Franco Nevada

The GOLD Investment that WORKS

Corporate Presentation

JULY 2023

15 Years Since IPO

FNV: TSX | NYSE

CAUTIONARY STATEMENT

Forward Looking Statements

This presentation contains "forward looking information" and "forward looking statements" within the meaning of applicable Canadian securities laws and the United States Private Securities Litigation Reform Act of 1995, respectively, which may include, but are not limited to, statements with respect to future events or future performance, management's expectations regarding Franco-Nevada's growth, results of operations, estimated future revenues, performance guidance, carrying value of assets, future dividends and requirements for additional capital, mineral resources and mineral reserves estimates, production estimates, production costs and revenue, future demand for and prices of commodities, expected mining sequences, business prospects and opportunities, the performance and plans of third party operators, audits being conducted by the Canada Revenue Agency ("CRA"), the expected exposure for current and future assessments and available remedies, the completion of the public consultation process and obtaining all required Panamanian approvals for the Proposed Concession Contract with the Government of Panama for the Cobre Panama mine and the terms of the Proposed Concession Contract. In addition, statements (including data in tables) relating to resources and reserves including resources and reserves covered by a royalty, stream or other interest, gold equivalent ounces ("GEOs") or mine lives are forward looking statements, as they involve implied assessment, based on certain estimates and assumptions, and no assurance can be given that the estimates and assumptions are accurate and that such resources and reserves, mine lives and GEOs will be realized. Such forward looking statements reflect management's current beliefs and are based on information currently available to management. Often, but not always, forward looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budgets", "potential for", "scheduled", "estimates", "forecasts", "predicts", "projects", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. Forward looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of Franco-Nevada to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. A number of factors could cause actual events or results to differ materially from any forward looking statement, including, without limitation: fluctuations in the prices of the primary commodities that drive royalty and stream revenue (gold, platinum group metals, copper, nickel, uranium, silver, iron-ore and oil and gas); fluctuations in the value of the Canadian and Australian dollar, Mexican peso and any other currency in which revenue is generated, relative to the U.S. dollar; changes in national and local government legislation, including permitting and licensing regimes and taxation policies and the enforcement thereof; the adoption of a global minimum tax on corporations; regulatory, political or economic developments in any of the countries where properties in which Franco-Nevada holds a royalty, stream or other interest are located or through which they are held; risks related to the operators of the properties in which Franco-Nevada holds a royalty, stream or other interest, including changes in the ownership and control of such operators; relinquishment or sale of mineral properties; influence of macroeconomic developments; business opportunities that become available to, or are pursued by Franco-Nevada; reduced access to debt and equity capital; litigation; title, permit or license disputes related to interests on any of the properties in which Franco-Nevada holds a royalty, stream or other interest; whether or not Franco-Nevada is determined to have "passive foreign investment company" ("PFIC") status as defined in Section 1297 of the United States Internal Revenue Code of 1986, as amended; potential changes in Canadian tax treatment of offshore streams; excessive cost escalation as well as development, permitting, infrastructure, operating or technical difficulties on any of the properties in which Franco-Nevada holds a royalty, stream or other interest; access to sufficient pipeline capacity; actual mineral content may differ from the resources and reserves contained in technical reports; rate and timing of production differences from resource estimates, other technical reports and mine plans; risks and hazards associated with the business of development and mining on any of the properties in which Franco-Nevada holds a royalty, stream or other interest, including, but not limited to unusual or unexpected geological and metallurgical conditions, slope failures or cave-ins, sinkholes, flooding and other natural disasters, terrorism, civil unrest or an outbreak of contagious disease; the impact of the COVID-19 (coronavirus) pandemic; and the integration of acquired assets. The forward looking statements contained in this presentation are based upon assumptions management believes to be reasonable, including, without limitation: the ongoing operation of the properties in which Franco-Nevada holds a royalty, stream or other interest by the owners or operators of such properties in a manner consistent with past practice; the accuracy of public statements and disclosures made by the owners or operators of such underlying properties; no material adverse change in the market price of the commodities that underlie the asset portfolio; Franco-Nevada's ongoing income and assets relating to determination of its PFIC status; no material changes to existing tax treatment; the expected application of tax laws and regulations by taxation authorities; the expected assessment and outcome of any audit by any taxation authority; no adverse development in respect of any significant property in which Franco-Nevada holds a royalty, stream or other interest; the accuracy of publicly disclosed expectations for the development of underlying properties that are not yet in production; integration of acquired assets; and the absence of any other factors that could cause actions, events or results to differ from those anticipated, estimated or intended. However, there can be no assurance that forward looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Investors are cautioned that forward looking statements are not guarantees of future performance. In addition, there can be no assurance as to the outcome of the ongoing audit by the CRA or the Company's exposure as a result thereof. Franco-Nevada cannot assure investors that actual results will be consistent with these forward looking statements. Accordingly, investors should not place undue reliance on forward looking statements due to the inherent uncertainty therein.

For additional information with respect to risks, uncertainties and assumptions, please refer to Franco-Nevada's most recent Annual Information Form filed with the Canadian securities regulatory authorities on www.sedar.com and Franco-Nevada's most recent Annual Report filed on Form 40-F filed with the SEC on www.sec.gov. The forward-looking statements herein are made as of the date herein only and Franco-Nevada does not assume any obligation to update or revise them to reflect new information, estimates or opinions, future events or results or otherwise, except as required by applicable law.

