The Tyler Public Sector Excellence Awards program is open to all Tyler clients using Tyler’s Odyssey solution. The awards were created to recognize organizations that have demonstrated excellence in best practices for developing, deploying and maintaining Tyler solutions in new and successful ways. The awards honor innovation in organizational efficiency, productivity and responsiveness.

Award submissions were evaluated by a panel of Tyler leadership. Entries were judged on business value, innovation and relevance to other public sector organizations. Additional criteria met by award winners include:

- Creating a unique process utilizing a Tyler application
- Realizing significant savings after implementing a Tyler product
- Increasing staffing productivity by implementing a Tyler product
- Empowering employees, citizens or vendors through their website’s modules
- Improving the quality of services provided to citizens and partner agencies

All four Tyler Excellence Award winners were honored Wednesday, April 11, at the Tyler Connect 2012 User Conference in Grapevine, Texas, where they were presented with the award and given the opportunity to share their best practices and lessons learned with their public-sector peers. Winners also received an expense paid trip for one to the conference.

“Tyler’s Public Sector Excellence Awards program is our chance to publicly recognize clients who embrace our technology and expertise to meet their constituents’ needs while creating value for taxpayers in the form of operating and financial improvements through innovative use of Odyssey,” said Bruce Graham, president of Tyler’s Courts & Justice Division. “Feedback from our most pioneering clients further enhances the power of Tyler product suites, and we’re proud to offer a forum like Tyler’s Connect User conference where our clients can share real-world successes with their peers. Congratulations to all the winners of Odyssey’s Tyler Excellence Awards.”
