Corporate Presentation

October 2021

COEUR MINING®
We pursue a higher standard

NYSE: **CDE**

Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements involving strategic priorities and company strategies, expectations regarding environmental, social and governance ("ESG") initiatives, goals and targets, anticipated production, costs and expenses, exploration and development efforts, health and safety protocols, COVID-19 planning and response measures, operations, expectations and initiatives at the Palmarejo, Rochester, Kensington, Wharf and Silvertip mines, capital allocation, growth, results and hedging strategies. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause Coeur's actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that the strategies, initiatives and expectations described in this presentation are not achieved on a timely basis or at all, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather, or geologically related conditions), changes in the market prices of gold, silver, zinc, and lead, and a sustained lower price or higher treatment and refining charge environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays (including the impact of government shutdowns), ground conditions, grade variability, any future labor disputes, or work stoppages, the uncertainties inherent in the estimation of mineral reserves and resources, changes that could result from Coeur's future acquisition of new mining properties or businesses, the loss or insolvency of any third-party smelter to which Coeur markets its production, the potential effects of the COVID-19 pandemic, including impacts to the availability of our workforce, continued access to financing sources, government orders that may require temporary suspension of operations at one or more of our sites and effects on our suppliers or the refiners and smelters to whom the Company markets its production and the communities where the Company operates, the effects of environmental and other governmental regulations and government shut-downs, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Forms 10-K and 10-Q. Actual results, developments, and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations, or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

Christopher Pascoe, Coeur's Director, Technical Services and a qualified person under Canadian National Instrument 43-101, reviewed and approved the scientific and technical information concerning Coeur's mineral projects in this presentation. Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and resources, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, socio-political, marketing or other relevant factors, Canadian investors should see the Technical Reports for each of Coeur's properties as filed on SEDAR at www.sedar.com.

Cautionary Note to U.S. Investors - The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We may use certain terms in public disclosures, such as "measured," "indicated," "inferred" and "resources," that are recognized by Canadian regulations, but that SEC guidelines generally prohibit U.S. registered companies from including in their filings with the SEC. U.S. investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from the SEC's website at http://www.sec.gov.

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including adjusted net income (loss), operating cash flow before changes in working capital, adjusted EBITDA, adjusted EBITDA margin, total leverage, net leverage, free cash flow and adjusted costs applicable to sales per ounce/pound. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted net income (loss), adjusted EBITDA, adjusted EBITDA margin, total leverage, net leverage, free cash flow and adjusted costs applicable to sales per ounce/pound are important measures in assessing the Company's overall financial performance. This presentation does not represent an offer of any securities for sale.

Headquartered in Chicago, IL, Coeur Mining (NYSE: CDE) is a well-diversified, growing precious metals producer with a focus on generating sustainable, high-quality cash flow from its North American asset base

Key Messages

Rebuilt Foundation	Coeur has established a **healthy culture**, developed a **solid strategy,** and assembled a **strong, aligned team** to **execute** the strategy and deliver **consistent results**
Industry Leader in ESG	The Company is an **industry leader** in environmental, social and governance practices
Transformational Expansion at Rochester	The expansion of Rochester is **technically sound**, provides **excellent economics**, has a **solid funding plan,** and is expected to **fundamentally reshape** Coeur
High-Impact Exploration Growth	The Company's **higher level** of exploration investment is a **key differentiator** and is leading to **new discoveries, longer mine lives** and **higher returns**
Silvertip Potential Restart	Recent **technical work** and **exploration results** are creating a **potentially compelling path forward**
Robust Three-Year Outlook	The three-year outlook reflects **strong returns** from the Company's portfolio followed by an anticipated **step change in cash flow** post-Rochester expansion

Compelling Strategy Aligned with Stockholder Priorities

Coeur's strategy is to safely and responsibly discover, develop and operate a balanced portfolio of quality precious metals assets in low-risk jurisdictions to maximize cash flow, returns and net asset value

- U.S.-based and NYSE-listed, mid-tier gold and silver producer
- Balanced portfolio of assets located solely in North America
- Targeting higher returns on invested capital and strong free cash flow[1] growth via high-impact organic growth
- Industry-leading investment in exploration
- Recognized as industry leader for ESG programs and initiatives
- Approaching key inflection point driven by Rochester expansion
- Approximately $30 million ADTV (~1.9% of market cap)[2]

Protecting the Environment

- Leading tailings management procedures and practices
- Published second consecutive responsibility report in April 2021
- Recently entered into first-of-its kind sage-grouse habitat agreement in Nevada
- Established greenhouse gas emission reduction target

Social and Community Impact

- Contributed over $1.25M to community partners during 2020
- Innovative development and diversity initiatives
- First precious metals company to sign CEO Action for Diversity and Inclusion pledge
- An average of 60% of new hires have been local since 2018

Governance Performance

- 50% of independent directors are diverse
- Innovative incentive compensation design aligned with stockholders
- ISS "1" Quality Score for Governance
- Proactive stockholder engagement
- Winner of 2020 & 2019 Corporate Secretary Magazine's Best Proxy Statement Award (mid-/small cap)

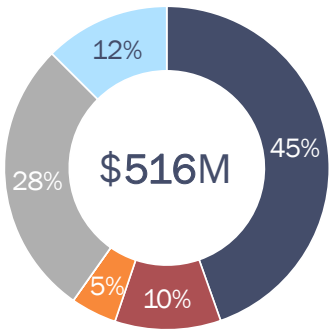

(1) Free cash flow is defined as cash flow from operating activities less capital expenditures.
(2) ADTV = Average Daily Trading Volume. Data observed over a 90-day trading period. FactSet as of September 30, 2021.

Coeur's Capital Allocation Framework

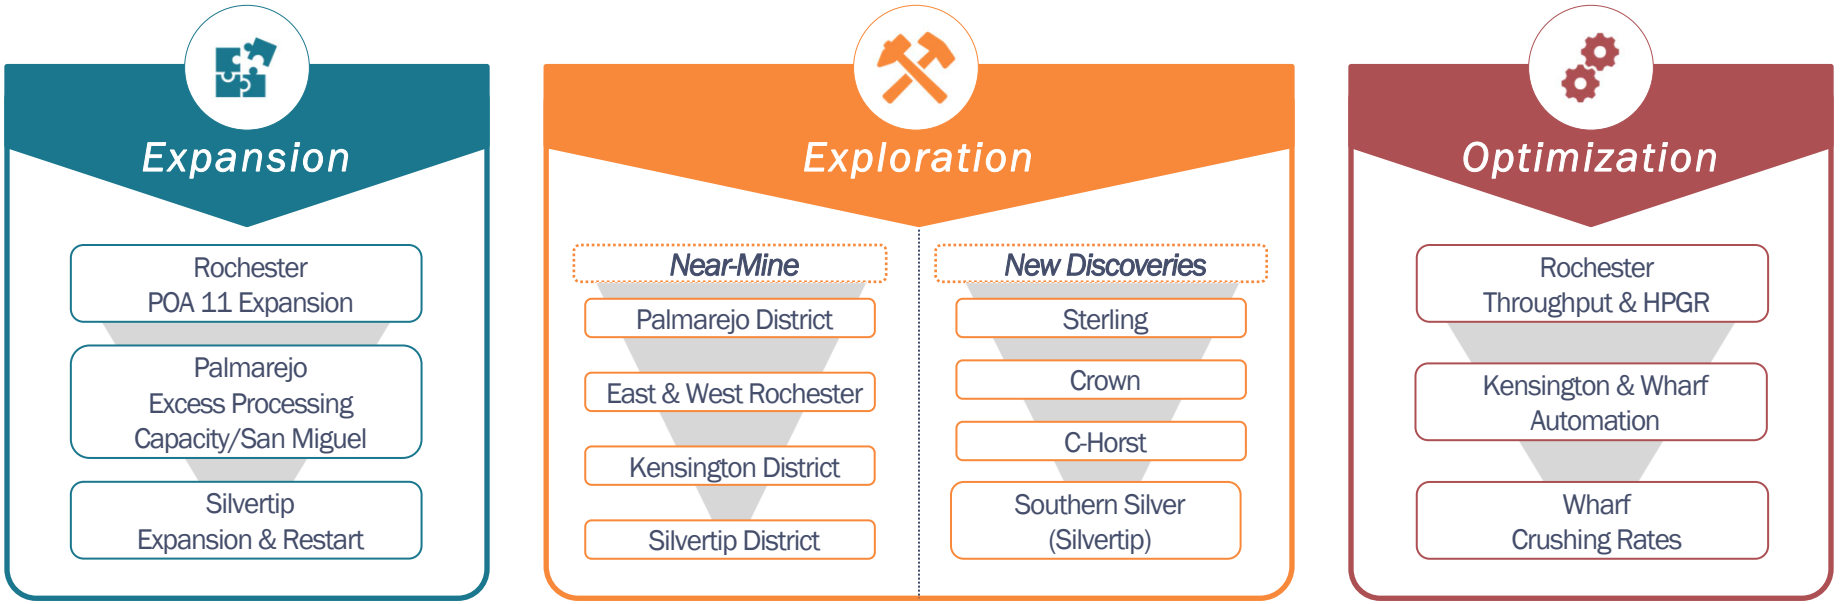

Mining is capital intensive and requires a disciplined approach to capital allocation with a view toward long-term reserve replacement and growth

Multiple High-Impact Organic Growth Opportunities

COEUR MINING®

Coeur has multiple high-impact expansion, exploration and optimization opportunities embedded in its portfolio, which it is prioritizing and pursuing based on the Company's capital allocation framework

- ***Pursuing*** a higher standard
- ***Executing*** largest exploration program in Company history
- ***Allocating*** capital according to Company's framework
- ***Aligning*** organizational structure and incentive compensation
- ***Focusing*** on high-impact organic growth projects
- ***Striving*** to achieve higher returns, longer mine lives and margin expansion

Rochester: Expansion Expected to Unlock Significant Value[1]

The expansion of Rochester is expected to drive an anticipated step change in Coeur's production and cash flow, helping to fundamentally reposition the Company and unlock meaningful long-term value for our stockholders

Project Hallmarks

- ***Robust, tactical*** *project execution* ***team***
- ***+2x increase*** *in planned* ***throughput*** *rates*

Key Value Drivers

Funding Strategy & Capital Overview

Cash on Hand	✓ Cash on balance sheet
Internally Generated Cash Flow	✓ Operating cash flow from Rochester ✓ Free cash flow[3] from other operations
Existing Debt Capacity	✓ Revolving credit facility ($100 million accordion) ✓ Equipment and finance leases
Opportunistic Hedging	✓ Utilizing zero-cost collars on gold – Targeting up to 50% of expected gold production through 2022

- ✓ Total initial construction capital estimate of ~$433 million
  - ~$35 million in 2020
  - ~$397 million in 2021E-2023E
- ✓ ~$334 million of committed capital at the end of 2Q 2021

Key Updates

- ✓ ~$20 million of project enhancements added in 1H 2021
- ✓ Early indication of cost escalation on remaining uncommitted contracts
- ✓ Incorporating key learnings from existing infrastructure to POA 11
- ✓ Reviewing additional optimization opportunities; results expected to be available during 2H 2021

(1) For additional information on the expansion of Rochester, Canadian investors should refer to the latest Technical Report for Rochester on file at www.sedar.com.
(2) Fraser Institute Annual Survey of Mining Companies (2020).
(3) Free cash flow is defined as cash flow from operating activities less capital expenditures.
(4) Reflects annual average free cash flow for initial ten years post-expansion.