Non-GAAP Measures

Cash Costs, Cash Costs per GEO sold, Adjusted Net Income, Adjusted Net Income per Share, Adjusted Net Income Margin, Adjusted EBITDA, Adjusted EBITDA per Share, and Adjusted EBITDA Margin are non-GAAP financial measures with no standardized meaning under International Financial Reporting Standards ("IFRS") and might not be comparable to similar financial measures disclosed by other issuers. For a quantitative reconciliation of each non-GAAP financial measure to the most directly comparable IFRS financial measure, refer to the appendix at the end of this presentation. Further information relating to these non-GAAP financial measures is incorporated by reference from the "Non-GAAP Financial Measures" section of Franco-Nevada's MD&A for the three months ended March 31, 2023 and filed on May 2, 2023 with the Canadian securities regulatory authorities on SEDAR available at www.sedar.com and with the U.S. Securities and Exchange Commission available on EDGAR at www.sec.gov.

This presentation does not constitute an offer to sell or a solicitation for an offer to purchase any security in any jurisdiction.

THE GOLD INVESTMENT THAT WORKS

Franco-Nevada is the leading gold-focused royalty and streaming company with the largest and most diversified portfolio of cash flow producing assets.

- Leading track record
- Low-risk business model
- Diversified portfolio
- Growth and optionality

SHAREHOLDER RETURNS

A lower-risk gold investment to hedge against market volatility

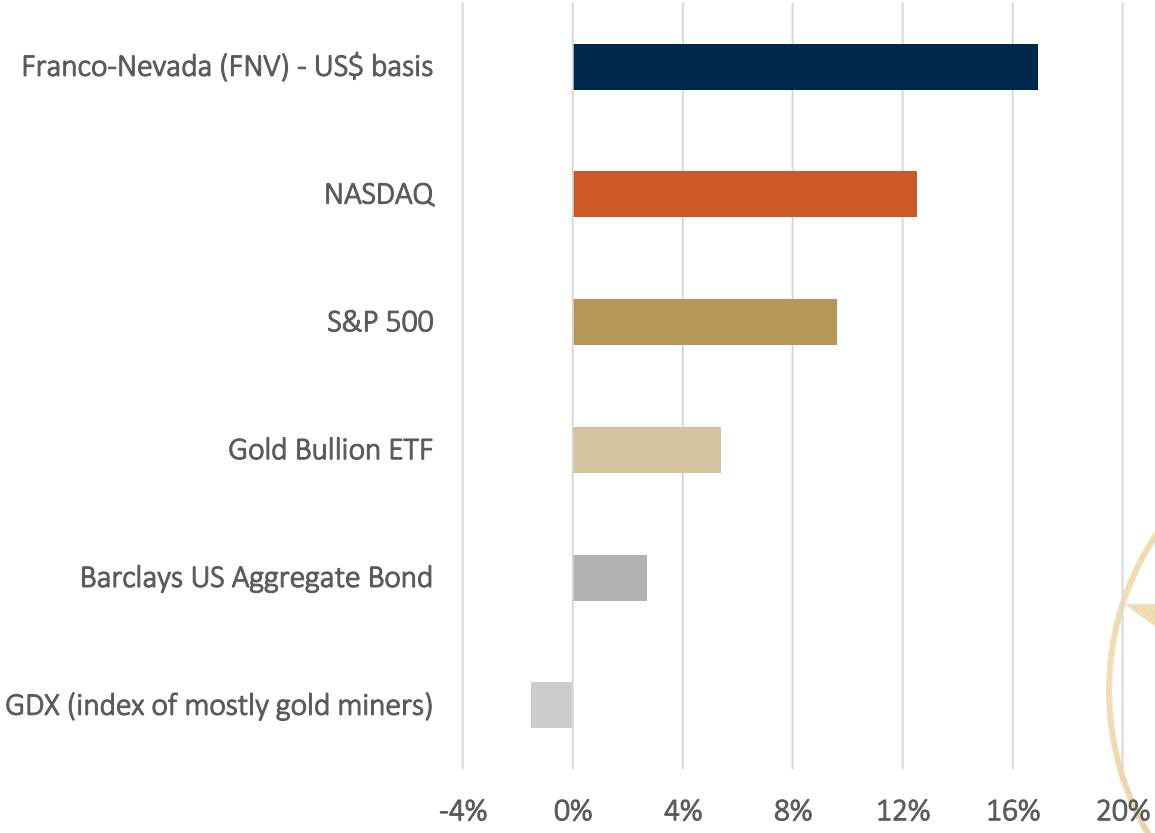

NYSE and TSX listed

Large holders include:

- BlackRock
- Fidelity
- MFS

Leading Track Record

(CAGR Since FNV Inception [1, 2, 3])

1. FNV Inception – December 20, 2007
2. Compounded annual total returns to June 30, 2023

Business Model

Franco Nevada

BUSINESS MODEL ADVANTAGES

Optionality

Potential for exploration success on approximately 66,000 km^2

Focus on Growth

Management not occupied with operational decisions

Diversified Portfolio

Non-operating business is more scalable

Free Cash Flow Business

Not exposed to capital calls

Limited Cost Inflation

Streams/NSRs not exposed to cost inflation

High Margins & Low Overhead

Strong cash generation throughout the commodity cycle

FINANCING SUCCESSFUL MINES

Alignment with partners for a win-win solution

Support leading operators through long-term partnership

Technical team with strong track record identifying successful projects

Partnership Approach

M&A

- lundin mining
- TERANGA GOLD CORPORATION
- KLONDEX MINES LTD

Debt Reduction

- Teck
- GLENCORE
- SOUTHERN PEAKS MINING

Project Development

- FIRST QUANTUM MINERALS LTD.
- COEUR MINING
- MINING VENTURES
- ARGONAUT GOLD

Emerging Projects

- SolGold
- SKEENA RESOURCES
- MARATHON GOLD
- RING OF FIRE METALS

WHY WE ARE DIFFERENT

Shareholder Alignment

Committed to high share ownership and low G&A – treating shareholder funds as our own

