Tyler Technologies Signs Odyssey® Contract with Angelina County, Texas

Dallas, JANUARY 19, 2010 -- Tyler Technologies, Inc. (NYSE: TYL) will migrate Angelina County (Lufkin, Texas) to its latest court technology by providing its integrated case management software solution. The contract, which includes software licenses, installation, maintenance, and support, is valued at more than $1.4 million.

A Tyler courts and justice client since 1995, Angelina County will upgrade to Tyler's Odyssey product suite. Based on the agreement, the County will use Case Manager, Law Enforcement, Jail, Jury, and Check Manager to bring its judicial case management to the next level.

"Angelina County is a growing county with expanding needs," commented County Judge Wes Suiter. "We expect our investment in Tyler's courts and justice offering to enable us to keep pace with technology and improve court services. The tight integration of the Odyssey system will create a more cohesive means of communication between our judicial offices and boost overall efficiencies."

"Angelina County's long-standing relationship with Tyler reflects its confidence in our experience, successful track record and commitment to our clients," said Bruce Graham, president of Tyler's Courts & Justice Division. "We are honored that the County has chosen to further invest in Tyler products and look forward to meeting its needs for years to come."

Angelina County, which has a population of 83,000 and covers 865 square miles, also recently signed an agreement to implement Tyler's Incode financial solution. Located in northeastern Texas, Lufkin serves as the county seat.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to enable the public sector–cities, counties, schools and other government entities–to become more efficient, more accessible, and more responsive to the needs of citizens. Tyler's client base includes more than 8,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. Tyler has been named one of

"America's 200 Best Small Companies" for three consecutive years by *Forbes* Magazine. More information about Tyler Technologies can be found at www.tylertech.com.

This document may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that are not historical in nature and typically address future or anticipated events, trends, expectations or beliefs with respect to our financial condition, results of operations or business. Forward-looking statements often contain words such as "believes," "expects," "anticipates," "foresees," "forecasts," "estimates," "plans," "intends," "continues," "may," "will," "should," "projects," "might," "could" or other similar words or phrases. Similarly, statements that describe our business strategy, outlook, objectives, plans, intentions or goals also are forward-looking statements. We believe there is a reasonable basis for our forward-looking statements, but they are inherently subject to risks and uncertainties and actual results could differ materially from the expectations and beliefs reflected in the forward-looking statements. We presently consider the following to be among the important factors that could cause actual results to differ materially from our expectations and beliefs: (1) economic, political and market conditions, including the recent global economic and financial crisis, and the general tightening of access to debt or equity capital; (2) our ability to achieve our financial forecasts due to various factors, including project delays by our customers, reductions in transaction size, fewer transactions, delays in delivery of new products or releases or a decline in our renewal rates for service agreements; (3) changes in the budgets or regulatory environments of our customers, primarily local and state governments, that could negatively impact information technology spending; (4) technological and market risks associated with the development of new products or services or of new versions of existing or acquired products or services; (5) our ability to successfully complete acquisitions and achieve growth or operational synergies through the integration of acquired businesses, while avoiding unanticipated costs and disruptions to existing operations; (6) competition in the industry in which we conduct business and the impact of competition on pricing, customer retention and pressure for new products or services; (7) the ability to attract and retain qualified personnel and dealing with the loss or retirement of key members of management or other key personnel; and (8) costs of compliance and any failure to comply with government and stock exchange regulations. A detailed discussion of these factors and other risks that affect our business are described in our filings with the Securities and Exchange Commission, including the detailed "Risk Factors" contained in our most recent annual report on Form 10-K. We expressly disclaim any obligation to publicly update or revise our forward-looking statements.
