

Rockwell Medical's Partner Drogosan Pharmaceuticals Submits Marketing Authorization Application in Turkey for Triferic AVNU

4/27/2023

Turkish Medicines and Medical Devices Agency assigns priority review status for Drogosan's Marketing Authorization application and high priority status for Drogosan's GMP application for Triferic AVNU

WIXOM, Mich.--(BUSINESS WIRE)-- Rockwell Medical, Inc. (the "Company") (Nasdaq: RMTI), a healthcare company that develops, manufactures, commercializes, and distributes a portfolio of hemodialysis products to dialysis providers worldwide, today announced that its international partner, Drogosan Pharmaceuticals, submitted a Marketing Authorization application and GMP application for Triferic® AVNU to the Turkish Medicines and Medical Devices Agency ("TMMDA"), for which Drogosan received priority status and high priority status, respectively.

Triferic AVNU (ferric pyrophosphate citrate injection) is an iron replacement product indicated to maintain hemoglobin in adult patients undergoing hemodialysis. In June 2021, Rockwell entered into license and supply agreements with Drogosan, one of the leading pharmaceutical companies in Turkey, for the rights to commercialize Triferic (dialysate) and Triferic AVNU in Turkey. Under the terms of the agreements, Drogosan will be the exclusive commercialization partner for Triferic (dialysate) and Triferic AVNU in Turkey. In consideration for the license, Rockwell received an upfront payment and will be eligible for milestone payment and royalties on net sales. Drogosan will be responsible for all regulatory approval and commercialization activities, and the Company will supply the product to Drogosan for Turkey.

"Rockwell's international partnerships have the potential to generate near- and long-term revenue for Rockwell. We continue to work diligently with our international partners to bring Triferic to market in their respective territories.

We are excited that Drogosan is making great strides in its plan to register and commercialize Triferic AVNU in Turkey," said **Mark Strobeck, Ph.D.**, Rockwell Medical's President and CEO. "Taking into consideration that Drogosan was granted an accelerated review for Triferic AVNU with the Turkish regulatory authority, we anticipate approval for Triferic AVNU in 2024."

About Rockwell Medical

Rockwell Medical, Inc. (Nasdaq: RMTI) is a healthcare company that develops, manufactures, commercializes, and distributes a portfolio of hemodialysis products for dialysis providers worldwide. Rockwell Medical's mission is to provide dialysis clinics and the patients they serve with the highest quality products supported by the best customer service in the industry. Rockwell is focused on innovative, long-term growth strategies that enhance its products, its processes, and its people, enabling the Company to deliver exceptional value to the healthcare system and provide a positive impact on the lives of hemodialysis patients. Hemodialysis is the most common form of end-stage kidney disease treatment and is usually performed at freestanding outpatient dialysis centers, at hospital-based outpatient centers, at skilled nursing facilities, or in a patient's home. Rockwell Medical's products are vital to vulnerable patients with end-stage kidney disease, and the Company is relentless in providing unmatched reliability and customer service. Rockwell Medical is the second largest supplier of acid and bicarbonate concentrates for dialysis patients in the United States and has the vision of becoming the leading global supplier of hemodialysis concentrates. Certified as a Great Place to Work® in 2023, Rockwell Medical is Driven to Deliver Life-Sustaining Dialysis Solutions™. For more information, visit www.RockwellMed.com.

Forward-Looking Statements

Certain statements in this press release may constitute "forward-looking statements" within the meaning of the federal securities laws. Words such as, "may," "might," "will," "should," "believe," "expect," "anticipate," "estimate," "continue," "could," "can," "would," "develop," "plan," "potential," "predict," "forecast," "project," "intend," "look forward to," "remain confident," "are determined," "are on track," "are resolute in our vision," "work to," "drive towards," or the negative of these terms, and similar expressions, or statements regarding intent, belief, or current expectations, are forward looking statements. There can be no assurance that Rockwell's international partnerships will generate near- and long-term revenue for Rockwell; that Triferic will be brought to market in territories where Rockwell has partnerships; or that Triferic AVNU will be approved in Turkey in 2024 or at all. While Rockwell Medical believes these forward-looking statements are reasonable, undue reliance should not be placed on any such forward-looking statements, which are based on information available to us on the date of this release. These forward-looking statements are based upon current estimates and assumptions and are subject to various risks and uncertainties (including, without limitation, those set forth in Rockwell Medical's SEC filings), many of which are beyond our control and subject to change. Actual results could be materially different. Risks and uncertainties

include, but are not limited to those risks more fully discussed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2022, as such description may be amended or updated in any future reports we file with the SEC. Rockwell Medical expressly disclaims any obligation to update our forward-looking statements, except as may be required by law.
