Deutsche Bank Leveraged Finance Conference

COEUR MINING®

NYSE: CDE

Peter C. Mitchell, Senior Vice President & Chief Financial Officer

Scottsdale, AZ

September 26 - 28, 2016

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements regarding anticipated production, costs, mining rates, mine plans, grades, recovery rates, cash flow, mine life, exploration and development efforts, capital expenditures, anticipated returns, operations and development at the Palmarejo complex and Kensington, expansion projects, exploration efforts, the impact of the new gold stream agreement at Palmarejo, reserve replacement, plans regarding La Preciosa, and initiatives to transition to sustainable free cash flow, maintain a strong and flexible balance sheet, focus on returns-driven, high-quality growth and continue delivering on commitments. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause Coeur's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), changes in the market prices of gold and silver and a sustained lower price environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions, grade variability, any future labor disputes or work stoppages, the uncertainties inherent in the estimation of gold and silver ore reserves, changes that could result from Coeur's future acquisition of new mining properties or businesses, reliance on third parties to operate certain mines where Coeur owns silver production and reserves and the absence of control over mining operations in which Coeur or its subsidiaries hold royalty or streaming interests and risks related to these mining operations including results of mining and exploration activities, environmental, economic and political risks of the jurisdiction in which the mining operations are located, the loss of any third-party smelter to which Coeur markets silver and gold, the effects of environmental and other governmental regulations, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, the political risks and uncertainties associate with recent developments in Bolivia, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt, as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Form 10-K and Form 10-Q. Actual results, developments and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward-looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

Dana Willis, Coeur's Director, Resource Geology and a qualified person under Canadian National Instrument 43-101, supervised the preparation of the scientific and technical information concerning Coeur's mineral projects in this presentation. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. Insofar as the re-scoped mine plan at Kensington described in this presentation is at the level of a preliminary economic assessment, it includes inferred mineral resources and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, Canadian investors should see the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at http://www.sec.gov.

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, adjusted EBITDA, adjusted costs applicable to sales per silver equivalent ounce, and adjusted all-in sustaining costs. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted EBITDA, adjusted costs applicable to sales per silver equivalent ounce, and adjusted all-in sustaining costs are important measures in assessing the Company's overall financial performance.

We primarily reference costs applicable to sales and adjusted costs applicable to sales which exclude amortization. Gold and silver equivalence (AuEq and AgEq) assumes a silver to gold ratio of 60:1 unless otherwise noted. Average realized prices used for average realized costs for FY 2013, 2014, and 2015 and 1Q and 2Q of 2016 were $23.94, $18.87, $15.46, $15.16 and $17.38 for silver, respectively, and $1,327, 1,1252, $1,143, $1,178 and $1,255 for gold, respectively.

Coeur Mining Is Poised for Long-Term Success

1. Successful repositioning **driving strong operational performance**
   - ✓ Quality production growth
   - ✓ Industry-leading cost reductions
   - ✓ Transitioning to sustainable free cash flow

2. Focus on **returns-driven, high quality growth**
   - ✓ Near-mine exploration
   - ✓ Development of higher-grade ore sources
   - ✓ Well-timed acquisitions

3. Maintaining liquidity while prioritizing **balance sheet strength and flexibility**

4. Growing management track record of **delivering on commitments**

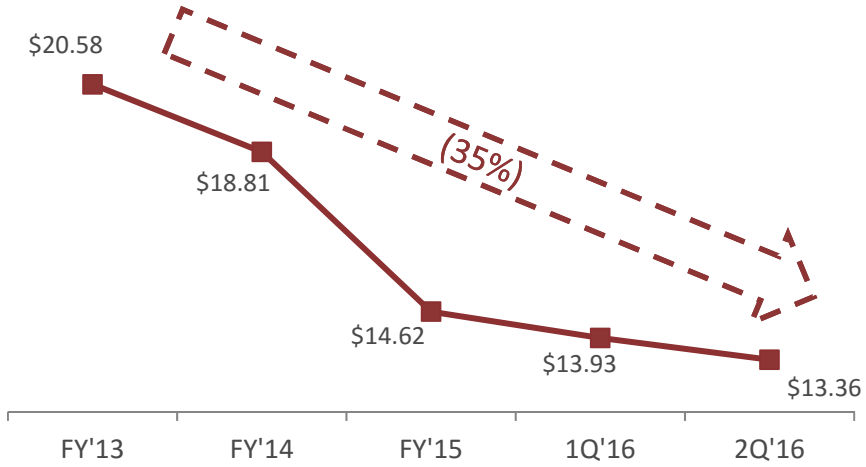

1 Driving Strong Operational Performance

Focus on Grade & Scale to Deliver Higher Margin Production Growth

		Grade	Scale
Palmarejo	74% higher gold grade and 42% higher silver grade driving 40% reduction in per ounce costs since Q1 2015	✓	✓
Rochester	Doubled mining rates between 2013 and 2015, reducing unit costs by 40%		✓
Kensington	50% increase in throughput since 2012 driving 35% reduction in per ounce costs; Mining high grade zones in main orebody while developing high-grade Jualin deposit	✓	✓
San Bartolomé	Third party purchases of higher grade ore driving higher margin, lower cost production	✓	

1 Driving Strong Operational Performance
Industry-Leading Cost Reductions

AISC / Realized Ag Eq oz [1]

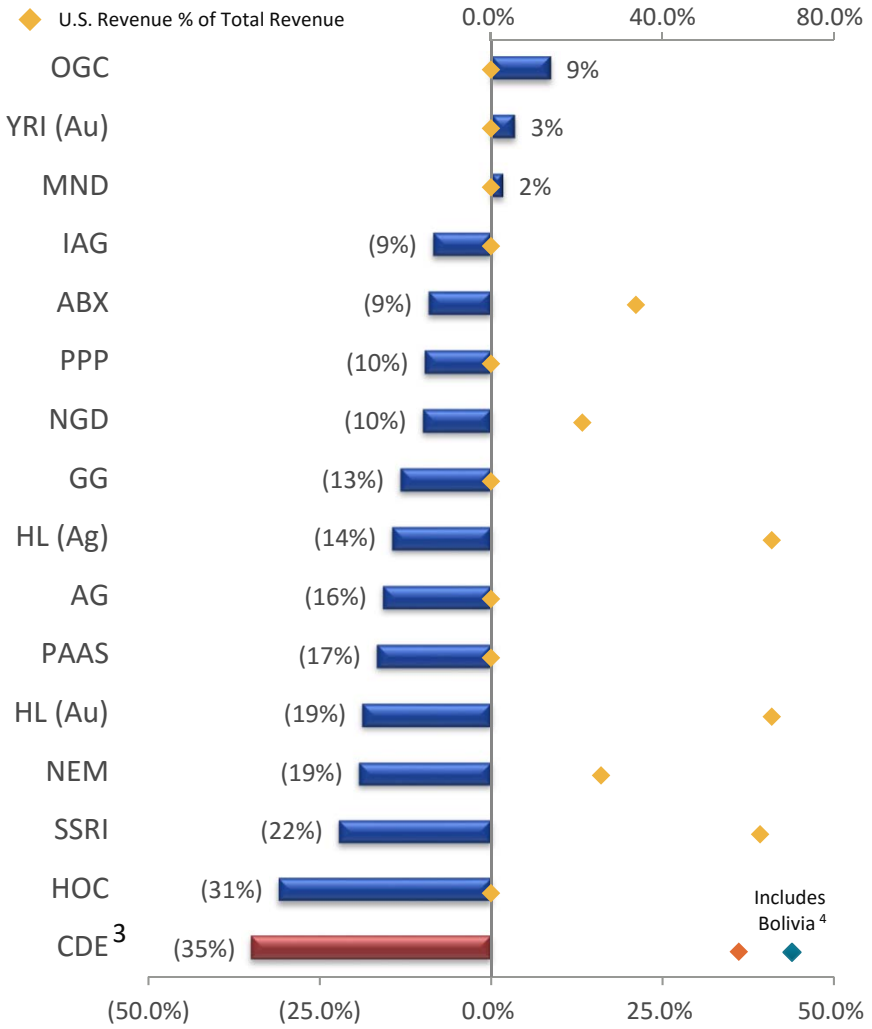

Cost Reduction Highlights

- Majority of reductions in Coeur's AISC / AgEqOz[1] have been internally generated vs. those that were a result of lower input costs (i.e., diesel and FX)
- Internally generated cost reductions include operational efficiencies, higher recovery rates and rationalization of outside services

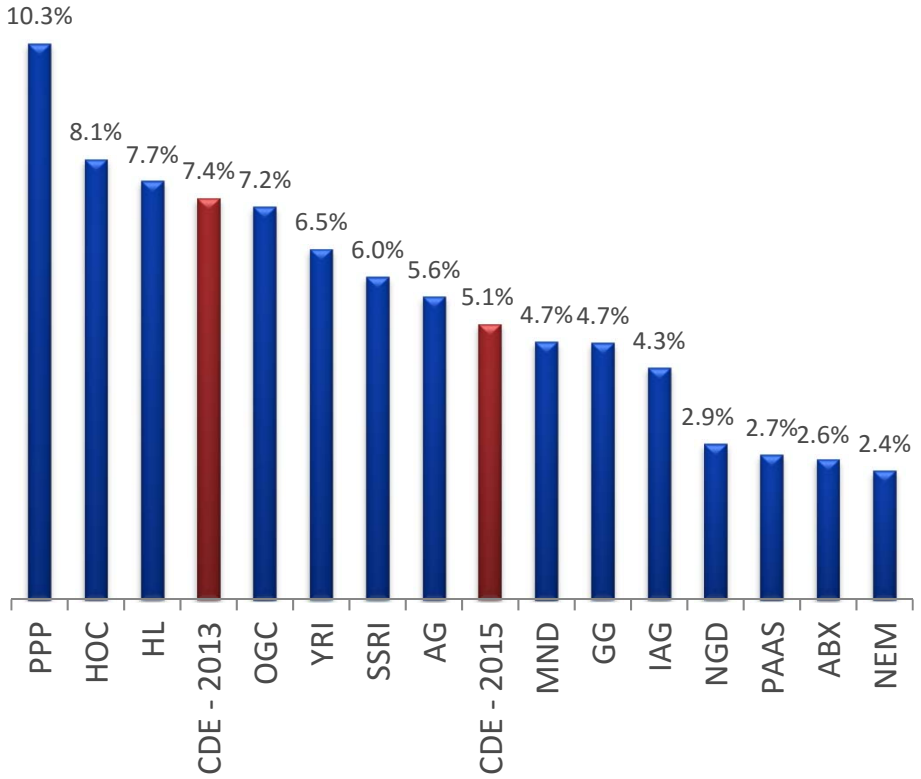

% Cost Reductions - FY 2015 vs. FY 2013 [2]