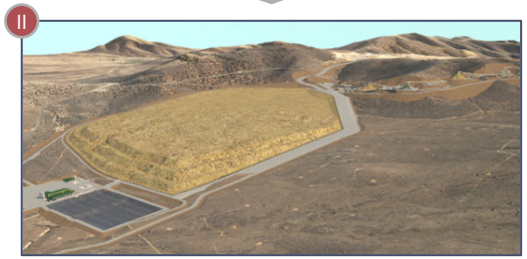

Rochester: Expansion Construction Update

Coeur continues advancing construction on the Rochester expansion with solid ongoing environmental and safety performance. Overall project progress was approximately 31% complete at the end of 2Q 2021, substantially on schedule

Crushing circuit, including two HPGR units (capacity of ~28.5M tons/year)

Stage VI leach pad (capacity of 300M tons)

Merrill-Crowe process plant (capacity of 13,750 gpm[1])

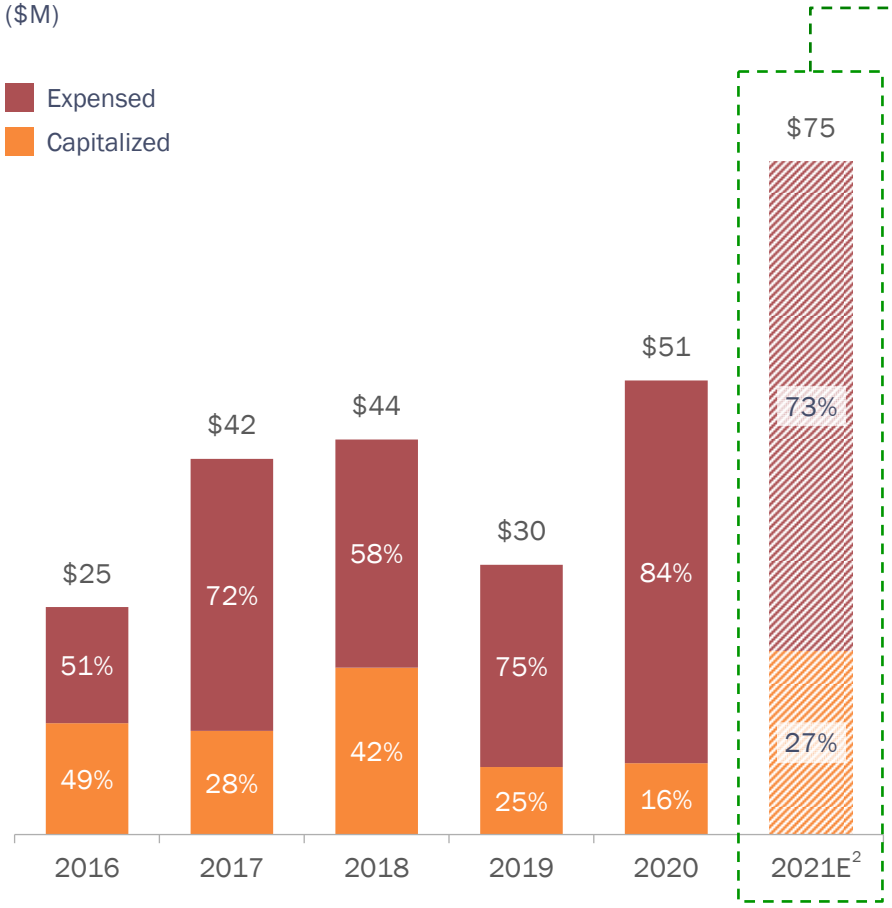

Note: For additional information regarding the POA 11 expansion, Canadian investors should refer to the Rochester technical report on file at www.sedar.com.
(1) Gallons per minute.

Sustaining a Higher Level of Exploration Investment

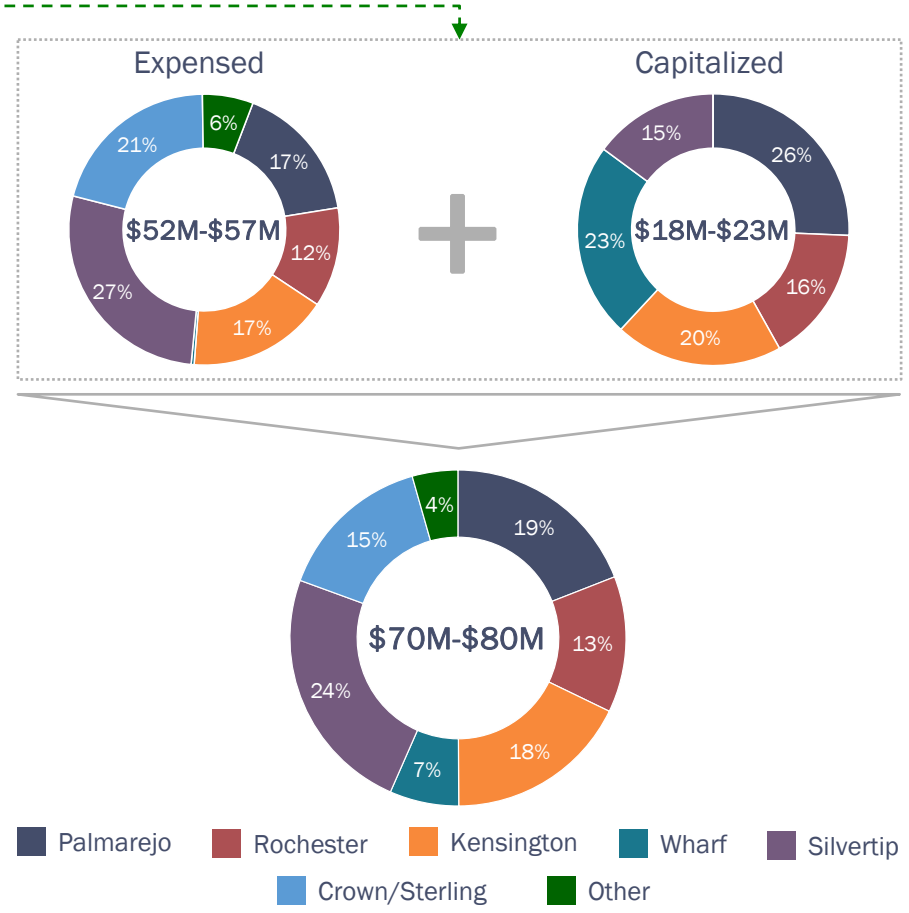

While executing the largest exploration campaign in its history, Coeur achieved a new quarterly record by drilling roughly 320,400 feet (97,675 meters) during 2Q 2021. Building on this success, the Company increased its full-year 2021 exploration guidance to $70 - $80 million[1]

Total Exploration Investment

($M)

2021E Exploration Investment by Site[1]

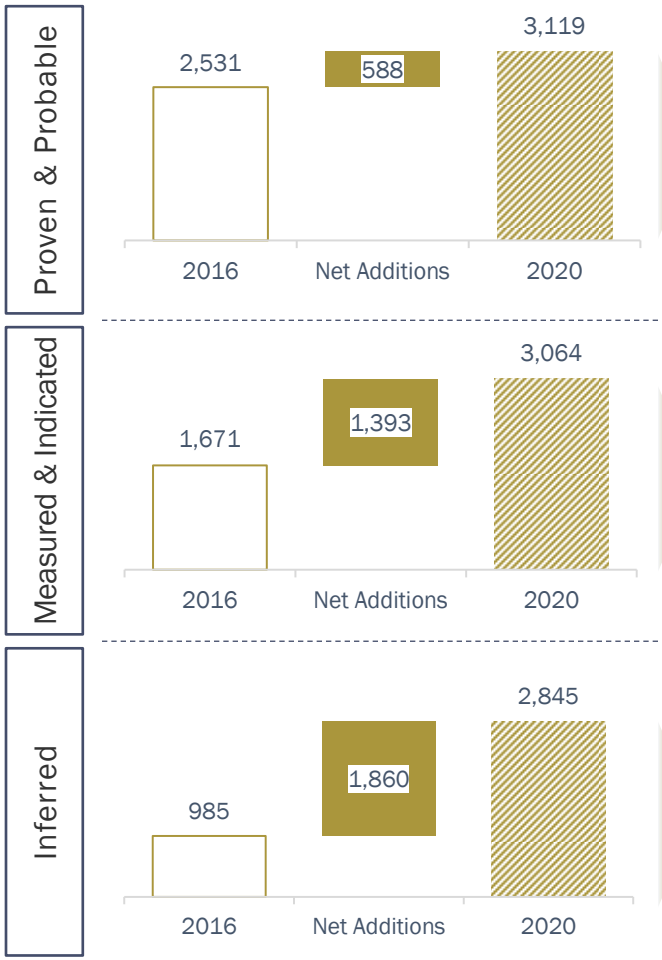

(1) Guidance as published by Coeur on July 28, 2021.
(2) Figures reflect midpoint of guidance as published by Coeur on July 28, 2021.

