
4. Mineral Resources are in addition to Mineral Reserves and do not have not demonstrated economic viability. Mineral Resources do not include Mineral Reserves. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. The preliminary economic assessment for the re-scoped mine plan at Kensington is preliminary in nature and includes inferred mineral resources, and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves.
5. Palmarejo Mineral Reserves and Resources are the addition of Palmarejo, Guadalupe, and Independencia deposits. There are no Mineral Reserves and Resources for La Patria in 2014.
6. Rounding of short tons and troy ounces, as required by reporting guidelines may result in apparent differences between tons, grade, and contained metal content.
7. For details on the estimation of Mineral Resources and Reserves for each property, Canadian investors should refer to the NI 43-101 compliant Technical Report on file at www.sedar.com and the Technical Report for Palmarejo to be filed on www.sedar.com during the second quarter of 2015.

Wharf's Historical Mineral Reserves and Resources

	Tons (000s)	Grade (oz/t)		Ounces (000s)	
		Gold	Silver	Gold	Silver
Proven and Probable Reserves					
Proven Reserves	15,179	0.022	0.078	340	1,190
Probable Reserves	8,245	0.026	0.108	220	890
Total Proven and Probable Reserves	**23,424**	**0.024**	**0.089**	**560**	**2,080**
Measured and Indicated Resources					
Measured Resources	4,795	0.020	0.104	100	500
Indicated Resources	1,642	0.020	0.102	30	170
Total Measured and Indicated Resources	**6,437**	**0.020**	**0.104**	**130**	**670**

Notes to the above mineral reserves and resources:

1. Mineral Reserves and Mineral Resources estimate as reported by Goldcorp in its Annual Information Form dated March 31, 2014 ("AIF") for the financial year ended December 31, 2013, available to Canadian investors at www.sedar.com under Goldcorp's profile. As discussed in the AIF, Mineral Reserves and Mineral Resources were prepared by Goldcorp in accordance with NI 43-101 under the supervision of a qualified person. Coeur is not treating these historical estimates as current and has not completed sufficient work to classify the historical estimate as current mineral reserves or mineral resources for Coeur's purposes. Coeur's qualified person will review and verify the scientific and technical information of Goldcorp, as well as complete the other work necessary for purposes of preparing a 43-101 technical report, including validation of data quality, resource model accuracy, and costs used in reserve and resource cutoffs.
2. As discussed in the AIF, mineral reserves were calculated by Goldcorp using metal prices of $1,300 per gold ounce and $22 per silver ounce, and mineral resources were calculated using $1,500 per gold ounce and $24 per silver ounce. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Rounding of tons, as required by reporting guidelines, may result in apparent differences between tons and grade.

Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. Mr. Krebs joined Coeur in 1995 after spending several years in the investment banking industry in New York. Mr. Krebs has held various positions in the corporate development department, including Senior Vice President of Corporate Development. In March, 2008, Mr. Krebs was named Chief Financial Officer, a position he held until being appointed President and CEO in July 2011.

Peter C. Mitchell – Senior Vice President and Chief Financial Officer. Mr. Mitchell came to Coeur from Taseko Mines Limited where he served as Chief Financial Officer, leading Taseko's financial operations, including sourcing strategic capital to fund the company's strategic growth plan. Previously, Mr. Mitchell was involved in leading and managing growth in private equity portfolio companies through acquisitions, integrations and greenfield initiatives.

Frank L. Hanagarne, Jr. – Senior Vice President and Chief Operating Officer. Mr. Hanagarne was most recently Chief Operating Officer of Valcambi, SA, a precious metal refiner in Switzerland. Prior to his appointment as operations head of Valcambi in early 2011, Mr. Hanagarne was a Director of Corporate Development for Newmont Mining Corporation. Mr. Hanagarne's 17 years of service at Newmont has included positions of increasing responsibility within key areas of Newmont's operations and business functions as well as environmental, health and safety.

Keagan J. Kerr – Senior Vice President, Corporate Affairs and Human Resources. Mr. Kerr leads the organization in all aspects of human resource and corporate communication programs across Coeur's operating regions-including employee and public relations, executive compensation, talent attraction, leadership development and strengthening of organization capability. He has a track record of accomplishment in large scale mining operations on multiple continents through various leadership roles with Barrick Gold Corporation.

Casey M. Nault – Senior Vice President, General Counsel and Secretary. Mr. Nault has extensive experience as a corporate and securities lawyer, including prior in-house positions with Starbucks and Washington Mutual and law firm experience with Graham & Dunn in Seattle and Gibson, Dunn & Crutcher in Los Angeles. His experience includes securities compliance and SEC reporting, corporate governance, mergers and acquisitions, public and private securities offerings and other strategic transactions.

