

## Texas School District Selects Comprehensive Information System From Tyler Technologies

*Socorro ISD selects Tyler's Munis® ERP solution, Tyler SIS and Tyler Content Management*

**DALLAS – March 20, 2012** – Tyler Technologies, Inc. (NYSE: TYL) has signed a total school solution agreement with Socorro ISD in El Paso, Texas, for Tyler's Munis® [enterprise resource planning](#) (ERP) solution, Tyler SIS [student information solution](#), Tyler Pulse information warehouse, and Tyler Content Manager (TCM). The agreement, valued at approximately \$1.9 million, includes software licenses, related professional services, maintenance and support.

Socorro ISD, one of the fastest growing school districts in Texas with more than 42,400 students and 7,000 staff, selected a total school solution from Tyler for the benefits a single vendor solution provides, such as consistent implementation and services methodologies, a single contract and solid integration points. Socorro ISD has invested in a wide range of [Munis](#) and [Tyler SIS](#) applications, including financial management, human capital management, employee self service, student grade book, parent and student Web portal, and Texas Public Education Information Management System (PEIMS) reports. Tyler Pulse will aggregate management information from Tyler's solutions and Socorro's state and local assessments. Additionally, [TCM](#) will help the district manage its data more efficiently while reducing paper waste.

“Socorro ISD will realize many benefits from our integrated solutions, and the district's long-term investment is protected by Tyler's evergreen philosophy of continually investing in our technology platforms at no extra cost to the client,” said Richard E. Peterson Jr., president of Tyler's ERP & School Division. “Tyler is a good fit for Socorro ISD because delivering integrated systems is one of our core competencies. We have a very successful track record with state-mandated reports like PEIMS, and we have a history of providing excellent customer support and training to ISDs across Texas.”

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 10,000 local government offices in all 50 states, Canada, the Caribbean and the United Kingdom. *Forbes* has named Tyler one of “America's Best Small Companies” four times in the last five years. More information about Dallas-based Tyler Technologies can be found at [www.tylertech.com](http://www.tylertech.com).