Expanded Reserve and Resource Base

Coeur has been successfully replacing production and adding a significant amount of reserves and resources, demonstrating the potential for further mine life extensions and organic growth opportunities with continued drilling

Gold Reserves & Resources

(k oz)

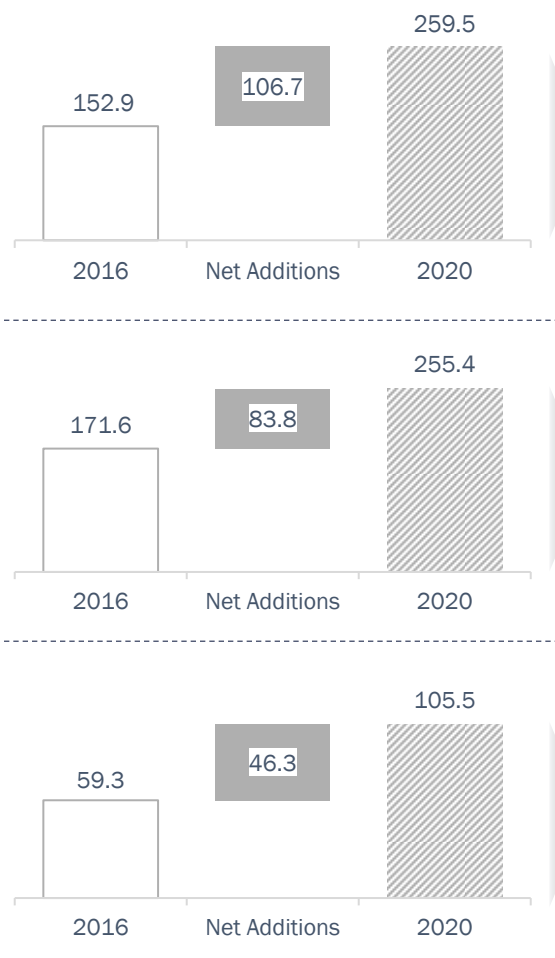

***+23%** increase in proven and probable gold reserves*

***+83%** increase in measured and indicated gold resources*

***+189%** increase in inferred gold resources*

Silver Reserves & Resources

(M oz)

***+70%** increase in proven and probable silver reserves*

***+49%** increase in measured and indicated silver resources*

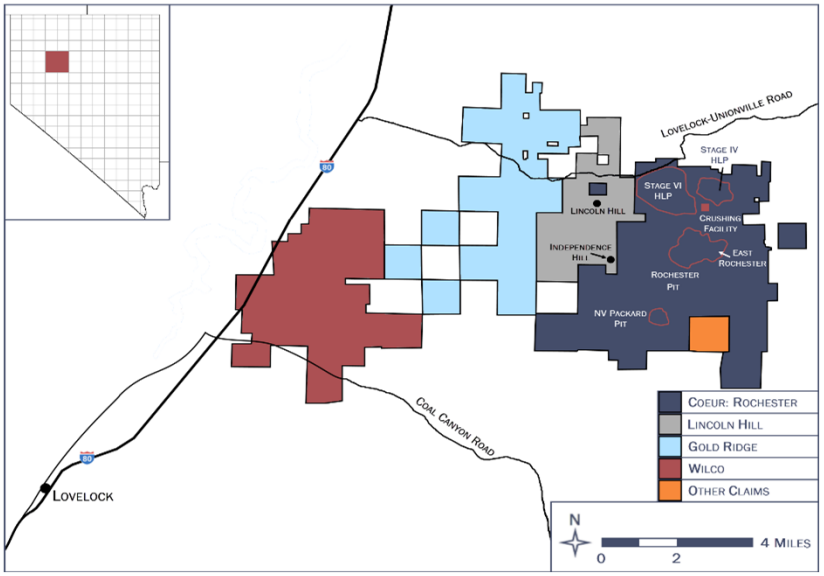

***+78%** increase in inferred silver resources*

Note: Figures exclude mining properties divested by Coeur. See slides in appendix for additional information related to mineral reserves and resources. Canadian investors should refer to the latest technical reports on file for each of Coeur's mines at www.sedar.com.

Nevada-Based Exploration Investment Opportunities

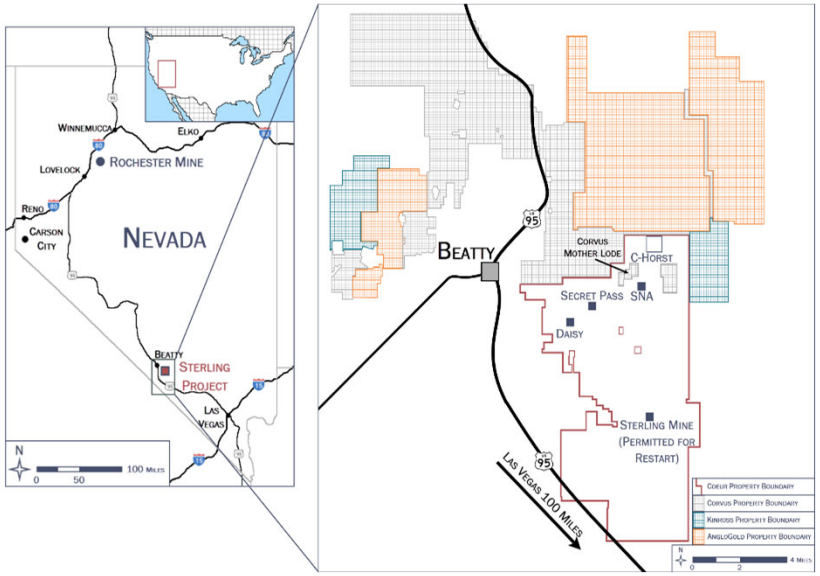

Coeur is uniquely positioned to build out its organic growth portfolio in the U.S., specifically in Nevada – the world's top mining jurisdiction[1]. The Company believes investing in these opportunities will drive long-term value for stockholders

Northern Nevada

- Significant potential to further grow reserves and leverage Rochester's existing infrastructure
- East Rochester represents potential for significant higher-grade addition to current reserves and resources
- Acquired property package adjacent to Rochester in late 2018 for ~$19 million
- Total land position of over 40,300 acres

Southern Nevada

- Acquired in late 2018 containing multiple gold deposits
- ~35,500 net acres in southern Nevada near existing infrastructure
- New discovery results (e.g., C-Horst) by Coeur adjacent to other new gold discoveries
- Future potential sources of low cost, long-life open pit gold production

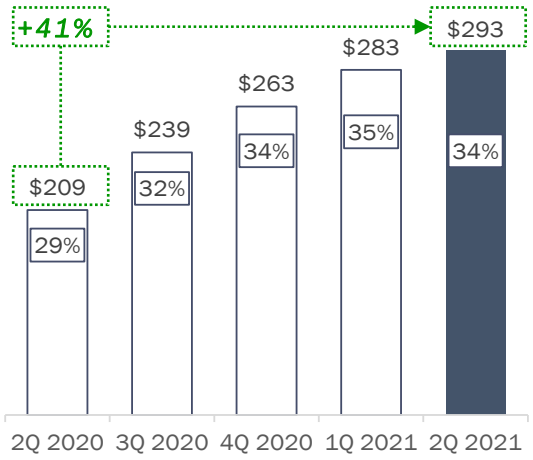

(1) Fraser Institute Annual Survey of Mining Companies (2020).

2021 Investment in Victoria Gold

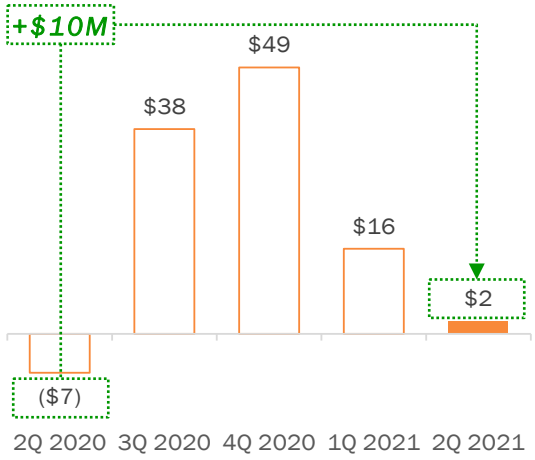

- Acquired an 18% interest in Victoria Gold Corp. from Orion Mine Finance on May 10, 2021 for US$117 million (C$13.20/share)
- Orion received shares of Coeur common stock equal to 4.9% ownership
- Entered into support agreement with Orion, which expires on October 31, 2021
- Victoria operates the Eagle gold mine located in Yukon Territory, Canada, which achieved commercial production on July 1, 2020
- Complements Coeur's existing portfolio of precious metals assets located in high-quality jurisdictions

Total debt / LTM adjusted EBITDA	1.7x	1.5x	1.4x
Net debt / LTM adjusted EBITDA	1.3x	0.9x	1.0x

Balance Sheet Enhancements

- $300 million revolving credit facility capacity with $100 million accordion feature
  - Extended maturity from October 2022 to March 2025
- Issued $375 million 5.125% senior notes due 2029
  - Lowered interest rate and extended maturity vis-à-vis 5.875% senior notes due 2024
  - Opportunistically upsized offering to further bolster cash position to help underpin funding for key growth projects
- Upgraded by Moody's from B3 to B2[3] in 1Q 2021
- Significantly improved cash position from year-end 2020

Snapshot of Metal Sales Hedges

	3Q 2021	4Q 2021	Total 2H 2021	2022
Ounces Hedged	39,675	39,675	79,350	132,000
Avg. Ceiling ($/oz)	$1,882	$1,882	$1,882	$2,038
Avg. Floor ($/oz)	$1,600	$1,600	$1,600	$1,630

(1) See non-GAAP reconciliation tables in the appendix to this presentation.
(2) Net debt equals total debt less cash and cash equivalents.
(3) Reflects Corporate Family Rating. 5.125% senior notes due 2029 rated B3.

Looking Ahead: Key Priorities for 2H 2021

- Maintain focus on rigorous health and safety protocols
- Continue increasing production and executing major construction on POA 11 expansion at Rochester
- Complete record exploration campaign to continue driving reserve and resource growth
- Advance potential Silvertip expansion and restart
- Allocate capital according to framework, prioritizing investments in highest-return growth opportunities
- Deliver consistent operating and financial results across portfolio

2021 Guidance[1]

Production Outlook

	Gold (oz)	Silver (K oz)
Palmarejo	100,000 – 110,000	6,500 – 7,750
Rochester	22,500 – 32,500	3,200 – 4,400
Kensington	115,000 – 130,000	-
Wharf	85,000 – 95,000	-
Consolidated	**322,500 – 367,500**	**9,700 – 12,150**

CAS Outlook[2]

	Gold ($/oz)	Silver ($/oz)
Palmarejo (co-product)	$635 - $735	$11.75 - $12.75
Rochester (co-product)	$1,350 - $1,500	$20.00 - $22.00
Kensington	$1,010 - $1,110	-
Wharf (by-product)	$960 - $1,060	-

Capital, Exploration and G&A

($M)

Capital Expenditures, Sustaining[3]	$80 - $100
Capital Expenditures, Growth	$220 - $275
Exploration, Expensed	$52 - $57
Exploration, Capitalized	$18 - $23
General & Administrative Expenses	$40 - $45

Note: The Company's guidance reflects realized prices and hedge gains/losses through May 31, 2021, estimated prices of $1,750/oz gold and $25.00/oz silver as well as CAD of 1.20 and MXN of 20.50.
(1) Guidance as published by Coeur on July 28, 2021.
(2) See non-GAAP reconciliation tables in the appendix to this presentation.
(3) Sustaining capital expenditures exclude capital leases.

