Palmarejo and Kensington Exploration Update

December 13, 2017

COEUR MINING®
We pursue a higher standard

NYSE: CDE

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements regarding exploration and development efforts and plans, exploration expenditures, drill results, production, growth, extended mine lives, investments, cash flow, future projects and mine expansion plans, resource delineation, expansion, upgrade, or conversion, and timing of publication of technical reports. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause Coeur's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that anticipated additions or upgrades to reserves and resources are not attained, the risk that planned drilling programs may be curtailed or canceled due to budget constraints or other reasons, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), changes in the market prices of gold and silver and a sustained lower price environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions, grade variability, any future labor disputes or work stoppages, the uncertainties inherent in the estimation of gold and silver reserves, changes that could result from Coeur's future acquisition of new mining properties or businesses, the loss of any third-party smelter to which Coeur markets silver and gold, the effects of environmental and other governmental regulations, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt, as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Form 10-K or Form 10-Q. Actual results, developments and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward-looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

Christopher Pascoe, Coeur's Director, Technical Services and a qualified person under Canadian National Instrument 43-101, approved the scientific and technical information concerning Coeur's mineral projects in this presentation. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, Canadian investors should refer to the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

Select drill results highlights are included in this presentation. For a complete table of all drill results at Palmarejo and Kensington, please refer to the following link: http://investors.coeur.com/interactive/lookandfeel/4349317/2017_Exploration_Update_Release_Appendix.pdf.

Notes

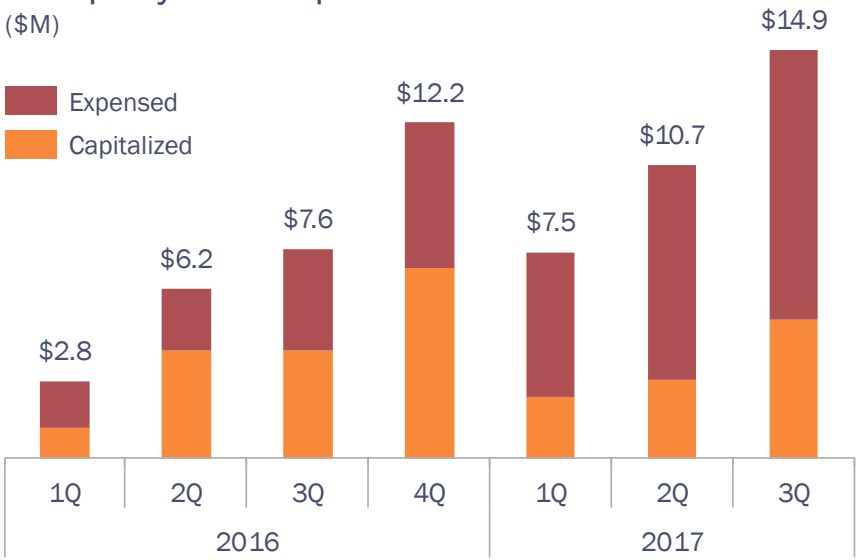

1. The potential quantity and grade for the deposits described herein are conceptual in nature. There is insufficient exploratory work to define a mineral resource and it is uncertain if further exploration will result in the applicable target being delineated as a mineral resource.
2. Analytical testing for drill core samples from Palmarejo was completed by ALS Minerals on location in Chihuahua, Chihuahua, Mexico and Vancouver, British Columbia, Canada. Analyses for gold were completed by fire assay with an inductively coupled plasma ("ICP") finish. Over limits were completed by fire assay with a gravimetric finish. Analyses for silver were completed by four-acid digestion with an ICP finish. Over limits were completed by fire assay with a gravimetric finish.
3. Analytical testing for drill core samples from Kensington was completed by Bureau Veritas on location in Juneau, Alaska, U.S. and Vancouver, British Columbia, Canada. Analyses for gold were completed by fire assay with an atomic absorption finish. Over limits were completed by fire assay with a gravimetric finish. Met screen testing was utilized in the presence of coarse gold.

Palmarejo and Kensington Exploration Overview

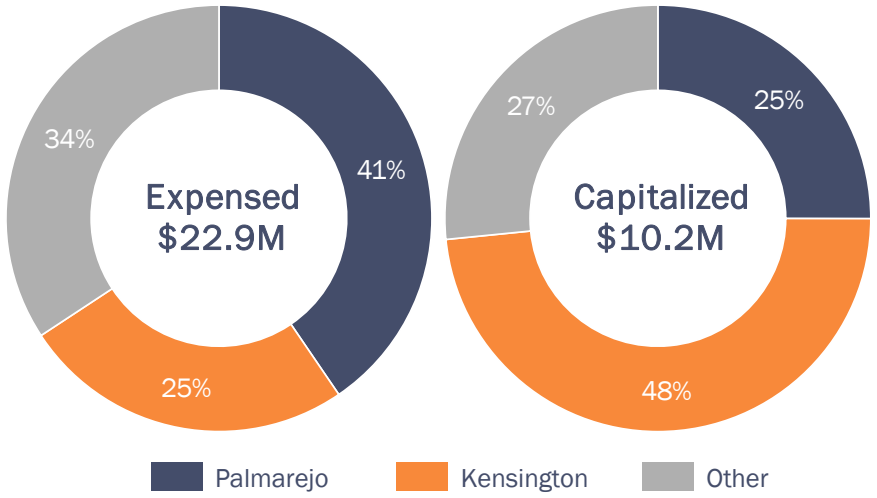

- Expanded Palmarejo and Kensington exploration program objectives:
  1. Discovering and delineating resources
  2. Upgrading resources to extend mine life
- Since the second half of 2016, exploration investment levels at Palmarejo have increased 88% while Kensington's have nearly tripled

