NYSE: **CDE**

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements involving strategic priorities and company strategies, expectations regarding environmental, social and governance ("ESG") initiatives, anticipated production, exploration and development efforts, crushing, grades, throughput, recoveries, cash flow, operations, balance sheet management, COVID-19 planning and response measures, restarting active mining and processing operations at Palmarejo and initiatives at the Palmarejo, Rochester, Kensington, Wharf and Silvertip mines, including mill expansion, exploration plans and expectations regarding Silvertip, the impact of the new crushing circuit at Rochester, expectations regarding the expansion and timing of publishing a new technical report at Rochester, the impact of Jualin on Kensington operations, hedging strategies, near term priorities, expectations regarding future uses of gold and silver and key value drivers. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause Coeur's actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that the strategies, initiatives and expectations described in this presentation are not achieved on a timely basis or at all, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather, or geologically related conditions), changes in the market prices of gold, silver, zinc, and lead, and a sustained lower price or higher treatment and refining charge environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays (including the impact of government shutdowns), ground conditions, grade variability, any future labor disputes, or work stoppages, the uncertainties inherent in the estimation of mineral reserves and resources, changes that could result from Coeur's future acquisition of new mining properties or businesses, the loss or insolvency of any third-party smelter to which Coeur markets its production, the potential effects of the COVID-19 pandemic, including impacts to the availability of our workforce, continued access to financing sources, government orders that may require temporary suspension of operations at one or more of our sites and effects on our suppliers or the refiners and smelters to whom the Company markets its production, the effects of environmental and other governmental regulations and government shut-downs, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Forms 10-K and 10-Q. Actual results, developments, and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations, or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

Christopher Pascoe, Coeur's Director, Technical Services and a qualified person under Canadian National Instrument 43-101, reviewed and approved the scientific and technical information concerning Coeur's mineral projects in this presentation. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, Canadian investors should see the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at http://www.sec.gov.

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including adjusted net income (loss), adjusted EBITDA, adjusted EBITDA margin, total leverage, net leverage, free cash flow and adjusted costs applicable to sales per ounce/pound. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted net income (loss), adjusted EBITDA, adjusted EBITDA margin, total leverage, net leverage, free cash flow and adjusted costs applicable to sales per ounce/pound are important measures in assessing the Company's overall financial performance. This presentation does not represent an offer of any securities for sale.

Company Overview

Headquartered in Chicago, IL, Coeur Mining (NYSE: CDE) is a well-diversified, growing precious metals producer with a repositioned portfolio, focused on generating sustainable, high-quality cash flow from its North American assets

COVID-19 Preparedness and Response

Coeur has formed a multi-disciplinary internal committee to evaluate and address ongoing concerns, risks and challenges associated with COVID-19. All its operations have also developed site-specific screening, education and modifications to work procedures to limit exposure and transmission

Key Initiatives Taken

- Travel and site access restricted to business-critical needs; discretionary travel strongly discouraged and must be reported
- Health and travel questionnaires as well as temperature checks required prior to entering sites
- Increased cleaning and disinfecting of common areas
- Social distancing, including limiting meetings to ten people
- Extended rotational schedules at certain operations to reduce travel to and from site
- All site-level employees who can and all corporate headquarter employees working remotely
- Providing ongoing support to local communities, including donations of critical supplies
- Partnering with local communities in communication and response efforts

Leading Environmental, Social and Governance Initiatives

Coeur continues to prioritize improving its environmental and social initiatives as well as its best-in-class corporate governance program

Key ESG Accomplishments in 2019

Significantly increased external ratings and rankings

Set tangible 2020 ESG goals

Implemented ESG data tracking through Intelex

Committed to CEO Action for Diversity and Inclusion & Hispanic Promise

Developed ESG Roadmap to include Responsibility Report and frameworks

Established ESG peer networking group

Increased and enhanced ESG disclosures

Developed human rights training

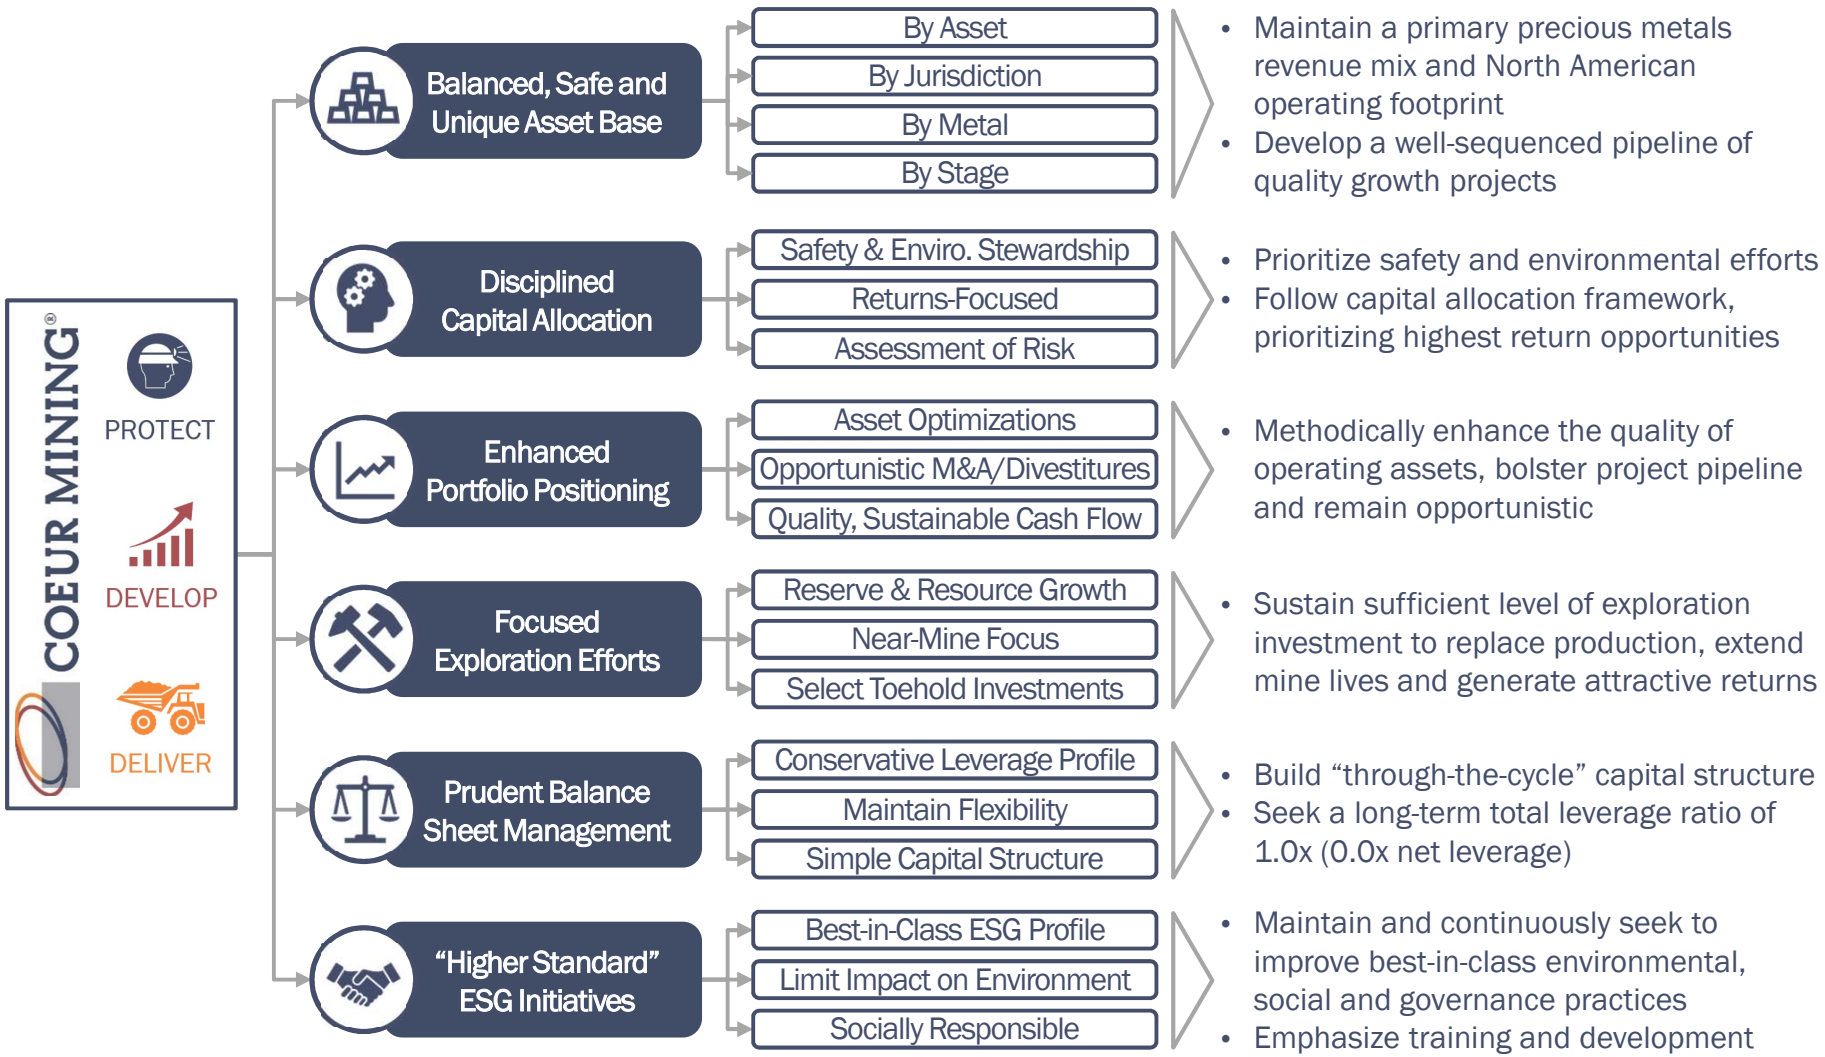

Integrated ESG function across departments

Top ESG Priorities in 2020

- ☆ Publish responsibility report (published in April 2020) ✓
- ☆ Publicly report ESG goals and track the Company's performance against them
- ☆ Develop site-level emission reduction targets
- ☆ Develop site-level energy conservation plan and communications campaign
- ☆ Benchmark Coeur's proactive tailings management programs relative to industry-leading standards
- ☆ Complete assessment of risks and opportunities with respect to climate change and Coeur's impact
- ☆ Develop formal grievance process for communities

Corporate Strategy

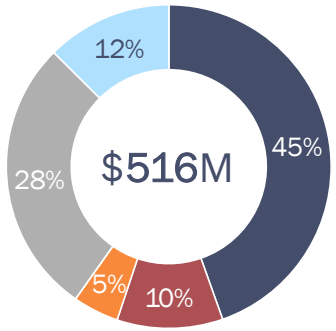

Coeur's strategy is to safely and responsibly discover, develop and operate a balanced portfolio of quality precious metals assets to maximize cash flow, returns and net asset value

Coeur's Capital Allocation Framework

COEUR MINING®

Mining is capital intensive and requires a disciplined approach to capital allocation with a view toward long-term reserve replacement and growth