ESG Highlights

Precious Metals Are *Coeur* to Everyday Life

Coeur is an important part of the supply chains for gold and silver. Due to their unique properties, gold and silver have countless innovative uses that shape the way we live today and enable a more sustainable, healthier tomorrow

Au

Coeur's Palmarejo, Rochester, Kensington and Wharf mines produce gold, which is a critical component of:

Medical Devices
COVID-19 diagnostic test kits, pacemakers, CAT scan equipment and others

Electronics
Nanotechnology and touch screen monitors

Electrification Devices
Batteries and solar panels

Transportation
GPS technology and catalytic converters in motor vehicles & electric vehicle circuit boards

Ag

Coeur's Palmarejo and Rochester mines produce silver, which is a critical component of:

Medical Devices
Bandages, pharmaceuticals and anti-microbial coating for equipment

Renewable Energy
Photovoltaic cells in solar panels

Household Items
Mirrors, clothing and jewelry

Public Health
Water purification systems

Reporting Frameworks That Align with Our Strategy

In 2021 we enhanced our ESG reporting by adding disclosures that align with the recommendations of the Task Force on Climate-related Financial Disclosure (TCFD). We continue incorporating elements of the Sustainability Accounting Standards Board (SASB) framework, the United Nations Sustainable Development Goals (SDGs) and the Global Reporting Initiative (GRI)

SASB

- Focused on industry-specific **financially material** items and is market-informed
- SASB is becoming the **preferred ESG disclosure framework** for corporates backed by $63+tn of investor assets

TCFD

- Aims to measure the **physical, liability and transition risks** associated with climate change
- **Climate scenario analysis and planning** is an important component of this framework backed by $47+tn of investor assets

UN SDGs

- **Universal call to action** to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by 2030
- **17 ambitious integrated goals** that affect all of society

GRI

- **Most widely used** sustainability disclosure standards
- **Comprehensive standards** that address issues of interest to **all stakeholders**

Sources: SASB - https://www.sasb.org/; Task Force on Climate-Related Financial Disclosures - https://www.fsb-tcfd.org/; UN SDGs - https://www.undp.org/content/undp/en/home/sustainable-development-goals.html; GRI - https://www.globalreporting.org/.

Impactful Results Through Teamwork

2021 Goal and Targets

Our People Goal: Maintain Coeur as an employer of choice

- **Safety:** Zero harm
  - 7.5% reduction in three-year trailing average total reportable injury frequency rate
- **Culture:** Strengthen culture, employee engagement and retention
  - ~30% increase in employee culture survey participation between 2019 and 2021 (exceeding goal of 10% increase outlined in Coeur's 2020 Responsibility Report)
- **Diversity:** Foster an inclusive workplace that supports diversity and reflects the communities where we operate
  - 3% increase in employee diversity in 2021
  - Decrease voluntary turnover among diverse employees year-over-year

Safety Highlights

Safety is a Foundational Element of Coeur's Culture

Coeur's vision for safety is to continuously enhance its culture by working free of any uncontrolled exposures. The Company believes that safety does not truly improve unless exposure is controlled, reduced or eliminated

CORESafety System	✓ Received certification in National Mining Association's CORESafety program in 2017, and completed recertification in July 2021 ✓ Member of CORESafety advisory board ✓ 2019 International EHS Innovation Award Winner ✓ Five consecutive years of reduced total reportable injury frequency rate
Risk Management	✓ A clearly-defined governance process that oversees and manages risk and mitigation plans ✓ Management of Change process serves as a cornerstone of Coeur's risk management and process safety program ✓ Partnership with one of the largest energy and power risk engineering companies to manage loss control activities
Critical Risk Management	✓ Management of key health and safety risks with highest potential for significant employee impact ✓ Key critical control processes verified through documented field-based observations
COVID-19 Response	✓ Partnered with public health, medical laboratories and pharmaceutical companies to establish a proactive response plan ✓ Implemented technology-based strategy

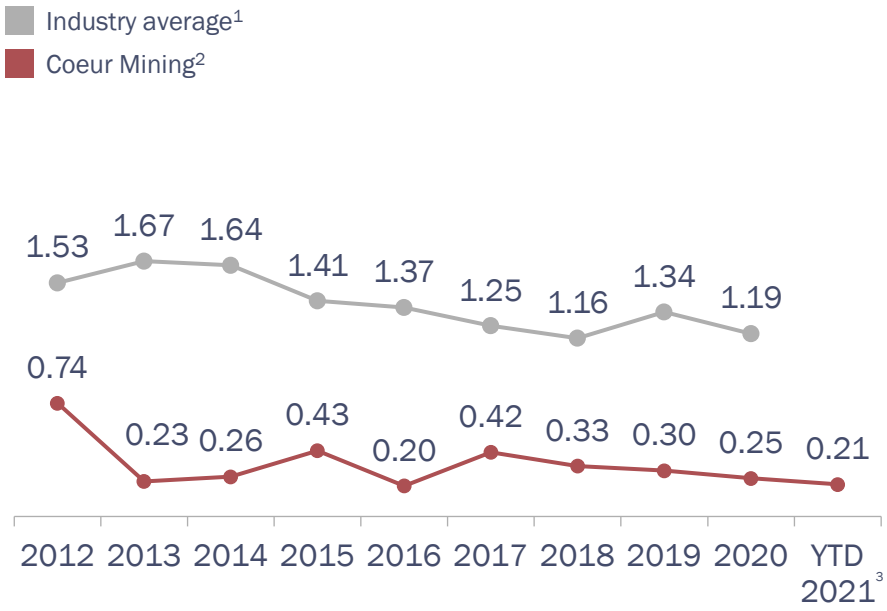

Industry-Leading Safety Performance

Coeur has been certified in the National Mining Association's CORESafety program since 2017 and completed its recertification in July 2021

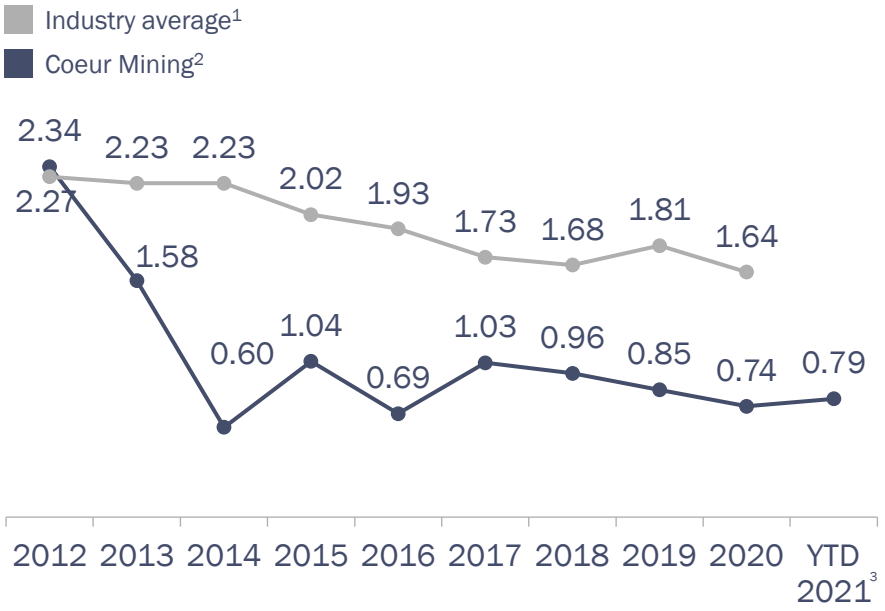

CORESAFETY® Certified

Coeur's injury frequency rate remains significantly below industry averages

Lost-Time Injury Frequency Rate

Total Reportable Injury Frequency Rate

(1) Source(s): U.S. Department of Labor Mine Safety and Health Administration (MSHA): Metal Operators Mine Safety and Health Statistics. Injuries per 200,000 employee-hours worked.
(2) Includes both Coeur employees and contract workers.

Key Components of Coeur's Health and Safety Program

COEUR MINING®

Management of Change

Management of Change process is utilized to prevent unwanted impact to process steps in front and behind of the process change

Information Management

Ensures proper usage and future expansion of current health and safety databases

Training

Apply learning techniques, knowledge and resources to ensure that our employees display a health and safety competency within day-to-day activities

Investigation & Controls

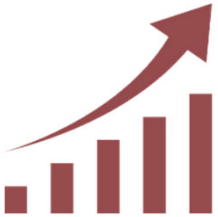

Establish a comprehensive investigation process that leads to a thorough understanding of incidents through root cause analysis. Process will ultimately lead to a risk control through the utilization of the hierarchy of controls

SIF Prevention

High exposure risk activities are defined throughout Critical Risk Management Process and Critical Controls defined to control, reduce or eliminate the risk exposure

PROTECT

DEVELOP

DELIVER

Risk Management

Establish an effective and sustainable risk assessment and control system throughout the organization. System will reduce all forms of business interruption including but not limited to operational, EHS and financial

Total Worker Health

Assurance of a workplace free of health hazards due to an effective establishment of a sustainable industrial hygiene program

Communication & Reporting

Use effective communication and reporting methods that allow for Company transparency, program progression and safety culture throughout the organization

Contractor Management

Ensure contractors and visitors are incorporated into our health and safety systems and managed to the same expectations as all Coeur employees

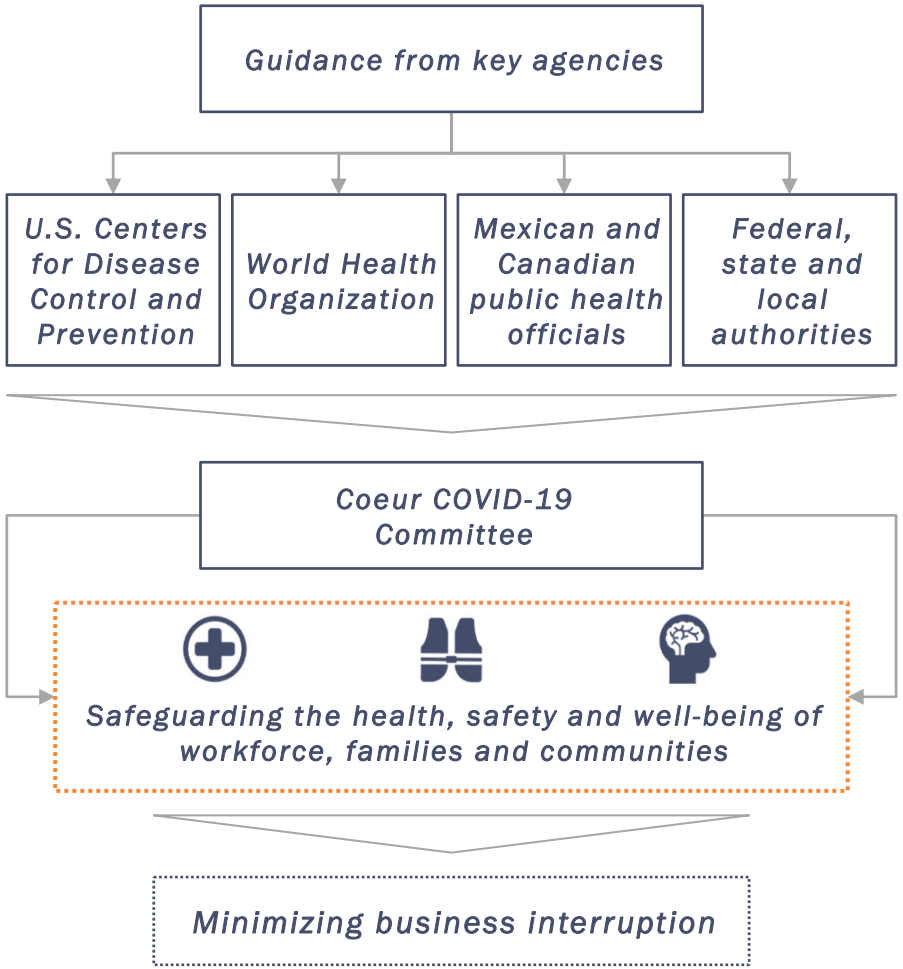

Measurement & Quality

Balanced with leading and lagging indicators verified for quality through governance controls, scorecards show measure of success keyed to current performance vs short and long-term goals