Companywide Exploration Investment

3Q 2017 YTD Exploration Investment

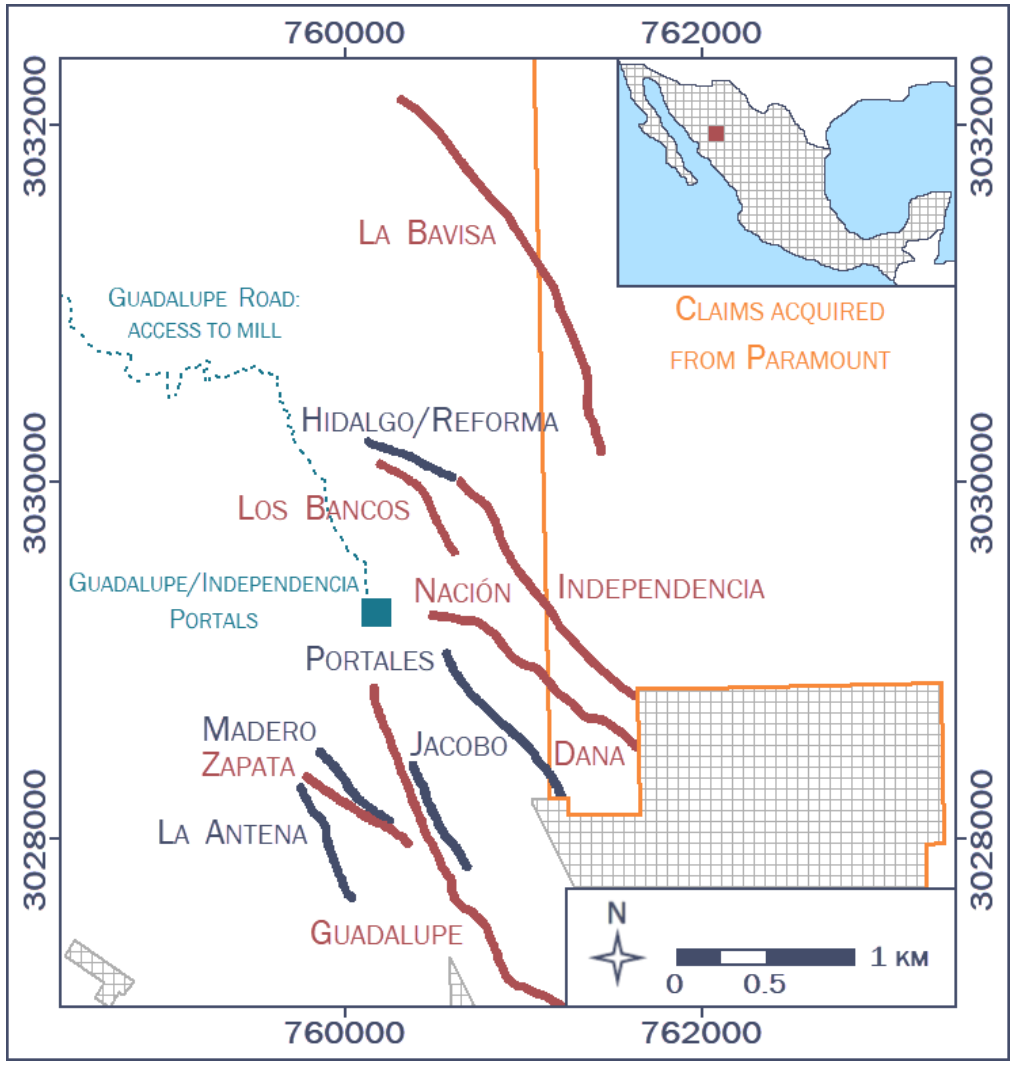

Palmarejo Validates Near-Mine Exploration Philosophy

Exploration at Palmarejo has generated multiple new, high-grade discoveries near existing infrastructure

Drilling activity targeted:

- Resource conversion and expansion at Guadalupe and Independencia
- **Nación-Dana**, which requires no additional permitting or access, and **La Bavisa**
  - Considerable portions of both veins are not subject to Palmarejo's stream agreement
- Defining newly-discovered veins, which 2018 drilling is expected to prioritize:
  - **Zapata**, **Madero**, and **La Antena**, west of Guadalupe
  - **Portales** and **Jacobo**, east of Guadalupe
  - **Hidalgo** and **Reforma**, north of Independencia
  - First holes into three new targets