Investment	Illustrative Return	Key Benefits	Key Considerations
Safety/Environment/ Sustainability	–	✓ Reflects the Company's values ✓ Mitigates risk for stakeholders ✓ Establishes and sustains social license	
Asset Optimization/ Enhancements	25% +	✓ Highest returns ✓ Quickest impact ✓ Low capital intensity ✓ Lowest risk	× Finite opportunity set
Brownfield Exploration	20% +	✓ High success / lowest risk exploration ✓ Low average discovery cost ✓ Quick payback given existing infrastructure	× Returns dependent on specific deposit × All deposits eventually come to an end
Opportunistic M&A	15% +	✓ Opportunity to meaningfully impact company ✓ Scale and liquidity can be differentiators	× Limited number of opportunities meet criteria × Requires significant organizational commitment × Challenging social dynamics
10% - 15% estimated cost of capital			
Greenfield Exploration	Can vary widely	✓ Potential to create substantial value from new discoveries	× Low success rate × Requires long-term, sustained financial and organizational commitment
Debt Repayment	5% - 6%	✓ Eliminates/reduces interest expense ✓ Improves balance sheet flexibility ✓ Mitigates downside metal price risk	× Low ROI × Reduces cash liquidity levels × Bond buybacks can be expensive
Dividends/ Repurchases	–	✓ Reflects Board and management confidence in long-term outlook ✓ Provides discipline ✓ Offers opportunity to differentiate among peers	× Industry's cyclicality and capital intensity × Not a key driver for most investors × Limited under indenture and credit agreement

Track Record of Asset Optimization

COEUR MINING®

Palmarejo

- Acquisition of Paramount in 2015 and renegotiation of FNV stream in 2014, which took effect in 2016
- Transition to 100% underground mining in 2016
- 39% and 29% increases in gold and silver grades since 2015[1]
- Over 20% reduction in adj. CAS per AuOz and AgOz since 2015[2]
- Generated nearly $200 million of free cash flow over the past three years[3]

Rochester

- From 2013 to 2016, tons placed increased at a CAGR of 17% before declining in 2017 (Stage IV leach pad expansion)
- Increased silver and gold production 80% and 76%, respectively, from 2013 to 2018
- Successfully commissioned new crushing circuit in 2019; production expected to climb steadily during 2020
- Expect to begin construction of further expansion in 3Q 2020 and be largely completed by late 2022

Wharf

- Acquired in 2015. Purchase price of ~$99.5 million repaid from free cash flow[3] in approximately two years
- Improved plant recovery rates by 15% since acquisition
- 37% increase in year-end reserves (and longer mine life) since acquisition[4]

Kensington

- Generated record free cash flow in 2019[3]
- Improved grade profile by 17% and reduced unit costs by 13% in 2019[5]
- Jualin and other high-grade zones expected to drive future production and cash flow growth
- Jualin expected to account for ~15-20% of Kensington's production in 2020

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the technical report for Wharf on file at www.sedar.com.

(1) Based on FY2019 grades of 0.08 oz/t gold and 4.85 oz/t silver compared to 0.05 oz/t gold and 3.78 oz/t silver for FY2015.

(2) FY2019 adjusted CAS per AuOz and AgOz of $683 and $9.11, respectively. FY2015 adjusted CAS per AuOz and AgOz of $875 and $11.78, respectively. See non-GAAP reconciliations in the appendix to this presentation.

(3) Free cash flow is defined as cash flow from operating activities less capital expenditures and gold production royalty payments. See reconciliation tables in the appendix to this presentation.

(4) Mineral reserves estimate for the year ended December 31, 2013 as reported by Goldcorp, Inc. See relevant tables in the appendix to this presentation.

(5) Based on FY2019 gold grade of 0.21 oz/ton compared to FY2018 gold grade of 0.18 oz/ton (excl. commercial production). Based on CAS per AuOz of $910 for FY2019 compared to $1,050 for FY2018. See non-GAAP reconciliation tables in the appendix to this presentation.

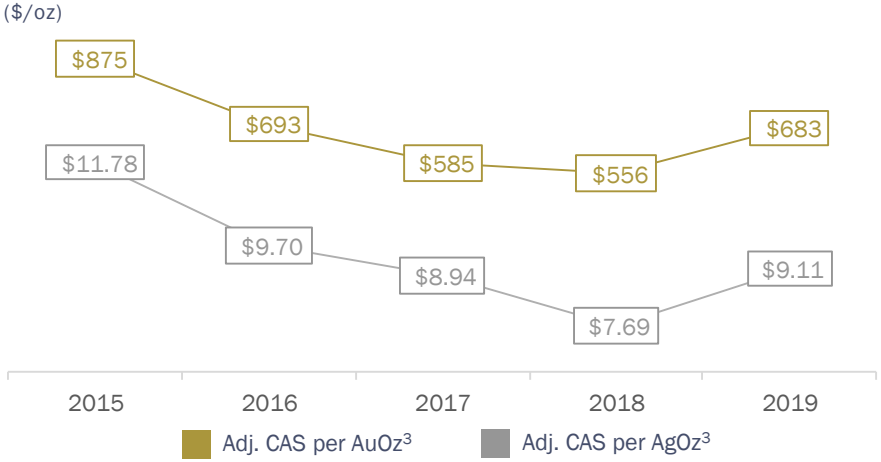

Palmarejo: Strategic Focus on Unlocking Long-Term Value

Coeur has made numerous strategic investments to reposition Palmarejo as a lower-cost, higher-margin, longer-life operation capable of generating positive free cash flow[1]

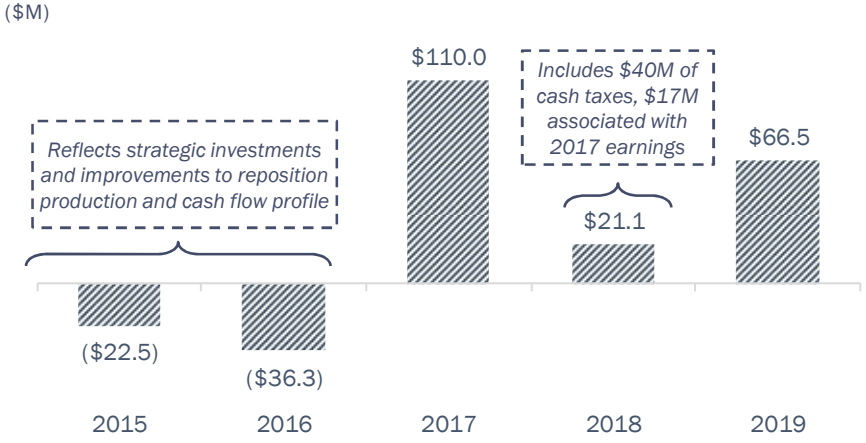

Multi-year, Site-specific Enhancements

- **2014** *Successful renegotiation of FNV stream[2]*
- **2015** *Acquired adjacent, royalty/stream-free land package*
- **2016** *Transitioned to higher-grade, underground-only operations*
- **2017** *Achieved mining rate target and accelerated drill programs*
- **2018** *Strong year-end results, despite challenges in 3Q*
- **2019** *Installation of new thickener and development of La Nación*

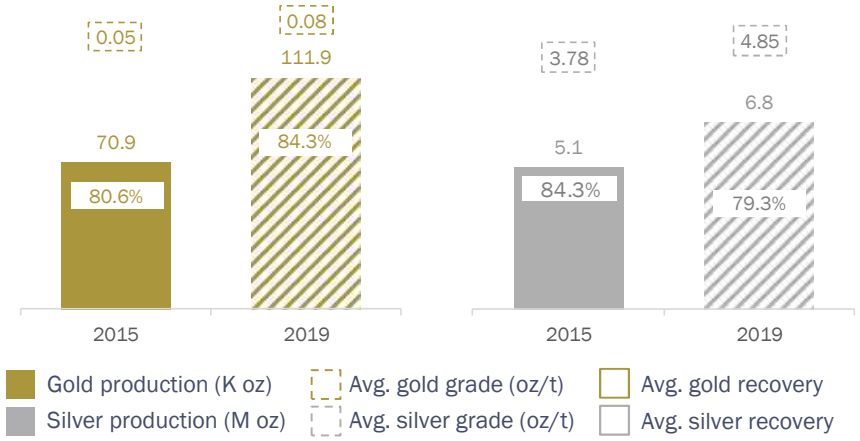

Long-Term Unit Cost Reductions

Proven Ability to Generate Free Cash Flow[1]

Production, Recoveries and Grade Improvement

(1) Free cash flow is defined as cash flow from operating activities less capital expenditures and gold production royalty payments. See applicable non-GAAP reconciliation tables in the appendix to this presentation.
(2) Renegotiated stream took effect in 2016.
(3) See applicable non-GAAP reconciliation tables in the appendix to this presentation.

Rochester: Looking Ahead to the Next Phase of Growth

Coeur exceeded its throughput target for the new crushing circuit and achieved a major permitting milestone in 1Q 2020. Planning for the expansion is underway with construction expected to begin in 3Q 2020. Additionally, the Company expects to file an updated technical report by the end of the year

- Exceeded targeted crushing rate of 34,000 tons per day by ~11% (~33% higher than 4Q 2019)
  - Averaged ~37,675 tons per day in 1Q 2020
- Continued restocking metal inventories under leach
- Production expected to improve steadily through the remainder of 2020
  - Additional restocking and accelerated silver recoveries expected to drive higher production
- Planning and permitting for Plan of Operations Amendment 11 ("POA 11") currently underway
  - Record of Decision received in 1Q 2020 ✓
  - Construction activities expected to begin in 3Q 2020
- Targeting updated National Instrument 43-101 technical report in late 2020

(2) Silver recoveries as presented in Rochester's re-scoped mine plan and PEA. Canadian investors should refer to the Technical Report and Preliminary Economic Assessment for Rochester dated March 5, 2018 on file at www.sedar.com.