Financial Flexibility

Avoiding long-term debt and paying progressive and sustainable dividends ensures capital availability at all times

Cyclical Investing

Board and management have a patient approach to investing in cyclical markets

Asset Selection

Strong technical skills and a focus on exploration optionality and good tenure drive successful asset selection

Asset count as of June 30, 2023

CORE PRECIOUS METAL STREAMS OUTPERFORMING

Antamina

$610M investment

2022 revenue: $68M

Mine life potential[1]: 30+ years

Payback[2]: 75%

Silver production has exceeded expectations[3]

Antapaccay

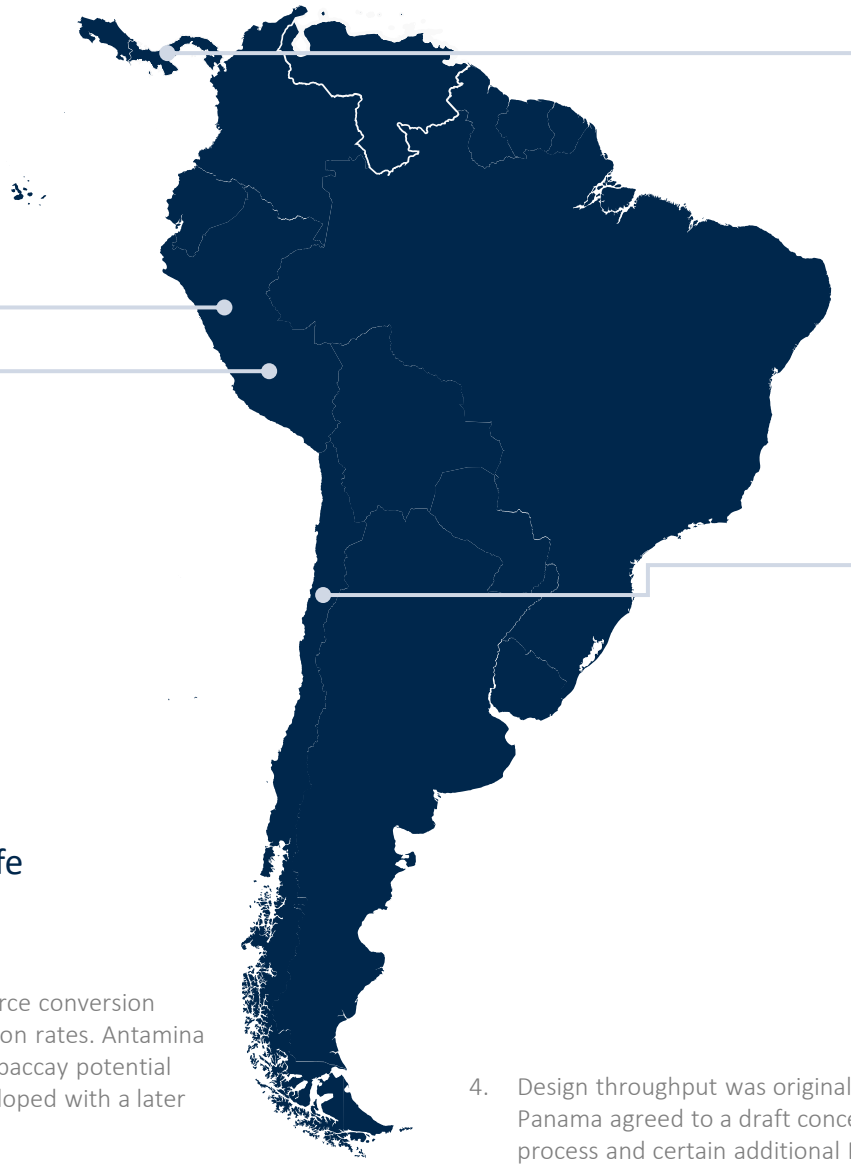

$500M investment

2022 revenue: $95M

Mine life potential[1]: 30+ years

Payback[2]: 116%

Coroccohuayco deposit to extend mine life

Cobre Panama

$1.36B investment

2022 revenue: $223M

Mine life potential[1]: 35+ years

Payback[2]: 42%

Expanding to 100 Mtpa in 2023[4]