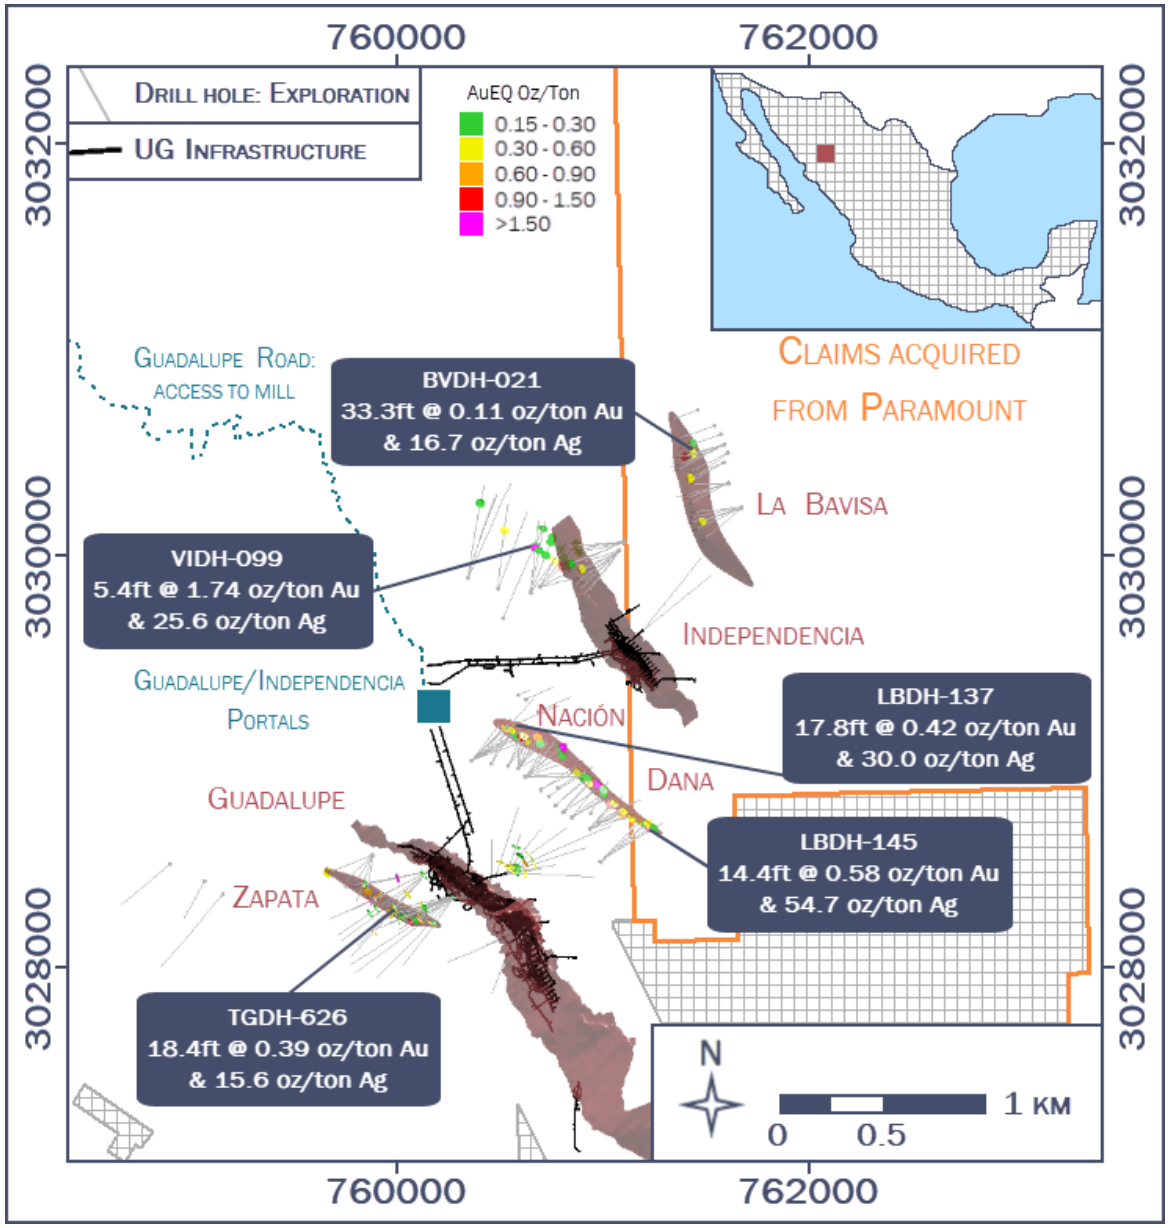

Results Reflect Prioritization of Mine Life Extension

COEUR MINING

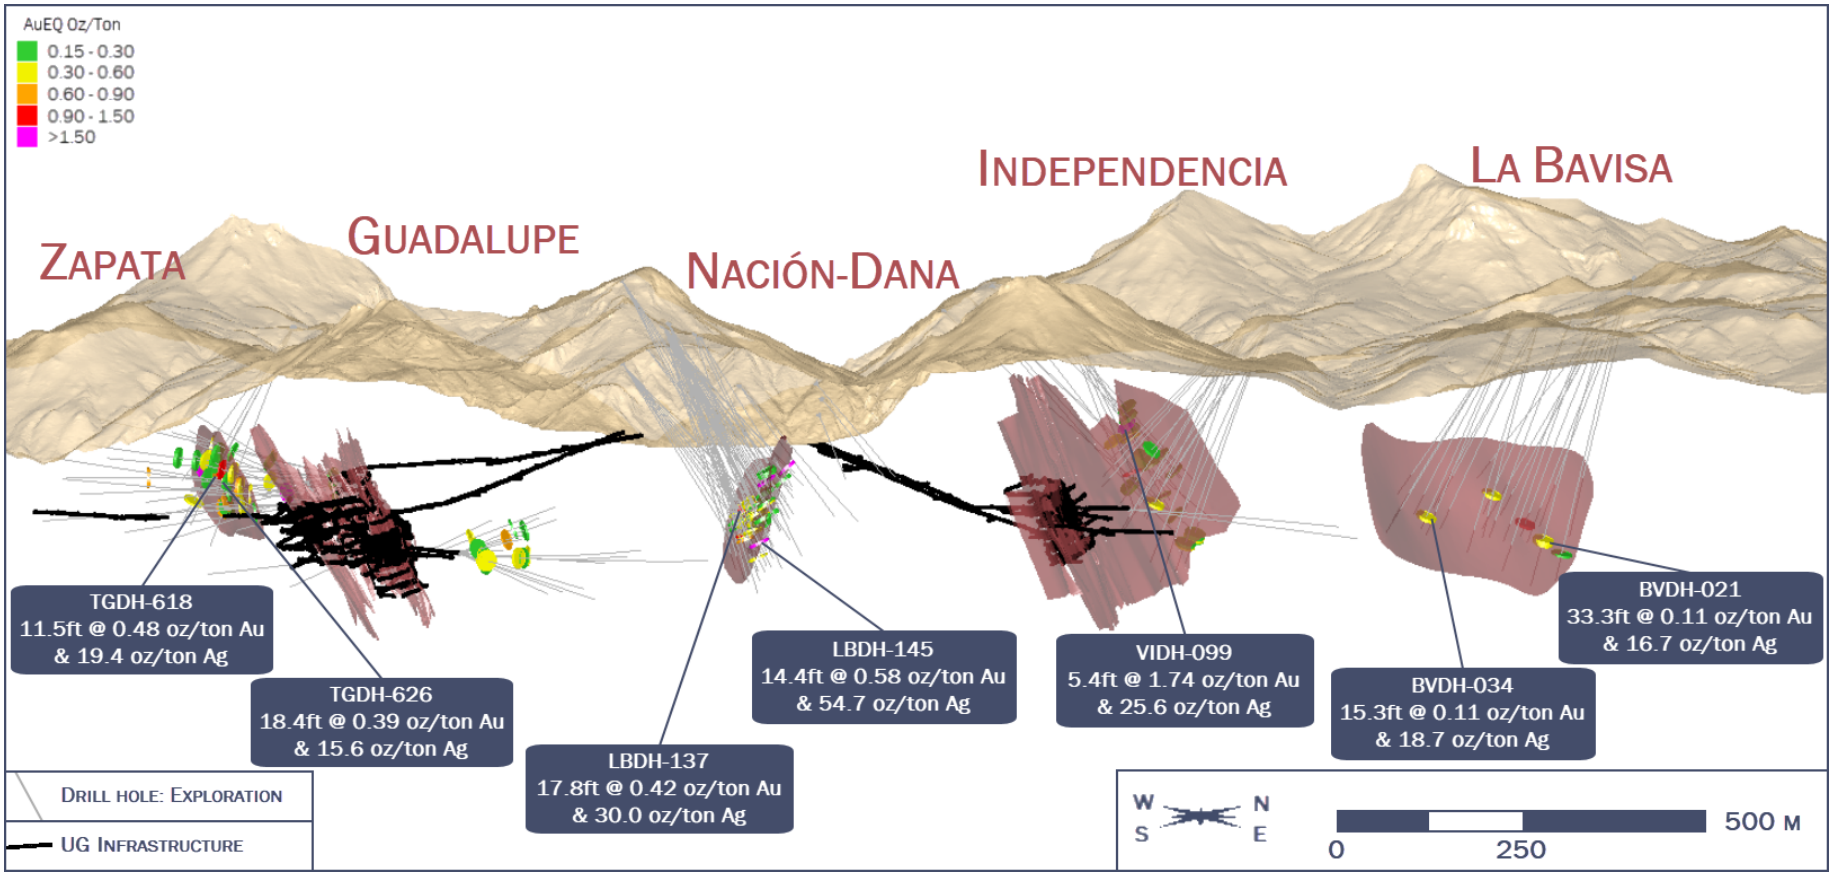

Highlights:

- Indicated resources identified in northern portion of **Nación-Dana**
  - Preliminary mine planning underway
  - Total strike length, including the southern portion, extends over 4,000 ft (1,200 m)
- Initial resource estimate from **La Bavisa** expected at year-end
  - Intercepts indicate grade and thickness comparable to Independencia
- Drill results from the newly-discovered **Zapata** vein, less than 500 ft west of the Guadalupe mine, are expected to support an initial resource estimate at year-end

Note: For complete drill results, please http://investors.coeur.com/interactive/lookandfeel/4349317/2017_Exploration_Update_Release_Appendix.pdf. The potential quantity and grade for the deposits described herein are conceptual in nature. There is insufficient exploratory work to define a mineral resource and it is uncertain if further exploration will result in the applicable target being delineated as a mineral resource.

Palmarejo: NW Section View with Intercepts

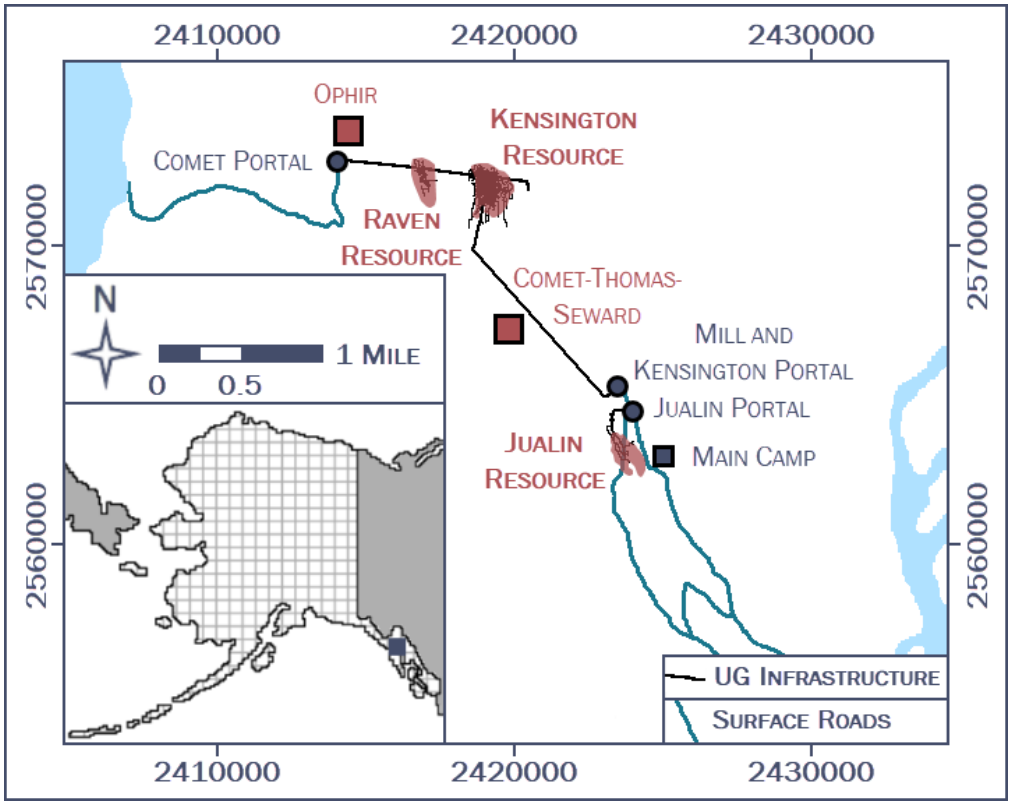

Note: For complete drill results, please http://investors.coeur.com/interactive/lookandfeel/4349317/2017_Exploration_Update_Release_Appendix.pdf. The potential quantity and grade for the deposits described herein are conceptual in nature. There is insufficient exploratory work to define a mineral resource and it is uncertain if further exploration will result in the applicable target being delineated as a mineral resource.