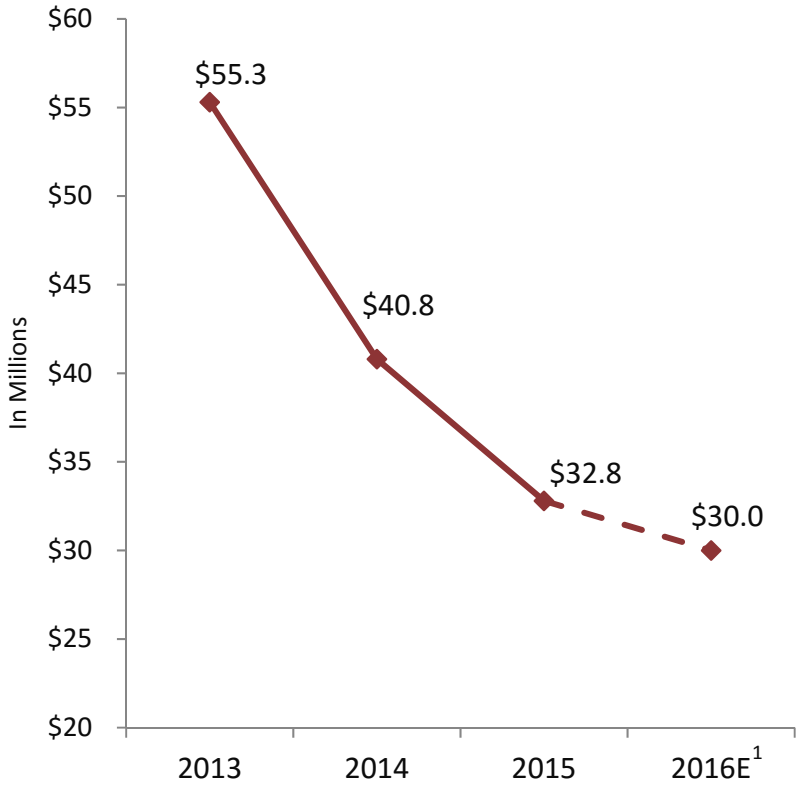

1. See non-GAAP reconciliation tables in the appendix to this presentation. For purposes of silver equivalence, a 60:1 ratio is assumed except where noted as average realized prices.
2. Source: Company Filings. Percentage decline or increase in primary per ounce cost metric as publicly reported by each company in their financial results for the applicable time period.
3. 58% of 2015 Revenue from the U.S., 26% from Mexico, 13% from Bolivia, 2% from Australia.
4. 71% of 2015 Revenue from the U.S. and Bolivia; Bolivian boliviano pegged currency.

1 Driving Strong Operational Performance
Declining G&A Expense

G&A as a % of Revenue

Coeur G&A Expense

Coeur's G&A Expense Has Declined Over 40% Since 2013

Source: G&A and Revenue as reported by each company in their FY 2015 public financial statements. Midpoint of guidance as published by Coeur on July 27, 2016.

2 Returns-Driven, High Quality Growth

Organic, Low Risk, High Return Growth Initiatives

	Short-to-Medium Term	Medium-to-Long Term
Palmarejo	Accelerating mining rates from higher grade Independencia deposit	Ongoing expected high-grade exploration success with the goal of further extending mine life and increasing production
Rochester	Beginning to see impact of recent investments; Expanding leach pad capacity to further extend mine life	Anticipated further expansions incorporating higher grade exploration results
Kensington	Developing high-grade Jualin deposit with initial reserve expected at year-end	Ongoing expected high-grade exploration success with the goal of further extending mine life
Wharf	Pursuing incremental cost reductions	Continued focus on reserve replacement
Exploration Pipeline	Advancing redesigned project plan for La Preciosa	Reevaluating Joaquin project in Argentina; Drilling several early-stage silver and gold projects in Mexico and the U.S.

2 Returns-Driven, High Quality Growth

Successful Acquisition of Wharf Operation

	Wharf H1 2015[1] Performance	Wharf H1 2016 Performance	Impact
Gold Price (US$ / oz)	Spot Gold Price of $1,234 [2] on Wharf Acquisition Announcement Date 1/12/2015	Spot Gold Price of $1,310 [2] on 8/31/2016	✓ **Right Time of Cycle**
Production (Au oz / yr)	23 koz	49 koz	✓ **Doubled Production**
Cost Applicable to Sales ($ / oz)	$971	$597	✓ **Reduced Costs by Nearly 40%**
Reserves (Au oz)	560,000[3]	712,000 [4]	✓ **27% Increase in Reserves**
Purchase Price	$99M	FCF[5] generation since purchase: $52M	✓ **High Expected IRR**

1. Represents period from 2/20/2015 to 6/30/2015
2. Source: Capital IQ
3. As reported by Goldcorp in its Annual Information Form dated 3/31/14 for year ended 12/31/13. Please see the tables in the appendix to this presentation for additional information regarding reserves.
4. Wharf reserves as of December 31, 2015. Please see the tables in the appendix to this presentation for additional information regarding reserves.
5. Free Cash Flow calculated as Cash Provided by Operating Activities less Capital Expenditures and Gold Production Royalty Payments. See non-GAAP reconciliation tables in the appendix to this presentation.

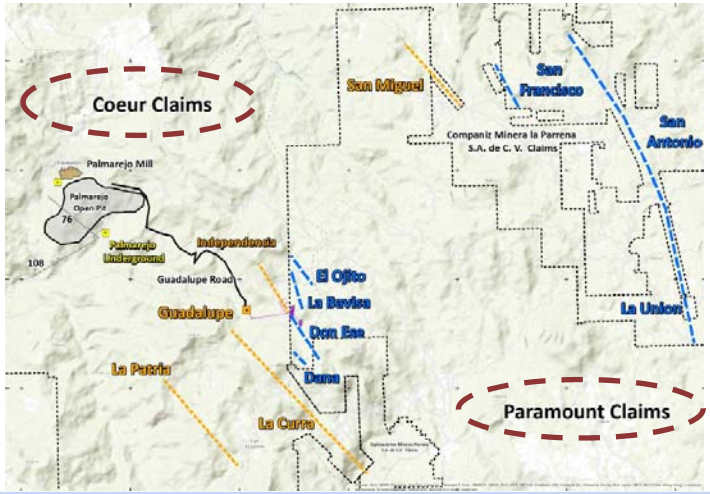

2 Returns-Driven, High Quality Growth

Paramount Transaction Extending & Enhancing a Cornerstone Asset

Paramount acquisition unlocked synergies with Palmarejo and increased overall asset quality (lower costs, longer life, higher production)

- ✓ Paramount's Don Ese high-grade deposit is an extension of Palmarejo's Independencia deposit and is now called Independencia Este
- ✓ Anticipate using excess capacity at existing Palmarejo processing facility to treat higher-grade, higher-margin Independencia material and to increase annual gold and silver production and free cash flow
- ✓ Significant exploration upside from other high-grade structures near the shared boundary, as well as lower-grade deposits which could benefit from Palmarejo's existing infrastructure

Significant Synergies Unlocked by Consolidating Area

Palmarejo Reserves and Resources[1]

	Tons (000s)	Ag Grade (oz/ton)	Ag Ounces (000s)	Au Grade (oz/ton)	Au Ounces
Proven and Probable Reserves					
2014	6,715	4.57	30,677	0.073	488,000
2015	**9,099**	**4.94**	**44,919**	**0.076**	**690,100**
Measured and Indicated Resources					
2014	4,971	4.78	23,781	0.084	417,000
2015	**5,922**	**4.27**	**25,273**	**0.056**	**330,000**
Inferred Resources					
2014	2,065	4.98	10,286	0.116	240,000
2015	**1,721**	**4.79**	**8,240**	**0.085**	**147,000**

Acquired reserves free from any non-government third party royalty or stream

1. Reserves and resources as of December 31, 2014 and 2015. Please refer to the tables in the appendix to this presentation for additional information regarding mineral reserves and resources.

2 Returns-Driven, High Quality Growth

New Palmarejo Gold Stream Agreement Driving FCF[1] Growth

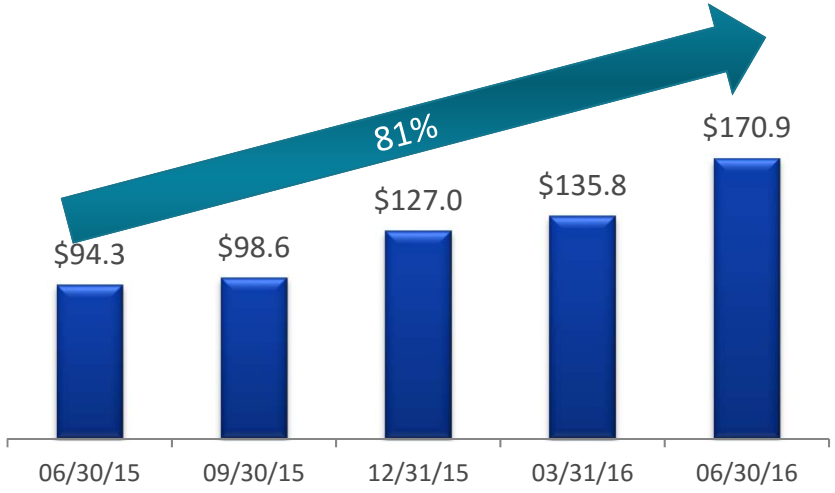

- New, more favorable stream agreement with Franco-Nevada Barbados took effect in August 2016
  - Applies to 50% of gold production from legacy Palmarejo land package
  - Franco-Nevada to pay $800 per ounce vs. $416 per ounce under the old royalty agreement
  - No annual minimum delivery amounts and no requirement to prioritize ounces subject to the stream over ounces not subject to the stream
  - Coeur paid $2 million to terminate the prior royalty stream agreement in 2014
  - Franco-Nevada paid $22 million to Coeur Mexico in 2015 to help fund development of Guadalupe
- Material from the Independencia Este deposit, which is under development, is not subject to the gold stream

1. Free Cash Flow calculated as Cash Provided by Operating Activities less Capital Expenditures and Gold Production Royalty Payments.

