

Forbes Names Tyler Technologies to “100 Best Small Companies” List

DALLAS – Oct. 25, 2011 – Tyler Technologies, Inc. (NYSE: TYL) announced today that it has been named to the *Forbes* list of the “100 Best Small Companies in America.” Tyler ranks No. 76 on the list, which is available on the Forbes [website](#).

To qualify as a “100 Best Small Companies” candidate, a company must have revenues of \$5 million to \$1 billion and a share price above \$5. The criteria used to judge the candidates include return on equity, sustained sales and earnings growth in the past 12 months and over five years, and stock performance versus each company’s peer group, among other measures.

“We are honored again to be named by *Forbes* as one of the best small companies in America,” said John S. Marr Jr., president and chief executive officer of Tyler Technologies. “We are pleased to be recognized for our consistently solid performance and growth, which results from our singular focus on providing the best software and services to the public sector.”

Tyler Technologies is the largest company exclusively focused on public sector software and services, with more than 10,000 local government offices in its client base.

About Tyler Technologies, Inc.

Based in Dallas, Tyler Technologies is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 10,000 local government offices throughout all 50 states, Canada, the Caribbean and the United Kingdom. *Forbes* has named Tyler one of “America’s Best Small Companies” four times in the last five years.