Kensington Exploration Targets High-Grade Areas

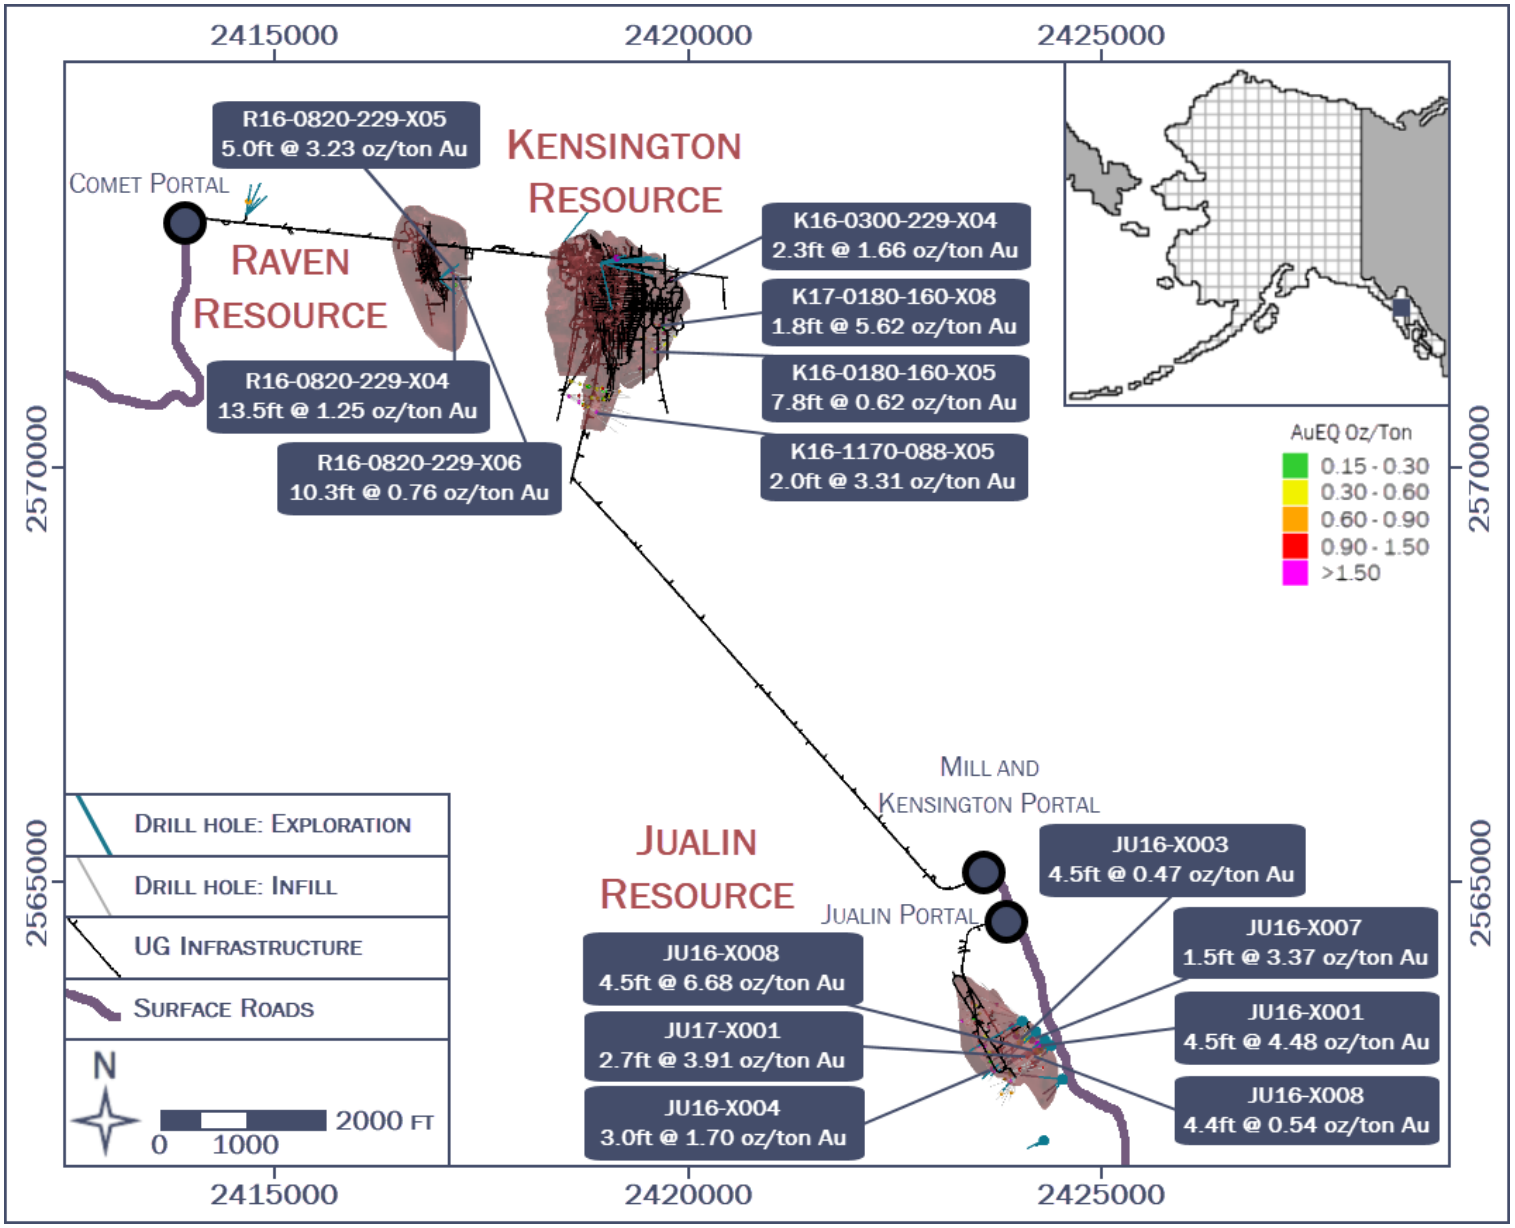

Drilling at Kensington has remained focused on both upgrading resources and expanding high-grade areas

Drilling activity targeted:

- Resource expansion in deeper zones of **Kensington Main**
  - Continued indication of expansion from Block M and L intercepts
- Upgrade and expansion of the **Jualin** resource
  - Inclusion of a Jualin reserve estimate is expected in Kensington's technical report anticipated 1Q 2018
- Expansion of the **Raven** vein, where high-grade narrow-vein mining continues to augment Kensington's overall production