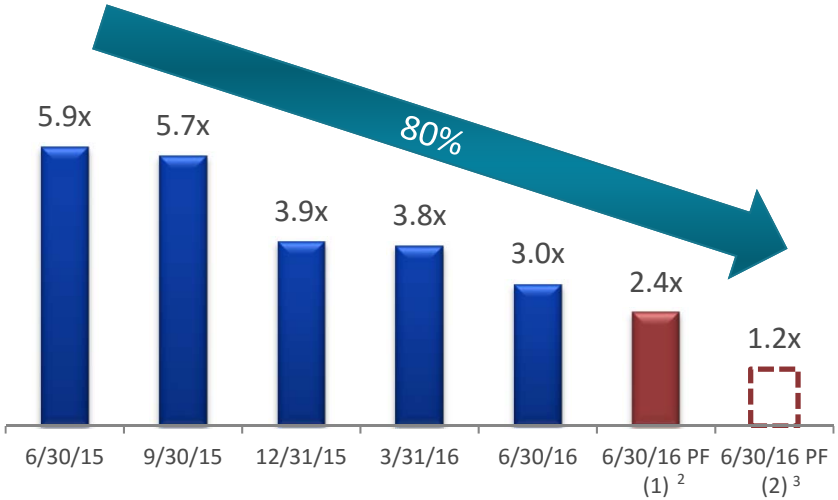

3 Balance Sheet Strength and Flexibility

Significant Increase in Adj. EBITDA[1] & Reduction in Gross Leverage

LTM Adj. EBITDA[1]

Total Debt / LTM Adj. EBITDA[1]

$ in millions	6/30/15	9/30/15	12/31/15	3/31/16	**6/30/16**	**6/30/16 Pro forma (1)[2]**	**6/30/16 Pro forma (2)[3]**
Cash	$205.9	$205.7	$200.7	$173.4	**$257.6**	**$157.8**	**$154.8**
Total debt	$559.7	$557.5	$500.7	$520.9	**$520.9**	**$409.8**	**$209.8**
Net debt	$353.8	$351.8	$300.0	$347.5	**$263.3**	**$252.1**	**$55.1**
LTM Adj. EBITDA[1]	$94.3	$98.6	$127.0	$135.8	**$170.9**	**$170.9**	**$170.9**
Total debt/LTM Adj. EBITDA[1]	5.9x	5.7x	3.9x	3.8x	**3.0x**	**2.4x**	**1.2x**
Net debt/LTM Adj. EBITDA[1]	3.8x	3.6x	2.4x	2.6x	**1.5x**	**1.5x**	**0.3x**

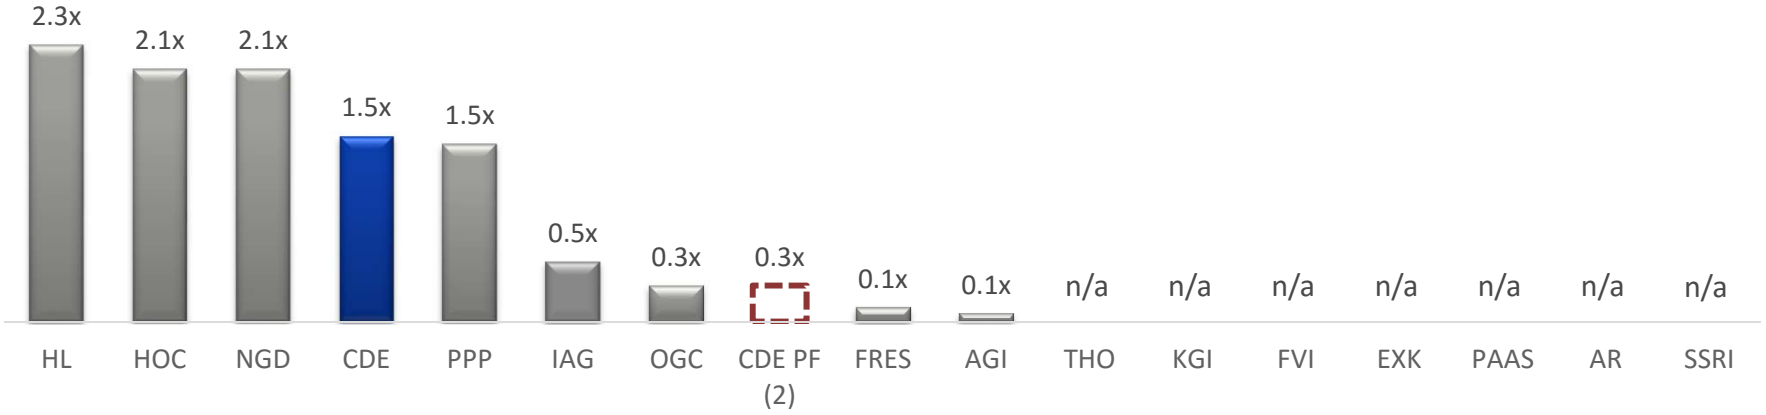

Note: Debt amounts reflect outstanding principal amount.

1. See non-GAAP reconciliation tables in the appendix to this presentation.
2. Pro forma (1): gives effect to repayment of Coeur's $100 million term loan, redemption of 3.25% convertible senior notes, and receipt of proceeds from sale of a 2.5% net smelter returns royalty on the Correnso mine and redemption of $10.8 million aggregate principal amount of the Company's 7.785% Notes due 2021 (the "2021 Notes"), all of which occurred following the end of Q2 2016.
3. Pro forma (2): gives effect to the items included in pro forma (1), and assumes (A) the receipt of $200 million of proceeds, less agent fees of 1.5%, from Coeur's "at the market" offering launched 9/8/16 (the "ATM Proceeds"), and (B) the repayment of $200 million of Coeur's 2021 Notes at the par value thereof (excluding fees and expenses associated therewith) with the ATM Proceeds (the "Potential Transaction"). There can be no assurance that all or any portion of the Potential Transaction will be completed or that the anticipated results in the table above will be achieved.

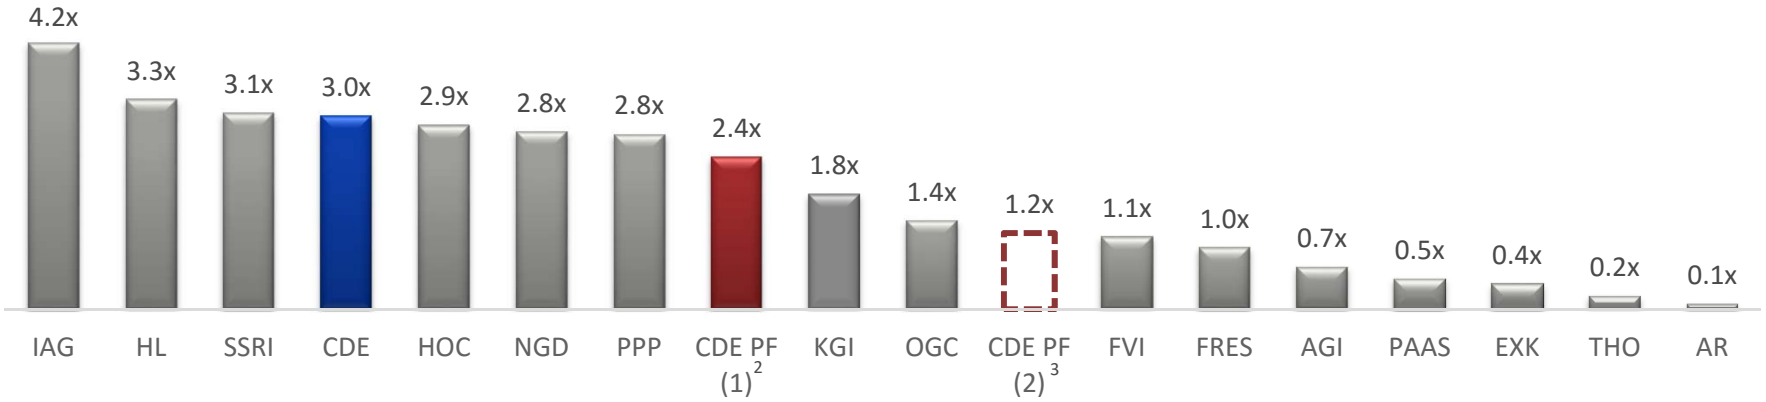

3 Balance Sheet Strength and Flexibility

Seeking to Achieve Among Lowest Leverage Levels in Sector

Net Debt / LTM Adj. EBITDA [1] (at 06/30/16)

Total Debt / LTM Adj. EBITDA [1] (at 06/30/16)

Note: Based on public findings, debt amounts reflect outstanding principal amount.

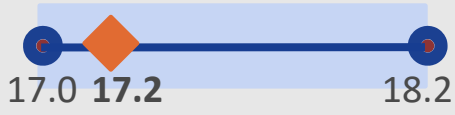

1. See non-GAAP reconciliation tables in the appendix to this presentation.
2. Pro forma (1): gives effect to repayment of Coeur's $100 million term loan, redemption of 3.25% convertible senior notes, and receipt of proceeds from sale of a 2.5% net smelter returns royalty on the Correnso mine and redemption of $10.8 million aggregate principal amount of the Company's 7.785% Notes due 2021 (the "2021 Notes"), all of which occurred following the end of Q2 2016.
3. Pro forma (2): gives effect to the items included in pro forma (1), and assumes (A) the receipt of $200 million of proceeds, less agent fees of 1.5%, from Coeur's "at the market" offering launched 9/8/16 (the "ATM Proceeds"), and (B) the repayment of $200 million of Coeur's 2021 Notes at the par value thereof (excluding fees and expenses associated therewith) with the ATM Proceeds (the "Potential Transaction"). There can be no assurance that all or any portion of the Potential Transaction will be completed or that the anticipated results in the table above will be achieved.