Candelaria

$655M investment

2022 revenue: $126M

Mine life potential[1]: 25+ years

Payback[2]: 97%

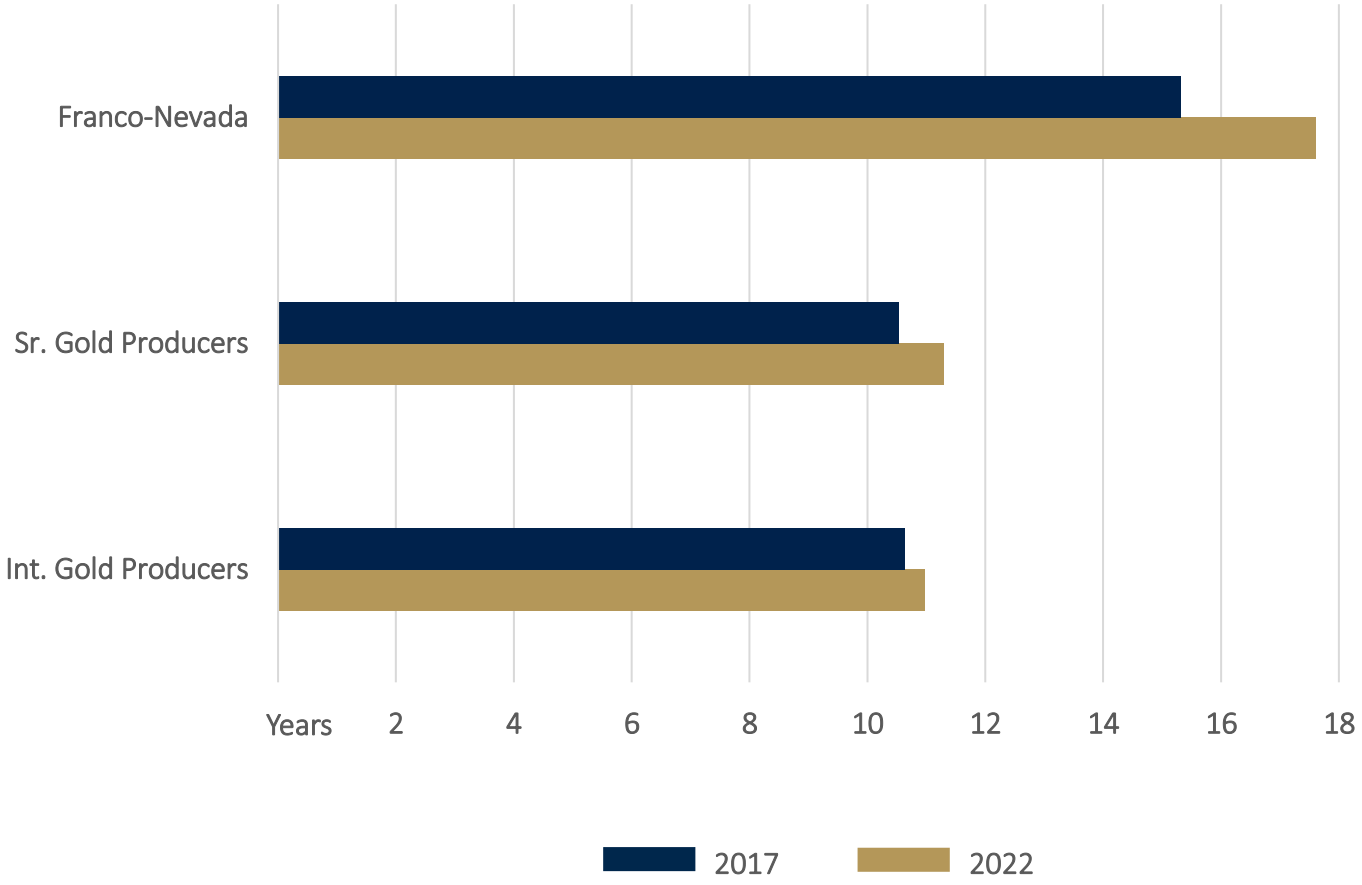

UG exploration success has extended mine life[5]

1. Mine life potential includes Franco-Nevada assessment of resource conversion potential. Also assumes current or operator-forecasted production rates. Antamina potential assumes additional tailings capacity is permitted. Antapaccay potential assumes open pit only scenario for Coroccohuayco project developed with a later start date
2. As at March 31, 2023
3. Based on FNV sales from inception of stream through Q1 2023 vs. acquisition guidance
4. Design throughput was originally 58 Mtpa. First Quantum Minerals Ltd. and the Government of Panama agreed to a draft concession contract in March which is subject to a public consultation process and certain additional Panamanian approvals
5. Mine life was 14 years in Technical Report dated July 28, 2014

LONG-LIFE ASSETS

Growing reserves and reserve lives

Long-duration portfolio increases optionality

Growth Outlook

Franco Nevada

GUIDANCE

Total GEOs

2022 Actual

729,960

+ Record GEOs in 2022
+ Diversified guidance exceeded
+ Benefit of strong energy prices

2023 Guidance[1]

640,000-700,000

– Assumes lower oil and gas prices[1]
+ Vale royalty attributable production

2027 Outlook[2]

760,000-820,000

Assumes flat commodity prices[1]
+ Growth from Precious Metal assets
+ Vale royalty attributable production increase
+ Continued development of Energy assets
+ Copper World Project

Precious Metal GEOs

2022 Actual

510,385

+ Candelaria, Tasiast, Subika (Ahafo)
– Cobre Panama due to timing of shipments
– Antapaccay
– Less favourable GEO conversion ratios for silver and PGMs

2023 Guidance[1]

490,000-530,000

+ Cobre Panama expansion[2]
+ Antapaccay, MWS, Tasiast, Musselwhite
+ New mines: Magino, Séguéla, Salares Norte
– Antamina, Hemlo, Candelaria

2027 Outlook[2]

565,000-605,000

+ Cobre Panama expansion[2]
+ New mines: Tocantinzinho, Greenstone, Valentine Gold, Stibnite, Eskay Creek
+ Sudbury still producing
– Candelaria step-down
– MWS cap met in 2024

Funding Commitments

Up to $250M for Tocantinzinho stream
Up to $79M for Continental Royalty Acquisition Venture ($10-20M expected in FY 2023)

Depletion

Estimate $275-$305 million

1. Assuming the following prices: $1,800/oz Au, $21/oz Ag, $900/oz Pt, $1,500/oz Pd, $120/tonne Fe 62% CFR China, $80/bbl WTI oil and $3/mcf Henry Hub natural gas
2. First Quantum Minerals Ltd. and the Government of Panama agreed to a draft concession contract in March which is subject to a public consultation process and certain additional Panamanian approvals