COVID-19 Response and Decision-Making Approach

Coeur's principal objective to help combat COVID-19 is to safeguard the health, safety and well-being of its workforce, their families and the communities where the Company operates

2021 NIOSH Mine Safety and Health Award Winner

Coeur is honored to be recognized by The National Institute for Occupational Safety and Health ("NIOSH") as the recipient of the NIOSH Mine Safety and Health Technology Innovations Award for 2021

- Prestigious award given for Coeur's cross-functional COVID-19 response
- The Company combined multiple technologies, including online site access screening, a dashboard to manage COVID-19 testing data and wearable contact tracing badges for all employees
- This allowed Coeur to quickly identify asymptomatic and symptomatic positive cases of COVID-19, trace employee exposures and prevent further transmission

Acknowledgment by the Centers for Disease Control and Prevention is a testament to the priority and effort all Coeur team members place on health and safety

PROTECT | DEVELOP | DELIVER

Environmental Highlights

Recent Environmental Achievements

Set organization-wide GHG emissions reduction target

Established Climate Working Group

Became a TCFD supporter

Wharf acquires 40+% of its electricity from wind power

52% reduction in permit discharge exceedances from 2019

Included initial mapping to TCFD in 2020 Responsibility Report

Corriedale Wind Energy Project, source of Wharf's electricity

2021 Goal and Targets

Environment Goal: Improve the overall impact that Coeur has on the environment and reduce costs over time

- **GHG Emissions:** 25% reduction in net intensity[1] by end of 2025 compared to base-year[2]
- **Climate Change:** Conduct a climate scenario analysis considering a 1.5-degree scenario
- **Permit Discharge Exceedances:** 7.5% reduction in three-year trailing average of permit discharge exceedances
- **Spills:** 7.5% reduction in three-year trailing average of significant spills[3]
- **Tailings:** Complete a comprehensive self-assessment against the Global Industry Standard on Tailings Management

(1) CO_2 eq. intensity reduction to 10 kg CO_2 eq. / ton processed from base-year measurement of 14.
(2) Base-year is a weighted average of 2018 and 2019.
(3) Coeur internally defines a significant spill as the following amounts spilled outside of secondary containment: any amount of cyanide process solution; greater than or equal to 25 gallons of petroleum hydrocarbons; or greater than or equal to 5 gallons of untreated domestic sewage.

Demonstrating Our Commitment

Water Stewardship

Rochester mine water is managed in a closed system which reduces the need for fresh water makeup. Some of the water has been recirculated and reused since 1986 when the mine opened!

Biodiversity & Investment in Local Communities

Palmarejo operates three large greenhouses, growing local plants. Some can be used for reforestation and others provide produce that the community members can then harvest and sell.

Biodiversity & Closure Planning

Each operation has strict Wildlife Monitoring programs that help identify and protect the wildlife that inhabit the land around the operation. These programs help establish post-closure reclamation efforts.

Demonstrating Our Commitment (cont.)

Training & Development

Coeur has a strong partnership with the South Dakota School of Mines and Technology, supporting the school through donations and employee time.

Health, Safety & Security & Biodiversity

Since being purchased by Coeur, Silvertip has improved their environmental efforts by initiating reclamation efforts to mitigate soil erosion and habitat disruption along the public access road.

These efforts lead to a safer roadway for employees, delivery drivers and hunters in the area, and a more natural habitat for the wildlife and flora.

Investment in Local Communities

Kensington supports the Juneau Gold Rush Days through sponsorship and volunteers to educate and celebrate the past, present and future of mining and logging in Alaska.

Demonstrating Our Commitment (Biodiversity)

- Coeur Mining seeks to understand, measure, protect and enhance biodiversity in the areas where we operate
- We conduct biodiversity impact assessments for each operation prior to any development
- One example of a first-of-its kind agreement between a mining operator and private landowner was the SAGE GROUSE HABITAT CONSERVATION agreement
- Under this agreement, Coeur's Rochester mine secured conservation credits under Nevada's Conservation Credit System, which is overseen by the stakeholder-driven Nevada Sagebrush Ecosystem Council
- Coeur Rochester is committed to providing full funding to preserve and enhance over 3,000 acres of greater sage-grouse habitat in Elko and Humboldt Counties for the next 30 years

This is just one example of our commitment to building positive relationships with the communities where we work and live and create lasting positive impacts beyond the life of our mines

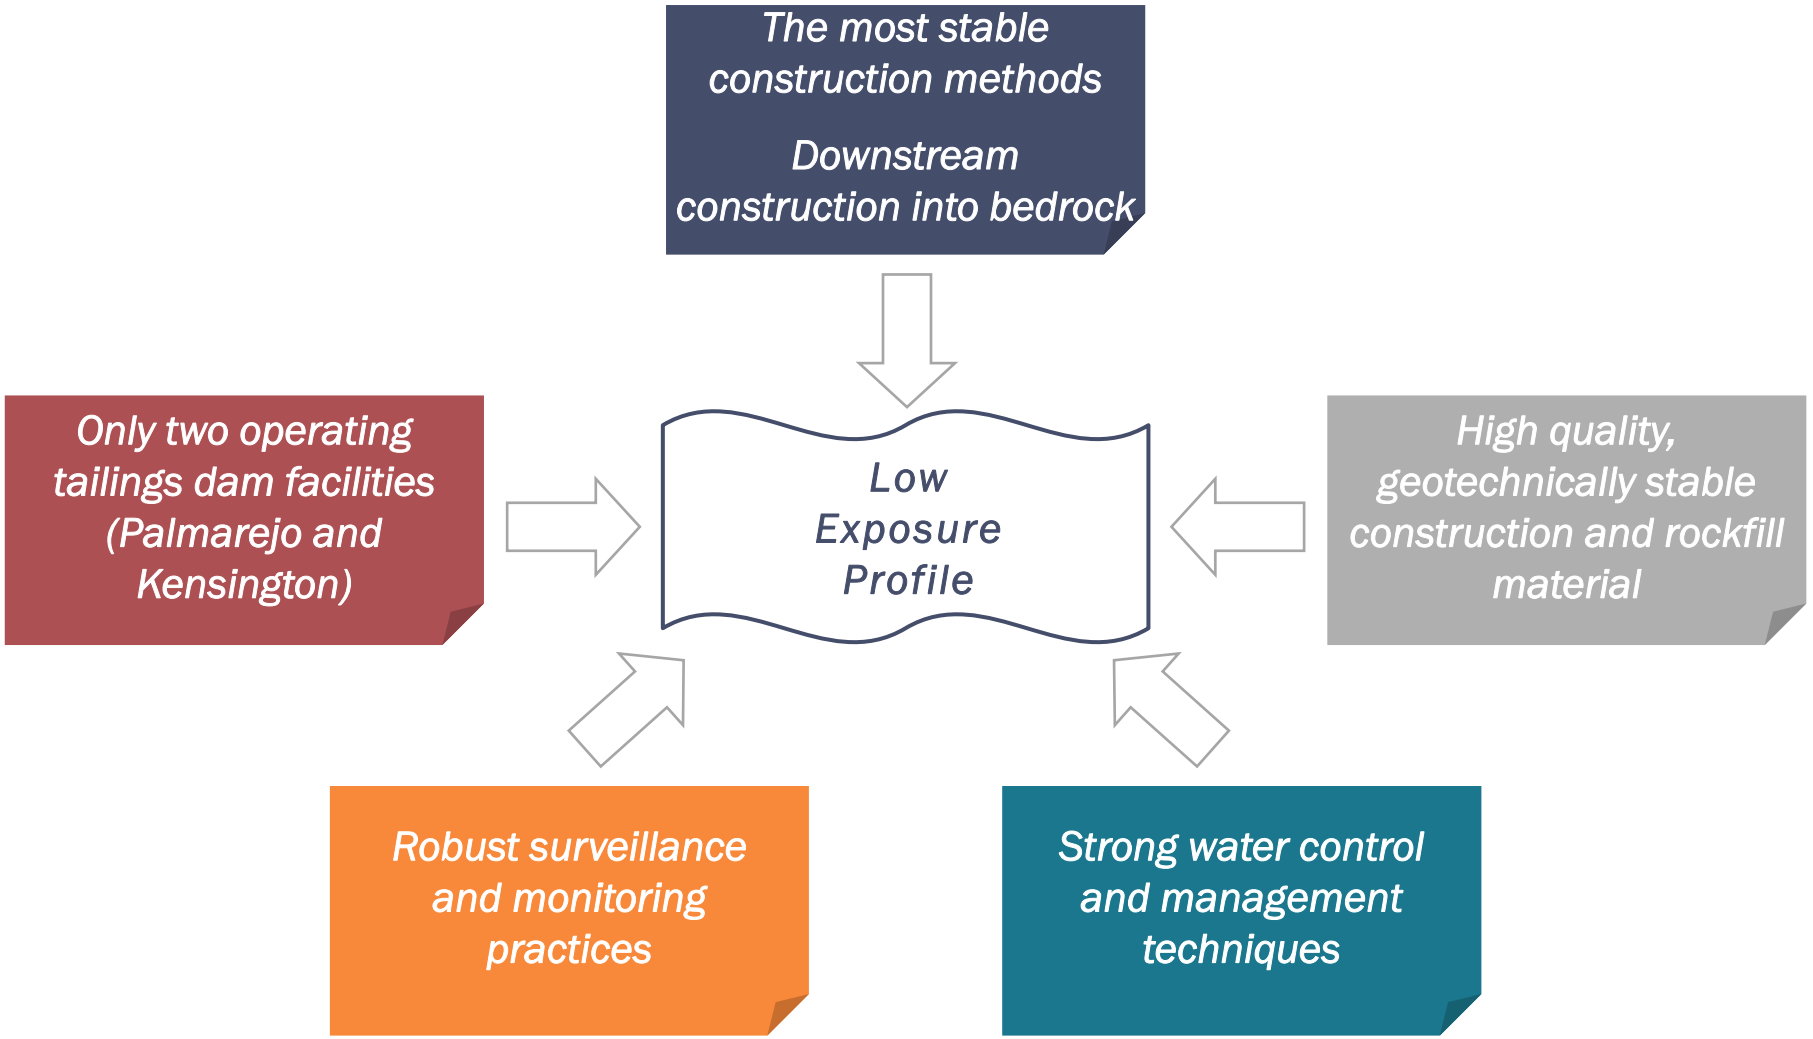

In 2020, Coeur Rochester entered into a first-of-its-kind agreement with Crawford Ranch, LLC to protect critical sagebrush habitat in Nevada while continuing environmentally sensitive and sustainable mining practices. This was the first project agreement between a mine operator and a private landowner to secure conservation credits under Nevada's Conservation Credit System, which is overseen by the stakeholder-driven Nevada Sagebrush Ecosystem Council. Coeur Rochester is committed to providing full funding to preserve and enhance over 3,000 acres of vital greater sage-grouse habitat in Elko and Humboldt Counties for the next 30 years. According to the Nevada Department of Conservation and Natural Resources, "the project will also support healthy habitats for other native wildlife species, including the Lahontan cutthroat trout, mule deer, and more."

