CAUTIONARY STATEMENT

FORWARD-LOOKING STATEMENTS

This presentation contains “forward-looking information” and “forward-looking statements” within the meaning of applicable Canadian securities laws and the United States Private Securities Litigation Reform Act of 1995, respectively, which may include, but are not limited to, statements with respect to future events or future performance, including expectations and assumptions for future performance, production, development, or expansion of, and mine life estimates relating to, projects where Franco-Nevada holds a royalty, stream or other interest as well as the timing thereof, management’s expectations regarding Franco-Nevada’s growth, results of operations, estimated future revenues, performance guidance, carrying value of assets, future dividends and requirements for additional capital, mineral resources and mineral reserves estimates, production estimates, production costs and revenue, future demand for and prices of commodities, expected mining sequences, business prospects and opportunities, the performance and plans of third party operators, any ongoing or future audits being conducted by the Canada Revenue Agency (the “CRA”), the expected exposure for current and future tax assessments and available remedies, and statements with respect to the future status and any potential restart of the Cobre Panamá mine and related arbitration proceedings. In addition, statements relating to mineral resources and mineral reserves, gold equivalent ounces (“GEOs”) or mine lives are forward-looking statements, as they involve implied assessment, based on certain estimates and assumptions, and no assurance can be given that the estimates and assumptions are accurate and that such mineral resources and mineral reserves, GEOs or mine lives will be realized. Such forward-looking statements reflect management’s current beliefs and are based on information currently available to management. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budgets”, “potential for”, “scheduled”, “estimates”, “forecasts”, “predicts”, “projects”, “intends”, “targets”, “aims”, “anticipates” or “believes” or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions “may”, “could”, “should”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of Franco-Nevada to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. A number of factors could cause actual events or results to differ materially from any forward-looking statement, including, without limitation: fluctuations in the prices of the primary commodities that drive royalty and stream revenue (gold, platinum group metals, copper, nickel, silver, iron-ore and oil and gas); fluctuations in the value of the Canadian and Australian dollar, Brazilian real, Mexican peso and any other currency in which revenue is generated, relative to the U.S. dollar; changes in national and local government legislation, including permitting and licensing regimes and taxation policies and the enforcement thereof; proposed tariff and other trade measures that may be imposed by the United States and proposed retaliatory measures that may be adopted by its trading partners; the adoption and implementation of a global minimum tax on corporations; regulatory, political or economic developments in any of the countries where properties in which Franco-Nevada holds a royalty, stream or other interest are located or through which they are held; risks related to the operators of the properties in which Franco-Nevada holds a royalty, stream or other interest, including changes in the ownership and control of such operators; relinquishment or sale of mineral properties; influence of macroeconomic developments; business opportunities that become available to, or are pursued by Franco-Nevada; reduced access to debt and equity capital; litigation; title, permit or license disputes related to interests on any of the properties in which Franco-Nevada holds a royalty, stream or other interest; whether or not the Company is determined to have “passive foreign investment company” (“PFIC”) status as defined in Section 1297 of the United States Internal Revenue Code of 1986, as amended; potential changes in Canadian tax treatment of offshore streams; excessive cost escalation as well as development, permitting, infrastructure, operating or technical difficulties on any of the properties in which Franco-Nevada holds a royalty, stream or other interest; access to sufficient pipeline capacity; actual mineral content may differ from the mineral resources and mineral reserves contained in technical reports; rate and timing of production differences from mineral resource estimates, other technical reports and mine plans; risks and hazards associated with the business of development and mining on any of the properties in which Franco-Nevada holds a royalty, stream or other interest, including, but not limited to unusual or unexpected geological and metallurgical conditions, slope failures or cave-ins, sinkholes, flooding and other natural disasters, terrorism, civil unrest or an outbreak of contagious disease; the impact of future pandemics; and the integration of acquired assets. The forward-looking statements contained herein are based upon assumptions management believes to be reasonable, including, without limitation: the ongoing operation of the properties in which Franco-Nevada holds a royalty, stream or other interest by the owners or operators of such properties in a manner consistent with past practice; the accuracy of public statements and disclosures made by the owners or operators of such underlying properties; no material adverse change in the market price of the commodities that underlie the asset portfolio; the Company’s ongoing income and assets relating to determination of its PFIC status; no material changes to existing tax treatment; the expected application of tax laws and regulations by taxation authorities; the expected assessment and outcome of any audit by any taxation authority; no adverse development in respect of any significant property in which Franco-Nevada holds a royalty, stream or other interest; the accuracy of publicly disclosed expectations for the development of underlying properties that are not yet in production; integration of acquired assets; and the absence of any other factors that could cause actions, events or results to differ from those anticipated, estimated or intended. However, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Investors are cautioned that forward-looking statements are not guarantees of future performance. In addition, there can be no assurance as to (i) the outcome of any ongoing or future audits by the CRA or the Company’s exposure as a result thereof, or (ii) the future status and any potential restart of the Cobre Panamá mine or the outcome of any related arbitration proceedings. Franco-Nevada cannot assure investors that actual results will be consistent with these forward-looking statements. Accordingly, investors should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.