1. See non-GAAP reconciliation tables in the appendix to this presentation. For purposes of silver equivalence, a 60:1 ratio is assumed except where noted as average realized prices

4 Delivering on Commitments
Non-Core Asset Sales

Summary

- Successfully monetized majority of royalty assets from Coeur Capital portfolio, originally formed in November 2013
- Coeur has retained the Endeavor silver stream, Zaruma NSR royalty, and a portfolio of equity investments
- Proceeds used to bolster cash and reduce outstanding debt

Rationale

- Strengthen balance sheet
- Non-core assets
- Attractive relative valuation environment for streams and royalties
- Allocate proceeds to higher rate of return opportunities

Closing Date	Asset	Purchaser	Consideration	
			Total	Details
March 31, 2016	Cerro Bayo 2.0% NSR royalty	Mandalay Resources Corporation	$5.7M	$4.0M cash; 2.5M shares
April 19, 2016	La Cigarra 2.5% NSR royalty	Kootenay Silver Inc.	$3.6M	$500,000 cash; 9.6M shares
April 19, 2016	El Gallo NSR royalty (3.5% until 350k cumulative AuEq production reached; 1.0% thereafter)	Subsidiary of McEwen Mining Inc.	$6.3M	$5.3M cash, plus $1.0M contingent payable mid 2018
May 4, 2016	Martha assets in Argentina	Hunt Mining Corp	$3.0M	$1.5M at closing, $1.5M on 1-year anniversary
July 25, 2016	Correnso 2.5% NSR royalty	Subsidiary of OceanaGold Corporation	$5.2M	$4.5M at closing, plus $0.7M contingent payable in 2017
Total			**$23.8M**	

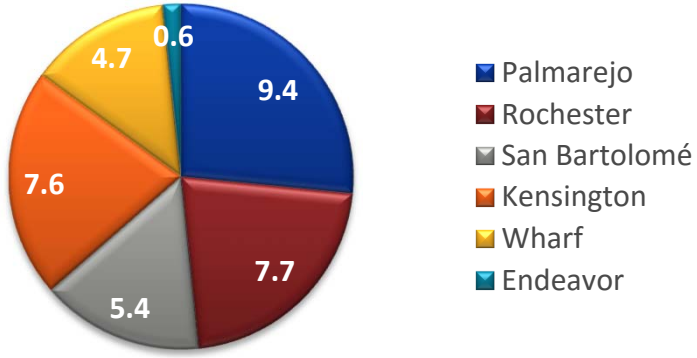

Coeur Mining is Poised for Long-Term Success

- **Well-diversified, growing,** NYSE-listed U.S. precious metals mining company
- Successful repositioning **driving strong operational performance**
- Focus on **returns-driven, high quality growth**
- Maintaining liquidity while prioritizing **balance sheet strength and flexibility**
- Growing management track record of **delivering on commitments**

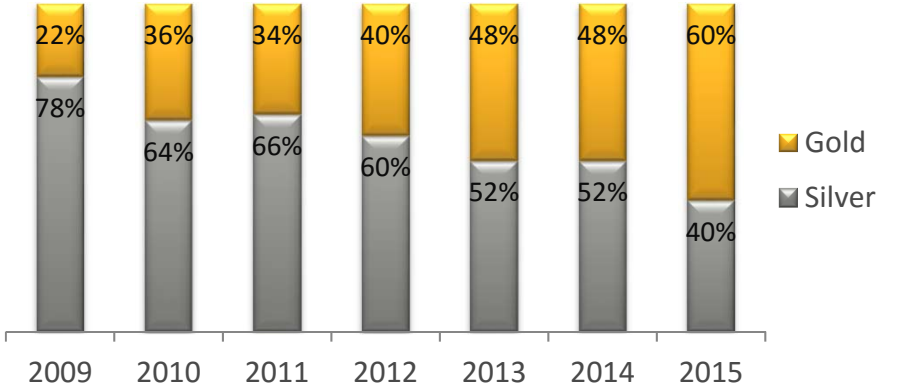

Appendix

Well-Diversified, Growing Precious Metals Company

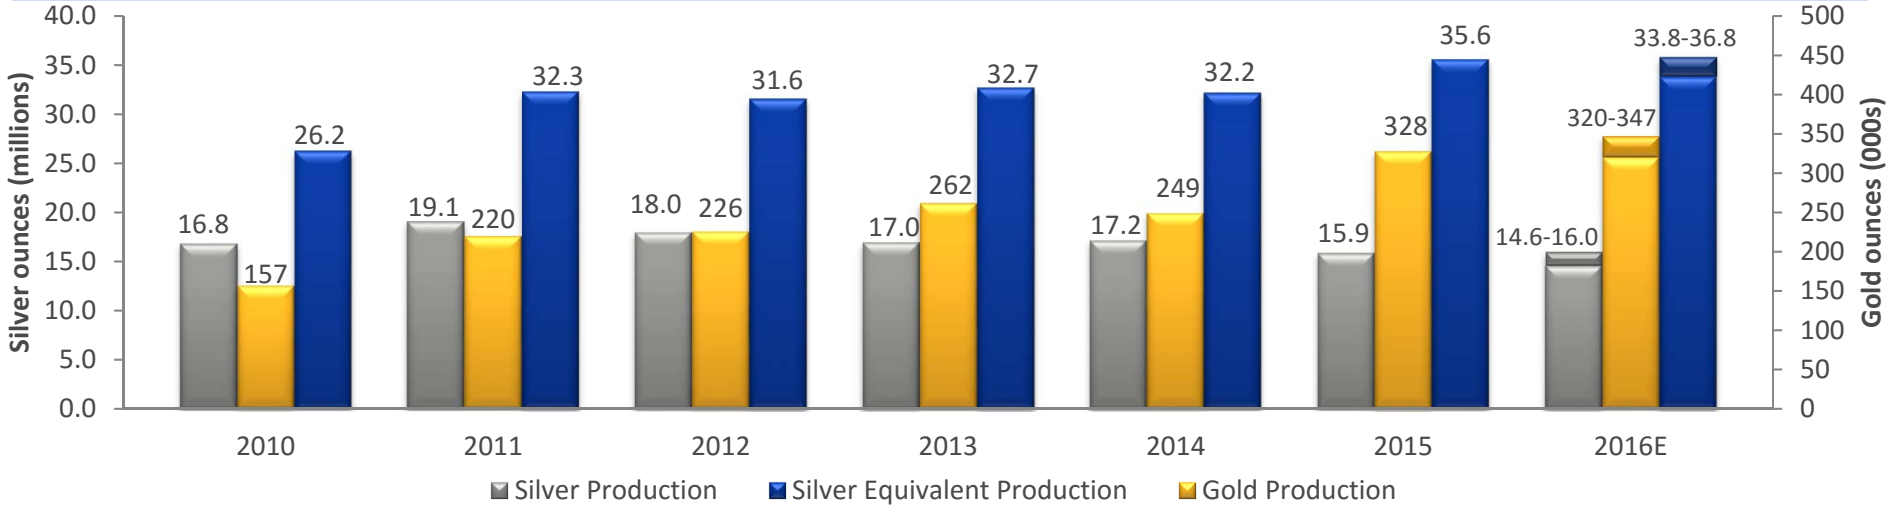

2015 Silver Equivalent Production by Mine
(millions of ounces)

Revenue by Metal

Production

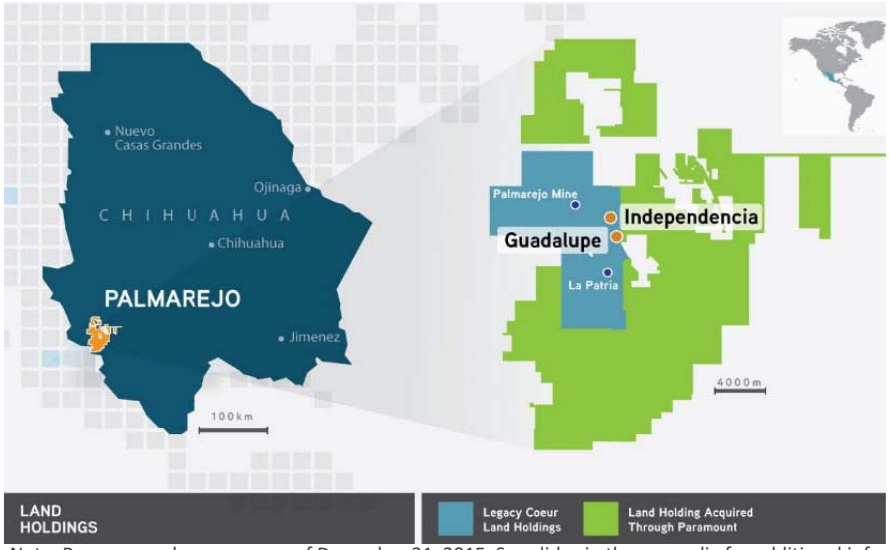

Note: 2016 production guidance as of July 27, 2016. For purposes of silver and gold equivalence, a 60:1 ratio is assumed except where noted as average realized prices.

