

Tyler Technologies Signs Student Information System Contract With One of Missouri's Largest School Districts

Kansas City, Missouri School District selects Tyler SIS, Tyler Special Education and Tyler Pulse solutions

DALLAS – Jan. 12, 2012 – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the Kansas City, Missouri, School District (KCMSD) for Tyler's integrated student information management system, which includes applications from [Tyler SIS](#), Tyler Special Education and Tyler Pulse. The agreement includes software licenses, related professional services, maintenance and support.

KCMSD, which has approximately 16,700 students and 2,300 teachers and administrators, selected Tyler's student management solutions to greatly expand services and increase communications between teachers, students and parents. After a competitive review process, KCMSD selected modules from Tyler SIS to provide student data and parent notification management; [Tyler Special Education](#) to aid in developing individual learning plans for every student; and [Tyler Pulse](#) to provide advanced analytics to monitor Key Performance Indicators and student progress.

“As part of KCMSD's three-year technology plan, we needed a new Web-based student information system that was technologically advanced and could grow with our school district. We chose Tyler SIS after careful and fair evaluations from multiple vendors,” said Tom Brenneman, KCMSD's director of technology. “We selected Tyler's student management solution based on its broad service offerings and Tyler's reputation in Missouri for providing outstanding customer service.”

“More than half of Missouri's school districts use Tyler School solutions, which reflects the value that Tyler delivers to its customers,” said Christopher P. Hepburn, president of Tyler's School Division. “Tyler solutions will help the Kansas City, Missouri School District meet its operating objectives while supporting the needs of its administrators, staff, students and their parents well into the future.”

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 10,000 local government offices in all 50 states, Canada, the Caribbean and the United Kingdom. *Forbes* has named Tyler one of “America's Best Small Companies” four times in the last five years. More information about Dallas-based Tyler Technologies can be found at www.tylertech.com.