Kensington: High-Grade Transition Delivering Free Cash Flow[1]

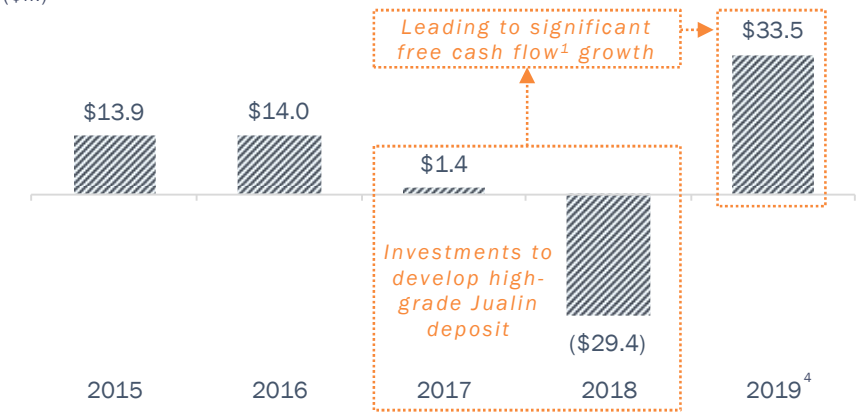

Coeur's transition into the high-grade Jualin deposit demonstrates the Company's multi-year effort to discover, develop and mine higher-grade material at Kensington

Grade Profile & Unit Cost Performance

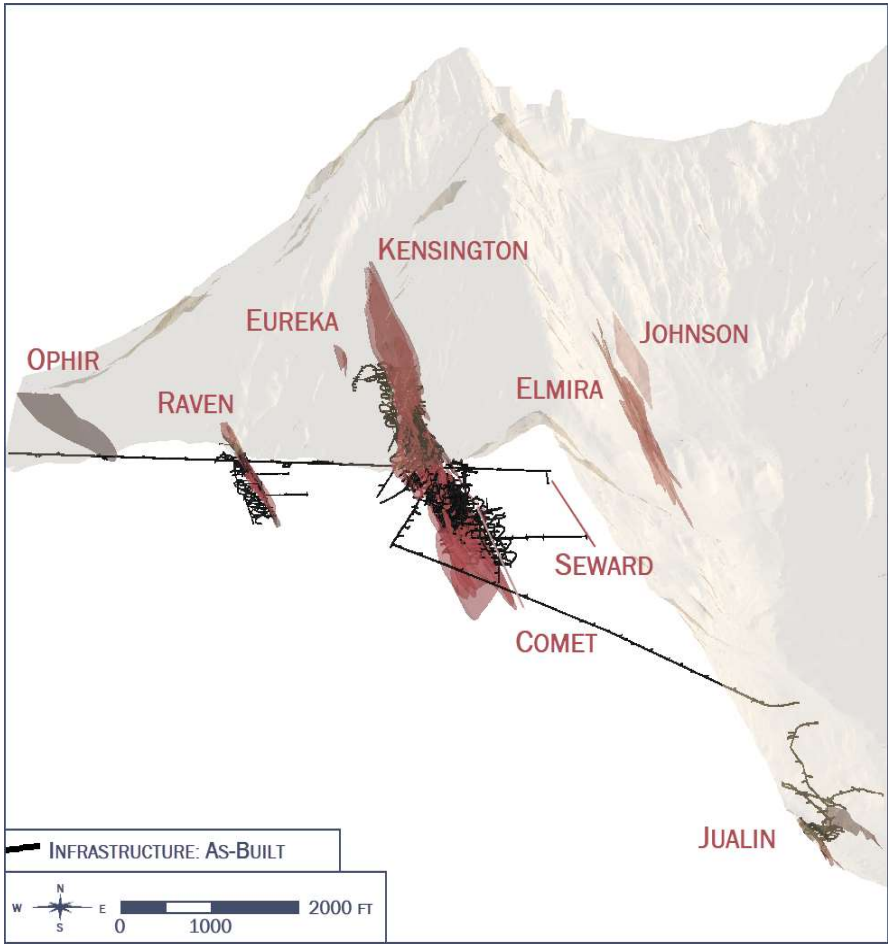

Targeted Investment Yields Free Cash Flow[1]

($M)

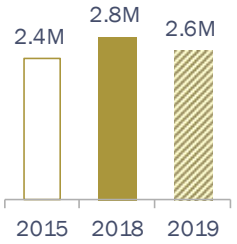

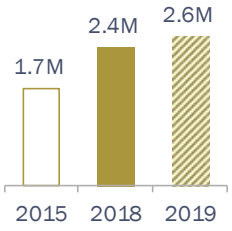

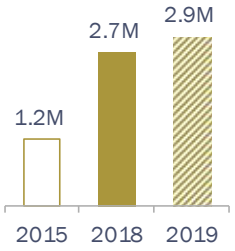

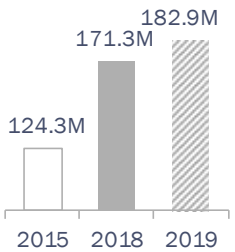

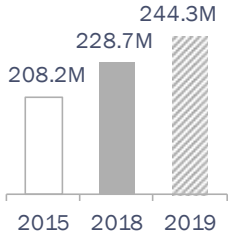

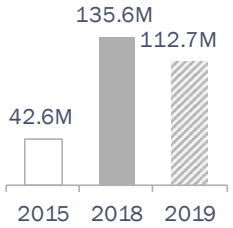

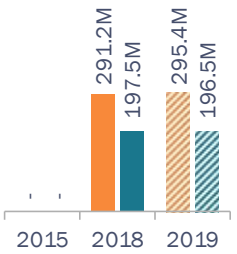

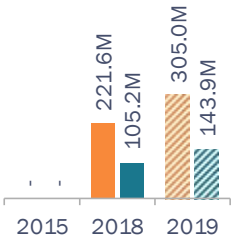

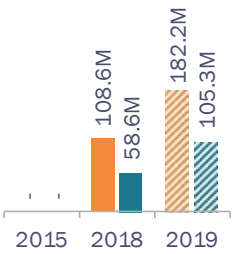

Isometric Property Overview

(1) Free cash flow is defined as cash flow from operating activities less capital expenditures and gold production royalty payments. See reconciliation tables in the appendix to this presentation.
(2) Excludes precommercial production.
(3) See applicable non-GAAP reconciliation tables in the appendix to this presentation.
(4) Excludes net proceeds of $15.0 million associated with prepayment received in December 2019 for material to be delivered in 2020.

Future Growth Opportunities From Expanding Resource Base

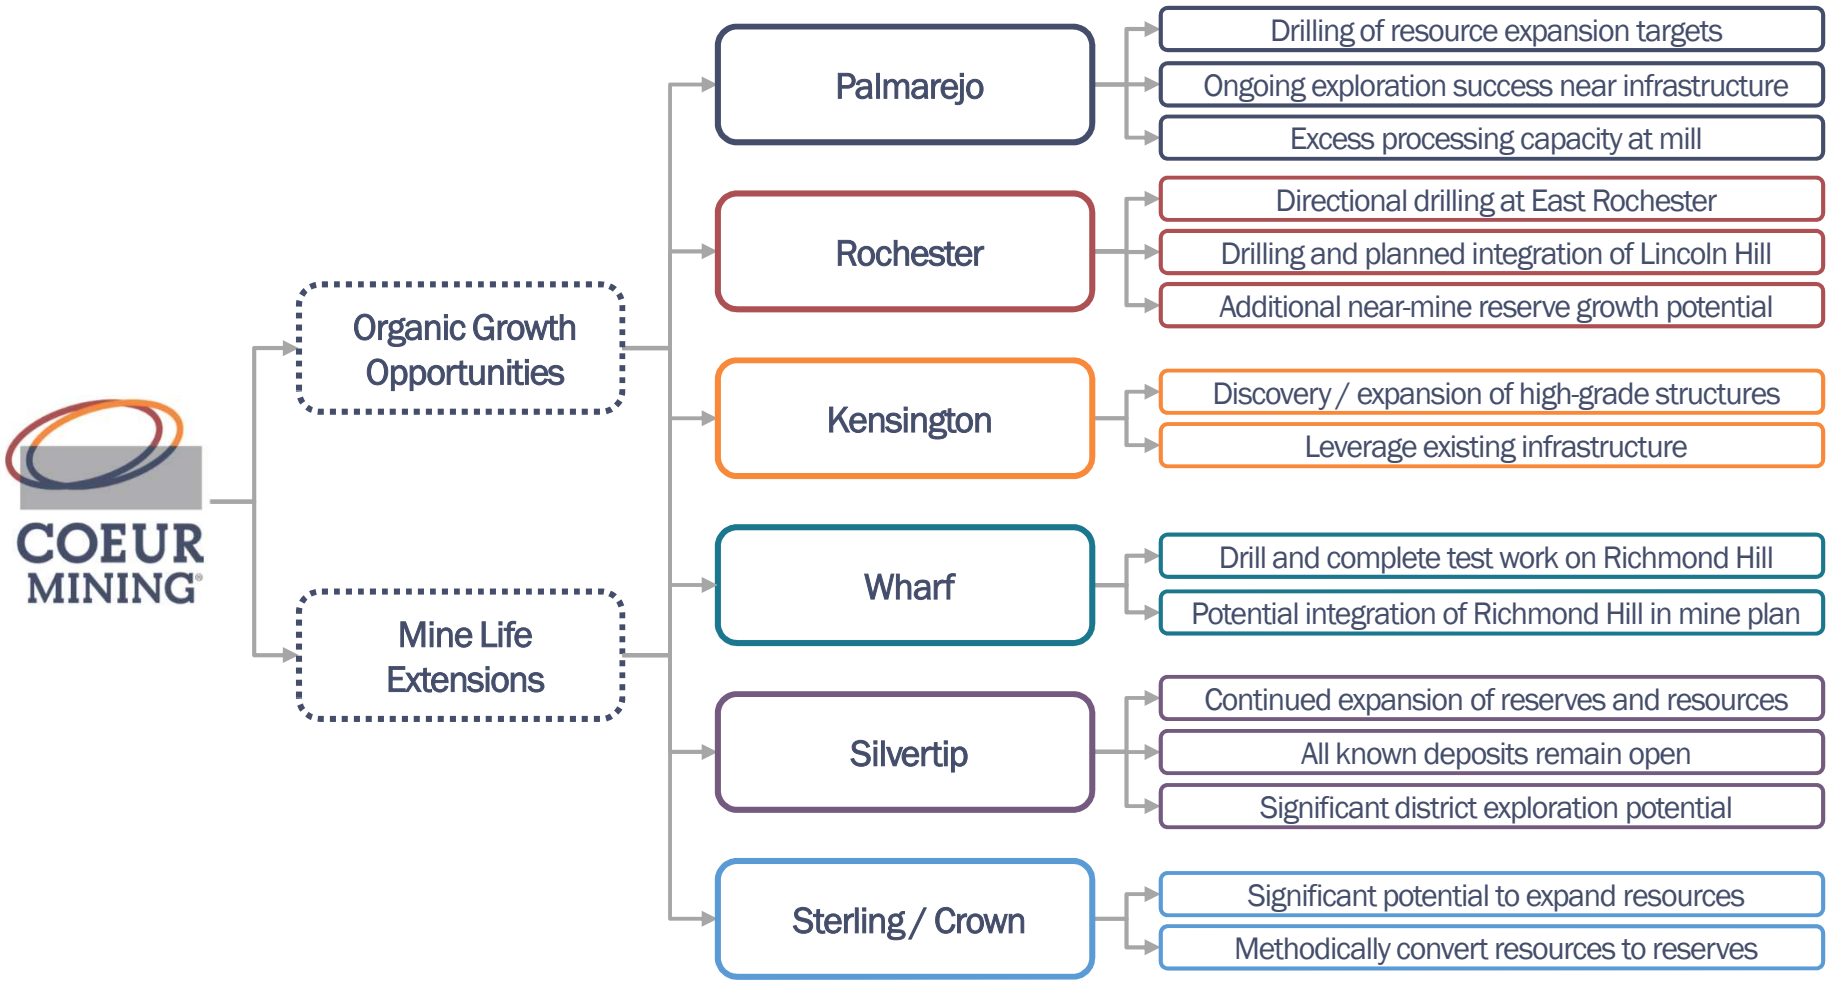

Coeur's 2019 exploration program was primarily focused on resource expansion targets close to existing infrastructure. The Company's positive results over the last five years reflect successful exploration initiatives and exhibit the potential for further mine life extensions and growth opportunities

	Proven & Probable Reserves	Measured & Indicated Resources	Inferred Resources
Gold (oz)	 *9% YoY decrease* • Reserve growth at Rochester • Offset by lower reserves at Kensington and Wharf • Replaced depletion at Palmarejo	 *+8% YoY increase* • Solid additions from Kensington and Wharf • Partially offset by results at Palmarejo	 *+11% YoY increase* • Significant growth at Kensington, including maiden resource for Elmira • Successful expansion drilling at the Crown Block
Silver (oz)	 *+7% YoY increase* • Increase largely driven by reserve growth at Rochester • Replaced depletion at Silvertip and Palmarejo	 *+7% YoY increase* • Solid growth at Rochester • Successful resource expansion and conversion at Silvertip	 *17% YoY decrease* • Successful drilling program at Silvertip focused on resource expansion • Offset by conversions at Rochester
Zinc and **Lead** (lbs)	 *+1% YoY increase in zinc / 1% YoY decrease in lead* • Largely replaced depletion for zinc and lead reserves at Silvertip	 *+38% YoY increase in zinc / +37% YoY increase in lead* • Growth of measured and indicated resource base at Silvertip	 *+68% YoY increase in zinc / +80% YoY increase in lead* • Successful drilling program at Silvertip focused on resource expansion

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the applicable technical report on file at www.sedar.com.