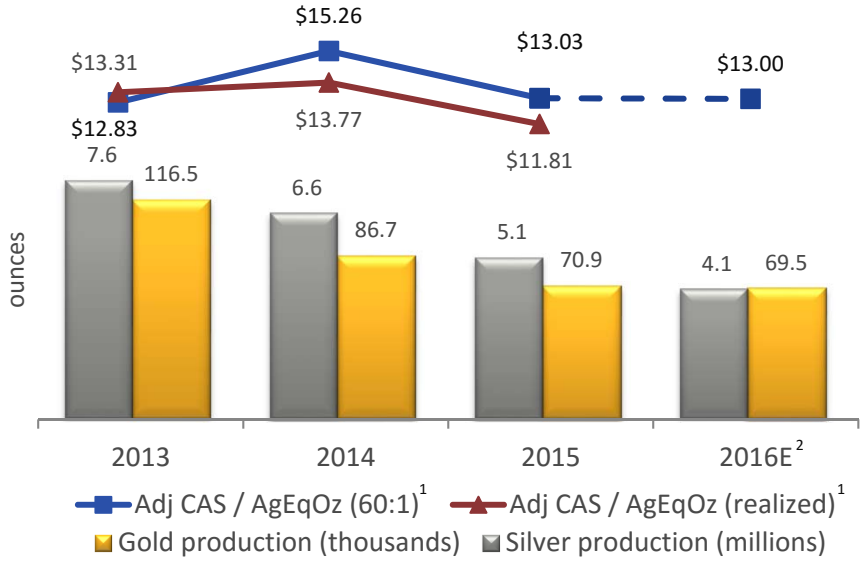

Palmarejo

Rising Production Levels from High-Grade Underground

Location:	Chihuahua State, Northern Mexico
Ownership:	100%
Mining:	Underground (open pit completed in Q2 2016)
Land Position:	135,131 acres
Product:	Silver and gold doré
P&P Reserves:	44.9M oz Ag, 690,100 oz Au
M&I Resources:	25.3M oz Ag, 330,000 oz Au
Inferred Resources:	8.2M oz Ag, 147,000 oz Au

Production and Cost Performance

Highlights

- Guadalupe and Independencia expected to achieve combined mining rate of 4,000 tpd
- Process optimization has increased recoveries and reduced processing costs
- Year-end 2015 reserves nearly doubled at higher gold and silver grades compared to year-end 2014 as a result of the acquisition of Paramount in 2015

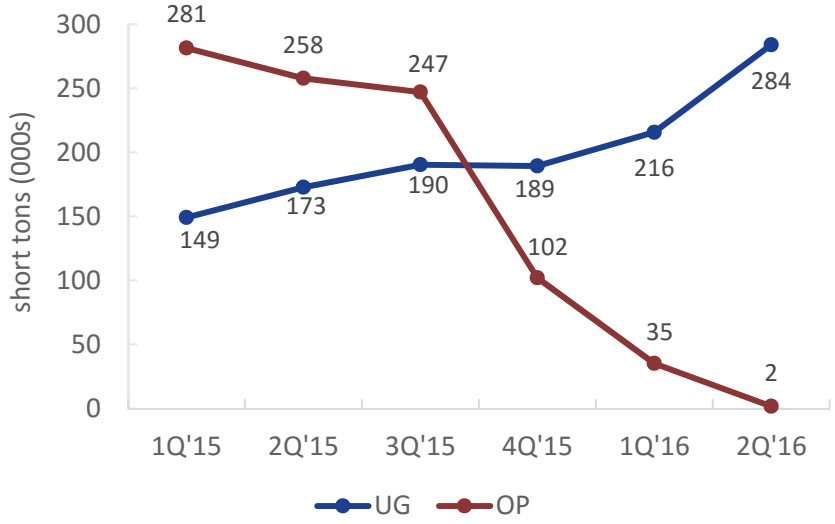

Note: Reserves and resources as of December 31, 2015. See slides in the appendix for additional information related to mineral reserves and resources.

1. See non-GAAP reconciliation tables in the appendix to this presentation. For purposes of silver equivalence, a 60:1 ratio is assumed except where noted as average realized prices. Excludes gold production royalty payments to Franco Nevada.
2. Based on mid-point of 2016 guidance. Guidance as of July 27, 2016.