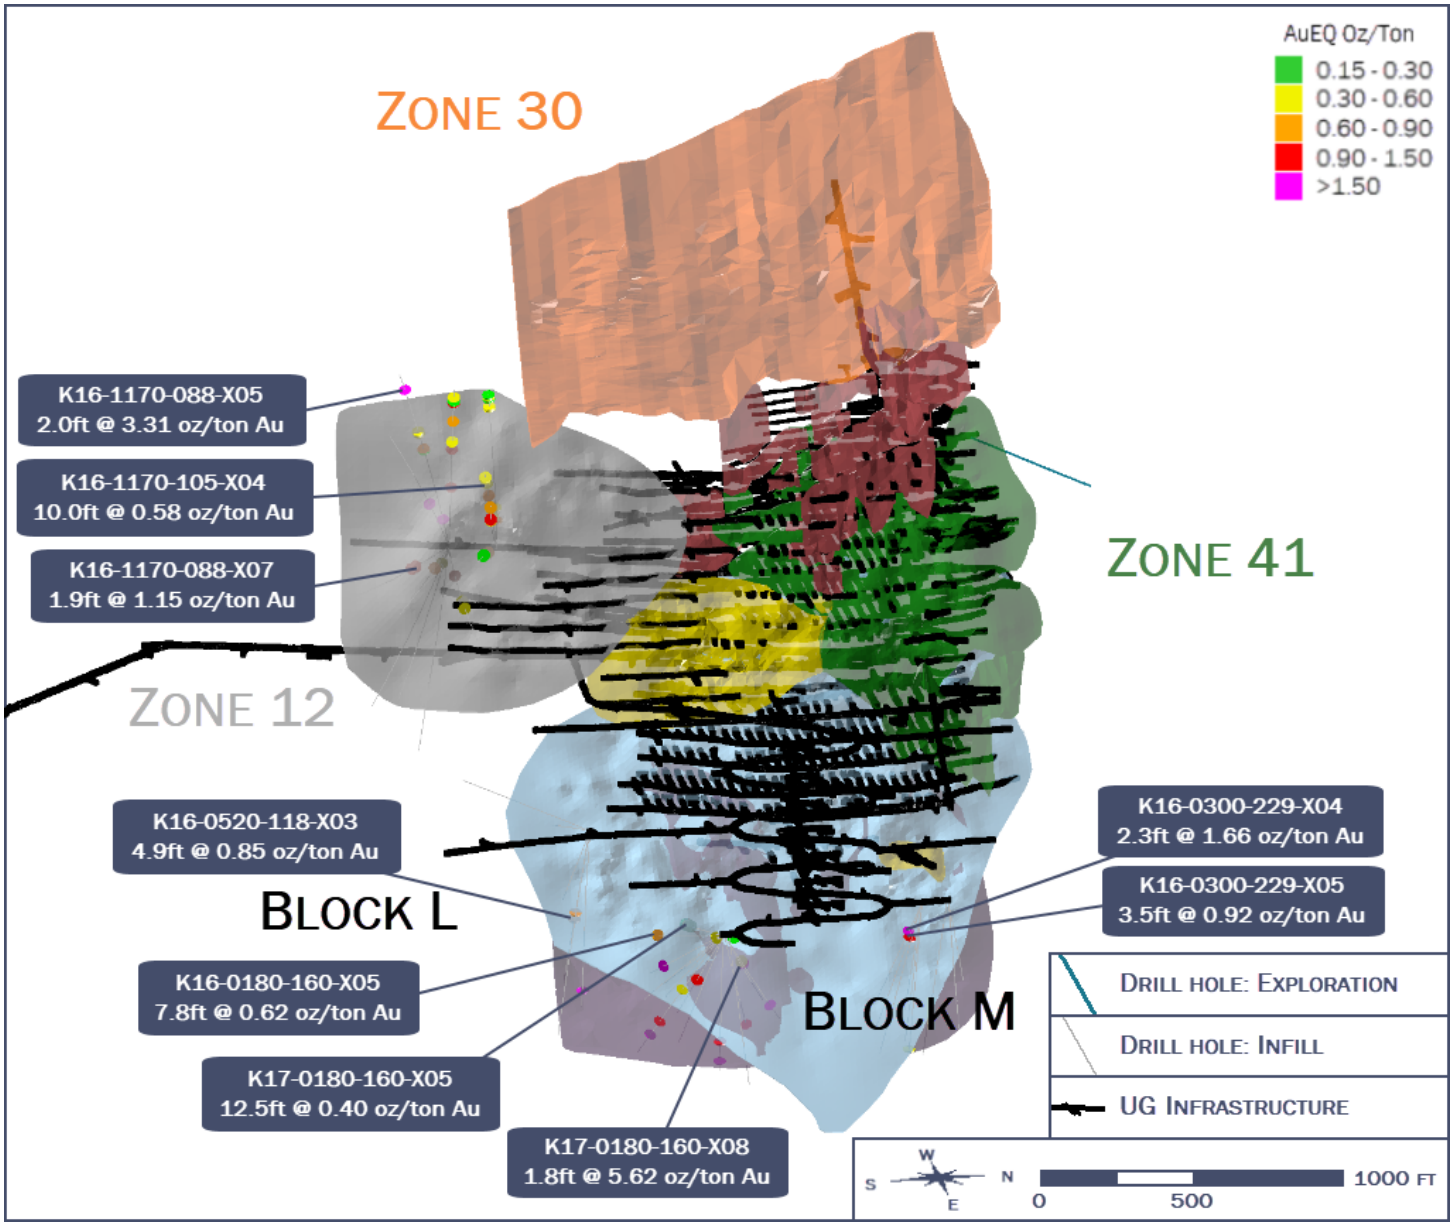

Kensington: Plan View with Intercepts

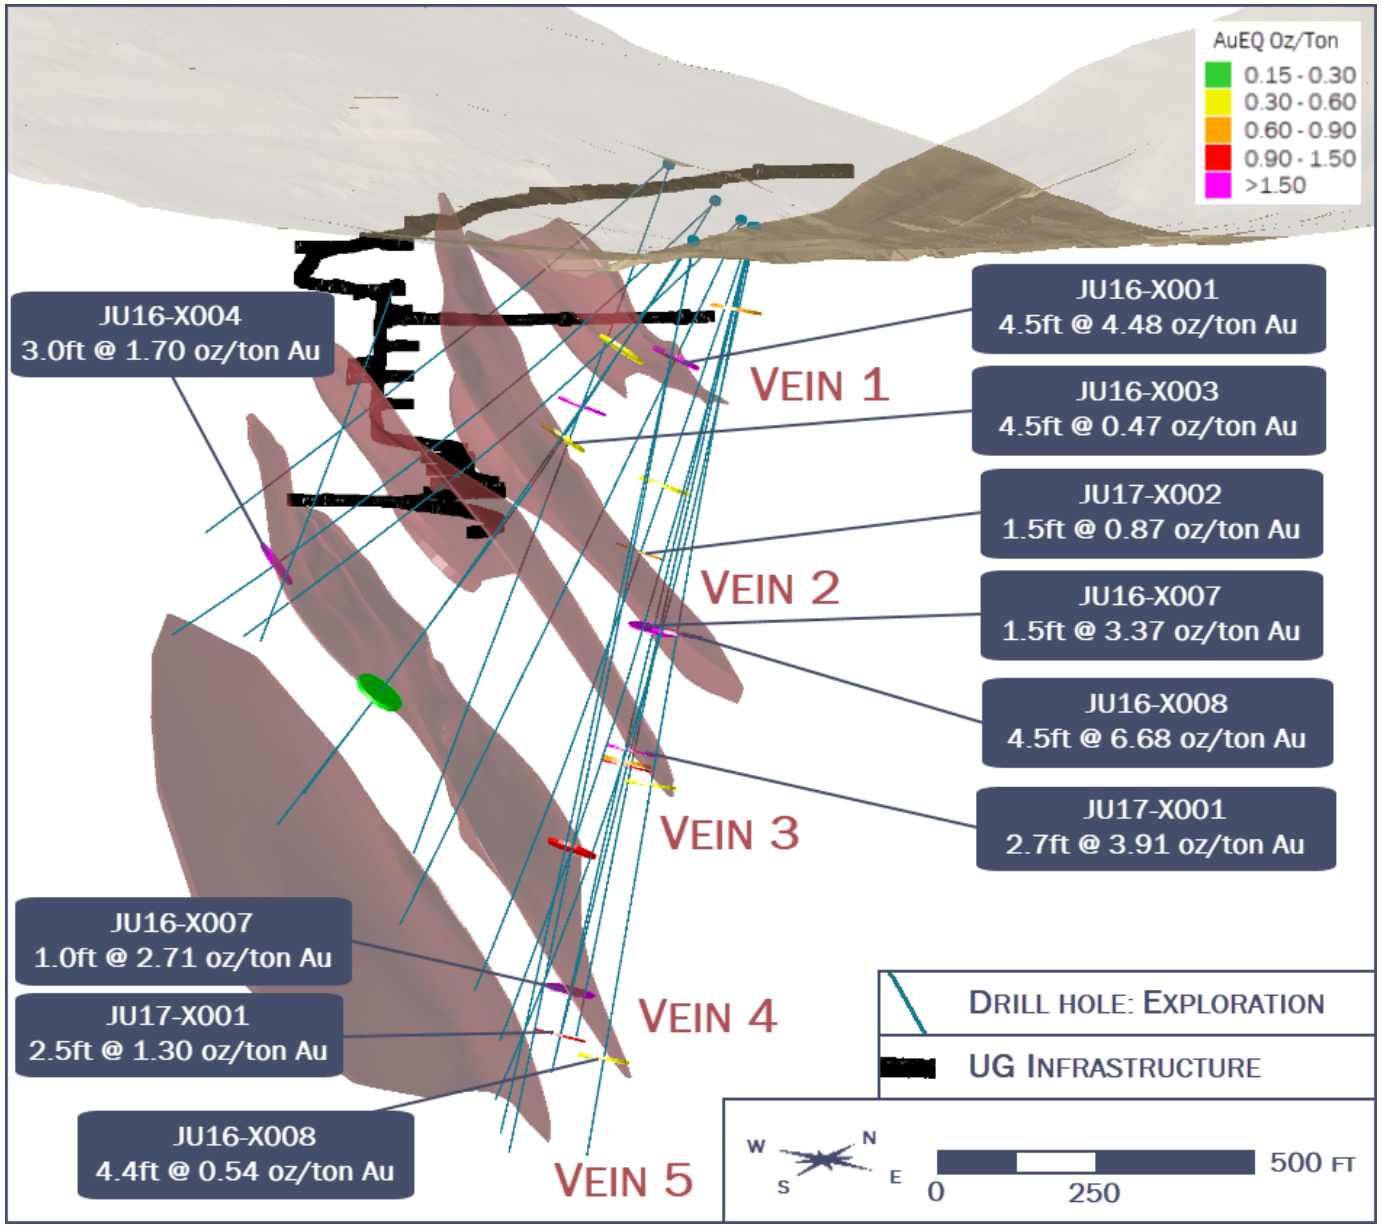

Note: For complete drill results, please http://investors.coeur.com/interactive/lookandfeel/4349317/2017_Exploration_Update_Release_Appendix.pdf. The potential quantity and grade for the deposits described herein are conceptual in nature. There is insufficient exploratory work to define a mineral resource and it is uncertain if further exploration will result in the applicable target being delineated as a mineral resource.