Key Exploration Objectives to Create Growth Opportunities

Coeur focuses its exploration efforts targets within its current operating footprint and near existing infrastructure with the primary goals of discovering new resources and converting existing resources to reserves in order to extend mine life

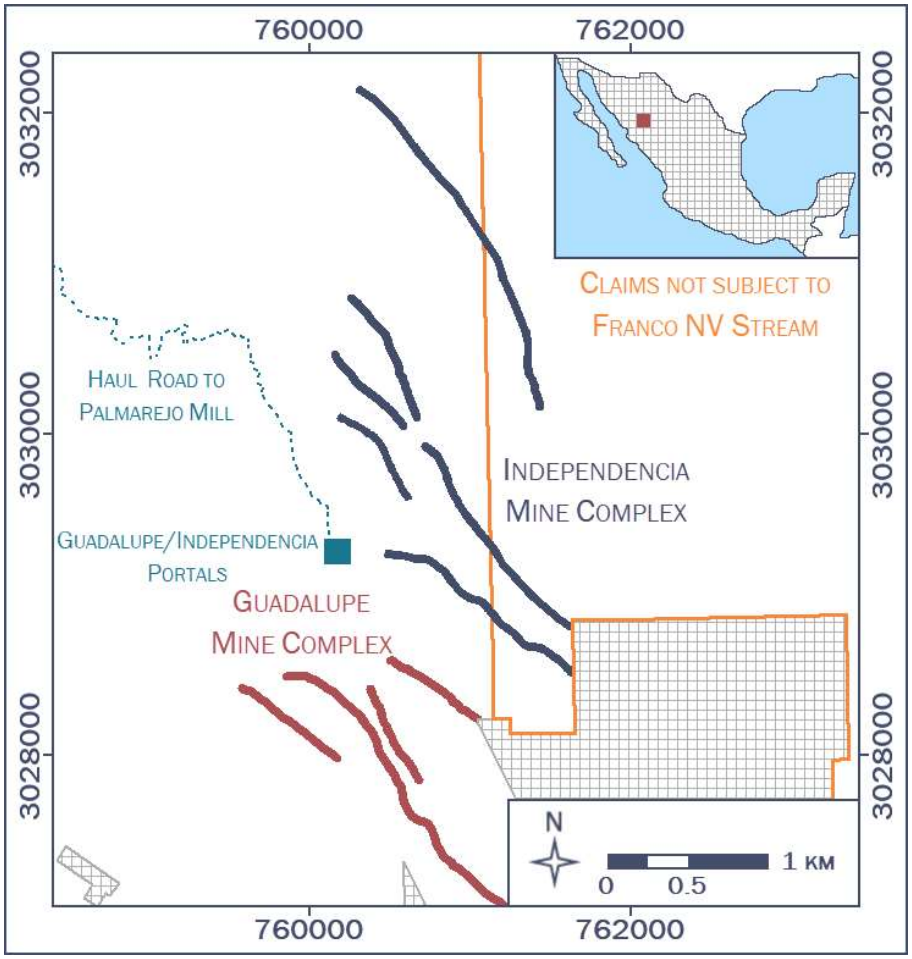

Palmarejo: Validates Near-Mine Exploration Philosophy

Exploration at Palmarejo continues to target new, high-grade discoveries near existing infrastructure; new step out drilling on mapped veins planned in 2020

- Resource conversion and expansion at **Guadalupe** and **Independencia** mine complexes; up to seven drill rigs were active during 2019
- Focus of 2020 exploration drilling – with up to ten drill rigs focused on larger step outs than 2019:
  - Targeting new, high-grade discoveries near existing mine infrastructure
  - Testing areas with no previous drilling activity
  - Analyzing new mine ore feed sources to Palmarejo mill

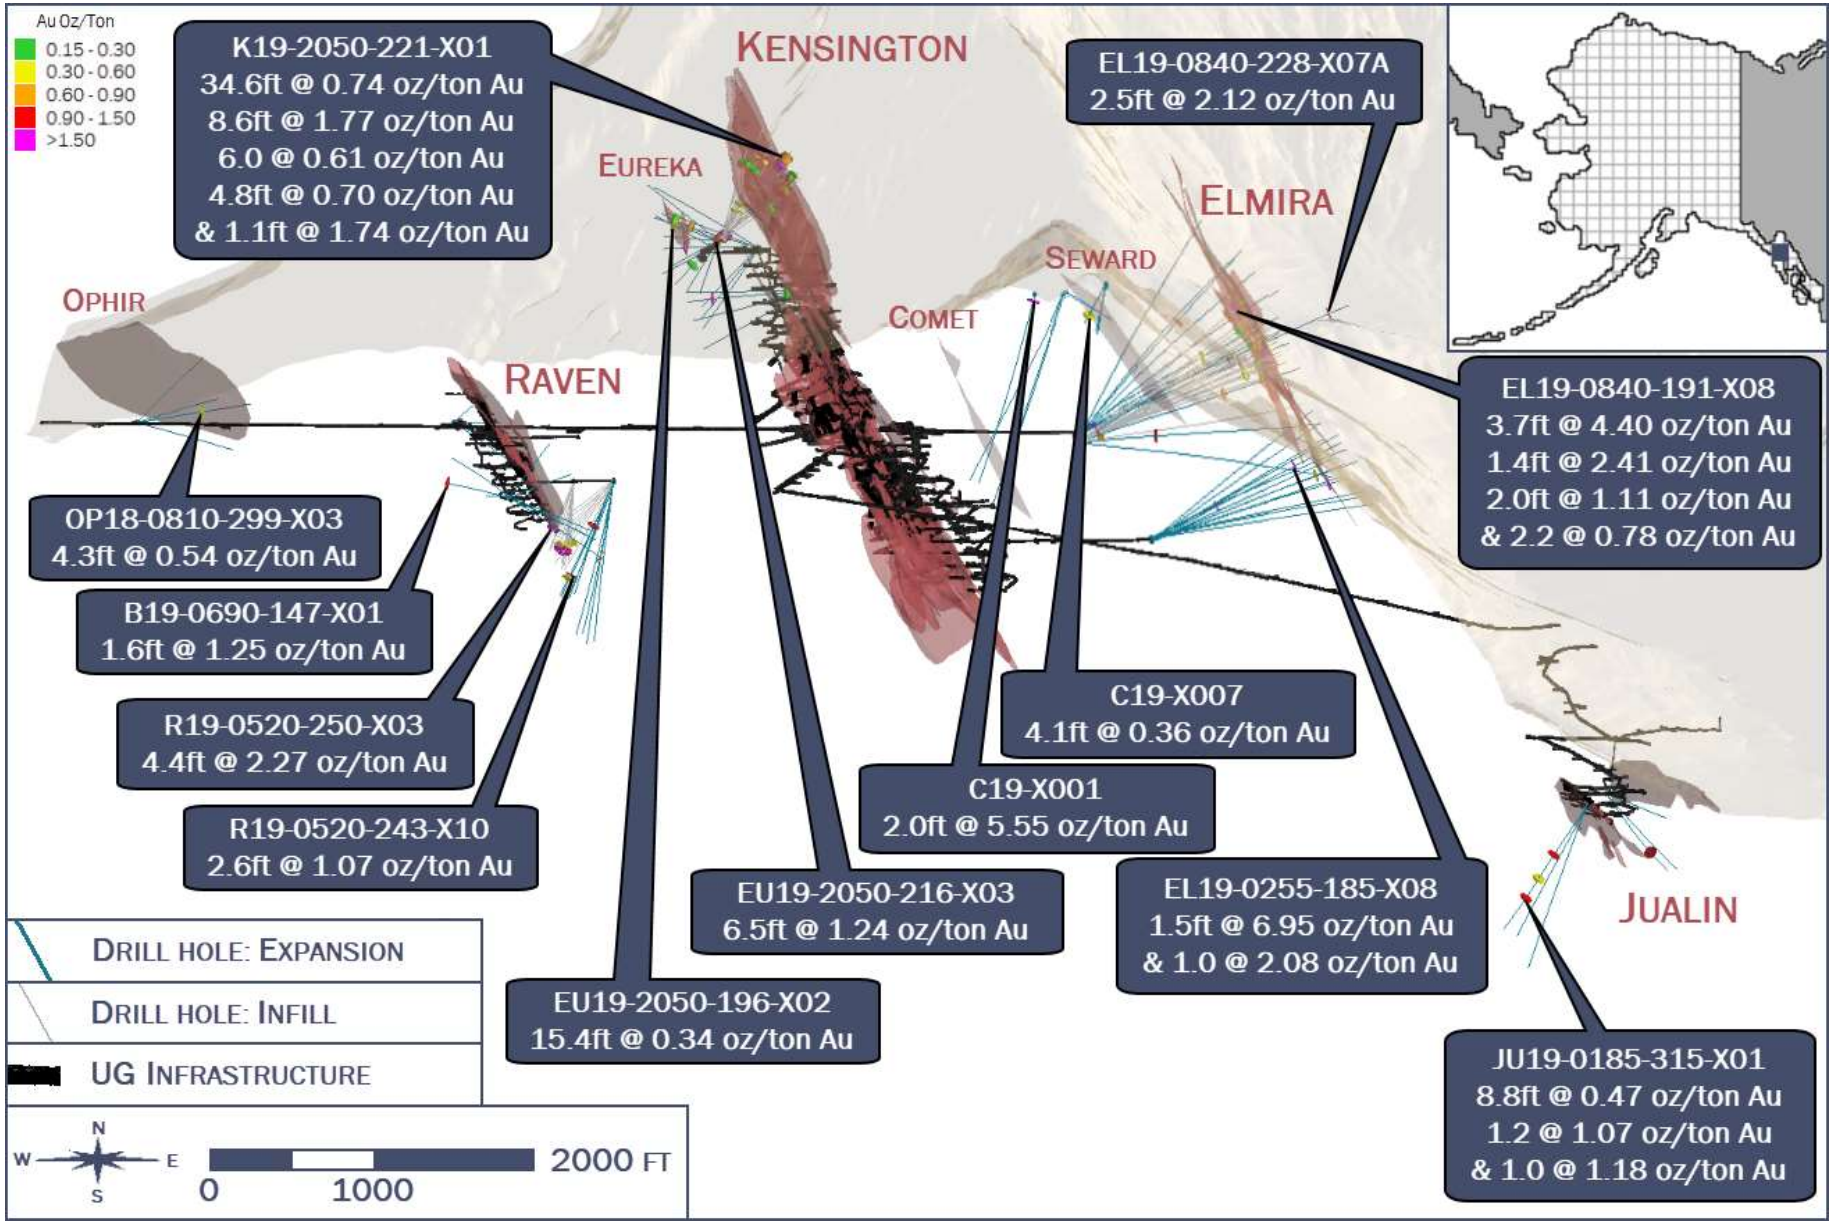

2015 & 2019 Reserves & Resources

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the technical report for Palmarejo on file at www.sedar.com.

