About Coya Therapeutics, Inc.

Headquartered in Houston, TX, Coya Therapeutics (TM) is a clinical-stage biotechnology company developing first-in-class and best-in-class approaches utilizing adoptive regulatory T cells (Tregs) to target disease. The company’s CTreg (TM) (Cryopreservation for Tregs) system is patent pending and the first in the industry to overcome prior limitations of Treg cell therapies, allowing for serial infusions from a single manufacturing round. Through our proprietary TAI™ (Tregs Against Inflammation™) and patent pending iscEXO (TM) (immunosuppressive cell Exosome) platforms, Coya is focused on the advancement of disease modifying approaches to address the significant unmet medical needs of patients with ALS, Frontotemporal Dementia, Parkinson’s, Alzheimer’s, and autoimmune diseases.