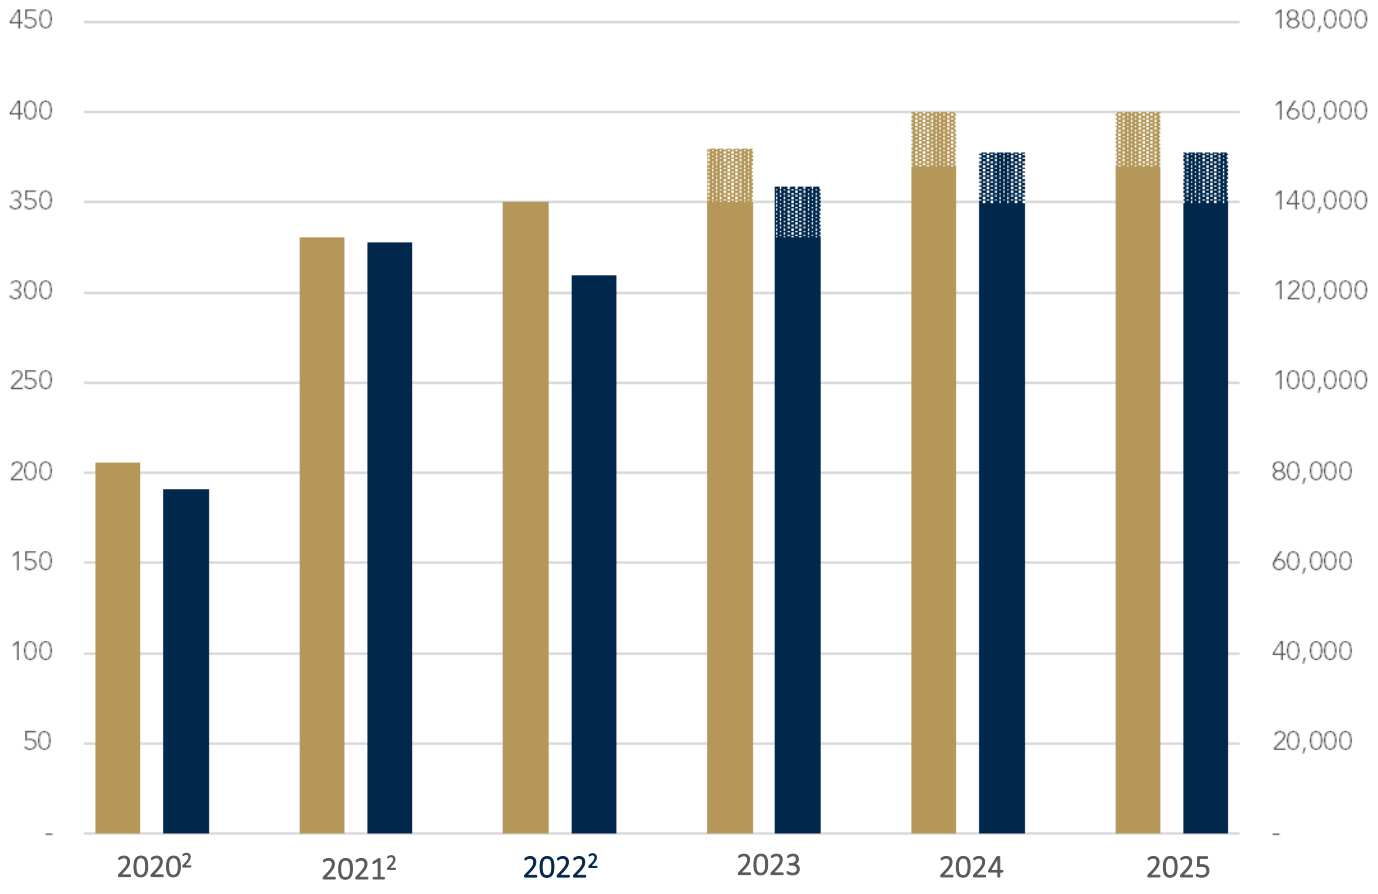

COBRE PANAMA GROWTH OUTLOOK

On track to achieve 100Mtpa by the end of 2023[1]