Kensington: Emerging Inventories of New Discoveries[1]

(1) For a complete table of all of Kensington's 2019 drill results, please refer to the following link: https://www.coeur.com/_resources/pdfs/2019-12-17-2019-Exploration-Update-Appendix-Final.pdf .

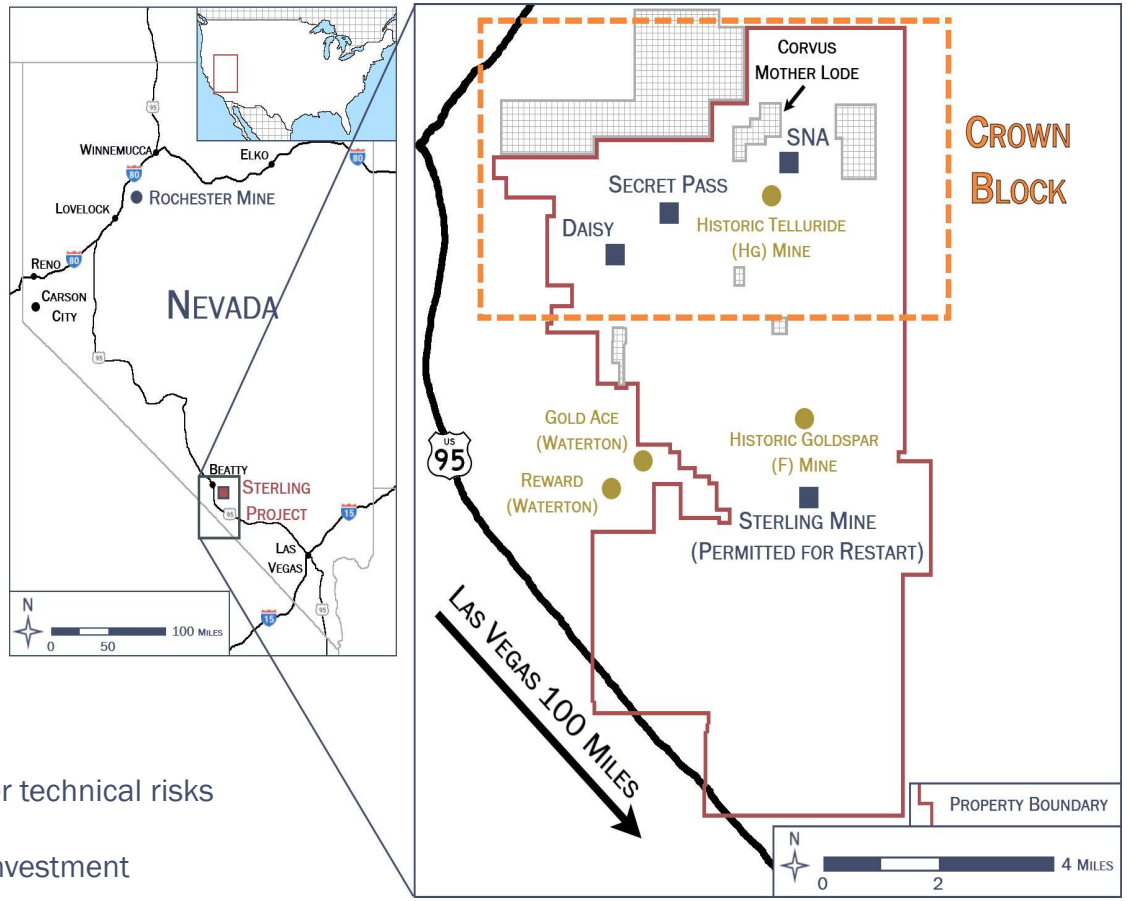

Sterling & Crown: Expanding Footprint in Nevada

In late 2018, Coeur completed its acquisition of the past-producing Sterling mine and highly prospective Crown Block in southern Nevada, further expanding its footprint in one of the world's top mining jurisdictions[1]

Transaction Overview

Target	• Northern Empire Resources
Acquisition Date	• October 2018
Consideration	• ~$74 million (100% stock)
Assets	• Past-producing Sterling mine • Crown Block – Includes the Daisy, Secret Pass and SNA deposits • District-scale, underexplored land package

Asset Map

Transaction Rationale

- ✓ Nearer-term production potential at Sterling
- ✓ Longer-term exploration potential at Crown
- ✓ Favorable mining jurisdiction in Nevada
- ✓ Open-pit heap-leach process comparatively lower technical risks
- ✓ De-risked acquisition strategy through toehold investment
  - Original investment by Coeur in mid-2017

(1) Fraser Institute Annual Survey of Mining Companies (2019).

Track Record of Opportunistic M&A and Divestitures

COEUR MINING®

	Company / Asset	Type	Rationale
2015	Paramount Silver & Gold	Acquisition	• Synergistic bolt-on of royalty-free land package adjacent to the Company's Palmarejo mine • Primarily stock deal timed to leverage historically-low market value of target and preserve cash for growth investment
2015	Wharf Mine	Acquisition	• Turnkey operation in U.S. with low geopolitical and technical risks; immediate opportunity for plant efficiency improvements • Significant U.S. tax synergies
2017	Joaquin Project	Divestiture	• Monetized non-core exploration project located in Argentina and improved the Company's geopolitical footprint
2017	Endeavor Silver Stream	Divestiture	• Divested Endeavor silver stream along with remaining royalties
2017	Silvertip Mine	Acquisition	• High-grade operation with key infrastructure in place • Considerable exploration potential • Established footprint in preeminent mining jurisdiction
2018	San Bartolomé Mine	Divestiture	• Timely sale of highest-cost operation while retaining potential upside in the form of a 2.0% net smelter returns royalty on the mill • Substantially improved Company's geopolitical risk profile with exit from Bolivia
2018	Northern Empire Resources	Acquisition	• Expands the Company's presence in Nevada, a familiar and top-rated mining jurisdiction • Past producing Sterling Mine represents nearer-term, higher-grade growth opportunity, while highly prospective Crown Block represents greater, longer-term exploration potential
2018	Lincoln Hill	Acquisition	• Property package adjacent to the Company's Rochester mine in northern Nevada, providing the potential for significant operational synergies • Significant low-risk, low-cost exploration potential
2019	Richmond Hill	Option Agreement	• Adjacent to Coeur's Wharf mine in South Dakota • Potential opportunity to leverage existing infrastructure to further expand Wharf's footprint and extend its mine life

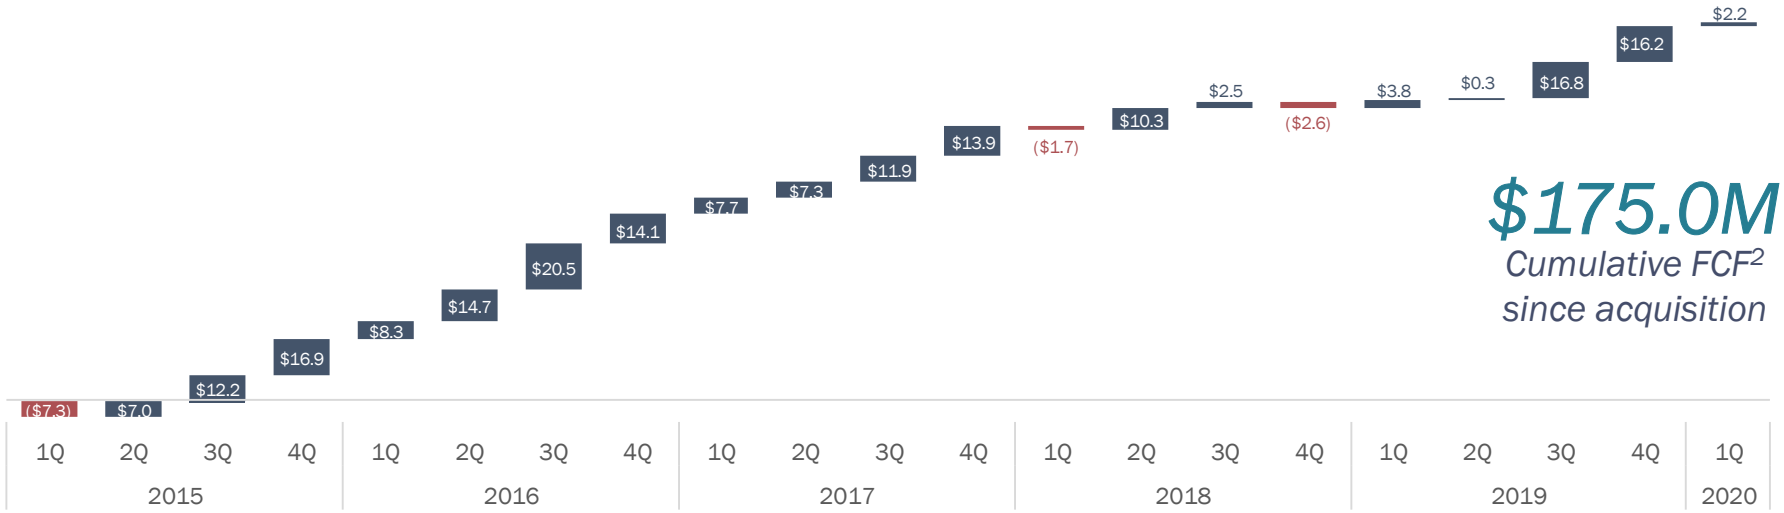

Wharf: A Case Study for Successful M&A

COEUR MINING

Acquired in early 2015, Wharf has already generated a return on investment of approximately 31%[1], driven by operational improvements, targeted investments in exploration, and several technical and modeling enhancements

Free Cash Flow[2]

($M)

$175.0M

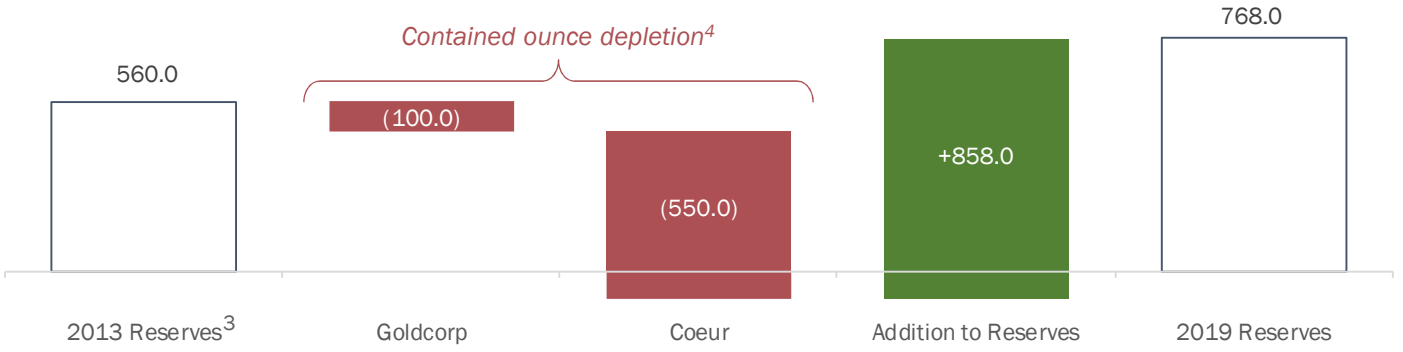

Cumulative FCF[2] since acquisition

Gold Reserves and Depletion

(K oz)

+37%

Increase in year-end reserves since last reported figure prior to Coeur's acquisition

Note: See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the technical report for Wharf on file at www.sedar.com.