The agreement was made possible by the work of the Nevada Department of Conservation and Natural Resources, the Bureau of Land Management, Crawford Ranch and Coeur Rochester to preserve sage-grouse and wildlife habitats in Nevada

Proactive Approach to Tailings Dam Management

Highlighted below are the proactive elements of Coeur's tailings dam facilities that set the Company's leading environment, health and safety standards apart from other industry participants

Overview of Coeur's Tailings Dam Facilities

	Palmarejo	Kensington
Year Constructed	2010	2010
Status	Operational	Operational
Construction Type/Design	Downstream zoned rockfill dam, upstream face lined with HDPE[1], constructed into bedrock	Downstream constructed Geosynthetic-Faced Rockfill Dam, constructed into bedrock
Relevant Design Standards	Mexican norm NOM-141 SEMARNAT 2003 and Canadian Dam Association (CDA 2007) Dam Safety Guidelines	Alaska Department of Natural Resources (ADNR) Dam Safety Guidelines (ADNR 2005) and 11 AAC 93.171(f)(3)
Current Height (ft)	315 feet (96 meters)	88 feet (27 meters)
Permitted Height (ft)	341 feet (104 meters)	88 feet (27 meters)
Current Tailings Volume	17.4 million tons (13.7 million cubic meters)	2.5 million tons (1.5 million cubic meters)
Tailings Type	Impounded Tailings Slurry[2]	Impounded Tailings Slurry[2]
Frequency of Third Party Inspections	Annually during normal operation, constant inspections during construction	Annually during normal operation, constant inspections during construction

(1) High Density Polyethylene.
(2) A slurry is a finely ground mixture of mineral particles that are mixed with water for ease of transport.

Operational Risk Reduction of Coeur's Tailings Dams

Coeur's health and safety practices are focused on maintaining low risk tailings dam facilities across its operations

Construction	• Downstream construction method – most stable and progressively builds away from tailings, towards downstream • Kensington and Palmarejo embankments are constructed into bedrock • Designs and engineers follow accepted international guidelines and jurisdictional dam safety regulations • Continuous QA/QC during construction projects
Water Control	• Effective seepage and hydraulic control systems in place • Emergency spillway in place at Kensington • Emergency spillway under construction at Palmarejo • Strong beach formation at Palmarejo, increases tailings strength and maintains water away from embankment • Significantly reduced the volume of water stored in Palmarejo's tailings dam • Water balance limits in place, actively monitored and maintained • Designed to site specific factors and geotechnical conditions
Failure Modes	• Completed failure modes analysis / probabilistic scenarios • Designed for seismic control to maximum credible earthquake • Designed with appropriate stability and safety factors • Managed to higher hazard class at Kensington • Contingency controls in place to handle upset conditions
Surveillance & Management	• Excellent tailings management track record • Engineering reviews by qualified third parties • Credible operation, monitoring and maintenance system with attentive management • Strong internal and external inspection and surveillance programs • Instrumentation systems in place with active monitoring • Operate within design standards • Underground tailings placement optimized where feasible

Kensington: Tailings Dam Management

TTF – Pre Stage 3 Construction (2017)

- Kensington Mine Lower Slate Lake Tailings Dam (AK00308) is a downstream constructed Geosynthetic-Faced Rockfill Dam, constructed into bedrock
- The processed mine ore and tailings solids are benign and do not produce acid rock drainage conditions, requiring no direct treatment
- Tailings are deposited via a subaqueous slurry into a tailings impoundment, and approximately 40% of the tailings produced are diverted from permanent storage within the tailings facility and placed underground as a cemented paste backfill

- Coeur operates a water treatment plant to i) settle out suspended solids, ii) remove manganese mobilized from the rock during the mining and milling processes, and iii) remove dissolved aluminum that occurs naturally in the storm water runoff from the surrounding area before releasing water back to the environment

Stage 3 Dam Raise Construction

Active Water Monitoring

Active Water Monitoring

Palmarejo: Tailings Dam Management

Downstream Construction & Strong Beach Formation

- Palmarejo's tailings dam is a downstream rockfill with the upstream face lined with HDPE[1], and it is constructed into bedrock
- Palmarejo tailings are classified as non-potentially acid generating and non-metal leaching
- Prior to placement in the dam, the tailings undergo a detoxification process to reduce the cyanide concentration to below five parts per million
  - Tailings are then deposited via a subaqueous slurry into a tailings impoundment

- Any water discharged to the environment passes through a secondary inverse osmosis treatment plant to meet discharge requirements of Mexican norm NOM-001-SEMARNAT-1996

Community & Culture Highlights

Culture at Coeur

*2021 Coeur Culture Survey with **93%** participation says we are…*

SAFE ETHICAL ENGAGED PROUD

92%
I feel safe performing my job

91%
I feel effectively trained to be safe at work

87%
Coeur is committed to minimizing its impact on the environment

87%
I am proud to work at Coeur Mining

86%
If I observe misconduct, I know how to report it

A MEASURE OF INCLUSION:
81% of females at Coeur feel included as a part of their team
78% of females at Coeur feel encouraged to speak up at work
78% of females at Coeur feel our culture supports their health and wellbeing

2021 People Goal and Targets

Our People Goal: Maintain Coeur as an employer of choice

- **Safety:** Zero harm
  - 7.5% reduction in three-year trailing average total reportable injury frequency rate
- **Culture:** Strengthen culture, employee engagement and retention
  - ~30% increase in employee culture survey participation between 2019 and 2021 (exceeding goal of 10% increase outlined in Coeur's 2020 Responsibility Report)
- **Diversity:** Foster an inclusive workplace that supports diversity and reflects the communities where we operate
  - 3% increase in employee diversity in 2021
  - Decrease voluntary turnover among diverse employees year-over-year

Commitment to Diversity, Equity and Inclusion

"During 2020, the murder of George Floyd and other tragic events were harsh reminders that much work needs to be done to address racism and injustice in our society… Throughout the year, we examined and expanded our existing diversity and inclusion initiatives, with a focus on encouraging candid dialogue within our company and creating opportunities for our team and industry to better reflect the diversity of local communities at our sites and at our corporate headquarters in Chicago."

–Mitchell J. Krebs, President & CEO

CEO ACTION FOR DIVERSITY & INCLUSION

- First and only precious metals mining CEO to sign the CEO ACTION for Diversity & Inclusion pledge
- Hosted a Day of Understanding in early 2020 and launching 2021 Day of Understanding events throughout the Company
  - Created platform for open dialogue and meaningful conversations on diversity and inclusion

COEUR HEROES

- Designed to highlight and engage members of the military
- Allows service members to use the special skills developed during their time of service to help make a difference at Coeur's operations
- Provided 72 career opportunities to current and former U.S. Military personnel in 2020

BY THE HAND CLUB FOR KIDS

- Coeur sponsored 'reading playoffs' event for four consecutive years
- Expanding partnership to include: COVID-19 response and staff diversity training
- Hosting "Learn about Geology with Coeur Mining" sessions
  - Students virtually learn from Coeur's geologists about mining as a career and explore their own geology kits

NSBE NATIONAL SOCIETY OF BLACK ENGINEERS

- Partnering with National Society of Black Engineers
- Sponsoring Summer Engineering Experience for Kids program
  - Providing learning opportunities and access to STEM education
- Partnering with NSBE chapters at universities throughout the country for virtual career fairs, summer internships and apprenticeships

Community Relations YTD 2021 Highlights

After completing a community relations assessment and strategic planning effort in 2020 that resulted in a community relations vision, strategic plan and guidance to sites:

- New Community Relations managers have led to strong leads and better resourced teams
- Great progress among sites to hit 2021 milestones (e.g., Risk and Impact Assessment, Stakeholder Engagement Plan, Community Investment Plan)
  - Tracking system in place and milestones are being closely monitored
- Increased Community Relations visibility in Operations meetings
- Summit held in late September to strengthen team, plans, and strategy
- Communications and Grievance Tracking Intelex module tailored and implemented

Benefits of Community Agreements

Coeur's community agreements lay the foundation for strong partnerships and shared benefits between the Company and its community partners

Governance Highlights

Significantly Improved Corporate Governance Profile

Corporate Governance Enhancements Since 2010	2010	2021
Independent Board Chairman	✗	✓
Entire Board of Directors is independent other than CEO	✗	✓
Gender diversity on the Board	✗	✓
Majority voting standard for uncontested Director elections	✗	✓
Proxy access allowing certain stockholders to nominate directors	✗	✓
Robust Board and Committee self-evaluation (including 1:1 discussions with Chairman and third-party participation)	✗	✓
Executive and Director stock ownership guidelines	✗	✓
No excise tax gross-up on executive severance	✗	✓
All incentive awards subject to double-trigger change-in-control vesting	✗	✓
60% of executive equity awards are performance shares and 40% are time-vesting restricted stock	✗	✓
Independent executive compensation consultant to compensation committee	✗	✓
No executive employment agreements other than CEO	✗	✓
No “related person transactions" with Directors or executive officers	✗	✓
Robust executive compensation clawback policy covering officer misconduct	✗	✓