Joe Phillips – Senior Vice President and Chief Development Officer. Mr. Phillips has extensive experience in mine development and operations and has a proven record of leadership and team building resulting in successfully building mines on time and on budget. Mr. Phillips comes to Coeur from Silver Standard Resources where he served as Senior Vice President of Operations and Development and acting Chief Operating Officer. Prior to that, Mr. Phillips served as Senior Vice President of Project Development at Pan American Silver.

Humberto Rada – President, Coeur South America and of Coeur's Bolivian subsidiary Empresa Minera Manquiri, S.A. Prior to joining Coeur in July 2008, Mr. Rada served as General Manager for Newmont Mining Corporation's Bolivian company Inti Raymi. Mr. Rada is currently President of Bolivia's National Mining Association and has over 23 years of experience in South American mining and finance.

Mike Harrison – Vice President, Corporate Development. Prior to joining Coeur, Mr. Harrison was Director of Investment Banking for the Mining Group at Cormark Securities Inc. in Toronto, Canada. In addition to seven years of investment banking experience, Mr. Harrison spent eight years in BHP Billiton's Global Exploration Group.

Hans Rasmussen – Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco and Quadra Mining. Since 2004, he has been an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia.

Board of Directors

Robert E. Mellor – Former Chairman, Chief Executive Officer and President of Building Materials Holding Corporation (distribution, manufacturing and sales of building materials and component products) from 1997 to January 2010, director from 1991 to January 2010; member of the board of directors of The Ryland Group (national residential home builder) since 1999; member of the board of directors of Monro Muffler Brake, Inc. (auto service provider) since August 2010 and lead independent director since April 2011; and member of the board of directors of Stock Building Supply Holdings, Inc. (lumber and building materials distributor) since March 2010.

Mitchell J. Krebs – President and Chief Executive Officer. (See prior slide)

Linda L. Adamany – Member of the board of directors of Leucadia National Corporation, a diversified holding company engaged in a variety of businesses, since March 2014; non-executive director of Amec Foster Wheeler plc, an engineering, project management and consultancy company, since October 2012; member of the board of directors of National Grid plc, an electricity and gas generation, transmission and distribution company, from November 2006 to November 2012. Served at BP plc in several capacities from July 1980 until her retirement in August 2007, most recently from April 2005 to August 2007 as a member of the five-person Refining & Marketing Executive Committee responsible for overseeing the day-to-day operations and human resource management of BP plc's Refining & Marketing segment, a $45 billion business at the time.

Kevin S. Crutchfield –Chairman and Chief Executive Officer of Alpha Natural Resources, Inc. (NYSE:ANR). He has been with Alpha Natural Resources since its formation in 2003, serving as Executive Vice-President, President, Director, Chief Executive Officer and most recently the additional responsibility of Chairman. Mr. Crutchfield is a 25-year coal industry veteran with technical, operating and executive management experience and is currently the Vice Chairman of the National Mining Association and the American Coalition for Clean Coal Electricity.

Sebastian Edwards – Henry Ford II Professor of International Business Economics at the Anderson Graduate School of Management at the University of California, Los Angeles (UCLA) from 1996 to present; Chairman of the Inter American Seminar on Economics from 1987 to present; member of the Scientific Advisory Council of the Kiel Institute of World Economics in Germany from 2002 to present; and research associate at the National Bureau of Economic Research from 1981 to present.

Randolph E. Gress – Chairman, Chief Executive Officer, and Director of Innophos Holdings, Inc., a leading international producer of performance-critical and nutritional specialty ingredients for the food, beverage, dietary supplements, pharmaceutical and industrial end markets. Mr. Gress has been with Innophos since its formation in 2004 when Bain Capital purchased Rhodia SA's North American specialty phosphate business. Prior to his time at Innophos, Mr. Gress was with Rhodia since 1997 and held various positions including Global President of Specialty Phosphates (with two years based in the U.K.) and Vice-President and General Manager of the NA Sulfuric Acid and Regeneration businesses. From 1982 to 1997, Mr. Gress served in various roles at FMC Corporation including Corporate Strategy and various manufacturing, marketing, and supply chain positions.

John H. Robinson – Chairman of Hamilton Ventures LLC (consulting and investment) since founding the firm in 2006. Chief Executive Officer of Nowa Technology, Inc. (development and marketing of environmentally sustainable wastewater treatment technology) from 2013 to 2014. Vice Chairman of Olsson Associates (engineering consultants) from 2004 to 2005. Chairman of EPCglobal Ltd. (professional engineering staffing) and Executive Director of MetiLinx Ltd. (software) from 2003 to 2004. Executive Director of Amey plc (business process outsourcing and construction) from 2000 to 2002.

J. Kenneth Thompson – President and Chief Executive Officer of Pacific Star Energy LLC (private energy investment firm in Alaska) from September 2000 to present, with a principal holding in Alaska Venture Capital Group LLC (private oil and gas exploration company) from December 2004 to present; Executive Vice President of ARCO's Asia Pacific oil and gas operating companies in Alaska, California, Indonesia, China and Singapore from 1998 to 2000.
