## **MIAMI-DADE COUNTY SELECTS ODYSSEY COURT CASE MANAGEMENT SYSTEM FROM TYLER TECHNOLOGIES**

### **Contract With Nation's Eighth Largest County Valued at Over \$4.1 Million**

**Dallas, October 26, 2005** -- Tyler Technologies, Inc. (NYSE: TYL) announced today that it has signed a contract to provide its Odyssey Case Management software for use by the Miami-Dade County, Florida Clerk of the Circuit and County Court, as well as the Eleventh Judicial Circuit of Florida. The total estimated value of the contract, including software licenses and professional services, is greater than \$4.1 million.

Tyler's Odyssey system is a new generation Web-based court case management solution for the state and local government market. The Miami-Dade project will include implementation of the Odyssey Case Management software for civil, probate, family, domestic violence and mental health cases, along with electronic document management for all court documents filed in these cases. The software will also manage judicial assignment and scheduling and court filing fees. As part of the project, Tyler will also interface Odyssey to various other state and local justice systems.

With more than 2.3 million residents, Miami-Dade County is the most populous county in Florida and the eighth largest county in the United States. The city of Miami is the seat of Miami-Dade County, which has over 30,000 employees.

"We are very pleased that Miami-Dade County has chosen Tyler Technologies as its partner to modernize its civil case management processes," commented Glenn Smith, President of Tyler's Courts and Justice division. "Our Odyssey system is successfully operating in Lee County, Florida, and we were recently awarded a new contract to implement Odyssey in Monroe County in the Florida Keys. We are excited to further expand our presence into the state's largest county with our third Florida contract. With the addition of Miami-Dade County, together with our existing project in Dallas County, Texas, Tyler now counts two of the nation's ten largest counties as Odyssey clients."

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to make local government more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes nearly 6,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. *Forbes* Magazine named Tyler one of the "200 Best Small Companies" in America in 2004.