Demonstrating Our Commitment

Governance Practices

- **Board Refreshment and Succession Planning**
  - Two new independent directors added to the Board in February 2018 and four directors – 50% of independent directors – added in last eight years
    - Also added a new independent director in early 2019, who resigned in late 2020 in connection with a new professional position that did not allow outside board service
  - Active Board succession planning and refreshment
- **Robust Board and Committee Evaluations**
  - Annual evaluations promote Board and Board committee effectiveness
  - Chairman's one-on-one meetings with each director promote candor, effectiveness and accountability
- **No Related Party Transactions**
  - No related person transactions with directors or executive officers
- **Board-Level Risk Oversight**
  - The Board and Board committees take an active role in the Company's risk oversight and risk management processes
- **Active Stockholder Engagement**
  - During 2020, Coeur continued its proactive and robust stockholder outreach efforts on governance, executive compensation and other matters, contacting all institutional stockholders of 0.15% or more
- **Clawback Policy**
  - Added officer misconduct to the scope of clawback policy in addition to financial restatement-driven events

Stockholder Rights

- **Annual Election of Directors**
  - All directors are elected annually for one-year terms
- **Majority Voting for Director Elections**
  - Majority voting in uncontested director elections with a resignation policy
- **Stockholder Right to Call Special Meetings**
  - Stockholders owning 20% or more of Coeur's common stock have the right to call a special meeting of the Stockholders
- **No Poison Pill**
  - Coeur does not have a poison pill or similar anti-takeover defenses in place
- **Proxy Access**
  - Proactively adopted proxy access in March 2019, which allows stockholders who have satisfied specified requirements under the Company's Bylaws to include director nominees in the Company's proxy statement and form of proxy (greater of two nominees or 20% Board seats)

Diverse Board Led by Independent Chair

- Eight out of nine Directors are independent (all except CEO); all four main committees comprised of independent directors only
- Two directors elected in February 2018 having skills and experiences that complement other directors
- Balance of newer and longer serving directors; no mandatory retirement age
- Half of independent directors are diverse (gender or ethnicity), contributing to a variety of viewpoints

Skill	
Current and Former Chief Executive	89%
Project Development/Management	78%
Environmental, Social and Governance / Health and Safety	100%
Government Affairs, Regulatory and Legal	89%
Strategy Development and Execution	89%

What We Heard from Stockholders	What We Did
Continue to enhance ESG profile, initiatives and disclosures, including related to climate change	► Published inaugural Responsibility Report during 2020 including SASB and GRI-aligned disclosures and specific, objective ESG goals ► Developed energy and emissions reductions targets for publication in 2021 ► Conducted gap analysis to begin TCFD-aligned reporting in 2021 ► Safety and environmental weighting increased from 15% to 20% for the 2020 AIP ► Further strengthened commitment to Diversity, Equity & Inclusion, including hosting *Day of Understanding* for corporate team in early March 2020; second annual event planned for Spring 2021
Prioritize protection of employees and communities amid COVID-19	► Acted quickly and decisively to protect employees and communities at the onset of the pandemic by implementing measures such as testing, contact tracing, paid employee quarantine periods, and longer rotations with overtime pay at remote operations to minimize fly-in/fly-out cycles ► No COVID-driven layoffs or furloughs; continued to pay full wages and benefits to Mexico employees during temporary government-mandated shut-down of Palmarejo mine (blanket government order not specific to Palmarejo) ► Donated personal protective equipment and other supplies to local communities ► Medical clinic at Palmarejo mine in Mexico remained open and free to the public ► Facilitated transition to remote working for corporate and other professional staff, providing them with IT equipment and other home office supplies; implemented safety protocols, contact tracing technology and testing to allow employees to return to the corporate office on a voluntary basis and in compliance with local rules and laws
Link executive compensation program to driving long-term stockholder value	► Made 100% of the core measures of our performance share program drivers of stockholder value, including growth in reserves and mineralized material and introduction of ROIC metric and metrics tied to critical, long-term projects including the Rochester expansion discussed above; retained relative TSR as a modifier
Emphasis on culture and human capital management	► Reported results of our 2019 culture survey and assessment to management and our Board and took action to address areas of opportunity to improve; planning for next survey in 2021 including questions on how COVID has impacted our culture ► Continued strengthening recruiting and development initiatives despite COVID-related challenges, such as recruiting and onboarding Mr. Routledge as our SVP & Chief Operating Officer and, as part of our commitment to fostering and enhancing diversity, two women in critical leadership positions (General Manager of our Rochester mine and Mexico Country Manager)
Include directors in stockholder engagement calls	► Our independent directors, including our Chairman and the Chairs of our Board committees, are made available to engage directly with stockholders as part of our annual stockholder outreach program

Select Compensation Program Changes in 2020 and 2021

Two new performance share metrics were introduced for the 2020 LTIP award: three-year ROIC and achievement of milestones related to the Rochester and Silvertip expansion projects, which are both strategically critical long-term projects. The 2020 LTIP awards also include shares of restricted stock and performance shares tied to growth in reserves and mineralized material.

The 2021 performance share award similarly will be allocated among each of three-year ROIC, three-year growth in reserves and mineralized material, achievement of POA 11 milestones at Rochester and Silvertip expansion and re-start milestones. 2021 AIP will consist of the same components as 2020 except for the environmental component which will measure both decrease in significant spills and decrease in permit discharge exceedances.

	2020	2021
AIP	▶ Safety and environmental components increased to 20% of total corporate AIP ▶ Environmental component measured decrease in permit discharge exceedances	▶ Environmental component will reward decreases in both permit discharge exceedances and significant spills
LTIP	Performance share award composed of: ▶ 35% - Three-year ROIC ▶ 35% - Three-year growth in reserves and mineralized material ▶ 20% - Achievement of milestones linked to POA 11 expansion ▶ 10% - Achievement of milestones linked to Silvertip restart/expansion *TSR modifier (+/- 25%) for top or bottom quartile TSR performance relative to peers*	▶ Performance share award composed of: ▶ Three-year ROIC ▶ Three-year growth in reserves and mineralized material ▶ Achievement of milestones linked to POA 11 expansion ▶ Achievement of milestones linked to Silvertip restart/expansion *TSR modifier (+/- 25%) for top or bottom quartile TSR performance relative to peers*

Risk Oversight

The Board is responsible for overseeing management's mitigation of major risks facing Coeur, including, but not limited to:

Management succession planning	Strategic asset portfolio optimization
Major project execution	Health, safety, environmental and social responsibility risks (including climate change)
Cybersecurity	Commodity price volatility
Public policy and regulatory changes	Balance sheet management and access to capital

In addition, the Board has delegated oversight of certain categories of risk to the Audit Committee, the Environmental, Health, Safety and Corporate Responsibility Committee, the Compensation and Leadership Development Committee and the Nominating and Corporate Governance Committee

Overview of Operations

Palmarejo

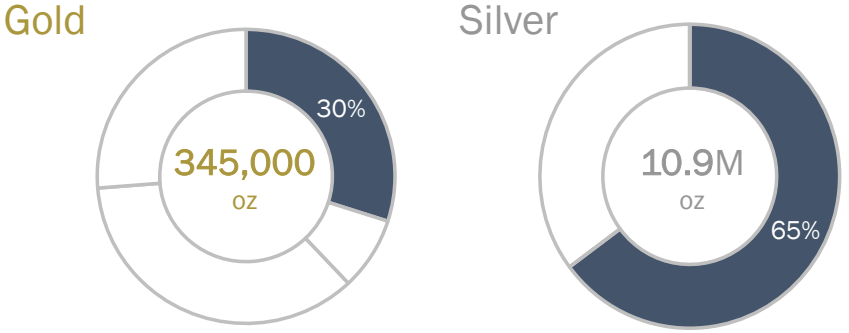

The Palmarejo gold-silver complex is located in the state of Chihuahua, Mexico, consisting of a legacy open pit mine, current underground mining and processing operations as well as several other deposits and exploration targets

Asset Overview

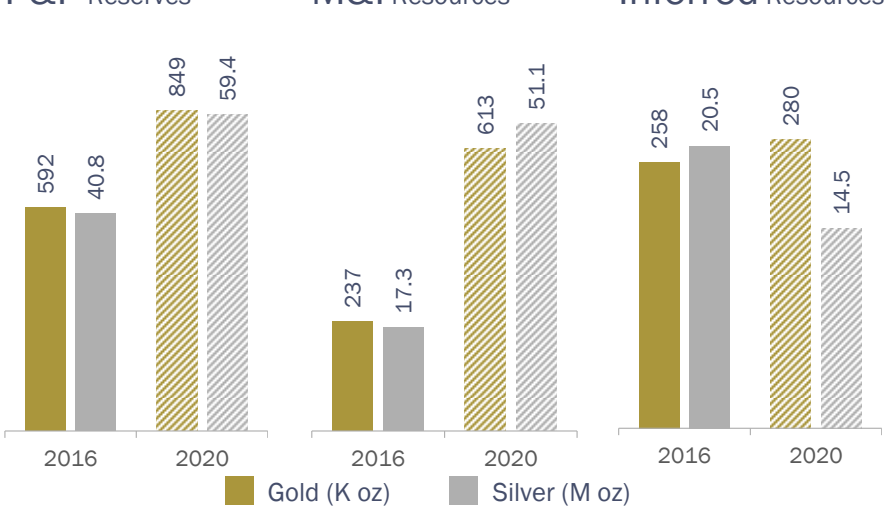

Ownership	100%
Employees[1]	850
Claims	67,296 net acres
Type	Underground
Processing	Crushing, grinding, flotation, CIL, Merrill-Crowe precipitation, refining
Metals	Silver and gold doré
Mine life	~8 years

Notes to 2020 mineral reserves and resources:

(1) Effective December 31, 2020.

(2) Assumed metal prices for Mineral Reserves were $17.00 per ounce of silver, $1,400 per ounce of gold, $1.15 per pound zinc, $0.95 per pound lead.

(3) Assumed metal prices for estimated Mineral Resources were $20.00 per ounce of silver, $1,600 per ounce of gold, $1.30 per pound zinc, $1.00 per pound lead, except Lincoln Hill and Wilco at $1,350 per ounce gold and $22.00 per ounce silver, and La Preciosa at $1,500 per ounce gold and $20.00 per ounce silver.

(4) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized. The preliminary economic assessment for the re-scoped mine plan at Kensington is preliminary in nature and includes Inferred Mineral Resources, and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves and there is no certainty that the results from the preliminary economic assessment will be realized.

(5) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.

(6) Excludes the impact of the gold stream agreement at Palmarejo.

(7) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.

Figures exclude mining properties previously divested by Coeur.

Notes to 2016 mineral reserves and resources:

(1) Effective December 31, 2016.

(2) Assumed metal prices for Mineral Reserves were $17.50 per ounce of silver and $1,250 per ounce of gold.

(3) Assumed metal prices for estimated Mineral Resources were $19.00 per ounce of silver and $1,275 per ounce of gold.