(1) Return on investment determined based on final acquisition cost of $99.5M in February 2015 and free cash flows of $28.8M, $57.6M, $40.8M, $8.5M, $37.1M and $2.2M in 2015, 2016, 2017, 2018, 2019 and 1Q 2020, respectively. Mid-period convention was used in calculating the return on investment.

(2) Free cash flow is defined as cash flow from operating activities less capital expenditures and gold production royalty payments. See applicable reconciliation tables in the appendix to this presentation.

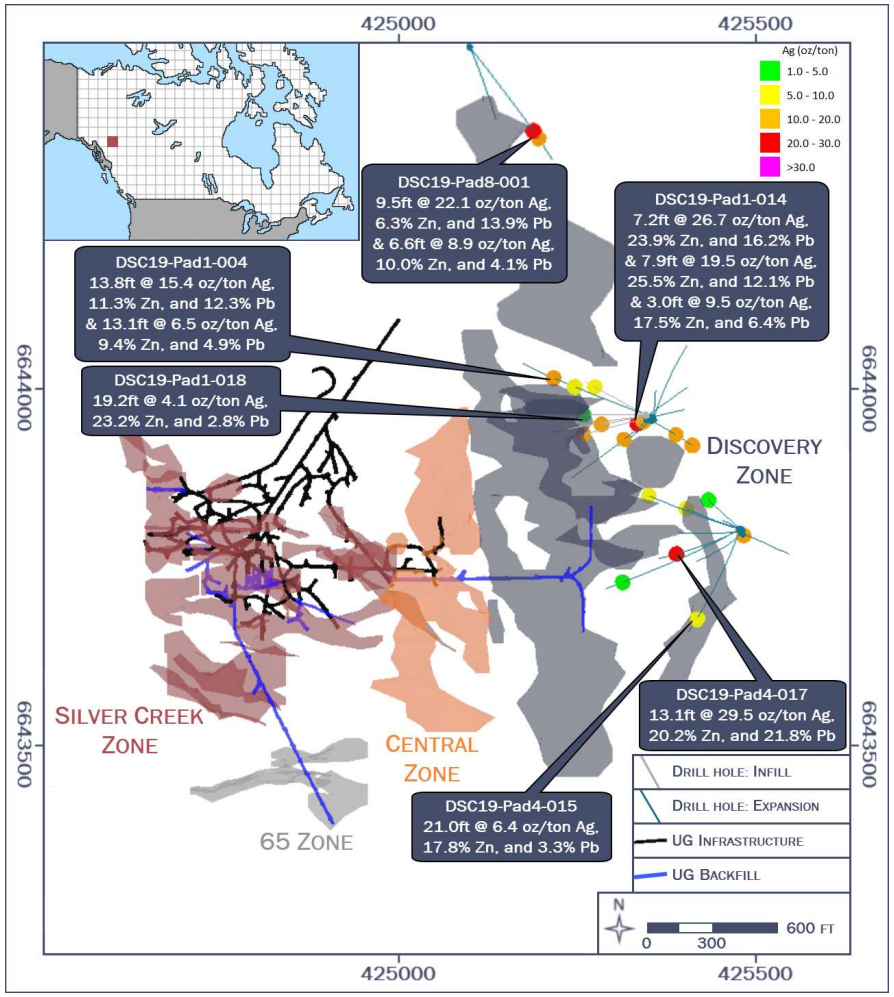

(3) Mineral reserves estimate for the year ended December 31, 2013 as reported by Goldcorp, Inc. See relevant tables in the appendix to this presentation.

(4) Estimated depletion of contained mineral reserves based on production as reported by Goldcorp, Inc. in 2014 and 2015 and Coeur since its acquisition through 2019 and assumes an 80% metallurgical recovery rate.

Silvertip: Preserving Long-term Value of the Orebody

Coeur intends to bolster its investment in exploration at Silvertip during the temporary suspension, seeking to further grow resources and extend mine life

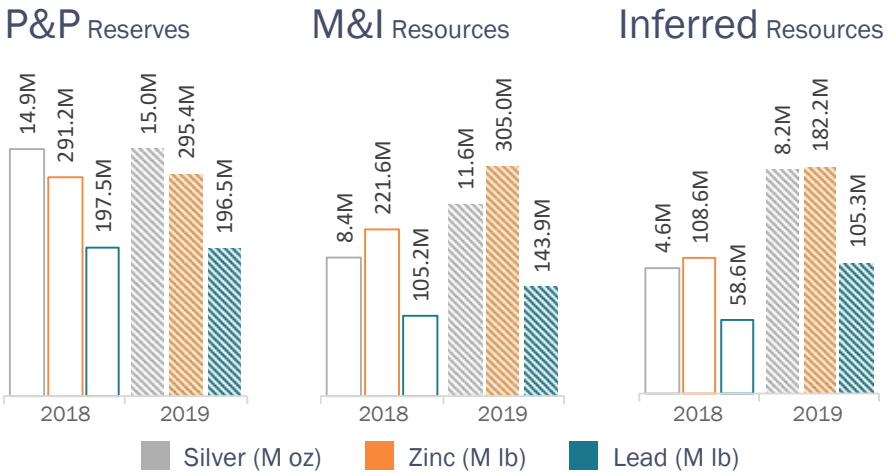

Key Highlights of 2019 Exploration Program[1]

Selected Commentary

- Commenced initial expansion drilling program in 2019
  - Invested net ~$2.5 million in resource expansion drilling
- Notable success in growth of resource base
  - 67% increase in inferred resource tons
  - 33% increase in measured & indicated resource tons
- Planning to invest ~$8.0 - $10.0 million in resource expansion drilling during 2020
  - Goals of growing current resource base, testing the edges of known resources and conducting step out drilling to test new targets in the district

Growth in Reserves & Resources[2]

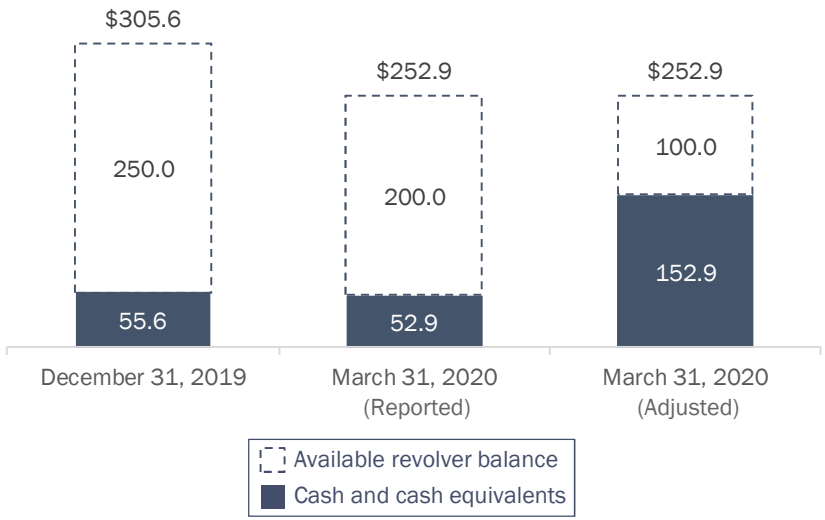

(1) For a complete table of all of Silvertip's 2019 drill results, please refer to the following links: https://www.coeur.com/_resources/pdfs/2019-12-17-2019-Exploration-Update-Appendix-Final.pdf | http://www.coeur.com/_resources/ pdfs/2019-08-07Silvertip-Expansion-Drill-Results.pdf.
(2) See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the applicable technical report on file at www.sedar.com.

Balance Sheet Summary[1]

COEUR MINING

Liquidity Profile

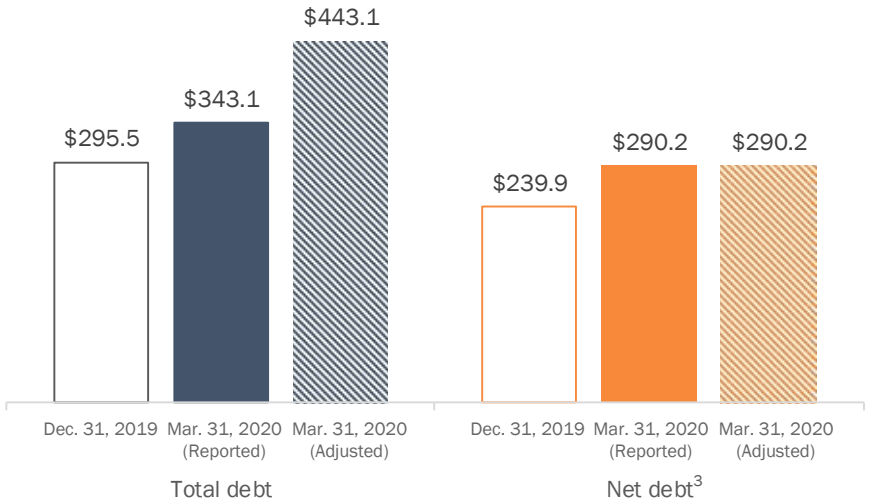

($M)

$M	Dec. 31, 2019	March 31, 2020 Reported	Δ	Adjusted
5.875% senior notes due 2024	$226.9	$227.1	$-	$227.1

Net debt / LTM adjusted EBITDA	1.4x	1.5x	-	1.5x

Debt Summary

($M)

Overview of Balance Sheet Enhancements

- May 2017: Refinanced 7.875% senior notes due 2021 with 5.875% notes due 2024 (“Senior Notes”)
- September 2017: Established $200 million revolving credit facility (“RCF”)
- October 2018: Upsized RCF to $250 million and extended maturity to 2022
- 2Q 2019: Completed $50 million at-the-market (“ATM”) equity offering and repaid $82 million of borrowings under RCF
- 3Q 2019: Completed $75 million ATM equity offering and exchanged $20 million of Senior Notes for common stock

(1) Adjusted amounts reflect reported figures as of March 31, 2020 adjusted for $100.0M revolver draw in April 2020.
(2) See non-GAAP reconciliation tables in the appendix to this presentation.
(3) Total debt less cash and cash equivalents.