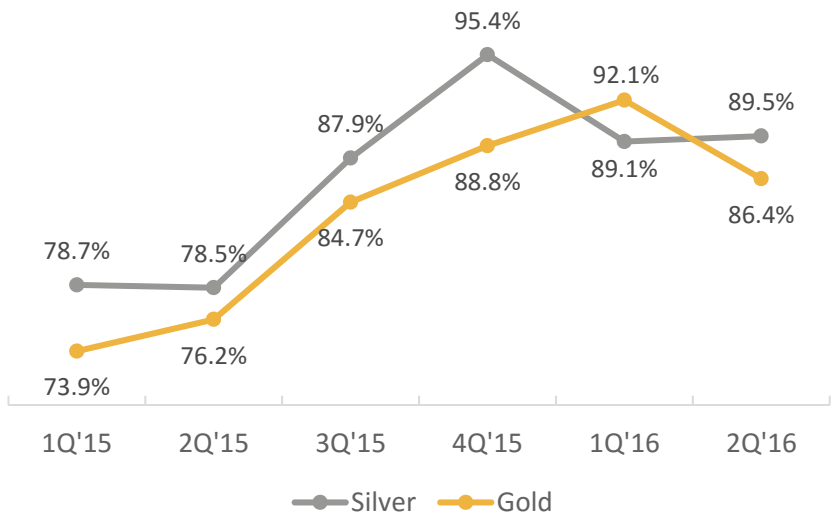

Palmarejo

Successful Transition to Higher-Grade Underground Mine Complete

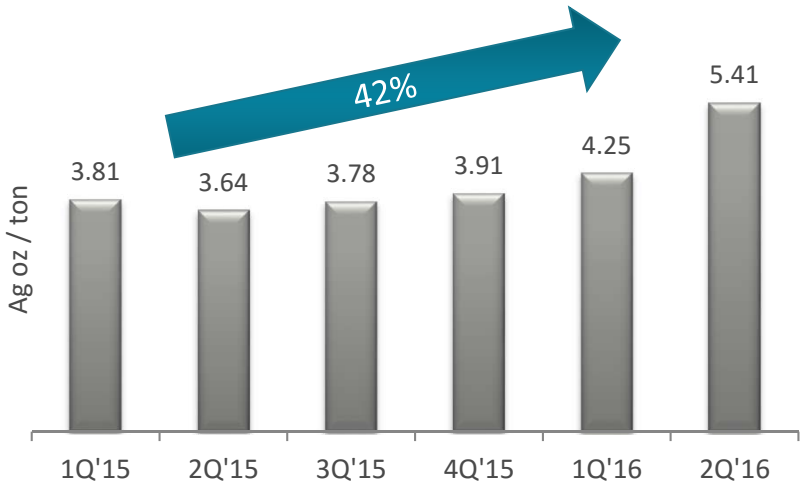

Tons Mined

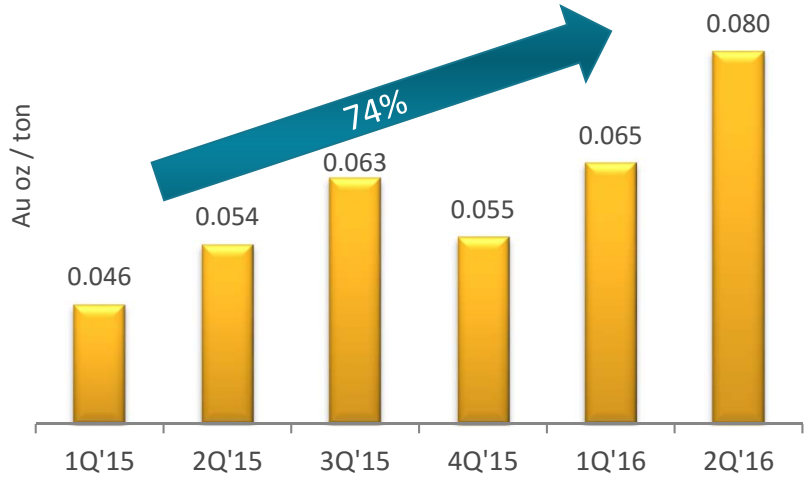

Average Recovery Rate

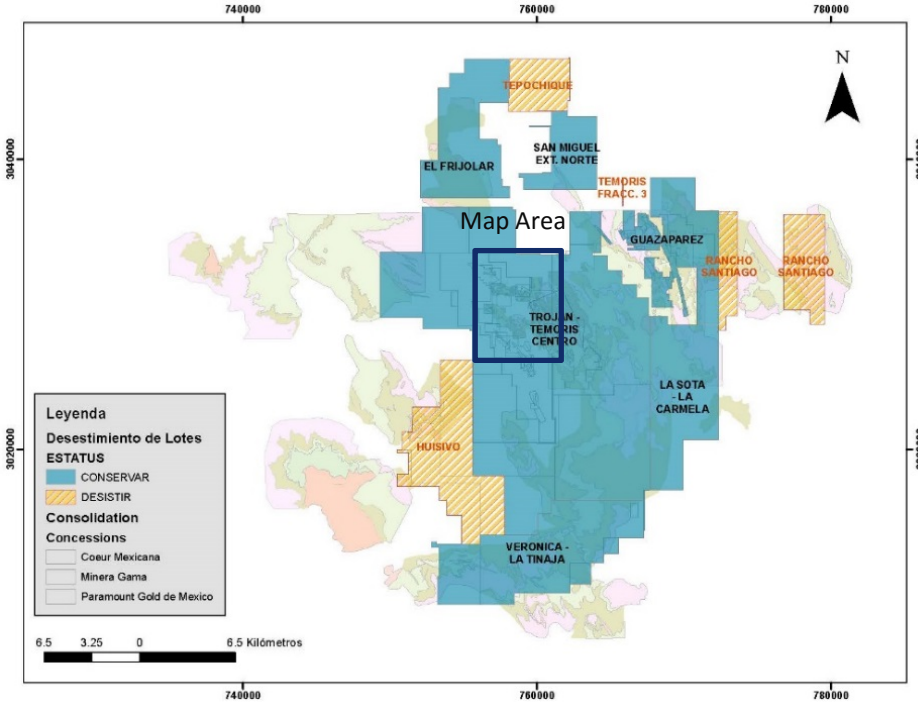

Average Mill Grade - Silver

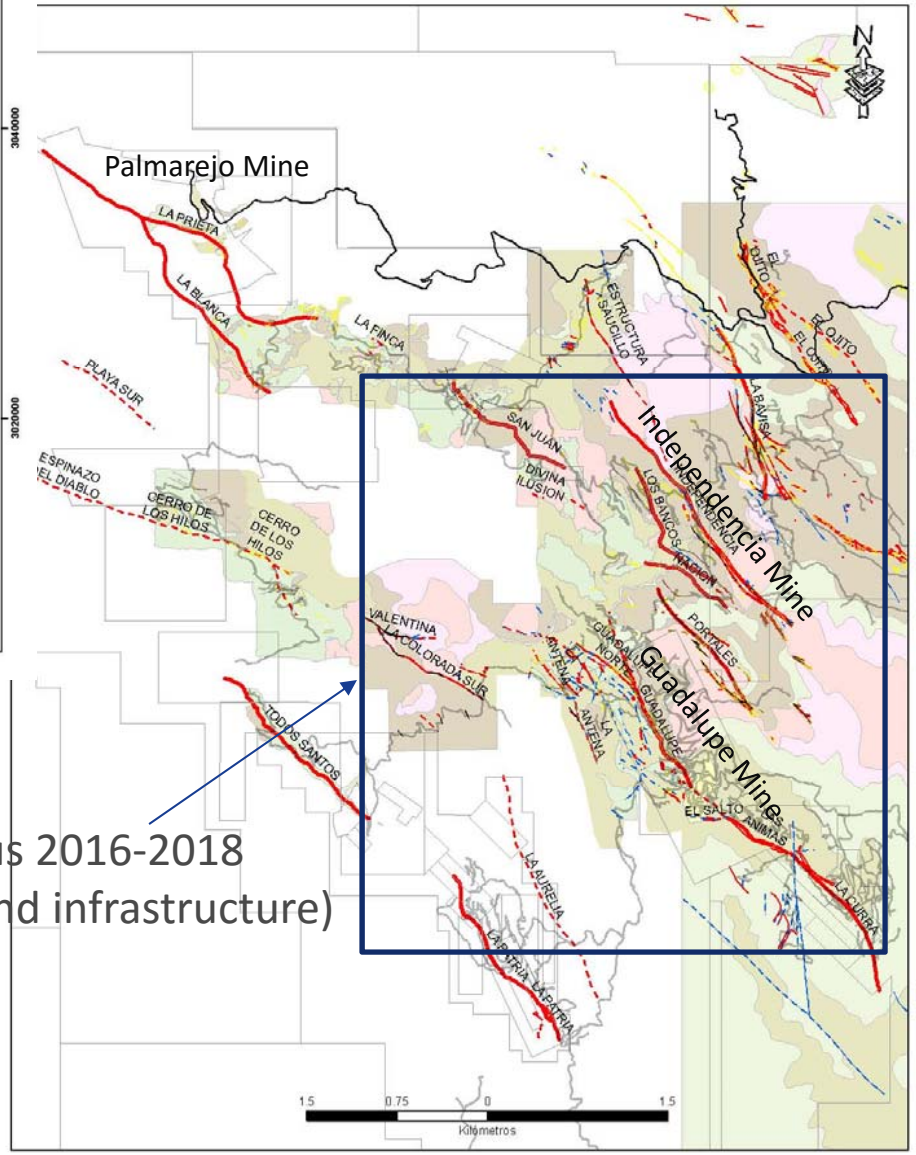

Average Mill Grade - Gold

Palmarejo
Significant Growth Potential

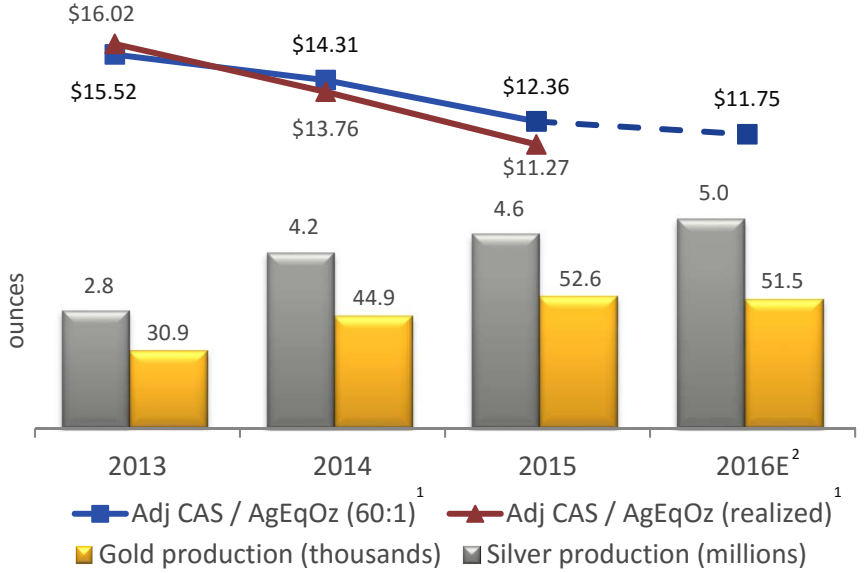

Area of Focus 2016-2018
(near underground infrastructure)

Rochester
Higher Mining Rates Leading to Lower Unit Costs and Stronger Cash Flow

Location:	Near Lovelock, Nevada
Ownership:	100%
Mining:	Open pit, heap leach
Land Position:	15,682 net acres
Product:	Silver and gold doré
P&P Reserves:	79.3M oz Ag, 477,000 oz Au
M&I Resources:	67.5M oz Ag, 483,000 oz Au
Inferred Resources:	31.2M oz Ag, 179,000 oz Au

Production and Cost Performance

Highlights

- 67% growth in silver equivalent[1] production and 29% reduction in Adj. CAS / realized AgEqOz between 2013 and 2015
- Received regulatory approval for 120M additional tons of leach pad capacity in Q2 2016; construction has now begun
- Drilling underway to define higher-grade East Rochester zone

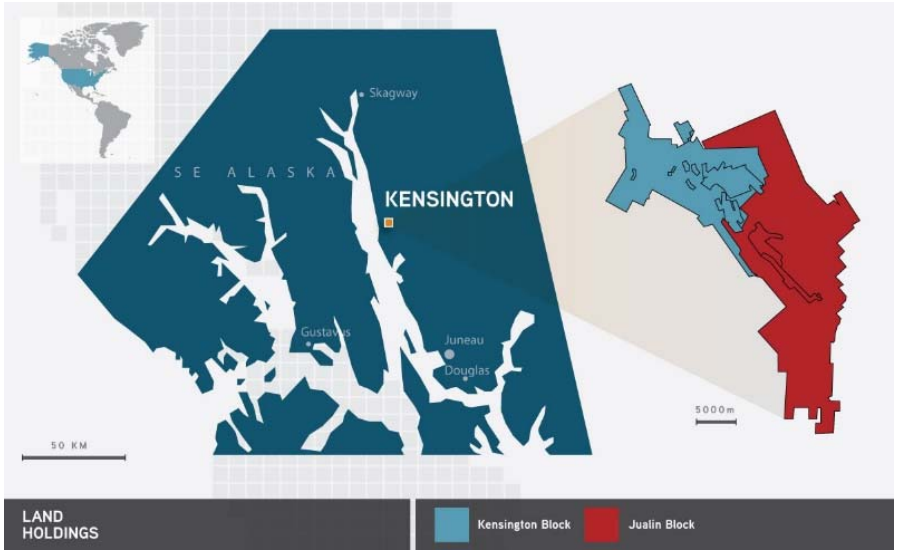

Note: Reserves and resources as of December 31, 2015. See slides in the appendix for additional information related to mineral reserves and resources.

1. See non-GAAP reconciliation tables in the appendix to this presentation. For purposes of silver equivalence, a 60:1 ratio is assumed except where noted as average realized prices.
2. Based on mid-point of 2016 guidance. Guidance as of July 27, 2016.

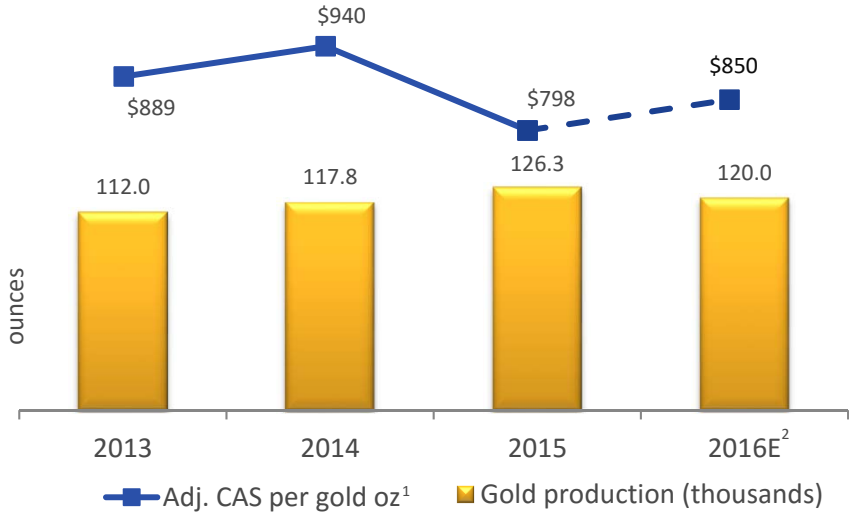

Kensington

Higher Grade Contributes to Strong Production at Lower Costs

Location:	Near Juneau, Alaska
Ownership:	100%
Mining:	Underground
Land Position:	3,969 net acres
Product:	Gold concentrate
P&P Reserves:	560,301 oz Au
M&I Resources:	518,000 oz Au
Inferred Resources:	690,000 oz Au

Production and Cost Performance

Highlights

- 2015 production of 126,266 ounces – 3rd straight year of record operating results
- Re-scoped mine plan demonstrates strategy to source ore from higher-grade areas over the LOM
- Development of high-grade Jualin deposit majority complete with initial reserve estimate expected at year-end

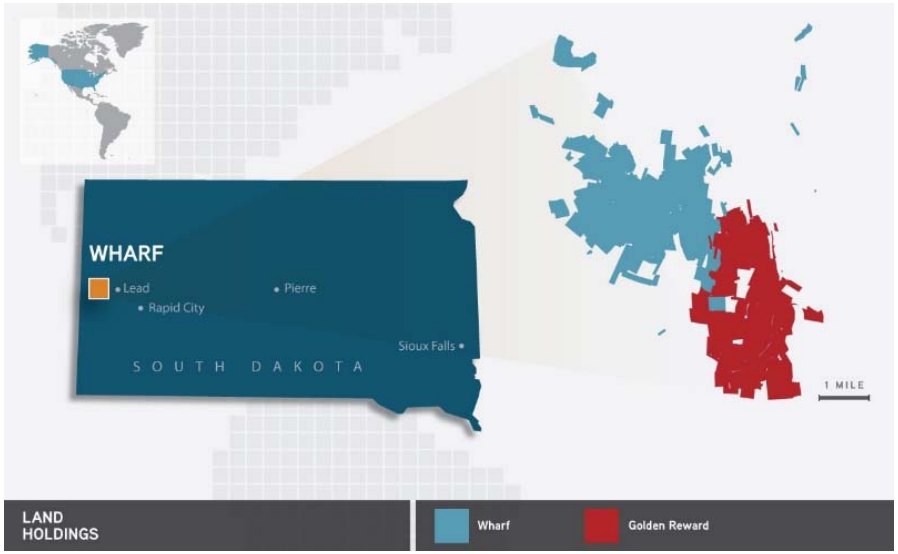

Note: Reserves and resources as of December 31, 2015. See slides in the appendix for additional information related to mineral reserves and resources.

