Empowering people who serve the public™

# Tyler Technologies and El Paso County, Texas Expand Partnership

*Tyler's Odyssey® Solution to Replace Legacy System*

**DALLAS – July 15, 2010 –** Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement to provide Tyler's Odyssey Courts & Justice solutions to El Paso County, Texas. The agreement is valued at approximately $5.3 million and includes software licenses, related professional services, maintenance, and support.

El Paso County, the 7th largest county in Texas, has used Tyler's previous generation Unix-based judicial system for more than ten years. El Paso decided to upgrade to Tyler's Odyssey integrated courts and justice solution suite to modernize their existing system and employ Web-based technology, allowing them to take full advantage of functional improvements and fully integrate its judicial databases amongst varying agencies. The county will implement Odyssey's Case Manager, Jail Manager, Prosecutor, Check Manager, Supervision and new Public Defender applications.

"Tyler's emphasis on integrated justice solutions provides customers like El Paso County with a unified courts and justice platform that meets the needs of all agencies and offers an enterprise-wide view of vital justice information," said Bruce Graham, president of Tyler's Courts & Justice Division. "We're glad El Paso County chose to leverage its current relationship with Tyler and we look forward to our continued partnership."

El Paso County is a member of the Texas Conference of Urban Counties (CUC), a non-profit organization consisting of 35 counties across the state that accounts for approximately 80 percent of the state's population. As a CUC member, the County will deploy Tyler's Odyssey integrated courts and justice software solutions based on Tyler's agreement with the CUC.

**About Tyler Technologies, Inc.**

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector–cities, counties, schools and other government entities–to become more efficient, more accessible, and more responsive to the needs of citizens. Tyler's client base includes more than 9,000 local government offices throughout all 50 states, Canada, Puerto Rico and the United Kingdom. *Forbes* Magazine named Tyler as one of "America's 200 Best Small Companies" for three consecutive years.