Kensington Main: NW Section View with Intercepts

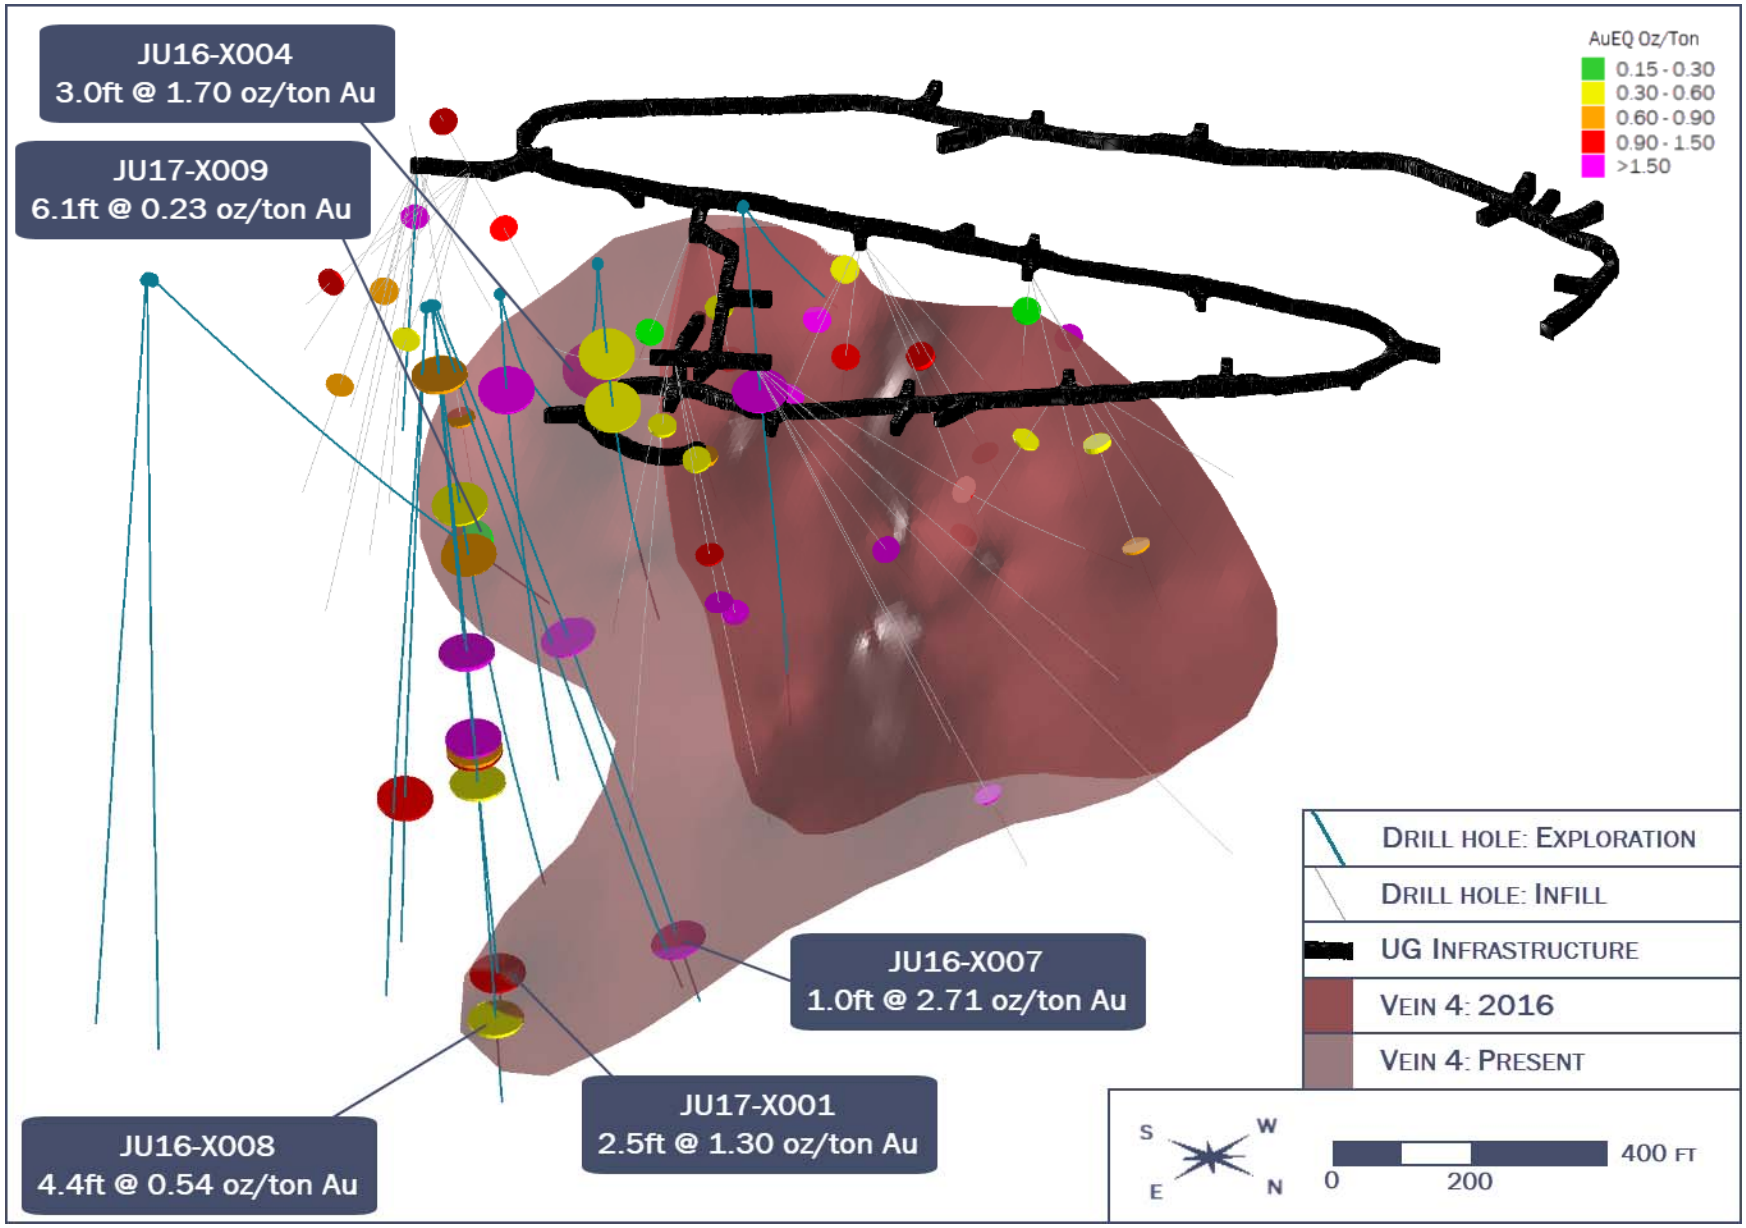

Note: For complete drill results, please http://investors.coeur.com/interactive/lookandfeel/4349317/2017_Exploration_Update_Release_Appendix.pdf. The potential quantity and grade for the deposits described herein are conceptual in nature. There is insufficient exploratory work to define a mineral resource and it is uncertain if further exploration will result in the applicable target being delineated as a mineral resource.