First Quantum maintains guidance of 350,000-380,000 tonnes of copper for 2023

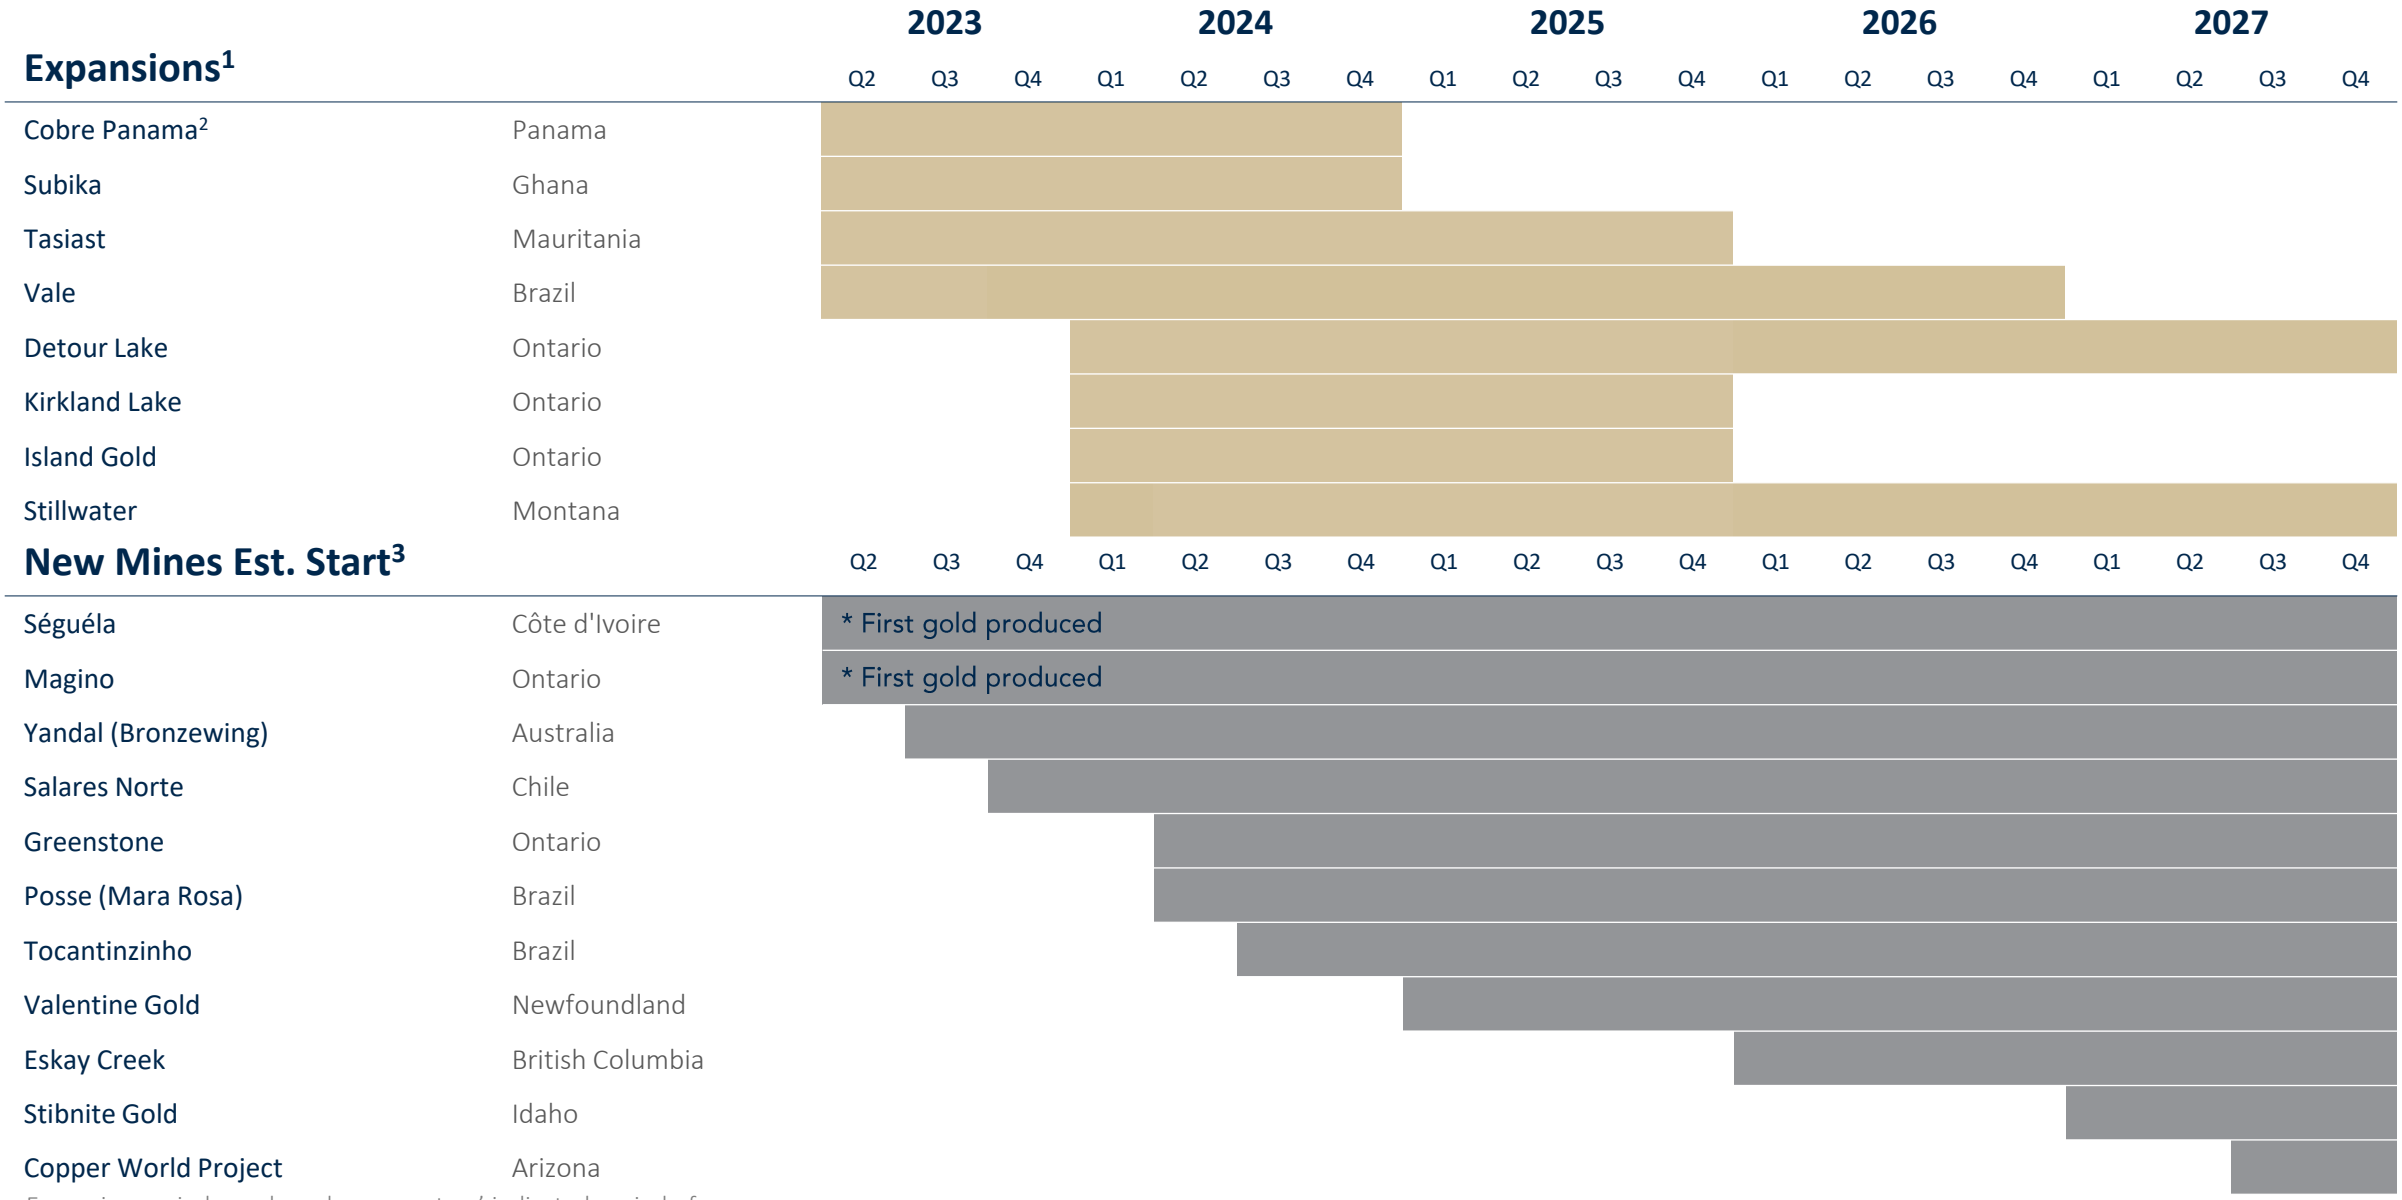

FNV 2023 guidance of 115,000-135,000 GEOs delivered

GEO Growth Profile

1. First Quantum Minerals Ltd. and the Government of Panama agreed to a draft concession contract in March which is subject to a public consultation process and certain additional Panamanian approvals
2. 2020, 2021 and 2022 GEOs sold
3. First Quantum 2023 to 2025 guidance dated January 16, 2023
4. Assuming: $1,800/oz Au; $21/oz Ag
5. Franco-Nevada is entitled to $100/oz discount on initial stream payments related to the Delay Balance. The discount is expected to apply to deliveries through till the end of H1 2023

ORGANIC GROWTH PIPELINE

1. Expansion periods are based on operators' indicated period of ramp-up
2. First Quantum Minerals Ltd. and the Government of Panama agreed to a draft concession contract in March which is subject to a public consultation process and certain additional Panamanian approvals
3. Indicated start periods are based on operators' guidance and FNV best estimates

Yandal (Bronzewing)	Australia
Moyagee	Australia

Draft concession contract agreed in March with the government which is still subject to parliamentary ratification.

Updated Technical Report provided February 22, 2023. Potential expansion of UG operations.

Coroccohuayco project with estimated capex of $1.5B could extend life to 2045 or 2050.

Medium term production growth from crushing and conveying project. Regulatory approval of the Modification of Environmental Impact Assessment for mine life extension to 2036 expected in H2 2023.

Mine life extended by 10 years to 2052. 5.6 Moz added to reserves year-over-year. Agnico Eagle evaluating expansion to 1 Moz per year. Ongoing exploration success.

Remediation of the shaft infrastructure, damaged in an incident in March 2023, completed mid-April 2023.