1. See non-GAAP reconciliation tables in the appendix to this presentation. For purposes of silver equivalence, a 60:1 ratio is assumed except where noted as average realized prices.
2. Based on mid-point of 2016 guidance. Guidance as of July 27, 2016.

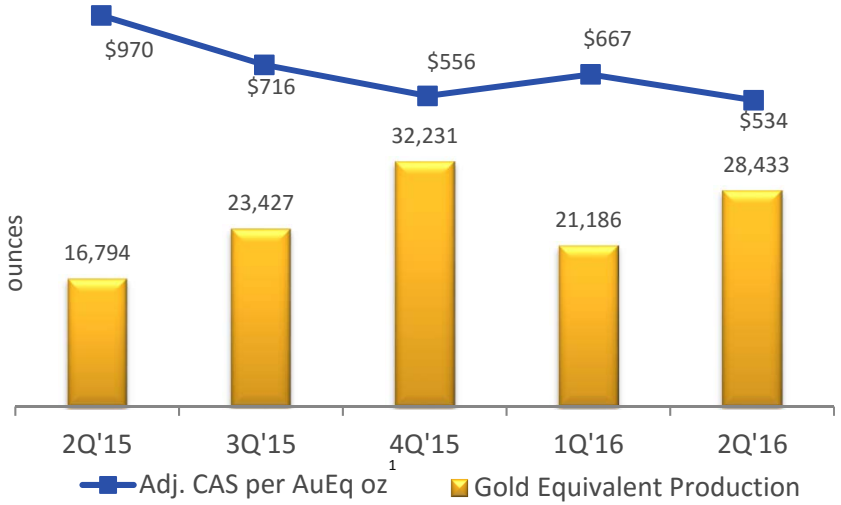

Wharf

Coeur's Lowest Cost Mine and Largest Contributor to FCF [2]

Location:	Lead, South Dakota
Ownership:	100%
Mining:	Open pit, heap leach
Land Position:	3,638 net surface acres
Product:	Electrolytic cathodic sludge
P&P Reserves:	712,090 oz Au
M&I Resources:	167,000 oz Au
Inferred Resources:	134,000 oz Au

Production and Cost Performance

Highlights

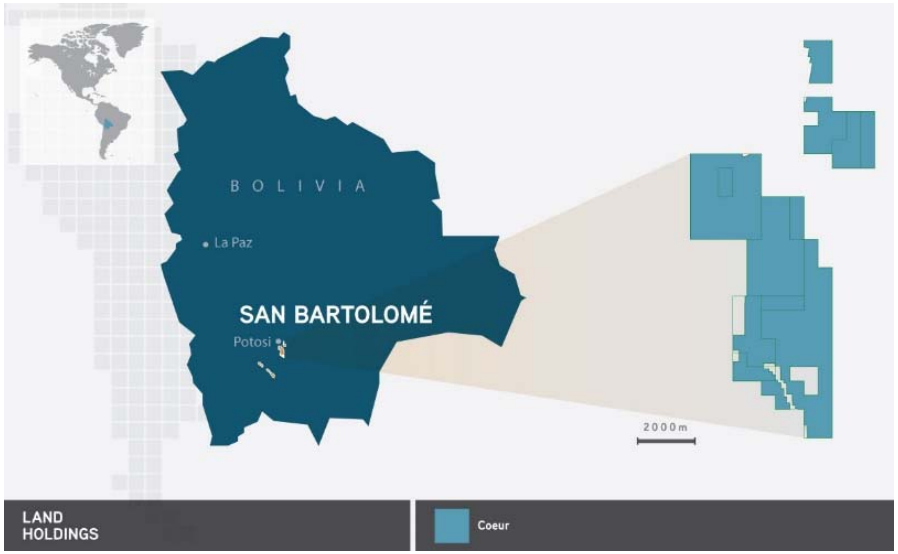

- Acquired in 2015 for $99 million from Goldcorp
- Coeur's lowest cost operation and largest source of FCF[2], generating $23M in H1 2016
- Improved process plant efficiencies have led to significantly higher plant recoveries
- Strong production expected in 2H 2016 as a result of seasonal mining in the higher grade Golden Reward pit
- 2016 Guidance: 90 – 95k AuEqOz; CAS of $650 - $750 per AuEqOz[1]

Note: Reserves and resources as of December 31, 2015. See slides in the appendix for additional information related to mineral reserves and resources..

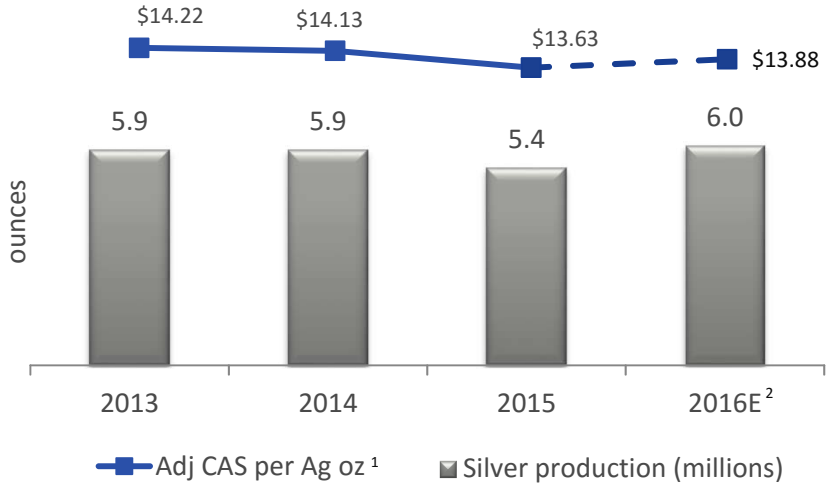

1. See non-GAAP reconciliation tables in the appendix to this presentation. For purposes of silver equivalence, a 60:1 ratio is assumed except where noted as average realized prices.
2. Free Cash Flow calculated as Cash Provided by Operating Activities less Capital Expenditures and Gold Production Royalty Payments.

San Bartolomé
Local Ore Purchases Contributing to Improved Cash Flows and Lower Costs

Location:	Potosi, Bolivia
Ownership:	100%
Mining:	Surface mining
Product:	Silver doré
P&P Reserves:	27.9M oz Ag
M&I Resources:	16.9M oz Ag
Inferred Resources:	0.1M oz Ag

Production and Cost Performance

Highlights

- Straightforward operation due to free-digging surface mining techniques (no drilling or blasting)
- Sourcing higher-grade, lower-cost ore from local sources in order to increase overall grade, reduce costs, and boost cash flow
- Implementing processing enhancements to improve recoveries

Note: Reserves and resources as of December 31, 2015. See slides in the appendix for additional information related to mineral reserves and resources.

1. See non-GAAP reconciliation tables in the appendix to this presentation. For purposes of silver equivalence, a 60:1 ratio is assumed except where noted as average realized prices.
2. Based on mid-point of 2016 guidance. Guidance as of July 27, 2016.

Costs Per Ton by Mine

Palmarejo	2Q 2015	3Q 2015	4Q 2015	1Q 2016	2Q 2016

Kensington	Alaska, USA	2,059,000	-	0.335	-	690,000
Wharf	South Dakota, USA	4,488,000	-	0.030	-	134,000
San Bartolome	Bolivia	56,000	1.59	-	89,000	-
Endeavor	Australia	661,000	3.18	-	2,103,000	-
La Preciosa	Mexico	1,359,000	2.33	0.004	3,168,000	5,000
Joaquin	Argentina	649,000	4.17	0.003	2,705,000	2,000
Lejano	Argentina	702,000	2.81	0.010	1,972,000	7,000
Total Inferred Resources		**71,292,000**	0.69	0.016	**49,472,000**	**1,164,000**

Notes to the 2015 mineral reserves and resources:

1. Effective December 31, 2015 except Endeavor, effective June 30, 2015.
2. Assumed metal prices for estimated reserves were $17.50 per ounce silver and $1,250 per ounce gold, except for San Bartolomé, Rosario and lower 76 underground deposits at Palmarejo at $15.50 per ounce of silver and $1,150 per ounce of gold, Endeavor at $2,400 per tonne zinc, $2,200 per tonne lead and $17.00 per ounce of silver, and Wharf at $1,275 per ounce of gold. Proven and probable reserves (other than Endeavor) were also evaluated using $15.50 per ounce of silver and $1,150 per ounce of gold. It was determined that substantially all proven and probable reserves could be economically and legally extracted or produced at these lower price assumptions.
3. Assumed metal prices for resources were $19.00 per ounce silver and $1,275 per ounce gold, except (a)Endeavor at $2,400 per tonne zinc,$2,200 per tonne lead, and $17.00 per ounce silver, and (b)Wharf at $1,350 per ounce gold.
4. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized.
5. Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
6. For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the mineral resources and reserves, Canadian investors should refer to the NI 43-101-compliant Technical Report for Coeur's properties on file at www.sedar.com.