For additional information with respect to risks, uncertainties and assumptions, please refer to Franco-Nevada’s most recent Annual Information Form as well as Franco-Nevada’s most recent Management’s Discussion and Analysis filed with the Canadian securities regulatory authorities on www.sedarplus.com and Franco-Nevada’s most recent Annual Report filed on Form 40-F filed with the SEC on www.sec.gov. The forward-looking statements herein are made as of the date hereof only and Franco-Nevada does not assume any obligation to update or revise them to reflect new information, estimates or opinions, future events or results or otherwise, except as required by applicable law.

Scientific and technical information included in this presentation has been reviewed by Darrol van Deventer, Vice President, Mining of Franco-Nevada, a qualified person under National Instrument 43-101.

NON-GAAP MEASURES

Cash Costs, Cash Costs per GEO sold, Adjusted Net Income, Adjusted Net Income per Share, Adjusted Net Income Margin, Adjusted EBITDA, Adjusted EBITDA per Share, and Adjusted EBITDA Margin are non-GAAP financial measures with no standardized meaning under International Financial Reporting Standards (“IFRS Accounting Standards”) and might not be comparable to similar financial measures disclosed by other issuers. For a quantitative reconciliation of each non-GAAP financial measure to the most directly comparable financial measure under IFRS Accounting Standards, refer to the appendix at the end of this presentation. Further information relating to these non-GAAP financial measures is incorporated by reference from the “Non-GAAP Financial Measures” section of Franco-Nevada’s MD&A for the three months ended March 31, 2026 and filed on May 12, 2026 with the Canadian securities regulatory authorities on SEDAR+ available at www.sedarplus.com and with the U.S. Securities and Exchange Commission available on EDGAR at www.sec.gov.

This presentation does not constitute an offer to sell or a solicitation for an offer to purchase any security in any jurisdiction.

TSX/NYSE: FNV

GEOS AND NET GEOS

A P P E N D I X

GEOS include Franco-Nevada's attributable share of production from our Mining and Energy assets, after applicable recovery and payability factors. GEOS are estimated on a gross basis for NSR royalties and, in the case of stream ounces, before the payment of the per ounce contractual price paid by the Company. For NPI royalties, GEOS are calculated taking into account the NPI economics. Where the Company receives gold and silver bullion in-kind as payment for its royalties, GEOS are recognized at the time of receipt of such bullion. Silver, platinum, palladium, iron ore, oil, gas and other commodities are converted to GEOS by dividing associated revenue, which includes settlement adjustments, by the relevant gold price. Beginning in 2026, the Company adopted fixed GEO conversion ratios based on the pricing assumptions outlined in our guidance. This methodology replaces our previous methodology which was based on variable GEO conversion ratios using prevailing market prices. Our 2026 guidance, as disclosed in our 2025 MD&A filed on March 10, 2026, assumed the following commodity prices: \$4,500/oz Au, \$75.00/oz Ag, \$2,000/oz Pt, \$1,650/oz Pd, \$100/tonne Fe 62% CFR China, \$70/bbl WTI oil and \$3.00/mcf Henry Hub natural gas. GEOS for the 2026 period are calculated based on fixed conversion ratios based on the prices assumed in this 2026 guidance.

Net GEOS are GEOS sold, net of direct operating costs, including, for our stream GEOS, the associated ongoing cost per ounce. We use Net GEOS to reflect that GEOS from royalty interests have different economics than GEOS from stream interests due to the ongoing cost per ounce associated with GEOS from streams. We calculate Net GEOS on a quarterly basis by dividing Cash Costs (as defined below in the "Non-GAAP Financial Measures" section) by the relevant gold price, and subtracting this total from GEOS sold in the period.

	For the three months ended March 31,	
(expressed in millions, excepts GEOS and Gold Price)	2026	2025
GEOS	136,353	126,585
Less:		
Cash Costs	\$ 46.5	\$ 38.5
Divided by: Gold price per ounce	\$ 4,500	\$ 2,863
	10,333	13,447
Net GEOS	126,020	113,138

NON-GAAP MEASURES

A P P E N D I X

Non-GAAP Financial Measures: Cash Costs, Cash Costs per GEO sold, Adjusted Net Income, Adjusted Net Income per Share, Adjusted Net Income Margin, Adjusted EBITDA, Adjusted EBITDA per share, and Adjusted EBITDA Margin are non-GAAP financial measures with no standardized meaning under IFRS Accounting Standards and might not be comparable to similar financial measures disclosed by other issuers. For a quantitative reconciliation of each non-GAAP financial measure to the most directly comparable financial measure under IFRS Accounting Standards, refer to the following tables. Further information relating to these Non-GAAP financial measures is incorporated by reference from the "Non-GAAP Financial Measures" section of Franco-Nevada's MD&A for the three months ended March 31, 2026 and filed on May 12, 2026 with the Canadian securities regulatory authorities on SEDAR+ available at www.sedarplus.com and with the U.S. Securities and Exchange Commission available on EDGAR at www.sec.gov.

	For the three months ended March 31,	
	2026	2025
