

## Tyler Technologies, Inc. Named to Software Magazine's 29th Annual Software 500

*Software Magazine Ranks Tyler Technologies as One of the World's Largest Software Companies*

**DALLAS – Oct. 4, 2011** – For the fourth consecutive year, Tyler Technologies, Inc. (NYSE: TYL) has been included on *Software Magazine's* Software 500 ranking of the world's largest software and service providers, now in its 29<sup>th</sup> year.

Tyler Technologies ranked 155<sup>th</sup> with software and services revenue of \$282.2 million in 2010.

“The 2011 Software 500 results show that revenue growth in the software and services industry was healthy, with total Software 500 revenue of \$541.5 billion worldwide for 2010, representing approximately 10 percent growth from the previous year's list,” says John P. Desmond, editor of *Software Magazine* and [SoftwareMag.com](http://SoftwareMag.com).

“We are honored to be recognized for the fourth straight year by *Software Magazine* as one of the 500 largest software companies in the world,” said John S. Marr Jr., president and chief executive officer of Tyler Technologies. “Tyler Technologies has a singular focus to serve only the public sector, where we have provided innovative software solutions for more than 45 years. Tyler Technologies continues to create significant value and provide the best and broadest scope of software and services available to the public sector.”

The Software 500 is a revenue-based ranking of the world's largest software and services suppliers, targeting medium to large enterprises, their IT professionals, software developers, and business managers involved in software and services purchasing.

The ranking is based on total worldwide software and services revenue for 2010. This includes revenue from software licenses, maintenance and support, training, and software-related services and consulting. Suppliers are not ranked on their total corporate revenue, since many have other lines of business, such as hardware. The financial information was gathered by a survey prepared by King Content Co. and posted at [www.softwaremag.com](http://www.softwaremag.com), as well as from public documents.
