Empowering people who serve the public®

Tyler Technologies has recently signed a contract with Russell County Public Schools in Lebanon, VA for their Tyler Education Management Solution. The agreement calls for implementation of a full suite of Education Management applications.

Tyler Education Management Solution is a school information system designed for schools and districts of all sizes. It's SIF certified, and NCLB compliant. Key features include Registration, standard-based Grade Book, Scheduling, Student Discipline, Attendance, Health & Immunization, Student Demographics, Transportation and Online Communication. Built to run on the Microsoft® .NET platform, and in conjunction with the Microsoft® SQL Server database, the Tyler Education Management Solution provides a secure, Web-based collaborative, communications, and content-delivery framework.