Jualin: NW Section View with Intercepts

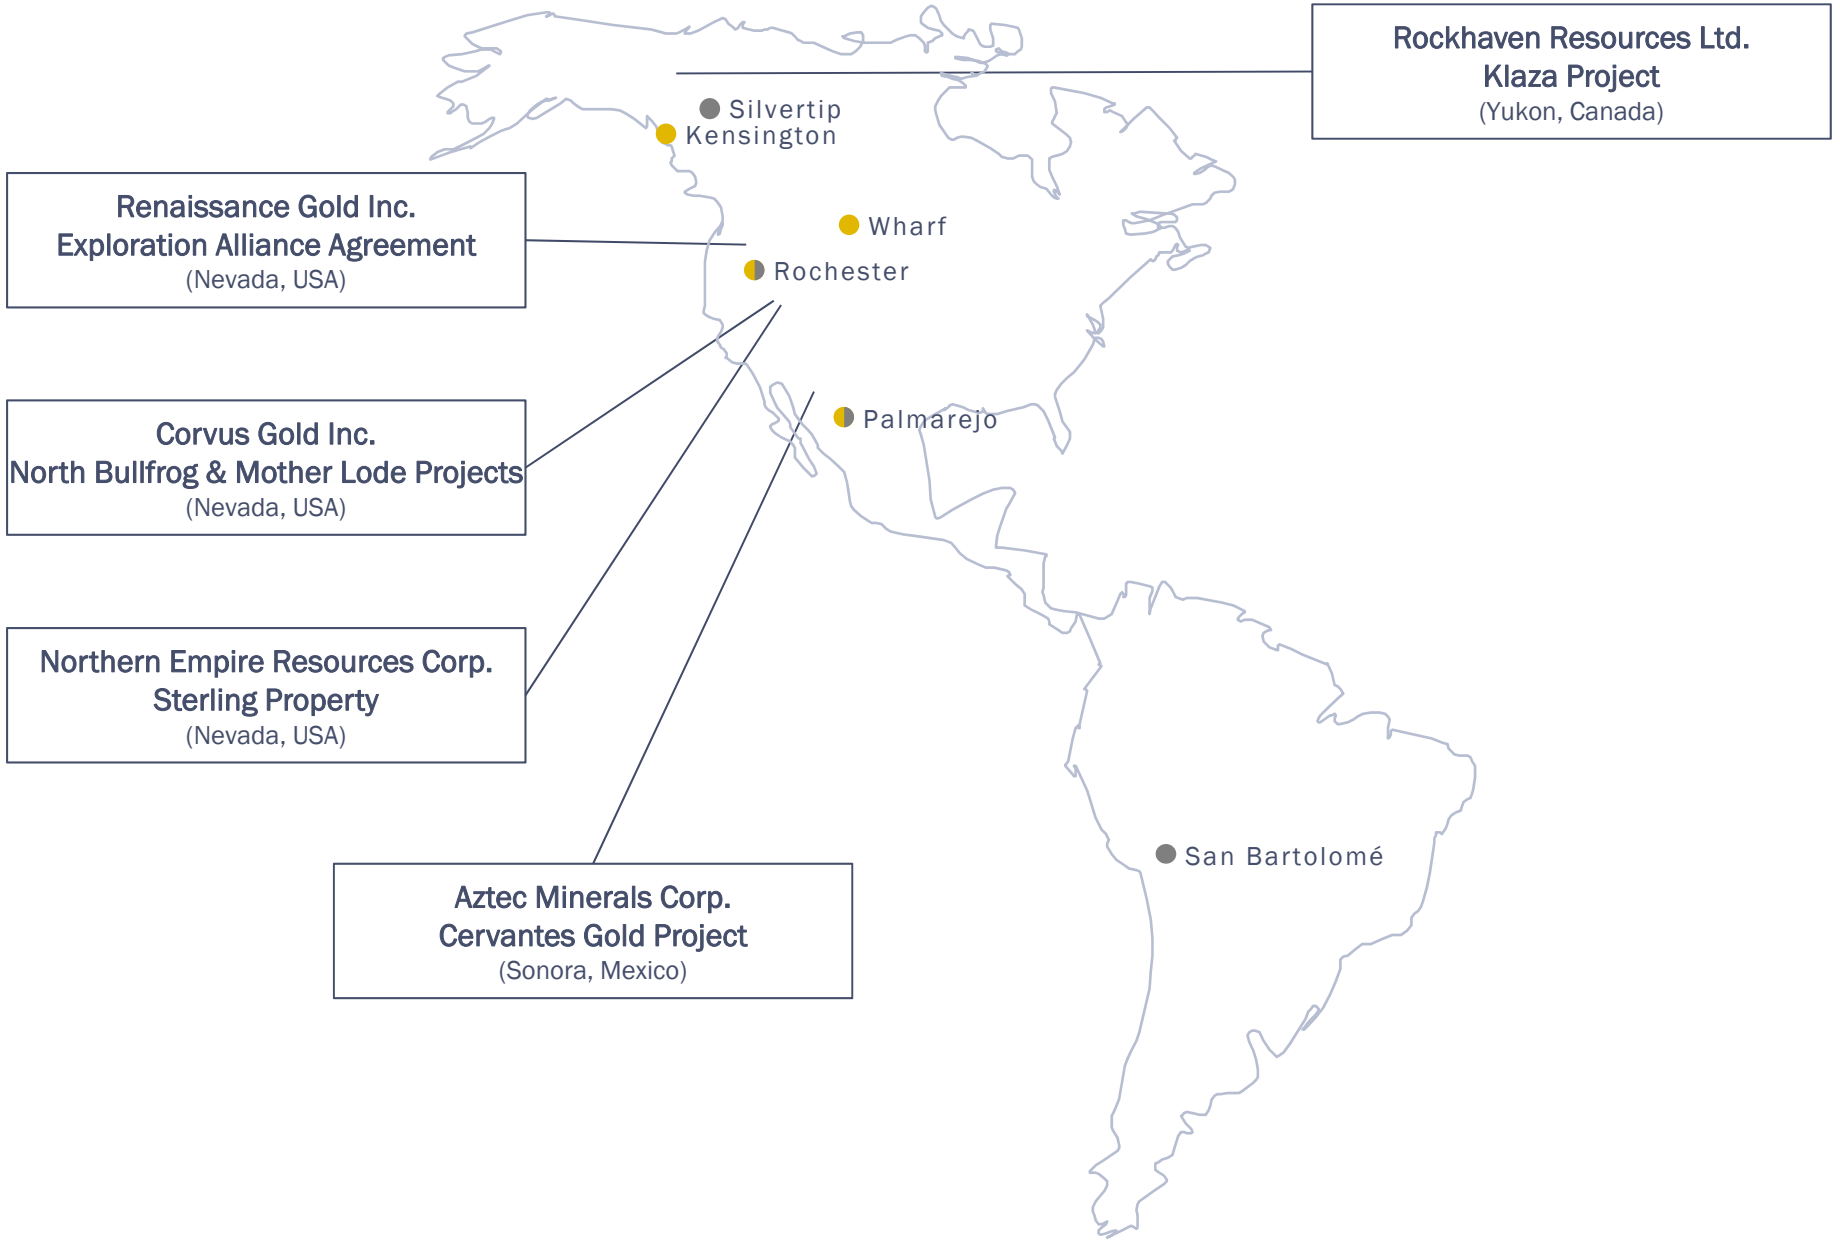

Note: For complete drill results, please http://investors.coeur.com/interactive/lookandfeel/4349317/2017_Exploration_Update_Release_Appendix.pdf. The potential quantity and grade for the deposits described herein are conceptual in nature. There is insufficient exploratory work to define a mineral resource and it is uncertain if further exploration will result in the applicable target being delineated as a mineral resource.

Jualin: SW Section of Vein #4 with Jualin Intercepts

Note: For complete drill results, please http://investors.coeur.com/interactive/lookandfeel/4349317/2017_Exploration_Update_Release_Appendix.pdf. The potential quantity and grade for the deposits described herein are conceptual in nature. There is insufficient exploratory work to define a mineral resource and it is uncertain if further exploration will result in the applicable target being delineated as a mineral resource.