Notes to the 2014 mineral reserves and resources:

1. Effective December 31, 2014 except Endeavor effective June 30, 2014.
2. Assumed metal prices for estimated Mineral Reserves were $19.00 per ounce of silver and $1,275 per ounce of gold, except Endeavor at $2,200 per metric ton of lead, $2,400 per metric ton of zinc and $20 per ounce of silver.
3. Assumed metal prices for estimated Mineral Resources were $22.00 per ounce of silver and $1,350 per ounce of gold except Endeavor at $2,200 per metric ton of lead, $2,400 per metric ton of zinc and $20 per ounce of silver.
4. Mineral Resources are in addition to Mineral Reserves and do not have not demonstrated economic viability. Mineral Resources do not include Mineral Reserves. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized.
5. Palmarejo Mineral Reserves and Resources are the addition of Palmarejo, Guadalupe, and Independencia deposits. There are no Mineral Reserves and Resources for La Patria in 2014.
6. Rounding of short tons and troy ounces, as required by reporting guidelines may result in apparent differences between tons, grade, and contained metal content.
7. For details on the estimation of Mineral Resources and Reserves for each property, Canadian investors should refer to the NI 43-101 compliant Technical Report on file at www.sedar.com.

Wharf's Historical Mineral Reserves and Resources

	Tons (000s)	Grade (oz/t)		Ounces (000s)	
		Gold	Silver	Gold	Silver
Proven and Probable Reserves					
Proven Reserves	15,179	0.022	0.078	340	1,190
Probable Reserves	8,245	0.026	0.108	220	890
Total Proven and Probable Reserves	**23,424**	**0.024**	**0.089**	**560**	**2,080**
Measured and Indicated Resources					
Measured Resources	4,795	0.020	0.104	100	500
Indicated Resources	1,642	0.020	0.102	30	170
Total Measured and Indicated Resources	**6,437**	**0.020**	**0.104**	**130**	**670**

Notes to the above mineral reserves and resources:

1. Mineral Reserves and Mineral Resources estimate as reported by Goldcorp in its Annual Information Form dated March 31, 2014 ("AIF") for the financial year ended December 31, 2013, available to Canadian investors at www.sedar.com under Goldcorp's profile. As discussed in the AIF, Mineral Reserves and Mineral Resources were prepared by Goldcorp in accordance with NI 43-101 under the supervision of a qualified person. Coeur is not treating these historical estimates as current and has not completed sufficient work to classify the historical estimate as current mineral reserves or mineral resources for Coeur's purposes. Coeur's qualified person will review and verify the scientific and technical information of Goldcorp, as well as complete the other work necessary for purposes of preparing a 43-101 technical report, including validation of data quality, resource model accuracy, and costs used in reserve and resource cutoffs.
2. As discussed in the AIF, mineral reserves were calculated by Goldcorp using metal prices of $1,300 per gold ounce and $22 per silver ounce, and mineral resources were calculated using $1,500 per gold ounce and $24 per silver ounce. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Rounding of tons, as required by reporting guidelines, may result in apparent differences between tons and grade.

Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. During his twenty year tenure with Coeur, Mr. Krebs has led nearly $2 billion in capital raising and debt restructuring activities and has facilitated over $2 billion of acquisitions and divestitures. Mr. Krebs was previously Coeur's Chief Financial Officer and held various positions in the corporate development department, including Senior Vice President of Corporate Development. Mr. Krebs is a Director of the National Mining Association, President of the Silver Institute, and is on the Board of World Business Chicago.

Peter C. Mitchell – Senior Vice President and Chief Financial Officer. Mr. Mitchell came to Coeur from Taseko Mines Limited where he served as Chief Financial Officer, leading Taseko's financial operations, including sourcing strategic capital to fund the company's strategic growth plan. Previously, Mr. Mitchell was involved in leading and managing growth in private equity portfolio companies through acquisitions, integrations and greenfield initiatives.

Frank L. Hanagarne, Jr. – Senior Vice President and Chief Operating Officer. Mr. Hanagarne was most recently Chief Operating Officer of Valcambi, SA, a precious metal refiner in Switzerland. Prior to his appointment as operations head of Valcambi in early 2011, Mr. Hanagarne was a Director of Corporate Development for Newmont Mining Corporation. Mr. Hanagarne's 17 years of service at Newmont has included positions of increasing responsibility within key areas of Newmont's operations and business functions as well as environmental, health and safety.

Casey M. Nault – Senior Vice President, General Counsel and Secretary. Mr. Nault has extensive experience as a corporate and securities lawyer, including prior in-house positions with Starbucks and Washington Mutual and law firm experience with Graham & Dunn in Seattle and Gibson, Dunn & Crutcher in Los Angeles. His experience includes securities compliance and SEC reporting, corporate governance, mergers and acquisitions, public and private securities offerings and other strategic transactions.

Humberto Rada – President, Coeur South America and of Coeur's Bolivian subsidiary Empresa Minera Manquiri, S.A. Prior to joining Coeur in July 2008, Mr. Rada served as General Manager for Newmont Mining Corporation's Bolivian company Inti Raymi. Mr. Rada is currently President of Bolivia's National Mining Association and has over 23 years of experience in South American mining and finance.

Hans Rasmussen – Senior Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco and Quadra Mining. Since 2004, he has been an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia.

Emilie Schouten – Vice President, Human Resources. Ms. Schouten has 15 years of experience in Human Resources, starting her career in General Electric, where graduated from GE's Human Resources Leadership Program. After 6 years as an HR Manager with GE, her division was acquired by the world's largest electrical distribution company, Rexel, and Emilie went on to become the Director of Training and Development. Emilie has her B.A. in Sociology from Michigan State University and her M.S. in Industrial Labor Relations from University of Wisconsin-Madison.

Board of Directors

Robert E. Mellor – Former Chairman, Chief Executive Officer and President of Building Materials Holding Corporation (distribution, manufacturing and sales of building materials and component products) from 1997 to January 2010, director from 1991 to January 2010; member of the board of directors of CalAtlantic Group, Inc. (national residential home builder) since October 2015; member of the board of directors of The Ryland Group, Inc. (national home builder, merged with another builder to form CalAtlantic) from 1999 until October 2015; member of the board of directors of Monro Muffler/Brake, Inc. (auto service provider) since August 2010 and lead independent director since April 2011; and former member of the board of directors of Stock Building Supply Holdings, Inc. (lumber and building materials distributor) from March 2010 until December 2015 when it merged with another company.

Mitchell J. Krebs – President and Chief Executive Officer. (See prior slide)

Linda L. Adamany – Member of the board of directors of Leucadia National Corporation, a diversified holding company engaged in a variety of businesses, since March 2014; non-executive director of Amec Foster Wheeler plc, an engineering, project management and consultancy company, since October 2012; member of the board of directors of National Grid plc, an electricity and gas generation, transmission and distribution company, from November 2006 to November 2012. Served at BP plc in several capacities from July 1980 until her retirement in August 2007, most recently from April 2005 to August 2007 as a member of the five-person Refining & Marketing Executive Committee responsible for overseeing the day-to-day operations and human resource management of BP plc's Refining & Marketing segment, a $45 billion business at the time.

Kevin S. Crutchfield – Chief Executive Officer and member of the board of directors of Contura Energy, Inc. (coal industry) since July 2016; Formerly, Chairman and Chief Executive Officer of Alpha Natural Resources, Inc. He was with Alpha Natural Resources since its formation in 2003, serving as Executive Vice-President, President, Director, Chief Executive Officer and was Chairman. Mr. Crutchfield is a 25-year coal industry veteran with technical, operating and executive management experience and is currently the Chairman of the National Mining Association and the American Coalition for Clean Coal Electricity.

Sebastian Edwards – Henry Ford II Professor of International Business Economics at the Anderson Graduate School of Management at the University of California, Los Angeles (UCLA) from 1996 to present; Chairman of the Inter American Seminar on Economics from 1987 to present; member of the Scientific Advisory Council of the Kiel Institute of World Economics in Germany from 2002 to present; and research associate at the National Bureau of Economic Research from 1981 to present.

Randolph E. Gress – Retired Chairman and Chief Executive Officer of Innophos Holdings, Inc., a leading international producer of performance-critical and nutritional specialty ingredients for the food, beverage, dietary supplements, pharmaceutical and industrial end markets. Mr. Gress was with Innophos since its formation in 2004 when Bain Capital purchased Rhodia SA's North American specialty phosphate business. Prior to his time at Innophos, Mr. Gress was with Rhodia since 1997 and held various positions including Global President of Specialty Phosphates (with two years based in the U.K.) and Vice-President and General Manager of the NA Sulfuric Acid and Regeneration businesses. From 1982 to 1997, Mr. Gress served in various roles at FMC Corporation including Corporate Strategy and various manufacturing, marketing, and supply chain positions.

John H. Robinson – Chairman of Hamilton Ventures LLC (consulting and investment) since founding the firm in 2006. Chief Executive Officer of Nowa Technology, Inc. (development and marketing of environmentally sustainable wastewater treatment technology) from 2013 to 2014. Vice Chairman of Olsson Associates (engineering consultants) from 2004 to 2005. Chairman of EPCglobal Ltd. (professional engineering staffing) and Executive Director of MetiLinx Ltd. (software) from 2003 to 2004. Executive Director of Amey plc (business process outsourcing and construction) from 2000 to 2002.

J. Kenneth Thompson – Member of the Board of Directors of Alaska Air Group, Inc. (parent company of Alaska Airlines and Horizon Air), Pioneer Natural Resources Company (oil and gas), and Tera Tech, Inc. (engineering consulting). President and Chief Executive Officer of Pacific Star Energy LLC (private energy investment firm in Alaska) from September 2000 to present, with a principal holding in Alaska Venture Capital Group LLC (private oil and gas exploration company) from December 2004 to present; Executive Vice President of ARCO's Asia Pacific oil and gas operating companies in Alaska, California, Indonesia, China and Singapore from 1998 to 2000.