Overview of Hedging Program

Coeur's hedging strategy is designed to support cash flow generation and help fund key internal growth projects. The Company has expanded its gold hedging program and implemented a series of foreign currency hedges to further enhance its downside protection

Summary of Metal Sales Hedges

Commodity	• Gold
Instrument	• Zero-cost collar – No upfront costs – "Guarantees" price floor and provides upside price participation up to a specified ceiling
Duration	• Recently extended to include a portion of 2021
Execution	• Layer hedges to spread out execution risk – Flexibility to adapt to changing market conditions
Settlement	• Financially, against monthly average LBMA[1] pricing

Snapshot of Metal Sales Hedges

	2Q	3Q	4Q	Total 2020	2021
Ounces Hedged	48,000	49,500	55,500	153,000	114,000
Avg. Ceiling ($/oz)	$1,829	$1,826	$1,823	$1,826	$1,836
Avg. Floor ($/oz)	$1,426	$1,441	$1,471	$1,447	$1,600

Summary of Foreign Currency Hedges

	MXN		CAD	
	2020	2021	2020	2021
Amount Hedged (USD)	$45M	$60M	$25M	-
Average Rate	~24.1	~25.0	~1.44	-

- Secured rate protection for ~50% of expected remaining 2020 USD spend for both MXN and CAD
- Secured rate protection for ~50% of expected 2021 USD spend for MXN
- Foreign currency hedge strategies are monthly window forwards, allowing the Company to draw down throughout the month at the applicable rate

(1) London Bullion Market Association.

Looking Ahead

- Safeguard health, safety and well-being of workforce and communities
- Further advance progress on success-based exploration programs
- Increase production and begin executing strategy to expand Rochester
- Evaluate mill upgrade and expansion opportunities at Silvertip
- Safely and efficiently restart Palmarejo
- Continue leveraging high-grade contributions from Jualin at Kensington
- Maximize crushed tons and ounces placed on leach pad at Wharf
- Generate consistent operating and financial results across portfolio

Community Support for COVID-19

The health and safety of the Company's workforce, their families and our communities remains Coeur's top priority. Across its footprint, the Company is providing ongoing support to limit the exposure and transmission of COVID-19, and care for those who have been impacted

Highlight: Kensington

- Donated mobile washing unit to the CBJ[1] Emergency Operation Center as a decontamination unit for a quarantine and isolation shelter

Mobile washing unit, which includes bathroom and shower facilities

Highlight: Rochester

- Donated N95 masks to local emergency response personnel
- Built and donated a structure in Lovelock, NV for drive-through COVID-19 testing

Robert Stepper, Rochester's General Manager, and employees delivering masks to emergency response personnel

Rochester team building and showcasing completed drive-through testing center

(1) City and Borough of Juneau.

Community Support for COVID-19 (cont.)

Corporate *(Chicago, USA)*	• Donated individual-sized hand sanitizers to Project CURE, the world's largest distributor of medical donations to resource-limited communities across the globe and currently focusing on the USA for COVID-19 response • Matching employee donations to Project CURE up to $5,000 • Coordinating notes of appreciation and encouragement for frontline healthcare workers at the University of Chicago Hospital
Palmarejo *(Chihuahua, MX)*	• Participating in regional Jurisdictional Council for Health Security which is coordinating COVID-19 response to support the health of the communities both in preventing infections in the region and supporting the care plan if there is a confirmed case • Provided food for vulnerable people at la Casa Hogar y Dispensario San José A.C • Provides general health care to the community free of charge and recorded 722 visits in the first quarter of 2020; 2,348 total in 2019
Rochester *(Nevada, USA)*	• Donated to State of Nevada's COVID Response, Relief and Recovery Task Force • Initiated community-led gift card initiative to support local businesses and community members • Donated N95 masks to local emergency response personnel • Built and donated a structure in Lovelock, NV for drive-through COVID-19 testing
Kensington *(Alaska, USA)*	• Donated mobile washing unit to the City and Borough of Juneau ("CBJ") Emergency Operation Center as a decontamination unit for a quarantine and isolation shelter • Donated to The Glory Hall, which provides food, shelter and compassion to those in need • Donated to the Southeast Alaska Food Bank • Donated supplies to the CBJ Volunteer & Community Collaboration Task Force • Donated to the Juneau School District Food Service Program to provide meals to students during school closures • Donated to the Southeast Regional Resource Center, co-sponsorship with Hecla of AmeriCorps volunteer; Current focus of volunteer is to assist underserved adult students with online learning and teleconferencing

Community Support for COVID-19 (cont.)

Wharf *(South Dakota, USA)*	• Donating N95 masks and gloves to the Deadwood, Sturgis and Spearfish hospitals as shipments come in • Donated paper goods and feminine products to Youth and Family Services, supporting families below the poverty line with items in high demand • Donated to the Deadwood Chamber of Commerce to support Feeding Deadwood, an effort to provide boxes of non-perishable food to those in need
Silvertip *(British Columbia, CA)*	• Leading committee in Watson Lake to identify and address local food needs of First Nations, youth, elders and other disadvantaged – Committee reaching out to isolated elderly population and provided food and activities • Donated 15 laptops to the Watson Lake and Dease Lake schools to support distance learning • Medical supplies, including gloves and Tyvek suits, were donated to Bulkley Valley District Hospital in Smithers, British Columbia • Donating bulk hand sanitizer to be distributed to elderly community citizens • Coordinating Watson Lake beading project (Yukon-wide effort) in support of healthcare workers • Coordinating staff donation program to provide meals to those in need

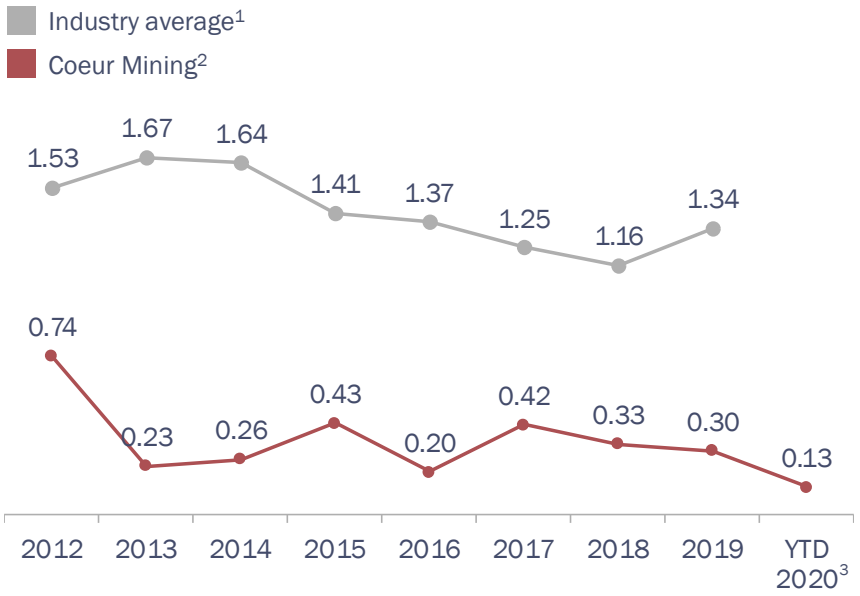

Industry-Leading Safety Performance

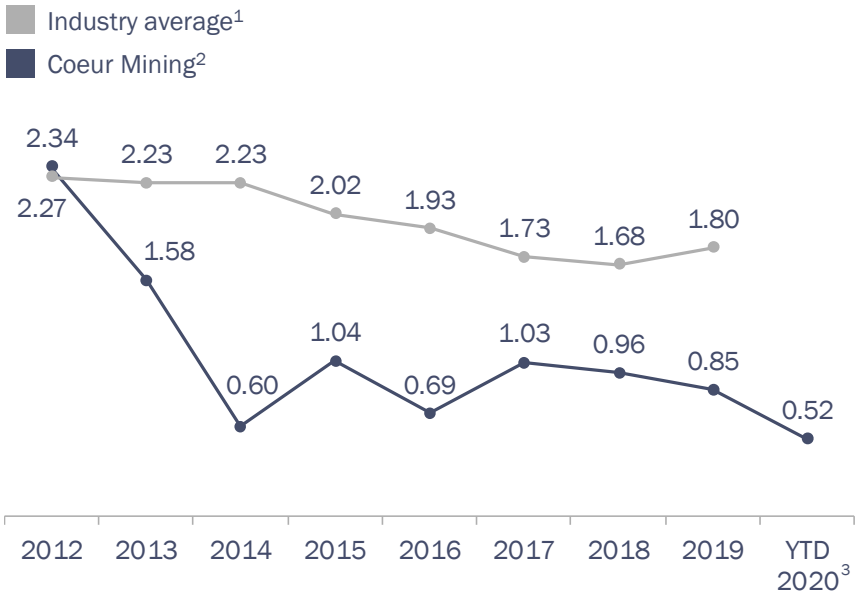

*Coeur has held the National Mining Association **CORE**Safety certification since 2017*

Coeur's injury frequency rate remains significantly below industry averages

Lost-Time Injury Frequency Rate

Total Reportable Injury Frequency Rate

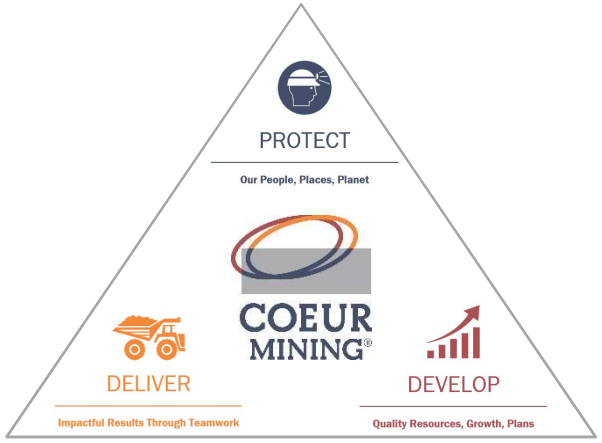

(1) Source(s): U.S. Department of Labor Mine Safety and Health Administration: Metal Operators Mine Safety and Health Statistics. Injuries per 200,000 employee-hours worked. 2019 MSHA figures are preliminary.
(2) Includes both Coeur employees and contract workers.
(3) Coeur YTD 2020 information through March 31, 2020.

