

Tyler Technologies Signs SaaS-based ERP Contract With the City of Sanibel, Fla.

Island City Selects Tyler's Munis® ERP Solution and Disaster Recovery Services

DALLAS – Aug. 18, 2011 – Tyler Technologies, Inc. (NYSE: TYL) has signed a seven-year [software as a service](#) (SaaS) contract with the city of Sanibel, Fla., for Tyler's Munis® [enterprise resource planning](#) (ERP) solution and disaster recovery management. The agreement includes hosting services, related professional services, maintenance and support.

The city has made the decision to invest in a wide range of [Munis](#) applications, including financial management, human capital management, citizen and employee self-service, utility billing, community development applications and content management. Munis will be hosted and administered at Tyler's wholly owned data center in Falmouth, Maine.

About Tyler Technologies, Inc.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector—cities, counties, schools and other government entities—to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 9,000 local government offices throughout all 50 states, Canada, the Caribbean and the United Kingdom. *Forbes* Magazine named Tyler as one of "America's 200 Best Small Companies" for three consecutive years. More information about Tyler Technologies can be found at www.tylertech.com.
