3Q 2021 Investor Update

October 2021

Forward Looking Statements & Non-GAAP

Forward Looking Statements:

This presentation contains estimates, predictions, opinions, projections and other "forward-looking statements" as that phrase is defined in the Private Securities Litigation Reform Act of 1995. Such statements include, without limitation, references to the Company's predictions or expectations of future business or financial performance as well as its goals and objectives for future operations, financial and business trends, business prospects, and management's outlook or expectations for earnings, revenues, expenses, capital levels, liquidity levels, asset quality or other future financial or business performance, strategies or expectations. The words "believe," "expect," "anticipate," "plan," "estimate," "target," "project" and similar expressions, among others, generally identify forward-looking statements. Such forward-looking statements are based on various assumptions (some of which may be beyond the Company's control) and are subject to significant risks and uncertainties (which change over time) and other factors, including our pending acquisition of Bryn Mawr Bank Corporation and the uncertain effects of the COVID-19 pandemic and actions taken in response thereto on our business, results of operations, capital and liquidity, which could cause actual results to differ materially from those currently anticipated. Such risks and uncertainties are discussed in detail in the Company's Form 10-K for the year ended December 31, 2020, Form 10-Q for the quarter ended March 31, 2021, Form 10-Q for the quarter ended June 30, 2021 and other documents filed by the Company with the Securities and Exchange Commission from time to time.

We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date on which they are made, and the Company disclaims any duty to revise or update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company for any reason, except as specifically required by law. As used in this presentation, the terms "WSFS", "the Company", "registrant", "we", "us", and "our" mean WSFS Financial Corporation and its subsidiaries, on a consolidated basis, unless the context indicates otherwise.

Non-GAAP Financial Measures:

This presentation contains financial measures determined by methods other than in accordance with accounting principles generally accepted in the United States ("GAAP"). These non-GAAP measures include core earnings per share ("EPS"), core net income, core return on equity ("ROE"), core efficiency ratio, pre-provision net revenue ("PPNR"), core PPNR, PPNR to average assets ratio, core PPNR to average assets ratio, core return on assets ("ROA"), core net interest income, core net interest margin ("NIM"), return on tangible common equity ("ROTCE"), core ROTCE, core fee revenue and core fee revenue as a percentage of total core net revenue. The Company's management believes that these non-GAAP measures provide a greater understanding of ongoing operations, enhance comparability of results of operations with prior periods and show the effects of significant gains and charges in the periods presented. The Company's management believes that investors may use these non-GAAP measures to analyze the Company's financial performance without the impact of unusual items or events that may obscure trends in the Company's underlying performance. This non-GAAP data should be considered in addition to results prepared in accordance with GAAP, and is not a substitute for, or superior to, GAAP results. For a reconciliation of these non-GAAP measures to their comparable GAAP measures, see the Appendix.

- Commercial run-off portfolios acquired from Beneficial Bancorp Inc. are down to \$36 million; remaining run-off portfolio is primarily residential mortgage
- PPP loans decreased \$156 million from 2Q 2021 due to forgiveness
- Customer funding levels remain elevated and increased \$64 million during 3Q 2021 primarily due to seasonal municipal deposits

Excess Liquidity Impact and Management

Commercial Portfolio: Net New Loan Originations (\$mm)¹

Excess liquidity impacted by loan growth and investment expansion

Commercial Portfolio Highlights

- New Commercial loan originations of ~\$400 million, offset by near record-level payoffs
- New loan originations nearing pre-COVID levels

Investment Portfolio Highlights

- Optimizing excess liquidity, shifting cash to securities and reducing wholesale borrowings
 - 77% YoY investment portfolio increase
 - 85% YoY wholesale borrowings decrease
- Consistent with our existing Investment portfolio strategy, purchasing high-quality US Agency mortgage-backed securities
 - Portfolio Average Life constant at 5.5 years

Investment Expansion (\$mm)

¹ Includes new loans, existing new funding, Commercial runoff portfolio, paydowns, and payoffs. Excludes reclasses, purchase accounting mark/unearned changes, PPP loans, or Commercial leases

Net Interest Margin Trends

NIM impacted by significant customer liquidity, lower PAA, PPP, balance sheet mix, and low funding costs