(4) Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized.

(5) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.

(6) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.

(1) Mr. Krebs also a member of the Board of Directors.

Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. During his twenty-year tenure with Coeur, Mr. Krebs has led nearly $2 billion in capital raising and debt restructuring activities and has facilitated over $2 billion of acquisitions and divestitures. Mr. Krebs was previously Coeur's Chief Financial Officer and held various positions in the corporate development department, including Senior Vice President of Corporate Development. Mr. Krebs is a Director of Kansas City Southern and the National Mining Association, is on the Board of World Business Chicago, and was formerly President of the Silver Institute.

Thomas S. Whelan – Senior Vice President and Chief Financial Officer. Prior to joining Coeur, Mr. Whelan served as CFO of Arizona Mining Inc. from September 2017 to August 2018, when the company was acquired from South32 Limited. Previously, Mr. Whelan served as CFO for Nevsun Resources Ltd. from January 2014 to August 2017. He is a chartered professional accountant and was previously a partner with the international accounting firm Ernst & Young ("EY") LLP where he was the EY Global Mining & Metals Assurance sector leader, the leader of the EY Assurance practice in Vancouver and previously EY's Canadian Mining & Metals sector leader. Mr. Whelan graduated with a Bachelor of Commerce from Queen's University.

Michael "Mick" Routledge – Senior Vice President and Chief Operating Officer. Mr. Routledge has over 20 years' experience with Rio Tinto in various roles beginning in 1987, including as the Chief Operating Officer (2011-2012) and Vice President HSE, Projects & Operational Value (2012-2014) of the Kennecott Utah Copper mine and served as the Chief Operating Officer of Asahi Refining from 2015 to 2017. As the Senior Director of Operational Excellence at Anagold Madencilik from 2017 to 2020, Mr. Routledge designed and implemented an operational excellence program for the Copler District in Turkey. Most recently, Mr. Routledge served as the Vice President of Major Projects and Studies of Alacer Gold Corp. since February 2020. Mr. Routledge currently chairs the Health & Safety Division Executive Committee for the Society for Mining, Metallurgy & Exploration board. He received an undergraduate degree from the University of Sunderland, England in Electrical and Control Engineering and received his MBA with a focus on business and strategic transformation from Henley Management College in England.

Casey M. Nault – Senior Vice President, General Counsel, and Secretary. Mr. Nault has over 20 years of experience as a corporate and securities lawyer, including prior in-house positions with Starbucks Corporation and Washington Mutual, Inc. and law firm experience with Gibson, Dunn & Crutcher. His experience includes securities compliance and SEC reporting, corporate governance and compliance, mergers and acquisitions, public and private securities offerings, other strategic transactions, general regulatory compliance, cross-border issues, land use and environmental issues, and overseeing complex litigation.

Hans J. Rasmussen – Senior Vice President, Exploration. Mr. Rasmussen has 30 years of experience in the mining business, 16 years of which were with senior producers Newmont Mining and Kennecott/Rio Tinto; as well as serving as a consultant for senior producers such as BHP, Teck-Cominco, and Quadra Mining. From 2004 to 2013, he was an officer or served on the Board of Directors of several junior public exploration companies with gold and silver projects in Quebec, Nevada, Argentina, Chile, Colombia, Peru, and Bolivia, including serving on the Board of Directors of Atex Resources Inc. (formerly known as Columbia Crest Gold Corp.) since 2006.

Emilie C. Schouten – Senior Vice President, Human Resources. Ms. Schouten has 15 years of experience in Human Resources, starting her career in General Electric, where she graduated from GE's Human Resources Leadership Program. After 6 years as an HR Manager with GE, her division was acquired by the world's largest electrical distribution company, Rexel, and Ms. Schouten went on to become the Director of Training and Development. Ms. Schouten has her B.A. in Sociology from Michigan State University and her M.S. in Industrial Labor Relations from University of Wisconsin-Madison.

Board of Directors

Robert E. Mellor – Independent Chairman of the board of Monro, Inc. (auto service provider) since June 2017, and appointed Interim Chief Executive Officer from August 2020 to April 2021. Previously Mr. Mellor was lead independent director from April 2011 to June 2017 and a member of the board of directors since August 2010; Former Chairman, Chief Executive Officer and President of Building Materials Holding Corporation (distribution, manufacturing and sales of building materials and component products) from 1997 to January 2010, director from 1991 to January 2010; former member of the board of directors of CalAtlantic Group, Inc. (national residential home builder) from October 2015 to February 2018, when CalAtlantic was acquired by Lennar Corporation; former member of the board of directors of the Ryland Group (national home builder, merged with another builder to form CalAtlantic) from 1999 to October 2015; and former member of the board of directors of Stock Building Supply Holdings, Inc. (lumber and building materials distributor) from March 2010 until December 2015 when it merged with another company. He was recently named a 2020 National Association of Corporate Directors Directorship 100 honoree.

Mitchell J. Krebs – President and Chief Executive Officer. See prior slide.

Linda L. Adamany – Member of the board of directors of Jefferies Financial Group (formerly known as Leucadia National Corporation), a diversified holding company engaged in a variety of businesses, since March 2014, and a member of the board of directors of Jefferies Group LLC and Jefferies International Limited, wholly-owned subsidiaries of Jefferies Financial Group Inc., since November 2018 and March 2021, respectively; non-executive director of BlackRock Institutional Trust Company since March 2018; non-executive director of the Wood plc from October 2017 to May 2019; non-executive director of Amec Foster Wheeler plc, an engineering, project management, and consultancy company, from October 2012 until the Company was acquired by Wood plc in October 2017; member of the board of directors of National Grid plc, an electricity and gas generation, transmission, and distribution company, from November 2006 to November 2012. Served at BP plc in several capacities from July 1980 until her retirement in August 2007, most recently from April 2005 to August 2007 as a member of the five-person Refining & Marketing Executive Committee responsible for overseeing the day-to-day operations and human resource management of BP plc's Refining & Marketing segment, a $45 billion business at the time. She was recently selected as one of Women Inc. Magazine's 2018 Most Influential Corporate Directors.

Sebastian Edwards – Henry Ford II Professor of International Business Economics at the Anderson Graduate School of Management at the University of California, Los Angeles (UCLA) from 1996 to present; Co-Director of the National Bureau of Economic Research's Africa Project from 2009 to present; taught at IAE Universidad Austral in Argentina and at the Kiel Institute from 2000 to 2004; Chief Economist for Latin America at the World Bank Group from 1993 to 1996. Currently a Member of the Board of Moneda Asset Management, an investment management firm in Chile, and Centro de Estudios Públicos, Chile.

Randolph E. Gress – Retired Chairman (November 2006 until January 2016 and director from August 2004 until January 2016) and Chief Executive Officer (from 2004 until December 2015) of Innophos Holdings, Inc., a leading international producer of performance-critical and nutritional specialty ingredients for the food, beverage, dietary supplements, pharmaceutical, and industrial end markets. Mr. Gress was with Innophos since its formation in 2004, when Bain Capital purchased Rhodia SA's North American specialty phosphate business. Prior to his time at Innophos, Mr. Gress was with Rhodia since 1997 and held various positions including Global President of Specialty Phosphates (with two years based in the U.K.) and Vice-President and General Manager of the NA Sulfuric Acid and Regeneration businesses. From 1982 to 1997, Mr. Gress served in various roles at FMC Corporation including Corporate Strategy and various manufacturing, marketing, and supply chain positions.

Eduardo Luna – Chairman of the Board of Rochester Resources Ltd., Mr. Luna has spent over forty years in the precious metals mining industry and has held prior senior executive and board positions at several companies including Industrial Peñoles, Goldcorp Inc., Luismin SA de CV, Wheaton River Minerals Ltd., Alamos Gold Inc., Dyna Resource, Inc. and Primero Mining Corp. He is currently the Chairman of the board of directors of Rochester Resources Ltd., a junior natural resources company with assets in Mexico. He is also a member of the Board of Directors of Wheaton Precious Metals Corp. Mr. Luna is the former President of the Mexican Mining Chamber and a former President of the Silver Institute. He was recently inducted into the Mexico Mining Hall of Fame and serves as Chairman of the Advisory Board of the Faculty of Mines at the University of Guanajuato where he received a degree in Mining Engineering.

Board of Directors (cont.)

Jessica L. McDonald – Ms. McDonald has extensive leadership experience in both the public and private sectors and currently serves as a member of the Board of Directors of Hydro One Limited. She served as the President and Chief Executive Officer of BC Hydro and Power Authority, a clean energy utility with over $5.5 billion in annual revenues and more than 5,000 employees, from May 2014 to July 2017. She was the Chair of Canada Post Corporation from December 2017 to July 2020 and was interim President and Chief Executive Officer from April 2018 until March 2019. From October 2017 to March 2020, she was a member of the Board of Directors of Trevali Mining Corporation and served as Chair from March 2019 to March 2020. Since 1991, Ms. McDonald has held many senior positions in the British Columbia provincial government, including Deputy Minister to the Premier, Cabinet Secretary and Head of the BC Public Service. She has been selected as a Mentor at the Trudeau Foundation and named to Canada's Top 100 Most Powerful Women Hall of Fame. She also recently became a visiting fellow at Stanford University's Center for Energy Policy and Finance and was recently appointed to the Member Council of Sustainable Development Technology Canada.

John H. Robinson – Chairman of Hamilton Ventures LLC since founding the firm in 2006. Chief Executive Officer of Nowa Technology, Inc. (development and marketing of environmentally sustainable wastewater treatment technology) from 2013 to 2014. Chairman of EPC Global, Ltd. (engineering staffing company) from 2003 to 2004. Executive Director of Amey plc (British business process outsourcing company) from 2000 to 2002. Vice Chairman of Black & Veatch Inc. (engineering and construction) from 1998 to 2000. Mr. Robinson began his career at Black & Veatch and was Managing Partner prior to becoming Vice Chairman. He is a member of the Board of Directors of Alliance Resource Partners, L.P. (coal mining) and Olsson Associates (engineering consulting). He was a member of the Board of Directors of Federal Home Loan Bank of Des Moines (financial Services) from 2007 to 2019.

J. Kenneth Thompson – Chairman of Pioneer Natural Resources Company (oil and gas) and member of the board of directors of Alaska Air Group, Inc. (parent company of Alaska Airlines, Virgin America Airlines and Horizon Air), presiding (Lead) Director of Tetra Tech, Inc. (engineering consulting). President and Chief Executive Officer of Pacific Star Energy LLC (private energy investment firm in Alaska) from September 2000 to present, with a principal holding in Alaska Venture Capital Group LLC (private oil and gas exploration company) from December 2004 to present; Executive Vice President of ARCO's Asia Pacific oil and gas operating companies in Alaska, California, Indonesia, China, and Singapore from 1998 to 2000.
