FOR IMMEDIATE RELEASE

TYLER TECHNOLOGIES SIGNS $1.2 MILLION SHERIFF SYSTEM CONTRACT WITH MONTGOMERY COUNTY, TX

Dallas, Texas, August 13, 2002 —Tyler Technologies, Inc. (NYSE: TYL) announced today that it has entered into a contract to provide Montgomery County, Texas with Tyler's Sheriff System. Under the contract, which is expected to be completed in the second quarter of 2003, Tyler will provide Montgomery County with application software, system software, hardware, custom development, training, project management and other professional services. The total estimated value of the contract is approximately $1.2 million. Located just north of Houston, Montgomery County has a population of nearly 300,000 and is the 28th fastest growing county in the nation.

Tyler's Sheriff System automates all elements of the dispatch, arrest and booking processes, along with inmate tracking, imaging, mug shots, electronic dispositioning, and interfaces to mobile communications. Tyler's Sheriff System is currently installed in nearly 70 counties in Texas.

Implementation of Tyler's Sheriff System is a major step to help Montgomery County meet the long-term information needs of both its employees and citizens. "After reviewing all of the companies responding to our request for proposal, we found Tyler Technologies to be clearly the best choice for our Computer Aided Dispatch, Jail and Records system requirements," commented Montgomery County Sheriff Guy L. Williams. "Tyler has a robust solution that meets our requirements as the seventh-largest sheriff's department in Texas, and they will help bring our systems into the 21st century."

Glenn A. Smith, President of Tyler's Courts and Justice division, said, "As the leading provider of countywide justice automation solutions in the state of Texas, we look forward to putting our extensive experience and resources to work for Montgomery County. Tyler's long-standing reputation for innovation in technology for local governments and excellent client service has enabled us to gain the leading justice system market share in Texas."

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to make local governments more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes nearly 6,000 local government offices in 49 states, Canada and Puerto Rico. More information about Tyler Technologies can be found on the World Wide Web at www.tylertechnologies.com.

Tyler Technologies, Inc. has included in this press release "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 concerning its business and operations. Tyler Technologies expressly disclaims any obligation to release publicly any updates or revisions to these forward-looking statements to reflect any change in its expectations. These expectations and the related statements are inherently subject to risks and uncertainties that could cause actual results to differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. The risks and uncertainties which forward-looking statements are subject to include, but are not limited to, changes in competition, changes in general economic conditions, changes in the budgets and regulatory environments of the Company's customers, risks associated with the development of new products and the enhancement of existing products, the ability to attract and retain qualified personnel, and other risks detailed from time to time in the Company's filings with the Securities and Exchange Commission.