Production expected to increase in 2023-2024, due to higher open pit grades and increased tonnage with change in mining method at Subika underground.

Ramp-up to operate consistently at 24 ktpd expected to be achieved by the end of 2023.

Completed Shaft #4 and new ventilation system. Drilling planned to continue at AK in 2023, with aim to upgrade and increase the Indicated Mineral Resource.

Updated Odyssey mine plan discussed at June 2023 AEM Analyst site visit, extending mine life. East Gouldie Indicated Mineral Resource increased 3.8 Moz year-over-year. Shaft sinking activities commenced in March 2023.

Expansion to 2,400 tpd expected to be completed in 2026. Extension of high-grade gold mineralization laterally and at depth.

Lundin Mining to acquire 51% ownership with option to increase to 70%.

BHP plans to increase mill capacity to 13.5 Mtpa and nickel concentrate production to 50 ktpa.

Thunderbox Mill expansion was completed in December 2022 and commissioning underway. First ore from Orelia pit in Q3 2023.

Westgold bidding to acquire Musgrave Minerals. FNV holds a 1.575% Royalty on Moyagee/Cue.

Indicated timing based on operator guidance

ADVANCED AND EXPLORATION NEWS

SALARES NORTE

GREENSTONE (HARDROCK)

ESKAY CREEK

Construction Updates

Séguéla	Côte d'Ivoire	First gold poured in May 2023.
Magino	Ontario	First gold poured in June 2023.
Salares Norte	Chile	Construction nearing completion. First production expected end of Q4 2023.
Greenstone	Ontario	Construction 65% complete. First production expected H1 2024.
Posse (Mara Rosa)	Brazil	Construction 77% complete. First production expected H1 2024.
Tocantinzinho	Brazil	Construction on budget and 27% complete. First production expected H2 2024.
Valentine Gold	Newfoundland	Construction 9% complete. First production expected Q1 2025. FNV acquired incremental 1.5% NSR taking total to 3% NSR in June 2023.

