Empowering people who serve the public™

Tyler Technologies and California's Victorville Water District Sign ERP Software Contract

ERP Software to Replace Legacy Solution

DALLAS – June 2, 2010 – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement to provide Tyler's Munis® enterprise resource planning (ERP) solution to Victorville Water District (Victorville, California), which serves more than 100,000 people daily. In addition to software licenses, the agreement includes related professional services, maintenance and support.

Victorville Water District, located on the southwestern edge of the Mohave Desert, needed to implement a fully integrated and automated utility billing system that would result in more accurate billing. Using Tyler's solution, the water district expects to increase efficiencies and revenues. Victorville Water District has invested in an extensive range of Tyler's Munis financial, human capital management, document management, and citizen service applications.

"Tyler's Munis ERP solution has a strong nationwide client base, including California," said Richard E. Peterson Jr., president of Tyler's ERP & School Divisions. "We look forward to working with Victorville Water District to provide consistent and convenient services for its citizens while helping the city to further enhance its operational efficiency."

About Tyler Technologies, Inc.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector–cities, counties, schools and other government entities–to become more efficient, more accessible, and more responsive to the needs of citizens. Tyler's client base includes more than 9,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. *Forbes* Magazine named Tyler as one of "America's 200 Best Small Companies" for three consecutive years.
