Forward-Looking Statements and Non-GAAP Measures

Certain statements in this presentation may constitute "forward-looking statements" within the meaning of federal securities laws, including, but not limited to, Rockwell's expectations regarding revenue, profitability, financial position, 2024, 2025 and 2026 guidance, future net sales, reliance on capital investments, ability to grow, industry leadership position, total addressable estimated CAGR, reduction of debt, and continued growth. Words such as "may," "might," "will," "should," "believe," "expect," "anticipate," "estimate," "continue," "can," "could," "would," "develop," "plan," "potential," "predict," "forecast," "project," "plan," "intend," "positioned to," "guidance," "vision," "strategy," or the negatives of these terms, and similar expressions, or statements regarding intent, belief, or current expectations, are forward-looking statements. While Rockwell Medical believes these forward-looking statements are reasonable, undue reliance should not be placed on any such forward-looking statements, which are based on information available to us on the date of this presentation. These forward-looking statements are based upon current estimates and assumptions and are subject to various risks and uncertainties (including, without limitation, those set forth in Rockwell Medical's SEC filings), many of which are beyond our control and subject to change. Actual results could be materially different. Risks and uncertainties include: the risk that we do not become profitable or achieve net sales, gross profit, gross margin or adjusted EBITDA guidance targets; the risk that we are unable to reduce our reliance on capital markets; the risk that we are unable to achieve our corporate goals and projected milestones, including that we achieve $100+ million annual net sales and sustain profitability, geographic expansion, commercial partnerships and new product opportunities; the risk that we are not able to become the leading global supplier of all hemodialysis products; the risk that market opportunities are smaller than estimated, including the estimated CAGR; the impact of any further increases in raw material, labor, fuel or other input costs, particularly if we are unable to pass these cost increases along to our customers; the risk that we are unable to obtain additional financing and raise capital as necessary to fund operations or pursue business opportunities; expected financial performance for 2024 and beyond, including cash flows, revenue, profitability, growth, margins, funding, liquidity and capital resources; and those risks more fully discussed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2023, as such description may be amended or updated in any subsequent reports we file with the SEC. Rockwell Medical expressly disclaims any obligation to update our forward-looking statements, except as may be required by law.

This presentation includes certain non-GAAP financial measures. Please see the section entitled "Reconciliation to GAAP Financial measures" in the Appendix for an explanation of management's use of these measures and reconciliations to the most directly comparable GAAP financial measures. These non-GAAP financial measures should be considered in addition to, and not a substitute for, or superior to, net income or other financial measures calculated in accordance with GAAP. Non-GAAP financial measures used by us may be calculated differently from, and therefore may not be comparable to, non-GAAP measures used by other companies.

All data as of June 30, 2024 unless otherwise noted.

Corporate Strategy

- Be *the* Global Leader in Hemodialysis Concentrates
- Provide Customers with the Highest Quality and Most Reliable Products and Services
- Achieve $100M+ Annual Net Sales and Sustain Profitability
- Focus on Innovative, Long-Term Growth Opportunities

Only Two Major Manufacturers and Suppliers of Concentrates

Hemodialysis is a Necessity for End Stage Renal Disease Patients

- Approximately 475,000 patients in the U.S. require in-center hemodialysis annually[(a)].
- Each patient receives approximately 3 treatments per week, totaling ~150 in-clinic procedures per patient per year.
- Each patient requires 3.3 gallons of concentrate per treatment.

Rockwell is an Indispensable Player

- One of two manufacturers and suppliers that has scalability and transportation infrastructure to service the more than 12,000 individual purchasing facilities (including outpatient dialysis clinics and hospitals) in the U.S. and select international markets.
- Largest supplier of liquid bicarbonate hemodialysis concentrates in the U.S.
- Second largest supplier of acid and dry bicarbonate concentrates in the U.S.
- Vision to become the leading global supplier of all hemodialysis concentrates.

Growth Opportunities and Potential Additional Revenue Streams

Key Drivers

Geographic Expansion

Increase market share throughout the U.S. and internationally. Rockwell continues to secure commercial partnerships and seeks additional growth opportunities globally.

Market Consolidation

Several small, regional hemodialysis concentrates manufacturers. Opportunity for consolidation and modernization.

At Home Treatments

At home dialysis and transition care markets have potential to address up to 80% of dialysis TAM. Rockwell believes it is well-positioned to address this expanding market.

Complementary Products

Leverage domain expertise in manufacturing and distribution to expand product portfolio by developing and/or in-licensing products including single-use concentrates and new products.

Reconciliation to GAAP Financial Measures

Non-GAAP Financial Measures

To supplement the Company's financial results presented on a U.S. generally accepted accounting principles ("GAAP") basis, the Company has included information about non-GAAP measures of EBITDA and adjusted EBITDA as useful operating metrics. The Company believes that the presentation of these non-GAAP financial measures, when viewed with results under GAAP and the accompanying reconciliation, provides supplementary information to analysts, investors, lenders, and the Company's management in assessing the Company's performance and results from period to period. The Company uses these non-GAAP measures internally to understand, manage and evaluate the Company's performance. These non-GAAP financial measures should be considered in addition to, and not a substitute for, or superior to, net income or other financial measures calculated in accordance with GAAP. Non-GAAP financial measures used by us may be calculated differently from, and therefore may not be comparable to, non-GAAP measures used by other companies.

	Three Months Ended June 30		Six Months Ended June 30	
(In Thousands)	2024	2023	2024	2023
