

## Delaware's Largest County Chooses ERP Solution From Tyler Technologies

*Sussex County Signs Contract for Tyler's Munis® ERP Solution*

**DALLAS – Aug. 31, 2011** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with Sussex County, Del., for Tyler's Munis® [enterprise resource planning](#) (ERP) solution. The agreement, valued at approximately \$1.1 million, includes related professional services, maintenance and support.

Sussex County selected Tyler's Munis ERP solution to replace their 15-year-old JD Edwards system that lacked workflow efficiencies, hampered productivity and did not provide system integration across county departments. Tyler is uniquely positioned to fill this role and with Munis, the county can benefit from one integrated system that provides enterprise-wide reporting, reduced data entry and improved internal controls. Sussex has made the decision to invest in a wide range of [Munis](#) applications, including financial management, human capital management, citizen services and content management.

“Sussex County selected Tyler's Munis solution because it is a comprehensive system that integrates across county departments and is the best fit for our current and future ERP needs,” said Gina Jennings, Sussex County's director of accounting. “By implementing Munis, a system that is sold solely to the public sector and is configured to handle governmental accounting and its unique financial regulations, the county will have a huge advantage toward meeting its goal of following industry best-practices while becoming more efficient and productive.”

“Tyler's products serve as the backbone for core business functions in the public sector and we are dedicated to helping our clients streamline the many aspects of their financial management and citizen services systems,” said Richard E. Peterson Jr., president of Tyler's ERP & School Division. “We look forward to a long partnership with Sussex County.”

### **About Tyler Technologies, Inc.**

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector—cities, counties, schools and other government entities—to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 9,000 local government offices throughout all 50 states, Canada, the Caribbean and the United Kingdom. *Forbes* Magazine named Tyler as one of “America's 200 Best Small Companies” for three consecutive years.
