

Tyler Technologies Signs SaaS Contract With Boulder City, Nev., for Tyler's ERP Solution

City in Clark County signs contract for Tyler's Munis® SaaS ERP solution

DALLAS – Sept. 13, 2012 – Tyler Technologies, Inc. (NYSE: TYL) has signed a 7-year [software as a service](#) (SaaS) contract with the city of Boulder City, Nev., for Tyler's Munis® [enterprise resource planning](#) (ERP) solution. Boulder City selected Tyler's Munis ERP SaaS solution to replace various software programs that the city found to be outdated, cumbersome, manually driven and costly.

“I have used Munis in three of my previous jurisdictions and I fully understand Munis' capabilities; it's easy to use, the reporting capabilities are almost endless, data can be easily retrieved, and it is fully integrated which will allow us to be substantially more productive,” said Boulder City's Finance Director Shirley Hughes. “We selected the SaaS delivery model because it requires minimal technical resources on the city's side, and it provides valuable disaster recovery services. Munis will benefit multiple departments citywide because of its streamlined processes and integrated functionality.”

Boulder City, located in Clark County approximately 20 miles from Las Vegas, decided to invest in a wide range of [Munis](#) applications, including financial management, human capital management, content management and self service for vendors, citizens and employees. Munis will be hosted and administered at Tyler's data centers in Yarmouth, Maine, and Dallas, Texas. The agreement includes hosting services, related professional services and support.

“Our ERP software solutions empower our clients with proven strategies, innovative applications and ongoing support that maximizes their return on investment,” said Richard E. Peterson Jr., president of Tyler's ERP & School Division. “Additionally, our SaaS model is a cost-effective way to meet operational needs while securing important information with full disaster recovery services.”

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 10,000 local government offices in all 50 states, Canada, the Caribbean and the United Kingdom. *Forbes* has named Tyler one of “America's Best Small Companies” four times in the last five years. More information about Dallas-based Tyler Technologies can be found at www.tylertech.com.