2019 International EHS Innovation Award Winner

Coeur is committed to being an industry leader in environmental, health and safety innovation, exemplified through the Company's utilization of technology to protect its people, places and planet

Technology	Implementation at Coeur
Global EHS Integrated Management System	✓ Real time health and safety performance indicators ✓ Improved cross functional communication and engagement ✓ Analytical decisions and improvements
Automation	✓ Drones used to investigate, stopes, blasting, stockpiles, drill locations, geological features, tailing dams, etc. ✓ Surface and underground drill hole automation ✓ Remote mucking
Fatigue Management Software	✓ Monitor alertness/distraction of heavy machinery operators ✓ Immediate notification and corrective response
Sensors	✓ Proximity detection for remote mucking ✓ Improved tracking of miners ✓ "On demand" ventilation ✓ Evaluating areas of improvement

Demonstrating Our Commitment

COEUR MINING®

Best-in-Class Governance Practices

Board Refreshment and Succession Planning	• Three new independent directors added to the Board since early 2018 and six directors – more than 50% of the Board – added in last seven years • Active Board succession planning and refreshment
Robust Board and Committee Evaluations	• Annual evaluations promote Board and Board committee effectiveness • Chairman's one-on-one meetings with each director promote candor, effectiveness and accountability
No Related Party Transactions	• No related person transactions with directors or executive officers
Board-Level Risk Oversight	• The Board and Board committees take an active role in the Company's risk oversight and risk management processes
Active Stockholder Engagement	• During 2019, Coeur continued its proactive and robust stockholder outreach efforts on governance, executive compensation and other matters, contacting all institutional stockholders of 0.15% or more
Clawback Policy	• Added officer misconduct to the scope of clawback policy in addition to financial restatement-driven events

Stockholder Rights

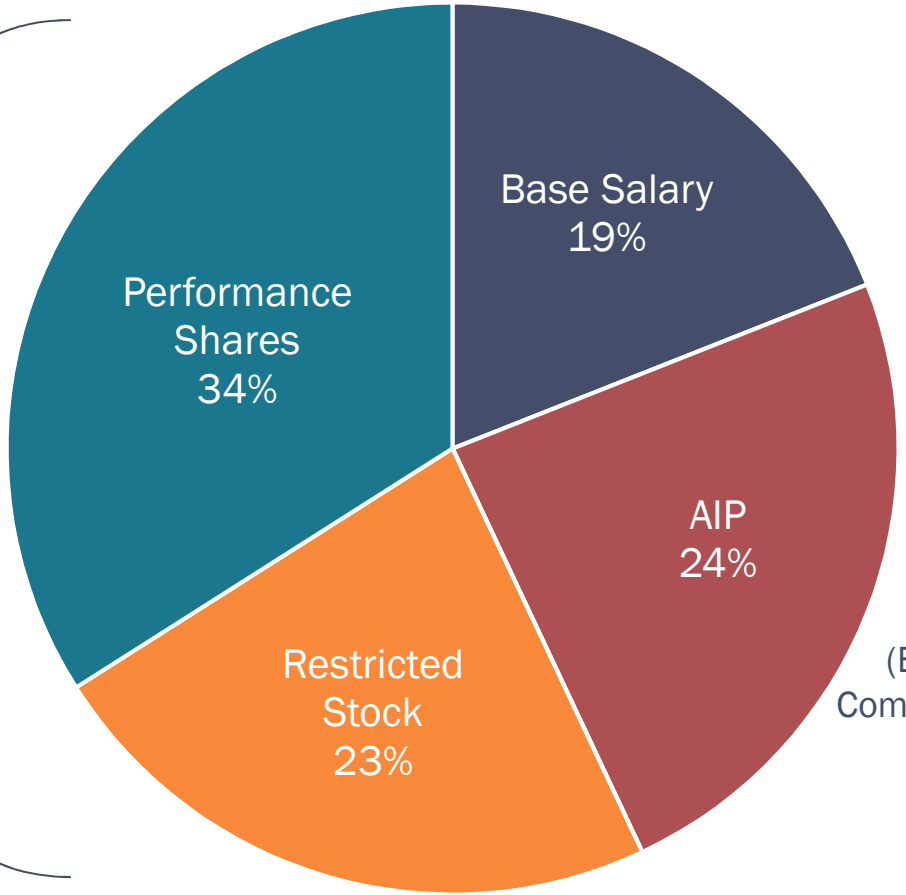

Annual Election of Directors	• All directors are elected annually for one-year terms
Majority Voting for Director Elections	• Majority voting in uncontested director elections with a resignation policy
Proxy Access	• Proactively adopted proxy access in March 2019
Stockholder Right to Call Special Meetings	• Stockholders owning 20% or more of Coeur's common stock have the right to call a special meeting of the stockholders
No Poison Pill	• Coeur does not have a poison pill or similar anti-takeover defenses in place

Significantly Improved Corporate Governance Profile

Corporate Governance Enhancements Since 2010	2010	2020
Independent Board Chairman	✗	✓
Entire Board of Directors is independent other than CEO	✗	✓
Gender diversity on the Board	✗	✓
Majority voting standard for uncontested Director elections	✗	✓
Proxy access allowing certain stockholders to nominate directors	✗	✓
Robust Board and Committee self-evaluation (including 1:1 discussions with Chairman and third-party participation)	✗	✓
Executive and Director stock ownership guidelines	✗	✓
No excise tax gross-up on executive severance	✗	✓
All incentive awards subject to double-trigger change-in-control vesting	✗	✓
60% of executive equity awards are performance shares and 40% are time-vesting restricted stock	✗	✓
Independent executive compensation consultant to compensation committee	✗	✓
No executive employment agreements other than CEO	✗	✓
No “related person transactions" with Directors or executive officers	✗	✓
Robust executive compensation clawback policy covering officer misconduct	✗	✓

2019 CEO Compensation Tied to Stockholder Returns

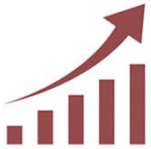

57% of compensation linked to stock performance

(Based 100% on Company Performance)

2019 Incentive Plan

Aligned with Strategic Objectives & Purpose Statement

PROTECT		TRIFR % reduction	AIP[1] 15%
		% reduction in significant spills	
DEVELOP		Three-Year Growth in Reserves and Resources from Continuing Operations	PSUs[2,3] 50%
DELIVER		Costs Applicable to Sales Adjusted EBITDA	AIP 60%
		Three-Year Growth in OCF[4] from Continuing Operations/share	PSUs[2,3] 50%
		Production	AIP 25%

(1) Annual incentive plan.
(2) Performance share units.
(3) The two internal performance share metrics are subject to a relative total stockholder return ("TSR") modifier that adjusts payouts +/-25% for top or bottom quartile performance compared to peers.
(4) Operating cash flow.

Diverse Board Led by Independent Chair

- Nine out of ten Directors are independent (all except CEO); all four main committees comprised of independent directors only
- One new director elected in March 2019 and two new directors elected in February 2018 having skills and experiences that complement other directors
- Balance of newer and longer serving directors; no mandatory retirement age
- 50% of independent directors are diverse (gender or ethnicity), contributing to a variety of viewpoints

Review of HPGR Technology

HPGR technology is relatively new to precious metals mining, although it has been proven in processing other materials. The implementation of HPGR at Rochester is expected to improve silver recoveries and lower operating costs

HPGR Schematic[1]

Selected Commentary

- Feed material is subjected to high compressive force exerted by the floating roll, which is regulated by hydraulic pistons
- Counter rotating rolls draw in a bed of material, which is crushed via inter-particle comminution
- Creates micro-fractures in crushed material, allowing cyanide to flow more freely
  - Increases silver recoveries when compared to other crushers

Key Advantages

- ✓ Low operational and maintenance costs due in large part to limited moving parts
- ✓ Limited downtime for wear part replacement
- ✓ Comparatively higher comminution efficiency
- ✓ Accommodates greater mineral variability

HPGR crushing unit at Rochester

Notes to 2019 mineral reserves and resources:

(1) Effective December 31, 2019.

(2) Assumed metal prices for Mineral Reserves were $17.00 per ounce of silver, $1,350 per ounce of gold, $1.15 per pound zinc, $0.95 per pound lead.

(3) Assumed metal prices for estimated Mineral Resources were $20.00 per ounce of silver, $1,500 per ounce of gold, $1.30 per pound zinc, $1.05 per pound lead, except Lincoln Hill and Wilco at $1,350 per ounce gold and $22.00 per ounce silver, and Sterling at $1,200 per ounce of gold.

(4) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized. The preliminary economic assessment for the re-scoped mine plan at Kensington is preliminary in nature and includes Inferred Mineral Resources, and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves and there is no certainty that the results from the preliminary economic assessment will be realized.

(5) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.

(6) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.

Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. During his twenty-year tenure with Coeur, Mr. Krebs has led nearly $2 billion in capital raising and debt restructuring activities and has facilitated over $2 billion of acquisitions and divestitures. Mr. Krebs was previously Coeur's Chief Financial Officer and held various positions in the corporate development department, including Senior Vice President of Corporate Development. Mr. Krebs is a Director of Kansas City Southern and the National Mining Association, is on the Board of World Business Chicago, and was formerly President of the Silver Institute.

Thomas S. Whelan – Senior Vice President and Chief Financial Officer. Prior to joining Coeur, Mr. Whelan served as CFO of Arizona Mining Inc. from September 2017 to August 2018, when the company was acquired from South32 Limited. Previously, Mr. Whelan served as CFO for Nevsun Resources Ltd. from January 2014 to August 2017. He is a chartered professional accountant and was previously a partner with the international accounting firm Ernst & Young ("EY") LLP where he was the EY Global Mining & Metals Assurance sector leader, the leader of the EY Assurance practice in Vancouver and previously EY's Canadian Mining & Metals sector leader. Mr. Whelan graduated with a Bachelor of Commerce from Queen's University.

Terry F.D. Smith. – Senior Vice President, Operations. Mr. Smith joined Coeur in 2013 as the Vice President of North American Operations. Prior to joining Coeur, he served as Vice President of Project Development and Assessments of Hunter Dickenson Inc. Mr. Smith has managed projects ranging from scoping to the feasibility level, coordinated field investigations, metallurgy laboratory testing, and engineering design. He also has significant experience in strategic project planning and due diligence reviews for potential acquisitions including environmental, metallurgical, geotechnical and mining inputs. Mr. Smith has also served as Manager of Operations Support for Barrick Gold Corporation in Toronto and as Senior Mining Engineer for Teck Cominco Ltd. in Vancouver. Mr. Smith holds a Bachelor of Mining Engineering from Laurentian University in Sudbury, Ontario.

Casey M. Nault – Senior Vice President, General Counsel, and Secretary. Mr. Nault has over 20 years of experience as a corporate and securities lawyer, including prior in-house positions with Starbucks Corporation and Washington Mutual, Inc. and law firm experience with Gibson, Dunn & Crutcher. His experience includes securities compliance and SEC reporting, corporate governance and compliance, mergers and acquisitions, public and private securities offerings, other strategic transactions, general regulatory compliance, cross-border issues, land use and environmental issues, and overseeing complex litigation.

Hans J. Rasmussen – Senior Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco, and Quadra Mining. From 2004 to 2013, he was an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia, including serving on the Board of Directors of Atex Resources Inc. (formerly known as Columbia Crest Gold Corp.) since 2006.

Emilie C. Schouten – Senior Vice President, Human Resources. Ms. Schouten has 15 years of experience in Human Resources, starting her career in General Electric, where she graduated from GE's Human Resources Leadership Program. After 6 years as an HR Manager with GE, her division was acquired by the world's largest electrical distribution company, Rexel, and Ms. Schouten went on to become the Director of Training and Development. Ms. Schouten has her B.A. in Sociology from Michigan State University and her M.S. in Industrial Labor Relations from University of Wisconsin-Madison.