Overview of Select Growth Investments

Looking Ahead – Exploration

- Palmarejo's year-end reserve and resource statement expected to reflect:
  - Initial reserve estimate at Nación-Dana
  - Initial resource estimate at La Bavisa and Zapata
- Kensington year-end reserve and resource statement to reflect 2017 depletion only
  - Updated reserve and resource statement and technical report anticipated late 1Q 2018
- 2018 exploration program
  - Total spend expected to be comparable to 2017E levels ($32-36M expensed, $15M capitalized) and significantly higher than in 2016 ($12.9M expensed, $15.9M capitalized)
    - **Palmarejo** priorities include:
      - Continued expansion of Nación-Dana, Zapata, and La Bavisa
      - Initial resource estimates at new Madero, Antena, Portales, Jacobo, Hidalgo, and Reforma discoveries
    - **Kensington** priorities:
      - Infill drilling at Kensington Zone 30 and expansion drilling at Jualin and Kensington Block L
    - **Silvertip** priorities:
      - Infill drilling and resource conversion to support first mine plan
    - Other priorities:
      - In-pit resource conversion at **Rochester** and **Wharf**
  - **Earlier-stage exploration** targeting properties with synergies with existing operations
  - Continuing to provide strategic and technical supervision to its **growth investments** across the U.S., Canada, and Mexico

Appendix

Reserves and Resources

2016 Proven and Probable Mineral Reserves

	Location	Short tons	Grade (oz/ton)		Ounces (contained)	
			Silver	Gold	Silver	Gold
Proven Reserves						
Palmarejo	Mexico	1,569,000	4.44	0.080	6,971,000	126,000
Rochester	Nevada, USA	143,686,000	0.48	0.004	68,369,000	503,000
Kensington	Alaska, USA	1,133,000	-	0.194	-	220,000
Wharf	South Dakota, USA	9,453,000	-	0.031	-	294,000
San Bartolomé	Bolivia	5,563,000	3.32	-	18,485,000	-
Total Proven Reserves		**161,404,000**	**0.58**	**0.007**	**93.825,000**	**1,143,000**
Probable Reserves						
Palmarejo	Mexico	7,174,000	4.72	0.065	33,847,000	466,000
Rochester	Nevada, USA	101,118,000	0.43	0.003	43,676,000	300,000
Kensington	Alaska, USA	1,483,000	-	0.187	-	277,000
Wharf	South Dakota, USA	15,581,000	-	0.022	-	345,000
San Bartolomé	Bolivia	765,000	3.48	-	2,659,000	-
Total Probable Reserves		**126,121,000**	**0.64**	**0.011**	**80,182,000**	**1,388,000**
Proven and Probable Reserves						
Palmarejo	Mexico	8,742,000	4.67	0.068	40,818,000	592,000
Rochester	Nevada, USA	244,804,000	0.46	0.003	112,045,000	803,000
Kensington	Alaska, USA	2,616,000	-	0.190	-	497,000
Wharf	South Dakota, USA	25,034,000	-	0.026	-	639,000
San Bartolomé	Bolivia	6,328,000	3.34	-	21,144,000	-
Total Proven and Probable Reserves		**287,524,000**	**0.61**	**0.009**	**174,007,000**	**2,531,000**

Reserves and Resources (cont.)

2016 Measured and Indicated Mineral Resources (excluding Reserves)

	Location	Short tons	Grade (oz/ton)		Ounces (contained)	
			Silver	Gold	Silver	Gold
Measured Resources						
Palmarejo	Mexico	818,000	3.20	0.061	2,618,000	50,000
Rochester	Nevada, USA	39,732,000	0.59	0.003	23,281,000	132,000
Kensington	Alaska, USA	1,297,000	-	0.261	-	338,000
Wharf	South Dakota, USA	2,195,000	-	0.031	-	67,000
San Bartolomé	Bolivia	1,575,000	2.20	-	3,466,000	-
La Preciosa	Mexico	18,156,000	3.21	0.006	58,225,000	108,000
Total Measured Resources		**63,773,000**	**1.37**	**0.011**	**87,590,000**	**695,000**
Indicated Resources						
Palmarejo	Mexico	4,082,000	3.59	0.046	14,647,000	187,000
Rochester	Nevada, USA	29,729,000	0.53	0.004	15,652,000	106,000
Kensington	Alaska, USA	1,828,000	-	0.292	-	533,000
Wharf	South Dakota, USA	2,719,000	-	0.022	-	61,000
San Bartolomé	Bolivia	286,000	1.97	-	564,000	-
La Preciosa	Mexico	20,818,000	2.75	0.004	57,198,000	88,000
Total Indicated Resources		**59,462,000**	**1.48**	**0.016**	**88,061,000**	**975,000**
Measured and Indicated Resources						
Palmarejo	Mexico	4,900,000	3.52	0.048	17,265,000	237,000
Rochester	Nevada, USA	69,461,000	0.56	0.003	38,933,000	238,000
Kensington	Alaska, USA	3,125,000	-	0.279	-	871,000
Wharf	South Dakota, USA	4,914,000	-	0.026	-	128,000
San Bartolomé	Bolivia	1,861,000	2.17	-	4,030,000	-
La Preciosa	Mexico	38,974,000	2.96	0.005	115,423,000	197,000
Total Measured and Indicated Resources		**123,235,000**	**1.43**	**0.014**	**175,651,000**	**1,671,000**

Reserves and Resources (cont.)

2016 Inferred Mineral Resources

	Location	Short tons	Grade (oz/ton)		Ounces (contained)	
			Silver	Gold	Silver	Gold
Inferred Resources						
Palmarejo	Mexico	4,726,000	4.35	0.055	20,540,000	258,000
Rochester	Nevada, USA	67,778,000	0.52	0.003	35,554,000	178,000
Kensington	Alaska, USA	1,579,000	-	0.276	-	436,000
Wharf	South Dakota, USA	4,231,000	-	0.026	-	108,000
San Bartolomé	Bolivia	22,000	1.91	-	42,000	-
La Preciosa	Mexico	1,359,000	2.33	0.004	3,168,000	5,000
Total Inferred Resources		**79,695,000**	**0.74**	**0.012**	**59,304,000**	**985,000**

Notes to 2016 mineral reserves and resources:

(a) Effective December 31, 2016.

(b) Assumed metal prices for Mineral Reserves were $17.50 per ounce of silver and $1,250 per ounce of gold.

(c) Assumed metal prices for estimated Mineral Resources were $19.00 per ounce of silver and $1,275 per ounce of gold, except Endeavor at $1,800 per metric ton of lead, $2,200 per metric ton of zinc, and $20.00 per ounce of silver.

(d) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized. The preliminary economic assessment for the re-scoped mine plan at Kensington is preliminary in nature and includes Inferred Mineral Resources, and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves and there is no certainty that the results from the preliminary economic assessment will be realized.

(e) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.

(f) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.

(g) Joaquin, Endeavor, and Lejano removed following their respective sales on February 10, 2017, July 31, 2017, and August 4, 2017.

Reserves and Resources (cont.)

Silvertip Resource Estimates

	Tonnage		Silver		Zinc	Lead	Silver Equivalent	
	tonnes	tons	g/t	oz/t	%	%	g/t	oz/t
Indicated	2,349,000	2,589,326	352	10.27	9.41	6.73	1,166	34.01
Inferred	460,000	507,063	343	10.00	9.81	6.18	1,155	33.68

Notes to the Silvertip mineral resource estimates:

(a) For purposes of silver equivalence, metals prices of US$1,250/oz gold, US$17.50/oz silver, US$1.13/lb lead, and US$1.40/lb zinc were used.

(b) Effective September 11, 2017.

(c) CIM definitions were followed for mineral resources.

(d) Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized.

(e) Cut-off grade of 200 g/t AgEq was used for the calculation of the resource.

(f) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.

(g) As described in this presentation and in the initial mine plan on Slide 19, the preliminary economic analysis set forth in this presentation is subject to obtaining an amended permit allowing for a mining rate of 1,000 tonnes per day on a year-round basis.