Development Updates

Eskay Creek	British Columbia	New discoveries at Eskay Deeps and east of Zone 22. Franco-Nevada acquired additional 0.5% NSR in December 2022, increasing total NSR to 1.5%. Updated Mineral Resource Estimate in June 2023. Updated FS expected in Q4 2023.
Stibnite Gold	Idaho	Final Environmental Impact Statement and Draft Record of Decision expected by the end of 2023. Perpetua and Nez Perce tribe reached agreement to resolve Clean Water Act dispute.
Copper World Project	Arizona	PFS for Copper World Phase 1 expected in mid-2023 with FS activities expected to begin in 2024.
KCGM Super Pit (Western Lease)	Australia	KCGM A$1.5B mill expansion to 27Mtpa in 2029. FNV holds a 2.5% NSR over the Western Lease area, which is now included in the Super Pit shell.

Exploration Updates

Crawford Nickel	Ontario	M&I Resource doubled. FS expected Q3 2023. New discovery at Reid/Improved recoveries from pilot plant testing. Anglo American equity investment.
Fenelon/Martinière	Québec	Fenelon and Martinière resource updated January 2023, Fenelon PEA released in June 2023. Additional gold mineralized zones outside of current Mineral Resource estimate.
Spences Bridge	British Columbia	Exploration success at Skoonka Creek and Shovelnose. Announced drill results from May 2023 drill campaign.

APPENDIX – GEOS AND NON-GAAP MEASURES

1. GEOs include Franco-Nevada's attributable share of production from our Mining and Energy assets, after applicable recovery and payability factors. GEOs are estimated on a gross basis for NSR royalties and, in the case of stream ounces, before the payment of the per ounce contractual price paid by the Company. For NPI royalties, GEOs are calculated taking into account the NPI economics. Silver, platinum, palladium, iron ore, oil, gas and other commodities are converted to GEOs by dividing associated revenue, which includes settlement adjustments, by the relevant gold price. The price used in the computation of GEOs earned from a particular asset varies depending on the royalty or stream agreement, which may make reference to the market price realized by the operator, or the average price for the month, quarter, or year in which the commodity was produced or sold.

Quarterly average prices and rates		Q1 2023	Q1 2022	Variance
Gold[1]	($/oz)	$ 1,889	$ 1,874	0.8 %
Silver[1]	($/oz)	22.56	24.00	(6.0)%
Platinum[1]	($/oz)	994	1,041	(4.5)%
Palladium[1]	($/oz)	1,567	2,423	(35.3)%
Iron Ore Fines 62% Fe CFR China	($/tonne)	124	142	(12.7)%
Edmonton Light	(C$/bbl)	99.92	117.66	(15.1)%
West Texas Intermediate	($/bbl)	76.13	94.29	(19.3)%
Henry Hub	($/mcf)	2.76	4.57	(39.6)%
CAD/USD exchange rate[2]		0.7398	0.7913	(6.5)%

1 Based on LBMA PM Fix for gold, platinum and palladium. Based on LBMA Fix for silver.
2 Based on Bank of Canada daily rates.

2. Non-GAAP Financial Measures: Cash Costs, Cash Costs per GEO sold, Adjusted Net Income, Adjusted Net Income per Share, Adjusted Net Income Margin, Adjusted EBITDA, Adjusted EBITDA per share, and Adjusted EBITDA Margin are non-GAAP financial measures with no standardized meaning under IFRS and might not be comparable to similar financial measures disclosed by other issuers. For a quantitative reconciliation of each non-GAAP financial measure to the most directly comparable IFRS financial measure, refer to the following tables. Further information relating to these Non-GAAP financial measures is incorporated by reference from the "Non-GAAP Financial Measures" section of Franco-Nevada's MD&A for the three months ended March 31, 2023 and filed on May 2, 2023 with the Canadian securities regulatory authorities on SEDAR available at www.sedar.com and with the U.S. Securities and Exchange Commission available on EDGAR at www.sec.gov.

Cash Costs

(expressed in millions, except per GEO amounts)	For the three months ended March 31, 2023	2022
Total costs of sales	$ 99.2	$ 118.2

CRA AUDIT (2012-2019)

On April 28, 2023, Franco-Nevada reached a settlement with the CRA with respect to the domestic reassessments (2014-2017) and Foreign Accrual Property Income reassessments (2012-2013), with such reassessments to be vacated entirely. The potential tax exposure related to these reassessments to be vacated was $19.6M (C$26.5M) and $8.5M (C$11.6M), respectively, including interest and other penalties.

With respect to the transfer pricing reassessments in relation to the Company's Mexican and Barbadian subsidiaries, the Company continues to believe that these reassessments are not supported by Canadian tax law and jurisprudence and intends to vigorously defend its tax filing positions.

	Taxation Years Reassessed	Potential Income Tax Payable[1]	Potential Interest & Penalties[1,3,4]
Transfer Pricing (Mexican Subsidiary)	2013-2016	$22.1M (C$29.9M)[2]	$20.7M (C$27.9M)
Transfer Pricing (Barbadian Subsidiary)	2014-2017	$34.4M (C$46.5M)	$24.9M (C$33.9M)

1. Canadian dollar amounts in this table have been converted to US dollars at the exchange rate applicable at March 31, 2023 as quoted by the Bank of Canada
2. Tax payable before any double taxation relief under the Canada-Mexico tax treaty
3. Includes transfer pricing penalties: $9.5M (C$12.8M) for 2013-2015; $12.4M (C$16.8M) for 2016-2017 currently under review by the Canada Revenue Agency
4. Interest calculated to March 31, 2023
