Tyler Technologies Wins Odyssey® Courts & Justice Software Contracts with Waller and Comal Counties in Texas

Dallas, MARCH 16, 2010 -- Tyler Technologies, Inc. (NYSE: TYL) has signed contracts to provide its integrated court case management software solution to Waller and Comal counties in Texas. In total, the contracts are valued at more than $2.6 million.

Waller County, which is located in an active hurricane region and has been a courts and justice client since 1997, has invested in Tyler's Odyssey Online™ solution—delivered via the Software as a Service (SaaS) model. The County will implement a technologically advanced solution that's hosted within a state-of-the-art datacenter and managed and protected by Tyler's experienced IT staff. Based on the five-year agreement, Tyler will handle installation, upgrades, support, and maintenance. Waller County will use Case Manager, Law Enforcement, Jail, and Prosecutor.

"Upgrading to Tyler's Odyssey Online solution will benefit Waller County by taking us to a new level of efficiency and effectiveness," commented Anthony Briggs, Waller County director of Information Technology. "We expect that having Tyler manage our updates, backup, and software infrastructure will make operations smoother. Implementing the solution should also make state reporting and sharing data between functions easier."

Comal County will implement Tyler's Odyssey standard product suite, including Case Manager, Supervision, Law Enforcement, Jail, Jury, and Prosecutor. The County, which has been a Tyler customer since 1990, made the decision to upgrade its software to Tyler's Odyssey product suite following an extensive review of available systems by its Information Technology committee.

"Many local jurisdictions across the country need truly integrated justice systems, but in the past have been limited to solutions with narrow functionality or dated technology," commented Bruce Graham, president of Tyler's Courts & Justice Division. "With both the standard Odyssey product suite and the Odyssey Online solution, both Waller and Comal counties can take advantage of a truly integrated system that provides comprehensive functionality for the full life-cycle of a case."

Part of the Houston metropolitan area, Waller County is home to 36,000 residents and covers 519 square miles. It is one of the 13 counties that make up the Houston Galveston Area Council of Governments. Located in the San Antonio metropolitan area, Comal County is home to 109,600 residents and spreads over 575 square miles. The Guadalupe River runs through the county, which is on the Edwards Plateau.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to enable the public sector–cities, counties, schools and other government entities–to become more efficient, more accessible, and more responsive to the needs of citizens. Tyler's client base includes more than 9,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. Tyler has been named one of "America's 200 Best Small Companies" for three consecutive years by *Forbes* Magazine. More information about Tyler Technologies can be found at www.tylertech.com.

This document may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that are not historical in nature and typically address future or anticipated events, trends, expectations or beliefs with respect to our financial condition, results of operations or business. Forward-looking statements often contain words such as "believes," "expects," "anticipates," "foresees," "forecasts," "estimates," "plans," "intends," "continues," "may," "will," "should," "projects," "might," "could" or other similar words or phrases. Similarly, statements that describe our business strategy, outlook, objectives, plans, intentions or goals also are forward-looking statements. We believe there is a reasonable basis for our forward-looking statements, but they are inherently subject to risks and uncertainties and actual results could differ materially from the expectations and beliefs reflected in the forward-looking statements. We presently consider the following to be among the important factors that could cause actual results to differ materially from our expectations and beliefs: (1) economic, political and market conditions, including the recent global economic and financial crisis, and the general tightening of access to debt or equity capital; (2) our ability to achieve our financial forecasts due to various factors, including project delays by our customers, reductions in transaction size, fewer transactions, delays in delivery of new products or releases or a decline in our renewal rates for service agreements; (3) changes in the budgets or regulatory environments of our customers, primarily local and state governments, that could negatively impact information technology spending; (4) technological and market risks associated with the development of new products or services or of new versions of existing or acquired products or services; (5) our ability to successfully complete acquisitions and achieve growth or operational synergies through the integration of acquired businesses, while avoiding unanticipated costs and disruptions to existing operations; (6) competition in the industry in which we conduct business and the impact of competition on pricing, customer retention and pressure for new products or services; (7) the ability to attract and retain qualified personnel and dealing with the loss or retirement of key members of management or other key personnel; and (8) costs of compliance and any failure to comply with government and stock exchange regulations. A detailed discussion of these factors and other risks that affect our business are described in our filings with the Securities and Exchange Commission, including the detailed "Risk Factors" contained in our most recent annual report on Form 10-K. We expressly disclaim any obligation to publicly update or revise our forward-looking statements.