¹ Negative 8 bps impact related to PPP in 3Q 2020 as forgiveness of PPP loans and accelerated fee accretion started in 4Q 2020

² Includes non-interest and interest-bearing; interest-bearing deposits include demand, money market, savings, and customer time deposits

³ Average total loans yield excludes PAA and PPP

⁴ Excess Liquidity includes Cash in excess of \$50 million and expansion of the Investment Portfolio

Core Fee Revenue¹ Trends

Diversified business model drives Core Fee Revenue strength

- Well-diversified with over 20 discrete lines of business and products within our three core segments: Banking, Wealth, and Cash Connect®
 - Provides earnings stability through interest rate and credit cycles, and economic environments
- Excluding PPP, 3Q 2021 increased \$0.1 million, or 0.2%, compared to 2Q 2021
 - 3Q 2021 decreased \$2.3 million, or 5.0%, compared to 3Q 2020, ex PPP
- Year-over-year, Mortgage is lower mainly due to the interest rate environment and impact on the refinance market

¹ This is a non-GAAP financial measure and should be considered along with results prepared in accordance with GAAP, and not as a substitute for GAAP results. See Appendix for reconciliation to GAAP financial information.

² Core Fee (non-interest) revenue / core net revenue. This is a non-GAAP financial measure; see Appendix for reconciliation to GAAP financial information.

³ Core Fee (non-interest) revenue / core net revenue excluding PPP net interest income and fee revenue. This is a non-GAAP financial measure; see Appendix for reconciliation to GAAP financial information.

⁴ Banking includes deposit service charges, SBA loan sales, loan and lease fees, credit and debit revenue, and other banking related fees

3Q 2021 ACL Commentary

- Coverage ratio of **1.30%** excluding PPP loans and **1.58%** including estimated remaining credit mark on the acquired loan portfolio
- ACL declined \$27.5 million** in 3Q 2021 driven by:
 - Continued favorability in the economic forecast and net migration
 - Overall stable to improving credit trends
 - Core loan growth offset by purposeful portfolio run-off

Full Year 2021 Core Outlook *as of July 22, 2021*

*Full year core PPNR outlook range of 1.50% to 1.60%;
Outlook assumes a gradual and uneven economic recovery;
Excludes BMT merger impact, expected to be immaterial to full year 2021 core performance ratios*

	Original	Update	Commentary
Loan Growth	Mid single digits	Low single digits	Ongoing excess Customer liquidity driving lower loan demand; Continued pricing and structure discipline
Deposit Growth	Mid single digit core deposits <u>excluding</u> excess liquidity offset by purposeful CD reduction	Mid to high single digit core deposits <u>including</u> excess liquidity offset by purposeful CD reduction	Higher Customer liquidity expected to remain through year-end; CD run-off of ~\$110 million vs original outlook of \$150 million
Net Interest Margin	3.65% - 3.80%	3.20% -3.30%	~35 bps of additional negative impact from excess liquidity (~45-50 bps in total); ~5-10 bps lower loan and investment yields from portfolio turnover; ~5 bps lower PPP and purchase accretion impact due to larger balance sheet
Fee Income Growth¹	Mid single digit growth excluding Durbin and Mortgage; flat including Durbin & Mortgage	High single to low double digits excluding Durbin & Mortgage; low single digits with Durbin & Mortgage	Trust and Wealth growth nearly 10% greater than original outlook; Additional growth from PPP Round Two and most other business lines; Durbin impact and Mortgage revenue consistent with original outlook
Provision	\$20-\$25 million	~(\$90-100) million	Modest reserve release dependent on continued improvement in credit performance and economic outlook offset by loan growth
Efficiency Ratio¹	Low 60% ^s	Low 60% ^s	Lower net interest income offset by higher fee income and lower expenses
Tax Rate	Approximately 24%	Approximately 24-25%	Higher net income increases effective tax rate

¹The Company is not able to reconcile the forward-looking non-GAAP estimates set forth above to their most directly comparable GAAP estimates without unreasonable efforts because it is unable to predict, forecast or determine the probable significance of the items impacting these estimates with a reasonable degree of accuracy
