TYLER TECHNOLOGIES SIGNS CONTRACT WITH BLUE EARTH COUNTY, MN FOR COMPREHENSIVE FINANCIAL MANAGEMENT SOFTWARE PACKAGE

Deal represents first implementation of Tyler's MUNIS software in Minnesota

Dallas, January 16, 2007 -- Tyler Technologies, Inc. (NYSE: TYL) announced today that it has signed a contract to provide a comprehensive financial management software package for Blue Earth County, Minnesota. The agreement covers Tyler's MUNIS software and related professional services, including a full financial suite, payroll and human resources, applicant tracking, accounts receivable, general billing, workflow, Crystal Reports and MUNIS Employee Self Service. A customized Human Services Financial Data program will also be provided, as well as several service applications including a LaserFiche interface and TylerForm Processing options.

The expansion of Tyler's MUNIS product line into the state of Minnesota represents an important step in Tyler's growth through geographic expansion. Over the last several years, Tyler has steadily increased its share of the market for financial systems for the public sector. The contract with Blue Earth County, which is Tyler's first MUNIS client in Minnesota, brings the number of states in which clients are currently running MUNIS to 44. Tyler's MUNIS products include a wide range of public sector solutions, comprising a powerfully integrated Enterprise Resource Planning (ERP) system tailored specifically for the unique needs of the public sector. The complete Tyler product lines encompass software and solutions in the areas of Land and Vital Records, Pension Management, Financial Management, Citizen Services, Education Management, Appraisal and Tax, Courts and Justice, Public Safety and Document Management.

Charles Berg, Information Technology Director for Blue Earth County, stated, "After careful evaluation of the responses to our RFP for public sector financial software, Blue Earth County determined that Tyler's package of MUNIS financial products is the best overall fit for the County."

According to Dick Peterson, President of Tyler's MUNIS division, "Blue Earth's purchase of our financial software products reinforces the County's already strong focus on efficiently serving its community. As our first Minnesota client, Blue Earth County has shown a strong commitment to improve its business processes, maximize productivity, and become even more responsive to its constituents. We are looking forward to a long and rewarding partnership with Blue Earth, and envision more opportunities in the state of Minnesota."

-more-

Blue Earth County is located in southern Minnesota, 75 miles south of Minneapolis-St. Paul, and is rich in Native American culture and United States settler history. Blue Earth County is currently home to more than 58,000 residents, and the city of Mankato is the county seat. The name Blue Earth is a translation of the Dakota Native American word "*Mahkato,"* meaning "greenish blue earth"— from the unusual color of the area's copper-rich clay. Historically the area was central to trading, and the arrival of the railroad in 1868 further increased the county's importance in trade and accessibility. Industry (especially milling), business, agriculture and education continue to play important economic roles in the county.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to make local government more accessible to the public, more responsive to needs of citizens, and more efficient. Tyler's client base includes more than 6,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. *Forbes* Magazine named Tyler one of the "200 Best Small Companies" in America in 2004.
